paid to the member while the member continued in employment with the employer.

Effective January 1, 2008, any payments not described above shall not be considered gross salary if paid after severance from employment, even if they are paid by the later of two and one-half (2 1/2) months after the date of severance from employment or the end of the calendar year that includes the date of severance from employment, except payments to an individual who does not currently perform services for the employer by reason of qualified military service within the meaning of Section 414(u)(5) of the Internal Revenue Code of 1986, as amended, to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

Effective January 1, 2008, back pay, within the meaning of Section 1.415(c)-2(g)(8) of the Income Tax Regulations, shall be treated as gross salary for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included in this definition.

Effective for years beginning after December 31, 2008, gross salary shall also include differential wage payments under Section 414(u)(12) of the Internal Revenue Code of 1986, as amended;

§47-2-301. Establishment - Law Enforcement Retirement Fund - Retirement Medical Benefit Fund - Right to benefits.

There is hereby established a System for the payment of retirement benefits and certain medical and hospital expenses of members of the Oklahoma Law Enforcement Retirement System. Effective July 1, 2014, the System intends to satisfy Section 401(a) of the Internal Revenue Code of 1986, as amended from time to time, by meeting the requirements of Section 414(d) of the Internal Revenue Code of 1986, as amended from time to time. Such System shall constitute an amendment and continuation of the Retirement and Pension Plan of the Department of Public Safety and members in the Retirement and Pension Plan on June 30, 1980, shall continue as members of the Oklahoma Law Enforcement Retirement System. There is established in the State Treasury a special fund designated as the "Oklahoma Law Enforcement Retirement Fund" for the benefit of members of the System and certain dependents of deceased members of the System. Such fund shall be a continuation, under a new name, of the Retirement and Pension Fund of the Department of Public Safety.

There is hereby created the Retirement Medical Benefit Fund. The fund shall be maintained as a subaccount of the Oklahoma Law Enforcement Retirement Fund. The Retirement Medical Benefit Fund is composed of all assets which may be contributed to this subaccount to pay the retirement system's portion of the monthly retiree health insurance premium benefit described by Section 1316.2 of Title 74 of the Oklahoma Statutes. Such monthly retiree health insurance premium benefit is in addition to, and subordinate to, the retirement benefits provided by this System. All such allocated assets and any earnings thereon in the Retirement Medical Benefit Fund shall be held for the exclusive purpose of providing retiree medical benefits. The Retirement Medical Benefit Fund is to be administered in accordance with the requirements of Section 401(h) of the Internal Revenue Code of 1986, as amended from time to time. It shall be impossible, at any time prior to the satisfaction of all liabilities for these benefits, for any part of this subaccount to be used for or diverted to, any purpose other than the providing of the retiree health insurance premium benefit and the payment of necessary and appropriate related expenses. Notwithstanding the provisions of Section 401(a)(2) of the Internal Revenue Code of 1986, as amended from time to time, effective July 1, 2014, upon the satisfaction of all liabilities under the Oklahoma Law Enforcement Retirement System to provide Section 401(h) medical benefits, any amount remaining in such separate subaccount must be returned to the employer. Effective July 1, 2014, in the event an individual's interest in the medical benefits subaccount is forfeited prior to the termination of the Oklahoma Law Enforcement Retirement System, an amount equal to the amount of the forfeiture must be applied as soon as possible to reduce employer contributions to fund the medical benefits described in Section 401(h). The Board of Trustees may promulgate such rules as are necessary to implement the funding

and administration of the fund pursuant to the provisions of this subsection. All contributions to fund the retiree health insurance benefit shall be made on the basis of a generally accepted actuarial method. Notwithstanding anything contained herein to the contrary, the aggregate of contributions to provide retiree health insurance benefits and life insurance, if any, shall not exceed twenty-five percent (25%) of the aggregate contributions made to fund all benefits under this System, other than contributions to fund past service costs. For this purpose, "life insurance" means, as to any member, the in-service death benefit that would be payable upon the member's death, but only to the extent that the lump-sum value of such death benefit would exceed the lump-sum value of the member's accrued benefit at the date of the member's death.

Appointment to any position within a covered agency which comes under this System shall not jeopardize the rights of any person who has previously qualified for membership under this System, provided that the individual contributions are continued, and such person remains a member of this System. Any person who has previously qualified for membership under the System who voluntarily seeks and accepts appointment to any position within a covered agency which is not a covered position excludes the member from further participation in this System; provided, this provision shall not apply to any person who is a member of the System and who, on or before June 30, 2002, has already accepted appointment to a position which is not a covered position of the System nor shall it apply if that person seeks and accepts any other position within a covered agency which is not a covered position of the System.

§47-2-301.1. Termination or partial termination of System.

(1) In the event the System is terminated or partially terminated the right of all participants or in the event of partial termination the rights of the affected participants, whether retired or otherwise, shall become fully vested.

(2) In the event of termination of the System, the Board shall distribute the net assets of the fund, allowing a period of not less than six (6) nor more than nine (9) months for dissolution of disability claims, as follows:

(a) First, accumulated contributions shall be allocated to each respective participant, former participant, retired member joint annuitant or beneficiary then receiving payments. If these assets are insufficient for this purpose, they shall be allocated to each such person in the proportion which his accumulated contributions bear to the total of all such participants' accumulated contributions. For purposes of this section, contribution means payment into the System by an employer or employee for the benefit of an individual employee.

(b) The balance of such assets, if any, remaining after making the allocations provided in subparagraph (a) of this section shall be disposed of by allocating to each person then having an interest in the fund the excess of his retirement income under the System less the retirement income which is equal to the actuarial equivalent of the amount allocated to him under subparagraph (a) of this section. Such allocation shall be made with the full amount of the remaining assets to be allocated to the persons in each group in the following order of precedence:

- (i) those retired members, joint annuitants or beneficiaries receiving benefits,
- (ii) those members eligible to retire,
- (iii) those members eligible for early retirement,
- (iv) former participants electing to receive a vested benefit, and
- (v) all other members.

In the event the balance of the fund remaining after all allocations have been made with respect to all retirement income in a preceding group is insufficient to allocate the full actuarial equivalent of such retirement income to all persons in the group for which it is then being applied, such balance of the fund shall be allocated to each person in such group in the proportion which the actuarial equivalent of the retirement income allocable to him pursuant to such group bears to the total actuarial equivalent of the retirement income so allocable to all persons in such group.

Provided no discrimination in value results, the Board shall distribute the amounts so allocated in one of the following manners as the Board in their discretion may determine:

- (i) by continuing payment of benefits as they become due, or
- (ii) by paying, in cash, the amount allocated to any such person.

Laws 1978, c. 310, § 1, emerg. eff. May 11, 1978; Laws 1980, c. 357, § 5, eff. July 1, 1980.

§47-2-302. Application for membership - Assistant Commissioner as member of System - Make-up contributions by certain employees.

A. Any person eligible to become a member of the System shall file a written application therefor with the Board, and shall continue thereafter as a member of the System so long as the employee meets membership requirements. For the purposes of computing contributions, employee contributions, pensions and annuities, the Assistant Commissioner of the Department of Public Safety shall be classified and categorized as a member of the System.

B. The Board may, after a hearing held for such purpose, allow employees of the Department of Public Safety who were hired by the Department after September 30, 1939, and prior to July 1, 1981, to pay to the System an amount equal to what the employee would have paid to the System if the employee had been enrolled in the System from the time of first employment. The Board shall determine any interest due on the amount paid pursuant to this subsection. Any payments allowed pursuant to this subsection shall be made prior to January 1, 1982.

Notwithstanding the foregoing, effective August 5, 1997, the Board may approve any offset of a member's benefit to pay a judgment or settlement against the member for a crime involving the System or for a breach of the member's fiduciary duty to the System, provided such offset is in accordance with the requirements of Section 401(a)(13) of the Internal Revenue Code of 1986, as amended.

B. 1. The provisions of subsection A of this section shall not apply to a qualified domestic order as provided pursuant to this subsection.

2. 3. For purposes of the payment of marital property, to qualify as an alternate payee, a spouse or former spouse must have been married to the related member for a period of not less than thirty (30) continuous months immediately preceding the commencement of the proceedings from which the qualified domestic order issues.

7. A qualified domestic order shall not require payment of benefits to an alternate payee prior to the actual retirement date of the related member.

8. The alternate payee shall have a right to receive benefits payable to a member of the System under the Oklahoma Law Enforcement Deferred Option Plan provided for pursuant to Section 2-305.2 of this title, but only to the extent such benefits have been credited or paid into the member's Oklahoma Law Enforcement Deferred Option Plan account during the term of the marriage.

9. The obligation of the System to pay an alternate payee pursuant to a qualified domestic order shall cease upon the death of the related member.

10. This subsection shall not be subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C.A. Section 1001, et seq., as amended from time to time, or rules and regulations promulgated thereunder, and court cases interpreting said act.

B. All benefits payable pursuant to the provisions of the Oklahoma Law Enforcement Retirement System, refunds of contribution and overpayments, and all administrative expenses in connection with the System shall be paid from the Oklahoma Law Enforcement Retirement Fund upon warrants or vouchers signed by two persons designated by the Board. Member contributions shall be deducted by each participating employer for such benefits as the Board is by law authorized to administer and shall be remitted monthly, or as the Board may otherwise provide, for deposit in the fund.

C. Each employer shall pick up under the provisions of Section 414(h)(2) of the Internal Revenue Code of 1986 and pay the contribution which the member is required by law to make to the System for all compensation earned after December 31, 1989. Although the contributions so picked up are designated as member contributions, such contributions shall be treated as contributions being paid by the employer in lieu of contributions by the member in determining tax treatment under the Internal Revenue Code of 1986 and such picked up contributions shall not be includable in the gross income of the member until such amounts are distributed or made available to the member or the beneficiary of the member. The member, by the terms of this System, shall not have any option to choose to receive the contributions so picked up directly and the picked up contributions must be paid by the employer to the System.

Member contributions which are picked up shall be treated in the same manner and to the same extent as member contributions made prior to the date on which member contributions were picked up by the participating employer. Member contributions so picked up shall be included in gross salary for purposes of determining benefits and contributions under the System.

The employer shall pay the member contributions from the same source of funds used in paying salary to the member, by effecting an equal cash reduction in gross salary of the member.

If such retired member is reemployed by a state agency in a position which is not covered by the System, such retired member shall continue to receive in-service distributions from the System. Prior to September 19, 2002, if such retired member was reemployed by a state agency in a position which is covered by the System, such member shall continue to receive in-service distributions from the System and shall not accrue any further credited service. If such a member is reemployed by a state agency in a position which is covered by the System on or after September 19, 2002, such member's monthly retirement payments shall be suspended until such member retires and is not reemployed by a state agency in a position which is covered by the System.

B. Beginning July 1, 1994, members who retired or were eligible to retire prior to July 1, 1980, or their surviving spouses shall receive annual retirement pay, payable in equal monthly payments, equal to the greater of their current retirement pay, or two and one-half percent (2 1/2%) of the actual paid gross salary being currently paid to a highway patrol officer, at the time each such monthly retirement payment is made, multiplied by the retired member's years of credited service.

C. Except as otherwise provided by this subsection, members of the System whose salary is set by statute who have retired after completion of the mandatory twenty (20) years of service, and those members with statutory salaries who retire after reaching the mandatory twenty-year retirement shall receive an annual retirement pay, payable in equal monthly installments, based upon the greater of either:

No member of the System retired prior to July 1, 2002, shall receive a benefit less than the amount the member is receiving as of June 30, 2002.

The provisions of paragraph 1 of this subsection shall not be applicable to any member whose first participating service with the System occurs on or after November 1, 2012, except for those members who died in the performance of their duties pursuant to Section 2-306 of this title.

D. Other members of the System whose retirement benefit is not otherwise prescribed by this section who have retired after completion of the mandatory twenty (20) years of service, and those members who retire after reaching the mandatory twenty-year retirement shall receive an annual retirement pay, payable in equal monthly payments, based upon the greater of either:

2. The other member's final average salary as set forth in paragraph 9 of Section 2-300 of this title, multiplied by two and one-half percent (2 1/2%), multiplied by the number of years of credited service and fraction thereof.

No member of the System retired prior to July 1, 2002, shall receive a benefit less than the amount the member is receiving as of June 30, 2002. The participating employer must certify to the System in writing the actual average gross salary currently paid to the highest nonsupervisory position. The Board of Trustees shall promulgate such rules as are necessary to implement the provisions of this section.

The provisions of paragraph 1 of this subsection shall not be applicable to any member whose first participating service with the System occurs on or after May 24, 2013, except for those members who died in the performance of their duties pursuant to Section 2-306 of this title.

E. A member who meets the definition of disability as defined in paragraph 11 of Section 2-300 of this title by direct reason of the performance of the member's duties as an officer shall receive a monthly benefit equal to:

1. Two and one-half percent (2 1/2%);
2. Multiplied by:
 - a. twenty (20) years of credited service, if the member had performed less than twenty (20) years of credited service, notwithstanding the actual number of years of credited service performed by the member prior to the date of disability, or
 - b. the actual number of years of credited service and fraction thereof performed by the member prior to the

date of disability, if the member had performed twenty (20) or more years of credited service;

3. Multiplied by the greater of subparagraph a of this paragraph and division 1 of subparagraph b of this paragraph or division 2 of subparagraph b of this paragraph, as applicable:

- a. the final average salary of the member, as set forth in paragraph 9 of Section 2-300 of this title, and
- b. (1) the top base salary currently paid to the highest nonsupervisory position in the participating agency of the member at the time each monthly payment is made, limited to the annual salary limit of the Economic Growth and Tax Relief Reconciliation Act of 2001 described in paragraph 9 of Section 2-300 of this title, for the following positions:
 - (a) Oklahoma Highway Patrolman,
 - (b) Communications Dispatcher,
 - (c) Capitol Patrolman,
 - (d) Lake Patrolman, and
 - (e) Oklahoma State Bureau of Investigation - Special Agent or Criminalist,

Provided, the participating employer must certify to the System in writing the top base salary currently paid to the highest nonsupervisory position for division (1) of subparagraph b of this paragraph, or

- (2) the actual average salary currently paid to the highest nonsupervisory position in the participating agency of the member at the time each monthly payment is made, limited to the annual salary limit of the Economic Growth and Tax Relief Reconciliation Act of 2001, described in paragraph 9 of Section 2-300 of this title, for the following positions:
 - (a) Alcoholic Beverage Laws Enforcement (ABLE) Commission - ABLE Commission Agent III,
 - (b) Oklahoma State Bureau of Narcotics and Dangerous Drugs Control - Narcotics Agent III,
 - (c) Oklahoma Tourism and Recreation Department - Park Ranger II,
 - (d) State Board of Pharmacy - Pharmacy Inspector,
 - (e) University of Oklahoma - Police Officer, and

4. No member of the System receiving benefits prescribed by this subsection who retired prior to July 1, 2002, shall receive a benefit of less than the amount the member was receiving as of June 30, 2002;

5. The Board of Trustees shall promulgate rules as necessary to implement the provisions of this subsection; and

6. If such member participates in the Oklahoma Law Enforcement Deferred Option Plan pursuant to Section 2-305.2 of this title, then such member's disability pension provided pursuant to this subsection shall be reduced to account for such member's participation in the Oklahoma Law Enforcement Deferred Option Plan.

F. A member who meets the definition of disability as defined in paragraph 11 of Section 2-300 of this title and whose disability is by means of personal and traumatic injury of a catastrophic nature and in the line of duty, shall receive a monthly benefit equal to:

1. Two and one-half percent (2 1/2%);

2. Multiplied by:

a. twenty (20) years of service, regardless of the actual number of years of credited service performed by the member prior to the date of disability, if the member had performed less than twenty (20) years of service, or

b. the actual number of years of service performed by the member if the member had performed twenty (20) or more years of service;

3. Multiplied by a final average salary equal to:

a. the salary which the member would have received pursuant to statutory salary schedules in effect upon the date of the disability for twenty (20) years of service prior to disability. The final average salary for a member who performed less than twenty (20) years of service prior to disability shall be computed assuming that the member was paid the highest salary allowable pursuant to the law in effect at the time of the member's disability based upon twenty (20) years of service and with an assumption that the member was eligible for any and all increases in pay based upon rank during the entire period. If the salary of a member is not prescribed by a specific salary schedule upon the date of the member's disability, the final average salary for the member shall be computed by the member's actual final average salary or the highest median salary amount for a member whose salary was prescribed by a specific salary schedule upon the date

- of the member's disability, whichever final average salary amount would be greater, or
- b. the actual final average salary of the member if the member had performed twenty (20) or more years of service prior to disability.

If such member participates in the Oklahoma Law Enforcement Deferred Option Plan pursuant to Section 2-305.2 of this title, such member's disability pension provided pursuant to this subsection shall be adjusted as provided in Section 2-305.2 of this title to account for such member's participation in the Oklahoma Law Enforcement Deferred Option Plan.

G. A member who meets the definition of disability as defined in Section 2-300 of this title and whose disability occurred prior to the member's normal retirement date but after completing three (3) years of vesting service and not by reason of the performance of the member's duties or as a result of the member's willful negligence shall receive a monthly benefit equal to two and one-half percent (2 1/2%) of final average salary multiplied by the number of years of the member's credited service.

H. Payment of a disability pension shall commence as of the first day of the month coinciding or next following the date of retirement and shall continue as long as the member meets the definition of total and permanent disability provided in this section.

I. For the purpose of determining the member's disability under subsection E, F or G of this section, the member shall be required by the Board to be examined by a minimum of two recognized physicians selected by the Board to determine the extent of the member's injury or illness. The examining physicians shall furnish the Board a detailed written report of the injury or illness of the examined member establishing the extent of disability and the possibilities of the disabled member being returned to his or her regular duties or an alternate occupation or service covered by the System after a normal recuperation period. The Board shall require all retired disabled members who have not attained their normal retirement date to submit to a physical examination once each year for a minimum of three (3) years following retirement. The Board shall select a minimum of two physicians to examine the retired members and pay for their services from the fund. Any retired disabled member found no longer disabled by the examining physicians to perform the occupation of the member or an alternate occupation or service covered by the System shall be required to return to duty and complete twenty (20) years of service as provided in subsection A of this section, or forfeit all his or her rights and claims under Section 2-300 et seq. of this title.

J. The disability benefit under this section shall be for the lifetime of the member unless such member is found no longer

disabled pursuant to subsection I of this section. Such member shall not be entitled to the retirement benefit pursuant to subsection A of this section unless such member returns to active duty and is eligible for a retirement benefit as provided in subsection A of this section.

K. At the postoffer, preemployment physical examination required under paragraph 6 of Section 2-300 of this title, the physician selected by the Board shall determine the extent to which a new member is disabled. If a member is determined to be partially disabled, the physician shall assign a percentage of disability to such partial disability. If such member then becomes entitled to a disability benefit under either subsection E or subsection G of this section, the benefit payable shall be reduced by the percentage which such member was determined to be disabled at the postoffer, preemployment physical unless the Board makes a determination that the initially determined percentage of disability at the preemployment physical examination is unrelated to the reason for the disability currently sought pursuant to subsection E or subsection G of this section. Upon employment, the member shall disclose to the Board any disability payments received from any source. The amount of disability to be paid to any member cannot exceed one hundred percent (100%) disability from all sources. The provisions of this subsection shall apply only to members whose effective date of membership is on or after July 1, 2000.

L. In addition to the pension provided for under subsection F of this section, if the member has one or more children under the age of eighteen (18) years or under the age of twenty-two (22) years if the child is enrolled full-time in and is regularly attending a public or private school or any institution of higher education, Four Hundred Dollars (\$400.00) a month shall be paid from the Fund for the support of each surviving child to the member or person having the care and custody of such children until each child reaches the age of eighteen (18) years or reaches the age of twenty-two (22) years if the child is enrolled full-time in and is regularly attending a public or private school or any institution of higher education.

M. Notwithstanding any other provisions in Section 2-300 through 2-315 of this title, in order to be eligible to receive disability benefits, a member who meets the definition of disability as defined in paragraph 11 of Section 2-300 of this title shall file the member's completed application for disability benefits with the System before such member's date of termination from service and provide such additional information that the System's rules require within six (6) months of the System's receipt of such application. If the member's completed application for disability benefits is not filed with the System before the member's date of termination from service or such additional information as is required under the

System's rules is not provided within six (6) months of the System's receipt of such application, such member shall be eligible only for such other benefits as are available to members of the System and shall not be eligible to receive any disability benefits. For good cause shown, the Board of Trustees may waive the requirement that the disability application be filed before the member's date of termination from service. In no event shall a member be eligible to receive any disability benefit if the member's completed application is filed more than six (6) months after the member's date of termination from service.

N. If the requirements of Section 2-305.1C of this title are satisfied, a member who, by reason of disability or attainment of normal retirement date or age, is separated from service as a public safety officer with the member's participating employer may elect to have payment made directly to the provider for qualified health insurance premiums by deduction from his or her monthly disability benefit or monthly retirement payment, after December 31, 2006, in accordance with Section 402(1) of the Internal Revenue Code of 1986, as amended. For distributions made after December 29, 2022, the election provided for under Section 402(1) of the Internal Revenue Code of 1986, as amended, may be made whether payment of the premiums is made directly to the provider of the accident or health plan or qualified long-term care insurance contract by deduction from a distribution from the System or is made to the member.

A. On July 1, 1988, a member who retired prior to July 1, 1985, or the surviving spouse of such a member or the surviving spouse of a member who became deceased prior to July 1, 1985, shall receive retirement benefits computed in accordance with the provisions of Section 2-305 of Title 47 of the Oklahoma Statutes. For the purpose of the computation, the final average salary shall be Two Thousand Two Hundred Seventeen Dollars (\$2,217.00).

Added by Laws 1985, c. 296, § 4, emerg. eff. July 24, 1985. Amended by Laws 1988, c. 267, § 23, operative July 1, 1988.

§47-2-305.1A. Direct rollover of distribution - Definitions - Notice - Election.

A. This section applies to distributions made on or after January 1, 2002. Notwithstanding any provision of the System to the contrary that would otherwise limit a Distributee's election hereunder, a Distributee, including a nonspouse designated beneficiary, to the extent permitted under paragraph 3 of subsection B of this section, may elect, at the time and in the manner prescribed by the Board, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Distributee in a Direct Rollover.

B. As used in this section:

1. "Eligible Rollover Distribution" means any distribution of all or any portion of the balance to the credit of the Distributee, except that an Eligible Rollover Distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the Distributee or the joint lives (or life expectancies) of the Distributee and the Distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code of 1986, as amended; and the portion of any distribution that is not includable in gross income. A portion of a distribution shall not fail to be an Eligible Rollover Distribution merely because the portion consists of after-tax member contributions which are not includable in gross income. However, such portion may be transferred only:

- a. from January 1, 2002, through December 31, 2006:

Effective for distributions after December 31, 2007, such after-tax portion may also be directly transferred to a Roth individual retirement account or annuity described in Section 408A of the Internal Revenue Code of 1986, as amended, ("Roth IRA"), subject to any limitations described in Section 408A(c) of the Internal Revenue Code of 1986, as amended;

2. "Eligible Retirement Plan" means an individual retirement account described in Section 408(a) of the Internal Revenue Code of 1986, as amended, an individual retirement annuity described in Section 408(b) of the Internal Revenue Code of 1986, as amended, an annuity plan described in Section 403(a) of the Internal Revenue Code of 1986, as amended, or a qualified trust described in Section 401(a) of the Internal Revenue Code of 1986, as amended, that accepts the Distributee's Eligible Rollover Distribution. Effective January 1, 2002, an Eligible Retirement Plan shall also mean an annuity contract described in Section 403(b) of the Internal Revenue Code of 1986, as amended, and an eligible plan under Section 457(b) of the Internal Revenue Code of 1986, as amended, which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from the System. Effective for distributions after December 31, 2007, an Eligible Retirement Plan includes a Roth IRA, subject to any limitations under Section 408A(c) of the Internal Revenue Code of 1986, as amended. 3. "Distributee" means an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a qualified domestic order, as defined in subsection B of Section 2-303.3 of this title, are Distributees with regard to the interest of the spouse or the former spouse. A Distributee also includes the member's nonspouse designated beneficiary (and certain trusts described in Section 402(c)(11)(B) of the Internal Revenue Code of 1986, as amended), pursuant to Section 401(a)(9)(E) of the Internal Revenue Code of 1986, as amended, who may elect any portion of a payment to be made in a Direct Rollover only to an individual retirement account or annuity (other than an endowment contract) described in Section 408(a) or (b) of the Internal Revenue Code of 1986, as amended, ("IRA") (including, effective for distributions after December 18, 2015, a SIMPLE IRA, but only if such contribution occurs after the two-year period described in Code Section 72(t)(6) and is made in accordance with the Protecting Americans from Tax Hikes Act of 2015), or, effective for distributions after December 31, 2007, to a Roth IRA, that is established on behalf of such nonspouse designated beneficiary for the purpose of receiving the distribution and that will be treated as an inherited IRA pursuant to the provisions of Section 402(c)(11) of the Internal Revenue Code of 1986, as amended. Also, in this case, the determination of any required minimum distribution under Section 401(a)(9) of the Internal Revenue Code of 1986, as amended, that is ineligible for rollover shall be made in accordance with Notice 2007-7, Q&A 17 and 18, 2007-5 Internal Revenue Bulletin 395. Such distribution may commence less than thirty (30) days after the notice is given, provided that:

1. The Board clearly informs the Distributee that the Distributee has a right to a period of at least thirty (30) days

after receiving the notice to consider the decision of whether or not to elect a distribution; and

2. The Distributee, after receiving the notice, affirmatively elects a distribution.

D. For distributions made after December 31, 2006, but prior to July 1, 2010, a distribution with respect to a nonspouse designated beneficiary shall be made in accordance with Notice 2007-7, Q&A 15, 2007-5 Internal Revenue Bulletin 395. Effective for plan years beginning after December 31, 2009, a distribution with respect to a nonspouse designated beneficiary shall be subject to Sections 401(a)(31), 402(f) and 3405(c) of the Internal Revenue Code of 1986, as amended.

E. Effective for distributions after December 31, 2014, for purposes of determining the portion of a disbursement of benefits from the System to a Distributee that is not includable in gross income under Section 72 of the Internal Revenue Code of 1986, as amended, the guidance under I.R.S. purpose of receiving the distribution. If such transfer is made, then:

1. For distributions made after December 31, 2006, but prior to July 1, 2010, the transfer is treated as an eligible rollover distribution for purposes of Section 402(c)(11) of the Internal Revenue Code of 1986, as amended. For plan years beginning after December 31, 2009, the transfer is treated as an eligible rollover distribution;

2. 2. The election shall only apply to distributions from the System after December 31, 2006, and to amounts not yet distributed to the eligible retired public safety officer;

3. Payments from the System for an eligible retired public safety officer's qualified health insurance premiums made directly to the provider of such coverage can only be made from the member's monthly disability benefit or monthly retirement payment from the

System and cannot be made from the Oklahoma Law Enforcement Deferred Option Plan; and

4. The aggregate amount of the exclusion from an eligible retired public safety officer's gross income is Three Thousand Dollars (\$3,000.00) per calendar year.

§47-2-305.2. Deferred option plans.

A. In lieu of terminating employment and accepting a service retirement pension pursuant to Section 2-305 of this title, any member of the Oklahoma Law Enforcement Retirement System who has not less than twenty (20) years of participating service and who is eligible to receive a service retirement pension may make an irrevocable election to participate in the Oklahoma Law Enforcement Deferred Option Plan and defer the receipts of benefits in accordance with the provisions of this section.

B. For purposes of this section, participating service shall include service credit recognized pursuant to paragraphs (c) and (d) of Section 2-307, subsection B of Section 2-307.2, and Sections 2-309.1, 2-309.2, 2-309.3, 2-309.4, 2-309.5 and 2-309.6 of this title but for eligibility purposes only.

C. The duration of participation in the Oklahoma Law Enforcement Deferred Option Plan for a member shall not exceed five

(5) years. Participation in the Oklahoma Law Enforcement Deferred Option Plan must begin the first day of a month and end on the last day of the month. At the conclusion of a member's participation in the Oklahoma Law Enforcement Deferred Option Plan, the member shall terminate employment as a member of the Oklahoma Law Enforcement Retirement System, and shall start receiving the member's accrued monthly retirement benefit from the System. Such a member may continue to receive in-service distributions of such member's accrued monthly retirement benefit from the System if the member is reemployed by a state agency only if such reemployment is in a position not covered under the System.

D. When a member begins participation in the Oklahoma Law Enforcement Deferred Option Plan, the contribution of the member shall cease. The employer contributions shall continue to be paid in accordance with Section 2-304 of this title. Employer contributions for members who elect the Oklahoma Law Enforcement Deferred Option Plan shall be credited equally to the Oklahoma Law Enforcement Retirement System and to the member's Oklahoma Law Enforcement Deferred Option Plan account. The monthly retirement benefits that would have been payable had the member elected to cease employment and receive a service retirement shall be paid into the member's Oklahoma Law Enforcement Deferred Option Plan account.

E. 1. A member who participates in this plan shall be eligible to receive cost of living increases.

2. A member who participates in this plan shall earn interest at a rate of two percentage points below the rate of return of the investment portfolio of the System, but no less than the assumed interest rate. The assumed interest rate shall be seven and five-tenths percent (7.5%) until the Board amends the assumed interest rate prospectively by resolution. The interest shall be credited to the individual account balance of the member on an annual basis.

F. A member in the Oklahoma Law Enforcement Deferred Option Plan shall receive, at the option of the member:

1. A lump-sum payment from the account equal to the option account balance of the member, payable to the member;

2. A lump-sum payment from the account equal to the option account balance of the member, payable to the annuity provider which shall be selected by the member as a result of the research and investigation of the member; or

3. Any other method of payment if approved by the Board.

Notwithstanding any other provision contained herein to the contrary, commencement of distributions under the Oklahoma Law Enforcement Deferred Option Plan shall be no later than the time as set forth in paragraph 7 of Section 2-300 of this title.

If a member meets the definition of disability as defined in paragraph 11 of Section 2-300 of this title by direct reason of the

performance of the member's duties, the payment from the account shall be an in-line-of-duty disability payment.

G. If the member dies during the period of participation in the Oklahoma Law Enforcement Deferred Option Plan, a lump-sum payment equal to the account balance of the member shall be paid to the designated beneficiary as defined in paragraph 17 of Section 2-300 of this title, or if there is no designated beneficiary or the designated beneficiary predeceases the member, to the estate of the member. If such member was receiving, or eligible to receive, an in-line-of-duty disability pension pursuant to subsection E or F of Section 2-305 of this title at the time of death, payment of the account balance shall be an in-line-of-duty disability payment.

H. In lieu of participating in the Oklahoma Law Enforcement Deferred Option Plan pursuant to subsections A, B, C, D, E and F of this section, a member may make an irrevocable election to participate in the Oklahoma Law Enforcement Deferred Option Plan pursuant to this subsection as follows:

1. For purposes of this subsection, the following definitions shall apply:

- a. "back drop date" means the date selected by the member which is up to five (5) years before the member elects to participate in the Oklahoma Law Enforcement Deferred Option Plan, but not before the date at which the member completes twenty (20) years of participating service,
- b. "termination date" means the date the member elects to participate in the Oklahoma Law Enforcement Deferred Option Plan pursuant to this subsection and the date the member terminates employment and starts receiving the member's accrued monthly retirement benefit from the System. Such termination has at all times included reemployment of a member by a state agency, but only in a position not covered under the System,
- c. "earlier attained participating service" means the participating service earned by a member as of the back drop date. Earlier attained participating service cannot be reduced to less than twenty (20) years of participating service, and
- d. "deferred benefit balance" means all retirement benefits that would have been paid from the back drop date to the termination date, and one-half (1/2) of the employer contributions from the back drop date to the termination date, with interest based on how the benefit would have accumulated on a compound annual basis as if the member had participated in the Oklahoma Law Enforcement Deferred Option Plan pursuant

to subsections A, B, C, D and E of this section from the back drop date to the termination date;

2. At the termination date, a member's monthly pension benefit shall be determined based on the earlier attained participating service and on the final average salary as of the back drop date. The member's individual deferred option account shall be credited with an amount equal to the deferred benefit balance; the member shall terminate employment and shall start receiving the member's accrued monthly retirement benefit from the System. The member shall, upon application filed with the Board, be refunded from the fund an amount equal to the accumulated contributions the member made to the fund from the back drop date to the termination date, but excluding any interest. Such termination has at all times included reemployment of a member by a state agency, but only in a position not covered under the System. The provisions of subsections B, C, E, F and G of this section shall apply to this subsection; and

3. A member may participate in the Oklahoma Law Enforcement Deferred Option Plan pursuant to this subsection even if the member has elected to participate in the Oklahoma Law Enforcement Deferred Option Plan pursuant to subsections A, B, C, D, E and F of this section. Such a member may select a back drop date which is up to five (5) years prior to the termination date, but not before the date at which the member completes twenty (20) years of participating service. Such a member's participation in the Oklahoma Law Enforcement Deferred Option Plan may not exceed five (5) years when combined with such a member's prior period of participation in the Oklahoma Law Enforcement Deferred Option Plan. The provisions of subsections B, C, E, F and G of this section shall apply to this subsection.

§47-2-305.3. Increase in benefits.

Any person receiving benefits from the Oklahoma Law Enforcement Retirement System as of June 30, 1993, shall receive a two and one-half percent (2 1/2%) increase in said benefits on July 1, 1994.

Added by Laws 1990, c. 340, § 21, eff. July 1, 1990. Amended by Laws 1994, c. 383, § 6, eff. July 1, 1994.

§47-2-305.4. Limitations on benefits and contributions under qualified plans of the Internal Revenue Code of 1986.

A. For limitation years prior to July 1, 2007, the limitations of Section 415 of the Internal Revenue Code of 1986, as amended, shall be computed in accordance with the applicable provisions of the System in effect at that time and, to the extent applicable, Revenue Ruling 98-1 and Revenue Ruling 2001-51, except as provided herein. Notwithstanding any other provision contained herein to the contrary, the benefits payable to a member from the Oklahoma Law Enforcement Retirement System provided by employer contributions (including contributions picked up by the employer under Section 414(h) of the Internal Revenue Code of 1986, as amended), shall be subject to the limitations of Section 415 of the Internal Revenue Code of 1986, as amended, in accordance with the provisions of this section and subsequent guidance. The limitations of this section shall apply in limitation years beginning on or after July 1, 2007, except as otherwise provided herein.

B. Except as provided herein, effective for limitation years ending after December 31, 2001, any accrued retirement benefit payable to a member as an annual benefit as described herein shall not exceed One Hundred Sixty Thousand Dollars (\$160,000.00), automatically adjusted under Section 415(d) of the Internal Revenue Code of 1986, as amended, for increases in the cost of living, as prescribed by the Secretary of the Treasury or the Secretary's delegate, effective January 1 of each calendar year and applicable to the limitation year ending with or within such calendar year. The automatic annual adjustment of the dollar limitation in this subsection under Section 415(d) of the Internal Revenue Code of 1986, as amended, shall apply to a member who has had a severance from employment.

1. The member's annual benefit is a benefit that is payable annually in the form of a straight life annuity. Except as provided herein, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this section. For a member who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this section as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new starting date has occurred shall be

made without regard to Section 1.401(a)-20, Q&A 10(d), and with regard to Section 1.415(b)-1(b)(1)(iii)(B) and (C) of the Income Tax Regulations.

2. No actuarial adjustment to the benefit shall be made for:
 - a. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the member's benefit were paid in another form,
 - b. benefits that are not directly related to retirement benefits (such as a qualified disability benefit, preretirement incidental death benefits) and postretirement medical benefits, or
 - c. the inclusion in the form of benefit of an automatic benefit increase feature, provided, the form of benefit is not subject to Section 417(e)(3) of the Internal Revenue Code of 1986, as amended, and would otherwise satisfy the limitations of this section, and the System provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this section applicable at the annuity starting date, as increased in subsequent years pursuant to Section 415(d) of the Internal Revenue Code of 1986, as amended. For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

3. The determination of the annual benefit shall take into account Social Security supplements described in Section 411(a)(9) of the Internal Revenue Code of 1986, as amended, and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant to Section 1.411(d)-4, Q&A-3(c), of the Income Tax Regulations, but shall disregard benefits attributable to employee contributions or rollover contributions.

4. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with paragraph 5 or paragraph 6 of this subsection.

5. Benefit Forms Not Subject to Section 417(e)(3) of the Internal Revenue Code of 1986, as amended: The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this paragraph 5 if the form of the member's benefit is either:

- a. a nondecreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the member (or, in the case of a qualified

- preretirement survivor annuity, the life of the surviving spouse), or
- b. an annuity that decreases during the life of the member merely because of:
 - (1) the death of the survivor annuitant (but only if the reduction is not below fifty percent (50%) of the benefit payable before the death of the survivor annuitant), or
 - (2) the cessation or reduction of Social Security supplements or qualified disability payments (as defined in Section 411(a)(9) of the Internal Revenue Code of 1986, as amended).
 - c. Limitation Years Beginning Before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount:
 - (1) the interest rate and the mortality table or other tabular factor, each as set forth in subsection H of Section 2-303.1 of this title for adjusting benefits in the same form, and
 - (2) a five percent (5%) interest rate assumption and the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable) for that annuity starting date.
 - d. Limitation Year Beginning On January 1, 2008. For the limitation year beginning on January 1, 2008, the actuarially equivalent straight life annuity is equal to the greater of:
 - (1) the annual amount of the straight life annuity, if any, payable to the member under the System commencing at the same annuity starting date as the member's form of benefit, and
 - (2) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a five percent (5%) interest rate assumption and the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable) for that annuity starting date.

- e. Limitation Years Beginning On or After July 1, 2008. For limitation years beginning on or after July 1, 2008, the actuarially equivalent straight life annuity is equal to the greater of:
 - (1) the annual amount of the straight life annuity, if any, payable to the member under the System commencing at the same annuity starting date as the member's form of benefit, and
 - (2) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a five percent (5%) interest rate assumption and the applicable mortality table within the meaning of Section 417(e)(3)(B) of the Internal Revenue Code of 1986, as amended, as described in Rev. Rul. 2007-67 (and subsequent guidance) for that annuity starting date.

6. Benefit Forms Subject to Section 417(e)(3) of the Internal Revenue Code of 1986, as amended: The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this paragraph if the form of the member's benefit is other than a benefit form described in paragraph 5 of this subsection. In this case, the actuarially equivalent straight life annuity shall be determined as follows:

- a. Annuity Starting Date on or after January 1, 2009. If the annuity starting date of the member's form of benefit is in the period beginning on January 1, 2009 through June 30, 2009, or in a plan year beginning after June 30, 2009, the actuarially equivalent straight life annuity is equal to the greatest of (1), (2) and (3):
 - (1) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the interest rate and the mortality table or other tabular factor, each as set forth in the most recent actuarial valuation referenced in subsection H of Section 2-303.1 of this title prior to September 1, 2011, and effective September 1, 2011, in subsection L of this section, for adjusting benefits in the same form,
 - (2) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a five

(a) the applicable interest rate under Section 417(e)(3) of the Internal Revenue Code of 1986, as amended, (and subsequent guidance), for the fourth calendar month preceding the plan year in which falls the annuity starting date for the distribution and the stability period is the successive period of one (1) plan year which contains the annuity starting date for the distribution and for which the applicable interest rate remains constant, or as otherwise provided in the applicable guidance if the first day of the first plan year beginning after December 31, 2007, does not coincide with the first day of the applicable stability period, and

(b) the applicable mortality table within the meaning of Section 417(e)(3)(B) of the Internal Revenue Code of 1986, as amended, as described in Rev. Rul. 2007-67 (and subsequent guidance),

divided by one and five one-hundredths (1.05).

b. Annuity Starting Date in the Period Beginning on July 1, 2008 through December 31, 2008. If the annuity starting date of the member's form of benefit is in the period beginning on July 1, 2008, through December 31, 2008, the actuarially equivalent straight life annuity is equal to the greatest of (1), (2) and (3) of this subsection:

(1) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the interest rate and the mortality table or other tabular factor, each as set forth in subsection H of Section 2-303.1 of this title for adjusting benefits in the same form,

- (2) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a five and one-half percent (5.5%) interest rate assumption and the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable), and
 - (3) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using:
 - (a) the adjusted first, second, and third segment rates under Section 417(e)(3)(C) and (D) of the Internal Revenue Code of 1986, as amended, applied under rules similar to the rules of Section 430(h)(2)(C) of the Internal Revenue Code of 1986, as amended, for the fourth calendar month preceding the plan year in which falls the annuity starting date for the distribution and the stability period is the successive period of one (1) plan year which contains the annuity starting date for the distribution and for which the applicable interest rate remains constant, or as otherwise provided in the applicable guidance if the first day of the first plan year beginning after December 31, 2007, does not coincide with the first day of the applicable stability period, and
 - (b) the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable),and divided by one and five one-hundredths (1.05).
- c. Annuity Starting Date in Plan Years Beginning in 2006 or 2007. If the annuity starting date of the member's form of benefit is in a Plan Year beginning in 2006 or 2007, the actuarially equivalent straight life annuity is equal to the greatest of (1), (2) and (3) of this subsection:
- (1) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the interest rate and the mortality table (or other tabular factor) each as set forth in subsection H

of Section 2-303.1 of this title for adjusting benefits in the same form,

- (2) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a five and one-half percent (5.5%) interest rate assumption and the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable), and
- (3) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using:
 - (a) the rate of interest on thirty-year Treasury securities as specified by the Commissioner for the lookback month for the stability period specified herein. The lookback month applicable to the stability period is the fourth calendar month preceding the first day of the stability period, as specified herein. The stability period is the successive period of one (1) plan year which contains the annuity starting date for the distribution and for which the applicable interest rate remains constant, and
 - (b) the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable),

divided by one and five one-hundredths (1.05).

d. Annuity Starting Date in Plan Years Beginning in 2004 or 2005.

- (1) If the annuity starting date of the member's form of benefit is in a plan year beginning in 2004 or 2005, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greater annual amount:
 - (a) the interest rate and the mortality table or other tabular factor, each as set forth in subsection H of Section 2-303.1 of this title for adjusting benefits in the same form, and

- (b) a five and one-half percent (5.5%) interest rate assumption and the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable).
- (2) If the annuity starting date of the member's benefit is on or after the first day of the first plan year beginning in 2004 and before December 31, 2004, the application of this subparagraph shall not cause the amount payable under the member's form of benefit to be less than the benefit calculated under the System, taking into account the limitations of this section, except that the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greatest annual amount:
- (a) the interest rate and mortality table or other tabular factor, each as set forth in subsection H of Section 2-203.1 of this title for adjusting benefits in the same form,
 - (b)
 - i. the rate of interest on thirty-year Treasury securities as specified by the Commissioner for the lookback month for the stability period specified herein. The lookback month applicable to the stability period is the fourth calendar month preceding the first day of the stability period, as specified herein. The stability period is the successive period of one (1) plan year which contains the annuity starting date for the distribution and for which the applicable interest rate remains constant, and
 - ii. the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable), and
 - (c)
 - i. the rate of interest on thirty-year Treasury securities as specified by the Commissioner for the lookback month for the stability period specified herein.

The lookback month applicable to the stability period is the fourth calendar month preceding the first day of the stability period, as specified herein. The stability period is the successive period of one (1) plan year which contains the annuity starting date for the distribution and for which the applicable interest rate remains constant (as in effect on the last day of the last plan year beginning before January 1, 2004, under provisions of the System then adopted and in effect), and

- ii. the applicable mortality table described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable).

C. If a member has less than ten (10) years of participation in the System and all predecessor pension and retirement systems, the dollar limitation otherwise applicable under subsection B of this section shall be multiplied by a fraction, the numerator of which is the number of the years of participation or part thereof, in the System of the member, but never less than one (1), and the denominator of which is ten (10).

D. Adjustment of Dollar Limitation for Benefit Commencement Before Sixty-two (62) Years of Age or After Sixty-five (65) Years of Age: Effective for benefits commencing in limitation years ending after December 31, 2001, the dollar limitation under subsection B of this section shall be adjusted if the annuity starting date of the member's benefit is before sixty-two (62) years of age or after sixty-five (65) years of age. If the annuity starting date is before sixty-two (62) years of age, the dollar limitation under subsection B of this section shall be adjusted under paragraph 1 of this subsection, as modified by paragraph 3 of this subsection, but subject to paragraph 4 of this subsection. If the annuity starting date is after sixty-five (65) years of age, the dollar limitation under subsection B of this section shall be adjusted under paragraph 2 of this subsection, as modified by paragraph 3 of this subsection.

1. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Sixty-two (62) Years of Age:

- a. Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is prior to sixty-two (62) years of age and occurs in a limitation year beginning before July 1, 2007, the dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the

form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:

- (1) the interest rate and the mortality table or other tabular factor, each as set forth in subsection H of Section 2-303.1 of this title, or
 - (2) a five percent (5%) interest rate assumption and the applicable mortality table as described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable).
- b. Limitation Years Beginning On or After July 1, 2007.
- (1) System Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Sixty-two (62) Years of Age and the Age of Benefit Commencement.
 - (a) If the annuity starting date for the member's benefit is prior to sixty-two (62) years of age and occurs in the limitation year beginning on or after January 1, 2008, and the System does not have an immediately commencing straight life annuity payable at both sixty-two (62) years of age and the age of benefit commencement, the dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for the annuity starting date as described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable) (and expressing the member's age based on completed calendar months as of the annuity starting date).

- (b) If the annuity starting date for the member's benefit is prior to sixty-two (62) years of age and occurs in a limitation year beginning on or after January 1, 2009, and the System does not have an immediately commencing straight life annuity payable at both sixty-two (62) years of age and the age of benefit commencement, the dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table within the meaning of Section 417(e) (3) (B) of the Internal Revenue Code of 1986, as amended, as described in Rev. Rul. 2007-67 (and subsequent guidance) (and expressing the member's age based on completed calendar months as the annuity starting date).
- (2) System Has Immediately Commencing Straight Life Annuity Payable at Both Sixty-two (62) Years of Age and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to sixty-two (62) years of age and occurs in a limitation year beginning on or after July 1, 2007, and the System has an immediately commencing straight life annuity payable at both sixty-two (62) years of age and the age of benefit commencement, the dollar limitation for the member's annuity starting date is the lesser of the limitation determined under division (1) of subparagraph b of this paragraph and the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the System at the member's annuity starting date to the annual

amount of the immediately commencing straight life annuity under the System at sixty-two (62) years of age, both determined without applying the limitations of this section.

- (3) Effective for limitation years commencing on or after January 1, 2014, notwithstanding any other provision of paragraph 1 of this subsection, the age-adjusted dollar limit applicable to a member shall not decrease on account of an increase in age or the performance of additional services.

2. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement After Sixty-five (65) Years of Age:

- a. Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is after sixty-five (65) years of age and occurs in a limitation year beginning before July 1, 2007, the dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount:
 - (1) the interest rate and the mortality table or other tabular factor, each as set forth in subsection H of Section 2-303.1 of this title, or
 - (2) a five percent (5%) interest rate assumption and the applicable mortality table as described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable).
- b. Limitation Years Beginning On or After July 1, 2007.
 - (1) System Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Sixty-five (65) Years of Age and the Age of Benefit Commencement.
 - (a) If the annuity starting date for the member's benefit is after sixty-five (65) years of age and occurs in the limitation year beginning on January 1, 2008, and the System does not have an immediately commencing straight life annuity payable at both sixty-five (65) years of age and the age of benefit commencement, the dollar limitation at the member's annuity starting

date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for the annuity starting date as described in Revenue Ruling 2001-62 (or its successor for these purposes, if applicable) (and expressing the member's age based on completed calendar months as of the annuity starting date).

(b) If the annuity starting date for the member's benefit is after sixty-five (65) years of age and occurs in a limitation year beginning on or after January 1, 2009, and the System does not have an immediately commencing straight life annuity payable at both sixty-five (65) years of age and the age of benefit commencement, the dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table within the meaning of Section 417(e) (3) (B) of the Internal Revenue Code of 1986, as amended, as described in Rev. Rul. 2007-67 (and subsequent guidance) (and expressing the member's age based on completed calendar months as of the annuity starting date).

(2) System Has Immediately Commencing Straight Life Annuity Payable at Both Sixty-five (65) Years of Age and Age of Benefit Commencement. If the

annuity starting date for the member's benefit is after sixty-five (65) years of age and occurs in a limitation year beginning on or after July 1, 2007, and the System has an immediately commencing straight life annuity payable at both sixty-five (65) years of age and the age of benefit commencement, the dollar limitation at the member's annuity starting date is the lesser of the limitation determined under division (1) of subparagraph b of this paragraph and the dollar limitation under subsection B of this section (adjusted under subsection C of this section for years of participation less than ten (10), if required) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the System at the member's annuity starting date to the annual amount of the adjusted immediately commencing straight life annuity under the System at sixty-five (65) years of age, both determined without applying the limitations of this section. For this purpose, the adjusted immediately commencing straight life annuity under the System at the member's annuity starting date is the annual amount of such annuity payable to the member, computed disregarding the member's accruals after sixty-five (65) years of age but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the System at sixty-five (65) years of age is the annual amount of such annuity that would be payable under the System to a hypothetical member who is sixty-five (65) years of age and has the same accrued benefit as the member.

3. Notwithstanding the other requirements of this subsection, no adjustment shall be made to the dollar limitation under subsection B of this section to reflect the probability of a member's death between the annuity starting date and sixty-two (62) years of age, or between sixty-five (65) years of age and the annuity starting date, as applicable, if benefits are not forfeited upon the death of the member prior to the annuity starting date. To the extent benefits are forfeited upon death before the annuity starting date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the member's death if the System does not charge members for providing a qualified

preretirement survivor annuity, as defined in Section 417(c) of the Internal Revenue Code of 1986, as amended, upon the member's death.

4. Notwithstanding any other provision to the contrary, for limitation years beginning on or after January 1, 1997, if payment begins before the member reached sixty-two (62) years of age, the reductions in the limitations in this subsection shall not apply to a member who is a "qualified participant" as defined in Section 415(b)(2)(H) of the Internal Revenue Code of 1986, as amended.

E. Minimum Benefit Permitted: Notwithstanding anything else in this section to the contrary, the benefit otherwise accrued or payable to a member under this System shall be deemed not to exceed the maximum permissible benefit if:

1. The retirement benefits payable for a limitation year under any form of benefit with respect to such member under this System and under all other defined benefit plans (without regard to whether a plan has been terminated) ever maintained by a participating employer do not exceed Ten Thousand Dollars (\$10,000.00) multiplied by a fraction:

- a. the numerator of which is the member's number of credited years (or part thereof, but not less than one (1) year) of service, not to exceed ten (10), with the participating employer, and
- b. the denominator of which is ten (10); and

2. The participating employer (or a predecessor employer) has not at any time maintained a defined contribution plan in which the member participated (for this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under Section 401(h) of the Internal Revenue Code of 1986, as amended, and accounts for postretirement medical benefits established under Section 419A(d)(1) of the Internal Revenue Code of 1986, as amended, are not considered a separate defined contribution plan).

F. In no event shall the maximum annual accrued retirement benefit of a member allowable under this section be less than the annual amount of such accrued retirement benefit, including early pension and qualified joint and survivor annuity amounts, duly accrued by the member as of the last day of the limitation year beginning in 1982, or as of the last day of the limitation year beginning in 1986, whichever is greater, disregarding any plan changes or cost-of-living adjustments occurring after July 1, 1982, as to the 1982 accrued amount, and May 5, 1986, as to the 1986 accrued amount.

G. If a member purchases service credit under this title from the System, which qualifies as "permissive service credit" pursuant to Section 415(n) of the Internal Revenue Code of 1986, as amended, the limitations of Section 415 of the Internal Revenue Code of 1986, as amended, may be met by either:

1. Treating the accrued benefit derived from such contributions as an annual benefit under subsection B of this section; or

2. Treating all such contributions as annual additions for purposes of Section 415(c) of the Internal Revenue Code of 1986, as amended.

H. If a member repays to the System any amounts received or refunded from the System because of the member's prior termination pursuant to paragraph 3 of subsection (b) of Section 2-307 of this title or any other amount which qualifies as a repayment under Section 415(k)(3) of the Internal Revenue Code of 1986, as amended, such repayment shall not be taken into account for purposes of Section 415 of the Internal Revenue Code of 1986, as amended, pursuant to Section 415(k)(3) of the Internal Revenue Code of 1986, as amended.

I. For limitation years beginning on or after January 1, 1995, subsection C of this section, paragraph 1 of subsection D of this section, and the proration provided under subparagraphs a and b of paragraph 1 of subsection E of this section, shall not apply to a benefit paid under the System as a result of the member becoming disabled by reason of personal injuries or sickness, or amounts received by the beneficiaries, survivors or estate of the member as the result of the death of the member.

J. For distributions made in limitation years beginning on or after January 1, 2000, the combined limit of repealed Section 415(e) of the Internal Revenue Code of 1986, as amended, shall not apply.

K. The Board is hereby authorized to revoke the special election previously made under Section 415(b)(10) of the Internal Revenue Code of 1986, as amended.

L. Effective September 1, 2011, the interest rate and mortality assumptions for the System used to determine the actuarial equivalence of a member's form of benefit shall be set by the State Board in a manner that precludes employer discretion, shall be based upon recommendations from independent professional advisors, and shall be published annually in the actuarial valuation.

M. All benefits payable from the Oklahoma Law Enforcement Retirement System including payments from the deferred option plans under Section 2-305.2 of this title shall be paid from the general assets of the Fund pursuant to subsection B of Section 2-303.4 of this title.

Added by Laws 1991, c. 323, § 5, emerg. eff. June 12, 1991. Amended by Laws 1999, c. 257, § 24, eff. July 1, 1999; Laws 2000, c. 287, § 17, eff. July 1, 2000; Laws 2003, c. 406, § 7, eff. §47-2-305.5. Additional retirement benefit.

A. Except as provided by subsection B of this section, the Oklahoma Law Enforcement Retirement System shall pay to its retirees, who retire not later than June 30, 1997, or their beneficiaries, from assets of the retirement system, an additional amount, for the fiscal year ending June 30, 1998, based upon the number of years of credited service upon which the retirement benefit of the member was computed as follows:

1. One Hundred Fifty Dollars (\$150.00) for at least ten (10), but no more than fourteen (14) years of service;
2. Three Hundred Dollars (\$300.00) for at least fifteen (15), but no more than nineteen (19) years of service;
3. Four Hundred Fifty Dollars (\$450.00) for at least twenty (20), but no more than twenty-four (24) years of service; and

C. For purposes of subsection A or B of this section, months of credited service in excess of a whole number of years shall be disregarded for purposes of determining the applicable payment amount.

D. The payment authorized by this section shall be distributed not later than August 1, 1997.

E. The payment authorized by this section shall not be a recurring benefit and shall only be made for the fiscal year ending June 30, 1998, and for no other fiscal year.

Added by Laws 1997, c. 384, § 21, eff. July 1, 1997.

§47-2-305.6. Benefit adjustment - Restoration of Initial COLA Benefit.

A. For purposes of this section the following definitions shall apply:

1. "Initial COLA Benefit Date" means the later of the member's date of benefit commencement or January 1, 1981. This date is used in the definition of Initial COLA Benefit and Target COLA Benefit;
2. "Initial COLA Benefit" means the accrued retirement benefit which will be used as the base benefit for determining the Target

COLA Benefit. The Initial COLA Benefit equals the benefit in payment status as of the Initial COLA Benefit Date. Furthermore, this benefit will reflect adjustment for military service credits, if any, granted after the Initial COLA Benefit Date;

3. "CPI-U" means the Consumer Price Index for all urban consumers for all goods and services, as published by the Bureau of Labor Statistics, U.S. Department of Labor. This is used as a measure of price inflation for the development of the Target COLA Benefit defined below; and

4. "Target COLA Benefit" is the Initial COLA Benefit adjusted to reflect price inflation as measured by CPI-U. The Target COLA Benefit is calculated for each eligible member to equal the member's Initial COLA Benefit multiplied by a ratio of (A) divided by (B) as follows:

(A) is the CPI-U as of July 1, 1997.

(B) is the CPI-U as of July 1 of the calendar year of the Initial COLA Benefit Date.

B. The Board shall, effective July 1, 1998, implement a benefit adjustment, to increase, if necessary, the retirement benefit for any person receiving benefits from the System as of June 30, 1997. This benefit adjustment is intended to restore one hundred percent (100%) of the loss of the Initial COLA Benefit, if any, due to price inflation, as measured by CPI-U. The benefit adjustment shall be one hundred percent (100%) of the amount by which the Target COLA Benefit is in excess, if any, of the June 1998 retirement benefit. Persons who retired after December 31, 1996 and before July 1, 1997, shall receive a benefit increase based on one-half (1/2) of the CPI-U change for the period beginning January 1, 1997 and before July 1, 1997.

C. Any increase in benefits a person is eligible to receive pursuant to subsection B of Section 2-305 of Title 47 of the Oklahoma Statutes, after June 30, 1998, shall be offset by the increase in benefits, if any, provided by this section.

Added by Laws 1998, c. 317, § 4, eff. July 1, 1998.

§47-2-305.7. Benefit increase - Offset.

A. Except as provided in subsection B of this section, any person receiving benefits from the Oklahoma Law Enforcement Retirement System as of June 30, 1999, who continues to receive benefits on or after July 1, 2000, shall receive a three percent (3%) increase in said benefits on July 1, 2000.

B. Any increase in benefits a person is eligible to receive pursuant to subsection B of Section 2-305 of Title 47 of the Oklahoma Statutes, after June 30, 1998, shall be offset by the increase in benefits, if any, provided by this section.

Added by Laws 2000, c. 377, § 8, eff. July 1, 2000.

No surviving spouse shall receive benefits from this section, Section 49-113 of Title 11 of the Oklahoma Statutes, or Section 50-117 of Title 11 of the Oklahoma Statutes as the surviving spouse of more than one member of the Oklahoma Firefighters Pension and Retirement System, the Oklahoma Police Pension and Retirement System, or the Oklahoma Law Enforcement Retirement System. The surviving spouse of more than one member shall elect which member's benefits he or she will receive.

public or private school or any institution of higher education, Four Hundred Dollars (\$400.00) a month shall be paid from said Fund for the support of each surviving child to the person having the care and custody of such children during such time as said spouse remains alive and until each child reaches the age of eighteen (18) years or reaches the age of twenty-two (22) years if the child is enrolled full time in and is regularly attending a public or private school or any institution of higher education.

D. Upon the death of a retired member, the benefit payment for the month in which the retired member died, if not previously paid, shall be made to the beneficiary of the member or to the member's estate if there is no beneficiary. (b) In the event a member of the System obtains a leave of absence for the purpose of accepting other employment, or if a member resigns and during such resignation accepts other employment, the member's membership in the System shall terminate as of the date of the beginning of such leave. Provided, that if the membership of a member of the System shall have been terminated either by such leave of absence or by termination of employment, and such former member is reemployed, the Board, upon application therefor made in the same manner as an original application for membership in the System, may reinstate such membership. Such reinstated member shall be allowed full credit toward retirement for all service credit accrued up to the time of termination of membership if, but only if:

2. Such reinstated member remains a member of the System for a period of five (5) consecutive years after reinstatement of membership;

3. Such reinstated member reimburses the Fund, at the time application for reinstatement is made, with the amount of any portion of the membership contribution which has been refunded to the member under the provisions of Section 2-308 of this title; and

The member's employing agency that is making contributions to the System on behalf of the member shall continue payment of contributions into the pension fund, to the same force and effect as though the member was in the actual employment of such agency at the same salary for a period not to exceed five (5) years. If such member shall have been refunded any

portion of the membership contributions as provided in Section 2-308 of this title, the member shall be required to reimburse the Fund with the same amount at the time of the member's application for reinstatement in the System, before the reinstated member is given credit for accrued prior service. Provided, that in no event shall a member of the System who has entered such Armed Forces or component thereof prior to retirement be or become eligible for retirement for length of service unless the member shall thereafter have been reinstated as a member of the System as provided for herein, and thereafter remained a member for at least one (1) year after such reinstatement.

(d) Time spent on involuntary furlough by members pursuant to the rules of the Office of Management and Enterprise Services shall be credited.

(e) Notwithstanding any provisions herein to the contrary:

1. Contributions, benefits and service credit with respect to qualified military service shall be provided in accordance with Section 414(u) of the Internal Revenue Code of 1986, as amended, which is in accordance with the Uniformed Service Employment and Reemployment Rights Act of 1994, as amended (USERRA). §47-2-307.5. Transferred credited service - Computation of purchase price.

A. The Board shall adopt rules for computation of the purchase price for transferred credited service. These rules shall base the purchase price for each year purchased on the actuarial cost of the incremental projected benefits to be purchased. The purchase price shall represent the present value of the incremental projected benefits discounted according to the member's age at the time of purchase. Incremental projected benefits shall be the difference between the projected benefit said member would receive without purchasing the transferred credited service and the projected

benefit after purchase of the transferred credited service computed as of the earliest age at which the member would be able to retire. Said computation shall assume an unreduced benefit and be computed using interest and mortality assumptions consistent with the actuarial assumptions adopted by the Board for purposes of preparing the annual actuarial evaluation.

B. In the event that the member is unable to pay the purchase price provided for in this section by the due date, the Board shall permit the members to amortize the purchase price over a period not to exceed sixty (60) months. Said payments shall be made by payroll deductions unless the Board permits an alternate payment source. The amortization shall include interest in an amount not to exceed the actuarially assumed interest rate adopted by the Board for investment earnings each year. Any member who ceases to make payment, terminates, retires or dies before completing the payments provided for in this section shall receive prorated service credit for only those payments made, unless the unpaid balance is paid by said member, his or her estate or successor in interest within six (6) months after said member's death, termination of employment or retirement, provided no retirement benefits shall be payable until the unpaid balance is paid, unless said member or beneficiary affirmatively waives the additional six-month period in which to pay the unpaid balance. Notwithstanding anything herein to the contrary, lump-sum payments for a transferred credited service purchase may be made by a cash lump-sum payment; a trustee-to-trustee transfer of non-Roth funds from a Code Section 403(b) annuity or custodial account, an eligible deferred compensation plan described in Code Section 457(b) which is maintained by an eligible employer described in Code Section 457(e) (1) (A), and/or a Code Section 401(a) qualified plan; a direct rollover of tax-deferred funds from a Code Section 403(b) annuity or custodial account, an eligible deferred compensation plan described in Code Section 457(b) which is maintained by an eligible employer described in Code Section 457(e) (1) (A), a Code Section 401(a) qualified plan, and/or a Code Section 408(a) or 408(b) traditional or conduit Individual Retirement Account or Annuity (IRA); or a combination of the foregoing methods. Roth accounts, Coverdell Education Savings Accounts and after-tax contributions shall not be used to purchase transferred credited service.

A member making installment payments shall have the option of making a lump-sum payment for the balance of the actuarial purchase price with interest due through the date of payment by a cash lump-sum payment; a trustee-to-trustee transfer of non-Roth funds from a Code Section 403(b) annuity or custodial account, an eligible deferred compensation plan described in Code Section 457(b) which is maintained by an eligible employer described in Code Section 457(e) (1) (A), and/or a Code Section 401(a) qualified plan; a direct

rollover of tax-deferred funds from a Code Section 403(b) annuity or custodial account, an eligible deferred compensation plan described in Code Section 457(b) which is maintained by an eligible employer described in Code Section 457(e)(1)(A), a Code Section 401(a) qualified plan, and/or a Code Section 408(a) or 408(b) traditional or conduit Individual Retirement Account or Annuity (IRA); or a combination of the foregoing methods. Roth accounts, Coverdell Education Savings Accounts and after-tax contributions shall not be used to purchase transferred credited service. The Board shall promulgate such rules as are necessary to implement the provisions of this subsection.

§47-2-307.7. Reduction-in-force termination credit.

A. A member of the Oklahoma Law Enforcement Retirement System who has ten (10) or more years of full-time-equivalent employment with a participating employer, and who is terminated by a state agency or other state governmental entity because the member's position is eliminated through a reduction-in-force after July 1, 1998, and is within three (3) years of a normal retirement date as defined in paragraph 7 of Section 2-300 of this title may purchase termination credit of a period not to exceed the lesser of three (3) years or the number of years or months or both years and months required in order for the member to reach normal retirement date in the same period of time and with the same service credit which would have otherwise accrued if the termination had not occurred.

B. In order to receive the termination credit authorized by this section, the member shall be required to file an election with the System indicating an intent to purchase the credit. The member shall have a period of six (6) months from the date the member is terminated as described in subsection A of this section within which to file the election.

C. To purchase the termination credit, the member shall be required to make payment to the System of an amount equal to both the employer and employee contributions which would have been paid to the System based upon the actual paid base salary as defined in paragraph 8 of Section 2-300 of this title, which was received by the member in the last full month that the member was employed by the state agency or other state governmental entity multiplied by

the number of months required in order for the combination of the participating service and member's age to equal the amount required for the member to reach normal retirement date with an unreduced benefit as if the member had not been terminated.

D. The member must make full payment to the System of all required contribution amounts within sixty (60) days of filing the election to purchase the credit. The member must vest his or her benefits with a declared future retirement date as of the first month the member is eligible for normal retirement. Failure to make the full payment to the System of the required contribution amounts, for any reason, within the time prescribed, shall result in cancellation of the election provided pursuant to this section, and return of the purchase amount tendered, without interest. Notwithstanding anything herein to the contrary, termination credit purchases may be made by:

1. A cash lump-sum payment;
2. A trustee-to-trustee transfer of non-Roth funds from a Code Section 401(a) qualified plan;
3. A direct rollover of tax-deferred funds from a Code Section 403(b) annuity or custodial account, an eligible deferred compensation plan described in Code Section 457(b) which is maintained by an eligible employer described in Code Section 457(e) (1) (A), a Code Section 401(a) qualified plan, and/or a Code Section 408(a) or 408(b) traditional or conduit Individual Retirement Account or Annuity (IRA). Roth accounts, Coverdell Education Savings Accounts and after-tax contributions shall not be used to purchase such service credit; or
4. Any combination of the above methods of payment.

E. Purchased termination credit may only be used as service credit to qualify the member for normal retirement.

F. If the member chooses to retire at any time prior to the member's normal retirement date or returns to employment with a participating employer of the System at any time prior to retirement, the purchase of termination credit pursuant to this section shall be void and the System will return the purchase amount tendered, without interest.

G. In the event of the death of the member prior to retirement, the member's spouse, if otherwise eligible for benefits pursuant to Section 2-306 of this title, may elect to receive benefits which include the termination credit on the member's declared future retirement date, or may elect to receive a return of the purchase amount tendered, without interest.

Added by Laws 1998, c. 256, § 8, eff. July 1, 1998. Amended by Laws 2003, c. 406, § 13, eff. July 1, 2003; Laws 2004, c. 542, § 7, eff. July 1, 2004; Laws 2006, 2nd Ex. Sess., c. 46, § 28, eff. July 1, 2006; Laws 2016, c. 8, § 7, emerg. eff. April 5, 2016.

§47-2-308. Payments on termination of membership - Reemployment.

A. A member who terminates his service before normal retirement date, other than by death or disability, shall, upon application filed with the Board, be entitled to be refunded from the fund an amount equal to the accumulated contributions the member has made to the fund, but excluding any interest or any amount contributed by the state. If such member has completed ten (10) years of credited service at the date of termination, the member may elect a vested benefit in lieu of receiving his accumulated contributions.

If the member who has completed ten (10) or more years of credited service elects the vested benefit, the member shall be entitled to a monthly retirement annuity commencing on the member's normal retirement date to be determined as if the member's employment continued uninterrupted. The annual amount of such retirement annuity shall be equal to two and one-half percent (2 1/2%) of final average salary multiplied by the number of years of credited service. The death benefits provided for under Section 2-306 of this title shall apply to any member retiring under the provisions of this subsection.

B. A member who terminated service before the normal retirement date of such member and elected a vested benefit in lieu of receiving accumulated contributions may upon reemployment be allowed full credit toward retirement for all credited service accrued for the vested benefit. This subsection shall apply to employees of the Oklahoma State Bureau of Investigation, the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, the Department of Public Safety and the Oklahoma Alcoholic Beverage Control Board whose benefits had vested in the Oklahoma Public Employees Retirement System prior to the establishment of the Oklahoma Law Enforcement Retirement System. Upon reemployment of said employee by an agency whose employees are now members of the Oklahoma Law Enforcement Retirement System, the Oklahoma Public Employees Retirement System shall transfer to the Oklahoma Law Enforcement Retirement System all funds contributed by the individual member being reemployed and all funds contributed by the state for such member.

§47-2-308.1. Election to defer commencement of retirement benefits.

Any member retiring under the provisions of the System shall have the opportunity to elect to defer the commencement of retirement benefits by one-year periods by an election in writing submitted to the Board not later than thirty (30) days prior to the member's normal retirement date or the member's actual retirement

date, whichever is later. Such elections may be made successively but may not be deferred later than age sixty-five (65). Retirement benefits payable to members electing to defer the commencement of payments shall be increased by five percent (5%) of the amount that would otherwise be paid for each year payments are deferred. §47-2-308.2. Actuarial investigation - Establishment of tables and rates - Actuarial valuation of assets and liabilities - Determination of employer contributions.

A. At least once each five (5) years the actuary shall make an actuarial investigation of the experience of the System including the mortality, service and compensation experience of members and beneficiaries. Based on the results of such investigation the actuary shall recommend for adoption by the Board such tables and rates as are required for the operation of the System and for the preparation of annual actuarial valuations.

B. On the basis of such tables and rates as the Board shall adopt, the actuary shall prepare an annual actuarial valuation of the assets and liabilities of the System and certify the rates of contribution payable by the state under the provisions of law concerning the System.

C. Subject to the funds available to the System, the employer contributions to the System shall be determined on the basis of the most recent actuarial valuation, which amount shall be calculated as the sum of the normal cost for the fiscal year plus expected administrative expenses plus the payment required to amortize the unfunded accrued liability according to the amortization schedule recommended by the actuary and adopted by the Board.

The proceedings of the Board shall be kept by the Secretary of the Board and reduced to writing in books kept for that purpose and shall include all claims filed, allowed or rejected and a copy of each resolution, action or order of the Board. Any objection to the allowance or disallowance of any claim presented to the Board shall be presented to the Board within thirty (30) days after notification of such allowance or disallowance, and, the Board shall set a date for hearing thereon and shall cause written notice of such hearing to be mailed to the claimant and to the contestant, if the contestant be one other than a member of the Board, not less than ten (10) days prior to such hearing, at which hearing evidence bearing upon the propriety and correctness of the claim may be introduced. Any and all evidence introduced upon such a hearing shall be taken and transcribed by, or under the supervision of, the Secretary of the Board, and a copy thereof, together with a copy of the order or decision of the Board, shall be kept as a part of the official record of the Board. Any person aggrieved by any action of the Board may appeal to the district court of Oklahoma County, Oklahoma, by filing in the office of the court clerk of said county, within thirty (30) days after the signing and filing of the Board's written decision or order in the matter, a petition setting forth such order or decision and the grounds upon which such appeal is taken, together with a true and complete transcript of the proceedings before the Board, and causing summons to be issued and served, as in civil actions, upon the President of the Board. The restricted licensee may apply on or after thirty (30) days from date of issuance of the restricted Class D license with a motorcycle-only restriction to have the restriction of being accompanied by a licensed driver removed by successfully completing the driving portion of an examination.

The written examination and driving examination for a restricted Class D license with a motorcycle-only endorsement shall be waived by Service Oklahoma upon verification that the person has successfully completed a certified state-approved motorcycle basic rider course approved by the Department and Service Oklahoma.

that the special permit shall be temporary and shall expire not more than thirty (30) days after the issuance of the special permit. Special permits shall be issued only to farm residents and shall be issued only during the time of the harvest of the principal crops grown on such farm. Provided, however, Service Oklahoma shall not issue a special permit pursuant to this subsection until Service Oklahoma is fully satisfied after the examination of the application and other evidence furnished in support thereof, that the person is physically and mentally developed to such a degree that the operation of a motor vehicle by the person would not be inimical to public safety.

C. Any person:

1. Who is at least fifteen and one-half (15 1/2) years of age and is currently receiving instruction in or has successfully completed driver education. For purposes of this section, the term "driver education" shall mean:

- a. a prescribed secondary school driver education course, as provided for in Sections 19-113 through 19-121 of Title 70 of the Oklahoma Statutes,

- e. a driver education course certified by a state other than Oklahoma; or

2. Who is at least sixteen (16) years of age, may, upon successfully passing all parts of the driver license examination administered by Service Oklahoma, or an approved written examination proctor, except the driving examination, be issued a learner permit which will grant the permittee the privilege to operate a Class D motor vehicle upon the public highways only between the hours of 5:00 a.m. and 10:00 p.m. and while accompanied by a licensed driver who is at least twenty-one (21) years of age and who is actually occupying a seat beside the permittee; provided, the written examination for a learner permit may be waived by Service Oklahoma upon verification that the person has successfully completed driver education.

D. 1. Any person:

- a. who has applied for, been issued, and has possessed a learner permit for a minimum of one hundred eighty (180) days,

of actual behind-the-wheel training, of which at least ten (10) hours of such training was at night, from a licensed driver who was at least twenty-one (21) years of age and who was properly licensed to operate a Class D motor vehicle for a minimum of two (2) years, and

- c. who has completed a free course approved by the Oklahoma Department of Transportation on teen driver work zone and first responder safety,

may be issued an intermediate Class D license upon successfully passing all parts of the driver license examinations administered by Service Oklahoma; provided, the written examination, if it has not previously been administered or waived, may be waived by Service Oklahoma upon verification that the person has successfully completed driver education or the driving examination may be waived by Service Oklahoma upon successful passage of the examination administered by a certified designated examiner, as provided for in Section 6-110 of this title. However, notwithstanding the date of issuance of the learner permit, if the person has been convicted of a traffic offense which is reported on the driving record of that person, the time period specified in subparagraph a of this paragraph shall be recalculated to begin from the date of conviction for the traffic offense, and must elapse before that person may be issued an intermediate Class D license. If the person has been convicted of more than one traffic offense which is reported on the driving record of that person, the time period specified in subparagraph a of this paragraph shall be recalculated to begin from the most recent date of conviction, and must elapse before that person may be issued an intermediate Class D license.

2. A person who has been issued an intermediate Class D license under the provisions of this subsection:

 - (2) at any time, if a licensed driver who is at least twenty-one (21) years of age is actually occupying a seat beside the intermediate Class D licensee, or if the intermediate Class D licensee is a farm or ranch resident, and is operating a motor vehicle while engaged in farming or ranching operations outside the limits of a municipality, or driving to and from work, school, school activities, or church activities, and

- b. shall not operate a motor vehicle with more than one passenger unless:
 - (1) all passengers live in the same household as the custodial legal parent or legal guardian, or
 - (2) a licensed driver at least twenty-one (21) years of age is actually occupying a seat beside the intermediate Class D licensee.

E. Any person who has been issued an intermediate Class D license for a minimum of:

1. One (1) year; or

2. One hundred eighty (180) days, if the person has completed both the driver education and the parent-certified behind-the-wheel training provisions of subparagraph b of paragraph 1 of subsection D of this section,

may be issued a Class D license. However, notwithstanding the date of issuance of the Class D license, if the person has been convicted of a traffic offense which is reported on the driving record of that person, the time periods specified in paragraph 1 or 2 of this subsection, as applicable, shall be recalculated to begin from the date of conviction for the traffic offense, and must elapse before that person may be issued a Class D license. If the person has been convicted of more than one traffic offense which is reported on the driving record of that person, the time periods specified in paragraph 1 or 2 of this subsection, as applicable, shall be recalculated to begin from the most recent date of conviction, and must elapse before that person may be issued a Class D license.

F. Learner permits and intermediate Class D licenses shall be issued for the same period as all other driver licenses. The licenses may be suspended or canceled at the discretion of the Department, with notice to Service Oklahoma for violation of restrictions, for failing to give the required or correct information on the application, for knowingly giving false or inaccurate information on the application or any subsequent documentation related to the granting of driving privileges, for using a hand-held electronic device while operating a motor vehicle for non-life-threatening emergency purposes or for violation of any traffic laws of this state pertaining to the operation of a motor vehicle.

Who is at least sixteen (16) years of age, may, upon successfully passing all parts of the driver license examination administered by Service Oklahoma, or an approved written examination proctor, except the driving examination, be issued a learner permit which will grant the permittee the privilege to operate a Class D motor vehicle upon the public highways only between the hours of 5:00 a.m. and 10:00 p.m. and while accompanied by a licensed driver who is at least twenty-one (21) years of age and who is actually occupying a seat beside the permittee; provided, the written examination for a learner permit may be waived by Service Oklahoma upon verification that the person has successfully completed driver education.

D. 1. Any person:

- a. who has applied for, been issued, and has possessed a learner permit for a minimum of one hundred eighty (180) days, and
- b. whose custodial legal parent or legal guardian certifies to Service Oklahoma by sworn affidavit that the person has received a minimum of fifty (50) hours of actual behind-the-wheel training, of which at least ten (10) hours of such training was at night, from a licensed driver who was at least twenty-one (21) years of age and who was properly licensed to operate a Class D motor vehicle for a minimum of two (2) years,

may be issued an intermediate Class D license upon successfully passing all parts of the driver license examinations administered by Service Oklahoma; provided, the written examination, if it has not previously been administered or waived, may be waived by Service Oklahoma upon verification that the person has successfully completed driver education or the driving examination may be waived by Service Oklahoma upon successful passage of the examination administered by a certified designated examiner, as provided for in Section 6-110 of this title. However, notwithstanding the date of issuance of the learner permit, if the person has been convicted of a traffic offense which is reported on the driving record of that person, the time period specified in subparagraph a of this paragraph shall be recalculated to begin from the date of conviction for the traffic offense, and must elapse before that person may be issued an intermediate Class D license. If the person has been convicted of more than one traffic offense which is reported on the driving record of that person, the time period specified in subparagraph a of this paragraph shall be recalculated to begin from the most recent date of conviction, and must elapse before that person may be issued an intermediate Class D license.

2. A person who has been issued an intermediate Class D license under the provisions of this subsection:

- a. shall be granted the privilege to operate a Class D motor vehicle upon the public highways:
 - (1) only between the hours of 5:00 a.m. and 10:00 p.m., except for driving to and from work, school, school activities, and church activities, or
 - (2) at any time, if a licensed driver who is at least twenty-one (21) years of age is actually occupying a seat beside the intermediate Class D licensee, or if the intermediate Class D licensee is a farm or ranch resident, and is operating a motor vehicle while engaged in farming or ranching operations outside the limits of a municipality, or driving to and from work, school, school activities, or church activities, and
- b. shall not operate a motor vehicle with more than one passenger unless:
 - (1) all passengers live in the same household as the custodial legal parent or legal guardian, or
 - (2) a licensed driver at least twenty-one (21) years of age is actually occupying a seat beside the intermediate Class D licensee.

E. Any person who has been issued an intermediate Class D license for a minimum of:

1. One (1) year; or

2. One hundred eighty (180) days, if the person has completed both the driver education and the parent-certified behind-the-wheel training provisions of subparagraph b of paragraph 1 of subsection D of this section,

may be issued a Class D license. However, notwithstanding the date of issuance of the Class D license, if the person has been convicted of a traffic offense which is reported on the driving record of that person, the time periods specified in paragraph 1 or 2 of this subsection, as applicable, shall be recalculated to begin from the date of conviction for the traffic offense, and must elapse before that person may be issued a Class D license. If the person has been convicted of more than one traffic offense which is reported on the driving record of that person, the time periods specified in paragraph 1 or 2 of this subsection, as applicable, shall be recalculated to begin from the most recent date of conviction, and must elapse before that person may be issued a Class D license.

F. Learner permits and intermediate Class D licenses shall be issued for the same period as all other driver licenses. The licenses may be suspended or canceled at the discretion of the Department, with notice to Service Oklahoma, for violation of restrictions, for failing to give the required or correct information on the application, for knowingly giving false or inaccurate information on the application or any subsequent documentation related to the granting of driving privileges, for using a hand-held electronic device while operating a motor vehicle for non-life-threatening emergency purposes or for violation of any traffic laws of this state pertaining to the operation of a motor vehicle.

G. Service Oklahoma shall promulgate rules establishing procedures for removal of learner permit and intermediate Class D license restrictions from the permit or license upon the permittee or licensee qualifying for a less restricted or an unrestricted license.

H. Any person fourteen (14) years of age or older may apply for a restricted Class D license with a motorcycle-only restriction. After the person has successfully passed all parts of the motorcycle examination other than the driving examination, has successfully completed a certified state-approved motorcycle basic rider course approved by the Department of Public Safety, in conjunction with Service Oklahoma, and has met all requirements provided for in the rules of the Department and Service Oklahoma, Service Oklahoma shall issue to the person a restricted Class D license with a motorcycle-only restriction which shall grant to the person, while having the license in the person's immediate possession, the privilege to operate a motorcycle or motor-driven cycle:

1. With a piston displacement not to exceed three hundred (300) cubic centimeters;
2. Between the hours of 4:30 a.m. to 9:00 p.m. only;
3. While wearing approved protective headgear; and
4. While accompanied by and receiving instruction from any person who is at least twenty-one (21) years of age and who is properly licensed pursuant to the laws of this state to operate a motorcycle or motor-driven cycle, and who has visual contact with the restricted licensee.

The restricted licensee may apply on or after thirty (30) days from date of issuance of the restricted Class D license with a motorcycle-only restriction to have the restriction of being accompanied by a licensed driver removed by successfully completing the driving portion of an examination.

The written examination and driving examination for a restricted Class D license with a motorcycle-only endorsement shall be waived by Service Oklahoma upon verification that the person has successfully completed a certified state-approved motorcycle basic rider course approved by the Department and Service Oklahoma.

I. Service Oklahoma may in its discretion issue a special permit to any person who has attained the age of fourteen (14) years, authorizing such person to operate farm vehicles between the farm and the market to haul commodities grown on the farm; provided, that the special permit shall be temporary and shall expire not more than thirty (30) days after the issuance of the special permit. Special permits shall be issued only to farm residents and shall be issued only during the time of the harvest of the principal crops grown on such farm. Provided, however, Service Oklahoma shall not issue a special permit pursuant to this subsection until Service Oklahoma is fully satisfied after the examination of the application and other evidence furnished in support thereof, that the person is physically and mentally developed to such a degree that the operation of a motor vehicle by the person would not be inimical to public safety.

§47-6-106. Application for license.

A. 1. Every application for a driver license or identification card shall be made by the applicant upon a form furnished by Service Oklahoma.

2. Every original, renewal, or replacement application for a driver license or identification card made by a male applicant who is at least sixteen (16) but less than twenty-six (26) years of age

shall include a statement that by submitting the application, the applicant is consenting to registration with the Selective Service System. The pertinent information from the application shall be forwarded by Service Oklahoma to the Data Management Center of the Selective Service System in order to register the applicant as required by law with the Selective Service System. Any applicant refusing to sign the consent statement shall be denied a driver license or identification card.

3. Except as provided for in subsections G and H of this section, every applicant for a driver license or identification card shall provide to Service Oklahoma at the time of application a document showing proof of identity. Service Oklahoma shall promulgate rules prescribing forms of identification acceptable for an original Oklahoma driver license.

B. Every applicant for a driver license shall provide the following information:

1. Full name;

2. Date of birth;

3. Sex;

4. Address of principal residence and county of such residence which shall be referenced on the REAL ID Compliant Driver License or Identification Card; proof of principal residency, as prescribed by rules promulgated by Service Oklahoma, documenting provided address;

5. Current and complete mailing address to be maintained by Service Oklahoma for the purpose of giving notice, if necessary, as required by Section 2-116 of this title;

6. Medical information, as determined by the Department, which shall assure Service Oklahoma that the person is not prohibited from being licensed as provided by paragraph 7 of subsection A of Section 6-103 of this title;

7. Whether the applicant is deaf or hard-of-hearing;

8. A brief description of the applicant, as determined by the Department;

9. Whether the applicant has previously been licensed, and, if so, when and by what state or country, and whether any license has ever been suspended or revoked, or whether an application has ever been refused, and, if so, the date of and reason for the suspension, revocation or refusal;

10. Whether the applicant is an alien eligible to be considered for licensure and is not prohibited from licensure pursuant to paragraph 9 of subsection A of Section 6-103 of this title;

11. Whether the applicant has:

a. previously been licensed and, if so, when and by what state or country, and

b. held more than one license at the same time during the immediately preceding ten (10) years; and

12. Social Security number.

No person shall request Service Oklahoma to use the Social Security number of that person as the driver license number. Upon renewal or replacement of any driver license issued after the effective date of this act, the licensee shall advise Service Oklahoma or the licensed operator if the present driver license number of the licensee is the Social Security number of the licensee. If the driver license number is the Social Security number, Service Oklahoma or the licensed operator shall change the driver license number to a computer-generated alphanumeric identification.

C. 1. In addition to the requirements of subsections A and B of this section, every applicant for a commercial driver license who is subject to the requirements of 49 C.F.R., Part 391, and is applying for an original, renewal, or replacement license, and every person who, upon or after May 8, 2012, is currently the holder of a commercial driver license and is subject to the requirements of 49 C.F.R., Part 391, and who does not apply for a renewal or replacement license prior to January 30, 2014, shall submit to Service Oklahoma and maintain with Service Oklahoma a current approved medical examination certificate signed by a licensed physician authorized to perform and approve medical examination certifications. Service Oklahoma shall adopt rules for maintaining medical examination certificates pursuant to the requirements in 49 C.F.R., Parts 383 and 384. Any commercial driver licensee subject to the requirements of this paragraph who fails to maintain on file with Service Oklahoma a current, approved medical examination certificate shall have the driving privileges of the person downgraded to a Class D driver license by Service Oklahoma.

2. If the applicant is applying for an original commercial driver license in Oklahoma or is transferring a commercial driver license from another state to Oklahoma, Service Oklahoma shall review the driving record of the applicant in other states for the immediately preceding ten (10) years, unless the record review has already been performed by Service Oklahoma. As a result of the review, if it is determined by Service Oklahoma that the applicant is subject to a period of disqualification as prescribed by Section 6-205.2 of this title which has not yet been imposed, Service Oklahoma shall impose the period of disqualification and the applicant shall serve the period of disqualification before a commercial driver license is issued to the applicant; provided, nothing in this paragraph shall be construed to prevent the issuance of a Class D driver license to the applicant.

3. If the applicant has or is applying for a hazardous material endorsement, the applicant shall submit to a security threat assessment performed by the Transportation Security Administration of the Department of Homeland Security as required by and pursuant to 49 C.F.R., Part 1572, which shall be used to determine whether

the applicant is eligible for the endorsement pursuant to federal law and regulation.

4. Service Oklahoma shall notify each commercial driving school of the passage of this section, and each commercial driving school shall notify prospective students of its school of the hazardous material endorsement requirement.

D. In addition to the requirements of subsections A and B of this section, every applicant shall be given an option on the application for issuance of a driver license or identification card or renewal pursuant to Section 6-115 of this title to provide an emergency contact person. The emergency contact information requested may include full name, address, and phone number. The emergency contact information shall be maintained by Service Oklahoma and shall be used by Service Oklahoma and law enforcement for emergency purposes only. A person listed as an emergency contact may request to be removed at any time. Any update to a change of name, address, or phone number may be made by the applicant listing the emergency contact person or by the person listed as the emergency contact.

E. Whenever application is received from a person previously licensed in another jurisdiction, Service Oklahoma shall request a copy of the driving record from the other jurisdiction and, effective September 1, 2005, from all other jurisdictions in which the person was licensed within the immediately previous ten (10) years. When received, the driving record shall become a part of the driving record of the person in this state with the same force and effect as though entered on the driver's record in this state in the original instance.

F. Whenever Service Oklahoma receives a request for a driving record from another licensing jurisdiction, the record shall be forwarded without charge.

G. A person shall not apply for or possess more than one state-issued or territory-issued REAL ID Compliant Driver License or Identification Card pursuant to the provisions of Section 6-101 of this title. A valid and unexpired Oklahoma driver license shall serve as both primary and secondary proofs of identity whenever application for a REAL ID Noncompliant Identification Card is submitted to Service Oklahoma. The provisions of subsection B of Section 1550.42 of Title 21 of the Oklahoma Statutes shall not apply when issuing an identification card pursuant to the provisions of this subsection. Service Oklahoma shall promulgate rules necessary to implement and administer the provisions of this subsection.

H. A valid and unexpired U.S. passport shall serve as both primary and secondary proofs of identity whenever application for a driver license or identification card is submitted to the Department. §47-6-107. Restricted licenses for unemancipated persons under 18 - Signature of legal parent or guardian - Liability - Financial responsibility - Cancellation or suspension.

A. In addition to the requirements of Section 6-106 of this title, the application of any unemancipated person under the age of eighteen (18) years for a restricted license shall be signed and verified by the legal custodial parent or legal guardian of the

applicant, either in person before a person authorized to administer oaths, electronically if completing an online application, or by a notarized affidavit signed by a custodial legal parent or legal guardian and submitted with the application by the person under the age of eighteen (18) years before a person authorized to administer oaths. The signature of the legal custodial parent or legal guardian shall be evidence that the legal custodial parent or legal guardian is willing to assume the obligation imposed under Section 1-101 et seq. of this title upon a person signing the application of a person under the age of eighteen (18) years. Provided, however, any unemancipated person under the age of eighteen (18) years who is in the permanent custody of the Department of Human Services, upon proof of financial responsibility in respect to the operation of a motor vehicle owned by him or her or if not the owner of a motor vehicle then with respect to the operation of any motor vehicle, in form and in amounts as required under the motor vehicle financial responsibility laws of this state, shall not be required to have his or her application for restricted license signed or verified by another person.

B. Any negligence or willful misconduct of a person under the age of eighteen (18) years when driving a motor vehicle upon a highway with the knowledge and consent of the person who signed the application or notarized affidavit for the restricted license shall be imputed to the person who has signed the application or notarized affidavit. Such person shall be jointly and severally liable with the minor for any damages caused by such negligence or willful misconduct, except as otherwise provided in subsection C of this section.

C. In the event a person under the age of eighteen (18) years deposits, or there is deposited upon his or her behalf, proof of financial responsibility in respect to the operation of a motor vehicle owned by him or her or if not the owner of a motor vehicle then with respect to the operation of any motor vehicle, in form and in amounts as required under the motor vehicle financial responsibility laws of this state, then Service Oklahoma may accept the application of such person when signed by the legal custodial parent or the legal guardian of such person, and while such proof is maintained the legal custodial parent or legal guardian shall not be subject to the liability imposed under subsection B of this section.

D. Service Oklahoma may, at its discretion, cancel or suspend the license of any person under the age of eighteen (18) years for any unlawful act, negligence or misconduct while driving a motor vehicle.

E. As provided in Section 6-103.1 of this title, any legal custodial parent or legal guardian who has signed the application or notarized affidavit of a person under the age of eighteen (18) years for a license may thereafter file with Service Oklahoma a verified

written request that the license of that person so granted be canceled. Service Oklahoma shall then cancel the license of the person and the legal custodial parent or legal guardian who signed the application or notarized affidavit of the person shall be relieved from the liability imposed under Section 1-101 et seq. of this title by reason of having signed the application on account of any subsequent negligence or willful misconduct of the person in operating a motor vehicle.

F. Service Oklahoma upon receipt of satisfactory evidence of the death of the legal custodial parent or legal guardian who signed the application or notarized affidavit of a person under the age of eighteen (18) years for a license shall cancel the license and shall not issue a new license until such time as a new application, duly signed and verified, is made as required by this chapter. This provision shall not apply in the event the person has attained the age of eighteen (18) years.

The Department of Public Safety, in conjunction with Service Oklahoma, may create a knowledge test that may be taken on the Internet by an applicant applying for a Class D license. Any licensee seeking to apply for a driver license of another class which is not covered by the licensee's current driver license shall be considered an applicant for an original license for that class.

2. Service Oklahoma shall have the authority to waive the requirement of any part of the examination required in paragraph 1 of this subsection for those applicants whose driving record meets

the standards set by the Department of Public Safety and surrender either of the following:

- a. a valid unexpired driver license issued by any state or country for the same type or types of vehicles, or
- b. an expired driver license that:
 - (1) is not expired more than six (6) months past the expiration date listed on the driver license, and

All applicants requiring a hazardous materials endorsement shall be required, for the renewal of the endorsement, to successfully complete the examination and to submit to a security threat assessment performed by the Transportation Security Administration of the Department of Homeland Security as required by and pursuant to 49 C.F.R., Part 1572, which shall be used to determine whether the applicant is eligible for renewal of the endorsement pursuant to federal law and regulation.

5. Service Oklahoma, or an approved written examination proctor, shall give the complete examination as provided for in this section within thirty (30) days from the date the application is received, and the examination shall be given at a location within one hundred (100) miles of the residence of the applicant. B. Any person holding a valid Oklahoma Class D license or provisional driver license pursuant to Section 6-212 of this title and applying for a Class A, B or C commercial license shall be required to successfully complete all examinations as required for the specified class. Failure to submit to Service Oklahoma federally required medical certification information pursuant to 49 C.F.R., Part 391.41 et seq. shall result in an automatic downgrade of a commercial license to a Class D license. Provided, however, once the required medical certification information has been received by Service Oklahoma, the license shall be reinstated to the

classification of the commercial license prior to the downgrade and the holder of such a license shall not be required to reapply.

C. Except as provided in subsection E of Section 6-101 of this title, any person holding a valid Oklahoma Class A, B or C commercial license shall, upon time for renewal thereof, be entitled to a Class D license without any type of testing or examination, except for any endorsements thereon as otherwise provided for by Section 6-110.1 of this title.

The courses and training for certification shall meet the same standards as required for driver examiners of Service Oklahoma.

3. Each person applying to be a designated examiner shall be required to pay an initial designated examiner certification fee of One Thousand Dollars (\$1,000.00). Upon successful completion of training prescribed by paragraph 2 of this subsection, the person shall be required to pay an annual designated examiner certification fee of Five Hundred Dollars (\$500.00). If an applicant for the designated examiner program is employed by an Oklahoma public school system that offers driver education, and he or she administers the skills test only to students enrolled in a public school driver education program, the certification fee may be waived by Service Oklahoma. Each designated examiner certification shall expire on the last day of the calendar year and may be renewed upon application to Service Oklahoma. The designated examiner certification fees collected by Service Oklahoma pursuant to this subsection shall be deposited to the credit of the Department of Public Safety Restricted Revolving Fund to be used for the purposes of this subsection, through October 31, 2022. Beginning November 1, 2022, the designated examiner certification fees collected by Service Oklahoma pursuant to this subsection shall be deposited to the credit of the Service Oklahoma Revolving Fund. No designated examiner certification fee shall be refunded in the event that certification is denied, suspended or revoked.

4. A designated examiner may charge a fee for each Class D driving skills examination given, whether the person being examined passes or fails the examination.

5. Service Oklahoma shall require each designated examiner and driver education instructor applicant to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. The fees for the record check shall be borne by the designated examiner, designated examiner applicant, driver education instructor, or driver education instructor applicant.

6. The Department of Public Safety, in conjunction with Service Oklahoma, shall promulgate rules to implement and administer the provisions of this subsection.

E. 1. Upon application and approval of Service Oklahoma, any public or private commercial truck driving school that has or maintains a program instructing students for a Class A, B or C license, public transit agency or state, county or municipal government agency in this state shall be authorized to hire or employ designated examiners approved by Service Oklahoma to be third-party examiners of the Class A, B or C driving skills portion of the Oklahoma driving examination. All designated examiners must successfully have completed the courses and training as outlined in paragraph 2 of this subsection. Service Oklahoma shall be required to approve at least one public transit agency that has or maintains a program instructing students for a Class A, B or C license to hire or employ third-party examiners pursuant to this section. It shall be permissible for any public transit agency operating in the State of Oklahoma to utilize the third-party examiners hired or employed by a public transit agency approved by Service Oklahoma.

2. The Department of Public Safety, in conjunction with Service Oklahoma, shall adopt a curriculum of required courses and training to be offered to third-party examiners. The courses and training for certification shall meet the same standards as required for commercial driver examiners of Service Oklahoma.

3. Service Oklahoma shall require each third-party examiner applicant and commercial school driver education instructor applicant to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. On or before December 1, 2022, Service Oklahoma shall require each third-party examiner or commercial school driver education instructor to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. The fees for the background check shall be borne by the third-party examiner, third-party examiner applicant, commercial school driver education instructor or commercial school driver education instructor applicant.

§47-6-110v2. Examination of applicants.

A. 1. Service Oklahoma shall establish procedures to ensure every applicant for an original Class A, B, C or D license and for

any endorsements thereon is examined by Service Oklahoma, or an approved written examination proctor, except as otherwise provided in Section 6-101 et seq. of this title or as provided in paragraph 2 of this subsection or in subsections D and E of this section. Service Oklahoma is authorized to approve and enter into agreements with third parties including, but not limited to, public school districts, technology center districts overseen by the Oklahoma Department of Career and Technology Education, institutions of higher education, or commercial driver training schools, to act as approved written examination proctors with regard to any written examination required by this section. The examination shall include a test of the applicant's:

- a. eyesight,
- b. ability to read and understand highway signs regulating, warning and directing traffic,
- c. knowledge of the traffic laws of this state including a portion on bicycle and motorcycle safety, and
- d. ability, by actual demonstration, to exercise ordinary and reasonable control in the operation of a motor vehicle. The actual demonstration shall be conducted in the type of motor vehicle for the class of driver license being applied for.

The Department of Public Safety, in conjunction with Service Oklahoma, may create a knowledge test that may be taken on the Internet by an applicant applying for a Class D license.

Any licensee seeking to apply for a driver license of another class which is not covered by the licensee's current driver license shall be considered an applicant for an original license for that class.

2. Service Oklahoma shall have the authority to waive the requirement of any part of the examination required in paragraph 1 of this subsection for those applicants whose driving record meets the standards set by the Department of Public Safety and surrender either of the following:

- a. a valid unexpired driver license issued by any state or country for the same type or types of vehicles, or
- b. an expired driver license that:
 - (1) is not expired more than six (6) months past the expiration date listed on the driver license, and
 - (2) is not a Class A, B or C commercial driver license or commercial driver license permit.

3. Service Oklahoma shall accept skills test results from another state for Class A, B or C license applicants who have successfully completed commercial motor vehicle driver training in that state and successfully passed the skills test in that state; provided, Service Oklahoma shall not accept skills test results from another state when the applicant has not successfully completed commercial motor vehicle driver training in that state. Nothing in

this section shall be construed to prohibit Service Oklahoma from administering the skills test to any applicant who has successfully completed commercial vehicle driver training in another state.

4. All applicants requiring a hazardous materials endorsement shall be required, for the renewal of the endorsement, to successfully complete the examination and to submit to a security threat assessment performed by the Transportation Security Administration of the Department of Homeland Security as required by and pursuant to 49 C.F.R., Part 1572, which shall be used to determine whether the applicant is eligible for renewal of the endorsement pursuant to federal law and regulation.

5. Service Oklahoma, or an approved written examination proctor, shall give the complete examination as provided for in this section within thirty (30) days from the date the application is received, and the examination shall be given at a location within one hundred (100) miles of the residence of the applicant. Service Oklahoma shall make every effort to make the examination locations and times convenient for applicants. Service Oklahoma shall consider giving the examination at any public or private site, if economically feasible and practicable, and if Service Oklahoma and the owner or the governing body agree.

B. Any person holding a valid Oklahoma Class D license or provisional driver license pursuant to Section 6-212 of this title and applying for a Class A, B or C commercial license shall be required to successfully complete all examinations as required for the specified class. Failure to submit to Service Oklahoma federally required medical certification information pursuant to 49 C.F.R., Part 391.41 et seq. shall result in an automatic downgrade of a commercial license to a Class D license. Provided, however, once the required medical certification information has been received by Service Oklahoma, the license shall be reinstated to the classification of the commercial license prior to the downgrade and the holder of such a license shall not be required to reapply.

C. Except as provided in subsection E of Section 6-101 of this title, any person holding a valid Oklahoma Class A, B or C commercial license shall, upon time for renewal thereof, be entitled to a Class D license without any type of testing or examination, except for any endorsements thereon as otherwise provided for by Section 6-110.1 of this title.

D. 1. Any certified driver education instructor who is currently an operator or an employee of a commercial driver training school in this state or any driver education instructor employed by any school district in this state shall be eligible to apply to be a designated examiner of Service Oklahoma for the purposes of administering the Class D driving skills portion of the Oklahoma driving examination to any person who is eligible to take the Oklahoma driving examination including, but not limited to, a person

who has been issued a learner permit or farm permit. Service Oklahoma shall to the maximum extent possible accept electronic signatures for all applications to be a designated examiner.

2. The Department of Public Safety, in conjunction with Service Oklahoma, shall adopt a curriculum of required courses and training to be offered to applicants who are qualified to apply to be a designated examiner. The courses and training for certification shall meet the same standards as required for driver examiners of Service Oklahoma. Within thirty (30) days of the effective date of this act, and by October 1 of each subsequent year, Service Oklahoma shall publish a schedule for the subsequent calendar year of courses and trainings which shall occur no less than twice per calendar year. Service Oklahoma may schedule additional courses and trainings based on demand. Service Oklahoma shall disclose how many slots are available for each course or training and any restrictions on how those slots may be allocated at the time of publishing the schedule.

3. Each person applying to be a designated examiner shall be required to pay an initial designated examiner certification fee of One Thousand Dollars (\$1,000.00). Upon successful completion of training prescribed by paragraph 2 of this subsection, the person shall be required to pay an annual designated examiner certification fee of Five Hundred Dollars (\$500.00). If an applicant for the designated examiner program is employed by an Oklahoma public school system that offers driver education, and he or she administers the skills test only to students enrolled in a public school driver education program, the certification fee may be waived by Service Oklahoma. Each designated examiner certification shall expire on the last day of the calendar year and may be renewed upon application to Service Oklahoma. The designated examiner certification fees collected by Service Oklahoma pursuant to this subsection shall be deposited to the credit of the Department of Public Safety Restricted Revolving Fund to be used for the purposes of this subsection, through October 31, 2022. Beginning November 1, 2022, the designated examiner certification fees collected by Service Oklahoma pursuant to this subsection shall be deposited to the credit of the Service Oklahoma Revolving Fund. No designated examiner certification fee shall be refunded in the event that certification is denied, suspended or revoked.

4. A designated examiner may charge a fee for each Class D driving skills examination given, whether the person being examined passes or fails the examination.

5. Service Oklahoma shall conduct an annual complete nationwide criminal history background check on each designated examiner and a complete nationwide criminal history background check on each designated examiner applicant. The fees for the background check

shall be borne by the designated examiner or designated examiner applicant.

6. The Department of Public Safety, in conjunction with Service Oklahoma, shall promulgate rules to implement and administer the provisions of this subsection.

E. 1. Upon application and approval of Service Oklahoma, any public or private commercial truck driving school that has or maintains a program instructing students for a Class A, B or C license, public transit agency, state, county or municipal government agency in this state, such as local school districts, the Oklahoma Department of Career and Technology Education, or institutions of higher education, or a private entity, shall be authorized to hire or employ designated examiners approved by Service Oklahoma to be third-party examiners of the Class A, B or C driving skills portion and/or knowledge written portion, pursuant to subsection A of this section, of the Oklahoma driving examination. All designated examiners must successfully have completed the courses and training as outlined in paragraph 2 of this subsection. Service Oklahoma shall be required to approve at least one public transit agency that has or maintains a program instructing students for a Class A, B or C license to hire or employ third-party examiners pursuant to this section. It shall be permissible for any public transit agency operating in this state to utilize the third-party examiners hired or employed by a public transit agency approved by Service Oklahoma.

2. The Department of Public Safety, in conjunction with Service Oklahoma, shall adopt a curriculum of required courses and training to be offered to third-party examiners. The courses and training for certification shall meet the same standards as required for commercial driver examiners of Service Oklahoma.

3. Service Oklahoma shall require each third-party examiner applicant and commercial school driver education instructor applicant to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. On or before December 1, 2022, Service Oklahoma shall require each third-party examiner or commercial school driver education instructor to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. The fees for the background check shall be borne by the third-party examiner, third-party examiner applicant, commercial school driver education instructor or commercial school driver education instructor applicant.

F. Service Oklahoma shall promulgate rules to:

1. Implement and administer the provisions of this section based on requirements set forth in Section 383.75 of Title 49 of the Code of Federal Regulations;

2. Establish a process to inform any school, public transit agency, examiner, or state, county or municipal government agency, who has been denied, within forty-five (45) days from the denial;

3. Create an appeal process for any school, public transit agency, examiner, or state, county or municipal government agency denied; and

4. If the initial application for approval was denied, limit the number of times an individual school, public transit agency, individual examiner applicant, or state, county or municipal government agency may reapply in a calendar year to two reapplications.

§47-6-110v3. Examination of applicants.

A. 1. Service Oklahoma shall establish procedures to ensure every applicant for an original Class A, B, C or D license and for any endorsements thereon is examined by Service Oklahoma, or an approved written examination proctor, except as otherwise provided in Section 6-101 et seq. of this title or as provided in paragraph 2 of this subsection or in subsections D and E of this section. Service Oklahoma is authorized to approve and enter into agreements with third parties to act as approved written examination proctors

with regard to any written examination required by this section. The examination shall include a test of the applicant's:

- a. eyesight,
- b. ability to read and understand highway signs regulating, warning and directing traffic,
- c. knowledge of the traffic laws of this state including a portion on bicycle and motorcycle safety, and
- d. ability, by actual demonstration, to exercise ordinary and reasonable control in the operation of a motor vehicle. The actual demonstration shall be conducted in the type of motor vehicle for the class of driver license being applied for.

The Department of Public Safety, in conjunction with Service Oklahoma, may create a knowledge test that may be taken on the Internet by an applicant applying for a Class D license. Any licensee seeking to apply for a driver license of another class which is not covered by the licensee's current driver license shall be considered an applicant for an original license for that class.

2. Service Oklahoma shall have the authority to waive the requirement of any part of the examination required in paragraph 1 of this subsection for those applicants whose driving record meets the standards set by the Department of Public Safety and surrender either of the following:

- a. a valid unexpired driver license issued by any state or country for the same type or types of vehicles, or
- b. an expired driver license that:
 - (1) is not expired more than six (6) months past the expiration date listed on the driver license, and
 - (2) is not a Class A, B or C commercial driver license or commercial driver license permit.

3. Service Oklahoma shall accept skills test results from another state for Class A, B or C license applicants who have successfully completed commercial motor vehicle driver training in that state and successfully passed the skills test in that state; provided, Service Oklahoma shall not accept skills test results from another state when the applicant has not successfully completed commercial motor vehicle driver training in that state. Nothing in this section shall be construed to prohibit Service Oklahoma from administering the skills test to any applicant who has successfully completed commercial vehicle driver training in another state.

4. All applicants requiring a hazardous materials endorsement shall be required, for the renewal of the endorsement, to successfully complete the examination and to submit to a security threat assessment performed by the Transportation Security Administration of the Department of Homeland Security as required by and pursuant to 49 C.F.R., Part 1572, which shall be used to

determine whether the applicant is eligible for renewal of the endorsement pursuant to federal law and regulation.

5. Service Oklahoma, or an approved written examination proctor, shall give the complete examination as provided for in this section within thirty (30) days from the date the application is received, and the examination shall be given at a location within one hundred (100) miles of the residence of the applicant. Service Oklahoma shall make every effort to make the examination locations and times convenient for applicants. B. Any person holding a valid Oklahoma Class D license or provisional driver license pursuant to Section 6-212 of this title and applying for a Class A, B or C commercial license shall be required to successfully complete all examinations as required for the specified class. Failure to submit to Service Oklahoma federally required medical certification information pursuant to 49 C.F.R., Part 391.41 et seq. shall result in an automatic downgrade of a commercial license to a Class D license. Provided, however, once the required medical certification information has been received by Service Oklahoma, the license shall be reinstated to the classification of the commercial license prior to the downgrade and the holder of such a license shall not be required to reapply.

C. Except as provided in subsection E of Section 6-101 of this title, any person holding a valid Oklahoma Class A, B or C commercial license shall, upon time for renewal thereof, be entitled to a Class D license without any type of testing or examination, except for any endorsements thereon as otherwise provided for by Section 6-110.1 of this title.

D. 1. Any certified driver education instructor who is currently an operator or an employee of a commercial driver training school in this state or any driver education instructor employed by any school district in this state shall be eligible to apply to be a designated examiner of Service Oklahoma for the purposes of administering the Class D driving skills portion of the Oklahoma driving examination to any person who has been issued a learner permit.

2. The Department of Public Safety, in conjunction with Service Oklahoma, shall adopt a curriculum of required courses and training to be offered to applicants who are qualified to apply to be a designated examiner. The courses and training for certification shall meet the same standards as required for driver examiners of Service Oklahoma.

3. Each person applying to be a designated examiner shall be required to pay an initial designated examiner certification fee of One Thousand Dollars (\$1,000.00). Upon successful completion of

training prescribed by paragraph 2 of this subsection, the person shall be required to pay an annual designated examiner certification fee of Five Hundred Dollars (\$500.00). If an applicant for the designated examiner program is employed by an Oklahoma public school system that offers driver education, and he or she administers the skills test only to students enrolled in a public school driver education program, the certification fee may be waived by Service Oklahoma. Each designated examiner certification shall expire on the last day of the calendar year and may be renewed upon application to Service Oklahoma. The designated examiner certification fees collected by Service Oklahoma pursuant to this subsection shall be deposited to the credit of the Department of Public Safety Restricted Revolving Fund to be used for the purposes of this subsection, through October 31, 2022. Beginning November 1, 2022, the designated examiner certification fees collected by Service Oklahoma pursuant to this subsection shall be deposited to the credit of the Service Oklahoma Revolving Fund. No designated examiner certification fee shall be refunded in the event that certification is denied, suspended or revoked.

The fees for the record check shall be borne by the designated examiner, designated examiner applicant, driver education instructor, or driver education instructor applicant.

6. The Department of Public Safety, in conjunction with Service Oklahoma, shall promulgate rules to implement and administer the provisions of this subsection.

E. 1. All designated examiners must successfully have completed the courses and training as outlined in paragraph 2 of this subsection. Service Oklahoma shall be required to approve at least one public transit agency that has or maintains a program instructing students

for a Class A, B or C license to hire or employ third-party examiners pursuant to this section. It shall be permissible for any public transit agency operating in the State of Oklahoma to utilize the third-party examiners hired or employed by a public transit agency approved by Service Oklahoma.

2. The Department of Public Safety, in conjunction with Service Oklahoma, shall adopt a curriculum of required courses and training to be offered to third-party examiners. The courses and training for certification shall meet the same standards as required for commercial driver examiners of Service Oklahoma.

3. Service Oklahoma shall require each third-party examiner applicant and commercial school driver education instructor applicant to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. On or before December 1, 2022, Service Oklahoma shall require each third-party examiner or commercial school driver education instructor to submit to an electronic national criminal history record check pursuant to Section 150.9 of Title 74 of the Oklahoma Statutes. 2. Establish a process to inform any school, public transit agency, examiner, or state, county or municipal government agency, who has been denied, within forty-five (45) days from the denial;

3. Create an appeal process for any school, public transit agency, examiner, or state, county or municipal government agency denied; and

§47-6-206. Authority of Department to suspend license or privilege.

A. Whenever any person is convicted or pleads guilty in any court having jurisdiction over offenses committed under Section 1-101 et seq. of this title, or any other act or municipal ordinance or act or ordinance of another state regulating the operation of motor vehicles on highways, such court shall make immediate report to Service Oklahoma setting forth the name of the offender, the number of the driver license and the penalty imposed. Said report shall be submitted by the judge or the clerk of the court upon forms furnished or approved by Service Oklahoma.

B. Service Oklahoma, upon receipt of said report or upon receipt of a report of a conviction in another state relating to the operation of a motor vehicle, may in its discretion suspend the driving privilege of such person for such period of time as in its judgment is justified, subject to the limitations provided in this title or any other act or municipal ordinance regulating the operation of motor vehicles on highways. Any action taken by Service Oklahoma shall be in addition to the penalty imposed by the court subject to the limitations outlined by statute.

C. Service Oklahoma, upon receipt of a report of a conviction in another state relating to the operation of a motor vehicle, may in its discretion suspend the driving privilege of such person. Any action taken by Service Oklahoma shall not exceed the penalty imposed by a court or Service Oklahoma in the State of Oklahoma for a violation substantially similar to the conviction in the other jurisdiction which did not result in a revocation of Oklahoma driving privileges.

D. Following receipt of a notice of any nonpayment of fine and costs for a moving traffic violation with a recommendation of suspension of driving privileges of a defendant from any court within this state, as provided for in Section 983 of Title 22 of the Oklahoma Statutes, Service Oklahoma shall suspend the driving privilege of the named person no earlier than one hundred eighty (180) days after giving notice as provided in Section 2-116 of this title. suspended, shall be eligible for reinstatement, if otherwise eligible, upon:

1. Making application to Service Oklahoma;
2. Showing proof of payment of the total amount of the fine and cost or a release from the court or court clerk; and
3. Submitting the processing and reinstatement fees, as provided for in Section 6-212 of this title.

Provided, however, in cases of hardship, as determined by the court, or proof of enrollment in a federal or state government assistance program, including, but not limited to, Social Security or the Supplemental Nutrition Assistance Program, the person shall be placed on a payment plan by the court, and the court shall send a release to Service Oklahoma for reinstatement purposes. The court may submit another suspension request pursuant to this section if the person fails to honor the payment plan and it is found that the person is financially able but willfully refuses or neglects to honor the payment plan. In such case, Service Oklahoma shall again suspend the person's driving privilege for nonpayment of fine and costs for the same moving traffic violation. Upon reinstatement after suspension for nonpayment of fine and costs for a moving traffic violation Service Oklahoma may remove such record of suspension from the person's driving record and retain an internal record for audit purposes. A court within this state may order Service Oklahoma to waive any requirement that fines and costs be satisfied by a person prior to that person being eligible for a provisional license provided under Section 6-212 of this title.

E. Upon the receipt of a record of conviction for eluding or attempting to elude a peace officer, Service Oklahoma shall suspend the driving privilege of the person:

1. For the first conviction as indicated on the driving record of the person, for a period of six (6) months;
2. For the second conviction as indicated on the driving record of the person, for a period of one (1) year. Such period shall not be modified; and
3. For the third or subsequent conviction as indicated on the driving record of the person, for a period of three (3) years. Such period shall not be modified.

F. Any person whose driving privilege is so suspended under the provisions of this section shall have the right of appeal, as provided in Section 6-211 of this title.

Proceedings before the district court shall be exempt from the provisions of the Oklahoma Pleading and Discovery codes, except that the appeal shall be by petition, without responsive pleadings. The district court is hereby vested with original jurisdiction to hear the petition.

B. A person whose driving privilege is denied, canceled, revoked or suspended due to inability to meet standards prescribed by law, or due to an out-of-state conviction or violation, or due to an excessive point accumulation on the traffic record, or for an unlawful license issued, may appeal in the county in which the person resides.

C. Any person whose driving privilege is canceled, denied, suspended or revoked may appeal to the district court in the county in which the offense was committed upon which Service Oklahoma based its order.

D. A person whose driving privilege is subject to revocation pursuant to Section 753 or 754 of this title may appeal to the district court in the county in which the arrest occurred relating to the test refusal or test result, as shown by the records of Service Oklahoma.

E. The petition shall be filed within thirty (30) days after the notice of revocation, pursuant to Section 753 or 754 of this title, has been served upon the person by Service Oklahoma. The petition shall contain a description of the facts and circumstances of the underlying incident sufficient to determine the arresting law enforcement agency and the date of the incident. It shall be the duty of the district court to enter an order setting the matter for hearing not less than thirty (30) days and not more than sixty (60) days from the date the petition is filed. A certified copy of petition and order for hearing shall be served forthwith by the petitioner to the office of Service Oklahoma by certified mail at Service Oklahoma, Oklahoma City, Oklahoma.

F. Upon a hearing relating to a revocation or disqualification pursuant to a conviction for an offense enumerated in Section 6-205, 6-205.2 or 761 of this title, the court shall not consider the propriety or merits of the revocation or disqualification action,

H. The court shall take testimony and examine the facts and circumstances, including all of the records on file in the office of Service Oklahoma relative to the offense committed and the driving record of the person, and determine from the facts, circumstances, and records whether or not the petitioner is entitled to driving privileges or shall be subject to the order of denial, cancellation, suspension or revocation issued by Service Oklahoma. In case the court finds that the order was not justified, the court may sustain the appeal, vacate the order of Service Oklahoma and direct that driving privileges be restored to the petitioner, if otherwise eligible.

I. The testimony of any hearing pursuant to this section shall be taken by the court stenographer and preserved for the purpose of appeal and, in case Service Oklahoma files notice of appeal from the order of the court as provided herein, the court shall order and direct the court clerk to prepare and furnish a complete transcript of all pleadings and proceedings, together with a complete transcript taken at the hearing at no cost to Service Oklahoma, except the cost of transcribing.

J. Upon Service Oklahoma's receipt of a petition challenging Service Oklahoma's action against the driving privileges of any person under this title, Service Oklahoma shall withhold taking the action which is the subject of the appeal or stay the order which is the subject of the appeal. During the pendency of the appeal, Service Oklahoma shall grant or restore driving privileges to the person if the person is otherwise eligible.

the driving privilege of the person had the accident occurred in this state, Service Oklahoma shall suspend the driving privilege of the resident if he or she was the driver determined to be at fault in the accident. The suspension shall continue until the resident furnishes evidence of his or her compliance with the law of the other state relating to the deposit of such security or files proof of financial responsibility.

A finding by the Department that an insurer is obligated to pay a judgment shall not be binding upon the insurer and shall have no legal effect whatever except for the purpose of administering this section. Whenever in any judicial proceedings it shall be determined by any final judgment, decree or order that an insurer is not obligated to pay the judgment, the Department, notwithstanding any contrary finding theretofore made by it, shall forthwith suspend the driving privilege of any person against whom the judgment was rendered, as provided in Section 7-310 of this title.

B. Service Oklahoma shall not suspend the driving privilege of any person and shall restore the driving privilege of any person, if otherwise eligible, which was suspended following nonpayment of a judgment when the judgment debtor gives proof of financial responsibility and obtains an order permitting the payment of the judgment in installments, and while the payment of any installments is not in default.

2. A certificate of deposit of money or securities as provided in Section 7-330 of this title; or

3. A certificate of self-insurance, as provided in Section 7-503 of this title, supplemented by an agreement by the self-insurer that, with respect to accidents occurring while the certificate is in force, the self-insurer will pay the same amounts that an insurer would have been obliged to pay under a motor vehicle liability policy if the insurance carrier had issued a policy to the self-insurer.

§47-7-324. Motor vehicle liability policies - Contents and coverages.

(a) Certification. A "motor vehicle liability policy" as the term is used in this article shall mean an "owner's policy" or an "operator's policy" of liability insurance, certified as provided in Section 7-321 or Section 7-322 of this title as proof of financial responsibility, and issued, except as otherwise provided in Section 7-322 of this title, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.

(b) Owner's policy. Such owner's policy of liability insurance:

1. Shall designate by explicit description or by appropriate reference all vehicles with respect to which coverage is thereby to be granted; and

2. Shall insure the person named therein and any other person except as herein provided, as insured, using any such vehicle or vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance or use of such vehicle or vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such vehicle, as follows: Twenty-five Thousand Dollars (\$25,000.00) because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, Fifty Thousand Dollars (\$50,000.00) because of bodily injury to or death of two or more persons in any one accident, and Twenty-five Thousand Dollars (\$25,000.00) because of injury to or destruction of property of others in any one accident.

3. May by agreement in a separate written endorsement between any named insured and the insurer exclude as insured any person or persons designated by name from coverage under the policy.

(c) Operator's policy. Such operator's policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

(d) Required statements in policies. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this title.

(e) Policy need not insure workmen's compensation. Such motor vehicle liability policy need not insure any liability under any workmen's compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance or repair of any such vehicle nor any liability for damage to property owned by, rented to, in charge of or transported by the insured.

(f) Provisions incorporated in policy. Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

1. The liability of the insurance carrier with respect to the insurance required by this title shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy shall defeat or void said policy.

2. The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage.

3. The insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in paragraph 2 of subsection (b) of this section.

4. The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this title shall constitute the entire contract between the parties.

(g) Excess or additional coverage. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this title. With respect to a policy which grants such excess or additional coverage, the term "motor vehicle liability policy" shall apply only to that part of the coverage which is required by this section.

(h) Reimbursement provision permitted. Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this title.

(i) Proration of insurance permitted. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(j) Multiple policies. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers which policies together meet such requirements.

(k) Binders. Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

Upon issuing a citation under this paragraph, the law enforcement officer issuing the citation may:

If the charges are to be filed in municipal court, the law enforcement agency issuing the citation may deposit the license plate within their own agency. The county sheriff's office or municipal police department that is storing the license plate shall provide the plan administrator with the seized license plate number by entering the required information into the statewide database maintained by the plan administrator. The plan administrator shall maintain a database including all seized license plates and shall submit such information to the Oklahoma Tax Commission.

- (3) The county sheriff's office or municipal police department may dispose of any unclaimed license plate after ninety (90) days according to applicable state law. After the license plate has been disposed of by the county sheriff's office or municipal police department, the operator or owner shall be required to obtain a new license plate pursuant to all existing requirements.

If the operator of the vehicle produces what appears to be a valid security verification form and the officer is unable to confirm compliance through the online verification system or noncompliance by a subsequent investigation, the officer shall be prohibited from seizing the license plate or seizing the vehicle and causing such vehicle to be towed and stored. Further, no vehicle shall be seized and towed under the provisions of this paragraph if the vehicle is displaying a temporary license plate that has not expired pursuant to the provisions of Sections 1137.1 and 1137.3 of this title.

If proof of security verification is presented to the court by no later than the business day preceding the first scheduled court appearance date, the dismissal shall be without payment of court costs. The court may access information from the online verification system to confirm liability coverage. The court shall not dismiss the fine unless proof that liability coverage for the person was in force at the time of the alleged offense is presented to the court.

D. Upon conviction or bond forfeiture, the court clerk shall forward an abstract to the Department of Public Safety within five (5) days reflecting the action taken by the court.

3. Access to the system shall be restricted to authorized law enforcement agency users in the program; provided, any entity with which a contract is executed to provide necessary technology, equipment and maintenance for purposes of the program shall be authorized, as necessary, to collaborate for required updates and maintenance of their software.

4. Any data collected and stored by law enforcement pursuant to the program shall be considered evidence if noncompliance with the Compulsory Insurance Law is confirmed.

D. A law enforcement officer may verify by sworn affidavit that a photograph generated by an automatic license plate reader system unit identifies a particular vehicle operating on or having been operated on a public road, highway, street, turnpike, other public place or upon any private road, street, alley or lane which provides access to one or more single-family or multifamily dwellings and that the online verification system shows that the vehicle was uninsured at the time such vehicle was being operated. The affidavit shall constitute probable cause for prosecution under applicable state law.

E. Data collected or retained through the use of an automated license plate reader system pursuant to the program shall be retained by a law enforcement agency when the data is being used as evidence of a violation of the Compulsory Insurance Law; provided, when the data is no longer needed as evidence of a violation, the data shall be deleted or destroyed.

F. Data collected or retained through the use of an automated license plate reader system shall not be used by any individual or agency for purposes other than enforcement of the Compulsory Insurance Law or as otherwise permitted by law.

2. The Oklahoma Compulsory Insurance Verification System is updated in such a way to allow for the provisions of the program to be implemented without interrupting or impeding any other lawful uses of the system.

I. An electronic copy of the report shall be distributed to the President Pro Tempore of the Senate and the Speaker of the House of Representatives and the chairs of the House and Senate Appropriations Committees. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.

Laws 1961, p. 373, § 11-201.

§47-11-202. Traffic-control signal legend.

Whenever traffic is controlled by traffic-control signals exhibiting different colored lights or colored lighted arrows successively one at a time, or in combination, only the colors green, red and yellow shall be used, except for special pedestrian signals carrying a word legend, and the lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

1. Green indication:

- a. vehicular traffic facing a circular green signal, except when prohibited under Section 11-1302 of this title, may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited,
- b. vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, and
- c. unless otherwise directed by a pedestrian-control signal, as provided in Section 11-203 of this title, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk;

2. Steady yellow indication:

- a. vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red

indication will be exhibited immediately thereafter,
and

- b. pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian-control signal as provided in Section 11-203 of this title, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway; and
3. Steady red indication:
- a. vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown except as provided in subparagraphs b and d of this paragraph,
 - b. except when a sign is in place prohibiting a turn, vehicular traffic facing any steady red signal may cautiously enter the intersection to turn right or to turn left from a one-way street into a one-way street after stopping as required by subparagraph a of this paragraph. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection,
 - c. in order to prohibit right turns or left turns as prescribed in subparagraph b of this paragraph, on the red signal after the required stop, a municipality must erect clear, concise signs informing drivers that such turns are prohibited. The Highway Department shall specify the design of the sign to be used for this purpose, and it shall be used uniformly throughout the state,
 - d. notwithstanding any other provision of law, the driver of a motorcycle facing any steady red signal may cautiously proceed through the intersection only if:
 - (1) the motorcycle has been brought to a complete stop as required by subparagraph a of this paragraph,
 - (2) the traffic-control signal is programmed or engineered to change to a green signal only after detecting the approach of a motor vehicle and has failed to detect the arrival of the motorcycle because of its size or weight, and
 - (3) no motor vehicle or person is approaching on the roadway to be crossed or entered, or the motor

vehicle or person is at a distance from the intersection that does not constitute an immediate hazard.

The driver of any vehicle approaching the intersection, which lawfully may enter the intersection, shall have the right-of-way over any motorcycle operator proceeding through a red light and, in no event where an accident results from the driver of the motorcycle proceeding into the intersection on a red light, shall such driver of the vehicle be charged with any violation pursuant to Sections 11-401 and 11-403 of this title relating to failure to yield right-of-way, Section 11-310 of this title relating to following too closely, or Section 11-801 of this title relating to driving too fast for conditions, and

- e. unless otherwise directed by a pedestrian-control signal as provided in Section 11-203 of this title, pedestrians facing a steady circular red signal alone shall not enter the roadway.

In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

C. 1. A person operating a bicycle approaching a steady red traffic-control signal shall:

- a. make a complete stop at the steady red traffic-control signal before entering the intersection, and
- b. yield the right-of-way to all oncoming traffic that constitutes an immediate hazard during the time that he or she is moving across or within the intersection.

2. If a person operating a bicycle determines there is no immediate hazard, he or she may proceed through the steady red traffic-control signal with caution.

3. A person operating a bicycle may make a:

- a. right-hand turn at a steady red traffic-control signal without stopping after slowing to a reasonable speed and yielding the right-of-way, if required, to oncoming traffic that constitutes an immediate hazard, or
- b. left-hand turn onto a one-way street at a steady red traffic-control signal after stopping and yielding to oncoming traffic that constitutes an immediate hazard.

2. Flashing yellow (caution signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane when available for traffic, or as close as practicable to the right-hand curb or edge of the roadway and may be temporarily driven upon the right-hand shoulder for the purpose of permitting other vehicles to pass. This subsection shall not apply when overtaking and passing another vehicle proceeding in the same direction or when preparing

for a left turn at an intersection or into a private road or driveway.

C. Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under paragraph 2 of subsection (a) of this section. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or from an alley, private road or driveway.

§47-11-302. Passing vehicles proceeding in opposite directions.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half (1/2) of the maintraveled portion of the roadway as nearly as possible.

Laws 1961, p. 376, § 11-302.

§47-11-303. Overtaking a vehicle on the left - Signal.

The following requirements shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions and special requirements hereinafter stated:

1. The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

2. Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

3. Every driver who intends to pass another vehicle proceeding in the same direction, which requires moving his vehicle from one lane of traffic to another, shall first see that such movement can be made with safety and shall proceed to pass only after giving a proper signal by hand or mechanical device.

Added by Laws 1961, p. 376, § 11-303, eff. Sept. 1, 1961. Amended by Laws 1968, c. 96, § 1, emerg. eff. April 1, 1968; Laws 2002, c. 397, § 21, eff. Nov. 1, 2002.

§47-11-304. When overtaking on the right is permitted.

(a) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

1. When the vehicle overtaken is making or about to make a left turn;

2. Upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for two or more lines of moving vehicles in each direction;

3. Upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two or more lines of moving vehicles.

(b) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main traveled portion of the roadway. Laws 1961, p. 377, § 11-304.

§47-11-305. Limitations on overtaking on the left.

No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to the righthand side of the roadway before coming within one hundred (100) feet of any vehicle approaching from the opposite direction.

Laws 1961, p. 377, § 11-305.

§47-11-306. Further limitations on driving to left of center of roadway.

(a) No vehicle shall be driven on the left side of the roadway under the following conditions:

1. When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

2. When approaching within one hundred (100) feet of or traversing any intersection or railroad grade crossing unless otherwise indicated by official traffic control devices;

3. When the view is obstructed upon approaching within one hundred (100) feet of any bridge, viaduct or tunnel.

(b) The foregoing limitations shall not apply upon a one-way roadway; nor under the conditions described in Section 11-301,

subsection (a), paragraph 2 of this title, nor to the driver of a vehicle turning left into or from an alley, private road or driveway.

§47-11-307. No-passing zones.

(a) The Oklahoma Department of Highways or other designated authorities are hereby authorized to determine those portions of any highway where overtaking and passing or driving to the left of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones and when such signs or markings are in place and clearly visible to an ordinarily observant person every driver of a vehicle shall obey the directions thereof.

(b) Where signs or markings are in place to define a no-passing zone as set forth in paragraph (a) no driver shall at any time drive to the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

Laws 1961, p. 377, § 11-307.

§47-11-308. One-way roads and circular intersections.

A. The Transportation Commission or local authorities, within their respective jurisdictions, may designate any street or highway or any separate roadway under their respective jurisdictions for one-way traffic and shall erect appropriate signs giving notice thereof.

B. Upon a roadway designated and signposted for one-way traffic, a vehicle shall be driven only in the direction designated.

§47-11-309. Driving on roadways laned for traffic.

Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following requirements in addition to all others consistent herewith shall apply:

1. A vehicle shall be driven as nearly as practicable entirely within a single lane;

2. A vehicle shall not be moved from the lane until the driver has first ascertained that the movement can be made with safety and then given a signal, not less than the last one hundred (100) feet traveled by the vehicle, of his or her intention to change lanes;

3. A two-way left-turn lane is a lane near the center of the highway set aside for use by vehicles making left turns in both directions from or into the roadway. Two-way left-turn lanes shall be designated by distinctive roadway markings consisting of parallel double yellow lines, interior line dashed and exterior line solid, on each side of the lane. A vehicle shall not be driven in a designated two-way left-turn lane except when preparing for or making a left turn from or into a roadway. Vehicles turning left from the roadway shall not be driven in the two-way left-turn lane for more than two hundred (200) feet while preparing for and making the turn. A vehicle turning left onto the roadway may utilize the two-way left-turn lane as a staging area by stopping and waiting for traffic proceeding in the same direction to clear before merging into the adjacent lanes of travel. A left turn shall not be made from any other lane where a two-way left-turn lane has been designated. Provided, however, this section shall not prohibit driving across a two-way left-turn lane when moving from a service drive onto such marked roadway;

4. A vehicle shall not be driven in the left lane of a roadway except when overtaking and passing another vehicle; provided, however, this paragraph shall not prohibit driving in the left lane when traffic conditions, flow or road configuration, such as the potential of merging traffic, requires the use of the left lane to maintain safe traffic conditions; provided further, this paragraph shall not prohibit driving in the left lane of a roadway within the city limits of a municipality or upon a county road as long as such roadway is not part of the National System of Interstate and Defense Highways or a turnpike; and

5. Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such sign.

Any person convicted of violating any provision of this section shall be punished as provided for in Section 17-101 of this title. Added by Laws 1961, p. 377, § 11-309, eff. Sept. 1, 1961. §47-11-310. Following too closely.

(a) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(b) The driver of any truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residential district and which is following another truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or another vehicle.

(c) No vehicle which has more than six tires in contact with the road shall approach from the rear of another vehicle which has more than six tires in contact with the road closer than three hundred (300) feet except when passing the vehicle.

(d) Motor vehicles being driven upon any roadway outside of a business or residential district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. The distance between such vehicles shall be a minimum of two hundred (200) feet under all conditions. This provision shall not apply to funeral processions.

(e) Subsections (a), (b), (c) and (d) of this section shall not apply to a non-lead vehicle in a platoon, as defined in this section, or the operator thereof, as long as the platoon consists of not more than two motor vehicles.

(f) As used in this section, "platoon" means a group of individual motor vehicles traveling in a unified manner at electronically coordinated speeds at following distances that are closer than would be reasonable and prudent without such coordination.

No vehicle shall be driven over, across or within any such dividing space, barrier or section, except through a permanent opening in the

dividing space, barrier or section or at a permanent cross-over or intersection as established unless specifically prohibited by public authority. The Department of Transportation, the Oklahoma Transportation Authority, or local authorities adopting any such prohibitory regulations shall erect and maintain official signs on the controlled-access roadway on which such regulations are applicable and when so erected no person shall disobey the restrictions stated on such signs.

C. The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions, or shall stop if necessary as provided in subsection (e) of Section 11-703 of this title, and shall yield the right-of-way to any pedestrian legally crossing the roadway on which the driver is driving, and to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard. Said driver having so yielded may proceed and the drivers of all other vehicles approaching the intersection shall yield to the vehicle so proceeding, provided, however, that if such driver is involved in a collision with a pedestrian in a crosswalk or vehicle in the intersection after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of the driver's failure to yield right-of-way.

D. However, the Department of Public Safety shall have the authority to permit such travel in certain geographic areas of the state as deemed necessary. Such tractor or implement may be operated on any other roadway in this state if the operator has attached all the safety devices required by law and has taken reasonable steps to reduce the width of the tractor or implement as provided for by the manufacturer. Whenever the width of a farm tractor or implement of husbandry exceeds the width of that portion of a roadway on which the tractor or implement is driven, which is marked as a single lane of traffic, or, if the roadway has not been marked for lanes of traffic and the width of the tractor or implement exceeds more than fifty percent (50%) of the width of the roadway, the operator shall move the tractor or implement, as soon as possible, as far to the right-hand side of the roadway as is practicable and safe upon approach of any oncoming or following vehicle and upon approaching the crest of a hill.

B. Upon the immediate approach of a farm tractor or implement of husbandry which cannot be moved by the operator thereof to the far right-hand side of the roadway, as required in subsection A of this section, due to the existence of any bridge or guardrail, sign or any other physical impediment which would not safely allow such tractor or implement to travel on the far right-hand side of the road, the driver of every other vehicle shall yield the right-of-way and shall immediately pull over to the far right-hand side of the road and remain in such position until the tractor or implement has passed.

C. This section shall not operate to relieve any operator of a farm tractor or implement of husbandry from the duty to drive with due regard for the safety of all persons using the roadway.

4. An approaching railroad train or other on-track equipment is plainly visible and is in hazardous proximity to such crossing; or
5. The tracks at the crossing are not clear.

B. No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed or fail to obey the directions of a law enforcement officer at the crossing.

(c) Every stop sign shall bear the word "Stop". Every yield sign hereafter erected or replaced shall bear the word "Yield". Every stop sign and every yield sign shall at nighttime be rendered luminous by internal illumination, or by a floodlight projected on the face of the sign, or by efficient reflecting elements in or on the face of the sign.

(d) Except when directed to proceed by a police officer or traffic-control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.

(e) The driver of a vehicle approaching a yield sign if required for safety to stop shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.

§47-11-705. Meeting or overtaking stopped school bus - Violation and penalty - Reporting violations - Video monitoring on buses.

A. The driver of a vehicle meeting or overtaking a school bus that is stopped to take on or discharge school children, and on which the red loading signals are in operation, is to stop the vehicle before it reaches the school bus and not proceed until the loading signals are deactivated and then proceed past such school bus at a speed which is reasonable and with due caution for the safety of such school children and other occupants. Any person convicted of violating the provisions of this subsection shall be punished by a fine of not less than One Hundred Dollars (\$100.00). In addition to the fine, a special assessment of One Hundred Dollars (\$100.00) shall be assessed, of which seventy-five percent (75%) shall be deposited to the credit of the Cameras for School Bus Stops Revolving Fund established in Section 9-119 of Title 70 of the Oklahoma Statutes. The remaining twenty-five percent (25%) of the special assessment shall be deposited to the credit of the reviewing law enforcement agency referred to in subsection E of this section.

B. Visual signals, meeting the requirements of Section 12-228 of this title, shall be actuated by the driver of said school bus whenever, but only whenever, such vehicle is stopped on the highway for the purpose of receiving or discharging school children.

C. The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or passing a school bus which is on a different roadway or when upon a controlled-access highway and the school bus is stopped in a loading zone which is a part of or adjacent to such highway and where pedestrians are not permitted to cross the roadway.

D. If the driver of a school bus witnesses a violation of the provisions of subsection A of this section, on or before the end of the next business day following the alleged offense, the driver shall report the violation, the vehicle color, license tag number, and the time and place such violation occurred to the law enforcement authority of the municipality where the violation occurred. The law enforcement authority of a municipality shall issue a letter of warning on the alleged violation to the person in whose name the vehicle is registered. The Office of the Attorney General shall provide a form letter to each municipal law enforcement agency in this state for the issuance of the warning provided for in this subsection. Such form letter shall be used by each such law enforcement agency in the exact form provided for by the Office of the Attorney General. A warning letter issued pursuant to this subsection shall not be recorded on the driving record of the person to whom such letter was issued. Issuance of a warning letter pursuant to this section shall not preclude the imposition of other penalties as provided by law.

E. 1. A school district may install and operate a video-monitoring system in or on the school buses or the bus stop-arms operated by the district or contract with a private vendor to do so on behalf of the school district for the purpose of recording violations of subsection A of this section. In the event the video-monitoring system captures a recording of a violation of subsection A of this section, appropriate personnel at the school district shall extract data related to the violation from the recording. The extracted data shall include a recorded image or video containing the requirements listed in paragraph 2 of this subsection. The school district shall submit the extracted data for review to the law enforcement agency with jurisdiction in which the violation occurred. If the reviewing law enforcement agency determines there is sufficient evidence to identify the vehicle and the driver, such evidence shall be submitted to the district attorney's office for prosecution.

2. For the purposes of this subsection, "video-monitoring system" means a system with one or more camera sensors and computers installed and operated on a school bus that produces live digital and recorded video of motor vehicles being operated in violation of subsection A of this section. The system shall, at a minimum, produce a recorded image of the license plate of the vehicle, an identifiable picture of the driver's face, the activation status of at least one warning device as prescribed in Section 12-228 of this title and the time, date and location of the vehicle when the image was recorded.

The driver of a vehicle meeting or overtaking a church bus that is stopped to take on or discharge passengers, and on which the red loading signals are in operation, is to stop the vehicle before it reaches the church bus and not proceed until the loading signals are deactivated and then proceed past such bus at a speed which is reasonable and with due caution for the safety of such occupants.

B. If the church bus is equipped with visual signals meeting the requirements of Section 12-228 of this title, the signals shall be actuated by the driver of said church bus whenever, but only whenever, such vehicle is stopped on the highway for the purpose of receiving or discharging passengers.

C. The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or passing a church bus which is on a different roadway or when upon a controlled-access highway and the church bus is stopped in a loading zone which is a part of or adjacent to such highway and where pedestrians are not permitted to cross the roadway.

Added by Laws 1978, c. 262, § 1, eff. Oct. 1, 1978. Amended by Laws 2003, c. 411, § 12, eff. Nov. 1, 2003.

§47-11-801. Basic rule - Maximum and minimum limits - Fines and penalties.

A. Any person driving a vehicle on a highway shall drive the same at a careful and prudent speed not greater than nor less than is reasonable and proper, having due regard to the traffic, surface and width of the highway and any other conditions then existing. No person shall drive any vehicle upon a highway at a speed greater than will permit the driver to bring it to a stop within the assured clear distance ahead.

B. Except when a special hazard exists that requires lower speed for compliance with subsection A of this section, the limits specified by law or established as hereinafter authorized shall be maximum lawful speeds, and no person shall drive a vehicle on a highway at a speed in excess of the following maximum limits:

1. On a highway or part of a highway, unless otherwise established in law, a speed established by the Department of Transportation on the basis of engineering and traffic investigations used to determine the speed that is reasonable and safe under the conditions found to exist on the highway or part of the highway;

2. For a school bus, fifty-five (55) miles per hour on paved two-lane roads except on the state highway system, the interstate

highway system and the turnpike system where the maximum shall be sixty-five (65) miles per hour;

3. On any highway outside of a municipality in a properly marked school zone, twenty-five (25) miles per hour, provided the zone is marked with appropriate warning signs placed in accordance with the latest edition of the Manual on Uniform Traffic Control Devices. The Department of Transportation may determine on the basis of an engineering and traffic investigation that a speed limit higher than twenty-five (25) miles per hour may be reasonable and safe under conditions as they exist upon a highway, and post an alternative school zone speed limit. The Department shall mark such school zones, or entrances and exits onto highways by buses or students, so that the maximum speed provided by this section shall be established therein. Exits and entrances to controlled-access highways which are within such school zones shall be marked in the same manner as other highways. The county commissioners shall mark such school zones along the county roads so that the maximum speed provided by this section shall be established therein. The signs may be either permanent or temporary. The Department shall give priority over all other signing projects to the foregoing duty to mark school zones. The Department shall also provide other safety devices for school zones which are needed in the opinion of the Department;

4. Twenty-five (25) miles per hour or a posted alternative school zone speed limit through state schools located on the state-owned land adjoining or outside the limits of a corporate city or town where a state educational institution is established;

5. Thirty-five (35) miles per hour on a highway in any state park or wildlife refuge. Provided, however, that the provisions of this paragraph shall not include the State Capitol park area, and no person shall drive any vehicle at a rate of speed in excess of fifty-five (55) miles per hour on any state or federal designated highway within such areas; and

6. For any vehicle or combination of vehicles with solid rubber or metal tires, ten (10) miles per hour.

The maximum speed limits set forth in this section may be altered as authorized in Sections 11-802 and 11-803 of this title.

C. The Commission is hereby authorized to prescribe maximum and minimum speeds for all vehicles and any combinations of vehicles using controlled-access highways. Such regulations shall become effective after signs have been posted on these highways giving notice thereof. Such regulations may apply to an entirely controlled-access highway or to selected sections thereof as may be designated by the Commission. A speed limit of seventy-five (75) miles per hour may be set in locations comprising rural segments of the interstate highway system by the Commission; provided, however, that speed is determined to be safe and reasonable after a traffic

or engineering study has been completed by the Department. It shall be a violation of this section to drive any vehicle at a faster rate of speed than such prescribed maximum or at a slower rate of speed than such prescribed minimum. However, all vehicles shall at all times conform to the limits set forth in subsection A of this section.

Copies of such regulations certified as in effect on any particular date by the Secretary of the Commission shall be accepted as evidence in any court in this state. Whenever changes have been made in speed zones, copies of such regulations shall be filed with the Commissioner of Public Safety.

D. The Oklahoma Turnpike Authority is hereby authorized to prescribe maximum and minimum speeds for trucks, buses and automobiles using turnpikes; provided, however, a speed limit of eighty (80) miles per hour may be set in locations comprising the turnpike system, as may be approved by the Authority. The regulation pertaining to automobiles shall apply to all vehicles not commonly classified as either trucks or buses. Such regulations shall become effective only after approval by the Commissioner of Public Safety, and after signs have been posted on the turnpike giving notice thereof. Such regulations may apply to an entire turnpike project or to selected sections thereof as may be designated by the Oklahoma Turnpike Authority. It shall be a violation of this section to drive a vehicle at a faster rate of speed than such prescribed maximum speed or at a slower rate of speed than such prescribed minimum speed. However, all vehicles shall at all times conform to the requirements of subsection A of this section.

Copies of such regulations, certified as in effect on any particular date by the Secretary of the Oklahoma Turnpike Authority, shall be accepted in evidence in any court in this state.

E. The driver of every vehicle shall, consistent with the requirements of subsection A of this section, drive at an appropriate reduced speed when approaching and crossing an intersection or railway grade crossing, when approaching and going around a curve, when approaching a hillcrest, when driving upon any narrow or winding roadway, and when special hazard exists with respect to pedestrians or other traffic, or by reason of weather or highway conditions. The Oklahoma Department of Transportation and the Oklahoma Turnpike Authority may post, by changeable message sign or other appropriate sign, a temporary reduced speed limit for maintenance operations or when special hazards with respect to pedestrians, other traffic, an accident, by reason of weather or when other hazardous highway conditions exist.

F. 1. No person shall drive a vehicle on a county road at a speed in excess of fifty-five (55) miles per hour unless posted

otherwise by the board of county commissioners, as provided in subparagraphs a through c of this paragraph, as follows:

- a. the board of county commissioners may determine, by resolution, a maximum speed limit which shall apply to all county roads which are not otherwise posted for speed,
- b. the board of county commissioners shall provide public notice of the speed limit on all nonposted roads by publication in a newspaper of general circulation in the county. The notice shall be published once weekly for a period of four (4) continuous weeks, and
- c. the board of county commissioners shall forward the resolution to the Director of the Department and to the Commissioner of Public Safety.

2. The Department shall post speed limit information, as determined pursuant to the provisions of subparagraphs a through c of paragraph 1 of this subsection, on the county line marker where any state highway enters a county and at all off-ramps where interstate highways or turnpikes enter a county. The signs shall read as follows:

ENTERING _____ COUNTY
 COUNTY ROAD SPEED LIMIT
 MPH
 UNLESS POSTED OTHERWISE

The appropriate board of county commissioners shall reimburse the Department the full cost of the signage required herein.

G. Any person convicted of a speeding violation pursuant to subsection B or F of this section shall be punished by a fine as follows:

- 1. One to ten miles per hour over the speed limit as provided for in Section 11-801e of this title,
- 2. Eleven to fifteen miles per hour over the limit.....\$20.00
- 3. Sixteen to twenty miles per hour over the limit.....\$35.00
- 4. Twenty-one to twenty-five miles per hour over the limit.....\$75.00
- 5. Twenty-six to thirty miles per hour over the limit.....\$135.00
- 6. Thirty-one to thirty-five miles per hour over the limit.....\$155.00
- 7. Thirty-six miles per hour or more over the limit.....\$205.00

or by imprisonment for not more than ten (10) days; for a second conviction within one (1) year after the first conviction, by imprisonment for not more than twenty (20) days; and upon a third or subsequent conviction within one (1) year after the first

conviction, by imprisonment for not more than six (6) months, or by both such fine and imprisonment.

If a person is sentenced to imprisonment in the custody of the Department of Corrections and the court has received a written evaluation report pursuant to the provisions of this subsection, the report shall be furnished to the Department of Corrections with the judgment and sentence. Any evaluation and assessment report submitted to the court pursuant to the provisions of this subsection shall be handled in a manner which will keep such report confidential from the general public's review. Nothing contained in this subsection shall be construed to prohibit the court from ordering judgment and sentence in the event the defendant fails or refuses to comply with an order of the court to obtain the evaluation and assessment required by this subsection. If the defendant fails or refuses to comply with an order of the court to obtain the evaluation and assessment, the Department of Public Safety shall not reinstate driving privileges until the defendant has complied in full with such order. Nothing contained in this subsection shall be construed to prohibit the court from ordering judgment and sentence and any other sanction authorized by law for failure or refusal to comply with an order of the court.

L. 1. When a person is eighteen (18) years of age or older, and is the driver, operator, or person in physical control of a vehicle, and is convicted of violating any provision of this section while transporting or having in the motor vehicle any child less than eighteen (18) years of age, the fine shall be enhanced to double the amount of the fine imposed for the underlying driving under the influence (DUI) violation which shall be in addition to any other penalties allowed by this section.

2. Nothing in this subsection shall prohibit the prosecution of a person pursuant to Section 852.1 of Title 21 of the Oklahoma Statutes who is in violation of any provision of this section or Section 11-904 of this title.

M. Any plea of guilty, nolo contendere or finding of guilt for a violation of this section or a violation pursuant to the provisions of any law of this state or another state prohibiting the offenses provided for in this section, Section 11-904 of this title, or paragraph 4 of subsection A of Section 852.1 of Title 21 of the Oklahoma Statutes, shall constitute a conviction of the offense for the purpose of this section; provided, any deferred judgment shall only be considered to constitute a conviction for a period of ten (10) years following the completion of any court-imposed probationary term.

N. If qualified by knowledge, skill, experience, training or education, a witness shall be allowed to testify in the form of an opinion or otherwise solely on the issue of impairment, but not on the issue of specific alcohol concentration level, relating to the following:

§47-11-902b. Forfeiture of motor vehicle.

A. The district attorney may file a motion requesting forfeiture of the motor vehicle involved in the commission of an eligible offense as provided in this section. The provisions of this section shall apply to:

1. Any person who has been previously convicted of an offense under Section 11-902, 11-903, or 11-904 of this title and who on or after July 1, 1999, is convicted of an offense under Section 11-902, 11-903, or 11-904 of this title within ten (10) years of any prior conviction under Section 11-902, 11-903, or 11-904 of this title and where at least one of the offenses, current or prior, involved the death of or serious bodily injury to another person; or

2. Any person who has been convicted of a third or subsequent felony offense under Section 11-902 of this title.

B. A motion for forfeiture may be filed at the time of charging but not later than thirty (30) days after the verdict or plea of guilty or nolo contendere. If a motion of intent to forfeit is filed prior to the verdict or plea of guilty or nolo contendere, the proceedings shall be stayed until the disposition of the criminal case. Notice shall be required even though the proceedings are stayed. If the motion is filed prior to the disposition on the criminal case, the district attorney shall notify the Oklahoma Tax Commission and the Tax Commission shall place a lien upon the vehicle title. No person shall sell, damage, destroy, transfer or perfect a security interest on any vehicle subject to forfeiture. Prior to filing a motion for forfeiture, the district attorney shall verify whether the vehicle was sold during any period of impoundment as provided by law. Any vehicle sold in an impound sale to pay towing, wrecker services or storage expenses shall not be subject to forfeiture as provided in this section.

C. Upon filing a motion for forfeiture, except when the proceedings are stayed pursuant to subsection B of this section, the court shall schedule a hearing on the matter. The hearing shall be not less than twenty (20) days nor more than forty-five (45) days from the date the motion is filed. The district attorney within three (3) days of filing a motion of intent to forfeit shall notify the convicted person, lienholders of record, and any person appearing to have an ownership or security interest in the vehicle. The notice shall contain the date, time and place of the hearing. When a motion for forfeiture has been stayed pending disposition of the criminal case and a verdict or plea of guilty or nolo contendere has been entered, the district attorney shall give notice of the forfeiture hearing not less than ten (10) days prior to the hearing. The notice of persons specified in this subsection shall be by certified mail to the address shown upon the records of the Oklahoma Tax Commission. For owners or interested parties, other than lienholders of record, whose addresses are unknown, but who are

believed to have an interest in the vehicle, notice shall be by one publication in a newspaper of general circulation in the county where the motion is filed. The written notice shall include:

1. A full description of the motor vehicle;
2. The date, time and place of the forfeiture hearing;
3. The legal authority under which the motor vehicle may be forfeited; and
4. Notice of the right to intervene to protect an interest in the motor vehicle.

D. A forfeiture proceeding shall not extinguish any security interest of a lienholder of record; provided, however, the court may order the sale of the motor vehicle and the satisfaction of that security interest from the proceeds of sale as provided in subsection K of this section.

For purposes of a forfeiture proceeding, an affidavit obtained from the lienholder of record, in the absence of evidence of bad faith, shall be prima facie evidence of the amount of secured indebtedness owed to that lienholder. It shall be the responsibility of the district attorney to obtain such affidavit prior to the forfeiture proceeding.

In the absence of evidence of bad faith, no lienholder of record shall be required to attend the forfeiture proceeding to protect its interest in the motor vehicle. However, each lienholder of record shall be given notice of the forfeiture hearing as provided in subsection C of this section. The district attorney shall notify each lienholder of record at least ten (10) days before the sale of the motor vehicle ordered forfeited pursuant to this section; provided, the lienholder was not represented at the forfeiture proceeding.

E. Any person having an ownership or security interest in a vehicle subject to forfeiture which is not perfected by a lien of record may file a written objection to the motion to forfeit within ten (10) days of the mailing of the notice of intent to forfeit.

F. At the hearing, any person who claims an ownership or security interest in the motor vehicle which is not perfected by a lien of record shall be required to establish by a preponderance of the evidence that:

1. The person has an interest in the motor vehicle and such interest was acquired in good faith;
2. The person is not the person convicted of the offense that resulted in the forfeiture proceeding; and
3. The person did not know or have reasonable cause to believe that the vehicle would be used in the commission of a felony offense.

G. If a person satisfies the requirements of subsection F of this section, or if there is a lienholder of record that has provided an affidavit pursuant to subsection D of this section, the

court shall order either an amount equal to the value of the interest of that person in the motor vehicle to be paid to that person upon sale of the motor vehicle after payment of costs and expenses or release the vehicle from the forfeiture proceedings if either the lienholder described in subsection D of this section or the person intervening in accordance with subsection F of this section has full right, title and interest in the vehicle.

H. At the hearing, the court may order the forfeiture of the motor vehicle if it is determined by a preponderance of the evidence that the forfeiture of the motor vehicle will serve one or more of the following purposes:

1. Incapacitation of the convicted person from the commission of any future offense under Section 11-902, 11-903, or 11-904 of this title;

2. Protection of the safety and welfare of the public;

3. Deterrence of other persons who are potential offenders under Section 11-902, 11-903, or 11-904 of this title;

4. Expression of public condemnation of the serious or aggravated nature of the conduct of the convicted person; or

5. Satisfaction of monetary amounts for criminal penalties.

I. Upon forfeiture of a motor vehicle pursuant to this act, the court shall require the owner to surrender the motor vehicle, the certificate of title, and the registration of the motor vehicle. The vehicle, the certificate of title, and the registration shall be delivered to the Department of Public Safety within three (3) days of the forfeiture order. The expense of delivering the vehicle shall be paid by the district attorney. Costs of delivering the vehicle to the Department shall be reimbursable as costs of conducting the sale. A motor vehicle forfeited pursuant to this act, shall be sold by the Department of Public Safety as provided by law for the sale of other forfeited property, except as otherwise provided in this section.

J. If a vehicle was impounded at the time of delivery to the Department and a forfeiture order is subsequently issued, all towing, wrecker services, and storage expenses shall be satisfied from the sale of the vehicle. If a vehicle is released from forfeiture and the vehicle has been delivered to the Department with impound expenses still owing, all impound expenses, including towing, wrecker service and storage expenses, shall be paid by the person prevailing on the dismissal of the forfeiture proceeding and the release of the vehicle to such person. If a notice for sale of the vehicle was filed for satisfaction of impound expenses prior to the filing of a motion for forfeiture, the vehicle shall be sold as provided by law for unpaid towing, wrecker services, and storage expenses and shall not be subject to forfeiture. If the convicted person redeems his or her interest in the vehicle at a sale for impound expenses, a forfeiture proceeding may thereafter proceed as

authorized by this act. Neither the notice of sale for towing, wrecker services, and storage expenses nor the sale of such vehicle for impound expenses shall serve to extend the requirement for filing a motion to forfeit as provided in subsection B of this section.

K. Except as provided in subsection J of this section, proceeds from the sale of any vehicle forfeited pursuant to this act shall be paid in the following order:

1. To satisfy the interest of any lienholder of record;
2. To the Department of Public Safety for the cost of conducting the sale, including expense of delivery, court filing fees, and publication expense;
3. To satisfy impound expenses, including any towing, wrecker service and storage expenses incurred prior to delivery to the Department of Public Safety;
4. To satisfy the interest of any person making proof as provided in subsection F of this section;
5. To satisfy criminal penalties, costs and assessments pursuant to paragraph 5 of subsection H of this section if so ordered by the court;
6. To the office of the district attorney who filed the forfeiture proceeding not exceeding twenty-five percent (25%) of any remaining proceeds. Such payment shall be deposited in a special fund for such purpose as determined by the district attorney's office; and
7. The balance of the proceeds to be deposited in the Drug Abuse Education and Treatment Revolving Fund established pursuant to Section 2-503.2 of Title 63 of the Oklahoma Statutes for the benefit of drug court treatment as provided by law.

L. If a motor vehicle subject to forfeiture as provided by this act is a vehicle leased pursuant to a commercial rental agreement for a period of ninety (90) days or less, then the vehicle shall not be subject to the forfeiture proceedings provided by this act.

M. Upon the court dismissing a forfeiture proceeding, any lien placed upon the vehicle title by the Oklahoma Tax Commission pursuant to subsection B of this section shall be released. Added by Laws 1999, c. 391, § 1, eff. July 1, 1999. Amended by Laws 2014, c. 74, § 1.

§47-11-1304. Operation Work Zone Awareness.

A. The Department of Public Safety is authorized to establish Operation Work Zone Awareness. Operation Work Zone Awareness is a

program designed to educate the motoring public on the dangers of committing moving violations while traveling in highway construction work zones. The Department is authorized to develop and house on its website an online work zone awareness presentation that may include, but not be limited to, facts and figures representing the dangers of motorists committing work zone moving violations, testimonials from highway construction workers and their families, information on the importance of awareness and slowing down in work zones, and a question-and-answer section to ensure participants understand and retain the information presented. The Department is authorized to contract for the production, development, and maintenance of the webpage through a vendor. The Department shall maintain in its database a record of those completing the program.

B. Motorists receiving a citation for committing moving violations within a work zone may receive information regarding an invitation to participate in the Operation Work Zone Awareness program. A motorist who participates in and completes the online program shall receive a certificate designed and issued by the Department. Any person producing the certificate as proof in court that the program was successfully completed shall be entitled to dismissal of the fine. If proof of successful completion of the program is presented to the court in person or electronically, no later than the business day preceding the first scheduled court appearance date, the dismissal shall be without payment of court costs. The court may access information from the Department's system to confirm completion of the program. Offenders may participate in and complete the program a maximum of one time. After completing the program, a motorist who receives another citation in a work zone will be disqualified from utilizing the program benefits a second time. If a motorist so chooses, he or she may not participate in the program and instead pay the fine imposed on the issued citation. Holders of commercial driver licenses cited while driving a commercial motor vehicle are not eligible to participate in the program.

C. Moving violations that qualify an offender to participate in the Operation Work Zone Awareness program shall include, but not be limited to, speeding, distracted driving, failure to move over, failure to obey flagger, and failure to obey traffic control devices. Motorists committing impaired driving offenses, as defined in Title 47 of the Oklahoma Statutes, in work zones, including driving under the influence, driving while intoxicated, driving under the influence under twenty-one (21) years of age, or a commercial driver license holder refusing a chemical test while driving any vehicle, shall be disqualified from the program.

D. The fee paid by a motorist for his or her participation in the Operation Work Zone Awareness program shall be Seventy-five Dollars (\$75.00) and shall be apportioned as follows:

1. Thirty-five Dollars (\$35.00) to be deposited in the Department of Public Safety Revolving Fund, created in Section 2-144.1 of Title 47 of the Oklahoma Statutes, to be used for maintenance of the Operation Work Zone Awareness program;

2. Fifteen Dollars (\$15.00) to be deposited in the Department of Public Safety Patrol Vehicle Revolving Fund created in Section 2-143 of Title 47 of the Oklahoma Statutes; and

3. Twenty-five Dollars (\$25.00) to be deposited in the Oklahoma Court Information System Revolving Fund, created in Section 1315 of Title 20 of the Oklahoma Statutes, to be used to offset expenses related to this program.

The Department is authorized to determine the manner in which fees may be paid.

Added by Laws 1997, c. 278, § 1, emerg. eff. May 27, 1997.

§47-11-1401.2. Oklahoma Electronic Toll Collection Act - Definitions - Imposition of toll evasion violation penalties.

1. "Authority" means the Oklahoma Turnpike Authority;
2. "Department" means the Department of Public Safety;

5. "Photo-monitoring system" means a vehicle sensor installed to work in conjunction with a toll collection facility which automatically produces one or more photographs, one or more microphotographs, a videotape or other recorded images of each vehicle at the time it is used or operated on the turnpikes under the Authority's jurisdiction;

6. "Toll collection regulations" means those rules and regulations of the Oklahoma Turnpike Authority or statutes providing for and requiring the payment of tolls and/or charges prescribed by the Authority for the use of turnpikes under its jurisdiction or those rules and regulations of the Authority or statutes making it unlawful to refuse to pay or to evade or to attempt to evade the payment of all or part of any toll and/or charge for the use of turnpikes under the jurisdiction of the Authority;

7. "Toll evasion violation" means a failure to comply with the Authority's toll collection regulations, including the failure to pay an invoice submitted by the Authority via its video toll collection system;

8. "Vehicle" means every device in, upon or by which a person or property is or may be transported or drawn upon a highway, except devices used exclusively upon stationary rails or tracks;

10. "Video toll collection system account" means the administrative assignment of all vehicles registered to an owner to

an account for efficient billing of the appropriate toll or charge to an owner.

B. 1. Notwithstanding any other provision of law, there shall be imposed monetary liability on the owner of a vehicle for failure of an operator thereof to comply with the toll collection regulations of the Oklahoma Turnpike Authority in accordance with the provisions of this section.

2. An owner's vehicle shall be registered with Service Oklahoma or a similar registering agency of this state or any other state, territory, district, province, nation or other jurisdiction that permits access to owner registration information upon request by or agreement with the Authority for the purpose of carrying out the Authority's governmental functions. If a registering agency does not permit access to the Authority, an owner may comply by direct registration with the Authority.

3. a. The owner of a vehicle shall be liable for a civil penalty imposed pursuant to this section if the vehicle was used or operated with the permission of the owner, express or implied, in violation of the toll collection regulations, and such violation is evidenced by information obtained from a photo-monitoring system.

b. No owner of a vehicle shall be liable for a penalty imposed pursuant to this section where the operator of the vehicle has been convicted of failing to pay a cash toll, in violation of toll collection regulations, for the same incident.

c. An owner or operator of a vehicle is subject to a charge by the Department or other law enforcement agency for an owner's failure to timely pay an invoice for tolls and/or charges submitted by the Authority through its video toll collection system.

4. A certificate, sworn to or affirmed by an agent of the Authority, or facsimile thereof, based upon inspection of photographs, microphotographs, videotape or other recorded images produced by a photo-monitoring system shall be prima facie evidence of the facts contained therein and shall be admissible in any proceeding charging a violation of toll collection regulations. The photographs, microphotographs, videotape or other recorded images evidencing such a violation shall be available for inspection and admission into evidence in any proceeding to adjudicate the liability for the violation. Each photo-monitoring system shall be checked bimonthly for accuracy, and shall be maintained, adjusted or replaced if necessary to ensure the systems are operating properly.

5. An owner found liable for a violation of toll collection regulations pursuant to this section shall be liable for a monetary penalty of Twenty-five Dollars (\$25.00) for each violation.

Liability for this monetary penalty does not abrogate an owner's obligation to pay toll charges associated with the violation, and the Authority may pursue collection of such unpaid toll charges pursuant to this section.

6. An imposition of liability pursuant to this section shall be based upon a preponderance of evidence as submitted. An imposition of liability pursuant to this section shall not be deemed a conviction as an operator and shall not be made part of the motor vehicle operating record of the person upon whom such liability is imposed nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage.

7. a. A notice of toll evasion violation shall be sent by regular first-class mail to each person alleged to be liable as an owner for a violation of toll collection regulations. The notice shall be mailed no later than forty-five (45) days after the alleged violation. A manual or automatic record of mailing prepared in the ordinary course of business shall be prima facie evidence of the receipt of the notice.
- b. A notice of toll evasion violation shall contain the name and address of the person alleged to be liable as an owner for a violation of toll collection regulations pursuant to this section, the registration or the license tag number of the vehicle involved in the violation, the location where the photo-monitoring system recorded the vehicle's image, the date and time of the image, the identification number of the photo-monitoring system which recorded the image or other document locator number and the nature of the violation.
- c. Notice of toll evasion violation shall be prepared and mailed by the Authority or its agents and shall contain information advising the person of the applicable monetary penalty and method of payment thereof and the manner and the time in which the person may contest the liability alleged in the notice. The notice of toll evasion violation shall contain, or be accompanied with, an affidavit of nonliability and information of what constitutes nonliability, information as to the effect of executing the affidavit and instructions for returning the affidavit to the Authority and shall also contain a warning to advise the persons charged that failure to contest in the manner and time provided shall be deemed an admission of liability and that the penalty shall be imposed and may be collected as authorized by law. In addition to the notice required by

subparagraph a of this paragraph, the Authority may elect to send a subsequent notice of toll evasion violation by certified mail or other comparable form of private or public delivery service. Such notice shall contain a statement to the registered owner that, unless the registered owner pays the toll evasion penalty or contests the notice within twenty-one (21) days after receipt of the certified mail notice of toll evasion violation or completes and files the affidavit of nonliability, the renewal of the vehicle registration shall be contingent upon compliance with the notice of toll evasion violation.

- d. If the toll evasion penalty is received by the Authority and there is no contest as to that toll evasion violation, the proceedings under this section shall terminate.
 - e. If the registered owner fails to pay the toll evasion penalty as required in this section, or fails to contest the notice of toll evasion violation issued pursuant to subparagraph c of this paragraph as provided in subparagraph a of paragraph 8 of this subsection, the registered owner shall be deemed liable for the violation by operation of law. The toll evasion penalty and any administrative fees or charges shall be considered a debt due and owing the Authority by the registered owner and the Authority may proceed to collect such penalty, fees or charges under paragraph 10 of this subsection.
8. a. Within twenty-one (21) days after receipt of a notice of toll evasion violation a person may contest a notice of toll evasion violation. In that case, the Authority shall do the following:
- (1) the Authority shall investigate the circumstances of the notice with respect to the contestant's written explanation of reasons for contesting the toll evasion violation. If, based upon the results of the investigation, the Authority is satisfied that the violation did not occur or that the registered owner was not responsible for the violation, the Authority shall maintain an adequate record of the findings of the investigation. Within thirty (30) days of receipt of a notice of contest the Authority shall complete such investigation and mail the results of the investigation to the person who contested the notice of toll evasion violation, and

- (2) if the person contesting a notice of toll evasion violation is not satisfied with the results of the investigation provided for in division (1) of this subparagraph, the person may, within fifteen (15) days of the mailing of the results of the investigation, deposit the amount of the toll evasion penalty and request an administrative review. An administrative review shall be held within ninety (90) calendar days following the receipt of a request for an administrative review, excluding any continuance time. The person requesting the review may request and shall be allowed one continuance, not to exceed twenty-one (21) calendar days.
- b. The administrative review procedure shall consist of the following:
- (1) the person requesting an administrative review shall indicate to the Authority his or her election for a review by mail or personal conference and may provide materials in support of the contest of the results of the investigation,
 - (2) upon ten (10) days' written notice mailed to the contestant, the administrative review shall be conducted before an examiner designated to conduct review by the Authority's governing body or Director of the Oklahoma Turnpike Authority. In addition to any other requirements of employment, an examiner shall demonstrate those qualifications, training, and objectivity prescribed by the Authority's governing body or Director as are necessary and which are consistent with the duties and responsibilities set forth in this section and Section 11-1401.1 et seq. of this title,
 - (3) the officer or person authorized to issue a notice of toll evasion violation shall be required to participate in an administrative review. The Authority shall not be required to produce any evidence other than the notice of toll evasion violation or copy thereof, a photograph of the rear of the vehicle, information received from Service Oklahoma identifying the registered owner of the vehicle, and a notarized statement from the person reporting the violations. The documentation in

proper form shall be considered prima facie evidence of the violation, and

(4) the review shall be conducted in accordance with paragraph 6 of this subsection and in accordance with the written procedure established by the Authority which shall ensure fair and impartial review of contested toll evasion violations. The examiner's final decision shall be in writing and shall be delivered personally or by registered mail to the contestant within ten (10) days of the review. A manual or automatic record of mailing prepared in the ordinary course of business shall be prima facie evidence of the receipt of such decision.

9. a. Within twenty (20) days after receipt of the final decision described in division (4) of subparagraph b of paragraph 8 of this subsection, the contestant may seek review by filing an appeal to the district court having jurisdiction in the county in which the contestant lives, where the same shall be heard on the record. A copy of the notice of appeal shall be served in person or by first-class mail upon the Authority by the contestants. For purposes of computing the twenty-day period, the Code of Civil Procedure, Section 2006 of Title 12 of the Oklahoma Statutes, shall be applicable.
- b. The conduct of the hearing on appeal under this section is a subordinate judicial duty which may be performed by referees, masters or other subordinate judicial officials at the direction of the district court.
- c. If no notice of appeal of the Authority's decision is filed within the period set forth in subparagraph a of this paragraph, the examiner's decision shall be deemed final.

10. Except as otherwise provided in paragraphs 11 and 12 of this subsection, the Authority shall proceed under one or more of the following options to collect an unpaid toll evasion penalty:

- a. the Authority may file an itemization of unpaid toll evasion penalties and administrative and service fees with the Commission for collection at the time of registration of the vehicle pursuant to paragraph 19 of this subsection, or
- b. the Authority may contract with a collection agency to collect unpaid toll evasion penalties, fees, and charges.

11. The Authority shall not file a civil judgment with the district court relating to a toll evasion violation which has been filed with Service Oklahoma unless the Authority has determined that the registration of the vehicle has not been renewed for sixty (60) days beyond the renewal date and the notice has not been mailed by Service Oklahoma pursuant to paragraph 19 of this subsection.

12. If an owner receives a notice of toll evasion violation pursuant to this paragraph for any time period during which the vehicle was reported to the police department as having been stolen, it shall be a valid defense to an allegation of liability for a violation of toll collection regulations that the vehicle had been reported to the police as stolen prior to the time the violation occurred and had not been recovered by such time. If an owner receives a notice of toll evasion violation pursuant to this paragraph for any time period during which the vehicle was stolen, but not yet reported to the police as having been stolen, it shall be a valid defense to an allegation of liability for a violation of toll collection regulations pursuant to this paragraph that the vehicle was reported as stolen within two (2) hours after the discovery of the theft by the owner. For purposes of asserting the defense provided by this subsection it shall be sufficient that a certified copy of the police report of the stolen vehicle be sent by first-class mail to the Authority and the district court having jurisdiction.

13. Subject to the review procedures contained in paragraph 8 of this subsection, an owner of a vehicle to which a notice of toll evasion violation was issued pursuant to paragraph 7 of this subsection shall not be liable for the violation of the toll collection regulations provided that the owner sends to the Authority the affidavit of nonliability described in paragraph 7 of this subsection, within twenty-one (21) days after receiving the original notice of toll evasion violation. Failure to send such information within the time period shall render the owner liable for the penalty prescribed by this section.

14. In connection with the preparation and mailing of a notice of toll evasion violation, the Authority shall ensure adequate and timely notice to all video toll collection system and electronic toll collection system account holders to inform them when their accounts are delinquent. An owner who is an account holder under the video toll collection system or electronic toll collection system shall not be found liable for a violation of this section unless the Authority has first sent a notice of delinquency to the account holder and the account holder was in fact delinquent at the time of the violation.

15. Nothing in this section shall be construed to limit the liability of an operator of a vehicle for any violation of toll collection laws or regulations.

16. Notwithstanding any other provision of law, all photographs, microphotographs, videotape or other recorded images prepared pursuant to this section shall be for the exclusive use of the Authority in the discharge of its duties under this section and shall not be open to the public nor be used in any court in any action or proceeding pending therein unless the action or proceeding relates to:

- a. the imposition of or indemnification for liability pursuant to this section, or
- b. an investigation or prosecution for a criminal violation of the laws of the State of Oklahoma. Such records shall be available to a law enforcement officer or law enforcement agency for law enforcement purposes related to an investigation or prosecution of a criminal violation of the laws of the State of Oklahoma pursuant to a duly issued search warrant, subpoena, or order of the court requiring such disclosure to a law enforcement officer or agency.

17. The Authority shall not sell, distribute or make available in any way, the names and addresses of video toll collection system and electronic toll collection system account holders or Authority patrons, without the consent of the account holders or patrons, to any entity that will use the information for any commercial purpose.

18. a. Except as provided in subparagraph c of this paragraph, Service Oklahoma shall refuse to renew the registration of any vehicle if the registered owner or lessee has been mailed by certified mail a notice of toll evasion violation as provided in subparagraph c of paragraph 7 of this subsection, the Authority has transmitted to Service Oklahoma an itemization of unpaid toll evasion penalties, including administrative fees, pursuant to paragraph 10 of this subsection, and the toll evasion penalty and administrative fee have not been paid pursuant to paragraph 9 of this subsection, unless the full amount of all outstanding toll evasion penalties and administrative fees, as shown by records of Service Oklahoma are paid to Service Oklahoma at the time of application for renewal.
- b. The Authority shall issue a notice of disposition of toll evasion violation to a lessor, if the lessor provides the Authority with the name, address, and driver license number of the lessee at the time of the occurrence of the toll evasion violation.
 - c. Service Oklahoma shall renew the registration of any vehicle if the applicant provides Service Oklahoma with the notice of disposition of toll evasion

violation issued pursuant to subparagraph b of this paragraph for clearing all outstanding toll evasion penalties, fees and assessments, as shown by the records of Service Oklahoma, and the applicant has met all other requirements for registration.

19. Service Oklahoma shall include on each vehicle registration renewal notice issued for use at the time of renewal, or on an accompanying document, an itemization of unpaid toll evasion penalties, fees and assessments, showing the amount thereof and the date of toll evasion relating thereto, which the registered owner or lessee is required to pay pursuant to paragraph 18 of this subsection.

20. a. Except as provided in subparagraph b of this paragraph, Service Oklahoma shall remit all toll evasion penalties, fees and assessments collected, after deducting the administrative fee authorized by paragraph 21 of this subsection, for each notice of toll evasion violation for which toll evasion penalties, fees and assessments have been collected pursuant to paragraph 18 of this subsection, to the Authority. Within forty-five (45) days from the time penalties, fees and assessments are paid to Service Oklahoma, Service Oklahoma shall inform the Authority which of its notices of toll evasion violation have been collected.

b. For each notice of toll evasion violation for which toll evasion penalties, fees and assessments have been collected by Service Oklahoma pursuant to paragraph 17 of this subsection, the Authority is due an amount equal to the sum of the unpaid toll, administrative fees, other costs incurred by the Authority that are related to toll evasion, process service fees, and fees and collection costs related to civil debt collection. After deducting Service Oklahoma's administrative fee authorized by paragraph 21 of this subsection, Service Oklahoma shall promptly pay to the Authority the amounts due the Authority for unpaid tolls, administrative fees, other costs incurred by the Authority that are related to toll evasion, process service fees, and fees and collection costs related to civil debt collection.

21. Service Oklahoma shall assess a fee for the recording of the notice of toll evasion violation, which is given to Service Oklahoma pursuant to paragraph 10 of this subsection, in an amount, as determined by Service Oklahoma, that is sufficient to provide a total amount equal to at least its actual costs of administering paragraphs 18, 19 and 22 of this subsection.

22. Whenever a vehicle is transferred or not renewed for two renewal periods and the former registered owner or lessee of the vehicle owes a toll evasion penalty and administrative fees for a notice of toll evasion violation filed with Service Oklahoma pursuant to paragraph 10 of this subsection, Service Oklahoma shall notify the Authority of that fact and is not required thereafter to attempt collection of the toll evasion penalty and administrative fees.

This legislation shall not be construed to affect in any way the power which the Oklahoma Turnpike Authority possesses to establish tolls and other charges in connection with their turnpike facilities, including the authority to establish a one-way toll collection system for any of its facilities or a toll discount structure for certain classes of patrons using any of its facilities.

A. Except as otherwise provided in this section, enforcement of both traffic laws and the general laws of the State of Oklahoma on the turnpikes shall be the exclusive authority of the Department of Public Safety, and the cost thereof shall be borne by the Oklahoma Turnpike Authority. Provided that the Authority shall be liable only for such costs as may be agreed to by it under contract or agreement with the Commissioner of Public Safety.

B. Upon a written request by the Department of Wildlife Conservation to the Commissioner of Public Safety, the Department of Public Safety, upon the approval of the Commissioner of Public Safety, may enter into a written agreement with the Department of Wildlife Conservation permitting the Department of Wildlife Conservation to perform on the turnpikes of this state those law enforcement duties specified in the agreement. The request by the Department of Wildlife Conservation must be acted upon by the Commissioner within sixty (60) days of receiving such request. The Commissioner of Public Safety and the Oklahoma Turnpike Authority are hereby authorized to enter into contracts and agreements for law enforcement on turnpikes. The Department of Public Safety is authorized to use any of its automotive and other equipment in policing turnpikes, and to charge the Authority for the use thereon on a rental basis to be agreed to by the Department and the Authority, and to perform such services in connection with policing turnpikes with its general personnel and equipment at such rates, salaries, expenses, and miscellaneous costs as may be agreed to by the Department and the Authority. It is the intent of this section that rental rates and other costs of policing turnpikes shall be determined on an average actual cost basis, and in accordance with salaries and expenses paid by the Department of Public Safety in its regular operations. Payments shall be made by the Authority monthly and shall be remitted to the Department of Public Safety to be credited to the Department of Public Safety Restricted Revolving Fund in the State Treasury. Every motor vehicle manufactured prior to September 1, 1961, when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying the brakes are connected in any way they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.

B. 1. Every motor vehicle manufactured on or after September 1, 1961, operated upon the highways shall be equipped with service brakes upon all wheels.

2. A truck or truck-tractor having three or more axles need not be equipped with brakes on the front axle if:

- a. the vehicle was manufactured on or before July 24, 1980, or
- b. the vehicle was manufactured on or after July 25, 1980, but no later than October 26, 1986, and the brake components have not been removed. If the brake components have been removed, the vehicle shall be retrofitted to meet the requirements of this section.

C. 1. Every trailer, semitrailer, and pole trailer of a gross vehicle weight rating of three thousand (3,000) pounds or more when operated upon a highway shall be equipped with brakes:

- a. adequate to control the movement of and to stop and to hold such vehicle,
- b. so designated as to be applied by the driver of the towing motor vehicle from its cab. Provided, braking systems commonly known as "surge brakes" shall be lawful when used on a trailer which is towing or transporting a vessel or vessels, and

c. so designed and connected that in case of an accidental breakaway of the towed vehicle the brakes shall be automatically applied.

2. Every trailer, semitrailer, and pole trailer required to be equipped with brakes, except motor vehicles engaged in drive-away tow-away operations as provided in 49 C.F.R., Part 393.42, shall be equipped with brakes which are designed to be applied automatically and promptly upon break-away from the towing vehicle, and means shall be provided to maintain application of the brakes on the trailer in such a case for at least fifteen (15) minutes.

3. Any trailer, semitrailer, or pole trailer having a gross vehicle weight rating of less than three thousand (3,000) pounds need not be equipped with brakes; provided, the trailer, semitrailer, or pole trailer shall be equipped with brakes if the weight of the towed vehicle exceeds forty percent (40%) of the gross vehicle weight rating of the towing vehicle.

D. Every motor vehicle and every combination of vehicles shall be equipped with a parking brake system adequate to hold the vehicle or combination on any grade on which it is operated under all conditions of loading, on a surface free from snow, ice, or loose material.

E. The braking system on the rear axle of any motor vehicle may be used for both service brake and parking brake operation.

F. 1. Air brake systems installed on towed vehicles manufactured shall be designed as provided in 49 C.F.R., Section 393.43.

2. Every truck or truck-tractor, if used to tow a trailer equipped with brakes, shall be equipped with service brakes as provided in 49 C.F.R., Section 393.43.

3. Every truck or truck tractor equipped with air brakes, when used to tow another vehicle equipped with full air brakes, in operations other than drive-away or tow-away, shall, in addition to the above, be equipped with two means of activating the emergency features of the trailer brakes as provided in 49 C.F.R., Section 393.43.

4. Every motor vehicle which is equipped with power brakes, shall comply with 49 C.F.R., Section 393.49.

5. Every truck tractor and truck used for towing other vehicles equipped with vacuum brakes, in operations other than drive-away tow-away, on and after September 1, 1961, shall, in addition to other requirements of state and federal law, comply with 49 C.F.R., Section 393.43.

G. Every bus, truck, and truck-tractor which is equipped with an air or vacuum brake system, shall be equipped with a reservoir as required by 49 C.F.R., Section 393.50, sufficient to insure a brake application capable of stopping the vehicle within the stopping

distance requirements of Section 12-302 of this title in the event the engine stops.

H. Every bus, truck and truck-tractor shall be equipped with service brake warning devices and signals as required by 49 C.F.R., Part 393.51.

I. All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicle. The brakes shall be capable of stopping the vehicle, or a combination of vehicles, within the stopping distance requirements of Section 12-302 of this title.

1. Developing a braking force that is not less than the percentage of its gross weight, as specified in subsection D of this section;

2. Decelerating to a stop from a speed of twenty (20) miles per hour at not less than the rate specified in subsection D of this section; and

3. Stopping from a speed of twenty (20) miles per hour in not more than the distance specified in subsection D of this section, such distance to be measured from the point at which movement of the service brake pedal or control begins.

B. Upon application of the parking brake system and with no other brake system applied, a motor vehicle or combination of motor vehicles shall, at all times and under all conditions of loading, be capable of stopping from a speed of twenty (20) miles per hour in not more than the distance specified in subsection D of this section, such distance to be measured from the point at which movement of the emergency brake control begins.

C. Conformity to the stopping-distance requirements of subsections A and B of this section shall be determined under the following conditions:

1. Any test must be made with the vehicle on a hard surface that is substantially level, dry, smooth, and free of loose material; and

2. The vehicle must be in the center of a twelve-foot-wide lane when the test begins and must not deviate from that lane during the test.

A. Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less

than two hundred (200) feet, but no horn or other warning device shall emit an unreasonably loud or harsh sound. The driver of a motor vehicle shall, when reasonably necessary to ensure safe operation, give audible warning with a horn but shall not otherwise use such horn when upon a highway. No driver of any vehicle shall use a horn when passing a person riding a bicycle, equine or animal-drawn vehicle under normal conditions if no imminent danger of a collision exists.

B. No vehicle shall be equipped with nor shall any person use upon a vehicle any siren, except as otherwise permitted in subsection D of this section.

C. Any vehicle may be equipped with a theft alarm signal device which is so arranged that it cannot be used by the driver as an ordinary warning signal. A theft alarm signal device shall not use a siren, as described in subsection D of this section.

D. Every authorized emergency vehicle shall, in addition to any other equipment and distinctive markings required by this title, be equipped with a siren, or similar device, capable of emitting sound audible under normal conditions from a distance of not less than five hundred (500) feet and of a type approved by the Department of Public Safety, but such siren shall not be used except when such vehicle is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, in which said latter events the driver of such vehicle shall sound said siren when reasonably necessary to warn pedestrians and other drivers of the approach thereof.

E. It shall be unlawful for any person to use a device capable of producing auditory warning signals similar to that on an authorized emergency vehicle or to use audible signal equipment from a motor vehicle for the purpose of causing any other motor vehicle operator to yield right-of-way and stop, or which actually causes any other motor vehicle operator to yield the right-of-way and stop, whether intended or not. The provisions of this subsection shall not apply to the operators of authorized emergency vehicles.

Prevention of excessive or unusual noise.

A. Every vehicle shall be equipped, maintained, and operated so as to prevent excessive or unusual noise. Every motor vehicle shall at all times be equipped with a muffler or other effective noise-suppressing system in good working order and in constant operation, and no person shall use a muffler cut-out, bypass or similar device. No person shall modify the exhaust system of a motor vehicle in any manner which will amplify or increase the noise or sound emitted

louder than that emitted by the muffler originally installed on the vehicle.

B. The engine and power mechanism of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive fumes or smoke, or both.

Added by Laws 1961, p. 407, § 12-402. Amended by Laws 2003, c. 411, § 51, eff. Nov. 1, 2003.

A. Every motor vehicle shall be equipped with a mirror mounted on the left side of the vehicle and so positioned and located as to reflect to the driver a view of the highway to the rear of the motor vehicle.

B. Every motor vehicle shall be equipped with an additional mirror mounted either inside the vehicle approximately in the center or outside the vehicle on the right side and so positioned and located as to reflect to the driver a view of the highway to the rear of the vehicle.

C. Every school bus and church bus shall be equipped with a mirror system so positioned and located as to reflect to the driver, when seated in the bus driver's position, the presence of a pedestrian directly in front of the bus and beneath the driver's direct line of sight.

Added by Laws 1961, p. 408, § 12-403. Amended by Laws 2003, c. 411, § 52, eff. Nov. 1, 2003.

§47-12-404. Windshields and windows - Obstruction, obscuring, or impairing of driver's view - Electric windshield wiper mechanism.

A. As used in this section:

1. "Critical area" means the area cleaned by the normal sweep of the windshield wiper blade on the driver's side. The area covered by the wiper blade cannot be reduced from manufacturer's original specifications;

2. "Noncritical areas" means all other areas;

3. "Outright breakage" means glass which is severely cracked or shattered to the extent that air passes through it or, if by running a fingertip over the cracked area, the glass moves or sharp edges can be felt;

4. "Star break or shot damage" means a vented break with cracks radiating from the point of impact; and

5. "Stress or hairline crack" means a crack which has no visible point of impact.

B. No person shall operate any motor vehicle which:

1. Is not equipped with a windshield;

2. Has any outright breakage in the windshield or in the window on either side of the driver;

3. Has any star break or shot damage, three (3) inches or more in diameter, located in the critical area; or

4. Has two or more stress or hairline cracks, twelve (12) inches or more in combined length, located in the critical area.

C. No person shall drive any motor vehicle with any sign, poster, other nontransparent material, or debris, including but not limited to snow, ice, or frost, upon the front windshield or the side wings, or side or rear windows or suspend any sign, poster, object, or other material from the interior of the vehicle which materially obstructs, obscures, or impairs the driver's clear view of the highway ahead or to either side or of any intersecting highway.

D. The windshield on every motor vehicle shall be equipped with an electric windshield wiper mechanism for cleaning rain, snow, or other moisture from the windshield.

Every windshield wiper blade and windshield wiper mechanism upon a motor vehicle shall be maintained in good working order. When replacing the wiper blade, the length of the blade shall not be reduced from the manufacturer's specification.

Added by Laws 1961, p. 408, § 12-404. Amended by Laws 2003, c. 411, § 53, eff. Nov. 1, 2003.

§47-12-405. Tires and wheels - Peripheral equipment - Unsafe operating condition.

A. Every solid rubber tire on a vehicle shall have rubber on its entire traction surface at least one (1) inch thick above the edge of the flange of the entire periphery.

B. A person shall not operate or move on any hard-surfaced highway any vehicle having any metal tire in contact with the roadway, except when authorized by special permit as provided in subsection E of this section.

C. 1. Any tire on a vehicle moved on a highway shall not have on its periphery any block, stud, flange, cleat or spike or any other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it shall be permissible:

- a. to use farm tractors or implements of husbandry with tires having protuberances which will not injure the highway,
- b. to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid, or
- c. for pneumatic tires equipped with or having on their periphery studs of metal, porcelain or other material to be sold or used in this state, if constructed to provide resiliency upon contact with the road surface,

so that not more than three percent (3%) in the aggregate of the traction surface of such tire be composed of such studs and so that such studs do not project more than three-thirty-seconds (3/32) of an inch beyond the tread of the traction surface of such tire and have a rate of wear which will so limit such projection.

2. The exceptions permitted in paragraph 1 of this subsection shall be subject to the following restrictions:

- a. the use of such tires or tire chains shall be limited to vehicles with rated capacities up to and including two (2) tons,
- b. any tire so equipped shall not be used on a public highway earlier than November 1 of each year or later than April 1 of the following year, and
- c. copies of this subsection shall be posted in all places at which tires or tire chains are sold, and a printed or written warning on the time limitation for the use of such tires or tire chains shall be furnished to each buyer, purchaser, or user by the seller of such studded tires or tire chains.

D. Operator selectable "on demand" studded tires having traction-enhancing studs located outside the normal tread area which allows their operation as conventional tires on dry roads or as studded tires on ice-coated roads by the expedient of reducing or increasing the air pressure within the tires, shall be exempt from the prohibitions of subsection C of this section with the following exceptions:

1. The use of such tires shall be limited to vehicles with rated capacities up to and including two (2) tons;

2. Any such tire shall not be deflated so that the studs lower and make contact with the road surface earlier than November 1 of each year or later than April 1 of the following year.

E. The Department of Public Safety and local authorities in their respective jurisdictions may in their discretion issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this section.

F. A person shall not operate any vehicle when one or more of the tires in use on that vehicle is in unsafe operating condition or has a tread depth less than two-thirty-seconds (2/32) inch measured in any two adjacent tread grooves at three equally spaced intervals around the circumference of the tire; provided, such measurements shall not be made at the location of any tread wear indicator, tie bar, hump, or fillet. In the event a citation is issued under this

subsection, the officer shall include the tread depth of the offending tire on the citation. As used in this subsection, an unsafe tire includes, but is not limited to, any tire:

1. On which the ply or cord is exposed in the tread area;
2. Which has been regrooved or recut below the original groove depth, except tires that have been designed with under-rubber sufficient for regrooving and are so marked;
3. Marked "Farm Implement Only", "Not for Highway Use", or any other marking that would indicate that the tire is not for normal highway use; provided, no such marking shall be altered or removed;
4. On which any bulges, bumps, or knots show in the tread or sidewall area; or
5. On the front steering axle of a truck-tractor which has tread depth measuring less than four-thirty-seconds (4/32) inch.

G. Every wheel on a vehicle shall not be cracked and shall be securely fastened to the hub of the vehicle with all lug nuts properly affixed.

Added by Laws 1961, p. 408, § 12-405. Amended by Laws 1968, c. 82, § 1, emerg. eff. April 1, 1968; Laws 1981, c. 118, § 7; Laws 1998, c. 171, § 1, eff. Nov. 1, 1998; Laws 1999, c. 41, § 1, eff. Nov. 1, 1999; Laws 2003, c. 411, § 54, eff. Nov. 1, 2003; Laws 2021, c. 114, § 1, eff. Nov. 1, 2021.

§47-12-405.1. Coupling devices - Stay chains, cables or other safety devices.

A. Every trailer, semitrailer, manufactured home, or towed motor vehicle shall be equipped with a coupling device which shall be designed, constructed, and used so that the trailer, semitrailer, manufactured home, or towed motor vehicle will follow substantially in the path of the vehicle drawing it without whipping or swerving from side to side. In addition, every such trailer, semitrailer, manufactured home, or towed motor vehicle, except a semitrailer drawn by a truck-tractor type designed to draw or support the front end of a semitrailer, shall be coupled with:

1. Stay chains or cables to the vehicle by which it is being drawn, which chains or cable shall be of sufficient size and strength to prevent parting from the drawing vehicle, should the regular coupling device break or become otherwise disengaged; or
2. Chains, cables or a safety device which provides strength, security of attachment and directional stability equal to or greater than that provided by safety chains and which prevent parting from the drawing vehicle should the regular coupling device break or otherwise become disengaged. The safety device shall be designed, constructed, and installed so that if the coupling device fails or becomes disconnected the coupling device will not drop to the ground.

B. Nothing in this section shall be construed as excepting commercial vehicles subject to the provisions of 49 C.F.R., Subpart F, Coupling Devices and Towing Methods, from complying with the provisions thereof.

C. No person shall tow any vehicle by sole use of a chain, cable, ropes, or any combination thereof.

Added by Laws 2003, c. 411, § 55, eff. Nov. 1, 2003.

§47-12-405.2. Fuel tanks and intake pipes - Projection beyond side of vehicle - Construction and attachment.

B. Any fuel tank carried upon a motor vehicle, including any auxiliary tank, shall be of substantial construction, permanently and securely attached to the motor vehicle.

Added by Laws 2003, c. 411, § 56, eff. Nov. 1, 2003.

§47-12-405.3. Aprons.

All vehicles or combination of vehicles operating on the highways, except animal-drawn vehicles, not equipped with fenders over the rearmost wheels shall have attached thereto a rubber or fabric apron directly behind the rearmost wheels, and hanging perpendicular from the body of the vehicle. The apron shall be of such a size as to prevent the bulk of the water or any other substance picked up from the roadway from being thrown from the rear wheels of the vehicle or combination of vehicles at tangents exceeding twenty-two and one half (22 1/2) degrees measured from the road surface. The provisions of this subsection shall not apply to a farm tractor moving over the state highway system at a speed less than twenty (20) miles per hour.

The foregoing provisions shall apply to all passenger cars, lightweight vehicles, buses, school buses, and church buses, but in respect to trucks, including truck-tractors, the requirements as to safety glazing material or safety glass shall apply to all glazing material and glass used in doors, windows, and windshields in the drivers' compartments of such vehicles.

B. The term "safety glazing materials" or "safety glass" means glazing materials or glass so constructed, treated, or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by the safety glazing materials or safety glass when they may be cracked or broken.

C. All safety glazing materials and safety glass shall bear the manufacturer's trademark and the words "American Standard" or the letters "AS" followed by a number indicating the position in which the glass shall be used. Safety glazing materials or safety glass bearing the following identification markings shall be used in the designated locations:

1. Laminated safety glass marked "AS-1" is required in windshields and is acceptable at any other location in the vehicle;

2. Laminated safety glass marked "AS-14" is required in windshields and is acceptable at any other location in the vehicle;

3. Laminated or tempered safety glass marked "AS-2" is acceptable for use at any location in the vehicle except the windshield;

4. Laminated or tempered safety glass marked "AS-3" is acceptable anywhere on school buses except in windshields and side windows to the immediate right and left of the driver's location;

5. Rigid plastic safety glazing material marked "AS-4" or "AS-5" is acceptable anywhere on school buses except in windshields and side windows to the right or left of the driver's location;

6. Flexible plastic safety glazing material marked "AS-6" or "AS-7" is acceptable for use in rear windows of soft tops, flexible curtains, or readily removable windows; and

7. Wire glass marked "AS-8" or "AS-9" is acceptable for use in folding doors, standee and rearmost windows of buses, or windows to the rear of the driver in trucks and truck-tractors.

D. No person shall sell, or make replacements of glass, safety glazing materials, or safety glass on motor vehicles, or sell glass, safety glazing materials, or safety glass cut to size to fit windshields, door glass, or window glass of a motor vehicle in violation of the provisions of this title.

Added by Laws 1961, p. 409, § 12-406. Amended by Laws 2003, c. 411, § 58, eff. Nov. 1, 2003.

§47-12-407. Certain vehicles to be equipped with flares and other emergency equipment.

No person shall operate any truck, bus, truck-tractor, or any drive-away, tow-away operation upon any highway at any time unless such vehicle is equipped with emergency equipment, including, but not limited to, reflectors, flares, fusees, flags, and fire extinguishers, as provided by 49 C.F.R., Section 393.95. This section shall not apply to lightweight vehicles.

B. Every bus which is licensed for the express purpose of transporting persons for hire shall have at least one hand axe and one metal heavy-duty, ten-unit size, first-aid kit. Added by Laws 1961, p. 409, § 12-407. Amended by Laws 2003, c. 411, § 59, eff. Nov. 1, 2003.

A. Whenever any truck, except a lightweight vehicle, or any bus, truck-tractor, trailer, semitrailer, or pole trailer, or any motor vehicle towing a manufactured home is disabled upon the traveled portion of any highway or the shoulder thereof outside of any municipality at any time when lighted lamps are required on vehicles, the driver of such vehicle shall display the following warning devices upon the highway during the time the vehicle is so disabled on the highway except as provided in subsection B of this section:

1. A lighted fusee, a lighted red electric lantern or a portable red emergency reflector shall be immediately placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

2. As soon thereafter as possible but in any event within the burning period of the fusee, the driver shall place three liquid-burning flares, or three lighted red electric lanterns or three portable red emergency reflectors on the traveled portion of the highway in the following order:

- a. one approximately one hundred (100) feet from the disabled vehicle in the center of the lane occupied by such vehicle and toward traffic approaching in that lane,
- b. one approximately one hundred (100) feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by such vehicle, and
- c. one at the traffic side of the disabled vehicle not less than ten (10) feet rearward or forward thereof in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with paragraph 1 of subsection A of this section, it may be used for this purpose.

B. Whenever any vehicle referred to in this section is disabled within five hundred (500) feet of a curve, hillcrest or other obstruction to view, the warning signal in that direction shall be so placed as to afford ample warning to other users of the highway, but in no case less than one hundred (100) feet nor more than five hundred (500) feet from the disabled vehicle.

C. Whenever any vehicle of a type referred to in this section is disabled upon any roadway of a divided highway during the times specified in subsection B of Section 12-201 of this title, the appropriate warning devices prescribed in subsections A and E of this section shall be placed as follows:

§47-14-109.2. Weighing as single draft.

A. Except as hereinafter provided, for the purpose of delivering agriculture commodities to and from the farm only, any vehicle or combination of vehicles shall be commercially weighed on a vehicle scale only as a single draft, that is, the total weight of the vehicle or combination of vehicles shall not be determined by adding together the results obtained by separately weighing each end of the vehicle or combination of vehicles, or by separately weighing individual elements of such vehicle or combination of vehicles. Provided, however, that when a vehicle or combination of vehicles is not weighed as a single draft the weight ticket shall be stamped "multiple draft weight; not guaranteed accurate". Provided further, that any one truck and semitrailer or truck-tractor/semitrailer combination may tow one complete trailer or semitrailer for the purpose of delivering agriculture commodities to and from the farm, such single axle and gross weight limits provided for by Section 14-109 of this title applying fully herein.

B. This section shall not be construed to allow or permit any vehicle or combination of vehicles to exceed:

1. The axle load limit, as prescribed in Section 14-109 of this title, of twenty thousand (20,000) pounds per single axle; or

2. The tandem axle weight, as prescribed in Sections 14-101 and 14-109 of this title; or

3. The overall gross vehicle weight of eighty thousand (80,000) pounds for vehicles or ninety thousand (90,000) pounds for longer combination vehicles as defined in U.S. Code 23, Section 127, operating on the Dwight D. Eisenhower System of Interstate and Defense Highways in accordance with the provisions of Section 14-118 of this title; or

§47-14-109.3. Exemption for vehicles fueled by compressed or liquefied natural gas

A. A motor vehicle, if operated by an engine fueled wholly or partially by compressed or liquefied natural gas, may exceed the gross vehicle weight limits and any axle weight limits by an amount, not to exceed a maximum of two thousand (2,000) pounds, that is equal to the difference between:

1. The weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle; and

2. The weight of a comparable diesel tank and fueling system.

B. The weight exemption allowed under this section shall extend to all state roads and also to interstate highways per the exemption expressly permitted under section 127(s) of Title 23 of the United States Code, as amended by Section 1410 of the Fixing America's Surface Transportation Act of 2015.

A motor vehicle or a commercial motor vehicle, if operated by an engine fueled wholly or partially by an electric battery or hydrogen fuel cell electric fueling system, may exceed the gross vehicle weight limits and any axle weight limits by an amount, not to exceed a maximum of two thousand (2,000) pounds, that is equal to the difference between:

1. The weight of the vehicle attributable to electric batteries or hydrogen fuel cell electric fueling system carried by that vehicle; and

2. The weight of a comparable diesel tank and fueling system.

B. The weight exemption allowed under this section shall extend to all state roads and highways; however, vehicles operating pursuant to the provisions of this section shall only be allowed to operate on the National System of Interstate and Defense Highways with a federal exemption.

§47-14-110. Carrying registration certificate - Inspection.

The registration certificate for any truck, trailer, semitrailer or combination thereof shall be carried in or on the vehicle at all times and shall be presented on demand of any officer of the Department of Public Safety, Oklahoma Corporation Commission, or any sheriff for inspection, and it shall be accepted in any court as prima facie evidence of weight registration or legally authorized load limit of the vehicle.

§47-14-111. Weighing vehicles - Compelling unloading - Certificates - Bills of sale - Proof of ownership - Impounding.

A. Any officer of the Department of Public Safety, the Corporation Commission, any sheriff, or any salaried deputy sheriff is authorized to stop any vehicle upon any road or highway in order to weigh such vehicle by means of portable or stationary scales, or cause the same to be weighed by any official weigher, or upon any privately owned scales and may require that such vehicles be driven to the nearest or most convenient available scales for the purpose of weighing. Any officer weighing a vehicle pursuant to this

section by means of portable scales shall allow the driver of the vehicle to move the vehicle to the most level weighing area available within two (2) miles of the stop. In the event that any axle weight or the gross weight of any such vehicle be found to exceed the maximum weight authorized by law, or by permit issued therefor, the officer may require, in the case of separable loads, the driver, operator or owner thereof to unload at the site such portion of the load as may be necessary to decrease the weight of such vehicle to the maximum weight authorized by law. Provided, however, that if such load consists of livestock, perishable merchandise, or merchandise that may be destroyed by the weather, then the driver shall be permitted to proceed to the nearest practical unloading point in the direction of destination before discharging such excess cargo. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator.

B. The operator of any truck or other vehicle transporting farm products for hire or other merchandise for hire shall have in his or her possession a certificate carrying the following information: name of the operator; driver license number; vehicle registration number; Corporation Commission permit number; and statement of owner authorizing transportation of the products by above named operator. For the purposes of this section "certificate" includes electronic manifests and other similar documents that include all of the information required pursuant to this section.

Should the vehicle be loaded with livestock, the certificate shall include the number of animals, and should the livestock be the property of more than one person, a certificate signed by each owner carrying the above information including the number of animals owned by each owner shall be carried by the operator. Should the operator be the owner of the merchandise or livestock, the merchandise or livestock having just been purchased, the operator shall have in his or her possession a bill of sale for such merchandise or livestock. Should the operator be the owner of livestock or other farm products produced by the operator, the operator shall be required to show satisfactory identification and ownership of the vehicle. Any officer as outlined in this chapter shall have the authority to stop any vehicle loaded with livestock, merchandise or other farm products and investigate as to the ownership of the merchandise, livestock or other farm products. Should the operator of any vehicle be unable to establish to the satisfaction of the officer the ownership of the merchandise, livestock or other products, or shall not have the certificate as specified in this section for the transportation of such merchandise, livestock or other farm products, the merchandise, livestock or other farm products and the vehicle in which they are being transported shall be impounded by the officer and any expense as to the care of any livestock shall be

the responsibility of the owner or operator of the vehicle, and any loss or damage of the merchandise, livestock or other farm products shall be the responsibility of the operator or owner, or both.

The provisions of this subsection shall not apply to a person who is transporting horses or livestock; provided, the person shall not have been hired to transport the horses or livestock.

§47-14-113. When the department of highways or local authorities may restrict right to use highways.

The Director of the Department of Transportation with respect to highways on the state highway system, or local authorities with respect to highways under their jurisdiction, as defined in Title 69 of the Oklahoma Statutes, may prohibit the operation of vehicles on any such highways, or impose restrictions as to the weights of vehicles to be operated upon any state or federal highway or any detour established for such highways, or for any bridge located upon such highways or detours, whenever any such highway, detour or bridge by reason of deterioration, rain, snow or other climatic conditions will be seriously damaged or destroyed unless the use of vehicles thereon is prohibited or the permissible weight reduced. Such restrictions shall be effective when signs giving notice thereof are erected upon the highway, detour, bridge, or portion thereof affected by such action, and the Department of Public Safety has been notified. The purpose of this provision with respect to local authorities is to give such authorities an opportunity to prevent or minimize an immediate threat of serious harm or destruction to any highway, detour or bridge under their jurisdiction due to rain, snow or other climatic conditions.

Nothing stated herein shall be construed to grant local authorities the right to issue permits designed to regulate the use of overweight vehicles upon highways subject to their jurisdiction, and the issuance of such permits is expressly prohibited.

§47-14-114. Liability for damage to highway or structure.

(a) The owner and operator of any motor vehicle who shall drive the same into any overpass or underpass and shall damage such overpass or underpass shall be absolutely liable to the owner or

owners of such overpass or underpass thereby damaged for the amount of such damage, regardless of the height of such vehicle and regardless of the clearance in such overpass or underpass, and failure of such overpass or underpass to be sufficient in height to clear the vehicles hereby authorized shall not be a defense to any action for such damages. The provisions of this section shall be enforceable only in the event the overpass or underpass so damaged has a sign on each side thereof clearly legible and correctly stating the clearance thereof in feet and inches.

(b) The driver, owner, and any other person, firm or corporation responsible for a vehicle being on the highways or county roads of this state shall be responsible for all damages which said highways, including the bridges, pavement and all other public property thereon, may sustain as a result of a violation of the provisions of this or any other chapter regulating the usage of the highways, or as a result of the negligent or improper operation of said vehicle, and the county or state agency having charge of said highway may recover the amount of such damages in an action for damages.

The owner, driver, and any other person, firm or corporation responsible for any vehicle operating under an overweight or oversize permit shall be responsible for any damages to highway bridges or roads caused by the operation of such vehicle, whether caused by negligence or not, and no further permits shall be issued to such owner or operator until payment has been made for such damages. The amount of such damages may be recovered in an action for damages brought by the county or state agency having charge of said highway. The issuance of any special permit shall not be considered a warranty of any bridge or highway to support the permitted load.

§47-14-116. Permit fees - Escrow account system - Applications - Emergencies - Provisional permits - Violations - Disposition and allocation of proceeds

A. The Executive Director of the Department of Transportation shall charge a minimum permit fee of Forty Dollars (\$40.00) for any permit issued pursuant to the provisions of Section 14-101 et seq. of this title. In addition to the permit fee, the Executive Director of the Department of Transportation shall charge a fee of Ten Dollars (\$10.00) for each thousand pounds in excess of the legal load limit. The Executive Director of the Department of Transportation shall establish any necessary rules for collecting the fees.

B. The Department of Transportation is authorized to establish an escrow account system for the payment of permit fees. Authorized motor carriers meeting established credit requirements may participate in the escrow account system for permits purchased from all size and weight permit offices in this state. Carriers not choosing to participate in the escrow account system shall be required to make payment of the required fee or fees upon purchase of each permit as required by law. All monies collected through the escrow account system shall be deposited to a special account of the Department of Transportation and placed in the custody of the State Treasurer. Proceeds from permits purchased using the escrow account system shall be distributed as provided for in subsection H of this section. However, fees collected through such accounts for the electronic transmission, transfer or delivery of permits, as provided for in Section 14-118 of this title, shall be credited to the Weigh Station Improvement Revolving Fund established pursuant to Section 1167 of this title.

C. 1. Application for permits shall be made a reasonable time in advance of the expected time of movement of such vehicles. For emergencies affecting the health or safety of persons or a community, permits may be issued for immediate movement.

2. Size and weight permit offices in all districts where applicable shall issue permits to authorize carriers by telephone during weekdays.

D. No overweight permit shall be valid until all license taxes due the State of Oklahoma have been paid.

E. No permit violation shall be deemed to have occurred when an oversize or overweight movement is made pursuant to a permit whose stated weight or size exceeds the actual load.

F. Any permit issued for a truck or truck-tractor operating in combination with a trailer or a semitrailer shall contain only the license plate number for the truck or truck-tractor if the permittee provides to the Department of Transportation a list containing the license plate number, and such other information as the Department of Transportation may prescribe by rule, for each trailer or semitrailer which may be used for movement with the permit. When the permittee provides the list described in this subsection, the license plate number for any trailer or semitrailer to be moved with the permit shall not be included on the permit; provided, a trailer or semitrailer which is not on the list shall not be authorized to be used for movement with the permit. It shall be the responsibility of the permittee to ensure the list provided to the Department of Transportation is maintained and updated with any fleet changes. The Department of Transportation shall adopt any rules deemed necessary to administer the provisions of this subsection.

G. The first deliverer of motor vehicles designated truck carriers or well service carriers manufactured in Oklahoma shall not be required to purchase an overweight permit when being delivered to the first purchaser.

H. Except as provided in Section 14-122 of this title, the first One Million Two Hundred Sixteen Thousand Dollars (\$1,216,000.00) of proceeds from both the permit fees and the overweight permit fees imposed pursuant to subsection A of this section collected monthly shall be apportioned as provided in Section 1104 of this title. For the fiscal year beginning July 1, 2022, and all subsequent years, the next Two Million Five Hundred Thousand Dollars (\$2,500,000.00) of proceeds from both the permit fees and the overweight permit fees imposed pursuant to subsection A of this section collected monthly shall be remitted to the Department of Public Safety for the purpose of staffing the port of entry weigh stations with Department of Public Safety port of entry officers whose powers and duties shall be specified by the Department of Public Safety through the promulgation of rules. For the fiscal year beginning July 1, 2017, and all subsequent years, all proceeds collected from both the permit fees and the overweight permit fees imposed pursuant to subsection A of this section in excess of Three Million Seven Hundred Sixteen Thousand Dollars (\$3,716,000.00) shall be deposited in the Weigh Station Improvement Revolving Fund as provided in Section 1167 of this title for the purpose set forth in that section and may be used for motor carrier permitting systems and motor carrier safety and enforcement.

Any person, firm, or corporation who moves or transports any load or manufactured home without a permit issued by the Department of Transportation as required by the provisions of this chapter shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished as follows:

1. For the first such violation, by a fine of Five Hundred Dollars (\$500.00);
2. For the second such violation, by a fine of One Thousand Dollars (\$1,000.00); and

§47-14-118. Motor carriers - Permits - Oklahoma Load Limit Map - Saddlemounts - Exemptions and restrictions - Driveaway permits.

A. 1. Pursuant to such rules as may be prescribed by Oklahoma agencies of jurisdiction, Oklahoma motor carriers may engage in any activity in which carriers subject to the jurisdiction of the federal government may be authorized by federal legislation to engage. Provided further, the Transportation Commission shall formulate for the State Trunk Highway System, including the National System of Interstate and Defense Highways, and for all other highways or portions thereof, rules governing the movement of vehicles or loads which exceed the size or weight limitations specified by the provisions of this chapter.

2. Such rules shall be the basis for the development of a system by the Executive Director of the Department of Transportation for the issuance of permits for the movement of oversize or overweight vehicles or loads. Such system shall include, but not be limited to, provisions for duration, seasonal factors, hours of the day or days when valid, special requirements as to flags, flagmen and warning or safety devices and other such items as may be consistent with the intent of this section. The permit system shall include provisions for the collection of permit fees as well as for the issuance of the permits by telephone, electronic transfer or such other methods of issuance as may be deemed feasible.

3. The Department of Transportation is authorized to charge a fee of Two Dollars (\$2.00) for each permit requested to be issued by facsimile machine or by any other means of electronic transmission, transfer or delivery. The fee shall be in addition to any other fee or fees assessed for the permit. The fee shall be deposited in the State Treasury to the credit of the Department of Transportation and the monies shall be expended by the Department of Transportation solely for the purposes provided for in this chapter.

4. It is the purpose of this section to permit the movement of necessary overweight and oversize vehicles or loads consistent with the following obligations:

- a. protection of the motoring public from potential traffic hazards,
- b. protection of highway surfaces, structures, and private property, and
- c. provision for normal flow of traffic with a minimum of interference.

B. The Transportation Commission shall prepare and publish a map of this state showing by appropriate symbols the various highway structures and bridges in terms of maximum size and weight restrictions. This map shall be titled "Oklahoma Load Limit Map" and shall be revised periodically to maintain a reasonably current status and in no event shall a period of two (2) years lapse between revisions and publication of the printed version of the Oklahoma Load Limit Map. This map shall also be made available by the Department of Transportation on the Internet, and in no event shall a period of six (6) months lapse between revisions of the information provided on the Internet. Provided, further, the Secretary of the Department of Transportation shall prepare and publish a map of this state showing the advantages of this state as a marketing, warehousing and distribution network center for motor transportation sensitive industries.

C. The Executive Director of the Department of Transportation, or an authorized representative, shall have the authority, within the limitations formulated under provisions of this chapter, to issue, withhold or revoke special permits for the operation of

vehicles or combinations of vehicles or loads which exceed the size or weight limitations of this chapter. Every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any law enforcement officer or authorized agent of any authority granting such permit, and no person shall violate any of the terms or conditions of such special permit.

D. It shall be permissible in the transportation of empty trucks on any road or highway to tow by use of saddlemounts, i.e., mounting the front wheels of one vehicle on the bed of another leaving the rear wheels only of such towed vehicle in contact with the roadway. One vehicle may be fullmounted on the towing or towed vehicles engaged in any driveaway or towaway operation. No more than three saddlemounts may be permitted in such combinations. The towed vehicles shall be securely fastened and operated under the applicable safety requirements of the United States Department of Transportation and such combinations shall not exceed an overall length of seventy-five (75) feet. Provided, a driveaway saddlemount with fullmount vehicle transporter combination may reach an overall length of ninety-seven (97) feet on the National Network of Highways.

E. The Executive Director of the Department of Transportation, upon application of any person engaged in the transportation of forest products in the raw state, which is defined to be tree-length logs moving from the forest directly to the mill, or upon application of any person engaged in the hauling for hire or for resale of round baled hay with a total outside width of eleven (11) feet or less, shall issue an annual permit, upon payment of a fee of Twenty-five Dollars (\$25.00) each year, authorizing the operation by such persons of such motor vehicle load lengths and widths upon the highways of this state except on the National System of Interstate and Defense Highways. Provided, however, the restriction on use of the National System of Interstate and Defense Highways shall not be applicable to persons engaged in the hauling of round baled hay with a total outside width of eleven (11) feet or less.

F. The Executive Director of the Department of Transportation, upon application of any person engaged in the transportation of overwidth or overheight equipment used in soil conservation work with a total outside width of twelve (12) feet or less, shall issue an annual permit, upon payment of a fee of Twenty-five Dollars (\$25.00) each year, authorizing the operation by such persons of such motor vehicle load lengths and widths upon the highways of this state except on the National System of Interstate and Defense Highways.

G. Farm equipment including, but not limited to, implements of husbandry as defined in Section 1-125 of this title shall be exempted from the requirement for special permits due to size. Such

equipment may move on any highway, except those highways which are part of the National System of Interstate and Defense Highways, during the hours of darkness and shall be subject to the requirements as provided in Section 12-215 of this title. In addition to those requirements, tractors pulling machinery over thirteen (13) feet wide must have two amber flashing warning lamps symmetrically mounted, laterally and widely spaced as practicable, visible from both front and rear, mounted at least thirty-nine (39) inches high.

H. Any rubber-tired road construction vehicle including rubber-tired truck cranes and special mobilized machinery either self-propelled or drawn carrying no load other than component parts safely secured to the machinery and its own weight, but which is overweight by any provisions of this chapter, shall be authorized to move on the highways of this state. Movement of such vehicles shall be authorized on the National System of Interstate and Defense Highways only by special permit secured from the Executive Director of the Department of Transportation or an authorized representative upon determination that the objectives of this section will be served by such a permit and that federal weight restrictions will not be violated. The special permit shall be:

1. A single-trip permit issued under the provisions of this section and Section 14-116 of this title; or

2. A special annual overweight permit which shall be issued for one calendar year period upon payment of a fee of Sixty Dollars (\$60.00).

The weight of any such vehicle shall not exceed six hundred fifty (650) pounds multiplied by the nominal width of the tire. The vehicle shall be required to carry the safety equipment adjudged necessary for the health and welfare of the driving public. If any oversized vehicle does not come under the other limitations of the present laws, it shall be deemed that the same shall travel only between the hours of sunrise and sunset. The vehicle, being overweight but of legal dimension, shall be allowed continuous travel. The vehicles, except special mobilized machinery, shall be exempt from the laws of this state relating to motor vehicle registration, licensing or other fees or taxes in lieu of ad valorem taxes.

I. 1. When such machinery has a width greater than eight and one-half (8 1/2) feet, or a length, exclusive of load, of forty-five (45) feet, or a height in excess of thirteen and one-half (13 1/2) feet, then the permit may restrict movement to a fifty-mile radius from an established operating base, and may designate highways to be traveled, hours of travel and when flagmen may be required to precede or follow the equipment.

2. Possession of a permit shall in no way be construed as exempting such equipment from the authority of the Executive

Director of the Department of Transportation to restrict use of particular highways, nor shall it exempt owners or operators of such equipment from the responsibility for damage to highways caused by movement of the equipment. Nothing in this subsection shall apply to machinery used in highway construction or road material production.

3. Upon the issuance of a special mobilized machinery driveaway permit as provided in this subsection, special mobilized machinery manufactured in Oklahoma shall be permitted to move upon the highways of this state from the place of manufacture to the state line for delivery and exclusive use outside the state, and may be temporarily returned to Oklahoma for modification and repair, with subsequent movement back out of the state. Special driveaway permits for such movements shall be issued by the Executive Director of the Department of Transportation, who may act through designated agents, upon the payment of a fee in the amount of Fifteen Dollars (\$15.00) for each movement.

4. The size of the special mobilized machinery shall not be such as to create a safety hazard in the judgment of the Executive Director of the Department of Transportation. Permits for such special mobilized machinery shall specify a maximum permissible road speed of sixty (60) miles per hour, designate safety equipment to be carried and may exclude use of highways of the interstate system.

5. When such equipment has a width greater than eight and one-half (8 1/2) feet, or a length exclusive of load of forty-five (45) feet, or a height in excess of thirteen and one-half (13 1/2) feet, the permit may designate highways to be traveled, hours of travel and when flagmen may be required to precede or follow the equipment.

6. Possession of a special driveaway permit shall in no way be construed as exempting such equipment from the authority of the Executive Director of the Department of Transportation to restrict use of particular highways, nor shall it exempt the owners or operators of such equipment from the responsibility for damage to highways caused by the movement of such equipment.

§47-40-102. Traffic collision resulting in injury or death or property damage exceeding certain amount - Reports - Confidentiality - Allowing examination or reproduction for commercial solicitation prohibited.

A. 1. Every law enforcement officer who, in the regular course of duty, investigates or receives a report of a traffic collision resulting in injury to or death of a person or total property damage to an apparent extent of Five Hundred Dollars (\$500.00) or more shall prepare a written report of the collision on the standard collision report form supplied by the Department of Public Safety. The reports shall be forwarded within thirty (30) days of the collision or, if the collision results in the death of any person, then within twenty (20) days of the death of the person, whichever time period is lesser, by the law enforcement agency preparing the report to the Department of Public Safety.

2. Reports of collisions shall be kept confidential for a period of sixty (60) days after the date of the collision; provided, the reports shall be made available as soon as practicable upon request to any:

- a. party involved in the collision,
- b. legal representatives of a party involved in the collision,

- d. the Department of Transportation or any county or city transportation or road and highway maintenance agency,
- e. licensed insurance agents of a party involved in the collision,

Second and subsequent offenses shall carry a penalty of imprisonment in the county jail for not more than thirty (30) days.

B. 1. No public employee or officer shall allow a person to examine or reproduce a collision report or any related investigation report if examination or reproduction of the report is sought for the purpose of making a commercial solicitation. Any person requesting a collision report may be required to state, in writing, under penalty of perjury, that the report will not be examined, reproduced or otherwise used for commercial solicitation purposes. It shall be unlawful and constitute a misdemeanor for any person to obtain or use information from a collision report or a copy thereof for the purpose of making a commercial solicitation.

2. As used in this subsection:

- a. "commercial solicitation" means any attempt to use, or offer for use, personal information contained in a collision report to solicit any person named in the report, or a relative of the person, or to solicit a professional, business, or commercial relationship that is not pursuant to a request under paragraph 2 of subsection A of this section. Any agent or business obtaining information for verification or settlement of claims involving persons named in a report shall secure an affidavit annually from each client stating the information provided to the client shall not be used for commercial solicitation purposes under penalty of law.

4. The Department and local police departments shall include the following or a similar notice upon any copy of a collision

report furnished to others: "Warning - State Law. Use of contents for commercial solicitation is unlawful."

C. As used in this section:

1. "Newspaper" means a legal newspaper as defined in Section 106 of Title 25 of the Oklahoma Statutes, provided that the primary purpose of the newspaper is not the publication of personally identifying information concerning parties involved in the traffic collision;

2. "Provider of health services" means any person that provides health care services to the injured person under a license, certification or registration issued pursuant to Title 59 of the Oklahoma Statutes, or any hospital or related institution that offers or provides health care services under a license issued pursuant to Section 1-702 et seq. of Title 63 of the Oklahoma Statutes; and

3. Personal information does not include information that is lawfully obtained from publicly available information or from federal, state or local government records lawfully made available to the general public.

3. "Owner" means a person to whom title to equipment has been issued, or who, without title, has the right to exclusive use of equipment for a period longer than thirty (30) days;

4. "Lease" means a contract or arrangement in which the owner grants the use of equipment, with or without driver, for a specified period to an authorized carrier for use in the regulated transportation of household goods in exchange for compensation;

5. "Lessor", in a lease, means the party granting the use of equipment with or without driver to another;

6. "Lessee", in a lease, means the party acquiring the use of equipment with or without driver from another;

7. "Addendum" means a supplement to an existing lease which is not effective until signed by the lessor and lessee; and

8. "Shipper" means a person who sends or receives household goods which are transported in intrastate commerce in this state.

B. An authorized carrier may perform authorized transportation in equipment it does not own only under the following conditions:

1. There shall be a written lease granting the use of the equipment and meeting the requirements as set forth in subsection C of this section;

2. The authorized carrier acquiring the use of equipment under this section shall identify the equipment in accordance with the Commission's requirements; and

3. Upon termination of the lease, the authorized carrier shall remove all identification showing it as the operating carrier before giving up possession of the equipment.

C. The written lease required pursuant to subsection B of this section shall contain the following provisions. The required lease provisions shall be adhered to and performed by the authorized carrier as follows:

1. The lease shall be made between the authorized carrier and the owner of the equipment. The lease shall be signed by these parties or by their authorized representatives;

2. The lease shall specify the time and date or the circumstances on which the lease begins and ends and include a description of the equipment which shall be identified by vehicle serial number, make, year, model and current license plate number;

The lease shall further provide that the authorized carrier lessee shall assume complete responsibility for the operation of the equipment for the duration of the lease;

5. The amount to be paid by the authorized carrier for equipment and driver's services shall be clearly stated on the face of the lease or in an addendum which is attached to the lease. The amount to be paid may be expressed as a percentage of gross revenue, a flat rate per mile, a variable rate depending on the direction traveled or the type of commodity transported, or by any other method of compensation mutually agreed upon by the parties to the lease. The compensation stated on the lease or in the attached addendum may apply to equipment and driver's services either separately or as a combined amount;

base plates and licenses, and any unused portions of such items. Except when the violation results from the acts or omissions of the lessor, the authorized carrier lessee shall assume the risks and costs of fines for overweight and oversize trailers when the trailers are preloaded, sealed, or the load is containerized, or when the trailer or lading is otherwise outside of the lessor's control, and for improperly permitted over-dimension and overweight loads and shall reimburse the lessor for any fines paid by the lessor. If the authorized carrier is authorized to receive a refund or a credit for base plates purchased by the lessor from, and issued in the name of, the authorized carrier, or if the base plates are authorized to be sold by the authorized carrier to another lessor, the authorized carrier shall refund to the initial lessor on whose behalf the base plate was first obtained a prorated share of the amount received;

7. The lease shall specify that payment to the lessor shall be made by the authorized carrier within fifteen (15) days after submission of the necessary delivery documents and other paperwork concerning a trip in the service of the authorized carrier. The paperwork required before the lessor can receive payment is limited to those documents necessary for the authorized carrier to secure payment from the shipper. The authorized carrier may require the submission of additional documents by the lessor but not as a prerequisite to payment;

8. The lease shall clearly specify the right of those lessors whose revenue is based on a percentage of the gross revenue for a shipment to examine copies of the authorized carrier's freight bill before or at the time of settlement. The lease shall clearly specify the right of the lessor, regardless of method of compensation, to examine copies of the carrier's tariff;

9. The lease shall clearly specify all items that may be initially paid for by the authorized carrier, but ultimately deducted from the lessor's compensation at the time of payment or settlement together with a recitation as to how the amount of each item is to be computed. The lessor shall be afforded copies of those documents which are necessary to determine the validity of the charge;

10. The lease shall specify that the lessor is not required to purchase or rent any products, equipment, or services from the authorized carrier as a condition of entering into the lease arrangement;

11. As it relates to insurance:

- a. the lease shall clearly specify the legal obligation of the authorized carrier to maintain insurance coverage for the protection of the public, and
- b. the lease shall clearly specify the conditions under which deductions for cargo or property damage may be

made from the lessor's settlements. The lease shall further specify that the authorized carrier must provide the lessor with a written explanation and itemization of any deductions for cargo or property damage made from any compensation of money owed to the lessor. The written explanation and itemization must be delivered to the lessor before any deductions are made; and

12. An original and two copies of each lease shall be signed by the parties. The authorized carrier shall keep the original and shall place a copy of the lease in the equipment during the period of the lease. The owner of the equipment shall keep the other copy of the lease.

§47-169. Filing of certificates of insurance coverage as condition precedent to certificate or permit - Actions by injured party - Failure to maintain coverage.

A. No certificate shall be issued by the Corporation Commission to any motor carrier of household goods until after such motor carrier shall have filed with the Commission a liability insurance policy or bond covering public liability and property damage, issued by some insurance or bonding company or insurance carrier authorized as set forth below, and which has complied with all of the requirements of the Commission, which bond or policy shall be approved by the Commission, and shall be in such sum and amount as fixed by a proper order of the Commission; and such liability and property damage insurance policy or bond shall bind the obligor thereunder to make compensation for injuries to, or death of, persons, and loss or damage to property, resulting from the operation of any such motor carrier for which such carrier is legally liable. After judgment against the carrier for any damage, the injured party may maintain an action upon the policy or bond to recover the same, and shall be a proper party to maintain such action.

B. Every motor carrier of household goods shall file with the Commission a cargo insurance policy or bond covering any goods or property being transported, issued by some insurance or bonding company or insurance carrier authorized as set forth below, and which has complied with all of the requirements of the Commission, which bond or policy shall be approved by the Commission, and shall

be in a sum and amount as fixed by Commission rule. The cargo insurance must be filed with the Commission prior to a certificate being issued by the Commission.

C. No carrier, whose principal place of business is in Oklahoma, shall conduct any operations in this state unless the operations are covered by a valid primary bond or insurance policy issued by an insurer authorized or approved by the Oklahoma Insurance Department. No carrier whose principal place of business is not in Oklahoma shall conduct any operations in this state unless the operations are covered by a valid bond or insurance policy issued by an insurer licensed or approved by the insurance regulatory authority of the state of their principal place of business or the Oklahoma Insurance Department.

D. Each motor carrier shall maintain on file, in full force, all insurance required by the laws of the State of Oklahoma and the rules of the Commission during such motor carrier's operation and that the failure for any cause to maintain such coverage in full force and effect shall immediately, without any notice from the Commission, suspend such carrier's rights to operate until proper insurance is provided. Any carrier suspended for failure to maintain proper insurance shall have a reasonable time, not exceeding sixty (60) days, within which to provide proper insurance and to have the carrier's authority reactivated, upon showing:

1. No operation during the period in which the carrier did not have insurance; and

2. Furnishing of proper insurance coverage.

E. Any carrier who fails to reactivate the carrier's certificate within sixty (60) days after such suspension, as above provided, shall have the certificate canceled, by operation of law, without any notice from the Commission. No certificate so canceled shall be reinstated or otherwise made operative except that the Commission may reinstate the authority of a motor carrier upon proper showing that the motor carrier was actually covered by proper insurance during the suspension or cancellation period, and that failure to file with the Commission was not due to the motor carrier's fault. Any carrier desiring to file for reinstatement of the carrier's certificate shall do so within ninety (90) days of its cancellation by law.

F. The Commission shall, in its discretion, permit the filing of certificates of insurance coverage on such form as may be prescribed by the Commission, in lieu of copies of insurance policies or bonds, with the proviso that if the certificates are authorized, the insurance company or carrier so filing it, upon request of the Commission, shall, at any time, furnish an authenticated copy of the policy which the certificate represents, and further provided that thirty (30) days prior to effective cancellation or termination of the policy of insurance for any

cause, the insurer shall so notify the Commission in writing of the facts or as deemed necessary by the Commission.

2. Commence an investigation in good faith to determine whether the carrier acknowledges or denies liability for the loss or damage;
3. Either pay the claim in full, or as agreed to by mutual compromise, or deny liability for loss or damage, in writing, within ninety (90) days after receipt of the original claim by the carrier. Such action shall not be withheld or postponed pending receipt of payment or acknowledgment of liability from connecting carriers; and

When a shipper, without prior approval from the consignee, elects to release a shipment at a value less than the full value of the property shipped, in the event of loss or damage, the shipper will indemnify to the consignee the difference between the released or limited valuation paid by the carrier and the full value of the property shipped. Inspections covering loss or damage found after delivery must be requested to the delivering carrier in writing within fifteen (15) days after the delivery of the shipment involved. If more than fifteen (15) days have passed, it is incumbent upon the consignee to offer reasonable evidence to the carrier or a representative of the carrier that loss or damage was not incurred by the consignee after delivery by the carrier.

§47-230.2. Legislative intent.

A. The Legislature finds:

1. That the volume of hazardous and nonhazardous materials transported by motor carriers within this state is substantial and the need exists to improve the enforcement of safety related aspects of motor carrier transportation for both interstate and intrastate motor carriers which is consistent with federal standards and regulations.

2. That hazardous materials are essential for various industrial, commercial, and other purposes, that their transportation is a necessary incident to their use, and that the transportation is required for the economic prosperity of the people of the State of Oklahoma.

3. That the highway movement of hazardous and nonhazardous materials poses a substantial danger to the health and safety of the citizens of this state unless such materials are handled and transported in a safe and prudent manner.

4. That it is in the public interest and within the police power of the state to provide for the regulation of the safety related aspects of motor carrier transportation and the handling and transportation of hazardous materials.

B. It is therefore declared to be the policy of the State of Oklahoma to provide regulatory and enforcement authority to the Oklahoma Department of Public Safety to improve safety related aspects of motor carrier transportation and to protect the people against the risk to life and property inherent in the transportation of property, including hazardous materials, over highways and the handling and storage incidental thereto, by keeping such risk to a minimum consistent with technical feasibility and economic reasonableness and to provide uniform regulation of intrastate

transportation of property, including hazardous materials, consistent with federal regulation of interstate transportation.

C. It is not the intent of the Legislature to regulate the movement of hazardous materials in such quantities that would not pose a substantial danger to the public health and safety, and the Department may provide for exemptions as provided for in federal regulations for farm use, and other appropriate exemptions consistent with federal regulations.

Added by Laws 1986, c. 80, § 2, eff. Nov. 1, 1986.

3. To a common carrier relative to its handling or transporting of hazardous materials.

Added by Laws 1986, c. 80, § 14, eff. Nov. 1, 1986.

§47-230.15. Report of violations to Corporation Commission - Liability and damage insurance - Administrative penalties - Driving hours - Conflicting regulations.

A. Whenever the Department of Public Safety has determined that any person who is regulated as a motor carrier pursuant to Sections 166 through 180m of this title has violated any provision of the Oklahoma Motor Carrier Safety and Hazardous Materials Transportation Act or any rule promulgated thereto, the Department of Public Safety shall report such violations to the Corporation Commission for the purposes of determining if such person has violated any provisions of the permit or certificate issued by the Commission pursuant to any provision of Sections 166 through 180m of this title or of any rule promulgated thereto.

B. Every motor carrier subject to this section shall maintain liability and property damage insurance covering each motor vehicle operated by the motor carrier and file proof of that insurance with the Oklahoma Corporation Commission. The Commission shall set the amount of necessary insurance for the transportation of all commodities other than hazardous materials. The Commission may allow a motor carrier to meet its liability and property damage insurance requirements through self-insurance if the motor carrier has adequate financial assets to assume liability and is in substantial compliance with all motor carrier safety regulations adopted by the Department. Any person who transports or who causes the transportation of any hazardous material shall be required to comply with the financial responsibility requirements specified by the federal motor carrier safety regulations and the hazardous materials regulations of the United States Department of Transportation provided that in no event shall the financial responsibility requirement exceed One Million Dollars (\$1,000,000.00) except as otherwise specifically required by federal law, or any federal rule or regulation promulgated thereto.

C. Any person who causes or requires any person subject to the provisions of the Oklahoma Motor Carrier Safety and Hazardous Materials Transportation Act to drive at a speed or carry a load in excess of those authorized by law pursuant to the Oklahoma Motor Carrier Safety and Hazardous Materials Transportation Act shall be subject to the administrative penalties pursuant to the provisions of this act.

D. In adopting rules pursuant to the provisions of this act, the Department of Public Safety shall establish limitations on driving hours for motor vehicles subject thereto that are consistent with the hours of service requirements adopted by the United States Department of Transportation in the applicable part of Title 49 of the Code of Federal Regulations, as those regulations now exist or

are hereafter amended. Driving hours and on-duty status shall not begin following less than eight (8) consecutive hours off duty. Drivers shall be regulated from the time a driver first reports for duty for any employer. The rules adopted pursuant to this section shall establish the following exceptions:

1. The maximum driving time within a work period is twelve (12) hours if the vehicle is engaged solely in intrastate commerce and is not transporting hazardous materials as defined by regulations of the United States Department of Transportation in the applicable section of Title 49 of the Code of Federal Regulations, as that section now exists or is hereafter amended; except in the event of an emergency and upon notification of the nearest Oklahoma Highway Patrol troop headquarters of the Department of Public Safety, the Commissioner or his designated agent shall declare an emergency and there shall be no hour restrictions for rural electric cooperatives, public utilities, public service corporations or municipal employees as long as an emergency exists for providing service to restore heat, light, power, water, telephone or other emergency restoration facilities that are necessary to ensure the health, welfare and safety of the public; and

2. No rule shall be adopted that enforces the provisions of 49 CFR Section 395.3(a)(3)(ii) relating to rest breaks, if the driver or motor carrier is engaged solely in intrastate commerce.

E. Except as provided in subsection F of this section, any regulation relating to motor carrier safety or to the transportation of hazardous materials adopted by a local government, authority, or state agency or office shall be consistent with corresponding federal regulations. To the extent of any conflict between said regulations and rules adopted by the Department of Public Safety under this section, rules adopted by the Department shall control.

F. 1. Amendments to the hours of service regulations promulgated on April 28, 2003, by the United States Department of Transportation at Section 22456 of Volume 68 of the Federal Register and effective June 27, 2003, shall not apply to utility service vehicles as defined in Section 395.2 of Title 49 of the Code of Federal Regulations, not including television cable or community antenna service vehicles, which are owned or operated by utilities regulated by the Corporation Commission or electric cooperatives and which are engaged solely in intrastate commerce in this state until June 27, 2006, provided the amendments are valid and remain in effect as of that date. Hours of service regulations, which are applicable in this state immediately prior to June 27, 2003, shall remain applicable to utility service vehicles engaged solely in intrastate commerce in this state until June 27, 2006. If the United States Department of Transportation issues an official finding that this provision may result in the loss of federal Motor Carrier Safety Assistance Program funding, the Department of Public

Safety may promulgate rules providing for earlier implementation of the amendments to the federal hours of service regulations. If federal law or regulations are amended at any time to exempt utility service vehicles from the hours of service requirements, any exemption shall be effective in this state immediately for the duration of the federal exemption.

2. The Department of Public Safety may promulgate rules suspending the effective date for up to three (3) years after the adoption of any motor carrier safety regulation by the United States Department of Transportation as applied to vehicles engaged solely in intrastate commerce in this state if the suspension does not result in the loss of federal Motor Carrier Safety Assistance Program funding.

3. The Department of Public Safety may enter into agreements with state and local emergency management agencies and private parties establishing procedures for complying with Section 31502(e) of Title 49 of the United States Code and federal regulations promulgated at Section 390.23 of Title 49 of the Code of Federal Regulations, which provide an exemption from the hours of service regulations during certain emergencies.

4. The Department of Public Safety may promulgate rules granting any waiver, variance, or exemption permitted under Section 31104(h) of Title 49 of the United States Code and federal regulations promulgated at Sections 350.339, 350.341, 350.343 and 350.345 of Title 49 of the Code of Federal Regulations if the waiver, variance, or exemption does not result in the loss of federal Motor Carrier Safety Assistance Program funding and does not take effect unless approved by the United States Department of Transportation, if approval is required.

B. The deployment, implementation, or use of a motor carrier safety improvement by or as required by a motor carrier or its related entity, including by contract, shall not be considered when evaluating an individual's status as an employee or independent contractor, or as a jointly employed employee, under any state law. §47-230.30. Liability and cargo insurance or bond.

A. No license shall be issued by the Commission to any carrier until after the carrier shall have filed with the Commission a liability insurance policy or bond covering public liability and property damage, issued by some insurance or bonding company or insurance carrier authorized pursuant to this section and which has complied with all of the requirements of the Commission, which bond or policy shall be approved by the Commission, and shall be in a sum and amount as fixed by a proper order of the Commission; and the liability and property damage insurance policy or bond shall bind the obligor thereunder to make compensation for injuries to, or death of, persons, and loss or damage to property, resulting from the operation of any carrier for which the carrier is legally liable. A copy of the policy or bond shall be filed with the Commission, and, after judgment against the carrier for any damage,

the injured party may maintain an action upon the policy or bond to recover the same, and shall be a proper party to maintain such action.

B. Every motor carrier shall file with the Commission a cargo insurance policy or bond covering any goods or property being transported, issued by some insurance or bonding company or insurance carrier authorized as set forth below, and which has complied with all of the requirements of the Commission, which bond or policy shall be approved by the Commission, and shall be in a sum and amount as fixed by a proper order of the Commission. The cargo insurance must be filed with the Commission prior to a license being issued by the Commission, unless the motor carrier has been exempted from this requirement.

Intrastate motor carriers of sand, rock, gravel, asphaltic mixtures or other similar road building materials shall not be required to file cargo insurance and shall be required to maintain liability insurance limits of Three Hundred Fifty Thousand Dollars (\$350,000.00) combined single limit.

No carrier, whose principal place of business is in Oklahoma, shall conduct any operations in this state unless the operations are covered by a valid primary bond or insurance policy issued by a provider authorized or approved by the State Insurance Commissioner. No carrier shall conduct any operations in this state unless the operations are covered by a valid bond or insurance policy issued by a provider authorized and approved by a National Association of Insurance Commissioners and certified by the State Insurance Commission.

C. Each carrier shall maintain on file, in full force, all insurance required by the laws of this state and the rules of the Commission during the operation of the carrier and that the failure for any cause to maintain the coverage in full force and effect shall immediately, without any notice from the Commission, suspend the rights of the carrier to operate until proper insurance is provided. Any carrier suspended for failure to maintain proper insurance shall have a reasonable time, not exceeding sixty (60) days, to have its license reactivated, and to provide proper insurance upon showing:

1. No operation during the period in which it did not have insurance; and
2. Furnishing of proper insurance coverage.

D. Any carrier who fails to reactivate its license within sixty (60) days after the suspension, as above provided, shall have the license canceled, by operation of law, without any notice from the Commission. No license so canceled shall be reinstated or otherwise made operative except that the Commission may reinstate the license of a carrier upon proper showing that the carrier was actually covered by proper insurance during the suspension or cancellation

period, and that failure to file with the Commission was not due to the negligence of the carrier. Any carrier desiring to file for reinstatement of its license shall do so within ninety (90) days of its cancellation by law.

E. The Commission shall, in its discretion, permit the filing of certificates of insurance coverage or such form as may be prescribed by the Commission, in lieu of copies of insurance policies or bonds, with the proviso that if the certificates are authorized the insurance company or carrier so filing it, upon request of the Commission, will, at any time, furnish an authenticated copy of the policy which the certificate represents, and further provided that thirty (30) days prior to effective cancellation or termination of the policy of insurance for any cause, the insurer shall so notify the Commission in writing of the facts or as deemed necessary by the Commission.
