Any person, firm, association, corporation, or trust engaging in more than one of such capacities or having more than one place where such business is carried on or conducted shall be required to obtain and hold a current license for each thereof. Provided that, a new motor vehicle dealer's license shall authorize one person to sell in the event such person shall be the owner of a proprietorship, or the person designated as principal in the dealer's franchise or the managing officer or one partner if no principal person is named in the franchise. If applications have not been made for renewal of licenses at the times described in this subsection, it shall be illegal for any person to represent himself or herself and act as a dealer, manufacturer, distributor, or manufacturer's or distributor's representative. Service Oklahoma and licensed operators will be notified not to accept such dealers' titles until such time as licenses have been issued by the Commission.

C. The schedule of license fees to be charged and received by the Commission for the licenses issued hereunder shall be as follows:

In case such location is changed, the Commission may endorse the change of location on the license without charge unless the change of address triggers a relocation of a new motor vehicle dealer or new powersports vehicle dealer pursuant to the provisions of Section 578.1 of this title. The licenses of each new vehicle dealer shall be posted in a conspicuous place in the dealer's place or places of business.

Every motor vehicle factory representative or distributor representative shall physically possess the license when engaged in business and shall display such upon request. The name of the employer of such factory representative or distributor representative shall be stated on the license.

A. As used in this section:

1. "Access fee" means a requirement to pay money for access to protected dealer data;

2. "Authorized integrator" means a person who a dealer has a contractual relationship with or the dealer otherwise gives express written authorization to have access to protected dealer data stored on a dealer data system or to write protected dealer data to the dealer data system for the purpose of performing a specific function for the dealer;

3. "Dealer data system" means software, hardware, or firmware that a dealer leases or rents from a dealer management system provider for the purpose of storing protected dealer data;

4. "Dealer management system provider" means a person who, for compensation, maintains and provides access to a dealer data system in which a dealer stores protected dealer data;

5. "Protected dealer data" means:

b. any other dealer data in connection with the dealer's daily business operations in which a dealer has rights in a dealer data system; and

6. Authorized integrator and dealer management system provider do not include:

- a. a manufacturer, distributor, importer, or any entity that is a subsidiary or affiliate of, or acts on behalf of, a manufacturer, distributor, or importer, or
- b. a governmental body or other person that is acting in accordance with federal, state, or local law, or a valid court order.

B. A dealer management system provider may:

1. Condition access and ability of a dealer or authorized integrator to receive, share, copy, use, write, or transmit protected dealer data from or to a dealer data system on the dealer's or authorized integrator's compliance with security standards;

2. Require an authorized integrator to have express written authorization from a dealer before allowing the authorized integrator to gain access to, receive, share, copy, use, or transmit protected dealer data; and

3. Deny access to a dealer data system to a dealer if the dealer fails to pay an amount due to the dealer management system provider under a lease, contract, or other agreement concerning the dealer's access to or use of the dealer data system.

C. Except as provided in subsection B of this section, a dealer management system provider shall not take any action that would limit or prohibit the ability of a dealer or an authorized integrator to receive, protect, store, copy, share, or use protected dealer data using means that include, but are not limited to:

1. Imposing an access fee on a dealer or authorized integrator; and

2. Restricting a dealer or an authorized integrator from sharing protected dealer data or writing data or having access to a dealer data system. Prohibited restrictions pursuant to this paragraph include, but are not limited to:

E. An authorized integrator shall:

1. Obtain express written authorization from a dealer before gaining access to, receiving, sharing, copying, using, writing, or transmitting protected dealer data;

2. Comply with security standards in gaining access to, receiving, sharing, copying, using, writing, or transmitting protected dealer data; and

3. Allow a dealer to withdraw, revoke, or amend any express written authorization the dealer provides under paragraph 1 of this subsection:

a. at the sole discretion of the dealer, if the dealer gives a thirty-day prior notice to an authorized integrator, or

b. immediately, for good cause.

F. 1. This section does not prevent a dealer, a dealer management system provider, or an authorized integrator from discharging the obligations of a dealer, dealer management system provider, or of an authorized integrator under federal, state, or local law to secure and prevent unauthorized access to protected dealer data, or from limiting the scope of the obligations, in accordance with federal, state, or local law.

2. A dealer management system provider is not liable for any action that a dealer takes directly with respect to securing or preventing unauthorized access to protected dealer data, or for actions that an authorized integrator takes in appropriately following the written instructions of the dealer for securing or preventing unauthorized access to protected dealer data, to the extent that the actions prevent the dealer management system provider from meeting a legal obligation to secure or prevent unauthorized access to protected dealer data.

3. A dealer is not liable for any action that an authorized integrator takes directly with respect to securing or preventing unauthorized access to protected dealer data, or for actions that the authorized integrator takes in appropriately following the written instructions of the dealer for securing or preventing unauthorized access to protected dealer data, to the extent that the actions prevent the dealer from meeting a legal obligation to secure or prevent unauthorized access to protected dealer data.

4. An authorized integrator is not liable for any action that a dealer takes directly with respect to securing or preventing unauthorized access to protected dealer data, or for actions that the dealer takes in appropriately following the written instructions of the authorized integrator for securing or preventing unauthorized access to protected dealer data, to the extent that the actions prevent the authorized integrator from meeting a legal obligation to secure or prevent unauthorized access to protected dealer data.

5. A manufacturer, distributor, importer, or any entity that is a subsidiary or affiliate of, or acts on behalf of, a manufacturer,

distributor, or importer is not liable for any action that a dealer, dealer management system provider, authorized integrator, or other third party, except for a third party who the manufacturer has provided the data to as provided for in paragraph 7 of this subsection, takes directly with respect to securing or preventing unauthorized access to protected dealer data or for actions that an authorized integrator, dealer management system provider, or other third party takes in appropriately following the written instructions of the dealer for securing or preventing unauthorized access to protected dealer data.

6. Notwithstanding any other agreement, an authorized integrator shall indemnify and hold the new motor vehicle dealer harmless from any third-party claims asserted against or damages incurred by the new motor vehicle dealer to the extent caused by access to, use of, or disclosure of consumer data in violation of this section.

7. Notwithstanding any other agreement, a manufacturer, distributor, importer, or any entity that is a subsidiary or affiliate of, or acts on behalf of, a manufacturer, distributor, or importer shall indemnify the dealer for any third-party claims asserted against or damages incurred by the dealer to the extent the claims or damages are caused by the access to and unlawful disclosure of protected dealer data resulting from a breach caused by the manufacturer or distributor or a third party to which the manufacturer or distributor has provided the protected dealer data in violation of this section, the written consent granted by the dealer, or other applicable state or federal law.

§47-565.1. Manufacturer's or distributor's prevention or refusal to honor succession to dealership by legal heir or devisee of new motor vehicle or new powersports vehicle dealer – Procedure.

A. For the purposes of this section, "designated successor" means a person who the new motor vehicle dealer or new powersports vehicle dealer has designated to take over operation of the dealership or a legal heir or devisee under the will of a new motor vehicle dealer or new powersports vehicle dealer or under the laws of descent and distribution of this state.

B. Notwithstanding the terms of any franchise agreement, and subject to the following conditions contained in paragraphs 1 through 5 of this subsection, any manufacturer or distributor who prevents or refuses to honor the succession to the operation of a dealership by a designated successor without good cause or good

faith, as defined in this section, shall be subject to the following procedure:

1. Within one hundred twenty (120) days after the death or departure of the new motor vehicle dealer or new powersports vehicle dealer, the manufacturer shall receive a written notice from the dealership of the designated successor who intends to become the successor dealership operator. If timely notice is not received, this paragraph shall not apply, and any succession shall be governed solely by the terms of the franchise;

2. Within thirty (30) days of receipt of the dealership's timely written notice, the manufacturer may request, and the designated successor shall, within a reasonable time, provide any information which is reasonably necessary for the manufacturer to evaluate the designated successor dealer and dealership, including applications and financing;

3. Within sixty (60) days of receipt of such information, the manufacturer shall approve or disapprove the designated successor dealer, and in case of disapproval shall communicate in writing such disapproval and grounds for disapproval to the dealership;

4. Failure of the manufacturer to act in a timely manner with respect to any time period described above shall constitute a waiver of the manufacturer's right to disapprove the proposed succession; and

5. Within ten (10) days of the dealership's receipt of the manufacturer's notice of disapproval, the dealership may file a protest of the manufacturer's decision with the Oklahoma New Motor Vehicle Commission and request a hearing. Such hearing shall be heard in a substantially similar manner as provided by Section 566 of this title, except that the Commission shall render a final decision within sixty (60) days of the filing of the protest. The manufacturer shall have the burden of proof to show that its disapproval was for a good cause and in good faith. A denial shall not be for good cause and in good faith unless the factory establishes that the designated successor is not of good moral character or fails to meet the written, reasonable, and uniformly applied requirements of the manufacturer or distributor relating to financial qualifications, general business experience, and other requirements relating to prospective franchisees. However, a designated successor who is a family member and who is of good moral character in accordance with reasonable factory qualifications and meets the factory's financial qualifications may rely on controlling executive management that is of good moral character and meets the factory's qualifications for general business experience. Any denial of the designated successor based upon a failure to agree to terms other than those contained in the existing franchise agreement, related addendums and agreements, and any written notice provided to the existing dealer prior to the manufacturer's or

distributor's receipt of any written notice from the existing dealer of the proposed transfer shall not be considered good cause for such denial. However, any proposed change to the franchise pursuant to written notice from the manufacturer or distributor, to be valid, must be in compliance with existing law. The disapproval by the manufacturer shall be final if the dealership fails to file a timely protest of the disapproval. In the event that the Commission finds that the manufacturer's disapproval was not made for good cause, then it shall issue a final order requiring the manufacturer to honor the successor designated in the notice sent by the dealership. Notwithstanding anything to the contrary in this section, a new motor vehicle or new powersports vehicle dealer may designate any person as successor by filing a written instrument pursuant to the franchise with the manufacturer during the new motor vehicle or new powersports vehicle dealer's lifetime. In such a case, the written instrument and franchise shall govern the dealership succession.

The suspension, revocation, or refusal to issue or renew a license or the imposition of any other penalty by the Commission shall be in addition to any penalty which might be imposed upon any licensee upon judgment or conviction in a court of competent jurisdiction for any violation of the provisions of Sections 561 through 567, 572, 578.1, 579, and 579.1 of this title. §47-565.2v1. Termination, cancellation or nonrenewal of new motor vehicle dealer franchise.

A. Irrespective of the terms, provisions, or conditions of any franchise, or the terms or provisions of any waiver, no manufacturer shall terminate, cancel, or fail to renew any franchise with a licensed new motor vehicle dealer unless the manufacturer has satisfied the notice requirements as provided in this section and has good cause for cancellation, termination, or nonrenewal. The manufacturer shall not attempt to cancel or fail to renew the franchise agreement of a new motor vehicle dealer in this state unfairly and without just provocation or without due regard to the equities of the dealer or without good faith as defined herein. As used herein, "good faith" means the duty of each party to any franchise agreement to act in a fair and equitable manner toward each other, with freedom from coercion or intimidation or threats thereof from each other.

B. Irrespective of the terms, provisions, or conditions of any franchise, or the terms or provisions of any waiver, good cause shall exist for the purpose of a termination, cancellation, or nonrenewal when:

1. The new motor vehicle dealer has failed to comply with a provision of the franchise, which provision is both reasonable and of material significance to the franchise relationship, or the new motor vehicle dealer has failed to comply with reasonable performance criteria for sales or service established by the manufacturer, and the new motor vehicle dealer has been notified by written notice from the manufacturer; and

2. The new motor vehicle dealer has received written notification of failure to comply with the manufacturer's reasonable sales performance standards, capitalization requirements, facility commitments, business-related equipment acquisitions, or other such remediable failings exclusive of those reasons enumerated in paragraph 1 of subsection C of this section, and the new motor vehicle dealer has been afforded a reasonable opportunity of not less than six (6) months to comply with such a provision or criteria.

C. Irrespective of the terms, provisions, or conditions of any franchise agreement prior to the termination, cancellation, or nonrenewal of any franchise, the manufacturer shall furnish notification of such termination, cancellation, or nonrenewal to the new motor vehicle dealer and the Oklahoma New Motor Vehicle Commission as follows:

1. Not less than ninety (90) days prior to the effective date of the termination, cancellation, or nonrenewal unless for a cause described in paragraph 2 of this subsection;

2. Not less than fifteen (15) days prior to the effective date of the termination, cancellation, or nonrenewal with respect to any of the following:

- a. insolvency of the new motor vehicle dealer, or the filing of any petition by or against the new motor vehicle dealer under any bankruptcy or receivership law,
- b. failure of the new motor vehicle dealer to conduct its customary sales and service operations during its customary business hours for seven (7) consecutive business days, provided that such failure to conduct business shall not be due to an act of God or circumstances beyond the direct control of the new motor vehicle dealer, or
- c. conviction of the new motor vehicle dealer of any felony which is punishable by imprisonment or a violation of the Federal Odometer Act; and

3. Not less than one hundred eighty (180) days prior to the effective date of the termination or cancellation where the manufacturer or distributor is discontinuing the sale of the product line.

The notification required by this subsection shall be by certified mail, return receipt requested, and shall contain a statement of intent to terminate, to cancel, or to not renew the franchise, a statement of the reasons for the termination, cancellation, or nonrenewal and the date the termination shall take effect.

D. Upon the affected new motor vehicle dealer's receipt of the aforementioned notice of termination, cancellation, or nonrenewal, the new motor vehicle dealer shall have the right to file a protest of such threatened termination, cancellation, or nonrenewal with the Commission within thirty (30) days and request a hearing. The hearing shall be held within one hundred eighty (180) days of the date of the timely protest by the dealer and in accordance with the provisions of the Administrative Procedures Act, Sections 250 through 323 of Title 75 of the Oklahoma Statutes, to determine if the threatened cancellation, termination, or nonrenewal of the franchise has been for good cause and if the factory has complied with its obligations pursuant to subsections A, B, and C of this section and the factory shall have the burden of proof. Either party may request an additional one-hundred-eighty-day extension of the hearing date from the Commission. Approval of the requested extension may not be unreasonably withheld or delayed. If the Commission finds that the threatened cancellation, termination, or nonrenewal of the franchise has not been for good cause or violates subsection A, B, or C of this section, then it shall issue a final order stating that the threatened termination is wrongful. A factory shall have the right to appeal such order. During the pendency of the hearing and after the decision, through any appeal, the franchise shall remain in full force and effect, including the right to transfer the franchise. If the Commission finds that the threatened cancellation, termination, or nonrenewal is for good cause and does not violate subsection A, B, or C of this section, the new motor vehicle dealer shall have the right to an appeal. During the pendency of the action, including the final decision or appeal, the franchise shall remain in full force and effect, including the right to transfer the franchise. If the new motor vehicle dealer prevails in the threatened termination action, the Commission shall award to the new motor vehicle dealer the attorney fees and costs incurred to defend the action.

E. If the factory prevails in an action to terminate, cancel, or not renew any franchise, the new motor vehicle dealer shall be allowed fair and reasonable compensation by the manufacturer for:

1. New, current, and previous model year vehicle inventory which has been acquired from the manufacturer, and which is unused and has not been damaged or altered while in the new motor vehicle dealer's possession;

2. Supplies and parts which have been acquired from the manufacturer, for the purpose of this section, limited to any and all supplies and parts that are listed on the current parts price sheet available to the new motor vehicle dealer;

3. Equipment and furnishings, provided the new motor vehicle dealer purchased them from the manufacturer or its approved sources; and

4. Special tools, with such fair and reasonable compensation to be paid by the manufacturer within ninety (90) days of the effective date of the termination, cancellation, or nonrenewal, provided the new motor vehicle dealer has clear title to the inventory and other items and is in a position to convey that title to the manufacturer.

a. For the purposes of paragraph 1 of this subsection, fair and reasonable compensation shall be no less than the net acquisition price of the vehicle paid by the new motor vehicle dealer.

b. For the purposes of paragraphs 2, 3, and 4 of this subsection, fair and reasonable compensation shall be the net acquisition price paid by the new motor vehicle dealer less a twenty-percent (20%) straight-line depreciation for each year following the dealer's acquisition of the supplies, parts, equipment, furnishings, and/or special tools.

F. 1. If a factory prevails in an action to terminate, cancel, or not renew any franchise and the new motor vehicle dealer is leasing the dealership facilities, the manufacturer shall pay a reasonable rent to the lessor in accordance with and subject to the provisions of this subsection. Nothing in this section shall be construed to relieve a new motor vehicle dealer of its duty to mitigate damages.

Such reasonable rental value shall be paid only to the extent the dealership premises are recognized in the franchise and only if they are:

a. used solely for performance in accordance with the franchise. If the facility is used for the operation of more than one franchise, the reasonable rent shall be paid based upon the portion of the facility utilized by the franchise being terminated, canceled, or nonrenewed, and

b. not substantially in excess of facilities recommended by the manufacturer.

2. If the facilities are owned by the new motor vehicle dealer, a related entity as defined in 26 U.S.C.A., Section 267(b), or a

member, partner or shareholder of the dealership, within ninety (90) days following the effective date of the termination, cancellation, or nonrenewal, except a termination, cancellation, or nonrenewal for a cause listed in paragraph 2 of subsection C of this section, at the dealer or related entity's written request, the manufacturer shall either:

- a. locate a qualified purchaser who will offer to purchase the dealership facilities at a reasonable price,
- b. locate a qualified lessee who will offer to lease the premises for the remaining lease term at the rent set forth in the lease, or
- c. lease the dealership facilities at a reasonable rental value for the portion of the facility that is recognized in the franchise agreement one and one-half (1.5) years, or
- d. purchase the dealer's existing dealership facility and real estate at its fair market value. If the factory and dealer cannot agree on the fair market value of the terminated franchise or agree to a process to determine the fair market value, then the factory and dealer shall utilize the process described in paragraph 6 of subsection G of this section. If a manufacturer or distributor purchases a dealership facility and real estate, then it shall be entitled to sole ownership, possession, use, and control of any items, buildings, or property that were included in the contract to purchase.

3. If the facilities are leased by the new motor vehicle dealer from an entity other than a related entity as defined in 26 U.S.C.A., Section 267(b), or a member, partner, or shareholder of the dealership, within ninety (90) days following the effective date of the termination, cancellation, or nonrenewal the manufacturer will either:

- a. locate a tenant or tenants satisfactory to the lessor, who will sublet or assume the balance of the lease,
- b. arrange with the lessor for the cancellation of the lease without penalty to the new motor vehicle dealer, or
- c. failing the foregoing, lease the dealership facilities at a reasonable rent for the portion of the facility that is recognized in the franchise agreement for one (1) year or the remainder of the lease, whichever is less.

4. The manufacturer shall not be obligated to provide assistance under this section if the new motor vehicle dealer:

- a. fails to accept a bona fide offer from a prospective purchaser, sublessee, or assignee,
- b. refuses to execute a settlement agreement with the manufacturer or lessor if such agreement with the manufacturer or lessor would be without cost to the new motor vehicle dealer, or
- c. fails to make written request for assistance under this section within ninety (90) days after the effective date of the termination, cancellation, or nonrenewal.

5. The manufacturer shall be entitled to occupy and use any space for which it pays rent required by this section.

G. In addition to the repurchase requirements set forth in subsections E and F of this section, in the event the termination, cancellation, or nonrenewal is the result of a discontinuance of a product line, the manufacturer or distributor shall compensate the new motor vehicle dealer as follows:

1. In an amount equivalent to the fair market value of the terminated franchise as of the date immediately preceding the manufacturer's or distributor's announcement or provide the new motor vehicle dealer with a replacement franchise on substantially similar terms and conditions as those offered to other same line-make dealers;

2. If the facilities are owned by the new motor vehicle dealer or a related entity as defined in 26 U.S.C.A., Section 267(b), or a member, partner, or shareholder of the dealership, and the owner has not sold the existing dealership facility and real estate within the later of one hundred eighty (180) days of listing the property for sale or ninety (90) days after the effective date of the termination, then, upon the written request of the dealer, the manufacturer or distributor shall purchase the dealer's existing dealership facility and real estate. The facility and real estate shall be valued as if a new motor vehicle dealership continues to operate on the property. If the factory and dealer cannot agree on the value of the terminated franchise or agree to a process to determine the value, then the factory and dealer shall utilize the process described in paragraph 6 of this subsection. If a manufacturer or distributor purchases a dealership facility and real estate, then it shall be entitled to sole ownership, possession, use, and control of any items, buildings, or property that were included in the contract to purchase;

3. If the facilities are leased by the new motor vehicle dealer from an entity other than a related entity as defined in 26 U.S.C.A., Section 267(b), or a member, partner or shareholder of the dealership, lease the dealership facilities at a reasonable rent for the remainder of the lease;

4. Any amount of pecuniary loss to the new motor vehicle dealership proximately caused by the discontinuation of a product line, including, but not limited to, the cost of terminating services such as the dealership management system contract;

5. The new motor vehicle dealer may immediately request payment under this section following the announcement in exchange for canceling any further franchise rights, except payments owed to the new motor vehicle dealer in the ordinary course of business, or may request payment under this section upon the final termination, cancellation, or nonrenewal of the franchise. In either case, payment under this section shall be made not later than ninety (90) days after the fair market value is determined, or the lease agreement is provided and other reasonable documentation is provided to the manufacturer or distributor sufficient to establish other pecuniary losses, whichever is later; and

6. If the factory and new motor vehicle dealer cannot agree on the value of the terminated franchise or real estate, or agree to a process to determine the value, then, within thirty (30) days of a written request by dealer, the factory shall select one appraiser, and the dealer shall select one appraiser who shall make an independent appraisal. The appraisers will be state-certified general real estate appraisers and be in good standing with the Oklahoma Real Estate Appraisal Board. Before entering upon their duties, such appraisers shall take and subscribe an oath, before a notary public or some other person authorized to administer oaths, that they will perform their duties faithfully and impartially to the best of their ability. If the appraisals are within ten percent (10%) of each other, the average of the two appraisals shall constitute the value. If the two appraisals differ by more than ten percent (10%), the two appraisers may appoint a third appraiser who shall review the two appraisals. The third appraisal, when taken with the first two appraisals and averaged among the three, shall establish the value. The cost of the third appraiser shall be shared equally by the factory and dealer. The appraisers shall make a valuation and determine the amount of compensation to be paid by the factory to the dealer. The factory will then have ninety (90) days to complete the transaction, unless otherwise agreed to by the parties. The factory and the dealer shall each be responsible for the appraiser it retains.

§47-565.2v2. Termination, cancellation or nonrenewal of new motor vehicle or new powersports vehicle dealer franchise.

A. Irrespective of the terms, provisions, or conditions of any franchise, or the terms or provisions of any waiver, no manufacturer shall terminate, cancel, or fail to renew any franchise with a licensed new motor vehicle dealer or new powersports vehicle dealer unless the manufacturer has satisfied the notice requirements as provided in this section and has good cause for cancellation, termination, or nonrenewal. The manufacturer shall not attempt to cancel or fail to renew the franchise agreement of a new motor vehicle dealer in this state unfairly and without just provocation or without due regard to the equities of the dealer or without good faith as defined herein. As used herein, "good faith" means the duty of each party to any franchise agreement to act in a fair and equitable manner toward each other, with freedom from coercion or intimidation or threats thereof from each other.

B. Irrespective of the terms, provisions, or conditions of any franchise, or the terms or provisions of any waiver, good cause shall exist for the purpose of a termination, cancellation, or nonrenewal when:

1. The new motor vehicle dealer or new powersports vehicle dealer has failed to comply with a provision of the franchise, which provision is both reasonable and of material significance to the franchise relationship, or the new motor vehicle dealer or new powersports vehicle dealer has failed to comply with reasonable performance criteria for sales or service established by the manufacturer, and the new motor vehicle dealer or new powersports vehicle dealer has been notified by written notice from the manufacturer; and

2. The new motor vehicle dealer or new powersports vehicle dealer has received written notification of failure to comply with the manufacturer's reasonable sales performance standards, capitalization requirements, facility commitments, business-related equipment acquisitions, or other such remediable failings exclusive of those reasons enumerated in paragraph 1 of subsection C of this section, and the new motor vehicle dealer or new powersports vehicle dealer has been afforded a reasonable opportunity of not less than six (6) months to comply with such a provision or criteria.

C. Irrespective of the terms, provisions, or conditions of any franchise agreement prior to the termination, cancellation, or nonrenewal of any franchise, the manufacturer shall furnish notification of such termination, cancellation, or nonrenewal to the new motor vehicle dealer or new powersports vehicle dealer and the Oklahoma New Motor Vehicle Commission as follows:

1. Not less than ninety (90) days prior to the effective date of the termination, cancellation, or nonrenewal unless for a cause described in paragraph 2 of this subsection;

2. Not less than fifteen (15) days prior to the effective date of the termination, cancellation, or nonrenewal with respect to any of the following:

- a. insolvency of the new motor vehicle dealer or new powersports vehicle dealer, or the filing of any petition by or against the new motor vehicle dealer or new powersports vehicle dealer under any bankruptcy or receivership law,
- b. failure of the new motor vehicle dealer or new powersports vehicle dealer to conduct its customary sales and service operations during its customary business hours for seven (7) consecutive business days, provided that such failure to conduct business shall not be due to an act of God or circumstances beyond the direct control of the new vehicle dealer, or
- c. conviction of the new vehicle dealer or new powersports vehicle dealer of any felony which is punishable by imprisonment or a violation of the Federal Odometer Act; and

3. Not less than one hundred eighty (180) days prior to the effective date of the termination or cancellation where the manufacturer or distributor is discontinuing the sale of the product line.

The notification required by this subsection shall be by certified mail, return receipt requested, and shall contain a statement of intent to terminate, to cancel, or to not renew the franchise, a statement of the reasons for the termination, cancellation, or nonrenewal and the date the termination shall take effect.

D. Upon the affected new motor vehicle or new powersports vehicle dealer's receipt of the aforementioned notice of termination, cancellation, or nonrenewal, the new motor vehicle dealer shall have the right to file a protest of such threatened termination, cancellation, or nonrenewal with the Commission within thirty (30) days and request a hearing. The hearing shall be held within one hundred eighty (180) days of the date of the timely protest by the dealer and in accordance with the provisions of the Administrative Procedures Act, Sections 250 through 323 of Title 75 of the Oklahoma Statutes, to determine if the threatened cancellation, termination, or nonrenewal of the franchise has been for good cause and if the factory has complied with its obligations pursuant to subsections A, B, and C of this section and the factory shall have the burden of proof. Either party may request an additional one-hundred-eighty-day extension of the hearing date from the Commission. Approval of the requested extension may not be unreasonably withheld or delayed. If the Commission finds that the

threatened cancellation, termination, or nonrenewal of the franchise has not been for good cause or violates subsection A, B, or C of this section, then it shall issue a final order stating that the threatened termination is wrongful. A factory shall have the right to appeal such order. During the pendency of the hearing and after the decision, the franchise shall remain in full force and effect, including the right to transfer the franchise. If the Commission finds that the threatened cancellation, termination, or nonrenewal is for good cause and does not violate subsection A, B, or C of this section, the new motor vehicle or new powersports vehicle dealer shall have the right to an appeal. During the pendency of the action, including the final decision or appeal, the franchise shall remain in full force and effect, including the right to transfer the franchise. If the dealer prevails in the threatened termination action, the Commission shall award to the dealer the attorney fees and costs incurred to defend the action.

E. If the factory prevails in an action to terminate, cancel, or not renew any franchise, the new motor vehicle or new powersports vehicle dealer shall be allowed fair and reasonable compensation by the manufacturer for:

1. New, current, and previous model year vehicle inventory which has been acquired from the manufacturer, and which is unused and has not been damaged or altered while in the dealer's possession;

2. Supplies and parts which have been acquired from the manufacturer, for the purpose of this section, limited to any and all supplies and parts that are listed on the current parts price sheet available to the dealer;

3. Equipment and furnishings, provided the dealer purchased them from the manufacturer or its approved sources; and

4. Special tools, with such fair and reasonable compensation to be paid by the manufacturer within ninety (90) days of the effective date of the termination, cancellation, or nonrenewal, provided the dealer has clear title to the inventory and other items and is in a position to convey that title to the manufacturer.

- a. For the purposes of paragraph 1 of this subsection, fair and reasonable compensation shall be no less than the net acquisition price of the vehicle paid by the dealer.

- b. For the purposes of paragraphs 2, 3, and 4 of this subsection, fair and reasonable compensation shall be the net acquisition price paid by the dealer less a twenty-percent (20%) straight-line depreciation for each year following the dealer's acquisition of the supplies, parts, equipment, furnishings, and/or special tools.

F. If a factory prevails in an action to terminate, cancel, or not renew any franchise and the new motor vehicle or new powersports vehicle dealer is leasing the dealership facilities, the manufacturer shall pay a reasonable rent to the lessor in accordance with and subject to the provisions of subsection G of this section. Nothing in this section shall be construed to relieve a new motor vehicle or new powersports vehicle dealer of its duty to mitigate damages.

G. 1. Such reasonable rental value shall be paid only to the extent the dealership premises are recognized in the franchise and only if they are:

- a. used solely for performance in accordance with the franchise. If the facility is used for the operation of more than one franchise, the reasonable rent shall be paid based upon the portion of the facility utilized by the franchise being terminated, canceled, or nonrenewed, and
- b. not substantially in excess of facilities recommended by the manufacturer.

2. If the facilities are owned by the new motor vehicle or new powersports vehicle dealer, within ninety (90) days following the effective date of the termination, cancellation, or nonrenewal, the manufacturer will either:

- a. locate a qualified purchaser who will offer to purchase the dealership facilities at a reasonable price,
- b. locate a qualified lessee who will offer to lease the premises for the remaining lease term at the rent set forth in the lease, or
- c. failing the foregoing, lease the dealership facilities at a reasonable rental value for the portion of the facility that is recognized in the franchise agreement for one (1) year.

3. If the facilities are leased by the new motor vehicle or new powersports vehicle dealer, within ninety (90) days following the effective date of the termination, cancellation, or nonrenewal the manufacturer will either:

- a. locate a tenant or tenants satisfactory to the lessor, who will sublet or assume the balance of the lease,
- b. arrange with the lessor for the cancellation of the lease without penalty to the dealer, or
- c. failing the foregoing, lease the dealership facilities at a reasonable rent for the portion of the facility that is recognized in the franchise agreement for one (1) year.

4. The manufacturer shall not be obligated to provide assistance under this section if the new motor vehicle or new powersports vehicle dealer:

- a. fails to accept a bona fide offer from a prospective purchaser, sublessee, or assignee,
- b. refuses to execute a settlement agreement with the lessor if such agreement with the lessor would be without cost to the dealer, or
- c. fails to make written request for assistance under this section within ninety (90) days after the effective date of the termination, cancellation, or nonrenewal.

5. The manufacturer shall be entitled to occupy and use any space for which it pays rent required by this section.

H. In addition to the repurchase requirements set forth in subsections E and G of this section, in the event the termination or cancellation is the result of a discontinuance of a product line, the manufacturer or distributor shall compensate the new motor vehicle or new powersports vehicle dealer in an amount equivalent to the fair market value of the terminated franchise as of the date immediately preceding the manufacturer's or distributor's announcement or provide the dealer with a replacement franchise on substantially similar terms and conditions as those offered to other same line-make dealers. The dealer may immediately request payment under this section following the announcement in exchange for canceling any further franchise rights, except payments owed to the new motor vehicle dealer in the ordinary course of business, or may request payment under this section upon the final termination, cancellation, or nonrenewal of the franchise. In either case, payment under this section shall be made not later than ninety (90) days after the fair market value is determined. If the factory and dealer cannot agree on the fair market value of the terminated franchise or agree to a process to determine the fair market value, then the factory and dealer shall utilize a neutral third-party mediator to resolve the disagreement.

§47-565.3. Notice to manufacturer or distributor of proposed sale, transfer, or assignment of franchise.

A. A franchised new motor vehicle or new powersports vehicle dealer proposing a sale, transfer, or assignment of a franchise agreement or the business and assets of a dealership or an interest in a dealership to another person, hereinafter transferee, shall notify the manufacturer or distributor whose vehicles the dealer is

franchised to sell of the proposed action of the dealer. The manufacturer or distributor may make written request to the proposed transferee to submit completed application forms and related information generally utilized by a manufacturer to evaluate such a proposal and a copy of all agreements related to the proposed sale, transfer, or assignment.

B. The approval by the manufacturer or distributor of the sale, transfer, or assignment shall not be unreasonably withheld unless the proposed transferee is not of good moral character or fails to meet the written, reasonable, and uniformly applied requirements of the manufacturer or distributor relating to prospective franchisees. Approval of the transfer shall not be made contingent upon the transferee meeting unreasonable facility requirements or performance standards different than those contained in the transferor's franchise agreement and related addendum and agreements, and any written notices provided to the existing dealer prior to the manufacturer's or distributor's receipt of any written notice from the existing dealer of the proposed transfer. However, to be valid, any proposed change to the franchise pursuant to written notice from the manufacturer or distributor shall be in compliance with existing law. The burden of proof shall be upon the manufacturer or distributor to show good cause existed to withhold approval. The manufacturer or distributor that has made such a determination shall send a letter by certified mail to the dealer and the applicant of its refusal to approve the proposal, which shall include a statement of the specific grounds for refusal, within sixty (60) days after the later of:

1. Receipt by the manufacturer or distributor of the notice of the proposed sale, transfer, or assignment; or

2. Receipt by the manufacturer or distributor of the information requested from the proposed transferee pursuant to subsection A of this section if the manufacturer or distributor has requested such information within fifteen (15) days of receipt of written notice of the proposed sale, transfer, or assignment.

C. Failure of the manufacturer or distributor to send its notice of refusal pursuant to subsection B of this section shall mean that the application for the proposed sale, transfer, or assignment is approved.

D. If the proposed sale, transfer, or assignment is to an existing owner's family member or other existing owner, the manufacturer or distributor's evaluation of the proposal is limited to the written, reasonable, and uniformly applied requirements of the manufacturer or distributor relating to good moral character and financial qualifications. Notwithstanding the foregoing, a change in dealer operator shall be addressed pursuant to the provisions of Section 565.1 of this title.

E. A dealership or dealership owner receiving notice of refusal of the sale, transfer, or assignment shall have the right to file a protest with the Oklahoma New Motor Vehicle Commission within thirty (30) days of receipt of the refusal. In the event a protest is filed, the manufacturer or distributor shall have the burden of proof to establish the proposed transferee or the proposed transferee's controlling executive management is not of good moral character or fails to meet the written reasonable and uniformly applied requirements of the manufacturer or distributor relating to prospective franchisees or that the facility requirements are not different than those contained in the transferor's franchise agreement.

F. Notwithstanding any other provision of this section, the dealer shall submit a signed copy of the dealer sales and service agreement resulting from any completed sale, transfer, or assignment of a franchise to the Oklahoma New Motor Vehicle Commission within fifteen (15) business days.

Added by Laws 1999, c. 132, § 1, emerg. eff. April 27, 1999.

Amended by Laws 2014, c. 402, § 4, eff. Nov. 1, 2014; Laws 2023, c. 29, § 11, eff. Nov. 1, 2023; Laws 2024, c. 240, § 10, eff. Nov. 1, 2024.

§47-565.4. Authority of new motor vehicle or new powersports vehicle dealers to offer remote software upgrades.

Any manufacturer or distributor who has new motor vehicle or new powersports vehicle sales and service agreements with new motor vehicle or new powersports vehicle dealers in this state shall allow its dealers to offer consumers any remote software upgrade or change to vehicle functions and features to a new motor vehicle or new powersports vehicle which is of a line-make the dealer holds an active sales and service contract for, as any offered to consumers by the manufacturer or distributor, and such upgrade or change shall be available for an authorized dealer to offer to consumers at any time during the life cycle of the vehicle, and subject to the manufacturer or distributor's requirements, provided the same continues to be made available and offered to consumers in this state by the manufacturer or distributor. This section does not apply to remote software upgrades or changes administered at no cost to the consumer or related solely to the safety, regulatory requirements, cybersecurity, recall of a motor vehicle or powersports vehicle, Oklahoma Statutes, or federal statutes. Nothing in this section shall be construed to limit or impair a manufacturer or distributor's intellectual property rights, or to grant a new vehicle dealer authority to sell, copy, modify, or use the manufacturer's or distributor's intellectual property in a manner that has not been authorized by the manufacturer or distributor. Nothing in this section shall obligate a manufacturer,

distributor, or other person to support or maintain any software or change to vehicle functions and features.

Added by Laws 2023, c. 29, § 2, eff. Nov. 1, 2023. Amended by Laws 2024, c. 240, § 11, eff. Nov. 1, 2024.

A. 1. On satisfactory proof of unfitness of the applicant in any application for any license under the provisions of Section 561 et seq. of this title;

7. Being a new motor vehicle dealer who:
- a. does not have an established place of business,
 - b. does not provide for a suitable repair shop separate from the display room with ample space to repair or recondition one or more vehicles at the same time, and which is staffed with properly trained and qualified repair technicians and is equipped with such parts, tools, and equipment as may be requisite for the servicing of motor vehicles in such a manner as to make them comply with the safety laws of this state and to properly fulfill the dealer's or manufacturer's warranty obligation,
 - c. does not hold a franchise in effect with a manufacturer or distributor of new or unused motor vehicles for the sale of the same and is not authorized by the manufacturer or distributor to render predelivery preparation of such vehicles sold to purchasers and to perform any authorized post-sale work pursuant to the manufacturer's or distributor's warranty,

8. Being a factory that has:
- a. either induced or attempted to induce by means of coercion or intimidation, any new motor vehicle dealer:

- (1) to accept delivery of any motor vehicle or vehicles, parts, or accessories therefor, or any other commodities including advertising material which shall not have been ordered by the new motor vehicle dealer,
 - (2) to order or accept delivery of any motor vehicle with special features, appliances, accessories, or equipment not included in the list price of the motor vehicles as publicly advertised by the manufacturer thereof, or

- c. used a performance standard, sales objective, or program for measuring dealer performance that may have a material effect on a right of the dealer to vehicle allocation; or payment under any incentive or reimbursement program that is unfair, unreasonable, inequitable, and not based on accurate information,

 - (2) does not consider the relevant and material local and state or regional criteria, prevailing

- economic conditions affecting the sales or service performance of a vehicle dealer, vehicle allocation from the manufacturer, and any relevant and material data and facts presented by the dealer in writing within thirty (30) days of the written notice of the manufacturer to the dealer of its intention to cancel, terminate, or not renew the dealer's franchise agreement,

 - g. failed to make available to its new motor vehicle dealers a fair and proportional share of all new vehicles distributed to same line-make dealers in this state, subject to the same reasonable terms, including any vehicles distributed from a common new vehicle inventory pool outside of the factory's ordinary allocation process such as any vehicles the factory reserves to distribute on a discretionary basis;
9. Being a factory that:

 - b. has failed to compensate its dealers for the work and services they are required to perform in connection with the dealer's delivery and preparation obligations according to the agreements on file with the

Commission which must be found by the Commission to be reasonable, or has failed to adequately and fairly compensate its dealers for labor, parts, and other expenses incurred by the dealer to perform under and comply with manufacturer's warranty agreements and recall repairs which shall include diagnostic work as applicable and assistance requested by a consumer whose vehicle was subjected to an over-the-air or remote change, repair, or update to any part, system, accessory, or function by the manufacturer and performed by the dealer in order to satisfy the consumer. Time allowances for the diagnosis and performance of repair work shall be reasonable and adequate for the work to be performed. Adequate and fair compensation, which under this provision shall be no less than the rates customarily charged for retail consumer repairs as calculated herein, for parts and labor for warranty and recall repairs shall, at the option of the new motor vehicle dealer, be established by the new motor vehicle dealer submitting to the manufacturer or distributor one hundred sequential nonwarranty consumer-paid service repair orders which contain warranty-like repairs, or ninety (90) consecutive days of nonwarranty consumer-paid service repair orders which contain warranty-like repairs, whichever is less, covering repairs made no more than one hundred eighty (180) days before the submission and declaring the average percentage labor rate and/or markup rate. A new motor vehicle dealer may not submit a request to establish its retail rates more than once in a twelve-month period. That request may establish a parts markup rate, labor rate, or both. The new motor vehicle dealer shall calculate its retail parts rate by determining the total charges for parts from the qualified repair orders submitted, dividing that amount by the new motor vehicle dealer's total cost of the purchase of those parts, subtracting one (1), and multiplying by one hundred (100) to produce a percentage. The new motor vehicle dealer shall calculate its retail labor rate by dividing the amount of the new motor vehicle dealer's total labor sales from the qualified repair orders by the total labor hours charged for those sales. When submitting repair orders to establish a retail parts and labor rate, a new motor vehicle dealer need not include repairs for:

- (1) routine maintenance including but not limited to the replacement of bulbs, fluids, filters, batteries, and belts that are not provided in the course of and related to a repair,
- (2) factory special events, specials, or promotional discounts for retail consumer repairs,
- (3) parts sold or repairs performed at wholesale,
- (4) factory-approved goodwill or policy repairs or replacements,
- (5) repairs with aftermarket parts, when calculating the retail parts rate but not the retail labor rate,
- (6) repairs on aftermarket parts,
- (7) replacement of or work on tires including front-end alignments and wheel or tire rotations,
- (8) repairs of motor vehicles owned by the new motor vehicle dealer or employee thereof at the time of the repair,
- (9) vehicle reconditioning, or
- (10) items that do not have individual part numbers including, but not limited to, nuts, bolts, and fasteners.

A manufacturer or distributor may, not later than forty-five (45) days after submission, rebut that declared retail parts and labor rate in writing by reasonably substantiating that the rate is not accurate or is incomplete pursuant to the provisions of this section. If the manufacturer or distributor determines the set of repair orders submitted by the new motor vehicle dealer pursuant to this section for a retail labor rate or retail parts markup rate is substantially higher than the new motor vehicle dealer's current warranty rates, the manufacturer or distributor may request, in writing, within forty-five (45) days after the manufacturer's or distributor's receipt of the new motor vehicle dealer's initial submission, all repair orders closed within the period of thirty (30) days immediately preceding, or thirty (30) days immediately following, the set of repair orders initially submitted by the new motor vehicle dealer. All time periods under this section shall be suspended until the supplemental repair orders are provided. If the manufacturer or distributor requests supplemental repair orders, the manufacturer or distributor may, within thirty (30) days after receiving the supplemental repair orders and in accordance with the formula described in this

subsection, calculate a proposed adjusted retail labor rate or retail parts markup rate, as applicable, based upon any set of the qualified repair orders submitted by the franchisee and following the formula set forth herein to establish the rate. The retail labor and parts rates shall go into effect thirty (30) days following the approval by the manufacturer or distributor. If the declared rate is rebutted, the manufacturer or distributor shall provide written notice stating the reasons for the rebuttal, an explanation of the reasons for the rebuttal, and a copy of all calculations used by the franchisor in determining the manufacturer or distributor's position and propose an adjustment in writing of the average percentage markup or labor rate based on that rebuttal not later than forty-five (45) days after submission. If the new motor vehicle dealer does not agree with the proposed average percentage markup or labor rate, the new motor vehicle dealer may file a protest with the Commission not later than thirty (30) days after receipt of that proposal by the manufacturer or distributor. In the event a protest is filed, the manufacturer or distributor shall have the burden of proof to establish the new motor vehicle dealer's submitted parts markup rate or labor rate was inaccurate or not complete pursuant to the provisions of this section. A manufacturer or distributor may not retaliate against any new motor vehicle dealer seeking to exercise its rights under this section. A manufacturer or distributor may require a dealer to submit repair orders in accordance with this section in order to validate the reasonableness of a dealer's retail rate for parts or labor not more often than once every twelve (12) months. A manufacturer or distributor may not otherwise recover its costs from new motor vehicle dealers within this state including a surcharge imposed on a new motor vehicle dealer solely intended to recover the cost of reimbursing a new motor vehicle dealer for parts and labor pursuant to this section; provided, a manufacturer or distributor shall not be prohibited from increasing prices for vehicles or parts in the normal course of business or from auditing and charging back claims in accordance with this section. All claims made by dealers for compensation for delivery, preparation, warranty, or recall repair work shall be paid within thirty (30) days after approval and shall be approved

or disapproved within thirty (30) days after receipt. When any claim is disapproved, the dealer shall be notified in writing of the grounds for disapproval. The dealer's delivery, preparation, and warranty obligations as filed with the Commission shall constitute the dealer's sole responsibility for product liability as between the dealer and manufacturer. A factory may reasonably and periodically audit a new motor vehicle dealer to determine the validity of paid claims for new motor vehicle dealer compensation or any charge-backs for warranty parts or service compensation. Except in cases of suspected fraud, audits of warranty payments shall only be for the one-year period immediately following the date of the payment. A manufacturer shall reserve the right to reasonable, periodic audits to determine the validity of paid claims for dealer compensation or any charge-backs for consumer or dealer incentives. Except in cases of suspected fraud, audits of incentive payments shall only be for a one-year period immediately following the date of the payment. A factory shall not deny a claim or charge a new motor vehicle dealer back subsequent to the payment of the claim unless the factory can show that the claim was false or fraudulent or that the new motor vehicle dealer failed to reasonably substantiate the claim by the written reasonable procedures of the factory. A factory shall not deny a claim or implement a charge-back against a new motor vehicle dealer after payment of a claim in the event a purchaser of a new vehicle that is the subject of a claim fails to comply with titling or registration laws of this state and is not prevented from compliance by any action of the new motor vehicle dealer; provided, that the factory may require the new motor vehicle dealer to provide, within thirty (30) days of notice of charge-back, withholding of payment, or denial of claim, the documentation to demonstrate the vehicle sale, delivery, and customer qualification for an incentive as reported, including consumer name and address and written attestation signed by the dealer operator or general manager stating the consumer was not on the export control list and the dealer did not know or have reason to know the vehicle was being exported or resold. The factory shall provide written notice to a dealer of a proposed charge-back that is the result of an

audit along with the specific audit results and proposed charge-back amount. A dealer that receives notice of a proposed charge-back pursuant to a factory's audit has the right to file a protest with the Commission within thirty (30) days after receipt of the notice of the charge-back or audit results, whichever is later. The factory is prohibited from implementing the charge-back or debiting the dealer's account until either the time frame for filing a protest has passed or a final adjudication is rendered by the Commission, whichever is later, unless the dealer has agreed to the charge-back or charge-backs, fails to compensate the new motor vehicle dealer for a used motor vehicle:

c.

- (1) that is of the same make and model manufactured, imported, or distributed by the factory and is a line-make that the new motor vehicle dealer is franchised to sell or on which the new motor vehicle dealer is authorized to perform recall repairs,
- (2) that is subject to a stop-sale or do-not-drive order issued by the factory or an authorized governmental agency,
- (3) that is held by the new motor vehicle dealer in the dealer's inventory at the time the stop-sale or do-not-drive order is issued or that is taken by the new motor vehicle dealer into the dealer's inventory after the recall notice as a result of a retail consumer trade-in or a lease return to the dealer inventory in accordance with an applicable lease contract,
- (4) that cannot be repaired due to the unavailability, within thirty (30) days after issuance of the stop-sale or do-not-drive order, of a remedy or parts necessary for the new motor vehicle dealer to make the recall repair, and
- (5) that is not at least in the prorated amount of one percent (1.00%) of the value of the vehicle per month beginning on the date that is thirty (30) days after the date on which the stop-sale order was provided to the new motor vehicle dealer until the earlier of either of the following:
 - (a) the date the recall remedy or parts are made available, or

- (b) the date the new motor vehicle dealer sells, trades, or otherwise disposes of the affected used motor vehicle.

For the purposes of division (5) of this subparagraph, the value of a used vehicle shall be the average Black Book value for the year, make, and model of the recalled vehicle. A factory may direct the manner and method in which a new motor vehicle dealer must demonstrate the inventory status of an affected used motor vehicle to determine eligibility under this subparagraph; provided, that the manner and method may not be unduly burdensome and may not require information that is unduly burdensome to provide. All reimbursement claims made by new motor vehicle dealers pursuant to this section for recall remedies or repairs, or for compensation where no part or repair is reasonably available and the vehicle is subject to a stop-sale or do-not-drive order, shall be subject to the same limitations and requirements as a warranty reimbursement claim made under subparagraph b of this paragraph. In the alternative, a manufacturer may compensate its franchised new motor vehicle dealers under a national recall compensation program; provided, the compensation under the program is equal to or greater than that provided under division (5) of this subparagraph, or as the manufacturer and new motor vehicle dealer otherwise agree. Nothing in this section shall require a factory to provide total compensation to a new motor vehicle dealer which would exceed the total average Black Book value of the affected used motor vehicle as originally determined under division (5) of this subparagraph. Any remedy provided to a new motor vehicle dealer under this subparagraph is exclusive and may not be combined with any other state or federal compensation remedy,

- d. unreasonably fails or refuses to offer to its same line-make franchised dealers a reasonable supply and mix of all models manufactured for that line-make, or unreasonably requires a dealer to pay any extra fee, purchase unreasonable advertising displays or other materials, or enter into a separate agreement which adversely alters the rights or obligations contained within the new motor vehicle dealer's existing franchise agreement or which waives any right of the new motor vehicle dealer as protected by Section 561 et seq. of this title, or remodel, renovate, or recondition the new motor vehicle dealer's existing

facilities as a prerequisite to receiving a model or series of vehicles, except as may be necessary to sell or service the model or series of vehicles as provided by subparagraph e of this paragraph. It shall be a violation of this section for new vehicle allocation to be withheld subject to any requirement to purchase or sell any number of used or off-lease vehicles. The failure to deliver any such new motor vehicle shall not be considered a violation of the section if the failure is not arbitrary or is due to lack of manufacturing capacity or to a strike or labor difficulty, a shortage of materials, a freight embargo, or other cause over which the manufacturer has no control. However, this subparagraph shall not apply to recreational vehicles, limited production model vehicles, a vehicle not advertised by the factory for sale in this state, vehicles that are subject to allocation affected by federal environmental laws or environmental laws of this state, or vehicles allocated in response to an unforeseen event or circumstance,

- e. except as necessary to comply with a health or safety law, or to comply with a technology requirement which is necessary to sell or service a motor vehicle that the franchised new motor vehicle dealer is authorized or licensed by the franchisor to sell or service, requires a new motor vehicle dealer to construct a new facility or substantially renovate the new motor vehicle dealer's existing facility unless the facility construction or renovation is justified by the economic conditions existing at the time, as well as the reasonably foreseeable projections, in the new motor vehicle dealer's market and in the automotive industry. However, this subparagraph shall not apply if the new motor vehicle dealer voluntarily agrees to facility construction or renovation in exchange for money, credit, allowance, reimbursement, or additional vehicle allocation to a new motor vehicle dealer from the factory to compensate the new motor vehicle dealer for the cost of, or a portion of the cost of, the facility construction or renovation. Except as necessary to comply with a health or safety law, or to comply with a technology or safety requirement which is necessary to sell or service a motor vehicle that the franchised new motor vehicle dealer is authorized or licensed by the franchisor to sell or service, a new motor vehicle dealer which completes a facility

construction or renovation pursuant to factory requirements shall not be required to construct a new facility or renovate the existing facility if the same area of the facility or premises has been constructed or substantially altered within the last ten (10) years and the construction or alteration was approved by the manufacturer as a part of a facility upgrade program, standard, or policy. For purposes of this subparagraph, "substantially altered" means to perform an alteration that substantially impacts the architectural features, characteristics, or integrity of a structure or lot. The term shall not include routine maintenance reasonably necessary to maintain a dealership in attractive condition. If a facility upgrade program, standard, or policy under which the dealer completed a facility construction or substantial alteration does not contain a specific time period during which the manufacturer or distributor shall provide payments or benefits to a participating dealer, or the time frame specified under the program is reduced or canceled prematurely in the unilateral discretion of the manufacturer or distributor, the manufacturer or distributor shall not deny the participating dealer any payment or benefit under the terms of the program, standard, or policy as it existed when the dealer began to perform under the program, standard, or policy for the balance of the ten-year period, regardless of whether the manufacturer's or distributor's program, standard, or policy has been changed or canceled, unless the manufacturer and dealer agree, in writing, to the change in payment or benefit. During the ten-year period following facility construction or substantial alteration, the manufacturer shall not fail to make available to the dealer a fair and proportionate share of all new vehicles distributed to dealers of the same line-make in this state, subject to the same reasonable terms, including vehicles distributed from a common new vehicle inventory pool outside of the factory's ordinary allocation process, such as any vehicles the factory reserves to distribute on a discretionary basis,

- f. requires a new motor vehicle dealer to establish an exclusive facility or to change the location of the dealership, unless supported by reasonable business, market, and economic considerations; provided, that this section shall not restrict the terms of any

agreement for such exclusive facility voluntarily entered into and supported by valuable consideration separate from the new motor vehicle dealer's right to sell and service motor vehicles for the franchisor. If a dealer is required by the manufacturer or distributor to change an existing, previously approved location of the dealership and has not sold its existing dealership facility and real estate within the later of one hundred eighty (180) days of listing the property for sale or ninety (90) days after the facility relocation, then, upon the written request of the dealer, the manufacturer or distributor shall purchase the dealer's existing dealership facility and real estate as if the new motor vehicle dealership continues to operate on the property. If the factory and dealer cannot agree on the value of the dealership facilities and real estate, then the factory and dealer shall utilize the process described in paragraph 6 of subsection G of Section 565.2 of this title. If a manufacturer or distributor purchases a dealership facility and real estate, then it shall be entitled to sole ownership, possession, use, and control of any items, buildings, or property that were included in the contract to purchase,

- g. requires a new motor vehicle dealer to enter into a site-control agreement covering any or all of the new motor vehicle dealer's facilities or premises; provided, that this section shall not restrict the terms of any site-control agreement voluntarily entered into and supported by valuable consideration separate from the new motor vehicle dealer's right to sell and service motor vehicles for the franchisor. Notwithstanding the foregoing or the terms of any site-control agreement, a site-control agreement automatically extinguishes if all of the factory's franchises that operated from the location that are the subject of the site-control agreement are terminated by the factory as part of the discontinuance of a product line,
- h. refuses to pay, or claims reimbursement from, a new motor vehicle dealer for sales, incentives, or other payments related to a motor vehicle sold by the new motor vehicle dealer because the purchaser of the motor vehicle exported or resold the motor vehicle in violation of the policy of the factory unless the factory can show that, at the time of the sale, the new motor vehicle dealer knew or reasonably should

have known of the purchaser's intention to export or resell the motor vehicle. There is a rebuttable presumption that the new motor vehicle dealer did not know or could not have known that the vehicle would be exported if the vehicle is titled and registered in any state of the United States, or

- i. requires a new motor vehicle dealer to purchase goods or services for the construction, renovation, or improvement of the new motor vehicle dealer's facility from a vendor chosen by the factory if goods or services available from other sources are of substantially similar quality and design and comply with all applicable laws; provided, however, that such goods are not subject to the factory's intellectual property or trademark rights and the new motor vehicle dealer has received the factory's approval, which approval may not be unreasonably withheld. Nothing in this subparagraph may be construed to allow a new motor vehicle dealer to impair or eliminate a factory's intellectual property, trademark rights, or trade dress usage guidelines. Nothing in this section prohibits the enforcement of a voluntary agreement between the factory and the new motor vehicle dealer where separate and valuable consideration has been offered and accepted;
10. Being a factory that:
 - a. establishes a system of motor vehicle allocation or distribution which is unfair, inequitable, or unreasonably discriminatory. A manufacturer and distributor shall maintain for three (3) years records that describe its methods or formula of allocation and distribution of its motor vehicles and records of its actual allocation and distribution of motor vehicles to its motor vehicle dealers. Upon the written request of any new motor vehicle dealer franchised by the manufacturer or distributor, received by the manufacturer or distributor within thirty (30) days of the manufacturer's or distributor's written notice to the dealer of its intention to cancel or terminate, or written notice from the manufacturer or distributor of a sales performance deficiency requiring the dealer to take action to cure the alleged performance deficiency, a manufacturer or distributor shall disclose in writing to the new motor vehicle dealer the basis upon which new motor vehicles are allocated, scheduled, and delivered, by vehicle model, to new motor vehicle dealers of the same line-make for that

manufacturer or distributor for the prior three (3) years, and the basis upon which the current allocation or distribution is being made or will be made based on existing information to such dealer, or

- b. changes an established plan or system of motor vehicle distribution. A new motor vehicle dealer franchise agreement shall continue in full force and operation notwithstanding a change, in whole or in part, of an established plan or system of distribution of the motor vehicles offered or previously offered for sale under the franchise agreement. The appointment of a new importer or distributor for motor vehicles offered for sale under the franchise agreement shall be deemed to be a change of an established plan or system of distribution. The discontinuation of a line-make shall not be deemed to be a change of an established plan or system of motor vehicle distribution. The creation of a line-make shall not be deemed to be a change of an established plan or system of motor vehicle distribution as long as the new line-make is not selling the same, or substantially the same vehicle or vehicles previously sold through another line-make by new motor vehicle dealers with an active franchise agreement for the other line-make in the state if such new motor vehicle dealers are no longer authorized to sell the comparable vehicle previously sold through their line-make. Changing a vehicle's powertrain is not sufficient to show it is substantially different. Upon the occurrence of such change, the manufacturer or distributor shall be prohibited from obtaining a license to distribute vehicles under the new plan or system of distribution unless the manufacturer or distributor offers to each new motor vehicle dealer who is a party to the franchise agreement a new franchise agreement containing substantially the same provisions which were contained in the previous franchise agreement;

11. Being a factory that sells directly or indirectly new motor vehicles to any retail consumer in the state except through a new motor vehicle dealer holding a franchise for the line-make that includes the new motor vehicle. This paragraph does not apply to factory sales of new motor vehicles to its employees, family members of employees, retirees and family members of retirees, not-for-profit organizations, or the federal, state, or local governments. The provisions of this paragraph shall not preclude a factory from providing information to a consumer for the purpose of marketing or facilitating a sale of a new motor vehicle or from establishing a

program to sell or offer to sell new motor vehicles through participating dealers subject to the limitations provided in paragraph 2 of Section 562 of this title;

12. a. Being a factory which directly or indirectly:

- (1) owns any ownership interest or has any financial interest in a new motor vehicle dealer or any person who sells products or services pursuant to the terms of the franchise agreement,
- (2) operates or controls a new motor vehicle dealer, or
- (3) acts in the capacity of a new motor vehicle dealer.

- b. (1) This paragraph does not prohibit a factory from owning or controlling a new motor vehicle dealer while in a bona fide relationship with a dealer development candidate who has made a substantial initial investment in the franchise and whose initial investment is subject to potential loss. The dealer development candidate can reasonably expect to acquire full ownership of a new motor vehicle dealer within a reasonable period of time not to exceed ten (10) years and on reasonable terms and conditions. The ten-year acquisition period may be expanded for good cause shown.
- (2) This paragraph does not prohibit a factory from owning, operating, controlling, or acting in the capacity of a new motor vehicle dealer for a period not to exceed twelve (12) months during the transition from one independent dealer to another independent dealer if the dealership is for sale at a reasonable price and on reasonable terms and conditions to an independent qualified buyer. On showing by a factory of good cause, the Oklahoma New Motor Vehicle Commission may extend the time limit set forth above; extensions may be granted for periods not to exceed twelve (12) months.
- (3) This paragraph does not prohibit a factory from owning, operating, or controlling or acting in the capacity of a new motor vehicle dealer which was in operation prior to January 1, 2000.
- (4) This paragraph does not prohibit a factory from owning, directly or indirectly, a minority interest in an entity that owns, operates, or controls motor vehicle dealerships of the same line-make franchised by the manufacturer,

provided that each of the following conditions are met:

- (a) all of the new motor vehicle dealerships selling the motor vehicles of that manufacturer in this state trade exclusively in the line-make of that manufacturer,
- (b) all of the franchise agreements of the manufacturer confer rights on the dealer of the line-make to develop and operate, within a defined geographic territory or area, as many dealership facilities as the dealer and manufacturer shall agree are appropriate,
- (c) at the time the manufacturer first acquires an ownership interest or assumes operation, the distance between any dealership thus owned or operated and the nearest unaffiliated new motor vehicle dealership trading in the same line-make is not less than seventy (70) miles,
- (d) during any period in which the manufacturer has such an ownership interest, the manufacturer has no more than three franchise agreements with new motor vehicle dealers licensed by the Oklahoma New Motor Vehicle Commission to do business within the state, and
- (e) prior to January 1, 2000, the factory shall have furnished or made available to prospective new motor vehicle dealers an offering circular in accordance with the Trade Regulation Rule on Franchising of the Federal Trade Commission, and any guidelines and exemptions issued thereunder, which disclose the possibility that the factory may from time to time seek to own or acquire, directly or indirectly, ownership interests in retail dealerships;

13. Being a factory which directly or indirectly makes available for public disclosure any proprietary information provided to the factory by a new motor vehicle dealer, other than in composite form to new motor vehicle dealers in the same line-make or in response to a subpoena or order of the Commission or a court. Proprietary information includes, but is not limited to, information:

- a. derived from monthly financial statements provided to the factory, and

- b. regarding any aspect of the profitability of a particular new motor vehicle dealer;

14. Being a factory which does not provide or direct leads in a fair, equitable, and timely manner. Nothing in this paragraph shall be construed to require a factory to disregard the preference of a consumer in providing or directing a lead;

15. Being a factory which used the consumer list of a new motor vehicle dealer for the purpose of unfairly competing with dealers;

16. Being a factory which prohibits a new motor vehicle dealer from relocating after a written request by such new motor vehicle dealer if:

- a. the facility and the proposed new location satisfies or meets the written reasonable guidelines of the factory. Reasonable guidelines do not include exclusivity or site control unless agreed to as set forth in subparagraphs f and g of paragraph 9 of this subsection,
- b. the proposed new location is within the area of responsibility of the new motor vehicle dealer pursuant to Section 578.1 of this title, and
- c. the factory has sixty (60) days from receipt of the new motor vehicle dealer's relocation request to approve or deny the request. The failure to approve or deny the request within the sixty-day time frame shall constitute approval of the request;

17. Being a factory which prohibits a new motor vehicle dealer from adding additional line-makes to its existing facility, if, after adding the additional line-makes, the facility satisfies the written reasonable capitalization standards and facility guidelines of each factory. Reasonable facility guidelines do not include a requirement to maintain exclusivity or site control unless agreed to by the dealer as set forth in subparagraphs f and g of paragraph 9 of this subsection;

18. Being a factory that increases prices of new motor vehicles which the new motor vehicle dealer had ordered for retail consumers and notified the factory prior to the new motor vehicle dealer's receipt of the written official price increase notification. A sales contract signed by a retail consumer accompanied with proof of order submission to the factory shall constitute evidence of each such order, provided that the vehicle is in fact delivered to the consumer. Price differences applicable to new models or series motor vehicles at the time of the introduction of new models or series shall not be considered a price increase for purposes of this paragraph. Price changes caused by any of the following shall not be subject to the provisions of this paragraph:

- a. the addition to a motor vehicle of required or optional equipment pursuant to state or federal law,

- b. revaluation of the United States dollar in the case of foreign-made vehicles or components, or
- c. an increase in transportation charges due to increased rates imposed by common or contract carriers;

19. Being a factory that requires a new motor vehicle dealer to participate monetarily in an advertising campaign or contest, or purchase any promotional materials, showroom, or other display decoration or materials at the expense of the new motor vehicle dealer without consent of the new motor vehicle dealer, which consent shall not be unreasonably withheld;

20. Being a factory that denies any new motor vehicle dealer the right of free association with any other new motor vehicle dealer for any lawful purpose, unless otherwise permitted by this chapter; or

21. Being a factory that requires a new motor vehicle dealer to sell, offer to sell, or sell exclusively an extended service contract, extended maintenance plan, or similar product, such as gap products offered, endorsed, or sponsored by the factory by the following means:

- a. by an act or statement from the factory that will in any manner adversely impact the new motor vehicle dealer, or
- b. by measuring the new motor vehicle dealer's performance under the franchise based on the sale of extended service contracts, extended maintenance plans, or similar products offered, endorsed, or sponsored by the manufacturer or distributor.

B. Notwithstanding the terms of any franchise agreement, in the event of a proposed sale or transfer of a dealership, the manufacturer or distributor shall be permitted to exercise a right of first refusal to acquire the assets or ownership interest of the dealer of the new motor vehicle dealership, if such sale or transfer is conditioned upon the manufacturer or dealer entering into a dealer agreement with the proposed new owner or transferee, only if all the following requirements are met:

1. To exercise its right of first refusal, the factory must notify the new motor vehicle dealer in writing within sixty (60) days of receipt of the completed proposal for the proposed sale transfer;

2. The exercise of the right of first refusal will result in the new motor vehicle dealer and the owner of the dealership receiving the same or greater consideration as they have contracted to receive in connection with the proposed change of ownership or transfer;

3. The proposed sale or transfer of the dealership does not involve the transfer or sale to a member or members of the family of

one or more dealer owners, or to a qualified manager or a partnership or corporation controlled by such persons; and

4. The factory agrees to pay the reasonable expenses, including attorney fees which do not exceed the usual, customary, and reasonable fees charged for similar work done for other clients incurred by the proposed new owner and transferee prior to the exercise by the factory of its right of first refusal in negotiating and implementing the contract for the proposed sale or transfer of the dealership or dealership assets. Notwithstanding the foregoing, no payment of expenses and attorney fees shall be required if the proposed new dealer or transferee has not submitted or caused to be submitted an accounting of those expenses within thirty (30) days of receipt of the written request of the factory for such an accounting. The accounting may be requested by a factory before exercising its right of first refusal.

C. Nothing in this section shall prohibit, limit, restrict, or impose conditions on:

1. Business activities, including without limitation the dealings with motor vehicle manufacturers and the representatives and affiliates of motor vehicle manufacturers, of any person that is primarily engaged in the business of short-term, not to exceed twelve (12) months, rental of motor vehicles and industrial and construction equipment and activities incidental to that business, provided that:

- a. any motor vehicle sold by that person is limited to used motor vehicles that have been previously used exclusively and regularly by that person in the conduct of business and used motor vehicles traded in on motor vehicles sold by that person,
- b. warranty repairs performed by that person on motor vehicles are limited to those motor vehicles that the person owns, previously owned, or takes in trade, and
- c. motor vehicle financing provided by that person to retail consumers for motor vehicles is limited to used vehicles sold by that person in the conduct of business; or

2. The direct or indirect ownership, affiliation, or control of a person described in paragraph 1 of this subsection.

D. As used in this section:

1. "Substantially relates" means the nature of criminal conduct for which the person was convicted has a direct bearing on the fitness or ability to perform one or more of the duties or responsibilities necessarily related to the occupation; and

2. "Poses a reasonable threat" means the nature of criminal conduct for which the person was convicted involved an act or threat of harm against another and has a bearing on the fitness or ability to serve the public or work with others in the occupation.

E. Nothing in this section shall prohibit a manufacturer or distributor from requiring a dealer to be in compliance with the franchise agreement and authorized to sell a make and model based on applicable reasonable standards and requirements that include but are not limited to any facility, technology, or training requirements necessary to sell or service a vehicle, in order to be eligible for delivery or allotment of a make or model of a new motor vehicle or an incentive.

§47-565v2. Denial, revocation or suspension of license - Right of first refusal.

A. The Oklahoma New Motor Vehicle Commission may deny an application for a license, revoke or suspend a license, or impose a fine against any person or entity, not to exceed Ten Thousand Dollars (\$10,000.00) per occurrence, that violates any provision of Sections 561 through 567, 572, 578.1, 579, and 579.1 of this title or for any of the following reasons:

1. On satisfactory proof of unfitness of the applicant in any application for any license under the provisions of Section 561 et seq. of this title;

2. For any material misstatement made by an applicant in any application for any license under the provisions of Section 561 et seq. of this title;

3. For any failure to comply with any provision of Section 561 et seq. of this title or any rule promulgated by the Commission under authority vested in it by Section 561 et seq. of this title;

4. A change of condition after license is granted resulting in failure to maintain the qualifications for license;

5. Being a new motor vehicle dealer or new powersports vehicle dealer who:

- a. has required a purchaser of a new motor vehicle or new powersports vehicle, as a condition of sale and delivery thereof, to also purchase special features,

appliances, accessories, or equipment not desired or requested by the purchaser and installed by the new motor vehicle dealer or new powersports vehicle dealer,

- b. uses any false or misleading advertising in connection with business as a new motor vehicle dealer or new powersports vehicle dealer,
- c. has committed any unlawful act which resulted in the revocation of any similar license in another state,
- d. has failed or refused to perform any written agreement with any retail buyer involving the sale of a motor vehicle or powersports vehicle,
- e. has been convicted of a felony crime that substantially relates to the occupation of a new motor vehicle dealer or new powersports vehicle dealer and poses a reasonable threat to public safety,
- f. has committed a fraudulent act in selling, purchasing, or otherwise dealing in new motor vehicles or new powersports vehicles or has misrepresented the terms and conditions of a sale, purchase or contract for sale or purchase of a new motor vehicle or new powersports vehicle or any interest therein including an option to purchase such vehicle,
- g. has failed to meet or maintain the conditions and requirements necessary to qualify for the issuance of a license, or
- h. completes any sale or transaction of an extended service contract, extended maintenance plan, or similar product using contract forms that do not conspicuously disclose the identity of the service contract provider;

6. Being a new motor vehicle salesperson who is not employed as such by a licensed new motor vehicle dealer;

7. Being a new motor vehicle dealer or new powersports vehicle dealer who:

- a. does not have an established place of business,
- b. does not provide for a suitable repair shop separate from the display room with ample space to repair or recondition one or more vehicles at the same time, and which is staffed with properly trained and qualified repair technicians and is equipped with such parts, tools, and equipment as may be requisite for the servicing of motor vehicles in such a manner as to make them comply with the safety laws of this state and to properly fulfill the dealer's or manufacturer's warranty obligation,

- c. does not hold a franchise in effect with a manufacturer or distributor of new or unused vehicles for the sale of the same and is not authorized by the manufacturer or distributor to render predelivery preparation of such vehicles sold to purchasers and to perform any authorized post-sale work pursuant to the manufacturer's or distributor's warranty,
 - d. employs or utilizes the services of used motor vehicle lots or dealers or other unlicensed persons or unregistered persons in connection with the sale of new vehicles,
 - e. does not properly service a new motor vehicle or new powersports vehicle before delivery of same to the original purchaser thereof, or
 - f. fails to order and stock a reasonable number of new motor vehicles necessary to meet consumer demand for each of the new motor vehicles included in the new motor vehicle dealer's franchise agreement, unless the new motor vehicles are not readily available from the manufacturer or distributor due to limited production;
8. Being a factory that has:
- a. either induced or attempted to induce by means of coercion or intimidation, any new motor vehicle dealer or powersports vehicle dealer:
 - (1) to accept delivery of any vehicle or vehicles, parts, or accessories therefor, or any other commodities including advertising material which shall not have been ordered by the new motor vehicle dealer,
 - (2) to order or accept delivery of any motor vehicle or powersports vehicle with special features, appliances, accessories, or equipment not included in the list price of the vehicles as publicly advertised by the manufacturer thereof, or
 - (3) to order or accept delivery of any parts, accessories, equipment, machinery, tools, appliances, or any commodity whatsoever,
 - b. induced under threat or discrimination by the withholding from delivery to a new motor vehicle dealer or new powersports vehicle dealer certain models of motor vehicles, changing or amending unilaterally the new motor vehicle dealer's allotment of motor vehicles, and/or withholding and delaying delivery of the vehicles out of the ordinary course of business, in order to induce by such coercion any new motor vehicle dealer or new powersports vehicle dealer

- to participate or contribute to any local or national advertising fund controlled directly or indirectly by the factory or for any other purposes such as contest, "giveaways", or other so-called sales promotional devices, and/or change of quotas in any sales contest; or has required new motor vehicle dealers, as a condition to receiving their vehicle allotment, to order a certain percentage of the vehicles with optional equipment not specified by the dealer; however, nothing in this section shall prohibit a factory from supporting an advertising association which is open to all new motor vehicle dealers or new powersports vehicle dealers on the same basis,
- c. used a performance standard, sales objective, or program for measuring dealer performance that may have a material effect on a right of the dealer to vehicle allocation; or payment under any incentive or reimbursement program that is unfair, unreasonable, inequitable, and not based on accurate information,
 - d. used a performance standard for measuring sales or service performance of any new motor vehicle dealer or new powersports vehicle dealer under the terms of the franchise agreement which:
 - (1) is unfair, unreasonable, arbitrary, or inequitable, and
 - (2) does not consider the relevant and material local and state or regional criteria, including prevailing economic conditions affecting the sales or service performance of a vehicle dealer or any relevant and material data and facts presented by the dealer in writing within thirty (30) days of the written notice of the manufacturer to the dealer of its intention to cancel, terminate, or not renew the dealer's franchise agreement,
 - e. failed or refused to sell, or offer for sale, new motor vehicles to all of its authorized same line-make franchised new motor vehicle dealers or new powersports vehicle dealers at the same price for a comparably equipped motor vehicle, on the same terms, with no differential in functionally available discount, allowance, credit, or bonus, except as provided in subparagraph e of paragraph 9 of this subsection,
 - f. failed to provide reasonable compensation to a new motor vehicle dealer substantially equivalent to the actual cost of providing a manufacturer required

loaner or rental vehicle to any consumer who is having a vehicle serviced at the dealership. For purposes of this paragraph, actual cost is the average cost in the new motor vehicle dealer's region for the rental of a substantially similar make and model as the vehicle being serviced, or

- g. failed to make available to its new motor vehicle dealers a fair and proportional share of all new vehicles distributed to same line-make dealers in this state, subject to the same reasonable terms, including any vehicles distributed from a common new vehicle inventory pool outside of the factory's ordinary allocation process such as any vehicles the factory reserves to distribute on a discretionary basis;
9. Being a factory that:
- a. has attempted to coerce or has coerced any new motor vehicle dealer or new powersports vehicle dealer to enter into any agreement or to cancel any agreement; has failed to act in good faith and in a fair, equitable, and nondiscriminatory manner; has directly or indirectly coerced, intimidated, threatened, or restrained any new motor vehicle dealer; has acted dishonestly; or has failed to act in accordance with the reasonable standards of fair dealing,
 - b. has failed to compensate its dealers for the work and services they are required to perform in connection with the dealer's delivery and preparation obligations according to the agreements on file with the Commission which must be found by the Commission to be reasonable, or has failed to adequately and fairly compensate its dealers for labor, parts, and other expenses incurred by the dealer to perform under and comply with manufacturer's warranty agreements and recall repairs which shall include diagnostic work as applicable and assistance requested by a consumer whose vehicle was subjected to an over-the-air or remote change, repair, or update to any part, system, accessory, or function by the manufacturer and performed by the dealer in order to satisfy the consumer. Time allowances for the diagnosis and performance of repair work shall be reasonable and adequate for the work to be performed. Adequate and fair compensation, which under this provision shall be no less than the rates customarily charged for retail consumer repairs as calculated herein, for parts and labor for warranty and recall repairs shall, at the option of the new motor vehicle dealer, be established

by the new motor vehicle dealer submitting to the manufacturer or distributor one hundred sequential nonwarranty consumer-paid service repair orders which contain warranty-like repairs, or ninety (90) consecutive days of nonwarranty consumer-paid service repair orders which contain warranty-like repairs, whichever is less, covering repairs made no more than one hundred eighty (180) days before the submission and declaring the average percentage labor rate and/or markup rate. A motor vehicle dealer may not submit a request to establish its retail rates more than once in a twelve-month period. That request may establish a parts markup rate, labor rate, or both. The new motor vehicle dealer or new powersports vehicle dealer shall calculate its retail parts rate by determining the total charges for parts from the qualified repair orders submitted, dividing that amount by the new motor vehicle dealer's total cost of the purchase of those parts, subtracting one (1), and multiplying by one hundred (100) to produce a percentage. The new motor vehicle dealer or new powersports vehicle dealer shall calculate its retail labor rate by dividing the amount of the new vehicle dealer's total labor sales from the qualified repair orders by the total labor hours charged for those sales. When submitting repair orders to establish a retail parts and labor rate, a new motor vehicle dealer or new powersports vehicle dealer need not include repairs for:

- (1) routine maintenance including but not limited to the replacement of bulbs, fluids, filters, batteries, and belts that are not provided in the course of and related to a repair,
- (2) factory special events, specials, or promotional discounts for retail consumer repairs,
- (3) parts sold or repairs performed at wholesale,
- (4) factory-approved goodwill or policy repairs or replacements,
- (5) repairs with aftermarket parts, when calculating the retail parts rate but not the retail labor rate,
- (6) repairs on aftermarket parts,
- (7) replacement of or work on tires including front-end alignments and wheel or tire rotations,
- (8) repairs of vehicles owned by the new motor vehicle dealer or new powersports vehicle dealer or employee thereof at the time of the repair,
- (9) vehicle reconditioning, or

(10) items that do not have individual part numbers including, but not limited to, nuts, bolts, and fasteners.

A manufacturer or distributor may, not later than forty-five (45) days after submission, rebut that declared retail parts and labor rate in writing by reasonably substantiating that the rate is not accurate or is incomplete pursuant to the provisions of this section. If the manufacturer or distributor determines the set of repair orders submitted by the new motor vehicle dealer or new powersports vehicle dealer pursuant to this section for a retail labor rate or retail parts markup rate is substantially higher than the new vehicle dealer's current warranty rates, the manufacturer or distributor may request, in writing, within forty-five (45) days after the manufacturer's or distributor's receipt of the new vehicle dealer's initial submission, all repair orders closed within the period of thirty (30) days immediately preceding, or thirty (30) days immediately following, the set of repair orders initially submitted by the new motor vehicle dealer. All time periods under this section shall be suspended until the supplemental repair orders are provided. If the manufacturer or distributor requests supplemental repair orders, the manufacturer or distributor may, within thirty (30) days after receiving the supplemental repair orders and in accordance with the formula described in this subsection, calculate a proposed adjusted retail labor rate or retail parts markup rate, as applicable, based upon any set of the qualified repair orders submitted by the franchisee and following the formula set forth herein to establish the rate. The retail labor and parts rates shall go into effect thirty (30) days following the approval by the manufacturer or distributor. If the declared rate is rebutted, the manufacturer or distributor shall provide written notice stating the reasons for the rebuttal, an explanation of the reasons for the rebuttal, and a copy of all calculations used by the franchisor in determining the manufacturer or distributor's position and propose an adjustment in writing of the average percentage markup or labor rate based on that rebuttal not later than forty-five (45) days after submission. If the new motor vehicle dealer or new powersports vehicle dealer does not agree with the proposed average percentage

markup or labor rate, the new vehicle dealer may file a protest with the Commission not later than thirty (30) days after receipt of that proposal by the manufacturer or distributor. In the event a protest is filed, the manufacturer or distributor shall have the burden of proof to establish the new vehicle dealer's submitted parts markup rate or labor rate was inaccurate or not complete pursuant to the provisions of this section. A manufacturer or distributor may not retaliate against any new motor vehicle dealer or new powersports vehicle dealer seeking to exercise its rights under this section. A manufacturer or distributor may require a dealer to submit repair orders in accordance with this section in order to validate the reasonableness of a dealer's retail rate for parts or labor not more often than once every twelve (12) months. A manufacturer or distributor may not otherwise recover its costs from new vehicle dealers within this state including a surcharge imposed on a new motor vehicle dealer solely intended to recover the cost of reimbursing a dealer for parts and labor pursuant to this section; provided, a manufacturer or distributor shall not be prohibited from increasing prices for vehicles or parts in the normal course of business or from auditing and charging back claims in accordance with this section. All claims made by dealers for compensation for delivery, preparation, warranty, or recall repair work shall be paid within thirty (30) days after approval and shall be approved or disapproved within thirty (30) days after receipt. When any claim is disapproved, the dealer shall be notified in writing of the grounds for disapproval. The dealer's delivery, preparation, and warranty obligations as filed with the Commission shall constitute the dealer's sole responsibility for product liability as between the dealer and manufacturer. A factory may reasonably and periodically audit a new motor vehicle dealer or new powersports vehicle dealer to determine the validity of paid claims for dealer compensation or any charge-backs for warranty parts or service compensation. Except in cases of suspected fraud, audits of warranty payments shall only be for the one-year period immediately following the date of the payment. A manufacturer shall reserve the right to reasonable, periodic audits to determine the validity of paid claims for dealer compensation or any charge-

backs for consumer or dealer incentives. Except in cases of suspected fraud, audits of incentive payments shall only be for a one-year period immediately following the date of the payment. A factory shall not deny a claim or charge a new motor vehicle dealer back subsequent to the payment of the claim unless the factory can show that the claim was false or fraudulent or that the new motor vehicle dealer or new powersports vehicle dealer failed to reasonably substantiate the claim by the written reasonable procedures of the factory. A factory shall not deny a claim or implement a charge-back against a new vehicle dealer after payment of a claim in the event a purchaser of a new vehicle that is the subject of a claim fails to comply with titling or registration laws of this state and is not prevented from compliance by any action of the dealer; provided, that the factory may require the dealer to provide, within thirty (30) days of notice of charge-back, withholding of payment, or denial of claim, the documentation to demonstrate the vehicle sale, delivery, and customer qualification for an incentive as reported, including consumer name and address and written attestation signed by the dealer operator or general manager stating the consumer was not on the export control list and the dealer did not know or have reason to know the vehicle was being exported or resold. The factory shall provide written notice to a dealer of a proposed charge-back that is the result of an audit along with the specific audit results and proposed charge-back amount. A dealer that receives notice of a proposed charge-back pursuant to a factory's audit has the right to file a protest with the Commission within thirty (30) days after receipt of the notice of the charge-back or audit results, whichever is later. The factory is prohibited from implementing the charge-back or debiting the dealer's account until either the time frame for filing a protest has passed or a final adjudication is rendered by the Commission, whichever is later, unless the dealer has agreed to the charge-back or charge-backs,

c. fails to compensate the new motor vehicle dealer for a used motor vehicle:

- (1) that is of the same make and model manufactured, imported, or distributed by the factory and is a line-make that the new motor vehicle dealer is franchised to sell or on which the new motor

- vehicle dealer is authorized to perform recall repairs,
- (2) that is subject to a stop-sale or do-not-drive order issued by the factory or an authorized governmental agency,
 - (3) that is held by the new motor vehicle dealer in the dealer's inventory at the time the stop-sale or do-not-drive order is issued or that is taken by the new motor vehicle dealer into the dealer's inventory after the recall notice as a result of a retail consumer trade-in or a lease return to the dealer inventory in accordance with an applicable lease contract,
 - (4) that cannot be repaired due to the unavailability, within thirty (30) days after issuance of the stop-sale or do-not-drive order, of a remedy or parts necessary for the new motor vehicle dealer to make the recall repair, and
 - (5) that is not at least in the prorated amount of one percent (1.00%) of the value of the vehicle per month beginning on the date that is thirty (30) days after the date on which the stop-sale order was provided to the new motor vehicle dealer until the earlier of either of the following:
 - (a) the date the recall remedy or parts are made available, or
 - (b) the date the new motor vehicle dealer sells, trades, or otherwise disposes of the affected used motor vehicle.

For the purposes of division (5) of this subparagraph, the value of a used vehicle shall be the average Black Book value for the year, make, and model of the recalled vehicle. A factory may direct the manner and method in which a new motor vehicle dealer must demonstrate the inventory status of an affected used motor vehicle to determine eligibility under this subparagraph; provided, that the manner and method may not be unduly burdensome and may not require information that is unduly burdensome to provide. All reimbursement claims made by new motor vehicle dealers pursuant to this section for recall remedies or repairs, or for compensation where no part or repair is reasonably available and the vehicle is subject to a stop-sale or do-not-drive order, shall be subject to the same limitations and requirements as a warranty reimbursement claim made under subparagraph b of this

paragraph. In the alternative, a manufacturer may compensate its franchised new motor vehicle dealers under a national recall compensation program; provided, the compensation under the program is equal to or greater than that provided under division (5) of this subparagraph, or as the manufacturer and new motor vehicle dealer otherwise agree. Nothing in this section shall require a factory to provide total compensation to a new motor vehicle dealer which would exceed the total average Black Book value of the affected used motor vehicle as originally determined under division (5) of this subparagraph. Any remedy provided to a new motor vehicle dealer under this subparagraph is exclusive and may not be combined with any other state or federal compensation remedy,

- d. unreasonably fails or refuses to offer to its same line-make franchised dealers a reasonable supply and mix of all models manufactured for that line-make, or unreasonably requires a dealer to pay any extra fee, purchase unreasonable advertising displays or other materials, or enter into a separate agreement which adversely alters the rights or obligations contained within the dealer's existing franchise agreement or which waives any right of the new motor vehicle dealer or new powersports vehicle dealer as protected by Section 561 et seq. of this title, or remodel, renovate, or recondition the dealer's existing facilities as a prerequisite to receiving a model or series of vehicles, except as may be necessary to sell or service the model or series of vehicles as provided by subparagraph e of this paragraph. It shall be a violation of this section for new vehicle allocation to be withheld subject to any requirement to purchase or sell any number of used or off-lease vehicles. The failure to deliver any such new motor vehicle shall not be considered a violation of the section if the failure is not arbitrary or is due to lack of manufacturing capacity or to a strike or labor difficulty, a shortage of materials, a freight embargo, or other cause over which the manufacturer has no control. However, this subparagraph shall not apply to limited production model vehicles, a vehicle not advertised by the factory for sale in this state, vehicles that are subject to allocation affected by federal environmental laws or environmental laws of this state, or vehicles allocated in response to an unforeseen event or circumstance,

- e. except as necessary to comply with a health or safety law, or to comply with a technology requirement which is necessary to sell or service a vehicle that the franchised new motor vehicle dealer or new powersports vehicle dealer is authorized or licensed by the franchisor to sell or service, requires a dealer to construct a new facility or substantially renovate the dealer's existing facility unless the facility construction or renovation is justified by the economic conditions existing at the time, as well as the reasonably foreseeable projections, in the new motor vehicle dealer's market and in the automotive industry. However, this subparagraph shall not apply if the new motor vehicle dealer or new powersports vehicle dealer voluntarily agrees to facility construction or renovation in exchange for money, credit, allowance, reimbursement, or additional vehicle allocation to a dealer from the factory to compensate the dealer for the cost of, or a portion of the cost of, the facility construction or renovation. Except as necessary to comply with a health or safety law, or to comply with a technology or safety requirement which is necessary to sell or service a motor vehicle or powersports vehicle that the franchised dealer is authorized or licensed by the franchisor to sell or service, a new vehicle dealer which completes a facility construction or renovation pursuant to factory requirements shall not be required to construct a new facility or renovate the existing facility if the same area of the facility or premises has been constructed or substantially altered within the last ten (10) years and the construction or alteration was approved by the manufacturer as a part of a facility upgrade program, standard, or policy. For purposes of this subparagraph, "substantially altered" means to perform an alteration that substantially impacts the architectural features, characteristics, or integrity of a structure or lot. The term shall not include routine maintenance reasonably necessary to maintain a dealership in attractive condition. If a facility upgrade program, standard, or policy under which the dealer completed a facility construction or substantial alteration does not contain a specific time period during which the manufacturer or distributor shall provide payments or benefits to a participating dealer, or the time frame specified under the program is reduced or canceled

prematurely in the unilateral discretion of the manufacturer or distributor, the manufacturer or distributor shall not deny the participating dealer any payment or benefit under the terms of the program, standard, or policy as it existed when the dealer began to perform under the program, standard, or policy for the balance of the ten-year period, regardless of whether the manufacturer's or distributor's program, standard, or policy has been changed or canceled, unless the manufacturer and dealer agree, in writing, to the change in payment or benefit,

- f. requires a new motor vehicle dealer or new powersports vehicle dealer to establish an exclusive facility, unless supported by reasonable business, market, and economic considerations; provided, that this section shall not restrict the terms of any agreement for such exclusive facility voluntarily entered into and supported by valuable consideration separate from the new motor vehicle dealer's right to sell and service motor vehicles for the franchisor,
- g. requires a new motor vehicle dealer or new powersports vehicle dealer to enter into a site-control agreement covering any or all of the new motor vehicle dealer's facilities or premises; provided, that this section shall not restrict the terms of any site-control agreement voluntarily entered into and supported by valuable consideration separate from the new motor vehicle dealer's right to sell and service motor vehicles for the franchisor. Notwithstanding the foregoing or the terms of any site-control agreement, a site-control agreement automatically extinguishes if all of the factory's franchises that operated from the location that are the subject of the site-control agreement are terminated by the factory as part of the discontinuance of a product line,
- h. refuses to pay, or claims reimbursement from, a new motor vehicle dealer or new powersports vehicle dealer for sales, incentives, or other payments related to a vehicle sold by the dealer because the purchaser of the new vehicle exported or resold the vehicle in violation of the policy of the factory unless the factory can show that, at the time of the sale, the new vehicle dealer knew or reasonably should have known of the purchaser's intention to export or resell the vehicle. There is a rebuttable presumption that the new vehicle dealer did not know or could not have

known that the vehicle would be exported if the vehicle is titled and registered in any state of the United States, or

- i. requires a new motor vehicle dealer or new powersports vehicle dealer to purchase goods or services for the construction, renovation, or improvement of the new dealer's facility from a vendor chosen by the factory if goods or services available from other sources are of substantially similar quality and design and comply with all applicable laws; provided, however, that such goods are not subject to the factory's intellectual property or trademark rights and the new vehicle dealer has received the factory's approval, which approval may not be unreasonably withheld. Nothing in this subparagraph may be construed to allow a new motor vehicle dealer or new powersports vehicle dealer to impair or eliminate a factory's intellectual property, trademark rights, or trade dress usage guidelines. Nothing in this section prohibits the enforcement of a voluntary agreement between the factory and the new vehicle dealer where separate and valuable consideration has been offered and accepted;
10. Being a factory that:
- a. establishes a system of motor vehicle allocation or distribution which is unfair, inequitable, or unreasonably discriminatory. Upon the request of any new motor vehicle dealer or new powersports vehicle dealer franchised by it, a factory shall disclose in writing to the dealer the basis upon which new vehicles are allocated, scheduled, and delivered among the new motor vehicle dealers of the same line-make for that factory, or
 - b. changes an established plan or system of new motor vehicle or new powersports vehicle distribution. A new motor vehicle dealer or new powersports vehicle dealer franchise agreement shall continue in full force and operation notwithstanding a change, in whole or in part, of an established plan or system of distribution of the motor vehicles or new powersports vehicles offered or previously offered for sale under the franchise agreement. The appointment of a new importer or distributor for motor vehicles or new powersports vehicle offered for sale under the franchise agreement shall be deemed to be a change of an established plan or system of distribution. The discontinuation of a line-make shall not be deemed to be a change of an established plan or system of motor

vehicle or new powersports vehicle distribution. The creation of a line-make shall not be deemed to be a change of an established plan or system of motor vehicle distribution as long as the new line-make is not selling the same, or substantially the same vehicle or vehicles previously sold through another line-make by new motor vehicle dealers or new powersports vehicle dealers with an active franchise agreement for the other line-make in the state if such dealers are no longer authorized to sell the comparable vehicle previously sold through their line-make. Changing a vehicle's powertrain is not sufficient to show it is substantially different. Upon the occurrence of such change, the manufacturer or distributor shall be prohibited from obtaining a license to distribute vehicles under the new plan or system of distribution unless the manufacturer or distributor offers to each vehicle dealer who is a party to the franchise agreement a new franchise agreement containing substantially the same provisions which were contained in the previous franchise agreement;

11. Being a factory that sells directly or indirectly new motor vehicles or new powersports vehicles to any retail consumer in the state except through a new motor vehicle dealer or new powersports vehicle dealer holding a franchise for the line-make that includes the new motor vehicle or new powersports vehicle. This paragraph does not apply to factory sales of new vehicles to its employees, family members of employees, retirees and family members of retirees, not-for-profit organizations, or the federal, state, or local governments. The provisions of this paragraph shall not preclude a factory from providing information to a consumer for the purpose of marketing or facilitating a sale of a new vehicle or from establishing a program to sell or offer to sell new motor vehicles or new powersports vehicle through participating dealers subject to the limitations provided in paragraph 2 of Section 562 of this title;

12. a. Being a factory which directly or indirectly:
- (1) owns any ownership interest or has any financial interest in a new motor vehicle dealer or new powersports vehicle dealer or any person who sells products or services pursuant to the terms of the franchise agreement,
 - (2) operates or controls a new motor vehicle dealer or new powersports vehicle dealer, or
 - (3) acts in the capacity of a new motor vehicle dealer or new powersports vehicle dealer.

- b. (1) This paragraph does not prohibit a factory from owning or controlling a new motor vehicle dealer or new powersports vehicle dealer while in a bona fide relationship with a dealer development candidate who has made a substantial initial investment in the franchise and whose initial investment is subject to potential loss. The dealer development candidate can reasonably expect to acquire full ownership of a new vehicle dealer within a reasonable period of time not to exceed ten (10) years and on reasonable terms and conditions. The ten-year acquisition period may be expanded for good cause shown.
- (2) This paragraph does not prohibit a factory from owning, operating, controlling, or acting in the capacity of a new motor vehicle dealer or new powersports vehicle dealer for a period not to exceed twelve (12) months during the transition from one independent dealer to another independent dealer if the dealership is for sale at a reasonable price and on reasonable terms and conditions to an independent qualified buyer. On showing by a factory of good cause, the Oklahoma New Motor Vehicle Commission may extend the time limit set forth above; extensions may be granted for periods not to exceed twelve (12) months.
- (3) This paragraph does not prohibit a factory from owning, operating, or controlling or acting in the capacity of a new motor vehicle dealer or new powersports vehicle dealer which was in operation prior to January 1, 2000.
- (4) This paragraph does not prohibit a factory from owning, directly or indirectly, a minority interest in an entity that owns, operates, or controls motor vehicle dealerships or powersports vehicle dealerships of the same line-make franchised by the manufacturer, provided that each of the following conditions are met:
- (a) all of the new motor vehicle or new powersports vehicle dealerships selling the vehicles of that manufacturer in this state trade exclusively in the line-make of that manufacturer,
 - (b) all of the franchise agreements of the manufacturer confer rights on the dealer of the line-make to develop and operate, within a defined geographic territory or area, as

- many dealership facilities as the dealer and manufacturer shall agree are appropriate,
- (c) at the time the manufacturer first acquires an ownership interest or assumes operation, the distance between any dealership thus owned or operated and the nearest unaffiliated new motor vehicle or new powersports vehicle dealership trading in the same line-make is not less than seventy (70) miles,
 - (d) during any period in which the manufacturer has such an ownership interest, the manufacturer has no more than three franchise agreements with new motor vehicle dealers or new powersports vehicle dealers licensed by the Oklahoma New Motor Vehicle Commission to do business within the state, and
 - (e) prior to January 1, 2000, the factory shall have furnished or made available to prospective new vehicle dealers an offering circular in accordance with the Trade Regulation Rule on Franchising of the Federal Trade Commission, and any guidelines and exemptions issued thereunder, which disclose the possibility that the factory may from time to time seek to own or acquire, directly or indirectly, ownership interests in retail dealerships;

13. Being a factory which directly or indirectly makes available for public disclosure any proprietary information provided to the factory by a new motor vehicle dealer or new powersports vehicle dealer, other than in composite form to new vehicle dealers in the same line-make or in response to a subpoena or order of the Commission or a court. Proprietary information includes, but is not limited to, information:

- a. derived from monthly financial statements provided to the factory, and
- b. regarding any aspect of the profitability of a particular new motor vehicle dealer or new powersports vehicle dealer;

14. Being a factory which does not provide or direct leads in a fair, equitable, and timely manner. Nothing in this paragraph shall be construed to require a factory to disregard the preference of a consumer in providing or directing a lead;

15. Being a factory which used the consumer list of a new motor vehicle dealer or new powersports vehicle dealer for the purpose of unfairly competing with dealers;

16. Being a factory which prohibits a new motor vehicle dealer or new powersports vehicle dealer from relocating after a written request by such dealer if:

- a. the facility and the proposed new location satisfies or meets the written reasonable guidelines of the factory. Reasonable guidelines do not include exclusivity or site control unless agreed to as set forth in subparagraphs f and g of paragraph 9 of this subsection,
- b. the proposed new location is within the area of responsibility of the new motor vehicle dealer or new powersports vehicle dealer pursuant to Section 578.1 of this title, and
- c. the factory has sixty (60) days from receipt of the new motor vehicle dealer's relocation request to approve or deny the request. The failure to approve or deny the request within the sixty-day time frame shall constitute approval of the request;

17. Being a factory which prohibits a new motor vehicle dealer or new powersports vehicle dealer from adding additional line-makes to its existing facility, if, after adding the additional line-makes, the facility satisfies the written reasonable capitalization standards and facility guidelines of each factory. Reasonable facility guidelines do not include a requirement to maintain exclusivity or site control unless agreed to by the dealer as set forth in subparagraphs f and g of paragraph 9 of this subsection;

18. Being a factory that increases prices of new motor vehicles or new powersports vehicles which the dealer had ordered for retail consumers and notified the factory prior to the dealer's receipt of the written official price increase notification. A sales contract signed by a retail consumer accompanied with proof of order submission to the factory shall constitute evidence of each such order, provided that the vehicle is in fact delivered to the consumer. Price differences applicable to new models or series motor vehicles at the time of the introduction of new models or series shall not be considered a price increase for purposes of this paragraph. Price changes caused by any of the following shall not be subject to the provisions of this paragraph:

- a. the addition to a motor vehicle or powersports vehicle of required or optional equipment pursuant to state or federal law,
- b. revaluation of the United States dollar in the case of foreign-made vehicles or components, or

- c. an increase in transportation charges due to increased rates imposed by common or contract carriers;

19. Being a factory that requires a new motor vehicle dealer or new powersports vehicle dealer to participate monetarily in an advertising campaign or contest, or purchase any promotional materials, showroom, or other display decoration or materials at the expense of the new motor vehicle or powersports vehicle dealer without consent of the dealer, which consent shall not be unreasonably withheld;

20. Being a factory that denies any new motor vehicle dealer or new powersports vehicle dealer the right of free association with any other dealer for any lawful purpose, unless otherwise permitted by this chapter; or

21. Being a factory that requires a new motor vehicle dealer or new powersports vehicle dealer to sell, offer to sell, or sell exclusively an extended service contract, extended maintenance plan, or similar product, such as gap products offered, endorsed, or sponsored by the factory by the following means:

- a. by an act or statement from the factory that will in any manner adversely impact the new motor vehicle dealer, or
- b. by measuring dealer's performance under the franchise based on the sale of extended service contracts, extended maintenance plans, or similar products offered, endorsed, or sponsored by the manufacturer or distributor.

B. Notwithstanding the terms of any franchise agreement, in the event of a proposed sale or transfer of a dealership, the manufacturer or distributor shall be permitted to exercise a right of first refusal to acquire the assets or ownership interest of the dealer of the new motor vehicle or new powersports vehicle dealership, if such sale or transfer is conditioned upon the manufacturer or dealer entering into a dealer agreement with the proposed new owner or transferee, only if all the following requirements are met:

1. To exercise its right of first refusal, the factory must notify the new motor vehicle dealer or new powersports vehicle dealer in writing within sixty (60) days of receipt of the completed proposal for the proposed sale transfer;

2. The exercise of the right of first refusal will result in the new motor vehicle dealer or new powersports vehicle dealer and the owner of the dealership receiving the same or greater consideration as they have contracted to receive in connection with the proposed change of ownership or transfer;

3. The proposed sale or transfer of the dealership does not involve the transfer or sale to a member or members of the family of

For purposes of this section, the "relevant market area" means the area within a radius of fifteen (15) miles around the site of the proposed new motor vehicle or powersports vehicle dealership measured from the property boundary of primary dealership property. The notice shall be sent by certified mail to each party and shall include the following information:

5. The specific grounds or reasons for the proposed establishment of an additional dealer or relocation of an existing dealer.

B. The notification requirements prescribed in subsection A of this section shall not apply if:

C. In determining whether good cause has been established for permitting the proposed establishment or relocation of an additional franchise for the same line-make, the Oklahoma New Motor Vehicle Commission shall take into consideration, and must be persuaded, that good cause exists for entering into or relocating an additional franchise for the same line-make by the greater weight of facts and the existing circumstances, including but not limited to:

1. Permanency of the investment of the proposed dealership;
2. Effect on the retail new motor vehicle or new powersports vehicle business and the consuming public in the relevant market area;
3. Whether it is injurious to the public welfare for an additional dealership to be established;
4. Whether the dealers of the same line-make in that relevant market area are providing adequate competition and convenient consumer care for the motor vehicle or powersports vehicle sales and service facilities, equipment, supply of vehicle parts, and qualified service personnel; and
5. Whether the establishment of an additional dealership would increase competition, and therefore be in the public interest.

B. Venue for a civil action filed pursuant to this section shall be the county in which the business of the dealer is located. In an action involving more than one dealer, any county in which the business of any dealer that is party to the action is located is a proper venue for that action.

C. Before bringing a civil action under this section, the party bringing suit for an alleged violation of the Recreational Vehicle Franchise Act shall serve a written demand for mediation on the offending party. The demand for mediation shall include a brief statement of the dispute and the relief sought by the party making the demand. The party making the demand for mediation shall serve the demand by certified mail to one of the following addresses:

The mediator may extend the date of the meeting for good cause shown by either party or if the parties agree to the extension.

E. The service of a demand for mediation under subsection C of this section tolls the time for the filing of any complaint, petition, protest, or other action under the Recreational Vehicle Franchise Act until representatives of both parties have met with the mediator selected pursuant to subsection D of this section for the purpose of attempting to resolve the dispute. If a complaint, petition, protest, or other action is filed before that meeting, the court shall enter an order suspending the proceeding or action until the mediation meeting has occurred and may, if all of the parties to the proceeding or action stipulate in writing that they wish to continue to mediate under this section, enter an order suspending the proceeding or action for as long a period as the court considers appropriate. The court may modify, extend, or revoke a suspension order issued under this subsection if it considers that action appropriate.

F. Each of the parties to the mediation under this section is responsible for its own attorney fees. The parties shall equally divide the cost of the mediator.

3. Failing or refusing to comply with any requirement of the provisions of the Recreational Vehicle Franchise Act.

B. The court shall not require a bond as a condition to the grant of equitable relief under this section.

The law enforcement agency by which the arresting officer is employed may designate, in accordance with the rules of the Board of Tests for Alcohol and Drug Influence, hereinafter referred to as the Board, whether blood or breath is to be tested for the alcohol concentration thereof, and whether blood, saliva or urine is to be tested for the presence or concentration of any other intoxicating substance therein.

In the event that law enforcement agency does not designate the test to be administered, breath shall be the substance tested for alcohol concentration. Blood may also be tested to determine the alcohol concentration thereof in the event that breath cannot be tested to determine the alcohol concentration thereof because of the lack of an approved device or qualified person to administer a breath test or because such breath test for any other reason cannot be administered in accordance with the rules of the Board.

In the event the law enforcement agency does not designate the test to be administered, blood, saliva or urine shall be the substance tested for the presence or concentration of any other intoxicating substance or the combination of alcohol and any other intoxicating substance.

C. In the event the person is incapable of submitting to and successfully completing, by reason of illness or injury or other physical disability, the test to be administered, an alternate test may be administered in accordance with the rules of the Board.

D. Any person who is unconscious or otherwise incapable of refusing to submit to a test of such person's blood or breath to determine the alcohol concentration thereof, or to a test of such person's blood, saliva or urine to determine the presence or concentration of any other intoxicating substance therein, shall be

deemed not to have withdrawn the consent provided by subsection A of this section, and such test may be administered as provided herein.

An unconscious person who has been issued a citation by a law enforcement officer for one of the offenses listed in subsection A of this section is arrested for purposes of this section. The arresting officer must leave a copy of the citation with the arrested person which may be accomplished by handing it to the arrested person, or by leaving it with the personal effects of the arrested party, so as to inform the unconscious person of the arrest.

Any person who has been arrested for one of the offenses listed in subsection A of this section who is unconscious or injured and who requires immediate medical treatment as determined by a treating physician may be released on the person's own recognizance for medical reasons by the arresting officer. The arresting officer who releases an arrested person on the person's own recognizance must indicate the release on the face of the citation. Any person released on his or her own recognizance for medical reasons shall remain at liberty pending the filing of charges.

E. In addition to any test designated by the arresting officer, the arrested person may also designate any additional test to be administered to determine the concentration of alcohol, or the presence or concentration of any other intoxicating substance or the combination of alcohol and any other intoxicating substance. The cost of such additional test shall be at the expense of the arrested person.

A sufficient quantity of any specimen obtained at the designation of the arrested person shall be available to the law enforcement agency employing the arresting officer. Such specimens shall be treated in accordance with the rules applicable to the specimens obtained by an arresting officer.

F. When a law enforcement officer has determined that the blood alcohol content of an individual is to be tested for the presence or concentration of alcohol, other intoxicating substance, or the combination of alcohol and any other intoxicating substance, the law enforcement officer shall inform the individual to be tested that the withdrawal of blood shall only be performed by certain medical personnel as provided for in Section 752 of this title.

G. The results of the tests provided for in this title shall be admissible in all civil actions, including administrative hearings regarding driving privileges.

§47-752. Administration of tests - Authorization - Liability - Laboratories - Independent analysis - Costs.

A. Only a licensed medical doctor, licensed osteopathic physician, licensed chiropractic physician, registered nurse, licensed practical nurse, physician's assistant, certified by any state's appropriate licensing authority, an employee of a hospital or other health care facility authorized by the hospital or health care facility to withdraw blood, or individuals licensed in accordance with Section 1-2505 of Title 63 of the Oklahoma Statutes as an Intermediate Emergency Medical Technician, an Advanced Emergency Medical Technician or a Paramedic, acting within the scope of practice prescribed by their medical director, acting at the request of a law enforcement officer may withdraw blood for the purpose of having a determination made of its concentration of alcohol or the presence or concentration of other intoxicating substance. Only qualified persons authorized by the Board may collect breath, saliva or urine, or administer tests of breath under the provisions of this title.

B. If the person authorized to withdraw blood as specified in subsection A of this section is presented with a written statement:

1. Authorizing blood withdrawal signed by the person whose blood is to be withdrawn;

2. Signed by a duly authorized peace officer that the person whose blood is to be withdrawn has agreed to the withdrawal of blood;

3. Signed by a duly authorized peace officer that the person whose blood is to be withdrawn has been placed under arrest and that the officer has probable cause to believe that the person, while intoxicated, has operated a motor vehicle in such manner as to have caused the death or serious physical injury of another person, or the person has been involved in a traffic accident and has been removed from the scene of the accident that resulted in the death or great bodily injury, as defined in subsection B of Section 646 of Title 21 of the Oklahoma Statutes, of any person to a hospital or other health care facility outside the State of Oklahoma before the law enforcement officer was able to effect an arrest for such offense; or

4. In the form of an order from a district court that blood be withdrawn, the person authorized to withdraw the blood and the hospital or other health care facility where the withdrawal occurs

may rely on such a statement or order as evidence that the person has consented to or has been required to submit to the clinical procedure and shall not require the person to sign any additional consent or waiver form. In such a case, the person authorized to perform the procedure, the employer of such person and the hospital or other health care facility shall not be liable in any action alleging lack of consent or lack of informed consent.

C. No person specified in subsection A of this section, no employer of such person and no hospital or other health care facility where blood is withdrawn shall incur any civil or criminal liability as a result of the proper withdrawal of blood when acting at the request of a law enforcement officer by the provisions of Section 751 or 753 of this title, or when acting in reliance upon a signed statement or court order as provided in this section, if the act is performed in a reasonable manner according to generally accepted clinical practice. No person specified in subsection A of this section shall incur any civil or criminal liability as a result of the proper collection of breath, saliva or urine when acting at the request of a law enforcement officer under the provisions of Section 751 or 753 of this title or when acting pursuant to a court order.

D. The blood, breath, saliva or urine specimens obtained shall be tested by the appropriate test as determined by the Board, or tested by a laboratory that is exempt from the Board rules pursuant to Section 759 of this title, to determine the alcohol concentration thereof, or the presence or concentration of any other intoxicating substance which might have affected the ability of the person tested to operate a motor vehicle safely.

E. When blood is withdrawn for testing of its alcohol concentration or other intoxicating substance presence or concentration, at the request of a law enforcement officer, a sufficient quantity of the same specimen shall be obtained to enable the tested person, at his or her own option and expense, to have an independent analysis made of such specimen. The excess blood specimen shall be retained by a laboratory approved by the Board in accordance with the rules and regulations of the Board or by a laboratory that is exempt from the Board rules pursuant to Section 759 of this title, for sixty (60) days from the date of collection. At any time within that period, the tested person or his or her attorney may direct that such blood specimen be sent or delivered to a laboratory of his or her own choosing and approved by the Board for an independent analysis. Neither the tested person, nor any agent of such person, shall have access to the additional blood specimen prior to the completion of the independent analysis, except the analyst performing the independent analysis and agents of the analyst.

F. The costs of collecting blood specimens for the purpose of determining the alcohol or other intoxicating substance thereof, by or at the direction of a law enforcement officer, shall be borne by the law enforcement agency employing such officer; provided, if the person is convicted for any offense involving the operation of a motor vehicle while under the influence of or while impaired by alcohol or an intoxicating substance, or both, as a direct result of the incident which caused the collection of blood specimens, an amount equal to the costs shall become a part of the court costs of the person and shall be collected by the court and remitted to the law enforcement agency bearing the costs. The cost of collecting, retaining and sending or delivering to an independent laboratory the excess specimens of blood for independent analysis at the option of the tested person shall also be borne by such law enforcement agency. The cost of the independent analysis of such specimen of blood shall be borne by the tested person at whose option such analysis is performed. The tested person, or his or her agent, shall make all necessary arrangements for the performance of such independent analysis other than the forwarding or delivery of such specimen.

G. Tests of blood or breath for the purpose of determining the alcohol concentration thereof, and tests of blood for the purpose of determining the presence or concentration of any other intoxicating substance therein, under the provisions of this title, whether administered by or at the direction of a law enforcement officer or administered independently, at the option of the tested person, on the excess specimen of such person's blood to be considered valid and admissible in evidence under the provisions of this title, shall have been administered in accordance with Section 759 of this title.

H. Any person who has been arrested for any offense arising out of acts alleged to have been committed while the person was operating or in actual physical control of a motor vehicle while under the influence of alcohol, any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance who is not requested by a law enforcement officer to submit to a test shall be entitled to have an independent test of his or her blood for the purpose of determining its alcohol concentration or the presence or concentration of any other intoxicating substance therein, performed by a person of his or her own choosing who is qualified as stipulated in this section. The arrested person shall bear the responsibility for making all necessary arrangements for the administration of such independent test and for the independent analysis of any specimens obtained, and bear all costs thereof. The failure or inability of the arrested person to obtain an independent test shall not preclude the admission of other competent evidence bearing upon the question of whether such person was under the influence of alcohol, or any other

intoxicating substance or the combined influence of alcohol and any other intoxicating substance.

I. Any agency or laboratory certified by the Board or any agency or laboratory that is exempt from the Board rules pursuant to Section 759 of this title, which analyses blood shall make available a written report of the results of the test administered by or at the direction of the law enforcement officer to:

1. The tested person, or his or her attorney;
2. The Commissioner of Public Safety;
3. The Director of Service Oklahoma; and
4. The Fatality Analysis Reporting System (FARS) analyst of the state, upon request.

The results of the tests provided for in this title shall be admissible in all civil actions, including administrative hearings regarding driving privileges.

§47-753. Refusal to submit to test.

A. If a conscious person under arrest refuses to submit to testing of his or her blood or breath for the purpose of determining the alcohol concentration thereof, or to a test of his or her blood, saliva or urine for the purpose of determining the presence or concentration of any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, none shall be given except upon the issuance of a search warrant or unless the investigating officer has probable cause to believe that the person under arrest, while intoxicated, has operated the motor vehicle in such a manner as to have caused the death or serious physical injury of any other person or persons. In such event, such test otherwise authorized by law may be made in the same manner as if a search warrant had been issued for such test or tests. The sample shall be taken in a medically acceptable manner as authorized by Section 752 of this title. The Director of Service Oklahoma, upon the receipt of a sworn report of the law enforcement officer that the officer had reasonable grounds to believe the arrested

person had been driving or was in actual physical control of a motor vehicle upon the public roads, highways, streets, turnpikes or other public place of this state while under the influence of alcohol, any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, or that the person had refused to submit to the test or tests, shall revoke the license to drive and any nonresident operating privilege for a period provided by Section 6-205.1 of this title. If the person is a resident or nonresident without a license or permit to operate a motor vehicle in this state, the Director of Service Oklahoma shall deny to the person the issuance of a license or permit for a period provided by Section 6-205.1 of this title subject to a review as provided in Section 754 of this title. The revocation or denial shall become effective forty-five (45) days after the arrested person is given written notice thereof by the officer or by Service Oklahoma as provided in Section 754 of this title.

B. Service Oklahoma shall immediately reinstate the driving privilege of the person if:

1. The arrested person was required to submit to the testing of his or her blood or breath pursuant to the provisions of a search warrant despite his or her refusal to submit to testing; and

2. Service Oklahoma receives a written blood or breath test report that reflects the arrested person did not have any measurable quantity of alcohol, or any other intoxicating substance, or the combination of alcohol and any other intoxicating substance in the blood or breath of the arrested person.

§47-754. Seizure of license - Temporary driving privileges - Administrative revocation.

A. The sworn report of the officer stating the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle upon the public roads, highways, streets, turnpikes or other public place of this state while under the influence of alcohol, any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance, shall be submitted by mail, by electronic means approved by Service Oklahoma or in person to Service Oklahoma

within seventy-two (72) hours of the issuance of the report. The failure of the officer to timely file this report shall not affect the authority of Service Oklahoma to revoke the driving privilege of the arrested person. However, Service Oklahoma shall take no action on a sworn report as described in this section if the sworn report is not received by Service Oklahoma after the expiration of one hundred eighty (180) days of the arrest of the person.

B. Upon receipt of a written blood or breath test report reflecting that the arrested person, if under twenty-one (21) years of age, had any measurable quantity of alcohol in the blood or breath of the person, or, if the arrested person is twenty-one (21) years of age or older, a blood or breath alcohol concentration of eight-hundredths (0.08) or more, accompanied by a sworn report from a law enforcement officer that the officer had reasonable grounds to believe the arrested person had been operating or was in actual physical control of a motor vehicle while under the influence of alcohol as prohibited by law, Service Oklahoma shall revoke or deny the driving privilege of the arrested person for a period as provided by Section 6-205.1 of this title, unless the person has successfully completed or is currently participating in the Impaired Driver Accountability Program in relation to the arrest which is the subject of the report. Revocation or denial of the driving privilege of the arrested person shall become effective forty-five (45) days after the arrested person is given written notice thereof by the officer or by Service Oklahoma.

C. The appeal hearing before the district court shall be conducted in accordance with Section 6-211 of this title. The hearing shall cover the issues of whether the officer had reasonable grounds to believe the person had been operating or was in actual physical control of a vehicle upon the public roads, highways, streets, turnpikes or other public place of this state while under the influence of alcohol, any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance as prohibited by law, and whether the person was placed under arrest.

1. If the revocation or denial is based upon a breath or blood test result and a sworn report from a law enforcement officer, the scope of the hearing shall also cover the issues as to whether:

- a. if timely requested by the person, the person was not denied a breath or blood test,
- b. the specimen was obtained from the person within two (2) hours of the arrest of the person,
- c. the person, if under twenty-one (21) years of age, was advised that driving privileges would be revoked or denied if the test result reflected the presence of any measurable quantity of alcohol,

- d. the person, if twenty-one (21) years of age or older, was advised that driving privileges would be revoked or denied if the test result reflected an alcohol concentration of eight-hundredths (0.08) or more, and
- e. the test result in fact reflects the alcohol concentration.

2. If the revocation or denial is based upon the refusal of the person to submit to a breath or blood test, reflected in a sworn report by a law enforcement officer, the scope of the hearing shall also include whether:

- a. the person refused to submit to the test or tests, and
- b. the person was informed that driving privileges would be revoked or denied if the person refused to submit to the test or tests.

D. After the hearing, the district court shall order the revocation or denial either rescinded or sustained.

§47-756. Admission of evidence shown by tests.

A. Upon the trial of any criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle while under the influence of alcohol or any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, evidence of the alcohol concentration in the blood or breath of the

person as shown by analysis of the blood or breath of the person performed in accordance with the provisions of Sections 752 and 759 of this title or evidence of the presence or concentration of any other intoxicating substance as shown by analysis of such person's blood, breath, saliva, or urine specimens in accordance with the provisions of Sections 752 and 759 of this title is admissible. Evidence that the person has refused to submit to a test or tests is also admissible. For the purpose of this title, when the person is under the age of twenty-one (21) years, evidence that there was, at the time of the test, any measurable quantity of alcohol is prima facie evidence that the person is under the influence of alcohol in violation of Section 11-906.4 of this title. For persons twenty-one years of age or older:

1. Evidence that there was, at the time of the test, an alcohol concentration of five-hundredths (0.05) or less is prima facie evidence that the person was not under the influence of alcohol;

2. Evidence that there was, at the time of the test, an alcohol concentration in excess of five-hundredths (0.05) but less than eight-hundredths (0.08) is relevant evidence that the person's ability to operate a motor vehicle was impaired by alcohol.

However, no person shall be convicted of the offense of operating or being in actual physical control of a motor vehicle while such person's ability to operate such vehicle was impaired by alcohol solely because there was, at the time of the test, an alcohol concentration in excess of five-hundredths (0.05) but less than eight-hundredths (0.08) in the blood or breath of the person in the absence of additional evidence that such person's ability to operate such vehicle was affected by alcohol to the extent that the public health and safety was threatened or that the person had violated a state statute or local ordinance in the operation of a motor vehicle; and

3. Evidence that there was, at the time of the test, an alcohol concentration of eight-hundredths (0.08) or more shall be admitted as prima facie evidence that the person was under the influence of alcohol.

B. For purposes of this title, "alcohol concentration" means grams of alcohol per one hundred (100) milliliters of blood if the blood was tested, or grams of alcohol per two hundred ten (210) liters of breath if the breath was tested.

C. To be admissible in a proceeding, the evidence must first be qualified by establishing that the test was administered to the person within two (2) hours after the arrest of the person.

D. Upon the trial of any criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle while under the influence of alcohol, the following may be considered as evidence that the test of the breath of the person was validly

administered in accordance with the rules of the Board of Tests for Alcohol and Drug Influence:

1. A report, test result or other documentation indicating the test was performed by an operator holding a permit issued by the Board of Tests for Alcohol and Drug Influence;

2. A report, test result or other documentation indicating the test was performed after the installation of a dry gas cylinder by the Board of Tests for Alcohol and Drug Influence and before the expiration date of the cylinder;

3. A report, test result or other documentation reflecting the results of two breath samples within 0.03g/210L of each other; or

4. A report, test result or other documentation reflecting a control test within 0.01g/210L of the target value of the control.

E. Results of the test of a the breath or blood of the person, if admissible, shall be admitted without reference to measurement uncertainty.

F. 1. At any hearing, documents retained by the Board of Tests of Alcohol and Drug Influence to reflect maintenance on an instrument maintained by the Board for the measurement of alcohol concentration in a person's breath, which have been made available to the accused by the office of the district attorney at least ten (10) days prior to the hearing, when certified as correct by the persons making the report shall be received as evidence of the facts and findings stated, if relevant and otherwise admissible in evidence. If a report is deemed relevant by the state or the accused, the court shall admit the report without the testimony of the person making the report, unless the court, pursuant to paragraph 2 of this subsection, orders the person making the report to appear.

2. The court, upon motion of the state or the accused at least five (5) days prior to the hearing, shall order the attendance of the person making a report intended to be submitted as evidence, pursuant to paragraph 1 of this subsection, when it appears there is a substantial likelihood that material evidence not contained in such report may be produced by the testimony of the person having prepared the report.

§47-757. Other competent evidence - Admissibility.

The provisions of Sections 751 through 761 of this title do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of alcohol or any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance. §47-781. Enactment - Text.

The Driver License Compact is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

DRIVER LICENSE COMPACT

ARTICLE 1. FINDINGS AND DECLARATION OF POLICY

(a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the party states to:

(1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

ARTICLE II. DEFINITIONS

As used in this Compact:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(b) "Home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.

(c) "Conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of a bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

ARTICLE III. REPORTS OF CONVICTION

The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code, or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

ARTICLE IV. EFFECT OF CONVICTION

(a) The licensing authority in the home state, for the purpose of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Article III of this Compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

(1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(3) Any felony in the commission of which a motor vehicle is used;

(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) As to other convictions, reported pursuant to Article III, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(c) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this article, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this article.

ARTICLE V. APPLICATIONS FOR NEW LICENSES

Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) The applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated.

(2) The applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of one (1) year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

ARTICLE VI. APPLICABILITY OF OTHER LAWS

Except as expressly required by provisions of this Compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a nonparty state.

ARTICLE VII. COMPACT ADMINISTRATOR AND INTERCHANGE OF INFORMATION

(a) The head of the licensing authority of each party state shall be the administrator of this Compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this Compact.

(b) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this Compact.

ARTICLE VIII. ENTRY INTO FORCE AND WITHDRAWAL

(a) This Compact shall enter into force and become effective as to any state when it has enacted the same into law.

(b) Any party state may withdraw from this Compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six (6) months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all the party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the Compact of any report of conviction occurring prior to the withdrawal.

ARTICLE IX. CONSTRUCTION AND SEVERABILITY

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the Constitution of any party state or of the United States or the applicability thereof to any

This act may be known and may be cited as the "Nonresident Violator Compact". Added by Laws 1985, c. 70, § 1, eff. Jan. 1, 1986.

§47-790. Nonresident Violator Compact.

The Nonresident Violator Compact, hereinafter called "the compact", is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

ARTICLE I. FINDINGS, DECLARATION OF POLICY AND PURPOSE

A. The party jurisdictions find that:

1. In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction:

- a. must post collateral or bond to secure appearance for trial at a later date; or
- b. if unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or
- c. is taken directly to court for his trial to be held.

2. In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.

3. The purpose of the practices described in paragraphs 1 and 2 is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could return to his home jurisdiction and disregard his duty under the terms of the traffic citation.

4. A motorist receiving a traffic citation in his home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to

immediately continue on his way after promising or being instructed to comply with the terms of the citation.

5. The practice described in paragraph 1 causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.

6. The deposit of a driver's license as a bail bond, as described in paragraph 2, is viewed with disfavor.

7. The practices described herein consume an undue amount of law enforcement time.

B. It is the policy of the party jurisdictions to:

1. Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.

2. Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

3. Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

4. Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

C. The purpose of this compact is to:

1. Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated, in paragraph B, in a uniform and orderly manner.

2. Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

ARTICLE II. DEFINITIONS

A. In the Nonresident Violator Compact, the following words have the meaning indicated, unless the context requires otherwise.

B. 1. "Citation" means any summons, ticket, or other official document issued by a police officer for a traffic violation containing an order which requires the motorist to respond.

2. "Collateral" means any cash or other security deposited to secure an appearance for trial, following the issuance by a police officer of a citation for a traffic violation.

Upon failure of a motorist to comply with the terms of a traffic citation, the appropriate official shall report the failure to comply to the licensing authority of the jurisdiction in which the traffic citation was issued. The report shall be made in accordance with procedures specified by the issuing jurisdiction and shall contain information as specified in the Compact Manual as minimum requirements for effective processing by the home jurisdiction.

E. The licensing authority of the issuing jurisdiction may not suspend the privilege of a motorist for whom a report has been transmitted.

G. The licensing authority of the issuing jurisdiction shall not transmit a report on any violation where the date of issuance of the citation predates the most recent of the effective dates of entry for the two jurisdictions affected.

ARTICLE IV. PROCEDURE FOR HOME JURISDICTION

A. Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority.

B. The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the Compact Manual.

ARTICLE V. APPLICABILITY OF OTHER LAWS

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party jurisdiction to apply any of its other laws relating to licenses to drive to any person or circumstance, or to invalidate or prevent any driver license agreement or other cooperative arrangement between a party jurisdiction and a nonparty jurisdiction.

§47-903A. Contest of removal or storage - Hearing - Exemptions.

A. After the removal or storage of any abandoned or wrecked vehicle at the request of a public agency, the registered or legal owner of the vehicle, or their agent, may contest the validity of the removal or storage, by filing a written request for a hearing with the public agency. The written request may be filed before or after the vehicle is retrieved from the storage operator. Provided, however, the public agency shall not be required to conduct a hearing if the request is received more than ten (10) days following actual or constructive notice to the owner or driver of the vehicle that said vehicle has been so removed or stored. Any such hearing shall be scheduled within seventy-two (72) hours of the request, excluding weekends and holidays. The public agency may authorize its own officer or employee to conduct the hearing, so long as the hearing officer is not the same person who directed the removal or storage of the vehicle. The public agency may, with the consent of the person requesting the hearing, schedule the hearing by telephone and conduct the hearing on the merits by telephone conference call.

The hearing officer shall apply the law to the evidence and make a determination whether the vehicle removal and storage was

justified. If deemed unjustified, the public agency shall bear the cost of hookup and tow mileage, and the operator shall waive all storage costs in such cases as a condition of eligibility to respond to a service call request from a public agency. The vehicle owner or agent shall not be charged any type of fee or costs relating to impoundment or storage in such case. If the tow and storage is deemed justified, the owner or agent shall bear the cost of reasonable tow and storage. In either case, prior to the release of the vehicle to the owner or agent, proof of security or an affidavit that the vehicle will not be used on public highways or public streets, as required pursuant to Section 7-600 et seq. of this title, shall be furnished to the public agency.

B. Failure of either the registered or legal owner, or their agent, to timely request or to timely appear upon a scheduled hearing shall satisfy the hearing requirement of this section.

C. The hearing conducted by the public agency pursuant to this section shall not be governed by the Administrative Procedures Act, Section 301 et seq. of Title 75 of the Oklahoma Statutes. The owner of a stored vehicle may, either in lieu of such hearing or after such hearing, file a petition in the district court of the county wherein the vehicle is stored. The district court is vested with original jurisdiction to conduct a de novo hearing and determine the validity of removal and storage.

D. The provisions of this section shall not apply to the removal of vehicles abated pursuant to Section 954A of this title. Added by Laws 1986, c. 144, § 8, emerg. eff. April 21, 1986. Amended by Laws 1987, c. 233, § 5, eff. Nov. 1, 1987. Renumbered from § 963 by Laws 1987, c. 233, § 6, eff. Nov. 1, 1987. Amended by Laws 1993, c. 153, § 2, eff. Sept. 1, 1993.

§47-904. Payment of cost of removal and storage.

The owner of a motor vehicle or lienholder of the vehicle abandoned in violation of Section 901 et seq. of this title, or the owner of any vehicle or lienholder of the vehicle or insurer accepting liability for paying a claim on a vehicle or purchasing the vehicle as a total loss vehicle from the registered owner which shall have been lawfully removed from any highway or other public property may regain possession of the vehicle in accordance with regulations of the Department of Public Safety upon payment of the reasonable cost of removal and storage of such vehicle. The operator is authorized to collect all lawful fees from the owner, lienholder that seeks possession of a vehicle under a security interest, agent, or insurer accepting liability for paying the claim for a vehicle or purchasing the vehicle as a total loss vehicle from the registered owner of the towed vehicle for the performance of any and all such services. An operator shall release the vehicle from storage upon authorization from the owner, agent or lienholder of

the vehicle or in the case of a total loss, the insurer accepting liability for paying the claim on the vehicle or purchasing the vehicle where the vehicle is to be moved to an insurance pool yard for sale. In the case of death or incapacitation of the owner of a motor vehicle, the operator may release the vehicle to a legal representative or an immediate family member who is within the first or second degree of consanguinity or affinity. The legal representative or family member shall provide a notarized affidavit describing his or her relationship to the owner of the motor vehicle and proof of identity in accordance with the Department's rules related to establishing identity.

The cost of removal and storage shall be paid to the wrecker or towing service.

§47-952. Rulemaking authority - Requests for service by political subdivisions - Official rotation logs.

A. Except for the rates established by the Corporation Commission and other provisions as provided for by law, the Department of Public Safety shall have the power and authority

necessary to license, supervise, govern and control wrecker vehicles and wrecker or towing services.

B. The Department of Public Safety shall adopt and prescribe such rules as are necessary to carry out the intent of Section 951 et seq. of this title.

The rules shall state the requirements for facilities, for storage of vehicles, necessary towing equipment, the records to be kept by operators, liability insurance and insurance covering the vehicle and its contents while in storage in such sum and with such provisions as the Department deems necessary to adequately protect the interests of the public, and such other matters as the Department may prescribe for the protection of the public.

C. Unless otherwise regulated by the governing body of the political subdivision, the wrecker vehicle used to perform wrecker or towing services requested by a political subdivision of this state for removal of a vehicle from public property for reasons listed in Section 955 of this title shall be from the licensed wrecker or towing service whose location is nearest to the vehicle to be towed. Requests for service may be alternated or rotated among all such licensed wrecker or towing services which are located within a reasonable radius of each other. In cities of less than fifty thousand (50,000) population, all such licensed wrecker or towing services located near or in the city limits of such cities shall be considered as being equal distance and shall be called on an equal basis as nearly as possible. The police chief of any municipality and the county sheriff of each county shall keep rotation logs on all requested tows, except where there are insufficient licensed wrecker or towing services available to rotate such services or services are contracted after a competitive bid process. Rotation logs shall be made available for public inspection upon request. Any calls made from cell phones or two-way radios by any law enforcement officer or employee of any municipality or county to any wrecker service shall be listed on the rotation or call logs and made available for public inspection. A wrecker service shall not be removed from rotation without notification to the wrecker operator stating the reason for removal from the rotation log. All notification for removal from a rotation log shall be mailed to the wrecker service owner at least ten (10) days before removal from the rotation log and shall state the procedure and requirements for reinstatement.

D. Except as otherwise provided in this subsection, the Department and any municipality, county or other political subdivision of this state shall not place any wrecker or towing service upon an official rotation log for the performance of services carried out pursuant to the request of or at the direction of any officer of the Department or municipality, county or

political subdivision unless the service meets the following requirements:

1. Principal business facilities are located within Oklahoma;
2. Tow trucks are registered and licensed in Oklahoma; and
3. Owner is a resident of the State of Oklahoma or the service is an Oklahoma corporation.

In the event a licensed wrecker or towing service is not located within a county, a wrecker or towing service that is located outside of the county or this state and does not meet the above qualifications may be placed on the rotation log for the county or any municipality or political subdivision located within the county.

When performing services at the request of any officer, no operator or wrecker or towing service upon the rotation logs shall charge fees in excess of the maximum rates for services performed within this state, including incorporated and unincorporated areas, as established by the Commission.

E. The Department shall place a licensed Class AA wrecker service on the Highway Patrol Rotation Log in a highway patrol troop district in which the place of business and the primary storage facility of the wrecker service are located upon written request filed by the wrecker service with the Department. Upon further request of the wrecker service, the Commissioner of Public Safety or the Department employee with statewide responsibility for administration of wrecker services may place a wrecker service on the Highway Patrol Rotation Log in a district adjacent to the district in which the place of business and the primary storage facility of the wrecker service are located if the wrecker service is in proximity to and within a reasonable radius of the boundary of the district. When a wrecker service is placed on the rotation log in a district, the Department shall notify the wrecker service and the troop commander of the district.

F. The Commissioner of Public Safety or the Department employee with statewide responsibility for administration of wrecker services shall be responsible for establishing geographical areas of rotation within the troop districts and for notifying each wrecker service of the geographical areas of rotation to which the service is assigned.

§47-953. Licenses - Fees - Renewal - Disciplinary actions - Civil enforcement actions.

A. No operator shall be permitted nor shall any employee of any operator be permitted, allowed or caused to solicit business or make service calls without the operator first having obtained from the Department of Public Safety a license to operate a wrecker or towing service. The number of the license shall be displayed, in conformance with rules of the Department, on both sides of every wrecker vehicle operated by the wrecker or towing service.

B. The license fee required by this section shall be in lieu of the motor carrier filing fee as required in Section 165 of this title. No applicant for a wrecker license shall be required to prove public convenience and necessity, file notices, nor shall a public hearing be held. The fee for such license shall be Five Hundred Dollars (\$500.00), of which Ninety Dollars (\$90.00) shall be deposited in the General Revenue Fund and Four Hundred Ten Dollars (\$410.00) shall be deposited in the Department of Public Safety Restricted Revolving Fund created pursuant to Section 2-145 of this title for the administration of the Department's Wrecker Services Division and modernization of computer programs. C. All licenses shall expire on the last day of the calendar year and may be renewed annually at a cost of Two Hundred Fifty Dollars (\$250.00) upon application to the Department as prescribed by rule. Two Hundred Dollars (\$200.00) of the fees collected in this subsection shall be deposited in the Department of Public Safety Restricted Revolving Fund created in Section 2-145 of this title for the modernization of computer programs and the administration of the Department's Wrecker Services Division and Fifty Dollars (\$50.00) shall be deposited in the General Revenue Fund. No license fee shall be refunded in the event the license is suspended or revoked.

D. The Department shall issue a letter of reprimand, cancel, suspend, revoke, or refuse to issue or renew the license of an operator when it finds the licensee or applicant has not complied with or has violated any of the provisions of the Nonconsensual Towing Act of 2011, or any rules adopted by the Department. A suspension or revocation shall be for a period of time deemed appropriate by the Department for the violation. Any canceled, suspended, or revoked license shall be returned to the Department by the operator, and the operator shall not be eligible to apply for another license until the period of suspension or revocation has elapsed.

E. The provisions of the Administrative Procedures Act are expressly made applicable to the Nonconsensual Towing Act of 2011.

F. In any civil action to enforce the equal application of the alternation or rotation of wrecker or towing services regulated by a political subdivision of the state, the prevailing party shall be allowed attorney fees determined by the court, to be taxed and collected as costs.

G. Fees collected pursuant to the provisions of this section shall be remitted to the State Treasurer to be credited to the General Revenue Fund in the State Treasury except as provided by subsection H of this section.

H. Fees allocated to the Department by this section shall be deposited in the Department of Public Safety Restricted Revolving Fund.

July 1, 2012; Laws 2021, c. 334, § 2, eff. Nov. 1, 2021.

§47-953.1. Maximum fees and charges.

A. The rates established by the Corporation Commission shall determine the nonconsensual tow maximum fees and charges for wrecker or towing services performed in this state, including incorporated and unincorporated areas, by a wrecker or towing service licensed by the Department of Public Safety when that service appears on the rotation log of the Department or on the rotation log of any municipality, county or other political subdivision of this state, and the services performed are at the request or at the direction of any officer of the Department or of a municipality, county, or political subdivision. No wrecker or towing service in the performance of transporting or storing vehicles or other property towed as a result of a nonconsensual tow shall charge any fee which exceeds the maximum rates established by the Commission. Such rates shall be in addition to any other rates, fees or charges authorized, allowed or required by law and costs to collect such fees. Any wrecker or towing service is authorized to collect from the owner, lienholder, agent or insurer accepting liability for paying the claim for a vehicle or purchasing the vehicle as a total loss vehicle from the registered owner of any towed or stored vehicle, the fee required by Section 904 of this title including environmental remediation fees and services.

B. When wrecker or towing services are performed as provided in subsection A of this section:

1. Each performance of a wrecker or towing service shall be recorded by the operator on a bill or invoice as prescribed by rules of the Department and by order of the Commission;

2. Nothing herein shall limit the right of an operator who has provided or caused to be provided wrecker or towing services to require prepayment, in part or in full, or guarantee of payment of any charges incurred for providing such services;

3. This section shall not be construed to require an operator to charge a fee for the performance of any wrecker or towing services; and

4. The operator is authorized to collect all lawful fees from the owner, lienholder or agent or insurer accepting liability for paying the claim for a vehicle or purchasing the vehicle as a total loss vehicle from the registered owner of the towed vehicle for the performance of any and all such services and costs to collect such fees. An operator shall release the vehicle from storage upon authorization from the owner, agent or lienholder of the vehicle or, in the case of a total loss, the insurer accepting liability for paying the claim for the vehicle or purchasing the vehicle where the vehicle is to be moved to an insurance pool yard for sale.

C. The rates in subsections D through G of this section shall be applicable until superseded by rates established by the Commission.

D. Distance rates.

1. Rates in this subsection shall apply to the distance the towed vehicle is transported and shall include services of the operator of the wrecker vehicle. Hourly rates, as provided in subsection E of this section, may be applied in lieu of distance rates. Hourly rates may be applied from the time the wrecker vehicle is assigned to the service call until the time it is released from service either upon return to the premises of the wrecker or towing service or upon being assigned to perform another wrecker or towing service, whichever occurs first. When the hourly rate is applied in lieu of distance towing rates, the operator may not apply the two-hour minimum prescribed in subsection E of this section nor may hookup or mileage charges, as prescribed in this section, be applied.

Such distance rates shall be computed via the shortest highway mileage as determined from the latest official Oklahoma Department of Transportation state highway map, except as follows:

- a. for distances or portions of distances not specifically provided for in the governing highway map, the actual mileage via the shortest practical route will apply,
- b. in computing distances, fractions of a mile will be retained until the final and full mileage is

determined, at which time any remaining fraction shall be increased to the next whole mile,

- c. when, due to circumstances beyond the control of the wrecker or towing service, roadway conditions make it impractical to travel via the shortest route, distance rates shall be computed based on the shortest practical route over which the wrecker vehicle and the vehicle it is towing can be moved, which route shall be noted on the bill or invoice, or
- d. when the wrecker or towing service is performed upon any turnpike or toll road, the turnpike or toll road mileage shall be used to determine the distance rates charged and the turnpike or toll road fees may be added to the bill or invoice.

2. Maximum distance rates shall be as follows:

Weight of Towed Vehicle (In pounds, including equipment and lading)	Distance Towed	Rate Per Mile
Single vehicle: 8,000 or less	25 miles or less	\$3.00
Single vehicle: 8,000 or less	Over 25 miles	\$2.50
Single vehicle: 8,001 to 12,000	25 miles or less	\$3.40
Single vehicle: 8,001 to 12,000	Over 25 miles	\$3.00
Single vehicle: 12,001 to 40,000	Any	\$5.75
Single vehicle: 40,000 or over	Any	\$6.75
Combination of vehicles	Any	\$6.75

E. Hourly Rates.

1. Rates in this subsection shall apply for the use of a wrecker vehicle and shall include services of the operator of such wrecker, except as provided in paragraph 4 of this subsection. Rates shall apply for all wrecker or towing services performed that are not otherwise provided for in this section, including, but not limited to, waiting and standby time, but shall not include the first fifteen (15) minutes of service following the hookup of a vehicle when a hookup fee is assessed, as provided in subsection F of this section.

Hourly rates shall apply from the time the vehicle or labor is assigned to the service call until the time it is released from service either upon return to the premises of the wrecker or towing service or upon being assigned to perform another wrecker or towing service, whichever occurs first. Whenever a wrecker vehicle is used to tow a vehicle subject to distance rates, as provided in subsection D of this section, hourly rates shall apply only for the time such wrecker is used in the performance of services other than transportation, except when such hourly rates are used in lieu of such distance rates.

As used in this subsection, rates stated per hour apply for whole hours and, for fractions of an hour, rates stated per fifteen

(15) minutes apply for each fifteen (15) minutes or fraction thereof over seven and one-half (7 1/2) minutes. However, if the service subject to an hourly rate is performed in less than two (2) hours, the charge applicable for two (2) hours may be assessed, except as provided for in subsection D of this section.

2. Maximum hourly rates for wrecker or towing services performed for passenger vehicles, when rates for such services are not otherwise provided for by law, shall be as follows:

Weight of Towed Passenger Vehicle (In pounds)	Rate Per Hour	Rate Per 15 Minutes
Single vehicle: 8,000 or less	\$60.00	\$15.00
Single vehicle: 8,001 to 24,000	\$80.00	\$20.00
Single vehicle: 24,001 to 44,000	\$120.00	\$30.00
Single vehicle: 44,001 or over	\$180.00	\$45.00

1. A report has been made that the vehicle has been stolen or taken without the consent of its owner;

2. The officer has reason to believe the vehicle has been abandoned as defined in Sections 901 and 902 of this title;

3. The person driving or in control of the vehicle is arrested for an alleged offense for which the officer is required by law to take the person arrested or summoned before a proper magistrate without unnecessary delay;

4. At the scene of an accident, if the owner or driver is not in a position to take charge of the vehicle and direct or request its proper removal;

5. The officer has probable cause that the person operating the vehicle has not been granted driving privileges or that the driving privileges of the person are currently suspended, revoked, canceled, denied, or disqualified;

6. The officer has probable cause that the vehicle has been used in the commission of a felony offense and the officer has obtained a search warrant authorizing the search and seizure of the vehicle;

7. The officer has probable cause that the vehicle is not insured as required by the Compulsory Insurance Law of this state; or

8. The vehicle is involved in a fatal motor vehicle collision and is needed for evidentiary purposes; or

9. A vehicle is left unattended upon any street, sidewalk, alley or thoroughfare and constitutes a hazard or obstruction to the normal movement of public transit along a rail fixed guideway. An unattended vehicle shall be deemed to constitute an obstruction if any portion of the vehicle remains in that lane utilized for the rail fixed guideway as designated by traffic lane markings or if any portion of the vehicle is outside of the designated parking location and protrudes into the lane of traffic utilized for the rail fixed guideway. For purposes of this paragraph, the head of a political subdivision's transportation division may authorize employees to cause to be towed any vehicle which constitutes a hazard or obstruction to the normal movement of public transit along a rail fixed guideway.

No vehicle shall be released after impoundment unless the owner provides to the storing facility proof of valid insurance or an affidavit of nonuse on the roadway, or in the event of a release request from an insurer or the representative of the insurer who has accepted liability for the vehicle, no such proof of insurance or affidavit of nonuse on the roadway shall be required.

B. A licensed wrecker operator is not liable for damage to a vehicle, vessel, or cargo that obstructs the normal movement of traffic or creates a hazard to traffic and is removed in compliance with the request of a law enforcement officer, unless there is failure to exercise reasonable care in the performance of the act or for conduct that is willful or malicious.

C. Each officer of the Department shall use the services of the licensed wrecker operator whose location is nearest to the vehicle to be towed in all instances in subsection A of this section. The requests for services may be alternated or rotated among all licensed wrecker operators who are located within a reasonable radius of each other. In like manner, the officer shall advise any person requesting information as to the availability of a wrecker or towing service, the name of the nearest licensed wrecker operator, giving equal consideration to all licensed wrecker operators located within a reasonable radius of each other. In cities of less than fifty thousand (50,000) population, all licensed wrecker operators located near or in the city limits of such cities shall be considered as being equal distance and shall be called on an equal basis as nearly as possible. In counties bordering other states, if the officer deems safety and time considerations warrant, the officer may call a wrecker or towing service that is not on the rotation log.

D. Any officer of the Department who has been requested by a person in need of wrecker or towing service to call a specific wrecker or towing service for such person, and who calls a different wrecker or towing service other than the one requested, without the consent of the person, except where hazardous conditions exist, shall be subject to progressive discipline issued by the Department except in instances where a vehicle is removed from the roadway under the authority of paragraphs 3, 4 and 6 of subsection A of this section.

E. Operators conducting a tow under this section shall release all personal property within the vehicle to an insurer or representative of the insurer who has accepted liability for the vehicle, or to the registered owner or the owner's personal representative as designated by the registered owner on a form approved by the Department. The registered owner or representative of the registered owner shall provide proof of identity in accordance with the Department's rules related to establishing identity. Interlock devices may be removed pursuant to Section 11-902a of this title. If release of personal property occurs during normal business hours as prescribed by the Corporation Commission, it shall be at no cost to the registered owner or the owner prior to the repossession. After-hour fees may be assessed as prescribed by this Chapter or by the Corporation Commission, when the release of property is made after the prescribed normal business hours.

F. The operator of a wrecker or towing service may request a person offering proof of ownership of personal property and any interlock device to execute a form provided by the operator exempting the operator from liability for such release.

§47-1105. Definitions - Certificate of title - Application - Evidence of ownership and compliance with federal law - Liens and encumbrances - Fees - Notice of nonuse or theft.

A. As used in the Oklahoma Vehicle License and Registration Act:

1. "Salvage vehicle" means any vehicle which is within the last ten (10) model years and which has been damaged by collision or other occurrence to the extent that the cost of repairing the vehicle for safe operation on the highway exceeds sixty percent (60%) of its fair market value, as defined by Section 1111 of this title, immediately prior to the damage. For purposes of this section, actual repair costs shall only include labor and parts for actual damage to the suspension, motor, transmission, frame or unibody and designated structural components;

2. "Rebuilt vehicle" means any salvage vehicle which has been rebuilt and inspected for the purpose of registration and title;

3. "Flood-damaged vehicle" means a salvage or rebuilt vehicle which was damaged by flooding or a vehicle which was submerged at a level to or above the dashboard of the vehicle and on which an amount of loss was paid by the insurer;

4. "Unrecovered-theft vehicle" means a vehicle which has been stolen and not yet recovered;

5. "Recovered-theft vehicle" means a vehicle, including a salvage or rebuilt vehicle, which was recovered from a theft; and

6. "Junked vehicle" means any vehicle which is incapable of operation or use on the highway, has no resale value except as a source of parts or scrap and has an eighty percent (80%) loss in fair market value.

B. The owner of every vehicle in this state shall possess a certificate of title as proof of ownership of such vehicle, except those vehicles registered pursuant to Section 1120 of this title and trailers registered pursuant to Section 1133 of this title, previously titled by anyone in another state and engaged in interstate commerce, and except as provided in subsection M of this section. Except for owners that possess an agricultural exemption permit pursuant to Section 1358.1 of Title 68 of the Oklahoma Statutes, the owner of an all-terrain vehicle or a motorcycle used exclusively off roads or highways in this state which is purchased or the ownership of which is transferred on or after July 1, 2005, and the owner of a utility vehicle used exclusively off roads and highways in this state which is purchased or the ownership of which is transferred on or after July 1, 2008, shall possess a certificate of title as proof of ownership. Any person possessing an agricultural exemption permit and owning an all-terrain vehicle or a motorcycle used exclusively off roads or highways in this state which is purchased or the ownership of which is transferred on or after July 1, 2008, shall possess a certificate of title as proof of

ownership. Upon receipt of proper application information by such owner, Service Oklahoma shall issue an original or transfer certificate of title. Until July 1, 2008, any security interest in an all-terrain vehicle that attached and was perfected before July 1, 2005, and that has not otherwise terminated shall remain perfected, and shall take priority over any subsequently perfected security interest in the same all-terrain vehicle, notwithstanding that a certificate of title may have been issued with respect to the same all-terrain vehicle on or after July 1, 2005, and that a lien may have been recorded on said certificate of title. There shall be eight types of certificates of title:

1. Original title for any motor vehicle which is not a remanufactured, salvage, unrecovered-theft, rebuilt, rebodied or junked vehicle;

2. Salvage title for any motor vehicle which is a salvage vehicle or is specified as a salvage vehicle or the equivalent thereof on a certificate of title from another state;

3. Rebuilt title for any motor vehicle which is a rebuilt vehicle;

4. Junked title for any motor vehicle which is a junked vehicle or is specified as a junked vehicle or the equivalent thereof on a certificate of title from another state;

5. Classic title for any motor vehicle, except a junked vehicle, which is twenty-five (25) model years or older;

6. Remanufactured title for any vehicle which is a remanufactured vehicle;

7. Unrecovered-theft title for any motor vehicle which has been stolen and not recovered; and

8. Rebodied title for any motor vehicle which is a rebodied vehicle.

Application for a certificate of title, whether the initial certificate of title or a duplicate, may be made to Service Oklahoma or any licensed operator. When application is made with a licensed operator, the application information shall be transmitted either electronically or by mail to Service Oklahoma by the licensed operator. If the application information is transmitted electronically, the licensed operator shall forward the required application along with evidence of ownership, where required, by mail. Where the transmission of application information cannot be performed electronically, Service Oklahoma is authorized to provide postage paid envelopes to licensed operators for the purpose of mailing the application along with evidence of ownership, where required. Service Oklahoma shall upon receipt of proper application information issue an Oklahoma certificate of title. The certificates may be mailed to the applicant. Upon issuance of a certificate of title, Service Oklahoma shall provide the appropriate licensed operator with confirmation of such issuance.

C. 1. The application for certificate of title shall be upon a blank form furnished by Service Oklahoma, containing:

- a. a full description of the vehicle,
- b. the manufacturer's serial or other identification number,
- c. the motor number and the date on which first sold by the manufacturer or dealer to the owner,
- d. any distinguishing marks,
- e. a statement of the applicant's source of title,
- f. any security interest upon the vehicle, and
- g. such other information as Service Oklahoma may require.

2. The application for a certificate of title for a vehicle which is within the last seven (7) model years shall require a declaration as to whether the vehicle has been damaged by collision or other occurrence and whether the vehicle has been recovered from theft and the extent of the damage to the vehicle. The declaration shall be made by the owner of a vehicle if:

- a. the vehicle has been damaged or stolen,
- b. the owner did or did not receive any payment for the loss from an insurer, or
- c. the vehicle is titled or registered in a state that does not classify the vehicle or brand the title because of damage to or loss of the vehicle similar to the classifications or brands utilized by this state.

The declaration shall be based upon the best information and knowledge of the owner and shall be in addition to the requirements specified in paragraph 1 of this subsection. Service Oklahoma shall not issue a certificate of title for a vehicle which is subject to the provisions of this paragraph without the required declaration, completed and signed by the owner of the vehicle. Upon receipt of an application without the properly completed declaration, Service Oklahoma shall return the application to the applicant with notice that the title may not be issued without the required declaration. Nothing in this paragraph shall prohibit Service Oklahoma from recognizing the type of or brand on a title or other ownership document issued by another state or the inspection conducted in another state and issuing the appropriate certificate of title for the vehicle.

3. The certificate of title shall have the following security features:

- a. intaglio printing or security thread, with or without watermark,
- b. latent images,
- c. fluorescent inks,
- d. micro print,
- e. void background, and

f. color coding.

4. Each title issued pursuant to the provisions of the Oklahoma Vehicle License and Registration Act shall be color coded as determined by Service Oklahoma.

5. The certificate of title shall be of such size and design and color as Service Oklahoma may direct pursuant to the provisions of this section. The title shall be on colored paper or other material as designated by Service Oklahoma and be of such intensity or hue as will allow easy identification as to whether the title is an original title, a salvage title, a rebuilt title, remanufactured title, rebodied title or a junked title. The type of title shall be identified on the front of the certificate of title. The original title, rebuilt title, remanufactured title, an unrecovered-theft title, rebodied title or classic title shall be identified by the word "Original", "Rebuilt", "Remanufactured", "Unrecovered Theft", "Rebodied" or "Classic" printed in the upper right quadrant of the certificate of title, in the space which is currently captioned "type of title". A rebodied title shall also identify on the front of the title the year, make and model of the originally manufactured vehicle which has been rebodied and display a notation that reads as follows: "This vehicle has been assembled with new major components licensed by the original manufacturer."

D. 1. To obtain an original certificate of title for a vehicle that is being registered for the first time in this state which has not been previously registered in any other state, the applicant shall be required to deliver, as evidence of ownership, a manufacturer's certificate of origin properly assigned by the manufacturer, distributor, or dealer licensed in this or any other state shown thereon to be the last transferee to the applicant upon a form to be prescribed and approved by Service Oklahoma. A manufacturer's certificate of origin shall contain:

- a. the manufacturer's serial or other identification number,
- b. date on which first sold by the manufacturer to the dealer,
- c. any distinguishing marks including model and the year same was made,
- d. a statement of any security interests upon the vehicle, and
- e. such other information as Service Oklahoma may require.

2. The manufacturer's certificate of origin shall have the following security features:

- a. intaglio printing or security thread, with or without watermark,
- b. latent images,
- c. fluorescent inks,

- d. micro print, and
- e. void background.

E. In the absence of a dealer's or manufacturer's number, Service Oklahoma may assign such identifying number to the vehicle, which shall be permanently stamped, burned or pressed or attached into the vehicle, and a certificate of title shall be delivered to the applicant upon payment of all fees and taxes, and the remaining copies shall be permanently filed and indexed by Service Oklahoma. Service Oklahoma shall assign an identifying number to any rebuilt vehicle if the vehicle identification number displayed on the rebuilt vehicle does not accurately describe the vehicle as rebuilt. The licensed operator, at the time of inspection of the rebuilt vehicle pursuant to Section 1111 of this title, shall identify the make, model, and year for the body to accurately describe the rebuilt vehicle. At the time of the inspection, an appropriate identifying number shall be permanently stamped, burned, pressed, or attached on the rebuilt vehicle. The assigned identifying number shall be recorded on the certificate of title for the rebuilt vehicle. The dealer's or manufacturer's vehicle identification number on the rebuilt vehicle shall be preserved in the computer files of Service Oklahoma for at least five (5) years.

F. When registering for the first time in this state a vehicle which was not originally manufactured for sale in the United States, to obtain a certificate of title, Service Oklahoma shall require the applicant to deliver:

1. As evidence of ownership, if the vehicle has not previously been titled in the United States, the documents constituting valid proof of ownership in the country in which the vehicle was originally purchased, together with a notarized translation of any such documents; and

2. As evidence of compliance with federal law, copies of the bond release letters for the vehicle issued by the United States Environmental Protection Agency and the United States Department of Transportation, together with a receipt issued by the Internal Revenue Service indicating that the applicable federal gas guzzler tax has been paid.

Service Oklahoma shall not issue a certificate of title for a vehicle which is subject to the provisions of this paragraph without the required documentation from agencies of the United States and evidence of ownership. Upon receipt of an application without the required documentation, Service Oklahoma shall return the application to the applicant with notice that the certificate of title may not be issued without the required documentation. Nothing in this paragraph shall prohibit Service Oklahoma from issuing certificates of title for antique or classic vehicles not driven upon the public streets, roads, or highways, for mini-trucks

registered pursuant to Section 1151.3 of this title, or for medium-speed electric vehicles.

G. When registering in this state a vehicle which was titled in another state and which title contains the name of a secured party on the face of the other state certificate of title, or such state certificate is being held by the secured party in that state or any other state, Service Oklahoma or the licensed operator shall complete a lien entry form as prescribed by Service Oklahoma. The owner of such vehicle shall file an affidavit with Service Oklahoma or the licensed operator stating that title to the vehicle is being held by a secured party, has not been issued pursuant to the laws of the state where titled, and that there is an existing lien or encumbrance on the vehicle. The current name and address of the secured party or lienholder shall also be stated in the affidavit. The form of the affidavit shall be prescribed by Service Oklahoma and contain any other information deemed necessary by Service Oklahoma. A statement of the lien or encumbrance shall be included on the Oklahoma certificate of title and the lien or encumbrance shall be deemed continuously perfected as though it had been perfected pursuant to Section 1110 of this title. For completing the lien entry form and recording the security interest on the certificate of title, Service Oklahoma or the licensed operator shall collect a fee of Three Dollars (\$3.00) which shall be in addition to other fees provided by the Oklahoma Vehicle License and Registration Act. The fee, if collected by the licensed operator pursuant to this subsection, shall be retained by the licensed operator.

H. The charge for each certificate of title issued, except for junked titles as defined in paragraph 4 of subsection B of this section, shall be Eleven Dollars (\$11.00), which charge shall be in addition to any other fees or taxes imposed by law for such vehicle. One Dollar (\$1.00) of each such charge shall be deposited in the Oklahoma Tax Commission Reimbursement Fund through December 31, 2022, and beginning January 1, 2023, it shall be deposited in the Service Oklahoma Reimbursement Fund. However, the charge shall not apply to any vehicle which is to be registered in this state pursuant to the provisions of Section 1120 or 1133 of this title and which was registered in another state at least sixty (60) days prior to the time it is required to be registered in this state. When an insurer requests a salvage or junk title in the name of the insurer resulting from the settlement of a total loss claim and upon presentation of appropriate proof of loss documentation as required by Service Oklahoma, such transfer may be processed as one title transaction, without first requiring issuance of a replacement certificate of title in the name of the vehicle owner. The fee shall be Twenty-two Dollars (\$22.00). Two Dollars (\$2.00) of this

fee shall be deposited in the Oklahoma Tax Commission Reimbursement Fund.

I. The vehicle identification number of a junked vehicle shall be preserved in the computer files of Service Oklahoma for a period of not less than five (5) years. The charge of junked titles as defined in paragraph 4 of subsection B of this section shall be Four Dollars (\$4.00). The fee remitted to the Tax Commission shall be deposited in the Oklahoma Tax Commission Reimbursement Fund through December 31, 2022, and beginning January 1, 2023, this fee shall be deposited in the Service Oklahoma Reimbursement Fund.

J. If a vehicle is sold to a resident of another state destroyed, dismantled, or ceases to be used as a vehicle, the owner shall immediately notify Service Oklahoma. Absent evidence to the contrary, failure to notify Service Oklahoma shall be prima facie evidence that the vehicle has been in continuous operation in this state.

K. If a vehicle is stolen, the owner shall immediately notify the appropriate law enforcement agency. Immediately after receiving such notification, the law enforcement agency shall notify Service Oklahoma.

L. Except for all-terrain vehicles, utility vehicles and motorcycles used exclusively for off-road use, no title for an out-of-state vehicle, except any commercial truck or truck-tractor registered pursuant to Section 1120 of this title which is engaged in interstate commerce or any trailer or semitrailer registered pursuant to Section 1133 of this title which is engaged in interstate commerce, shall be issued without an inspection of such vehicle and payment of a fee of Four Dollars (\$4.00) for such inspection; provided, Service Oklahoma may enter into reciprocal agreements with other states for such inspections to be performed at locations outside the boundaries of this state for vehicles which:

1. Are offered for sale at auction;
2. Have been solely used as vehicles for rent under the ownership of a licensed motor vehicle dealer or a person engaged in the business of renting motor vehicles; or
3. Have not been registered in this or any other state for more than one (1) year.

The inspection shall include a comparison of the vehicle identification number on the vehicle with the number recorded on the ownership records and the recording of the actual odometer reading on the vehicle. An establishment engaged in vehicle rentals as defined or classified in the NAICS Manual under Industry No. 532111, shall be exempt from the inspection required pursuant to this subsection; provided, the establishment shall be required to submit payment of any fees required pursuant to this subsection when the title is issued. The four-dollar fee shall be collected by the licensed operator or Service Oklahoma when the title is issued. The

licensed operator shall retain Two Dollars (\$2.00). The remaining Two Dollars (\$2.00) shall be deposited in the Oklahoma Tax Commission Reimbursement Fund through December 31, 2022, and beginning January 1, 2023, this fee shall be deposited in the Service Oklahoma Reimbursement Fund.

Service Oklahoma may allow the inspection to be performed at a location out-of-state by another state's department of motor vehicles or state police.

M. No title for any out-of-state vehicle offered for sale at salvage pools, salvage disposal sales, or an auction, or by a dealer or a licensed automotive dismantler and parts recycler, shall be issued without an inspection to compare the vehicle identification number on the vehicle with the number recorded on the ownership record and to record the actual odometer reading on the vehicle. Upon request of the seller, person or entity conducting an auction, dealer or licensed dismantler, the inspection shall be conducted at the location or place of business of the sale, auction, dealer, or the dismantler. The inspection shall be conducted by any licensed operator or a duly authorized employee thereof; provided, if the vehicle identification number on the vehicle offered for sale at salvage pools, salvage disposal sales or a classic or antique auction does not match the number recorded on the ownership record, the inspection may be conducted at the location of or place of business of such sale or auction by any state, county or city law enforcement officer. Service Oklahoma may enter into reciprocal agreements with other states for such inspections to be performed at locations outside the boundaries of this state for vehicles which:

1. Are offered for sale at auction;
2. Have been solely used as vehicles for rent under the ownership of a licensed motor vehicle dealer or a person engaged in the business of renting motor vehicles; or
3. Have not been registered in this or any other state for more than one (1) year.

The inspection shall be certified upon forms prescribed by Service Oklahoma. The name and other identification of the authorized person conducting the inspection shall be legibly printed or typed on the form. Prior to any inspection by any employee of a licensed operator, the licensed operator shall notify Service Oklahoma of the name and any other identification information requested by Service Oklahoma of the authorized person. A signature specimen of the authorized person shall be submitted to Service Oklahoma by the employing licensed operator. If the authorization to inspect vehicles is withdrawn or the employer-employee relationship is terminated, the licensed operator, immediately, shall notify Service Oklahoma and return any remaining inspection forms to Service Oklahoma. The fee for the inspection shall be Four Dollars (\$4.00). The licensed operator shall retain Three Dollars (\$3.00) of the fee.

Fees received by a licensed operator or an authorized employee thereof shall be handled and accounted for in the manner as prescribed by law for any other fees paid to or received by a licensed operator. Out-of-state vehicles brought into this state by a person licensed in another state to sell new or used vehicles to be sold within this state at a motor vehicle auction which is limited to dealer-to-dealer transactions shall not be required to be inspected, unless the vehicle is purchased by an Oklahoma dealer. A rebodied title shall also identify on the front of the title the year, make and model of the originally manufactured vehicle which has been rebodied and display a notation that reads as follows: "This vehicle has been assembled with new major components licensed by the original manufacturer."

D. 1. To obtain an original certificate of title for a vehicle that is being registered for the first time in this state which has not been previously registered in any other state, the applicant shall be required to deliver, as evidence of ownership, a manufacturer's certificate of origin properly assigned by the manufacturer, distributor, or dealer licensed in this or any other state shown thereon to be the last transferee to the applicant upon a form to be prescribed and approved by Service Oklahoma. A manufacturer's certificate of origin shall contain:

- a. the manufacturer's serial or other identification number,
- b. date on which first sold by the manufacturer to the dealer,
- c. any distinguishing marks including model and the year same was made,
- d. a statement of any security interests upon the vehicle, and
- e. such other information as Service Oklahoma may require.

2. The manufacturer's certificate of origin shall have the following security features:

- a. intaglio printing or security thread, with or without watermark,
- b. latent images,
- c. fluorescent inks,
- d. micro print, and
- e. void background.

E. In the absence of a dealer's or manufacturer's number, Service Oklahoma may assign such identifying number to the vehicle, which shall be permanently stamped, burned or pressed or attached into the vehicle, and a certificate of title shall be delivered to the applicant upon payment of all fees and taxes, and the remaining copies shall be permanently filed and indexed by Service Oklahoma. Service Oklahoma shall assign an identifying number to any rebuilt vehicle if the vehicle identification number displayed on the rebuilt vehicle does not accurately describe the vehicle as rebuilt. The licensed operator, at the time of inspection of the rebuilt vehicle pursuant to Section 1111 of this title, shall identify the make, model, and year for the body to accurately describe the

rebuilt vehicle. At the time of the inspection, an appropriate identifying number shall be permanently stamped, burned, pressed, or attached on the rebuilt vehicle. The assigned identifying number shall be recorded on the certificate of title for the rebuilt vehicle. The dealer's or manufacturer's vehicle identification number on the rebuilt vehicle shall be preserved in the computer files of Service Oklahoma for at least five (5) years.

F. When registering for the first time in this state a vehicle which was not originally manufactured for sale in the United States, to obtain a certificate of title, Service Oklahoma shall require the applicant to deliver:

1. As evidence of ownership, if the vehicle has not previously been titled in the United States, the documents constituting valid proof of ownership in the country in which the vehicle was originally purchased, together with a notarized translation of any such documents; and

2. As evidence of compliance with federal law, copies of the bond release letters for the vehicle issued by the United States Environmental Protection Agency and the United States Department of Transportation, together with a receipt issued by the Internal Revenue Service indicating that the applicable federal gas guzzler tax has been paid.

Service Oklahoma shall not issue a certificate of title for a vehicle which is subject to the provisions of this paragraph without the required documentation from agencies of the United States and evidence of ownership. Upon receipt of an application without the required documentation, Service Oklahoma shall return the application to the applicant with notice that the certificate of title may not be issued without the required documentation. Nothing in this paragraph shall prohibit Service Oklahoma from issuing certificates of title for antique or classic vehicles not driven upon the public streets, roads, or highways, for mini-trucks registered pursuant to Section 1151.3 of this title, or for medium-speed electric vehicles.

G. When registering in this state a vehicle which was titled in another state and which title contains the name of a secured party on the face of the other state certificate of title, or such state certificate is being held by the secured party in that state or any other state, Service Oklahoma or the licensed operator shall complete a lien entry form as prescribed by Service Oklahoma. The owner of such vehicle shall file an affidavit with Service Oklahoma or the licensed operator stating that title to the vehicle is being held by a secured party, has not been issued pursuant to the laws of the state where titled, and that there is an existing lien or encumbrance on the vehicle. The current name and address of the secured party or lienholder shall also be stated in the affidavit. The form of the affidavit shall be prescribed by Service Oklahoma

and contain any other information deemed necessary by Service Oklahoma. A statement of the lien or encumbrance shall be included on the Oklahoma certificate of title and the lien or encumbrance shall be deemed continuously perfected as though it had been perfected pursuant to Section 1110 of this title. For completing the lien entry form and recording the security interest on the certificate of title, Service Oklahoma or the licensed operator shall collect a fee of Three Dollars (\$3.00) which shall be in addition to other fees provided by the Oklahoma Vehicle License and Registration Act. The fee, if collected by the licensed operator pursuant to this subsection, shall be retained by the licensed operator.

H. The charge for each certificate of title issued, except for junked titles as defined in paragraph 4 of subsection B of this section, shall be Eleven Dollars (\$11.00), which charge shall be in addition to any other fees or taxes imposed by law for such vehicle. One Dollar (\$1.00) of each such charge shall be deposited in the Oklahoma Tax Commission Reimbursement Fund through December 31, 2022, and beginning January 1, 2023, it shall be deposited in the Service Oklahoma Reimbursement Fund. However, the charge shall not apply to any vehicle which is to be registered in this state pursuant to the provisions of Section 1120 or 1133 of this title and which was registered in another state at least sixty (60) days prior to the time it is required to be registered in this state. When an insurer requests a salvage or junk title in the name of the insurer resulting from the settlement of a total loss claim and upon presentation of appropriate proof of loss documentation as required by Service Oklahoma, such transfer may be processed as one title transaction, without first requiring issuance of a replacement certificate of title in the name of the vehicle owner. The fee shall be Twenty-two Dollars (\$22.00). Two Dollars (\$2.00) of this fee shall be deposited in the Oklahoma Tax Commission Reimbursement Fund.

I. The vehicle identification number of a junked vehicle shall be preserved in the computer files of Service Oklahoma for a period of not less than five (5) years. The charge of junked titles as defined in paragraph 4 of subsection B of this section shall be Four Dollars (\$4.00). The fee remitted to the Tax Commission shall be deposited in the Oklahoma Tax Commission Reimbursement Fund through December 31, 2022, and beginning January 1, 2023, this fee shall be deposited in the Service Oklahoma Reimbursement Fund.

J. If a vehicle is sold to a resident of another state destroyed, dismantled, or ceases to be used as a vehicle, the owner shall immediately notify Service Oklahoma. Absent evidence to the contrary, failure to notify Service Oklahoma shall be prima facie evidence that the vehicle has been in continuous operation in this state.

K. If a vehicle is stolen, the owner shall immediately notify the appropriate law enforcement agency. Immediately after receiving such notification, the law enforcement agency shall notify Service Oklahoma.

L. Except for all-terrain vehicles, utility vehicles and motorcycles used exclusively for off-road use, no title for an out-of-state vehicle, except any commercial truck or truck-tractor registered pursuant to Section 1120 of this title which is engaged in interstate commerce or any trailer or semitrailer registered pursuant to Section 1133 of this title which is engaged in interstate commerce, shall be issued without an inspection of such vehicle and payment of a fee of Four Dollars (\$4.00) for such inspection; provided, Service Oklahoma may enter into reciprocal agreements with other states for such inspections to be performed at locations outside the boundaries of this state for vehicles which:

1. Are offered for sale at auction;
2. Have been solely used as vehicles for rent under the ownership of a licensed motor vehicle dealer or a person engaged in the business of renting motor vehicles; or
3. Have not been registered in this or any other state for more than one (1) year.

The inspection shall include a comparison of the vehicle identification number on the vehicle with the number recorded on the ownership records and the recording of the actual odometer reading on the vehicle. The four-dollar fee shall be collected by the licensed operator or Service Oklahoma when the title is issued. The licensed operator shall retain Two Dollars (\$2.00). The remaining Two Dollars (\$2.00) shall be deposited in the Oklahoma Tax Commission Reimbursement Fund through December 31, 2022, and beginning January 1, 2023, this fee shall be deposited in the Service Oklahoma Reimbursement Fund.

Service Oklahoma may allow the inspection to be performed at a location out-of-state by another state's department of motor vehicles or state police.

M. No title for any out-of-state vehicle offered for sale at salvage pools, salvage disposal sales, or an auction, or by a dealer or a licensed automotive dismantler and parts recycler, shall be issued without an inspection to compare the vehicle identification number on the vehicle with the number recorded on the ownership record and to record the actual odometer reading on the vehicle. Upon request of the seller, person or entity conducting an auction, dealer or licensed dismantler, the inspection shall be conducted at the location or place of business of the sale, auction, dealer, or the dismantler. The inspection shall be conducted by any licensed operator or a duly authorized employee thereof; provided, if the vehicle identification number on the vehicle offered for sale at salvage pools, salvage disposal sales or a classic or antique

auction does not match the number recorded on the ownership record, the inspection may be conducted at the location of or place of business of such sale or auction by any state, county or city law enforcement officer. Service Oklahoma may enter into reciprocal agreements with other states for such inspections to be performed at locations outside the boundaries of this state for vehicles which:

1. Are offered for sale at auction;
2. Have been solely used as vehicles for rent under the ownership of a licensed motor vehicle dealer or a person engaged in the business of renting motor vehicles; or
3. Have not been registered in this or any other state for more than one (1) year.

The inspection shall be certified upon forms prescribed by Service Oklahoma. The name and other identification of the authorized person conducting the inspection shall be legibly printed or typed on the form. Prior to any inspection by any employee of a licensed operator, the licensed operator shall notify Service Oklahoma of the name and any other identification information requested by Service Oklahoma of the authorized person. A signature specimen of the authorized person shall be submitted to Service Oklahoma by the employing licensed operator. If the authorization to inspect vehicles is withdrawn or the employer-employee relationship is terminated, the licensed operator, immediately, shall notify Service Oklahoma and return any remaining inspection forms to Service Oklahoma. The fee for the inspection shall be Four Dollars (\$4.00). The licensed operator shall retain Three Dollars (\$3.00) of the fee. Fees received by a licensed operator or an authorized employee thereof shall be handled and accounted for in the manner as prescribed by law for any other fees paid to or received by a licensed operator. Out-of-state vehicles brought into this state by a person licensed in another state to sell new or used vehicles to be sold within this state at a motor vehicle auction which is limited to dealer-to-dealer transactions shall not be required to be inspected, unless the vehicle is purchased by an Oklahoma dealer. Any person licensed in another state to sell new or used motor vehicles, who offers a motor vehicle for sale within this state at a motor vehicle auction which is limited to dealer-to-dealer transactions, shall not be within the definition of "owner" in Section 1102 of this title, for purposes of Section 1101 et seq. of this title.

N. A licensed motor vehicle dealer, upon payment of a fee of Fifteen Dollars (\$15.00), may reassign an out-of-state certificate of title to a used motor vehicle provided such dealer obtains the appropriate inspection form required by either subsection L or M of this section and attaches the form to the out-of-state certificate of title. Licensed operators shall be allowed to retain Two Dollars and twenty-five cents (\$2.25) of the fee plus an additional Two

Dollars (\$2.00) or Three Dollars (\$3.00) as provided in subsections L and M of this section for performance of the inspection. Two Dollars (\$2.00) of the fee shall be deposited in the Service Oklahoma Reimbursement Fund. An out-of-state vehicle which has been rebuilt shall be inspected pursuant to the provisions of Section 1111 of this title. Service Oklahoma shall train licensed operators in interpreting vehicle identification numbers to assure that it accurately describes the vehicle and to detect rollback or alteration of the odometer. Failure of a licensed operator to inspect the vehicle and make the required notations shall be a misdemeanor punishable by a fine of not more than One Thousand Dollars (\$1,000.00) for the first offense and Five Thousand Dollars (\$5,000.00) for the second offense or subsequent offense, or by imprisonment in the county jail for not more than six (6) months, or by both such fine and imprisonment.

O. The ownership of any unrecovered vehicle which has been declared a total loss by an insurer because of theft shall be transferred to the insurer by an unrecovered-theft vehicle title; provided, the ownership of any such vehicle which has been declared a total loss by an insurer licensed by the Insurance Department of the State of Oklahoma and maintaining a multi-state motor vehicle salvage processing center in this state shall be transferred to the insurer by a salvage or an unrecovered-theft title without the requirement of a visual inspection of the vehicle identification number by the insurer. Upon recovery of the vehicle, the ownership shall be transferred by an original title, salvage title, or junked title, as may be appropriate based upon an estimate of the amount of loss submitted by the insurer.

P. When an insurance company makes a total loss settlement on a total loss vehicle and the insurance company or a salvage pool authorized by the insurance company is unable to obtain the properly endorsed certificate of ownership or other evidence of ownership acceptable to Service Oklahoma within thirty (30) days following acceptance by the owner of an offer of an amount in settlement of a total loss, that insurance company or salvage pool, on a form provided by Service Oklahoma and signed under penalty of perjury, may request Service Oklahoma to issue the applicable salvage title for the vehicle. The request shall include information declaring that the requester has made at least two written attempts to obtain the certificate of ownership or other acceptable evidence of title.

Q. The owner of any vehicle which is incapable of operation or use on the public roads and has no resale value, except as parts, scrap or junk, may deliver the certificate of title to the vehicle to Service Oklahoma for cancellation. Upon verification that any perfected lien against the vehicle has been released, the certificate of title shall be canceled without any fee, charge, or cost required from the owner. The vehicle identification numbers on

the certificates of title shall be preserved in the computer files of Service Oklahoma for at least five (5) years from the date of cancellation of the certificate of title. Service Oklahoma shall prescribe and provide an affidavit form to be completed by the owner of any vehicle for which the certificate of title is canceled. No title or registration shall subsequently be issued for a vehicle for which the certificate of title has been surrendered pursuant to this subsection. Service Oklahoma shall prescribe a form for the transfer of ownership of a vehicle for which the certificate of title has been canceled.

R. The owner of a vehicle which is not within the last ten (10) model years, not roadworthy and not capable of repair for operation or use on the roads and highways, or a vehicle which is being sold to a scrap metal dealer pursuant to Section 11-92 of Title 2 of the Oklahoma Statutes, shall transfer the vehicle only upon a certificate of ownership prescribed by Service Oklahoma, if the certificate of title to the vehicle is lost, has been canceled, or otherwise not available. The prescribed ownership form shall include the names and addresses of the buyer and seller, the driver license number or Social Security number of the seller, the make and model of the vehicle, and the public vehicle identification number. If there is no public vehicle identification number, the vehicle shall be inspected by a law enforcement officer to verify the absence of the number on the vehicle and the prescribed ownership form shall include a signed statement, by such officer, verifying the absence of the number.

The certificate of ownership shall be completed in triplicate. The buyer and seller shall each retain a copy. Within thirty (30) days of the transaction, the seller shall submit one copy to Service Oklahoma or a licensed operator accompanied with a fee of Four Dollars (\$4.00). One Dollar (\$1.00) shall be retained by the licensed operator and Three Dollars (\$3.00) shall be deposited in the Oklahoma Tax Commission Reimbursement Fund in the State Treasury through December 31, 2022, and beginning January 1, 2023, this fee shall be deposited in the Service Oklahoma Reimbursement Fund.

Upon receipt of the certificate, Service Oklahoma shall verify that any perfected lien upon the vehicle has been released. If the lien is not released, Service Oklahoma shall mail notice of the transfer to the lienholder at the lienholder's last-known address. If a certificate of title has been issued, it shall be canceled and the vehicle identification number shall be preserved in the computer of Service Oklahoma for at least five (5) years. The buyer of the vehicle may not be sued and shall not be liable for monetary damages to the lienholder, however, the vehicle shall be subject to a valid repossession by a lienholder.

S. Service Oklahoma shall notify the chief administrative officer of the agency or department responsible for issuing motor

vehicle certificates of title in each state in the United States of the types of motor vehicle certificate of title effective in Oklahoma on and after January 1, 1989.

T. When registering for the first time in this state a remanufactured vehicle which has not been registered in any other state since its remanufacture, before issuing a certificate of title, Service Oklahoma shall require the applicant to deliver a statement of origin from the remanufacturer.

U. If a vehicle is sold to a foreign buyer pursuant to the provisions of the Automotive Dismantlers and Parts Recycler Act, the licensed seller shall stamp the title with: "EXPORT ONLY. NONTRANSFERABLE IN THE UNITED STATES." The licensed seller shall supply Service Oklahoma the title number, the vehicle identification number and the foreign buyer's bid identification number on a form prescribed by Service Oklahoma. Service Oklahoma shall cancel the title, and the vehicle identification number shall be preserved in the computer files of Service Oklahoma for a period of not less than five (5) years.

V. Service Oklahoma shall not be considered a necessary party to any lawsuit which is instigated for the purpose of determining ownership of a vehicle, wherein Service Oklahoma's only involvement would be to issue title, and the court shall issue an order dismissing Service Oklahoma from the pending action. In the event no other party or lienholder can be identified as to ownership or claim, Service Oklahoma shall accept an affidavit of ownership from the party claiming ownership and issue proper title thereon.

§47-1107. Sale or transfer of ownership of vehicle - Violations - Penalties.

A. In the event of the sale or transfer of the ownership of a vehicle for which a certificate of title has been issued as provided

by Section 1105 of this title, the holder of such certificate shall endorse on the back of same a complete assignment thereof with warranty of title in form printed thereon with a statement of all liens or encumbrances on the vehicle, sworn to before a notary public or some other person authorized by law to take acknowledgments, and deliver same to the purchaser or transferee at the time of delivery to the purchaser or transferee of the vehicle; provided, a transfer of the ownership of a vehicle to an insurer resulting from the settlement of a total loss claim shall not require a notarized signature on the certificate of title. In the event that any other documents used for a transfer of the ownership of a vehicle to an insurer resulting from the settlement of a total loss claim require a notarized signature, the documents shall be permitted to be signed electronically pursuant to Section 15-109 of Title 12A of the Oklahoma Statutes. These supporting documents shall include but are not limited to vehicle powers of attorney forms and an odometer statement. The purchaser or transferee, unless such person is a bona fide used motor vehicle dealer licensed by this state, a retail implement dealer in connection with the purchase or transfer of off-road vehicles or a charitable organization shall, within thirty (30) days from the time of delivery to the purchaser or transferee of the vehicle, present the assigned certificate of title and the insurance security verification to the vehicle to Service Oklahoma, or one of its licensed operators, accompanied by a fee of Eleven Dollars (\$11.00), together with any motor vehicle excise tax or license fee that may be due, whereupon a new certificate of title, shall be issued to the assignee. Except for a security interest in vehicles held by a dealer for sale or lease, a vehicle registered by a federally recognized Indian tribe as provided in subsection G of this section, and a vehicle being registered in this state which was previously registered in another state and which title contains the name of a secured party on the face of the other state certificate or title, and except as otherwise provided in subsection B of Section 1105 of this title, a security interest in a vehicle as to which a certificate of title may be properly issued by the Oklahoma Tax Commission shall be perfected only when a lien entry form, and the existing certificate of title, if any, or application for a certificate of title and manufacturer's certificate of origin containing the name and address of the secured party and the date of the security agreement and the required fee are delivered to the Tax Commission or to a motor license agent. As used in this section, the term "dealer" shall be defined as provided in Section 1-112 of this title and the term "security interest" shall be defined as provided in paragraph (35) of Section 1-201 of Title 12A of the Oklahoma Statutes. For the purposes of this section, the term "vehicle" shall not include special mobilized machinery, machinery used in highway construction or road material construction, and rubber-tired road construction vehicles including rubber-tired cranes. The filing and duration of perfection of a security interest, pursuant to the provisions of Title 12A of the Oklahoma Statutes including, but not limited to, Section 1-9-311 of Title 12A of the Oklahoma Statutes, shall not be applicable to perfection of security interests in vehicles as to which a certificate of title may be properly issued by the Tax Commission, except as to vehicles held by a dealer for sale or lease and except as provided in subsection D of this section. 3. a. For each security interest recorded on a certificate of title, or manufacturer's certificate of origin, such person shall pay a fee of Ten Dollars (\$10.00), which shall be in addition to other fees provided for in the Oklahoma Vehicle License and Registration Act. Of the ten-dollar fee, the motor license agent shall retain Two Dollars (\$2.00) for recording the security interest lien.

b. It shall be unlawful for any person to solicit, accept, or receive any gratuity or compensation for acting as a messenger and for acting as the agent or representative of another person in applying for the recording of a security interest or for the registration of a motor vehicle and obtaining the license plates or for the issuance of a certificate of title therefor unless the Tax Commission has appointed and approved the person to perform such acts; and before acting as a messenger, any such person shall furnish to the Tax Commission a surety bond in such

amount as the Tax Commission shall determine appropriate.

4. The certificate of title or the application for certificate of title and manufacturer's certificate of origin with the record of the date of receipt clearly marked thereon shall be returned to the debtor together with a notice that the debtor is required to register and pay all additional fees and taxes due within thirty (30) days from the date of purchase of the vehicle.

5. Any person creating a security interest in a vehicle that has been previously registered in the debtor's name and on which all taxes due the state have been paid shall surrender the certificate of ownership to the secured party. The secured party shall have the duty to record the security interest as provided in this section and shall, at the same time, obtain a new certificate of title which shall show the secured interest on the face of the certificate of title.

6. The lien entry form with the date and assigned number thereof clearly marked thereon shall be returned to the secured party. If the lien entry form is received and authenticated, as herein provided, by a motor license agent, the agent shall make a report thereof to the Tax Commission upon the forms and in the manner as may be prescribed by the Tax Commission.

7. The Tax Commission shall have the duty to record the lien upon the face of the certificate of title issued at the time of registering and paying all fees and taxes due on the vehicle.

8. When there is an active lien from a commercial lender in place on a vehicle, motor license agents shall be prohibited from transferring the certificate of title on that vehicle until the lien is satisfied, except when the title is transferred:

- a. to a person whose name is included on the loan for which the lien is placed pursuant to an agreement by the lender and any party to the title,
- b. to a trust created by a person whose name is included on the loan for which the lien is placed,
- c. from a person who has died, upon the submission of a death certificate, or
- d. upon attestation by the managing member indicating ownership, to a business entity from a person who owns at least fifty percent (50%) of the business entity receiving title. As part of such transfer, the business entity receiving title and at the discretion of the financial institution holding the lien, the individual transferring title and the receiving business entity may be added as an obligor to the original note secured by the collateral to which the transferring individual is a borrower. This shall not be construed to require refinancing of the original

note. Service Oklahoma shall provide notification of the transaction to the lienholder, ninety (90) days prior to effectuating the title transfer and shall develop an appropriate affidavit and notice necessary to effectuate a transfer of title. A title transfer initiated pursuant to this subparagraph shall not preclude the lienholder from exercising all remedies available to it in accordance with an agreement between the lienholder and the individual transferring title, up to and including repossession of the vehicle and civil action against the individual transferring title and receiving business entity. Further, until the original lien is satisfied, the receiving business entity shall be prohibited from transferring title to another entity or person. Types of business entities that may receive a transfer of title pursuant to this subparagraph shall be limited to:

- (1) sole proprietorships,
- (2) general partnerships,
- (3) limited partnerships,
- (4) limited liability companies,
- (5) professional limited partnerships, and
- (6) professional limited liability companies.

No individual may perform a transfer, pursuant to this subparagraph, to any business entity that is currently engaging in any activity which is prohibited by federal or state law.

The provisions of this paragraph shall not be construed to release any lien or debt based solely upon a transfer of certificate of title.

B. 1. A secured party shall, within seven (7) business days after the satisfaction of the security interest, furnish directly or by mail a release of a security interest to the Tax Commission and mail a copy thereof to the last-known address of the debtor. If the security interest has been satisfied by payment from a licensed used motor vehicle dealer to whom the motor vehicle has been transferred, the secured party shall also, within seven (7) business days after such satisfaction, mail an additional copy of the release to the dealer. If the secured party fails to furnish the release as required, the secured party shall be liable to the debtor for a penalty of One Hundred Dollars (\$100.00). Following the seven (7) business days after satisfaction of the lien and upon receipt by the lienholder of written communication demanding the release of the lien, thereafter the penalty shall increase to One Hundred Dollars (\$100.00) per day for each additional day beyond seven (7) business days until accumulating to One Thousand Five Hundred Dollars

(\$1,500.00) or the value of the vehicle, whichever is less, and, in addition, any loss caused to the debtor by such failure.

2. Upon release of a security interest the owner may obtain a new certificate of title omitting reference to the security interest, by submitting to the Tax Commission or to a motor license agent:

- a. a release signed by the secured party, an application for new certificate of title and the proper fees, or
- b. by submitting to the Tax Commission or the motor license agent an affidavit, supported by such documentation as the Tax Commission may require, by the owner on a form prescribed by the Tax Commission stating that the security interest has been satisfied and stating the reasons why a release cannot be obtained, an application for a new certificate of title and the proper fees.

Upon receiving such affidavit that the security interest has been satisfied, the Tax Commission shall issue a new certificate of title eliminating the satisfied security interest and the name and address of the secured parties who have been paid and satisfied. The Tax Commission shall accept a release of a security interest in any form that identifies the debtor, the secured party, and the vehicle, and contains the signature of the secured party. The Tax Commission shall not require any particular form for the release of a security interest.

The words "security interest" when used in the Oklahoma Vehicle License and Registration Act do not include liens dependent upon possession.

C. The Tax Commission shall file and index certificates of title so that at all times it will be possible to trace a certificate of title to the vehicle designated therein, identify the lien entry form, and the names and addresses of secured parties, or their assignees, so that all or any part of such information may be made readily available to those who make legitimate inquiry of the Tax Commission as to the existence or nonexistence of security interest in the vehicle.

D. 1. Any security interest in a vehicle properly perfected prior to July 1, 1979, may be continued as to its effectiveness or duration as provided by Sections 1-9-510 and 1-9-515 of Title 12A of the Oklahoma Statutes, or may be terminated, assigned or released as provided by Sections 1-9-512, 1-9-513 and 1-9-514 of Title 12A of the Oklahoma Statutes, as fully as if this section had not been enacted, or, at the option of the secured party, may also be perfected under this section, and, if so perfected, the time of perfection under this section shall be the date the security interest was originally perfected under the prior law.

2. Upon request of the secured party, the debtor, or any other holder of the certificate of title shall surrender the certificate of title to the secured party and shall do such other acts as may be required to perfect the security interest under this section.

E. If a manufactured home is permanently affixed to real estate, an Oklahoma certificate of title may be surrendered to the Tax Commission or a motor license agent for cancellation. When the document of title is surrendered, the owner shall provide the legal description or the appropriate tract or parcel number of the real estate and other information as may be required on a form provided by the Tax Commission. The Tax Commission may not cancel a document of title if a lien has been registered or recorded. The Tax Commission or motor license agent shall notify the owner and any lienholder that the title has been surrendered to the Tax Commission and that the Tax Commission may not cancel the title until the lien is released. Such notification shall include a description of the lien and such notification to the owner shall be accompanied by the return of title surrendered. Permanent attachment to real estate does not affect the validity of a lien recorded or registered with the Tax Commission before the document of title is canceled pursuant to this section. The rights of a prior lienholder pursuant to a security agreement or the provisions of a credit transaction and the rights of the state pursuant to a tax lien are preserved. The Tax Commission or motor license agent shall forward the information to the county assessor of the county where the real estate is located and indicate whether the original document of title has been canceled. A fee of Five Dollars (\$5.00) shall accompany the application for cancellation of title. When the fee is paid by a person making an application directly with the Tax Commission, the fee shall be deposited in the Oklahoma Tax Commission Revolving Fund. A fee paid to a motor license agent shall be retained by the agent. The owner of a manufactured home upon which the document of title has been properly surrendered, may apply to the Tax Commission for issuance of a new original certificate of title upon submission of:

1. An attestation from the homeowner indicating ownership of the manufactured home and the nonexistence of any security interest or lien of record in the manufactured home; and

2. A title opinion by a licensed attorney, determining that the owner of the manufactured home has marketable title to the real property upon which the manufactured home is located and that no documents filed of record in the county clerk's office concerning the real property contain a mortgage, recorded financial statement, judgment, or lien of record. Persons or entities to whom the title opinion is addressed may rely on the title opinion. A security interest in a manufactured home perfected pursuant to this section shall have priority over a conflicting interest of a mortgagee or

other lien encumbrancer, or the owner of the real property upon which the manufactured home became affixed or otherwise permanently attached. The holder of the security interest in the manufactured home, upon default, may remove the manufactured home from such real property. The holder of the security interest in the manufactured home shall reimburse the owner of the real property who is not the debtor and who has not otherwise agreed to access the real property for the cost of repair of any physical injury to the real property, but shall not be liable for any diminution in value to the real property caused by the removal of the manufactured home, trespass, or any other damages caused by the removal. The debtor shall notify the holder of the security interest in the manufactured home of the street address, if any, and the legal description of the real property upon which the manufactured home is affixed or otherwise permanently attached and shall sign such other documents, including any appropriate mortgage, as may reasonably be requested by the holder of such security interest.

F. In the case of motor vehicles or trailers, notwithstanding any other provision of law, a transaction does not create a sale or security interest merely because it provides that the rental price is permitted or required to be adjusted under the agreement either upward or downward by reference to the amount realized upon sale or other disposition of the motor vehicle or trailer.

G. A security interest in vehicles registered by a federally recognized Indian tribe shall be deemed valid under Oklahoma law if validly perfected under the applicable tribal law and the lien is noted on the face of the tribal certificate of title.

§47-1110v2. Perfection of security interest - Release - Filing and indexing - Effectiveness, duration, assignment or termination - Priority in manufactured home.

A. 1. Except for a security interest in vehicles held by a dealer for sale or lease, a vehicle registered by a federally recognized Indian tribe as provided in subsection G of this section, and a vehicle being registered in this state which was previously registered in another state and which title contains the name of a secured party on the face of the other state certificate or title, and except as otherwise provided in subsection B of Section 1105 of this title, a security interest in a vehicle as to which a certificate of title may be properly issued by Service Oklahoma shall be perfected only when a lien entry form, and the existing certificate of title, if any, or application for a certificate of title and manufacturer's certificate of origin containing the name and address of the secured party and the date of the security agreement and the required fee are delivered to Service Oklahoma or to a licensed operator. As used in this section, the term "dealer" shall be defined as provided in Section 1-112 of this title and the term "security interest" shall be defined as provided in paragraph (35) of Section 1-201 of Title 12A of the Oklahoma Statutes. When a vehicle title is presented to a licensed operator for transferring or registering and the documents reflect a lienholder, the licensed operator shall perfect the lien pursuant to subsection G of Section 1105 of this title. For the purposes of this section, the term "vehicle" shall not include special mobilized machinery, machinery used in highway construction or road material construction and rubber-tired road construction vehicles including rubber-tired cranes. The filing and duration of perfection of a security interest, pursuant to the provisions of Title 12A of the Oklahoma Statutes, including, but not limited to, Section 1-9-311 of Title 12A of the Oklahoma Statutes, shall not be applicable to perfection of security interests in vehicles as to which a certificate of title may be properly issued by Service Oklahoma, except as to vehicles held by a dealer for sale or lease and except as provided in subsection D of this section. In all other respects Title 12A of the Oklahoma Statutes shall be applicable to such security interests in vehicles as to which a certificate of title may be properly issued by Service Oklahoma.

2. Whenever a person creates a security interest in a vehicle, the person shall surrender to the secured party the certificate of title or the signed application for a new certificate of title, on the form prescribed by Service Oklahoma, and the manufacturer's certificate of origin. The secured party shall deliver the lien entry form and the required lien filing fee within twenty-five (25) days as provided hereafter with certificate of title or the

application for certificate of title and the manufacturer's certificate of origin to Service Oklahoma or to a licensed operator. If the lien entry form, the lien filing fee and the certificate of title or application for certificate of title and the manufacturer's certificate of origin are delivered to Service Oklahoma or to a licensed operator within twenty-five (25) days after the date of the lien entry form, perfection of the security interest shall begin from the date of the execution of the lien entry form, but otherwise, perfection of the security interest shall begin from the date of the delivery to Service Oklahoma or to a licensed operator.

3. a. For each security interest recorded on a certificate of title, or manufacturer's certificate of origin, such person shall pay a fee of Ten Dollars (\$10.00), which shall be in addition to other fees provided for in the Oklahoma Vehicle License and Registration Act. Upon the receipt of the lien entry form and the required fees with either the certificate of title or an application for certificate of title and manufacturer's certificate of origin, a licensed operator shall, by placement of a clearly distinguishing mark, record the date and number shown in a conspicuous place, on each of these instruments. Of the ten-dollar fee, the licensed operator shall retain Two Dollars (\$2.00) for recording the security interest lien.

b. It shall be unlawful for any person to solicit, accept or receive any gratuity or compensation for acting as a messenger and for acting as the agent or representative of another person in applying for the recording of a security interest or for the registration of a motor vehicle and obtaining the license plates or for the issuance of a certificate of title therefor unless Service Oklahoma has appointed and approved the person to perform such acts; and before acting as a messenger, any such person shall furnish to Service Oklahoma a surety bond in such amount as Service Oklahoma shall determine appropriate.

4. The certificate of title or the application for certificate of title and manufacturer's certificate of origin with the record of the date of receipt clearly marked thereon shall be returned to the debtor together with a notice that the debtor is required to register and pay all additional fees and taxes due within thirty (30) days from the date of purchase of the vehicle.

5. Any person creating a security interest in a vehicle that has been previously registered in the debtor's name and on which all taxes due the state have been paid shall surrender the certificate

of ownership to the secured party. The secured party shall have the duty to record the security interest as provided in this section and shall, at the same time, obtain a new certificate of title which shall show the secured interest on the face of the certificate of title.

6. The lien entry form with the date and assigned number thereof clearly marked thereon shall be returned to the secured party. If the lien entry form is received and authenticated, as herein provided, by a licensed operator, the licensed operator shall make a report thereof to Service Oklahoma upon the forms and in the manner as may be prescribed by Service Oklahoma.

7. Service Oklahoma shall have the duty to record the lien upon the face of the certificate of title issued at the time of registering and paying all fees and taxes due on the vehicle.

8. When there is an active lien from a commercial lender in place on a vehicle, licensed operators shall be prohibited from transferring the certificate of title on that vehicle until the lien is satisfied, except when the title is transferred:

- a. to a person whose name is included on the loan for which the lien is placed pursuant to an agreement by the lender and any party to the title,
- b. to a trust created by a person whose name is included on the loan for which the lien is placed, or
- c. from a person who has died, upon the submission of a death certificate.

The provisions of this paragraph shall not be construed to release any lien or debt based solely upon a transfer of certificate of title.

B. 1. A secured party shall, within seven (7) business days after the satisfaction of the security interest, furnish directly or by mail a release of a security interest to Service Oklahoma and mail a copy thereof to the last-known address of the debtor. If the security interest has been satisfied by payment from a licensed used motor vehicle dealer to whom the motor vehicle has been transferred, the secured party shall also, within seven (7) business days after such satisfaction, mail an additional copy of the release to the dealer. If the secured party fails to furnish the release as required, the secured party shall be liable to the debtor for a penalty of One Hundred Dollars (\$100.00). Following the seven (7) business days after satisfaction of the lien and upon receipt by the lienholder of written communication demanding the release of the lien, thereafter the penalty shall increase to One Hundred Dollars (\$100.00) per day for each additional day beyond seven (7) business days until accumulating to One Thousand Five Hundred Dollars (\$1,500.00) or the value of the vehicle, whichever is less, and, in addition, any loss caused to the debtor by such failure.

2. Upon release of a security interest the owner may obtain a new certificate of title omitting reference to the security interest, by submitting to Service Oklahoma or to a licensed operator:

- a. a release signed by the secured party, an application for new certificate of title and the proper fees, or
- b. by submitting to Service Oklahoma or the licensed operator an affidavit, supported by such documentation as Service Oklahoma may require, by the owner on a form prescribed by Service Oklahoma stating that the security interest has been satisfied and stating the reasons why a release cannot be obtained, an application for a new certificate of title and the proper fees.

Upon receiving such affidavit that the security interest has been satisfied, Service Oklahoma shall issue a new certificate of title eliminating the satisfied security interest and the name and address of the secured parties who have been paid and satisfied. Service Oklahoma shall accept a release of a security interest in any form that identifies the debtor, the secured party, and the vehicle, and contains the signature of the secured party. Service Oklahoma shall not require any particular form for the release of a security interest.

The words "security interest" when used in the Oklahoma Vehicle License and Registration Act do not include liens dependent upon possession.

C. Service Oklahoma shall file and index certificates of title so that at all times it will be possible to trace a certificate of title to the vehicle designated therein, identify the lien entry form, and the names and addresses of secured parties, or their assignees, so that all or any part of such information may be made readily available to those who make legitimate inquiry of Service Oklahoma as to the existence or nonexistence of security interest in the vehicle.

D. 1. Any security interest in a vehicle properly perfected prior to July 1, 1979, may be continued as to its effectiveness or duration as provided by Sections 1-9-510 and 1-9-515 of Title 12A of the Oklahoma Statutes, or may be terminated, assigned or released as provided by Sections 1-9-512, 1-9-513 and 1-9-514 of Title 12A of the Oklahoma Statutes, as fully as if this section had not been enacted, or, at the option of the secured party, may also be perfected under this section, and, if so perfected, the time of perfection under this section shall be the date the security interest was originally perfected under the prior law.

2. Upon request of the secured party, the debtor or any other holder of the certificate of title shall surrender the certificate

of title to the secured party and shall do such other acts as may be required to perfect the security interest under this section.

E. If a manufactured home is permanently affixed to real estate, an Oklahoma certificate of title may be surrendered to Service Oklahoma or a licensed operator for cancellation. When the document of title is surrendered, the owner shall provide the legal description or the appropriate tract or parcel number of the real estate and other information as may be required on a form provided by Service Oklahoma. Service Oklahoma may not cancel a document of title if a lien has been registered or recorded. Service Oklahoma or the licensed operator shall notify the owner and any lienholder that the title has been surrendered to Service Oklahoma and that Service Oklahoma may not cancel the title until the lien is released. Such notification shall include a description of the lien and such notification to the owner shall be accompanied by the return of title surrendered. Permanent attachment to real estate does not affect the validity of a lien recorded or registered with Service Oklahoma before the document of title is canceled pursuant to this section. The rights of a prior lienholder pursuant to a security agreement or the provisions of a credit transaction and the rights of the state pursuant to a tax lien are preserved. Service Oklahoma or the licensed operator shall forward the information to the county assessor of the county where the real estate is located and indicate whether the original document of title has been canceled. A fee of Five Dollars (\$5.00) shall accompany the application for cancellation of title. When the fee is paid by a person making an application directly with Service Oklahoma, the fee shall be deposited in the Oklahoma Tax Commission Revolving Fund. Beginning January 1, 2023, the fee shall be deposited in the Service Oklahoma Revolving Fund. A fee paid to a licensed operator shall be retained by the licensed operator. The owner of a manufactured home upon which the document of title has been properly surrendered may apply to Service Oklahoma for issuance of a new original certificate of title upon submission of:

1. An attestation from the homeowner indicating ownership of the manufactured home and the nonexistence of any security interest or lien of record in the manufactured home; and

2. A title opinion by a licensed attorney, determining that the owner of the manufactured home has marketable title to the real property upon which the manufactured home is located and that no documents filed of record in the county clerk's office concerning the real property contain a mortgage, recorded financial statement, judgment, or lien of record. Persons or entities to whom the title opinion is addressed may rely on the title opinion. A security interest in a manufactured home perfected pursuant to this section shall have priority over a conflicting interest of a mortgagee or other lien encumbrancer, or the owner of the real property upon

which the manufactured home became affixed or otherwise permanently attached. The holder of the security interest in the manufactured home, upon default, may remove the manufactured home from such real property. The holder of the security interest in the manufactured home shall reimburse the owner of the real property who is not the debtor and who has not otherwise agreed to access the real property for the cost of repair of any physical injury to the real property, but shall not be liable for any diminution in value to the real property caused by the removal of the manufactured home, trespass, or any other damages caused by the removal. The debtor shall notify the holder of the security interest in the manufactured home of the street address, if any, and the legal description of the real property upon which the manufactured home is affixed or otherwise permanently attached and shall sign such other documents, including any appropriate mortgage, as may reasonably be requested by the holder of such security interest.

F. In the case of motor vehicles or trailers, notwithstanding any other provision of law, a transaction does not create a sale or security interest merely because it provides that the rental price is permitted or required to be adjusted under the agreement either upward or downward by reference to the amount realized upon sale or other disposition of the motor vehicle or trailer.

G. A security interest in vehicles registered by a federally recognized Indian tribe shall be deemed valid under Oklahoma law if validly perfected under the applicable tribal law and the lien is noted on the face of the tribal certificate of title.

§47-1111. Salvage title - New title.

A. As used in this section:

1. "Loss" means the cost, in dollars, to repair or replace a vehicle which has been damaged by collision or other occurrence. The amount paid by an insurer to a holder of the certificate of title for repair of a damaged vehicle shall be prima facie evidence of the amount of the loss. The amount paid by an insurer to a holder of the certificate of title for replacement of a damaged vehicle less the resale value of the damaged vehicle shall be prima facie evidence of the amount of the loss;

2. "Fair market value" means the value of a vehicle as listed in the current National Auto Dealers Association guidebook or other similar guidebook or the actual cash value, whichever is greater;

3. "Resale value" means the amount, in dollars, paid to the holder of a certificate of title by a willing buyer for a vehicle damaged by collision or other occurrence or recovered from theft;

4. "Total loss" means a loss which is equal to the fair market value of the vehicle immediately prior to the damage to or theft of the vehicle; and

5. "Vehicle" means a vehicle, as defined in paragraph 40 of Section 1102 of this title, manufactured within the last ten (10) model years.

B. Any insurance company that pays a total loss on a claim for any vehicle including, but not limited to, a flood-damaged vehicle or recovered-theft vehicle, any junk dealer who receives a motor vehicle which is to be used for junk or for parts, or any other person permanently dismantling or junking a vehicle shall receive the certificate of title from the current holder of the certificate of title, shall detach the license plate from the vehicle, and shall return the license plate and the certificate of title to Service Oklahoma or a licensed operator within thirty (30) days from receipt of the certificate, or insurance companies may provide alternate documentation within thirty (30) days pursuant to subsection P of Section 1105 of this title. Service Oklahoma shall cancel the certificate of title to the vehicle used for junk or parts and shall preserve the vehicle identification numbers on the certificate of title in the computer files for at least five (5) years. No certificate of title may be reissued on a junked vehicle as defined in Section 1105 of this title, unless reissued pursuant to paragraph 3 of subsection C of this section. Service Oklahoma shall transfer ownership of a stolen vehicle, not recovered from theft at the time of transfer, by salvage or unrecovered-theft title to the insurer. Service Oklahoma shall transfer ownership of a vehicle damaged by flooding or other occurrence to the insurer by an original title, salvage title, or junked title, as may be appropriate, based upon an estimate of the amount of loss submitted by the insurer. All license plates surrendered to Service Oklahoma shall be destroyed.

C. 1. If an insurance company pays a claim for a loss which is less than a total loss but the cost of repairing the vehicle for

safe operation on the highway exceeds sixty percent (60%) of the fair market value of the vehicle, or if any vehicle not insured is damaged to the extent that the cost of repair for safe operation on the highway exceeds sixty percent (60%) of the fair market value of the vehicle, any holder of the certificate of title for the vehicle shall return the certificate of title to Service Oklahoma or a licensed operator within thirty (30) days from receipt of payment for the loss.

2. Upon receipt of the certificate, Service Oklahoma or the licensed operator shall issue a salvage title for the vehicle. The title for any vehicle damaged by flooding shall be stamped with the words "Flood Damaged", and for any such vehicle which was recovered from a theft, the salvage title or rebuilt title shall be stamped with the words "Recovered Theft". A licensed dealer subject to the provisions of the Automotive Dismantlers and Parts Recycler Act, Section 591.1 et seq. of this title, shall not be required to pay registration fees, excise taxes, back taxes, or penalties on a vehicle as a prerequisite to obtaining a salvage title.

3. If the actual documented cost of repairing the vehicle for safe operation on the highway does not exceed sixty percent (60%) of the fair market value of the vehicle as defined in this section, the certificate of title shall be reissued to the holder and the vehicle shall not be subject to inspection as required under this section. The actual documented cost of repairing the vehicle pursuant to this paragraph shall be certified by the insurance company paying the loss.

D. If a motor vehicle with a salvage title is placed in operative condition, application shall be made to Service Oklahoma or a licensed operator for a rebuilt title. A visual inspection of the vehicle and examination of the vehicle identification numbers shall be conducted prior to the issuance of a rebuilt title. 1. "First vehicle" means the vehicle from which a license plate is removed and transferred to a second vehicle;

2. "Second vehicle" means the vehicle to which a license plate is transferred after removal from a first vehicle; and

3. "Vehicle" means a passenger vehicle and does not include farm or commercial vehicles.

B. A person may retain the license plate of any vehicle registered to such person for purposes of transferring such license plate to a second vehicle registered to such person. The license plate removed from the first vehicle may be transferred to a new or used second vehicle. The procedure for transfer shall be as follows:

1. If the license plate removed from the first vehicle is transferred to a new motor vehicle, the owner shall obtain a replacement license plate from Service Oklahoma or one of its licensed operators within ten (10) days of removal of the license plate and upon payment of the fee required for a replacement plate and an additional Ten Dollars (\$10.00). The replacement plate shall bear an expiration date that corresponds to the expiration date on the license plate removed from the first vehicle. The replacement plate shall be affixed to the first vehicle immediately upon removal of the existing license plate. The license plate removed from the first vehicle shall be affixed to the second vehicle immediately. Additionally, within two (2) business days of the date of the sale or transfer of the motor vehicle, the parties must submit the requisite documentation to Service Oklahoma or a licensed operator identifying the motor vehicle subject to the sale or transfer, purchaser information, and any associated license plate on the vehicle, pursuant to the requirements of Section 1112.2 of this title. For sales involving a dealer seller, the dealer must submit the requisite documentation to Service Oklahoma or a licensed operator within two (2) business days. Transfer of a license plate to a new motor vehicle as authorized by this paragraph shall not

relieve the owner of payment for registration or license fees applicable to such new motor vehicle as required by this title.

2. If the license plate removed from the first vehicle is transferred to a second vehicle already displaying a license plate, the owner shall obtain the replacement license plate required by paragraph 1 of this subsection. The replacement plate shall be affixed to the first vehicle and shall bear the expiration date of the license plate removed from the first vehicle. The license plate from the second vehicle shall be removed and returned to Service Oklahoma or one of its licensed operators. The license plate removed from the first vehicle shall then be affixed to the second vehicle. The removed plate from the first vehicle shall bear an expiration date identical to the plate removed from the second vehicle. Additionally, within two (2) business days of the date of the sale or transfer of the motor vehicle, the parties must submit the requisite documentation to Service Oklahoma or a licensed operator identifying the motor vehicle subject to the sale or transfer, purchaser information, and any associated license plate on the vehicle, pursuant to the requirements of Section 1112.2 of this title.

C. Service Oklahoma shall be authorized to promulgate such rules or regulations as may be required to implement the license plate transfers authorized by this section.

D. In the event a person fails to obtain a replacement license plate as provided for in this section within the time prescribed for the registration of the new or used second vehicle, a penalty of twenty-five cents (\$0.25) per day shall be assessed from the day following the period prescribed for registration to the date of acquisition of the replacement license plate, such penalty to accrue for no more than thirty (30) days, at the end of which time the penalty shall be twice the registration cost of such vehicle. Added by Laws 1986, c. 198, § 2, eff. July 1, 1987. Amended by Laws 2022, c. 282, § 128, emerg. eff. May 19, 2022; Laws 2024, c. 236, § 9, eff. Sept. 1, 2024.

§47-1113v1. Issuance of certificate of registration, license plates and decals - Requirements and specifications for license plates - Issuance of license plates without documentary evidence of ownership - Registration certificate to be in possession of commercial vehicle operator - Manufactured homes.

A. 1. Except for all-terrain vehicles, utility vehicles and motorcycles used exclusively off roads and highways, upon the filing of a registration application and the payment of the fees provided for in the Oklahoma Vehicle License and Registration Act, Service Oklahoma or the Corporation Commission, as applicable, shall assign to the vehicle described in the application a distinctive number, and issue to the owner of the vehicle a certificate of registration,

one license plate and a yearly decal, unless otherwise previously issued pursuant to the Oklahoma Vehicle License and Registration Act. Service Oklahoma shall assign an all-terrain vehicle, utility vehicle or motorcycle used exclusively off roads and highways a distinctive number and issue to the owner a certificate of registration and a decal but not a license plate. For each subsequent registration year, Service Oklahoma shall issue a yearly decal to be affixed to the license plate, except for an all-terrain vehicle, utility vehicle or motorcycle used exclusively off roads and highways. The initial decal for an all-terrain vehicle, utility vehicle or motorcycle shall be attached to the front of the vehicle and shall be in clear view. The decal shall be on the front or on the front fork of the motorcycle used exclusively off roads and highways and the decal shall be in clear view. The yearly decal shall have an identification number and the last two numbers of the registration year for which it shall expire. Except as provided by Section 1113A of this title, the license plate shall be affixed to the exterior of the vehicle until a replacement license plate is applied for. If the owner applies for a replacement license plate, Service Oklahoma shall charge the fee provided for in Section 1114 of this title. The yearly decal will validate the license plate for each registration period other than the year the license plate is issued. The license plate and decal shall be of such size, color, design, and numbering as Service Oklahoma may direct. However, yearly decals issued to the owner of a vehicle who has filed an affidavit with the appropriate licensed operator in accordance with Section 7-607 of this title shall be a separate and distinct color from all other decals issued under this section.

2. a. The operation of a street-legal utility vehicle on the streets and highways of this state requires the vehicle be issued a certificate of registration and license plate to be renewed annually. Upon the filing of a registration application and the payment of the fees provided for in the Oklahoma Vehicle License and Registration Act, Service Oklahoma or the Corporation Commission, as applicable, shall assign to the vehicle described in the application a distinctive number, and issue to the owner of the vehicle a certificate of registration, one license plate and a yearly decal. For each subsequent registration year, Service Oklahoma shall issue a yearly decal to be affixed to the license plate. The initial decal for a street-legal utility vehicle shall be attached to the front of the vehicle and shall be in clear view. The yearly decal shall have an identification number and the last two numbers of the registration year for which it shall expire. Except as provided by Section 1113A of

this title, the license plate shall be affixed to the exterior of the vehicle until a replacement license plate is issued. If the owner applies for a replacement license plate, Service Oklahoma shall charge the fee provided for in Section 1114 of this title. The yearly decal will validate the license plate for each registration period other than the year the license plate is issued. The license plate and decal shall be of such size, color, design, and numbering as Service Oklahoma may direct. However, yearly decals issued to the owner of a vehicle who has filed an affidavit with the appropriate licensed operator in accordance with Section 7-607 of this title shall be a separate and distinct color from all other decals issued under this section.

- b. Service Oklahoma shall design and issue a temporary tag to out-of-state owners of street-legal utility vehicles. The temporary tag shall be recognized in lieu of registration in this state. The temporary tag shall clearly indicate the date of issuance and the date of expiration, which shall be five (5) days, including the day of issuance. Upon application for a temporary tag, the out-of-state owner shall show proof of insurance coverage that satisfies the requirements of the Compulsory Insurance Law pursuant to Section 7-600 et seq. of this title. Service Oklahoma is authorized to promulgate rules and procedures to implement the provisions of this paragraph.

3. The license plate shall be securely attached to the rear of the vehicle, except truck-tractor plates which shall be attached to the front of the vehicle. Service Oklahoma may, with the concurrence of the Department of Public Safety, by Joint Rule, change and direct the manner, place, and location of display of any vehicle license plate when such action is deemed in the public interest. The license plate, decal and all letters and numbers shall be clearly visible at all times. The operation of a vehicle in this state, regardless of where such vehicle is registered, upon which the license plate is covered, overlaid, or otherwise screened with any material, whether such material be clear, translucent, tinted or opaque, shall be a violation of this paragraph.

4. Upon payment of the annual registration fee provided in Section 1133 of this title, Service Oklahoma or the Corporation Commission, as applicable, or a licensed operator may issue a permanent nonexpiring license plate to an owner of one hundred or more commercial motor vehicles and for vehicles registered under the provisions of Section 1120 of this title. Upon payment of the annual registration fee, Service Oklahoma or the Corporation

Commission shall issue a certificate of registration that shall be carried at all times in the vehicle for which it is issued. Provided, if the registrant submits its application through electronic means, such qualified owners of one hundred or more commercial motor vehicles, properly registered pursuant to the provisions of Section 1133 of this title, may elect to receive a permanent certificate of registration that shall be carried at all times in the vehicle for which it is issued.

5. Every vehicle owned by an agency of this state shall be exempt from the payment of registration fees required by this title. Provided, such vehicle shall be registered and shall otherwise comply with the provisions of the Oklahoma Vehicle License and Registration Act.

B. The license plates required under the provisions of this title shall conform to the requirements and specifications listed hereinafter:

1. Each license plate shall have a space for the placement of the yearly decals for each succeeding year of registration after the initial issue;

2. The provisions of the Oklahoma Vehicle License and Registration Act regarding the issuance of yearly decals shall not apply to the issuance of apportioned license plates, including license plates for state vehicles, and exempt plates for governmental entities and fire departments organized pursuant to Section 592 of Title 18 of the Oklahoma Statutes;

3. All license plates and decals shall be made with reflectorized material as a background to the letters, numbers and characters displayed thereon. The reflectorized material shall be of such a nature as to provide effective and dependable brightness during the service period for which the license plate or decal is issued;

4. Except as otherwise provided in this subsection, Service Oklahoma shall design appropriate official license plates for all state vehicles. Such license plates shall be permanent in nature and designed in such manner as to remain with the vehicle for the duration of the vehicle's life span or until the title is transferred to a nongovernmental owner;

5. Within the limits prescribed in this section, Service Oklahoma shall design appropriate official license plates for vehicles of the Oklahoma Highway Patrol. The license plates shall have the legend "Oklahoma OK" and shall contain the letters "OHP" followed by the state seal and the badge number of the Highway Patrol officer to whom the vehicle is assigned. The words "Oklahoma Highway Patrol" shall also be included on such license plates;

6. Within the limits prescribed in this section, Service Oklahoma shall design appropriate official license plates for vehicles of the Military Department of the State of Oklahoma. Such

license plates shall have the legend "Oklahoma OK" and shall contain the letters "OMD" followed by the state seal and three numbers or letters as designated by the Adjutant General. The words "Oklahoma Military Department" shall also be included on such license plates;

7. Within the limits prescribed in this section, Service Oklahoma shall design appropriate official license plates for vehicles of the Department of Corrections. Such license plates shall contain the letters "DOC" followed by the Department of Corrections badge and three numbers or letters or combination of both as designated by the Director of the agency. The words "Department of Corrections" shall also be included on such license plates; and

8. Within the limits prescribed in this section, the Oklahoma Tourism and Recreation Department shall design any license plates required by the initiation of a license plate reissuance by Service Oklahoma at the request of the Department of Public Safety pursuant to the provisions of Section 1113.2 of this title. Any such new designs shall be submitted by the Oklahoma Tourism and Recreation Department to the Department of Public Safety for its approval prior to being issued by Service Oklahoma.

C. Where the applicant has satisfactorily shown that the applicant owns the vehicle sought to be registered but is unable to produce documentary evidence of the ownership, a license plate may be issued upon approval by Service Oklahoma or the Corporation Commission, as applicable. In such instances the reason for not issuing a certificate of title shall be indicated on the receipt given to the applicant. It shall still be the duty of the applicant to immediately take all necessary steps to obtain the Oklahoma certificate of title and it shall be unlawful for the applicant to sell the vehicle until the certificate has been obtained in the applicant's name.

D. The certificate of registration provided for in this section shall be in convenient form, and the certificate of registration, or a certified copy or photostatic copy thereof, duly authenticated by Service Oklahoma or the Corporation Commission, as applicable, shall be carried at all times in or upon all vehicles so registered, in such manner as to permit a ready examination thereof upon demand by any peace officer of the state or duly authorized employee of the Department of Public Safety. Any such officer or agent may seize and hold such vehicle when the operator of the same does not have the registration certificate in the operator's possession or when any such officer or agent determines that the registration certificate has been obtained by misrepresentation of any essential or material fact or when any number or identifying information appearing on such certificate has been changed, altered, obliterated or concealed in any way, until the proper registration or

identification of such vehicle has been made or produced by the owner thereof.

E. The purchaser of a new or used manufactured home shall, within thirty (30) days of the date of purchase, register the home with Service Oklahoma or a licensed operator pursuant to the provisions of Section 1117 of this title. For a new manufactured home, it shall be the responsibility of the dealer selling the home to place a temporary license plate on the home in the same manner as provided in Section 1128 of this title for other new motor vehicles. For the first year that any manufactured home is registered in this state, Service Oklahoma shall issue a metal license plate which shall be affixed to the manufactured home. The temporary dealer license plate or the metal license plate shall be displayed on the manufactured home at all times when upon a public roadway; provided, a repossession affidavit issued pursuant to Sections 1110 and 1126 of this title shall be permissible in lieu of a current license plate and decal for the purposes of removing a repossessed manufactured home to a secure location. Manufactured homes previously registered and subject to ad valorem taxation as provided by law shall have a decal affixed at the time ad valorem taxes are paid for such manufactured home; provided, for a manufactured home permanently affixed to real estate, no decal or license plate shall be required to be affixed and the owner thereof shall be given a receipt upon payment of ad valorem taxes due on the home. Service Oklahoma shall make sufficient plates and decals available to the various licensed operators of the state in order for an owner of a manufactured home to acquire the plate or decal. A one-dollar fee shall be charged for issuance of any plate or decal. The fee shall be apportioned each month to the General Revenue Fund of the State Treasury.

F. The decal shall be easily visible for purposes of verification by a county assessor that the manufactured home is properly assessed for ad valorem taxation. In the first year of registration, a decal shall be issued for placement on the license plate indicating payment of applicable registration fees and excise taxes. A duplicate manufactured home registration decal shall be affixed inside the window nearest the front door of the manufactured home. In the second and all subsequent years for which the manufactured home is subject to ad valorem taxation, an annual decal shall be affixed inside the window nearest the front door as evidence of payment of ad valorem taxes. Service Oklahoma shall issue decals to the various county treasurers of the state in order for a manufactured home owner to obtain such decal each year. Upon presentation of a valid ad valorem tax receipt, the manufactured home owner shall be issued the annual decal.

G. Upon the registration of a manufactured home in this state for the first time or upon discovery of a manufactured home

previously registered within this state for which the information required by this subsection is not known, Service Oklahoma shall obtain:

1. The name of the owner of the manufactured home;
2. The serial number or identification number of the manufactured home;
3. A legal description or address of the location for the home;
4. The actual retail selling price of the manufactured home excluding Oklahoma taxes;
5. The certificate of title number for the home; and
6. Any other information which Service Oklahoma deems to be necessary.

The application for registration shall also include the school district in which the manufactured home is located or is to be located. The information shall be entered into a computer data system which shall be used by Service Oklahoma to provide information to county assessors upon request by the assessor. The assessor may request any information from the system in order to properly assess a manufactured home for ad valorem taxation.

Service Oklahoma shall assign an all-terrain vehicle, utility vehicle or motorcycle used exclusively off roads and highways a distinctive number and issue to the owner a certificate of registration and a decal but not a license plate. For each subsequent registration year, Service Oklahoma shall issue a yearly decal to be affixed to the license plate, except for an all-terrain vehicle, utility vehicle or motorcycle used exclusively off roads and highways. The initial decal for an all-terrain vehicle, utility vehicle or motorcycle shall be attached to the front of the vehicle and shall be in clear view. The decal shall be on the front or on the front fork of the motorcycle used exclusively off roads and highways and the decal shall be in clear view. The yearly decal shall have an identification number and the last two numbers of the registration year for which it shall expire. Except as provided by Section 1113A of this title, the license plate shall be affixed to the exterior of the vehicle until a replacement license plate is applied for. If the owner applies for a replacement license plate, Service Oklahoma shall charge the fee provided for in Section 1114 of this title. The yearly decal will validate the license plate for each registration period other than the year the license plate is issued. The license plate and decal shall be of such size, color, design and numbering as Service Oklahoma may direct. However, yearly decals issued to the owner of a vehicle who has filed an affidavit with the appropriate licensed operator in accordance with Section 7-607 of this title shall be a separate and distinct color from all other decals issued under this section. Before the effective date of this act, Service Oklahoma shall also issue a monthly decal which shall include a two-letter abbreviation corresponding to the county in which the vehicle is registered. Service Oklahoma shall issue all decals in the possession of Service Oklahoma on the effective date

of this act before issuing any decals which do not contain the county abbreviation.

2. a. The operation of a street-legal utility vehicle on the streets and highways of this state requires the vehicle be issued a certificate of registration and license plate to be renewed annually. Upon the filing of a registration application and the payment of the fees provided for in the Oklahoma Vehicle License and Registration Act, Service Oklahoma or the Corporation Commission, as applicable, shall assign to the vehicle described in the application a distinctive number, and issue to the owner of the vehicle a certificate of registration, one license plate and a yearly decal. For each subsequent registration year, Service Oklahoma shall issue a yearly decal to be affixed to the license plate. The initial decal for a street-legal utility vehicle shall be attached to the front of the vehicle and shall be in clear view. The yearly decal shall have an identification number and the last two numbers of the registration year for which it shall expire. Except as provided by Section 1113A of this title, the license plate shall be affixed to the exterior of the vehicle until a replacement license plate is issued. If the owner applies for a replacement license plate, Service Oklahoma shall charge the fee provided for in Section 1114 of this title. The yearly decal will validate the license plate for each registration period other than the year the license plate is issued. The license plate and decal shall be of such size, color, design and numbering as Service Oklahoma may direct. However, yearly decals issued to the owner of a vehicle who has filed an affidavit with the appropriate licensed operator in accordance with Section 7-607 of this title shall be a separate and distinct color from all other decals issued under this section.

b. Service Oklahoma shall design and issue a temporary tag to out-of-state owners of street-legal utility vehicles. The temporary tag shall be recognized in lieu of registration in this state. The temporary tag shall clearly indicate the date of issuance and the date of expiration, which shall be five (5) days, including the day of issuance. Upon application for a temporary tag, the out-of-state owner shall show proof of insurance coverage that satisfies the requirements of the Compulsory Insurance Law pursuant Section 7-600 et seq. of this title. Upon the filing of a registration application and the payment of the fees provided for in the Oklahoma Vehicle License and Registration Act, Service Oklahoma or the Corporation Commission, as applicable, shall design and assign license plates of a distinctive design in lieu of the usual license plates that shall show, in addition to the identification number, that the vehicle meets the qualifications of a military surplus vehicle, as the case may be, owned by an Oklahoma military surplus vehicle collector. The registration shall be valid for one (1) year and may be renewed by payment of such annual fee. The yearly decal shall have an identification number and the last two numbers of the registration year for which it shall expire. Except as provided by Section 1113A of this title, the license plate shall be affixed to the exterior of the vehicle until a replacement license plate is issued. 4. The license plate shall be securely attached to the rear of the vehicle, except truck-tractor plates which shall be attached to the front of the vehicle. Service Oklahoma may, with the concurrence of the Department of Public Safety, by Joint Rule, change and direct the manner, place and location of display of any vehicle license plate when such action is deemed in the public interest. The license plate, decal and all letters and numbers shall be clearly visible at all times. The operation of a vehicle in this state, regardless of where such vehicle is registered, upon which the license plate is covered, overlaid or otherwise screened with any material, whether such material be clear, translucent, tinted or opaque, shall be a violation of this paragraph.

Upon payment of the annual registration fee, Service Oklahoma or the Corporation Commission shall issue a certificate of registration that shall be carried at all times in the vehicle for which it is issued. Provided, if the registrant submits its application through electronic means, such qualified owners of one hundred or more commercial motor vehicles, properly registered pursuant to the provisions of Section 1133 of this title, may elect to receive a permanent certificate of registration that shall be carried at all times in the vehicle for which it is issued.

2. The provisions of the Oklahoma Vehicle License and Registration Act regarding the issuance of yearly decals shall not apply to the issuance of apportioned license plates, including license plates for state vehicles, and exempt plates for governmental entities and fire departments organized pursuant to Section 592 of Title 18 of the Oklahoma Statutes;

3. All license plates and decals shall be made with reflectorized material as a background to the letters, numbers and characters displayed thereon. The reflectorized material shall be of such a nature as to provide effective and dependable brightness during the service period for which the license plate or decal is issued;

4. Except as otherwise provided in this subsection, Service Oklahoma shall design appropriate official license plates for all state vehicles. Such license plates shall contain the letters "DOC" followed by the Department of Corrections badge and three numbers or letters or combination of both as designated by the Director of the agency. The words "Department of Corrections" shall also be included on such license plates; and

8. Within the limits prescribed in this section, the Oklahoma Tourism and Recreation Department shall design any license plates required by the initiation of a license plate reissuance by Service Oklahoma at the request of the Department of Public Safety pursuant

to the provisions of Section 1113.2 of this title. Any such new designs shall be submitted by the Oklahoma Tourism and Recreation Department to the Department of Public Safety for its approval prior to being issued by Service Oklahoma.

C. Where the applicant has satisfactorily shown that the applicant owns the vehicle sought to be registered but is unable to produce documentary evidence of the ownership, a license plate may be issued upon approval by Service Oklahoma or the Corporation Commission, as applicable. In such instances the reason for not issuing a certificate of title shall be indicated on the receipt given to the applicant. It shall still be the duty of the applicant to immediately take all necessary steps to obtain the Oklahoma certificate of title and it shall be unlawful for the applicant to sell the vehicle until the certificate has been obtained in the applicant's name.

D. The certificate of registration provided for in this section shall be in convenient form, and the certificate of registration, or a certified copy or photostatic copy thereof, duly authenticated by Service Oklahoma or the Corporation Commission, as applicable, shall be carried at all times in or upon all vehicles so registered, in such manner as to permit a ready examination thereof upon demand by any peace officer of the state or duly authorized employee of the Department of Public Safety. Any such officer or agent may seize and hold such vehicle when the operator of the same does not have the registration certificate in the operator's possession or when any such officer or agent determines that the registration certificate has been obtained by misrepresentation of any essential or material fact or when any number or identifying information appearing on such certificate has been changed, altered, obliterated or concealed in any way, until the proper registration or identification of such vehicle has been made or produced by the owner thereof.

E. The purchaser of a new or used manufactured home shall, within thirty (30) days of the date of purchase, register the home with Service Oklahoma or a licensed operator pursuant to the provisions of Section 1117 of this title. For a new manufactured home, it shall be the responsibility of the dealer selling the home to place a temporary license plate on the home in the same manner as provided in Section 1128 of this title for other new motor vehicles. For the first year that any manufactured home is registered in this state, Service Oklahoma shall issue a metal license plate which shall be affixed to the manufactured home. The temporary dealer license plate or the metal license plate shall be displayed on the manufactured home at all times when upon a public roadway; provided, a repossession affidavit issued pursuant to Sections 1110 and 1126 of this title shall be permissible in lieu of a current license plate and decal for the purposes of removing a repossessed

manufactured home to a secure location. Manufactured homes previously registered and subject to ad valorem taxation as provided by law shall have a decal affixed at the time ad valorem taxes are paid for such manufactured home; provided, for a manufactured home permanently affixed to real estate, no decal or license plate shall be required to be affixed and the owner thereof shall be given a receipt upon payment of ad valorem taxes due on the home. Service Oklahoma shall make sufficient plates and decals available to the various licensed operators of the state in order for an owner of a manufactured home to acquire the plate or decal. A one-dollar fee shall be charged for issuance of any plate or decal. The fee shall be apportioned each month to the General Revenue Fund of the State Treasury.

F. The decal shall be easily visible for purposes of verification by a county assessor that the manufactured home is properly assessed for ad valorem taxation. In the first year of registration, a decal shall be issued for placement on the license plate indicating payment of applicable registration fees and excise taxes. A duplicate manufactured home registration decal shall be affixed inside the window nearest the front door of the manufactured home. In the second and all subsequent years for which the manufactured home is subject to ad valorem taxation, an annual decal shall be affixed inside the window nearest the front door as evidence of payment of ad valorem taxes. Service Oklahoma shall issue decals to the various county treasurers of the state in order for a manufactured home owner to obtain such decal each year. Upon presentation of a valid ad valorem tax receipt, the manufactured home owner shall be issued the annual decal.

G. Upon the registration of a manufactured home in this state for the first time or upon discovery of a manufactured home previously registered within this state for which the information required by this subsection is not known, Service Oklahoma shall obtain:

1. The name of the owner of the manufactured home;
2. The serial number or identification number of the manufactured home;
3. A legal description or address of the location for the home;
4. The actual retail selling price of the manufactured home excluding Oklahoma taxes;
5. The certificate of title number for the home; and
6. Any other information which Service Oklahoma deems to be necessary.

The application for registration shall also include the school district in which the manufactured home is located or is to be located. The information shall be entered into a computer data system which shall be used by Service Oklahoma to provide information to county assessors upon request by the assessor. The

assessor may request any information from the system in order to properly assess a manufactured home for ad valorem taxation.

§47-1115. Vehicles required to be registered - Registration schedule - Delinquent registration - Penalties.

A. Unless provided otherwise by statute, the following vehicles shall be registered annually: manufactured homes, vehicles registered with a permanent nonexpiring license plate pursuant to Section 1113 of this title, and commercial vehicles registered pursuant to the installment plan provided in subsection H of Section 1133 of this title. The following schedule shall apply for such vehicle purchased in this state or brought into this state by residents of this state:

2. Between April 1 and June 30, the payment of three-fourths (3/4) the annual fee shall be required;

3. Between July 1 and September 30, the payment of one-half (1/2) the annual fee shall be required; and

4. Between October 1 and November 30, one-fourth (1/4) the annual fee shall be required.

License plates or decals for each year shall be made available on December 1 of each preceding year for such vehicles. Any person who purchases such vehicle or manufactured home between December 1 and December 31 of any year shall register it within thirty (30) days from date of purchase and obtain a license plate or Manufactured Home License Registration Decal, as appropriate, for the following calendar year upon payment of the full annual fee. Unless provided otherwise by statute, all annual license, registration and other fees for such vehicles shall be due and payable on January 1 of each year and if not paid by February 1 shall be deemed delinquent.

B. 1. All vehicles, other than those required to be registered pursuant to the provisions of subsection A of this section, shall be registered on a staggered system of registration and licensing on a monthly series basis to distribute the work of registering such

vehicles as uniformly and expeditiously as practicable throughout the calendar year unless otherwise provided in this section. After the end of the month following the expiration date, the license and registration fees for the new registration period shall become delinquent. At the time of registration or renewal, the owner of the vehicle may choose either an annual or a biennial registration of the vehicle.

2. All fleet vehicles registered pursuant to new applications approved pursuant to the provisions of Section 1120 of this title shall be registered on a staggered system monthly basis.

3. Applicants seeking to establish Oklahoma as the base jurisdiction for registering apportioned fleet vehicles shall have a one-time option of registering for a period of not less than six (6) months nor greater than eighteen (18) months. Subsequent renewals for these registrants will be for twelve (12) months, expiring on the last day of the month chosen by the registrant under the one-time option as provided herein. In addition, registrants with multiple fleets may designate a different registration month of expiration for each fleet.

As used in this section, "fleet" shall have the same meaning as set forth in the International Registration Plan.

4. Effective January 1, 2004, all motorcycles and mopeds shall be registered on a staggered system of registration. Service Oklahoma shall notify in writing, prior to December 1, 2003, all owners of motorcycles or mopeds registered as of such date, who shall have a one-time option of registering for a period of not less than three (3) months nor greater than fifteen (15) months. Subsequent renewals for these registrants will be for twelve (12) months, expiring on the last day of the month chosen by the registrant under the one-time option as provided herein. All motorcycles and mopeds registered pursuant to new applications received on or after December 1, 2003, shall also be registered pursuant to the provisions of this paragraph.

5. Any three or more commercial vehicles owned by the same person and previously registered in this state may be registered at the same time regardless of the month or months in which they were previously registered. The month in which the commercial vehicles are newly registered shall be the month in which their registration is renewed annually. If a commercial vehicle is registered pursuant to this paragraph in the same calendar year in which it was previously registered, license and registration fees shall be prorated to account for the difference between the previous renewal month and the new renewal month and those fees shall be due at the time of registration pursuant to this paragraph.

C. The following penalties shall apply for delinquent registration fees:

1. For fleet vehicles required to be registered pursuant to the provisions of Section 1120 of this title for which a properly completed application for registration has not been received by the Corporation Commission by the last day of the month following the registration expiration date, a penalty of thirty percent (30%) of the Oklahoma portion of the annual registration fee, or Two Hundred Dollars (\$200.00), whichever is greater, shall be assessed. The license and registration cards issued by the Corporation Commission for each fleet vehicle shall be valid until two (2) months after the registration expiration date;

2. For commercial vehicles registered under the provisions of subsection B of this section, except those vehicles registered pursuant to Section 1133.1 of this title, a penalty shall be assessed after the last day of the month following the registration expiration date. 4. For all vehicles a penalty shall be assessed after the last day of the month following the expiration date and no penalty shall be waived by Service Oklahoma or any licensed operator except as provided for in subsection H of Section 1133, subsection C of Section 1127 of this title, or when the vehicle was stolen as certified by a police report or other documentation as required by Service Oklahoma. 1. A penalty of not less than Fifty Dollars (\$50.00) shall be imposed upon any person found to be operating a commercial vehicle sixty (60) days after the end of the month in which the license plate or registration credentials expire without the current year license plate or registration credential displayed. Such penalty shall not exceed the amount established by the Corporation Commission pursuant to the provisions of subsection A of Section 1167 of this title. Revenue from such penalties shall be apportioned as provided in Section 1167 of this title;

2. A penalty of not less than Fifty Dollars (\$50.00) shall be imposed for any person operating a commercial vehicle subject to the provisions of Section 1120 or Section 1133 of this title without the proper display of, or, carrying in such commercial vehicle, the identification credentials issued by the Corporation Commission as evidence of payment of the fee or tax as provided in Section 1120 or Section 1133 of this title. Such penalty shall not exceed the amount established by the Corporation Commission pursuant to the provisions of subsection A of Section 1167 of this title. Revenue from such penalties shall be apportioned as provided in Section 1167 of this title; and

3. A penalty of not less than One Hundred Dollars (\$100.00) shall be imposed for any person that fails to register any commercial vehicle subject to the Oklahoma Vehicle License and Registration Act. Such penalty shall not exceed the amount established by the Corporation Commission pursuant to the provisions of subsection A of Section 1167 of this title. Revenue from such penalties shall be apportioned as provided in Section 1167 of this title.

For vehicles not registered for two (2) or more years, the registration fees and penalties shall be due only for the current year and one (1) previous year.

F. In addition to any other penalty prescribed by law, there shall be a penalty of not less than Twenty Dollars (\$20.00) upon a finding by an enforcement officer that:

2. The registration fees for a vehicle that is subject to the registration fees pursuant to Section 1132 of this title have not been paid.

Such penalty shall not exceed the amount established by the Corporation Commission pursuant to the provisions of subsection A of Section 1167 of this title. Revenue from such penalties shall be apportioned as provided in Section 1167 of this title.

G. If a vehicle is donated to a nonprofit charitable organization, the nonprofit charitable organization shall be exempt from paying any current or past due registration fees, excise tax, transfer fees, and penalties and interest. However, after the donation, if the person donating the vehicle, or someone on behalf of such person, purchases the same vehicle back from the nonprofit charitable organization to which the vehicle was donated, such person shall be liable for all current and past-due registration fees, excise tax, title or transfer fees, and penalties and interest on such vehicle.

H. Service Oklahoma shall promulgate rules and any necessary procedures to establish an option for a biennial registration for vehicles registered pursuant to paragraph 1 of subsection B of this section.

1. Regardless of whether the vehicle owner elects annual or biennial registration, the vehicle is still subject to all fees, fines, and penalties provided in the Oklahoma Vehicle License and Registration Act.

2. For vehicle owners who elect biennial registration, the annual registration fee shall be twice the annual registration fee provided in the Oklahoma Vehicle License and Registration Act.

3. When processing biennial registrations, licensed operators shall be entitled to retain twice the amounts provided in paragraphs 1 and 2 of subsection A of Section 1141.1 of this title and twice the amount provided in paragraph 14 of subsection A of Section 1141.1 of this title for processing insurance verification information.

Of the monies collected pursuant to the convenience fee created by this paragraph, Two Dollars and fifty cents (\$2.50) shall be deposited to the credit of the Oklahoma Tax Commission Fund created pursuant to

The Oklahoma Tax Commission shall promulgate rules establishing a method for making required fee adjustments when a special or personalized license plate is obtained during a twelve-month period for which a registration fee has already been remitted pursuant to this subsection. The combination of fees in a single remittance shall not alter the apportionment otherwise provided for by law.

§47-1117. Manufactured home - Registration - Certificate of title.

A. Unless otherwise provided by law, any person purchasing a new or used manufactured home or owning a manufactured home which has not been registered in this state shall register such manufactured home pursuant to the provisions of subsection B of this section and obtain a certificate of title as provided in Section 1105 of this title.

B. The application for registration and certificate of title shall be made to Service Oklahoma or to a licensed operator. Such application shall be accompanied by the registration fees required by Section 1135 of this title and any penalties thereon. The application for registration and certificate of title shall include:

1. The name of the owner of the manufactured home;
2. The serial number or identification number of the manufactured home;
3. A legal description or address of the location;
4. The actual retail selling price of the manufactured home excluding Oklahoma taxes; and
5. Any other information which Service Oklahoma deems to be necessary.

The application for registration shall also include the school district in which the manufactured home is located or is to be located.

Upon the filing of an application for registration and certificate of title, the payment of fees as required by Section 1133 of this title, the excise tax as provided for in Section 2104.3 of Title 68 of the Oklahoma Statutes and the furnishing of proof

satisfactory to Service Oklahoma or a licensed operator that all ad valorem taxes have been paid, Service Oklahoma or a licensed operator shall assign the manufactured home a distinctive number and shall issue to the owner of the manufactured home a certificate of title, a manufactured home registration receipt, Manufactured Home Registration Decal, a vehicle registration decal and an excise tax receipt. The certificate of title number shall be recorded in the computer data system required by Section 1113 of this title in order to collect and store information concerning the subsequent ad valorem tax payments for such manufactured home. The receipts and Manufactured Home Registration Decal shall be permanently attached to the title by Service Oklahoma or a licensed operator. An excise tax receipt so attached shall constitute evidence of payment of the excise tax required by the provisions of Section 2104.3 of Title 68 of the Oklahoma Statutes. Thereafter, the owner of a manufactured home shall be assessed the ad valorem tax as provided in Section 2801 et seq. of Title 68 of the Oklahoma Statutes. If an applicant has satisfactorily shown to Service Oklahoma or to a licensed operator that the applicant owns the manufactured home sought to be registered, but is unable to produce the documentary evidence of title, Service Oklahoma or a licensed operator may issue a manufactured home registration receipt, Manufactured Home Registration Decal, vehicle registration decal and excise tax receipt to the applicant. In such instances, Service Oklahoma or a licensed operator shall indicate on the receipt given the applicant the reason for not issuing a certificate of title. It shall be the duty of the applicant to immediately take all necessary steps to obtain an Oklahoma certificate of title. It shall be unlawful for such applicant to sell the manufactured home until such title has been obtained by the applicant. After receiving a certificate of title, the applicant shall then take such title, registration and excise tax receipts and Manufactured Home Registration Decal to Service Oklahoma or a licensed operator for permanent attachment of the receipts to the title.

D. The Department of Public Safety shall issue a permit immediately to the holder of a perfected security interest or licensed representative thereof, if the holder or representative is bonded by the state, to move the manufactured home to a secure location with a repossession affidavit. However, all excise taxes and ad valorem taxes due on such a manufactured home shall be required to be paid within thirty (30) days of the issuance of the permit. A certificate of title for a manufactured home shall not be issued pursuant to a repossession prior to the furnishing of proof

satisfactory to Service Oklahoma or a licensed operator that all ad valorem taxes due have been paid.

E. The Department shall issue a permit immediately to a licensed manufactured home dealer to move a trade-in to a secure location with a trade-in affidavit. However, all excise taxes and ad valorem taxes due on such a manufactured home trade-in shall be required to be paid within thirty (30) days of the issuance of the permit. A certificate of title for a manufactured home trade-in shall not be issued prior to the furnishing of proof satisfactory to Service Oklahoma or a licensed operator that all ad valorem taxes due have been paid. A receipt evidencing payment of ad valorem taxes for the current year shall constitute satisfactory proof that all ad valorem taxes due have been paid.

§47-1118. Issuance of certificates of title for manufactured homes - School district maps - Commission not party in lawsuits to determine ownership.

A. Service Oklahoma and licensed operators shall issue a certificate of title which conforms to the provisions of Section 1117 of this title to any person applying for a certificate of title for a manufactured home.

B. Service Oklahoma shall provide each licensed operator with a school district map of the county designating the boundaries of each school district and the code number of each district.

C. The State Department of Education shall provide Service Oklahoma with a school district map designating the boundaries of each school district and the code number of each district.

D. Service Oklahoma shall not be considered a necessary party to any lawsuit which is instigated for the purpose of determining ownership of a manufactured home, wherein Service Oklahoma's only involvement would be to issue title, and the court shall issue an order dismissing Service Oklahoma from the pending action.

Added by Laws 1985, c. 179, § 21, operative July 1, 1985. Amended by Laws 1988, c. 80, § 3, eff. Jan. 1, 1989; Laws 1997, c. 192, § 3, eff. Jan. 1, 1998; Laws 2006, c. 295, § 5, eff. July 1, 2006; Laws 2022, c. 282, § 136, emerg. eff. May 19, 2022.

§47-1119. Manufactured home - Information to be furnished county assessor in county of location.

Upon proper registration and receipt of a certificate of title pursuant to the provisions of Section 1117 of this title by the

person owning a new or used manufactured home, Service Oklahoma shall furnish by June 1 and by December 31 of each year to the county assessor in the county in which the manufactured home is or is to be located the following information:

1. The name of the owner of the manufactured home;
 2. The serial number or identification number of the manufactured home;

 4. The actual retail selling price of the manufactured home, excluding Oklahoma state taxes;
 5. The registration number issued for the manufactured home;
- and
6. Any other information necessary to enable the county assessor to list and assess the proper ad valorem tax required by Section 2801 et seq. of Title 68 of the Oklahoma Statutes. If ownership of such a manufactured home has passed by operation of law and a new certificate of title has been issued for such home, Service Oklahoma shall also furnish such information to the appropriate county assessors.

Added by Laws 1985, c. 179, § 22, operative July 1, 1985. Amended by Laws 1985, c. 238, § 2, emerg. eff. July 8, 1985; Laws 1988, c. 80, § 4, eff. Jan. 1, 1989; Laws 1997, c. 192, § 4, eff. Jan. 1, 1998; Laws 2022, c. 282, § 137, emerg. eff. May 19, 2022.

§47-1120. Proportional registration

A. The Corporation Commission may, when in the interest of the State of Oklahoma and its residents, enter into the International Registration Plan or other compacts or agreements with other states to permit motor vehicle registration and license taxes on any truck, bus, or truck-tractor on a proportional basis commensurate with the use of Oklahoma highways. Proportional registration under such plans may be permitted for vehicles engaged in interstate commerce or combined interstate and intrastate commerce. Any action taken by the Oklahoma Tax Commission with respect to the International Registration Plan or other such compacts or agreements prior to July 1, 2004, shall remain in effect unless altered by the Corporation Commission pursuant to its authority to do so after the effective date of this act.

B. The Corporation Commission shall require that such proportional registration be based on the percentage of miles actually operated by such vehicles or fleets of vehicles in the State of Oklahoma in the reporting period in proportion to the total fleet miles operated both within and without Oklahoma. If the registrant did not incur mileage during the preceding reporting period, the registrant shall pay fees for its future operations in accordance with the International Registration Plan. Such

percentage figure, so determined by the Corporation Commission, shall be the Oklahoma mileage factor. In computing the taxes under the foregoing formula, the Corporation Commission shall first compute the license fees for the entire fleet and then multiply the amount by the Oklahoma mileage factor on a dollar basis.

C. Upon receipt of the Oklahoma license and registration tax, which shall be paid by cash and/or certified funds, as computed under the provisions of the Oklahoma Vehicle License and Registration Act, the Corporation Commission shall register all such fleet vehicles, and shall issue a license plate, cab card or decal for each of such vehicles identifying it as part of an interstate fleet. The Corporation Commission may, upon satisfactory review of the payment history of an applicant, waive the requirement for payment in cash or certified funds.

D. Vehicles so registered on a prorated basis shall be considered fully licensed in Oklahoma and shall be exempt from all further registration or license fees under the provisions of the Oklahoma Vehicle License and Registration Act; provided that such fleet vehicles are proportionally licensed in some other state, territory or possession of the United States or some foreign province, state or country with which the Corporation Commission has entered into a prorating compact or agreement.

If a vehicle is permanently withdrawn from a proportionally registered fleet and a replacement vehicle is added to the fleet in the same calendar month, the replacement vehicle shall be considered fully registered as provided in Section 1133 of this title and Section 14-109 of this title, if the replacement vehicle is registered for a weight equal to or less than the vehicle permanently withdrawn, or if additional registration fees are paid when the replacement vehicle is registered for a weight greater than the vehicle withdrawn. If a vehicle is permanently withdrawn from a proportionally registered fleet and is not replaced by another vehicle in the same calendar month, credit shall be allowed as otherwise provided in this section.

E. Vehicles subsequently added to a proportionally registered fleet after commencement of the registration year shall be proportionally registered by applying the mileage percentage used in the original application for such fleet for such registration period to the regular registration fees due with respect to such vehicle for the remainder of the registration year.

F. If a vehicle is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold or otherwise completely removed from service, credit shall be allowed. Such credit shall be a sum equal to the amount paid with respect to such vehicle when it was first proportionally registered in the registration year, reduced by those months elapsing since the beginning of the registration year. The credit may be applied

against subsequent additions to the fleet, with the exception of vehicles removed from a renewal fleet and later added back to the same fleet, to be prorated or for other additional registration fees assessed. In no event shall credit be allowed for fees beyond such registration year, nor shall any such amount be subject to refund. Provided, further, that vehicles removed from a prorated fleet or sold to a nonprorated fleet for operation in Oklahoma shall be registered in Oklahoma for the remaining portion of the year.

G. The records of total mileage operated in all states upon which the application is made for a period of three (3) years following the year upon which the application is based shall be preserved. Upon request of the Corporation Commission, such records shall be made available for audit as to accuracy of computation and payments. The Corporation Commission may enter into agreements with agencies of other states administering motor vehicle registration laws for joint audits of any such records.

H. The Corporation Commission may enter into compacts or agreements with other states or other countries or subdivisions of such countries allowing reciprocal privileges to vehicles based in such other states and operating in interstate commerce if the vehicles are properly registered therein.

I. Interchanged vehicles properly registered in another state may be granted reciprocal privileges when engaged in a continuous movement in interstate commerce, but must register in this state if used in intrastate commerce.

J. In addition to those taxes or fees imposed by the Oklahoma Vehicle License and Registration Act, the same or substantially the same type or category of tax or fee may be imposed upon an out-of-state resident as is imposed upon residents of Oklahoma for the same or substantially similar use of a vehicle in such other state in the amount, or approximate total amount, of any fee or tax, including property, motor fuel, excise, sales, use or mileage tax required by the laws of such other state to be paid by a resident of this state making the same or similar use of a like vehicle in such state.

The Corporation Commission shall have the authority to promulgate rules which provide procedures for implementation of comparable regulatory fees and taxes for vehicles used in this state by residents of other states.

Any revenue derived from this subsection shall be apportioned in the same manner as provided in Section 1104 of this title.

It is the intention of the Legislature that the motor vehicle registration and licensing fees assessed against residents of other states operating similar vehicles in Oklahoma be comparably the same as the motor vehicle registration and licensing fees assessed against residents of Oklahoma operating a similar vehicle for a similar purpose in such other state; and that the Corporation Commission diligently monitor the motor vehicle registration and

licensing fees assessed against residents of Oklahoma by other states and to provide for uniform treatment of Oklahoma residents operating vehicles in other states and for residents of other states operating vehicles in Oklahoma.

Added by Laws 1985, c. 179, § 23, operative July 1, 1985. Amended by Laws 1987, c. 6, § 9, emerg. eff. March 16, 1987; Laws 1989, c. 218, § 2, emerg. eff. May 9, 1989; Laws 1995, c. 24, § 1, eff. §47-1120.1. Entry into International Registration Plan or other compacts or agreements - Assessment and payment of fees.

A. The Corporation Commission, when in the interest of the State of Oklahoma and its residents, may enter into the International Registration Plan or other compacts or agreements with other states to permit motor vehicle registration and license taxes on any motor vehicle to be used as a rental motor vehicle as defined in the International Registration Plan.

B. The Tax Commission or Corporation Commission, as applicable, shall require that each rental motor vehicle be assessed the following registration fees in lieu of the fee schedule set forth in Section 1132 of this title:

1. A fee of Fifteen Dollars (\$15.00) shall be assessed for the first year of registration in this or any other state; and

2. A fee of Ten Dollars (\$10.00) shall be assessed in the first year and each subsequent year of registration in this or any other state.

C. Upon registration and payment of the fees required by this section, the owner shall receive a license plate which shall be valid until the vehicle is permanently withdrawn from the rental fleet of the owner.

NOTE: Laws 2004, c. 522, § 16 repealed by Laws 2005, c. 1, § 72, emerg. eff. March 15, 2005.

§47-1120.2. Transfer of International Registration Plan revenues collected.

On a monthly basis, the Corporation Commission shall transfer to the Oklahoma Tax Commission the amount of net revenue collected under the International Registration Plan to be apportioned by the

Tax Commission in accordance with the provisions of Section 1104 of Title 47 of the Oklahoma Statutes.

Added by Laws 2005, c. 479, § 2, eff. July 1, 2005.

NOTE: Laws 2005, c. 411, § 1 repealed by Laws 2006, c. 16, § 33, emerg. eff. March 29, 2006.

§47-1121. Dishonored checks - Collection - Cancellation of license.

A. When, at the time of registration of any vehicle, payment is made by check for fees and taxes and the check is not paid by the bank on which drawn for any reason, after said check has been presented for payment a second time, such certificate of registration and other such instruments issued at the time of registration of such vehicle shall be invalid. The licensed operator shall transmit all documents and the dishonored check to Service Oklahoma for credit to the licensed operator's account. Service Oklahoma may enter into a contract for the collection of dishonored checks and canceled instruments. In all such cases, such vehicles shall be subject to the license fees and penalties provided in this act as though no attempt to register the vehicle had been made and the licensed operator shall charge the person issuing the check a fee of Twenty-five Dollars (\$25.00) for each check to cover the costs of processing each returned check. An individual who subsequently purchases any such vehicle shall not be required, as a condition for registration of the vehicle, to pay any tax, fee or penalty due resulting from the dishonored check.

A mortgagee who repossesses any such vehicle shall not be required, as a condition for registration of said vehicle, to pay the dishonored check penalties which had accrued as of the date of such repossession.

B. Whenever payment is made by check for any Oklahoma driver license and the check is not paid by the bank on which drawn for any reason, after said check has been presented for payment a second time, such driver license shall be invalid and all driving privileges of the holder of the driver license shall be canceled. The licensed operator shall transmit the dishonored check to Service Oklahoma for credit to the licensed operator's account. Service Oklahoma may enter into a contract for the collection of dishonored checks. The licensed operator shall charge the person issuing the check a fee of Twenty-five Dollars (\$25.00) for each check to cover the cost of processing each returned check. The licensed operator shall transmit a copy of all documents associated with the application and issuance of the driver license and a copy of the dishonored check to the Department of Public Safety.

Added by Laws 1985, c. 179, § 24, operative July 1, 1985. Amended by Laws 1987, c. 43, § 1, eff. Nov. 1, 1987; Laws 1989, c. 284, § 1, emerg. eff. May 22, 1989; Laws 1993, c. 294, § 1, eff. Sept. 1, 1993; Laws 1994, c. 128, § 1, eff. July 1, 1994; Laws 2008, c. 378,

§47-1122. Temporary license - Fee.

A. Whenever any nonresident owning any motor bus, truck, truck-tractor, trailer or semitrailer, which has been registered under the laws of another state and bears a current registration from such state, brings such vehicle into this state, for the purpose of using the vehicle for hire or other commercial purpose, for a temporary period of time not to exceed ninety (90) days, such person may, immediately after entering this state, upon the filing of an application therefor with Service Oklahoma, and the payment of a license fee equal to one-eighth (1/8) of the annual license fee required of such vehicle, register same for a period of thirty (30) days in lieu of obtaining an annual registration and license therefor; he may upon payment of one-fourth (1/4) of the annual license fee register it for a period of sixty (60) days or for ninety (90) days upon the payment of three-eighths (3/8) of the annual license fee in lieu of obtaining annual registration and license therefor. Upon failure of any person to obtain or renew this temporary license when first available, the fee due for the remaining portion of the year shall become due and must be paid.

B. It will not be necessary for such person to obtain an Oklahoma certificate of title evidencing ownership of such vehicle, if the applicant therefor has been issued a valid certificate of title or ownership for such vehicle by his home state. Service Oklahoma will issue a certificate of registration covering each temporary license provided by the terms of this section.

C. Provided, however, that the provisions of this section for temporary licenses shall not apply to the residents of any other state when the laws of such other state do not provide temporary licensing for approximately comparable license fees for vehicles being used in such other state by residents of Oklahoma under the same or substantially similar purposes, terms and conditions; and, provided further that, irrespective of the amount of the temporary license fees provided in this section, the amount of any temporary license fee for a vehicle of a resident of any such state shall be determined and fixed by Service Oklahoma in the amount, or the approximate total amount, of any license fee and any other taxes, including property and mileage taxes, required by the laws of such other state to be paid by a resident of Oklahoma making the same use of a similar vehicle in such state.

Added by Laws 1985, c. 179, § 25, operative July 1, 1985. Amended by Laws 2022, c. 282, § 139, emerg. eff. May 19, 2022.

§47-1123. Reciprocal compacts and agreements.

Service Oklahoma is hereby authorized and empowered to enter into and make reciprocal compacts and agreements when Service Oklahoma deems same to be in the interest of the residents of the State of Oklahoma, with the proper authorities of other states, concerning all motor vehicles engaged in foreign and interstate commerce upon and over the public highways.

Such compacts and agreements shall grant to the residents of other states privileges substantially like and equal to those granted by such states to Oklahoma residents; provided, that such compacts and agreements shall not supersede or suspend any laws, rules or regulations of this state applying to vehicles operated intrastate in this state. Privileges so granted shall extend only to persons who comply with the laws of the state of their residence. Such compacts and agreements shall not operate to supersede or suspend the application of any laws of this state, except insofar as they apply to the payment of vehicle license fees or other motor vehicle taxes charged residents of the states with which such compacts and agreements are made; provided, however, that the power and authority and discretion of the Corporation Commission to make and enforce rules and regulations governing motor carriers for hire, or to grant or deny certificates or permits to motor carriers for hire shall not be superseded or suspended by any such compact and agreement.

Added by Laws 1985, c. 179, § 26, operative July 1, 1985. Amended by Laws 2022, c. 282, § 140, emerg. eff. May 19, 2022.

may receive a temporary permit from the Corporation Commission. The permit shall be recognized in lieu of registration in this state. The permit shall indicate the time and date of its issuance and shall be valid for a period not to exceed seventy-two (72) hours from such indicated time.

B. A fee of Twelve Dollars (\$12.00) shall be charged for the issuance of the temporary permit which shall be apportioned in the same manner as other vehicle license fees are apportioned under the terms of the motor vehicle license and registration laws of this state.

C. The temporary permit shall not be issued to any person, firm or corporation owning or possessing a commercial vehicle, truck, truck-tractor, trailer, semitrailer or motor bus, who has been apprehended for violating the registration laws of this state. If apprehended, the vehicle shall be immediately subject to such registration laws. Possession of the temporary permit shall not affect any liability or duty which the owner or operator of a vehicle might otherwise have by law. An operator of a vehicle possessing an expired, altered or undated temporary permit shall be deemed to be operating an unregistered motor vehicle and shall be subject to registration and penalties therefor as provided by law.

D. The Corporation Commission may enter into an agreement with any person or corporation located within or without the state for transmission of temporary permits for a commercial vehicle by way of a facsimile machine or other device when the Corporation Commission determines that such agreement is in the best interests of the state.

The Corporation Commission may prescribe an application form for the temporary permit and such other forms as it deems appropriate.

G. The provisions of this section shall not apply to vehicles entering this state for the express purpose of transporting the resources and equipment necessary to support production activities of the motion picture, television and video film industries operating within the state. §47-1124.1. Temporary permit or authorization for vehicle subject to proportional registration.

The Corporation Commission is authorized to issue temporary permits or authorization for any vehicle to be proportionally registered in this state or which is currently proportionally registered in this state under the provisions of the International Registration Plan. Temporary permits may be issued for vehicles added to the fleet, duplicate cab cards, corrected cab cards, replacement license plates, adding jurisdictions, and weight increases to established accounts in good standing. New accounts may be issued temporary permits only after all fees are paid. Such temporary permit or authorization shall authorize a vehicle to be driven on the public roads of this state pending completion by the Corporation Commission of an application for proportional registration of such vehicle. The temporary permit or authorization shall be recognized in lieu of registration in this state. The temporary permit or authorization shall clearly indicate the date of issuance and the date of expiration, which shall be forty-five (45) days, including the day of issuance. The Corporation Commission may enter into reciprocal agreements with other states for recognition of temporary permits or authorizations.

The Corporation Commission may assign the temporary permits or authorization to registrants subject to proportional registration and such registrants may issue the temporary permits or authorization as needed for the operation of vehicles that will be operated as a fleet of proportionally registered vehicles. Registrants shall be accountable for all temporary permits or authorization assigned to them by the Corporation Commission and shall be subject to audit by the Corporation Commission.

The Corporation Commission may enter into an agreement with any person located within or without the state for the distribution and issuance of temporary permits or authorizations for any vehicle which is currently proportionally registered in this state under the provisions of the International Registration Plan when the Corporation Commission determines that such agreement is in the best interest of the state. Any such person or corporation shall be accountable for all temporary permits or authorizations assigned to them by the Corporation Commission and shall be subject to audit by the Corporation Commission.

The phrase "currently proportionally registered", as used in this section, shall be defined as any prorate account for which a properly completed original application has been received by the Corporation Commission and all corresponding and assessed fees have been paid in full.

Self-issue temporary permits or authorizations may be issued to a maximum of twenty-five percent (25%) of the size of the

registrant's fleet, and any registrant with a fleet of fewer than six vehicles may be assigned one self-issue permit.

An application shall be filed with the Corporation Commission within fifteen (15) days to proportionally register any vehicle for which a temporary permit or authorization has been issued.

Any registrant that has entered into such an agreement with the Corporation Commission, that is unable to produce, or refuses to produce, upon request by the Corporation Commission, any unissued temporary permit or authorization assigned to such registrant, shall be subject to the following penalty:

A fee of One Hundred Eighty Dollars (\$180.00) which is an amount equal to the fee for the number of seventy-two-hour temporary permits, provided for in Section 1124 of this title, that would be required for the operation of a vehicle for a forty-five-day period.

If, as the result of an audit, it is determined that any registrant that has entered into such an agreement with the Corporation Commission has used temporary permits or authorizations to avoid payment of proportional registration fees, all remaining unissued temporary permits or authorizations in the possession of such registrant that has entered into such an agreement with the Corporation Commission shall be returned to the Corporation Commission, and the Corporation Commission may deny further use of temporary permits or authorizations by such registrant that has entered into such an agreement with the Corporation Commission for a minimum period of six (6) months.

§47-1124.2. Hunters permits.

A. The Corporation Commission shall be authorized to issue permits, commonly known as "hunters permits", for any vehicles to be proportionally registered pursuant to the provisions of Section 1120 of this title. This temporary registration shall be honored by all member jurisdictions of the International Registration Plan.

B. The permit authorized by this section shall be issued in a manner that will allow an owner, not operating as a lessor, to move an empty vehicle from one lessee-carrier fleet to another without violating general registration laws.

C. The permit authorized by this section shall be valid for a period of forty-five (45) days, including the day of issuance. A fee in the amount of Twenty-five Dollars (\$25.00) shall be charged

for the issuance of the permit. All fees collected from the issuance of the permits shall be apportioned pursuant to Section 1104 of this title.

D. A separate permit shall be required for each proportionally registered power unit and trailer and shall not be issued for a registered gross weight in excess of the empty weight of such vehicle or trailer.

E. The permits authorized by this section may be obtained from the Corporation Commission, or any person or corporation located within or without the state if the Corporation Commission has entered into an agreement for transmission of these permits with such person or corporation upon determination that an agreement shall be in the best interest of the state.

Added by Laws 2001, c. 358, § 8, eff. July 1, 2001. Amended by Laws 2008, c. 168, § 5, emerg. eff. May 12, 2008.

§47-1125. Certain nonresident vehicle owners required to register vehicle - Exceptions.

A. If the owner of a vehicle becomes employed in this state, the vehicle is deemed to be subject to tax in this state and, within thirty (30) days from the date of employment, shall be registered upon the same terms and conditions that resident owners are required to register such vehicles in this state. However, the owner of the vehicle who is employed in this state and commutes daily from an adjoining state shall be exempt from the provisions in this section. The penalty for failure to register the vehicle in the manner provided in this subsection shall be equal to the license or registration fee due, and any such vehicle may be seized and held at any time for any such delinquency and sold for nonpayment of the license or registration fees in the same manner that domestic vehicles may be seized and sold at any time of the year upon ten (10) days' notice.

If the vehicle is detained by a law enforcement officer of this state and it is determined that the owner of such vehicle has failed to comply with the provisions of this subsection, a penalty of Ten Dollars (\$10.00) shall be assessed in addition to the penalties previously provided in this section. This penalty of Ten Dollars (\$10.00) shall be paid to the pension fund of the law enforcement officer, as defined in Section 1-147 of Title 47 of the Oklahoma Statutes, who detained the vehicle.

B. Any student certified as a full-time-equivalent student by an institution of higher learning in this state and being a nonresident of Oklahoma, presently attending any institution of higher learning, shall not be required to purchase an Oklahoma license plate, provided that the state of residence of such student affords a similar exemption to Oklahoma students attending institutions of higher learning in such state. This exception for

nonresident students does not apply when such student registers to vote as a resident in Oklahoma.

C. Any vehicle, including a manufactured home, other than a commercial truck which is owned by a visiting nonresident and is properly registered in its native state for the current year and remains here for any period in excess of sixty (60) days shall be registered upon the same terms and conditions that resident owners are required to register such vehicles in this state. Any vehicle within this state, owned by a nonresident which is not properly registered in its native state for the current year, shall be registered under the same terms and conditions as such domestic vehicles are required to be registered.

§47-1126. Repossessed vehicle - Registration.

A. At any time that a mortgagee repossesses a vehicle on which the registration has become delinquent as of the date of such repossession, the mortgagee shall not be required, as a condition for registration of said vehicle, to pay the penalties which had accrued as of the date of such repossession otherwise prescribed in this act. Provided that said penalties shall not be waived unless such vehicle is registered by the mortgagee within five (5) days after it is repossessed. Provided further, that if the mortgagor, or spouse, becomes the owner of the vehicle within ninety (90) days from the date of repossession, the penalty shall reattach and be paid when the new title is applied for.

B. Upon each vehicle repossessed by a mortgagee, a fee of Forty-six Dollars (\$46.00) shall be assessed. This fee shall be in lieu of any applicable vehicle excise tax and registration fees. Each motor license agent accepting applications for certificates of title for such vehicles shall receive Seven Dollars (\$7.00) to be deducted from the license fee specified in this subsection for each application accepted.

§47-1127. Military personnel - Registration of vehicles - Exemption from penalties.

A. All vehicles owned by members of the Armed Forces of the United States, the Reserve Corps of the Armed Forces of the United States, and the Oklahoma National Guard or their spouses assigned to duty in this state in compliance with official military or naval orders or owned by the spouse, who resides in Oklahoma, of a member

of the Armed Forces of the United States serving in a foreign country, which vehicles are not being used in a trade or business or for any commercial purpose, are hereby classified specially for vehicle license and registration purposes in this state. Any such vehicle which is not registered and licensed for the current year in the state of residence or domicile of the service member, Guardsman, or Reservist or of the spouse owning the vehicle must be registered for the current year in Oklahoma as herein provided, except that any such vehicle which has been licensed in some other state by such service member, Guardsman, Reservist, or spouse while the service member, Guardsman, or Reservist was stationed in the other state may be operated in this state for the remainder of the year or period for which it is licensed. If such vehicle currently is registered with the Armed Forces of the United States rather than being registered in a state and the service member, Guardsman, or Reservist is transferred to a duty station within this state pursuant to military orders, the service member, Guardsman, Reservist, or spouse owning the vehicle shall not be required to register the vehicle in this state for a period of thirty (30) days after the date the service member, Guardsman, or Reservist is required to report for duty pursuant to the military.

The service member, Guardsman, Reservist, or spouse applying for the registration of any such vehicle shall submit an appropriate statement, to be attached to the vehicle registration application, showing the following: A description of the vehicle owned by the applicant; the state and address of the applicant's legal residence or domicile; and that the applicant or applicant's spouse is actively serving in the Armed Forces of the United States assigned or stationed at a named location in compliance with official military orders. The statement shall be signed by the applicant and certified to by a proper officer of the organization to which the service member, Guardsman, or Reservist is assigned for duty. Provided, in lieu of certification by an officer, the applicant may submit copies of written orders documenting that the service member, Guardsman, or Reservist is actively serving at the time of application for registration. The application shall be accompanied by a registration fee of Fifteen Dollars (\$15.00).

B. Any Oklahoma resident who is stationed out of state due to an official assignment of the Armed Forces of the United States or their spouse shall be entitled to register his or her vehicle or vehicles in this state for the same registration fee afforded members of the Armed Forces of the United States assigned to duty in this state pursuant to subsection A of this section. Such Oklahoma resident or their spouse who is stationed out of state due to an official assignment of the Armed Forces of the United States shall be exempt from the vehicle inspection requirements of Section 1105 of this title; provided, such Oklahoma resident or his or her spouse

who is stationed out of state presents valid documentation acceptable to Service Oklahoma evidencing that such inspection has been made by an out-of-state authority acceptable to Service Oklahoma.

Any Oklahoma resident who is stationed out of state due to an official assignment of the Armed Forces of the United States may authorize a designated representative to register his or her vehicle or vehicles as provided for in this subsection if the service member, Guardsman, or Reservist is not able to register the vehicle at the appropriate time.

C. Any Oklahoma resident who is a member of the Armed Forces of the United States, Reserve Corps of the Armed Forces of the United States or the Oklahoma National Guard stationed outside of the state due to official assignment of the Armed Forces of the United States, or his or her spouse, shall be exempt from the penalties assessed pursuant to paragraph 4 of subsection C of Section 1115, subsection F of Section 1132 and subsection C of Section 1151 of this title for the duration of such official assignment and for a period of sixty (60) days after such assignment ends. If registration is not completed after the sixtieth day, the expiration date and the period for assessment of penalties shall commence on the sixty-first day. The exemption provided for in this section shall be granted only if the service member, Guardsman, Reservist, or spouse registering such vehicle submits an appropriate statement, to be attached to the vehicle registration application, showing the following: A description of the vehicle owned by the applicant; the state and address of the applicant's legal residence or domicile; and that the applicant or applicant's spouse is actively serving in the Armed Forces of the United States assigned or stationed at a named location outside the state in compliance with official military orders. The statement shall be signed by the applicant and certified to by a proper officer of the organization to which the service member, Guardsman, or Reservist is assigned for duty. Provided, in lieu of certification by an officer, the applicant may submit copies of written orders documenting that the service member, Guardsman, or Reservist is actively serving at the time of application for registration.

D. The reduced registration fee provided herein shall not apply to vehicles owned by retired members of the Armed Forces, inactive members of the Reserve Corps of the Armed Forces, inactive members of the Oklahoma National Guard and other members and former members of the Armed Forces of the United States who are not actively serving.

§47-1128v2. Manufacturer's or dealer's license - In-transit license plates.

A. Every person manufacturing or having a contract to sell new vehicles in this state shall file a verified application for a general distinctive number for all new vehicles owned or controlled by the manufacturer or dealer; provided, Service Oklahoma shall issue a license to sell such new motor vehicles only for those types of new vehicles for which the applicant has a sales contract or franchise; provided, further, that no license shall be issued to any applicant that has not complied with the provisions of Sections 561 through 567 of this title and does not hold a current license issued by the Oklahoma New Motor Vehicle Commission pursuant thereto. A separate manufacturer's or dealer's license shall be required for each separate county within which such manufacturer or dealer has an established place of business and upon payment of a license fee of Ten Dollars (\$10.00) there shall be assigned and issued to such manufacturer or dealer a certificate of registration and one license plate which shall be displayed upon each vehicle of such manufacturer or dealer when same is operated, driven, or displayed on any street, road, or highway, in the same manner as provided for vehicles owned by other persons. Such a manufacturer or dealer in new vehicles may obtain as many additional license plates as may be desired, upon the payment of the sum of Ten Dollars (\$10.00) for each additional plate; provided that no such license plate issued to any manufacturer or dealer shall be used or displayed upon any secondhand or used vehicle, or upon any new vehicle which is used for a service car, or private use, or for hire. Any person, with consent of the dealer, may operate a motor vehicle, with the dealer's tag affixed, while contemplating purchase, so long as this intent is limited to a consecutive seventy-two-hour period, or a weekend. An individual holding a valid salesman's license issued by the Oklahoma New Motor Vehicle Commission shall not be subject to this limitation. If such person also buys and sells used vehicles, he or she shall, after obtaining his or her new motor vehicle dealer's license from the Oklahoma New Motor Vehicle Commission, also obtain a used motor vehicle dealer's license, from the Oklahoma

Used Motor Vehicle, Dismantler, and Manufactured Housing Commission, the cost of which shall be as prescribed in Section 1101 et seq. of this title.

B. Each dealer and used motor vehicle dealer shall keep a record of the purchase and sale of each motor vehicle he or she buys or sells, which shall show the name of the seller or buyer as the case may be, and a complete description of the vehicle purchased or sold, and such other information as Service Oklahoma may prescribe.

C. Application for manufacturer's or dealer's license must show that such dealer or manufacturer has not violated any of the provisions of this section; and such license shall be nonassignable; and any such license may be suspended temporarily or revoked by Service Oklahoma for violation or failure to comply with this section; provided, the holder of such license shall be given ten (10) days' notice of hearing to suspend or cancel such license. If any such person subject to any of the licenses required in this section fails to obtain it when due, a penalty of twenty-five cents (\$0.25) per day on each such license shall be charged in the same manner as is now provided on delinquent motor vehicle registrations, and after a period of thirty (30) days such penalty shall be equal to the license fee. It shall be the duty of every person licensed to sell new or used motor vehicles to advise each purchaser in writing about his or her title requirements and payment of any taxes due. Each used motor vehicle must display a proper Oklahoma license plate or a used dealer's license plate.

D. Every person engaged in the business of transporting and delivering new or used vehicles by driving, either singly or by towbar, saddle-mount, or full-mount method, engaging in drive-away operations as defined in Section 2 of Title 85A of the Oklahoma Statutes, or any combination thereof, from the manufacturer or shipper to the dealer or consignee and using the public highways of this state shall file with Service Oklahoma a verified application for in-transit license plates to identify such vehicles. The application shall provide for a general distinctive number for all vehicles so transported. Upon payment of a license fee of Ten Dollars (\$10.00) there shall be assigned and issued to such person one in-transit plate. Such in-transit plate shall be used by such person only on vehicles when so transported. Such person may obtain as many additional in-transit plates as desired upon payment of a fee of Ten Dollars (\$10.00) for each additional plate. Provided, a used motor vehicle dealer shall use a used dealer license plate in lieu of the in-transit license plate for transporting a used motor vehicle and, in such cases, shall be exempt from making application for an in-transit license plate. Provided further, only a person who possesses a valid motor carrier authority issued by the Federal Motor Carrier Safety Administration, or a valid for-hire authority issued by the Corporation Commission may use the in-transit license

plates obtained by such person as herein authorized for transporting new or used manufactured homes from one location to another location within Oklahoma or from a point in another state to a point in this state. Nothing contained in this section shall relieve any person from the payment of license fees otherwise provided by law. When Service Oklahoma deems it advisable and in the public interest, it may require the holder of any in-transit license, or any person making application therefor, to file a proper surety bond in any amount it deems proper, not to exceed Ten Thousand Dollars (\$10,000.00).

E. Service Oklahoma shall issue dealer licenses to new and used manufactured home dealers, new and used travel trailer dealers, and new and used commercial trailer dealers.

Special mobilized machinery shall be permitted on the use of the highways of this state when proper registration and permits, as provided in this section, are in the possession of the operator.

B. Owners of qualifying equipment hereunder may elect to register such equipment either under this section or under other applicable provisions of this act. Application covering qualifying equipment may be made to Service Oklahoma or their authorized licensed operators for registering special mobilized machinery. Upon payment of a registration fee of Twenty-five Dollars (\$25.00), the applicant shall be granted a certificate of registration in acknowledgment of qualification by Service Oklahoma. The certificate of registration must at all times be carried with the equipment and be available for inspection by an investigating officer.

C. In addition to the registration fee, Service Oklahoma shall collect at time of registration an additional fee of Five Hundred Fifty Dollars (\$550.00) per unit for equipment qualifying under the

terms of this section. This fee of Five Hundred Fifty Dollars (\$550.00) shall include the constitutional ad valorem tax and shall be allocated by Service Oklahoma in the same manner and percentage as registration and permit fees are presently allocated under the provisions of this act. Payment of this fee shall be due on January 1 of each calendar year and must be paid in no event later than February 1 of each calendar year. The penalty for noncompliance with this provision shall be a double fee in the amount of One Thousand One Hundred Dollars (\$1,100.00). For qualifying equipment purchased during the calendar year, Service Oklahoma shall collect a fee which shall be pro rata of the annual fee as hereinbefore defined. Provided, however, the fee for qualifying equipment registered in another state and utilized for emergency or temporary service, not to exceed thirty (30) days, shall be calculated in the same manner as set forth in subsection A of Section 1122 of this title.

D. Other provisions of this section relating to registration and other laws of this state relating to registration, fees, or licensing shall not apply to such special mobilized equipment when the same is manufactured in Oklahoma and sold for delivery and exclusive use without the state or when returned temporarily for modification or repair. In addition, the registration, fees, and licensing provisions of the laws of this state shall not apply to special mobilized equipment temporarily brought into the state, with subsequent movement back out of the state, solely for fabrication, repair, testing, alteration, modification, refurbishing, or maintenance. If a person does not provide an electronic mail address then Service Oklahoma shall notify the person through the mail. The notifications shall contain all necessary information for such registration and licensing including a breakdown of all charges to be paid by the owner and shall contain instructions as to the procedure for renewal upon presentation to a licensed operator or by return mail to Service Oklahoma's state office. The content and form of the notice shall be determined by Service Oklahoma. Use of a postcard or electronic mail type renewal notice is specifically permitted. Service Oklahoma shall provide information on its public website instructing persons on the procedure for obtaining an annual notification via electronic mail, outlining all charges and fees associated with the registration of a vehicle, as well as an explanation of the apportionment of vehicle fees and penalties. The cost of mailing shall be One Dollar (\$1.00) for license plates and fifty cents (\$0.50) for decals, titles or other forms or devices provided in this act. For the purposes of this section, the license fee of a wrecker or tow vehicle shall be based on the gross weight of the wrecker or tow vehicle alone without any inclusion of weight for a vehicle towed by the wrecker or tow vehicle.

B. After the fifth year's registration in this or any other state, the license fee upon any truck registered on a basis of the combined laden weight not in excess of fifteen thousand (15,000)

pounds shall be assessed at fifty percent (50%) of the fee computed and assessed for each of the first five (5) years. On the seventh and all subsequent years of registration in this or any other state, on such truck, such license fees shall be assessed and computed at fifty percent (50%) of the amount due on the sixth year's registration. In no event shall such annual license fee on any truck be less than Ten Dollars (\$10.00) nor shall the annual license fee of any truck-tractor be less than Ninety-five Dollars (\$95.00).

C. In addition to the fees required by subsection A of this section, there shall be paid a registration fee of Forty Dollars (\$40.00) upon the first registration in this state after July 1, 1985, and upon the transfer of ownership of any frac tank, as defined by Section 54 of Title 17 of the Oklahoma Statutes, construction machinery, as defined by Section 1102 of this title, rental trailer, commercial trailer, or semitrailer designed to be pulled and usually pulled by a truck or truck-tractor.

Thereafter, a fee of Four Dollars (\$4.00) shall be paid annually for each frac tank, construction machinery, rental trailer, commercial trailer, or semitrailer. The fee of Four Dollars (\$4.00) shall be due and payable on January 1 of each year on any frac tank, construction machinery, rental trailer, commercial trailer, or semitrailer registered under this section.

Upon the payment of the registration fee of Forty Dollars (\$40.00), a nonexpiring registration certificate and identification plate shall be issued for each frac tank, construction machinery, rental trailer, commercial trailer, or semitrailer. The nonexpiring identification plate shall remain displayed on the frac tank, construction machinery, rental trailer, commercial trailer, or semitrailer for which the identification plate is issued until such frac tank, construction machinery, trailer, or semitrailer is sold or removed from service.

A receipt shall be issued upon the payment of the annual fee. The receipt shall show the total fee paid for one or more frac tanks, construction machinery units, rental trailers, commercial trailers, or semitrailers. The receipt shall be retained by the owner of any frac tank, construction machinery, rental trailer, commercial trailer, or semitrailer for a period of three (3) years and shall be subject to audit by the Tax Commission or Corporation Commission.

Any frac tank, construction machinery, commercial trailer, or semitrailer licensed pursuant to this section shall not be permitted to be operated on the highways of this state when such frac tank, construction machinery, commercial trailer, or semitrailer is being operated by a resident of this state, or is being operated by a person operating a vehicle or vehicles domiciled in this state and required by law to be licensed in Oklahoma, unless the pulling truck or truck-tractor has been licensed pursuant to this section or is

twenty-four thousand (24,000) pounds or less and operating under a valid temporary license plate provided by Section 1137.1 or 1137.3 of this title. In no event shall any truck, truck-tractor, frac tank, construction machinery, trailer, or semitrailer used in the furtherance of any commercial enterprise be permitted to operate on the highways of this state or register at a smaller license fee than that prescribed in this section except as provided in this section.

D. For each fiscal year, notwithstanding the provisions of Section 1104 of this title, the first Four Hundred Thousand Dollars (\$400,000.00) of all monies collected pursuant to subsections A, B, and C of this section shall be paid by the Tax Commission to the State Treasurer of the State of Oklahoma who shall deposit same each fiscal year, or such lesser amount as may accrue each fiscal year, under the provisions of this section to the credit of the General Revenue Fund of the State Treasury. All monies collected in excess of Four Hundred Thousand Dollars (\$400,000.00) each fiscal year shall be apportioned as provided in Section 1104 of this title.

E. If any vehicle is used for a purpose other than that for which it has been registered, the owner of the vehicle shall be required to immediately reregister the vehicle at the appropriate rate. If any vehicle is placed or operated upon any street, road, or highway of this state with a laden weight in excess of that for which it is licensed, the license fee for such increased laden weight shall become due, and the owner of the vehicle shall be required to immediately reregister the vehicle at the increased rate. Provided, that in either event there shall be credited upon the increased license fee for such reregistration for any portion of the year or period remaining after the change in use or increase in laden weight shall have occurred a proportionate part of the license fees previously paid. If this reregistration is made voluntarily by the owner, the ratable proportion of the credit allowed shall be determined as of the date the reregistration is voluntarily made. If the reregistration is not voluntarily made but occurs as a result of the discovery by any enforcement officer of an improper operation of the vehicle, that shall be considered prima facie evidence that it has been improperly registered for the entire portion of the year covered by the improper registration. Provided further, that the ratable credit shall be allowed only on the first reregistration of any vehicle during any calendar year. If, during the calendar year, subsequent changes of license plate are desired, the ratable credit shall not be allowed but the owner of the vehicle shall be required to pay the license fee due for that portion of the calendar year remaining without benefit of any additional credits. No owner of a motor vehicle shall possess at any time more than one license plate for any vehicle owned by such person. No reregistration shall be made until the current license plate previously issued has been surrendered.

Any person who has paid a fee under the terms and provisions of this subsection may at any time within one (1) year after the payment of such fee file with the Tax Commission or Corporation Commission a claim under oath for refund stating the grounds therefor. However, the Tax Commission or Corporation Commission shall allow refunds only where the amount of tax paid has been erroneously computed or determined through clerical errors or miscalculations. No refund shall be allowed by the Tax Commission or Corporation Commission of a tax paid by the person where such payment is made through a mistake as to the legal misinterpretation or construction of the provisions of this section. Any refunds made by the Tax Commission or Corporation Commission pursuant to this subsection shall be made out of any monies collected pursuant to this subsection and which have not been apportioned.

F. The annual license fee required by this section is intended to cover only the motor vehicle for which it is issued. The Tax Commission or Corporation Commission upon application, when a licensed truck-tractor has been destroyed by fire or accident, shall credit the unused portion of the annual license fee of the vehicle toward the license fee of a replacement vehicle of equal registered weight. The amount of credit shall not exceed the license fee due on the replacement vehicle. The Tax Commission or Corporation Commission shall not be required to make a refund. If the replacement vehicle is to be registered at a greater weight, the applicant shall pay an additional sum equivalent to the difference between the unused portion of the annual license fee for the original motor vehicle and the license fee due for the replacement motor vehicle.

G. The license fees provided for in this section shall be paid each year whether or not the vehicle is operated on the public highway.

H. Notwithstanding the provision of any other statute in respect to the time for payment of license fees on motor vehicles, if the total amount of the annual license fees due from any resident owner, either individual, partnership, or Oklahoma corporation, upon the registration, on or before January 15 of any year, of commercial trucks, truck-tractors, frac tanks, construction machinery, trailers or semitrailers exceeds the sum of One Thousand Dollars (\$1,000.00), the license fees may be paid in equal semiannual installments. The first installment shall be paid at the time of the application for registration of the vehicles and not later than January 15 of each year, and the second installment shall be paid on or before the first day of July of such year.

This subsection shall not operate to reduce the amount of the license fees due. If any installment is not paid on or before the date due, all unpaid installments of license fees for such year on each vehicle shall be deemed delinquent and immediately due and

payable, and there shall be added a penalty of twenty-five cents (\$0.25) per day to the balance of the license fee due on each vehicle for each day the balance remains unpaid up to thirty (30) days, after which the penalty due on each vehicle shall be Twenty-five Dollars (\$25.00). The penalty for vehicles registered by weight in excess of eight thousand (8,000) pounds shall be an amount equal to the license fee. On and after the thirtieth day each such vehicle involved shall be considered as improperly licensed and as not currently registered, and all of the provisions of the Oklahoma Vehicle License and Registration Act relating to enforcement, including the provisions for the seizure and sale of vehicles not registered and not displaying current license plates, shall apply to the vehicles.

All fees and taxes levied by the Oklahoma Vehicle License and Registration Act shall become and remain a first lien upon the vehicle upon which the fees or taxes are due until paid. The lien shall have priority to all other liens. No title to any vehicle may be transferred until the unpaid balance on the vehicle has been paid in full. Provided, that any unpaid balance of the license fees shall remain and become a lien against any and all property of the owner, both real and personal, for so long as any license tag fee balance shall remain unpaid. Any unpaid balance under these provisions shall be immediately due and payable by the owner if any vehicle is sold, wrecked, or otherwise retired from service.

Any person electing to pay license fees on a semiannual installment basis, as herein authorized, shall be required to purchase a new license tag for the last half and shall pay the sum of Four Dollars (\$4.00) for each tag to cover the costs of the license tags. The license tags for each half shall be plainly marked in designating the half for which they were issued. A validation sticker may be used in lieu of a metal tag where appropriate. Such license tag fee shall be, in addition to the license fees or any other fees, collected on each application as provided by statute and shall be apportioned according to the provisions of Section 1104 of this title.

I. Any person pulling or towing any vehicle intended to be resold, into or through this state, shall pay a fee of Three Dollars (\$3.00) for the vehicle towing and Three Dollars (\$3.00) for the one being towed. It shall be unlawful to operate any series of such units on the public highways of this state at a distance closer than five hundred (500) feet from each other. All fees and taxes levied by the terms and provisions of this section shall become and remain a first lien upon the vehicle upon which the fees or taxes are due until paid. The lien shall be prior, superior, and paramount to all other liens of whatsoever kind or character.

J. In addition to any other penalties prescribed by law, the following penalty shall be imposed by enforcement officers upon any

owner or operator of a commercial vehicle registered under the provisions of this section when the laden weight or combined laden weight of such vehicle is found to be in excess of that for which registered. The penalty shall be imposed each and every time a vehicle is found to be in violation of the registered laden weight or combined laden weight.

The penalty shall be not less than Twenty Dollars (\$20.00) when such vehicle exceeds the laden weight or combined laden weight by two thousand one (2,001) pounds; thereafter, an additional penalty of not less than Twenty Dollars (\$20.00) shall be imposed for each additional one thousand (1,000) pounds or fraction thereof of weight in excess of the registered laden weight or combined laden weight. Such penalty shall not exceed the amount established by the Corporation Commission pursuant to the provisions of subsection A of Section 1167 of this title. Revenue from such penalties shall be apportioned as provided in Section 1167 of this title.

K. Service Oklahoma shall promulgate rules for the mass renewal of commercial vehicle registration for businesses that possess at least ten vehicles registered as commercial vehicles under the provisions of this section, provided that such mass renewal shall not be mandatory for such businesses. For such mass renewal, the annual license fees described in subsections A and B of this section shall be due and payable on January 1 of each year on such commercial vehicles.

A. Except for vehicles, travel trailers or commercial trailers which display a current Oklahoma license tag, upon the purchase or transfer of ownership of a used motor vehicle, travel trailer or commercial trailer, including an out-of-state purchase or transfer of the same, to a licensed used motor vehicle dealer, wholesale used motor vehicle dealer, used travel trailer dealer or used commercial trailer dealer, subsequently referred to in this section as "dealer", the dealer shall affix a used dealer's plate visible from the rear of the vehicle, travel trailer or commercial trailer. Such license plate shall expire on December 31 of each year. When the vehicle, travel trailer or commercial trailer is parked on the dealer's licensed place of business, it shall not be required to have a license plate of any kind affixed. A dealer shall obtain from Service Oklahoma at a cost of Ten Dollars (\$10.00) a dealer license plate for demonstrating, transporting or any other normal business of a dealer including use by an individual holding a valid salesperson's license issued by the Oklahoma Used Motor Vehicle, Dismantler, and Manufactured Housing Commission. Any dealer who operates a wrecker or towing service licensed pursuant to Sections 951 through 957 of this title shall register each wrecker vehicle and display a wrecker license plate on each vehicle as required by Section 1134.3 of this title. A dealer may obtain as many additional license plates as may be desired upon the payment of Ten Dollars (\$10.00) for each additional license plate. Use of the used dealer license plate by a licensed dealer for other than the purposes as set forth herein shall constitute grounds for revocation of the dealer's license. Service Oklahoma shall design the official used dealer license plate to include the used dealer's license number issued to him or her each year by Service Oklahoma or the

Oklahoma Used Motor Vehicle, Dismantler, and Manufactured Housing Commission.

B. Upon the purchase or transfer of ownership of an out-of-state used motor vehicle, travel trailer or commercial trailer to a licensed dealer, the dealer shall make application for an Oklahoma certificate of title pursuant to the Oklahoma Vehicle License and Registration Act, Section 1101 et seq. of this title. Upon receipt of the Oklahoma certificate of title, the dealer shall follow the procedure as set forth in subsection A of this section. Provided, nothing in this title shall be construed as requiring a dealer to register a used motor vehicle, travel trailer or commercial trailer purchased in another state which will not be operated or sold in this state.

C. Upon sale or transfer of ownership of the used motor vehicle or travel trailer, the dealer shall place upon the reassignment portion of the certificate of title a tax stamp issued by the county treasurer of the county in which the dealer has his or her primary place of business. The tax stamp shall be issued upon payment of a fee of Three Dollars and fifty cents (\$3.50) and shall be in lieu of the dealer's ad valorem tax on the inventories of used motor vehicles or travel trailers but shall not relieve any other property of the dealer from ad valorem taxation.

D. Upon sale of a used motor vehicle or travel trailer to another licensed dealer, the selling dealer shall place the tax stamp required in subsection C of this section upon the certificate of title. The used dealer license plate or wholesale dealer license plate shall be removed by the selling dealer. The purchasing dealer shall, at time of purchase, place his or her dealer license plate on the used motor vehicle, travel trailer or commercial trailer as provided in subsection A of this section; provided, for vehicles, travel trailers or commercial trailers purchased by a licensed used dealer at an auction, in lieu of such placement of the dealer license plate, the auction may provide temporary documentation as approved by the Director of the Motor Vehicle Division of Service Oklahoma for the purpose of transporting such vehicle to the purchaser's point of destination. Such temporary documentation shall be valid for two (2) days following the date of sale.

E. 1. The purchaser of every used motor vehicle, travel trailer, or commercial trailer, except as otherwise provided by law, shall obtain registration and title for the vehicle or trailer within two (2) months from the date of purchase of same. It shall be the responsibility of the selling dealer to place a temporary license plate, in size similar to the permanent Oklahoma license plate but of a ten-mil weatherproof plastic-impregnated paper approved by the Oklahoma Used Motor Vehicle, Dismantler, and Manufactured Housing Commission, upon a used motor vehicle, travel trailer or commercial trailer when a transaction is completed for

the sale of such vehicle. Provided, upon a determination by the Commission that there exists a national shortage of ten-mil weatherproof plastic-impregnated paper, eight-mil weatherproof plastic-impregnated paper may be approved by the Commission until it has been determined by the Commission the shortage has ended. The temporary license plate under this subsection shall be placed at the location provided for the permanent motor vehicle license plate. The temporary license plate shall show the license number which is issued to the dealer each year by Service Oklahoma or the Oklahoma Used Motor Vehicle, Dismantler, and Manufactured Housing Commission, the date of expiration, and the company name of the selling dealer.

2. The Oklahoma Used Motor Vehicle, Dismantler, and Manufactured Housing Commission is hereby directed to develop the temporary license plate design to incorporate these requirements in a manner that will permit law enforcement personnel to readily identify the dealer license number and date of expiration. The Oklahoma Used Motor Vehicle, Dismantler, and Manufactured Housing Commission is hereby authorized to develop additional requirements and parameters as deemed appropriate to discourage or prevent illegal duplication and use of the temporary license plate. Such temporary license plate shall be valid for a period of ten (10) days from the date of purchase. Use of the temporary license by a dealer for other than the purposes set forth herein shall constitute grounds for revocation of the dealer's license to conduct business. Purchasers of a commercial trailer shall affix the temporary license plate to the rear of the commercial trailer. The purchaser shall display the temporary license plate for a period not to exceed ten (10) days or until registration and title are obtained as provided in this section.

3. The provisions of this subsection on temporary licenses shall apply to nonresidents who purchase a used motor vehicle, travel trailer, or commercial trailer within this state that is to be licensed in another state. The nonresident purchaser shall be allowed to operate the vehicle or trailer within the state with a temporary license plate for a period not to exceed ten (10) days from date of purchase. Any nonresident purchaser found to be operating a used motor vehicle, travel trailer, or commercial trailer within this state after two (2) months shall be subject to the registration fees of this state upon the same terms and conditions applying to residents of this state. Additionally, within two (2) business days of the date of the sale or transfer of the vehicle or trailer, the parties shall submit the requisite documentation to Service Oklahoma or licensed operator identifying the vehicle or trailer subject to the sale or transfer, purchaser information, and any associated license plate on the vehicle, pursuant to the requirements of Section 1112.2 of this title.

F. It shall be unlawful for any dealer to procure the registration and licensing of any used motor vehicle, travel trailer or commercial trailer sold by the dealer or to act as the agent for the purchaser in the procurement of the registration and licensing of the purchaser's used vehicle, travel trailer, or commercial trailer. A license of any dealer violating the provision of this section may be revoked.

G. Dealers following the procedure set forth herein shall not be required to register vehicles, travel trailers, or commercial trailers to which this section applies, nor will the registration fee otherwise required be assessed. Provided, dealers shall not purchase or trade for a used motor vehicle, travel trailer, or commercial trailer on which the registration therefor has been expired for a period exceeding two (2) months without obtaining current registration therefor.

H. A nonprofit charitable organization which is exempt from taxation pursuant to the provisions of the Internal Revenue Code, 26 U.S.C., Section 501(c)(3), and which accepts donations of used motor vehicles previously titled in Oklahoma to be subsequently transferred to another owner, upon the qualifying organization providing sufficient documentation of its tax-exempt status, may obtain from Service Oklahoma charitable nonprofit organization license plates for demonstrating, transporting, or test-driving donated vehicles, provided that no organization shall possess or use at any one time more than eight such plates. On or before ten (10) days from the date of purchase of a new motor vehicle, travel trailer, or powersports vehicle, the temporary license plate shall be removed and replaced with a permanent, current Oklahoma license plate. Use of such temporary license plate by a licensed dealer for other than the purpose of normally doing business shall constitute grounds for revocation of the dealer's license.

B. It shall be unlawful for any licensed dealer of new motor vehicles, travel trailers, or powersports vehicle to procure the registration and licensing of any new motor vehicle, travel trailer, or powersports vehicle sold by the licensed dealer or to act as the agent for the purchaser in the procurement of the registration and licensing. H. When an application for registration is made with Service Oklahoma, the Corporation Commission or a licensed operator, a registration fee of One Dollar and seventy-five cents (\$1.75) shall be collected for each license plate or decal issued. Such fees shall be in addition to the registration fees on motor vehicles and when an application for registration is made to the licensed operator, such licensed operator shall retain a fee as provided in Section 1141.1 of this title through June 30, 2023. Beginning July 1, 2023, the fee shall be retained by the licensed operator pursuant to subsection E of Section 1141.1 of this title. Service Oklahoma shall prepare schedules of registration fees and charges for titles which shall include the fees for such licensed operators and all fees and charges paid by a person shall be listed separately on the application and registration and totaled on the application and registration. The licensed operators shall charge only such fees as are specifically provided for by law, and all such authorized fees shall be posted in such a manner that any person shall have notice of all fees that are imposed by law.

I. Any licensed operator shall be responsible for all costs incurred by Service Oklahoma when relocating an existing Service Oklahoma location. The Service Oklahoma Operator Board may waive

payment of such costs in case of unforeseen business or emergency conditions beyond the control of the licensed operator.

All existing motor license agents in good standing with the Oklahoma Tax Commission will be offered a subsequent contract from Service Oklahoma to become a licensed operator to take effect on January 1, 2023. The contract between existing motor license agents and Service Oklahoma shall be agreed to no later than December 31, 2022. In the event an existing motor license agent declines to enter into the subsequent contract with Service Oklahoma to become a licensed operator, that motor license agent may continue to conduct business pursuant to the existing contract through December 31, 2025, so long as that motor license agent remains in good standing with Service Oklahoma in accordance with the terms of the existing contract.

Advice of deposit receipts or duplicate deposit receipts, in a form and in an amount prescribed by Service Oklahoma, shall be obtained and preserved as directed by Service Oklahoma. One shall be retained by the licensed operator, and one shall be immediately forwarded to Service Oklahoma. Withdrawals or transfers from such

Unless provided otherwise, any licensed operator who fails to comply with any provision of this section shall pay a penalty to be imposed by Service Oklahoma. Such penalty shall be equal to one percent (1%) of the gross amount of the receipts received by the licensed operator for that particular day that the licensed operator fails to deposit all such funds required by this section or one percent (1%) of the gross amount of the receipts received by the licensed operator for the report period that the licensed operator fails to timely mail the required report or remit any excess licensed operator funds as provided in subsection B of this section. Such penalty shall be increased to three percent (3%) of the gross amount of the receipts received for that particular day if the licensed operator fails to fulfill any of said requirements within a period of five (5) days. Provided that such penalty shall be three percent (3%) of the gross amount of the receipts received by the licensed operator for the report period that the licensed operator fails to timely mail the required report or remit any excess licensed operator funds as provided in subsection B of this section if the licensed operator fails to fulfill these requirements within five (5) days.

The Service Oklahoma Operator Board may waive the penalty for failing to timely file the accounting report required by this section if the Service Oklahoma Operator Board finds that:

The fund shall be a continuing fund, not subject to fiscal year limitations, and shall consist of annual assessments levied on licensed operators. All monies accruing to the credit of the funds are hereby appropriated and may be expended, in amounts and as authorized by the Legislature, by the Office of Management and Enterprise Services. The purpose of the fund is to ensure that Service Oklahoma recovers tax revenue and the Corporation Commission recovers apportioned vehicle registration fees, not remitted to either because of negligence, malfeasance or fraud by a licensed operator. In addition, claims arising from licensed operator errors and omissions may be paid from monies in the fund in excess of Five Hundred Thousand Dollars (\$500,000.00). Upon final determination by Service Oklahoma of a tax revenue shortage or liability of a licensed operator whose Service Oklahoma location has been closed, or by the Corporation Commission of apportioned vehicle registration fee shortage, a claim in the amount of such liability may be made by either Service Oklahoma or the Corporation Commission against the fund. The claim shall be paid out of the fund by the Office of Management and Enterprise Services. At least sixty (60) days' written notice shall be given to the delinquent licensed operator before any such claim is paid. The Office shall have the power to seek restitution to the fund from any licensed operator whose liability was paid out of the fund. in the Oklahoma Motor License Agent Indemnity Fund shall be deposited in the Oklahoma Licensed Operator Indemnity Fund.

2. There is hereby created the Oklahoma Licensed Operator Indemnity Fund. The purpose of the fund is to ensure that Service Oklahoma recovers revenue fees not remitted to it because of negligence, malfeasance, or fraud by a licensed operator. In addition, claims arising from licensed operator errors and omissions may be paid from monies in the fund in excess of Five Hundred Thousand Dollars (\$500,000.00). Upon final determination by Service Oklahoma of a tax revenue shortage or liability of a licensed operator whose Service Oklahoma location has been closed, or by the Corporation Commission of apportioned vehicle registration fee shortage, a claim in the amount of such liability may be made by either Service Oklahoma or the Corporation Commission against the fund. The claim shall be paid out of the fund by the Office of Management and Enterprise Services. At least sixty (60) days' written notice shall be given to the delinquent licensed operator before any such claim is paid. Oklahoma shall reduce or suspend the assessment for such licensed operators if Service Oklahoma determines that the fund is fiscally sound and meets the needs for which the fund is established.

Provided, however, if the fund contains less than Five Hundred Thousand Dollars (\$500,000.00) at any time during the fiscal year for which Service Oklahoma has reduced or suspended the assessment hereunder, Service Oklahoma shall immediately issue an assessment pursuant to subparagraph a of this paragraph in an amount equal to the amount which would have been paid during the remaining quarters of the fiscal year; and

2. Each licensed operator which has been in operation for less than three (3) years but more than one (1) year shall pay the assessment in an amount equal to one percent (1%) of the amount determined for the licensed operator by Service Oklahoma until the licensed operator reaches the end of its third year of operation. A. Any tool, implement, or instrumentality, including but not limited to a motor vehicle or motor vehicle part, used or possessed

in connection with any violation of Section 3 of this act may be seized by a member of a state or local law enforcement agency upon process issued by any court of competent jurisdiction.

B. Seizure of property described in subsection A of this section may be made by a member of a state or local law enforcement agency without process if:

1. in accordance with any applicable law or regulation;
2. the seizure is incident to inspection under an administrative inspection warrant;
3. the seizure is incident to search made under a search warrant;
4. the seizure is incident to a lawful arrest;
5. the seizure is made pursuant to a valid consent to search;
6. the property seized has been the subject of a prior judgment in favor of the state in a criminal proceeding, or in an injunction or forfeiture proceeding under Section 6 of this act; or
7. there are reasonable grounds to believe that the property is directly or indirectly dangerous to health or safety.

C. When property is seized under this section, the seizing agency may:

1. place the property under seal; or
2. remove the property to a place selected and designated by the seizing agency.

Added by Laws 1988, c. 158, § 4, operative July 1, 1988.

§47-1505. Property subject to forfeiture - Determination of identity of rightful owner - Disposition of forfeited property - Issuance of new certificate of title or salvage certificate.

A. The following are subject to forfeiture unless obtained by theft, fraud or conspiracy to defraud and the rightful owner is known or can be identified and located:

1. Any tool;
2. Any implement; or
3. Any instrumentality, including but not limited to, real estate, any motor vehicle or motor vehicle part, whether owned or unowned by the person from whose possession or control it was seized, which is used or possessed either in violation of Section 1503 of this title or to promote or facilitate a violation of Section 1503 of this title.

B. Any motor vehicle, other conveyance, or motor vehicle part used by any person as a common carrier is subject to forfeiture under this section where the owner or other person in charge of the motor vehicle, other conveyance, or motor vehicle part is a consenting party to a violation of Section 1503 of this title.

C. Any motor vehicle, motor vehicle part, other conveyance, tool, implement, or instrumentality is not subject to forfeiture under this section by reason of any act or omission which the owner

proves to have been committed or omitted without the owner's knowledge or consent.

D. 1. Seizing agencies will utilize their best efforts to identify any seized motor vehicle or motor vehicle part to determine ownership or the identity of any other person having a right or interest in a seized motor vehicle or motor vehicle part. In its reasonable identification and owner location attempts, the seizing agency will cause the stolen motor vehicle files of the state police to be searched for stolen or wanted information on motor vehicles similar to the seized motor vehicle or consistent with the seized motor vehicle part.

2. Where a motor vehicle or motor vehicle part has an apparent value in excess of One Thousand Dollars (\$1,000.00),

- a. the seizing agency shall consult with an expert of the type specified in paragraph 4 of Section 1502 of this title,
- b. the seizing agency shall also request searches of the on-line and off-line files of the National Crime Information Center (NCIC) and the National Automobile Theft Bureau (NATB) when the state police files have been searched with negative results.

E. A forfeiture of a motor vehicle, motor vehicle part, or other conveyance encumbered by a bona fide security interest is subject to the interest of the secured party where the secured party neither had knowledge of nor consented to the act or omission forming the ground for the forfeiture.

F. Property, described in subsection A of this section, seized and held for forfeiture, shall not be subject to replevin and is subject only to the order and judgments of a court of competent jurisdiction hearing the forfeiture proceedings.

G. 1. The district attorney in the county where the seizure occurs, or the attorney for the Oklahoma State Bureau of Investigation (OSBI) in cases investigated by the OSBI, or the attorney for the Department of Public Safety in cases investigated by the Department shall bring an action for forfeiture in a court of competent jurisdiction. The forfeiture action shall be brought within sixty (60) days from the date of seizure except where the attorney prosecuting the forfeiture in the sound exercise of discretion determines that no forfeiture action should be brought because of the rights of property owners, lienholders, or secured creditors, or because of exculpatory, exonerating, or mitigating facts and circumstances.

2. The attorney prosecuting the forfeiture shall give notice of the forfeiture proceeding by mailing a copy of the complaint in the forfeiture proceeding to each person whose right, title, or interest is of record in Service Oklahoma, the Department of Public Safety, the Federal Aviation Agency, or any other department of the state,

or any other state or territory of the United States, or of the federal government if such property is required to be registered in any such department.

3. Notice of the proceeding shall be given to any such other person as may appear, from the facts and circumstances, to have any right, title, or interest in or to the property.

4. The owner of the property, or any person having, or claiming, right, title, or interest in the property may within sixty (60) days after the mailing of such notice file a verified answer to the complaint and may appear at the hearing on the action for forfeiture.

5. The attorney prosecuting the forfeiture shall show at a forfeiture hearing, by a preponderance of the evidence, that such property was used in the commission of a violation of Section 1503 of this title, or was used or possessed to facilitate such violation.

6. The owner of property may show by a preponderance of the evidence that the owner did not know, and did not have reason to know, that the property was to be used or possessed in the commission of any violation or that any of the exceptions to forfeiture are applicable.

7. Unless the attorney prosecuting the forfeiture shall make the showing required of it, the court shall order the property released to the owner. Where the attorney prosecuting the forfeiture has made such a showing, the court may order:

- a. the property be destroyed by the agency which seized it or some other agency designated by the court,
- b. the property be delivered and retained for use by the agency which seized it or some other agency designated by the court, or
- c. the property be sold at public sale.

H. A copy of a forfeiture order shall be filed with the sheriff of the county in which the forfeiture occurs and with each federal or state department with which such property is required to be registered. Such order, when filed, constitutes authority for the issuance to the agency to whom the property is delivered and retained for use or to any purchaser of the property of a title certificate, registration certificate, or other special certificate as may be required by law considering the condition of the property.

I. Proceeds from sale at public auction, after payment of all reasonable charges and expenses incurred by the agency designated by the court to conduct the sale in storing and selling the property, shall be paid to the general fund of the county of seizure, the special agency account of the Oklahoma State Bureau of Investigation, or treasury of the governmental unit employing the seizing agency.

J. No motor vehicle, either seized under Section 1504 of this title or forfeited under this section, shall be released by the seizing agency or used or sold by an agency designated by the court unless any altered, counterfeited, defaced, destroyed, disguised, falsified, forged, obliterated, or removed vehicle identification number is corrected by the issuance and affixing of either an assigned or replacement vehicle identification number plate as may be appropriate under laws or regulations of this state.

K. No motor vehicle part having any altered, counterfeited, defaced, destroyed, disguised, falsified, forged, obliterated, or removed vehicle identification number shall be disposed of upon forfeiture except by destruction thereof, except that this provision shall not apply to any such motor vehicle part which is assembled with and constitutes part of a motor vehicle.

L. No motor vehicle or motor vehicle part shall be forfeited under this section solely on the basis that it is unidentifiable. Instead of forfeiture, any seized motor vehicle or motor vehicle part which is unidentifiable shall be the subject of a written report sent by the seizing agency to the Department of Public Safety which report shall include a description of the motor vehicle or motor vehicle part, its color, if any, the date, time and place of its seizure, the name of the person from whose possession or control it was seized, the grounds for its seizure, and the location where the same is held or stored.

M. When a seized unidentifiable motor vehicle or motor vehicle part has been held for sixty (60) days or more after the notice to the Department of Public Safety specified in subsection L of this section, has been given, the seizing agency, or its agent, shall cause the motor vehicle or motor vehicle part to be sold at public sale to the highest bidder. Notice of the time and place of sale shall be posted in a conspicuous place for at least thirty (30) days prior to the sale on the premises where the motor vehicle or motor vehicle part has been stored.

N. When a seized unidentifiable motor vehicle or motor vehicle part has an apparent value of One Thousand Dollars (\$1,000.00) or less, the seizing agency shall authorize the disposal of the motor vehicle or motor vehicle part, provided that no such disposition shall be made less than sixty (60) days after the date of seizure.

O. The proceeds of the public sale of an unidentifiable motor vehicle or motor vehicle part shall be deposited in the special agency account of the Oklahoma State Bureau of Investigation, or treasury of the governmental unit employing the seizing agency after deduction of any reasonable and necessary towing and storage charges.

P. Seizing agencies will utilize their best efforts to arrange for the towing and storing of motor vehicles and motor vehicle parts in the most economical manner possible. In no event shall the owner

of a motor vehicle or a motor vehicle part be required to pay more than the minimum reasonable costs of towing and storage.

Q. A seized motor vehicle or motor vehicle part that is neither forfeited nor unidentifiable shall be held subject to the order of the court in which the criminal action is pending or, if a request for its release from such custody is made until the district attorney has notified the defendant or the defendant's attorney of such request and both the prosecution and defense have been afforded a reasonable opportunity for an examination of the property to determine its true value and to produce or reproduce, by photographs or other identifying techniques, legally sufficient evidence for introduction at trial or other criminal proceedings. Upon expiration of a reasonable time for the completion of the examination which in no event shall exceed fourteen (14) days from the date of service upon the defense of the notice of request for return of property as provided herein, the property shall be released to the person making such request after satisfactory proof of such person's entitlement to the possession thereof. Notwithstanding the foregoing, upon application by either party with notice to the other, the court may order retention of the property if it determines that retention is necessary in the furtherance of justice.

R. When a seized vehicle is forfeited, restored to its owner, or disposed of as unidentifiable, the seizing agency shall retain a report of the transaction for a period of at least one (1) year from the date of the transaction.

S. When an applicant for a certificate of title or salvage certificate presents to Service Oklahoma proof that the applicant purchased or acquired a motor vehicle at a public sale conducted pursuant to this section and such fact is attested to by the seizing agency, Service Oklahoma shall issue a certificate of title, salvage certificate for the motor vehicle upon receipt of the statutory fee, properly executed application for a certificate of title, or other certificate of ownership, and the affidavit of the seizing agency that a state-assigned number was applied for and affixed to the motor vehicle prior to the time that the motor vehicle was released by the seizing agency to the purchaser.

§47-1506. Civil proceedings - Remedies - Treble damages - Estoppel - Limitations - Service of process.

A. The Attorney General, any district attorney or any aggrieved person may institute civil proceedings against any person in any court of competent jurisdiction seeking relief from conduct

constituting a violation of any provision of the Motor Vehicle Chop Shop, Stolen and Altered Property Act. If the plaintiff in such a proceeding proves the alleged violation, or its threat, by a preponderance of the evidence, any court of competent jurisdiction after due provision for the rights of innocent persons, shall grant relief by entering any appropriate order or judgment, including, but not limited to:

1. ordering any defendant to be divested of any interest in any property;

2. imposing reasonable restrictions upon the future activities or investments of any defendant, including prohibiting any defendant from engaging in the same type of endeavor as the defendant was engaged in previously;

3. ordering the suspension or revocation of a license, permit, or prior approval granted by any public agency or any other public authority; or

4. ordering the surrender of the charter of a corporation organized under the laws of the state or the revocation of a certificate authorizing a foreign corporation to conduct business within the state upon finding that the board of directors or a managerial agent acting on behalf of the corporation, in conducting the affairs of the corporation, has authorized or engaged in conduct made unlawful by the Motor Vehicle Chop Shop, Stolen and Altered Property Act and that, for the prevention of future criminal conduct, the public interest requires the charter of the corporation be surrendered and the corporation dissolved or the certificate revoked.

B. In a proceeding under this section, injunctive relief shall be granted in conformity with the principles that govern the granting of relief from injury or threatened injury in other cases, but no showing of special or irreparable injury shall have to be made. Pending final determination of a proceeding under this section, a temporary restraining order or a preliminary injunction may be issued upon a showing of immediate danger of significant injury, including the possibility that any judgment for money damages might be difficult to execute, and, in a proceeding initiated by an aggrieved person, upon the execution of proper bond against injury for an injunction improvidently granted.

C. Any person injured, directly or indirectly, by conduct constituting a violation by any person of Section 3 of this act shall, in addition to any other relief, have a cause of action for threefold the actual damages sustained by the person.

D. A final judgment or decree rendered against the defendant in any civil or criminal proceeding shall estop the defendant in any subsequent civil action or proceeding brought by any person as to all matters as to which the judgment or decree would be an estoppel as between the parties to the civil or criminal proceeding.

E. Notwithstanding any other provision of law providing a shorter period of limitations, a civil action under this section may be commenced at any time within five (5) years after the conduct made unlawful under Section 3 of this act terminates or the cause of action accrues or within any longer statutory period that may be applicable. If any action is brought by a prosecutor to punish, prevent or restrain any activity made unlawful under Section 3 of this act, the running of the period of limitations shall be suspended during the pendency of such action and for two (2) years following its termination.

F. Personal service of any process in an action under this section may be made upon any person outside the state if the person has engaged in any conduct constituting a violation of Section 3 of this act in this state. The person shall be deemed to have thereby submitted to the jurisdiction of the courts of this state for the purposes of this provision.

G. Obtaining any civil remedy under this section shall not preclude obtaining any other civil or criminal remedy under either this act or any other provision of law. Civil remedies under this section are supplemental and not mutually exclusive.
