§70-17-116.2A. Oklahoma State System of Higher Education - Employees of entities or institutions - Retroactive election or removal of maximum compensation level.

A. Except as otherwise provided by this section, an active contributing member of the retirement system who performed membership service as an employee of a comprehensive university on or after July 1, 1995, but not later than June 30, 1996, may with respect to membership service performed between those dates, inclusive, elect to:

1. Retroactively impose a maximum compensation level of Thirty-two Thousand Five Hundred Dollars (\$32,500.00), if the member was subject to a maximum compensation level of Twenty-seven Thousand Five Hundred Dollars (\$27,500.00) for service performed on or after July 1, 1995, but not later than June 30, 1996; or

2. Retroactively impose a maximum compensation level of Forty-nine Thousand Dollars (\$49,000.00), if the member was subject to a maximum compensation level of Forty-four Thousand Dollars (\$44,000.00) for service performed on or after July 1, 1995, but not later than June 30, 1996.

B. Except as otherwise provided by this section, an active contributing member of the retirement system who performed membership service as an employee of an entity or institution within The Oklahoma State System of Higher Education, other than a comprehensive university, on or after July 1, 1995, but not later than June 30, 1996, may with respect to membership service performed between those dates, inclusive, elect to retroactively remove the maximum compensation level applicable to the member's compensation for any service performed during that time period.

C. A member electing a maximum compensation level or removing a maximum compensation level pursuant to subsection A or subsection B of this section shall be required to pay to the retirement system the full amount of employer contributions and employee contributions

applicable for the period of service based upon the elections authorized by this section, less the amount of employer contributions and employee contributions made or credited for that period, plus ten percent (10%) interest from the date such contributions would have been made until the payment is made to the retirement system. The interest charged pursuant to this subsection shall be compounded annually. A member may pay the amount prescribed by this subsection at any time prior to the date as of which the member files the written application for retirement with the retirement system. An entity or institution within The Oklahoma State System of Higher Education may make payment to the retirement system for any part or all of the amount required by this subsection for an employee of that entity or institution in order for retirement benefits to be computed at the applicable maximum compensation level for membership service performed on or after July 1, 1995, but not later than June 30, 1996. Any amount paid by an employer pursuant to this subsection shall be deemed to be picked up by the employer pursuant to Section 414(h) of the Internal Revenue Code of 1986, as amended.

D. If a member who elects a retroactive maximum compensation level or who elects to retroactively remove a maximum compensation level pursuant to subsection A or subsection B of this section fails to pay the amount required to receive credit for compensation earned on or after July 1, 1995, but not later than June 30, 1996, the member shall receive retirement benefits for this period of service based upon compensation upon which both the required employer and employee contributions were actually made.

E. For purposes of computing the retirement allowance of a member authorized to make the election authorized by subsection A or subsection B of this section, no member electing a retroactive maximum compensation level or retroactively removing a maximum compensation level pursuant to subsection A or subsection B of this section may receive retirement benefits for the period of service based upon compensation in excess of the amount of compensation upon which employer and employee contributions were actually paid unless full payment to the retirement system is made as required by subsection C of this section.

F. No provision contained in this section shall be considered or construed to require payment of any sum by an entity or institution within The Oklahoma State System of Higher Education of amounts owed to the retirement system by a member who makes an election authorized by subsection A or subsection B of this section.

G. A member eligible to make the election authorized by subsection A or subsection B of this section shall:

1. Make the election in writing, upon a form to be prescribed by the Board of Trustees; and

2. File the election with the Board of Trustees not later than December 31, 1996.

H. All elections authorized by the provisions of subsection A or subsection B of this section shall be permitted once, and only once, for each employee authorized to make the election. Any election made pursuant to the provisions of this section shall be irrevocable and shall bind the employee, the employee's heirs, beneficiaries and other interested persons, with respect to the amount of compensation upon which contributions shall be made and the amount of retirement benefits resulting from the election so made. Any employee who is eligible to make an election pursuant to the provisions of this section, but who fails to do so, for whatever reason, shall forfeit any right or power by the employee to attempt to exercise the election at any later time. All elections made pursuant to this section shall be operative only for service performed and compensation received from an entity or institution within The Oklahoma State System of Higher Education and shall not have any effect with respect to compensation received from any other participating employer within the Teachers' Retirement System of Oklahoma.

Added by Laws 1996, c. 359, § 4, eff. July 1, 1996.

No such recalculation shall be applied in a retroactive manner to result in any increase in benefits which have been paid between July 1, 1995, and December 31, 2004;

§70-17-116.2C. Definitions - Computation of retirement benefits - Pre-cap removal service - Payment of contribution deficit amount.

A. As used in this section:

1. "Contribution deficit" means the amount of money computed for an eligible employee by multiplying the employee contribution rate in effect for any period of service performed on or after July 1, 1987, through June 30, 1995, multiplied by the amount of salary earned by the member in excess of the applicable maximum compensation level of the member for such period with interest at the rate of ten percent (10%) per year compounded annually; provided, that for the designated fiscal years prescribed by subparagraphs a and b of this paragraph, the contribution deficit payment shall be adjusted to:

- a. fifty percent (50%) of the total amount of the computation otherwise prescribed by this paragraph for the fiscal year ending June 30, 2007,
- b. seventy-five percent (75%) of the total amount of the computation otherwise prescribed by this paragraph for the fiscal year ending June 30, 2008, and
- c. one hundred percent (100%) of the total amount of the computation otherwise prescribed by this paragraph for the fiscal year ending June 30, 2009, and for each fiscal year thereafter;

2. "Eligible employee" means a member of the System who has not retired prior to the effective date of this act and who has performed service at any time prior to June 30, 1995, and who fulfills the requirements of this act with respect to inclusion of pre-cap removal years of service in a retirement benefit computation and:

- a. who has already reached a normal retirement age prior to the effective date of this act and has not retired prior to the effective date of this act,
- b. who reaches a normal retirement age on or after the effective date of this act, and
- c. who is employed by an institution within The Oklahoma State System of Higher Education that is not a comprehensive university or a regional institution offering a four-year degree program as designated or authorized by the Oklahoma State Regents for Higher Education;

3. "Maximum average salary amount", subject to the requirements of this paragraph related to the funding level for employer contribution rates, means:

- a. Sixty Thousand Dollars (\$60,000.00) regardless of any otherwise applicable maximum compensation level for the fiscal year ending June 30, 2007,
- b. Eighty Thousand Dollars (\$80,000.00) regardless of any otherwise applicable maximum compensation level for the fiscal year ending June 30, 2008, and
- c. the full amount of the average salary without any limitation for the fiscal year ending June 30, 2009, and or each fiscal year thereafter.

The maximum final average salary amount otherwise authorized pursuant to subparagraph b or subparagraph c of this paragraph shall be contingent upon the participating employer in whose employment the member is active upon the date the member retires receiving, for the fiscal year during which the member's retirement will begin, the amount of funds required pursuant to subparagraph (A)(1) of Section 17-108.1 of this title in order to allow the employer contribution rates prescribed by subparagraph (A)(1) of Section 17-108.1 of this

title to be effective as law. If a member is employed by an employer that does not receive the funding required by subparagraph (A)(1) of Section 17-108.1 of this title for the fiscal year during which the member's retirement will begin, the member shall not be authorized to use the maximum final average salary otherwise authorized by this paragraph to compute retirement benefits;

4. "Maximum compensation level" means either:

- a. Twenty-five Thousand Dollars (\$25,000.00) if a member did not elect to make employee contributions on a higher salary amount for any pre-cap removal years of service, or
- b. Forty Thousand Dollars (\$40,000.00) if a member did elect to make employee contributions upon actual salary not in excess of such amount for any pre-cap removal years of service;

5. "Pre-cap removal service" means any service performed by an active member prior to June 30, 1995; and

6. "System" means the Teachers' Retirement System of Oklahoma;

B. Unless otherwise expressly provided by this section, any definition contained in Section 17-101 of this title otherwise applicable to computation of benefits for retired members of the Teachers' Retirement System of Oklahoma shall have the same meaning for purposes of this section.

C. Effective July 1, 2006, any eligible member of the Teachers' Retirement System of Oklahoma, who, as of July 1, 2006, has already reached a normal retirement age or who on or after July 1, 2006, reaches a normal retirement age as defined by paragraph 24 of Section 17-101 of this title, shall be eligible to have a retirement benefit computed as provided by this section. If a member is eligible for the benefit computation authorized by this section, the average salary used to compute the retirement benefit of the member shall be governed by the provisions of this section and such provisions shall govern in the event of conflict between this section and the provisions of Section 17-116.2 of this title.

D. An eligible employee who performs service in the manner prescribed by subsection E of this section and who makes payment of the applicable contribution deficit amount may have a retirement benefit computed as otherwise authorized by Section 17-105 of this title, but shall have such benefit computed without regard to any maximum compensation level that would otherwise be applicable to the compensation of the member for any period of pre-cap removal service.

E. In order to have retirement benefits computed as authorized by subsection C of this section, and in addition to the payment of the contribution deficit amount required by this section, in order to have any pre-cap removal service included in the retirement benefit computation of the member using the average salary earned

during such period of participating service subject to the maximum average salary amount, the member shall be required to perform one (1) year of participating service on or after the date as of which the member reaches a normal retirement age, for each two (2) years of service performed prior to July 1, 1995. For purposes of this section, any year of service performed prior to the effective date of this act after a member reached a normal retirement age shall qualify for purposes of the retirement benefit computation authorized by this section.

F. One (1) year of participating service performed by an eligible member who, prior to the effective date of this act has reached a normal retirement age or, who on or after July 1, 2006, reaches a normal retirement age, shall result in the inclusion of the two (2) years of participating service immediately preceding July 1, 1995, in a retirement benefit computation using the average salary of the member, subject to the maximum average salary amount. For each additional year of participating service performed by the eligible member thereafter, whether such service has been performed prior to the effective date of this act or whether such service is performed on or after the effective date of this act, the two (2) next succeeding years of pre-cap removal service performed prior to the end of the preceding two-year period may be included in the benefit computation without regard to the maximum compensation level of the member that would otherwise be applicable to such pre-cap removal service.

G. The eligible member shall be required to make payment to the Teachers' Retirement System of Oklahoma of the contribution deficit amount for any year of service performed on or after July 1, 1987, but not later than June 30, 1995, as prescribed by subsections H through K of this section in order to have any years of pre-cap removal service included in the retirement benefit computation using the average salary of the member subject to the maximum average salary amount.

H. In order to have years of service included in the benefit computation using average salary subject to the maximum average salary amount, the member shall be required to make payment of the contribution deficit for the following years of service and in the sequence prescribed by subsection I of this section according to the adjustments required by subparagraphs a and b of paragraph 1 of subsection A of this section:

1. July 1, 1987, through June 30, 1988;
2. July 1, 1988, through June 30, 1989;
3. July 1, 1989, through June 30, 1990;
4. July 1, 1990, through June 30, 1991;
5. July 1, 1991, through June 30, 1992;
6. July 1, 1992, through June 30, 1993;
7. July 1, 1993, through June 30, 1994; and

8. July 1, 1994, through June 30, 1995.

I. For each year of service performed by the eligible member prior to the effective date of this act and after having reached a normal retirement age, or for each year of service performed by the member after reaching a normal retirement age on or after the effective date of this act, the member shall be required to make payment of the contribution deficit amount for each year of service beginning with the years described in paragraphs 7 and 8 of subsection H of this section. For each additional year of service performed by the eligible member after the normal retirement age of the member, the member shall make payment of the contribution deficit amount for each of the next two (2) years of service as described in:

1. Paragraphs 5 and 6 of subsection H of this section;
2. Paragraphs 3 and 4 of subsection H of this section; and
3. Paragraphs 1 and 2 of subsection H of this section.

J. After making payment of all required contribution deficit amounts for all periods of service described in paragraphs 1 through 8 of subsection H of this section, an eligible member who has performed any additional years of service after having reached a normal retirement age, or for each year of service performed by the member after reaching a normal retirement age on or after the effective date of this act, the member may then include any additional two-year period of service performed prior to July 1, 1987, using the average salary of the member, subject to the maximum average salary amount, in the retirement benefit computation for such years of service by performing one (1) additional year of service.

K. No contribution deficit payments shall be required of the eligible member with respect to years of service performed prior to July 1, 1987, if such years of service are included in the retirement benefit computation of the member using average salary as otherwise authorized by this section, subject to the maximum average salary amount.

L. An eligible member may make the payment of the contribution deficit amount required by this section at any time prior to the retirement of the member from the System; however, no years of pre-cap removal service for which full payment of the required contribution deficit has not been made pursuant to the requirements of this section may be included in the retirement benefit computation of the otherwise eligible member using the average salary of the member for such period, subject to the maximum average salary amount.

M. Any pre-cap removal years of service for which the required contribution deficit payment has not been made to the System shall only be included in a retirement benefit computation using the

maximum compensation level in effect for the member at the time such years of service were performed.

N. All payments to the System for pre-cap removal service shall be made prior to the date as of which a member retires. No payments to the System for pre-cap removal service otherwise authorized by this section shall be made after a member retires from the System and begins to receive benefits.

O. Any eligible member who, prior to the effective date of this act, has not previously made an election for payment of employee contributions on a maximum compensation level of Twenty-five Thousand Dollars (\$25,000.00) for pre-cap removal service may file an election with the System to make payment of the required contribution deficit amount pursuant to this section. Such an election shall be irrevocable.

P. No participating employer of the System shall make payment of any required contribution deficit amount on behalf of any otherwise eligible member, whether directly or indirectly, in order for the member to have retirement benefits computed according to the provisions of this section.

Q. No member of the System who has retired prior to July 1, 2006, shall be eligible to make any payments of the contribution deficit amount and no such member shall have the ability to have a retirement benefit recomputed as a result of the provisions of this section.

R. The additional retirement benefit attributable to the provisions of this section may be computed for members who retire on or after July 1, 2006, but prior to January 1, 2007, but the additional retirement benefit attributable to the provisions of this section shall not be payable until January 1, 2007. §70-17-116.7. Supplemental pension benefits - Audits - Reports.

A. After the effective date of this act, before entering into any type of contract that creates an unfunded liability and is for the purpose of enhancing pension benefits for employees beyond the provisions of the Teachers' Retirement System of Oklahoma, a state institution of higher education, technology center school district, or public school district, unless otherwise provided by law, shall forward to the Office of the Attorney General a copy of the contract and a copy of an actuarial report indicating the amount of unfunded liability that would be created pursuant to the contract. The Attorney General shall review the contract to ensure that the contract conforms to state law. No such contract shall be signed by the education entity until the Attorney General approves the contract. Any such contract entered into without complying with the requirements of this section shall be void.

§70-17-116.8. Service credit - Computation of purchase price.

The purchase price shall represent the present value of the incremental projected

benefits discounted according to the member's age at the time of purchase. Incremental projected benefits shall be the difference between the projected benefit said member would receive without purchasing the service credit and the projected benefit after purchase of the service credit computed as of the earliest age at which the member would be able to retire. Said computation shall assume an unreduced benefit and be computed using interest and mortality assumptions consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation.

B. In the event that the member is unable to pay the purchase price provided for in this section by the due date, the Board of Trustees shall permit the members to amortize the purchase price over a period not to exceed sixty (60) months. Said payments shall be made by payroll deductions unless the Board of Trustees permits an alternate payment source. The amortization shall include interest in an amount not to exceed the actuarially assumed interest rate adopted by the Board of Trustees for investment earnings each year. Any member who ceases to make payment, terminates, retires or dies before completing the payments provided for in this section shall receive prorated service credit for only those payments made, unless the unpaid balance is paid by said member, his or her estate or successor in interest within six (6) months after said member's death, termination of employment or retirement, provided no retirement benefits shall be payable until the unpaid balance is paid, unless said member or beneficiary affirmatively waives the additional six-month period in which to pay the unpaid balance. The Board of Trustees shall promulgate such rules as are necessary to implement the provisions of this subsection.

A retired member is not eligible to be employed by the public schools of Oklahoma, in any capacity, for sixty (60) calendar days between the retiree's last day of preretirement public education employment and any postretirement public education employment. For purposes of this section, the term "last day of preretirement employment" shall mean the last day the employee is required to be physically present on the job to complete the terms of the employment contract or agreement or the member's effective retirement date, whichever is later. An employee on paid leave is still considered to be employed for purposes of this section. Employment under any conditions during this time, volunteer services for the purpose of obtaining a paid position at a later date, or payment at a later time for services performed during this time period shall cause the forfeiture of all retirement benefits received during the period;

2. For thirty-six (36) months following a member's effective retirement date, the retired member shall be subject to earnings limitations on allowable earnings. Earnings limits are determined annually based on a calendar year. For retired members under the age of sixty-two (62) years, allowed earnings from the public schools of Oklahoma for employment for the performance of duties ordinarily performed by classified or nonclassified optional personnel shall be limited to one-half (1/2) of the member's final average salary used in computing retirement benefits or the earnings limit allowed by the Social Security Administration for those under Social Security's normal retirement age, whichever is less. For retired members sixty-two (62) years of age or older, allowed earnings from the public schools of Oklahoma for the performance of duties ordinarily performed by classified or nonclassified personnel shall be limited to Thirty Thousand Dollars (\$30,000.00) or one-half (1/2) of the member's final average salary used in computing retirement benefits, whichever is less. For purposes of this paragraph, the following shall apply:

Supplemental retirement payments paid by a former public school

employer pursuant to subsection N of Section 17-105 of this title or other state law shall not be considered as earnings,

- b. the earnings limit for the calendar year in which a member retires shall be one-twelfth (1/12) of the annual limit multiplied by the number of months the member is eligible to work and receive payments from the public schools of Oklahoma, and
- c. earnings in excess of the maximum limit on allowed earnings from public schools of Oklahoma shall result in a loss of retirement benefits of One Dollar (\$1.00) for each One Dollar (\$1.00) earned over the maximum allowed earnings amount;

3. Notwithstanding paragraph 2 of this subsection, for a period of three (3) years beginning July 1, 2017, members who have retired as of July 1, 2017, as active classroom teachers, who have been retired and receiving a benefit for at least one (1) year, and who have not been employed by any public school during that one-year period, shall be eligible to be reemployed as an active classroom teacher in common or career tech school districts, with no limitations on earnings. For a period of three (3) years beginning July 1, 2021, members who have retired as of July 1, 2020, who have been retired and receiving a benefit for at least one (1) year, and who have not been employed by any public school during that one-year period, shall be eligible to be reemployed as an active classroom teacher in common or career tech school districts, with no limitations on earnings. The one-year period starts with the retiree's last day of preretirement public education employment. Members returning under this section shall not be subject to any earnings limitations following the end of the three-year periods described in this paragraph. Members returning under this section shall only be employed pursuant to a temporary contract; and

4. A member shall be considered to be employed by a school district to perform the duties ordinarily performed by classified or nonclassified optional personnel if the member is hired by the school district in the member's individual capacity to perform the duties or if the member performs the duties through employment with a proprietorship, partnership, corporation, limited liability company or partnership, or any other business structure that has agreed or contracted to provide the services to the school district.

B. A public school district that employs a retired member shall be required to make contributions to the System for the retired member in an amount as required in Section 17-108.1 and in paragraph 3 of subsection B of Section 17-116.2 of this title.

C. For purposes of this section, postretirement employment of less than one thousand (1,000) hours per year with the Governor, the Oklahoma State Senate, the Oklahoma House of Representatives or the

Legislative Service Bureau shall not be considered as postretirement employment with a public school of Oklahoma.

D. The Board of Trustees of the Teachers' Retirement System of Oklahoma shall promulgate such rules as are necessary to implement the provisions of this section.

E. A member who has entered into postretirement employment with a participating employer of the Teachers' Retirement System of Oklahoma must fully comply with all the provisions of the rules promulgated by the Board of Trustees pursuant to this section in order to continue receiving the member's monthly retirement benefit. Statutes, which was received by the member in the last full month that the member was employed by the state agency or other state governmental entity multiplied by the number of months required in order for the combination of the participating service and member's age to equal the amount required for the member to reach normal retirement date with an unreduced benefit as if the member had not been terminated.

D. The member must make full payment to the System of all required contribution amounts within sixty (60) days of filing the election to purchase the credit. The member must vest his or her benefits with a declared future retirement date as of the first month the member is eligible for normal retirement. Failure to make the full payment to the System of the required contribution amounts, for any reason, within the time prescribed, shall result in cancellation of the election provided pursuant to this section, and return of the purchase amount tendered, without interest.

E. Purchased termination credit may only be used as service credit to qualify the member for normal retirement.

F. If the member chooses to retire at any time prior to the member's normal retirement date or returns to employment with a participating employer of the System at any time prior to retirement, the purchase of termination credit pursuant to this section shall be void, and the System will return the purchase amount tendered, without interest.

The Board of Trustees shall approve the format and content of the authorization to make sure it complies with all relevant legal requirements. A. An eligible employee shall have thirty (30) days from such eligible employee's initial date of hire or the date the alternate retirement plan is adopted by the participating institution, whichever is later, to make a one-time irrevocable written election to participate in the alternate retirement plan or the Teachers' Retirement System of Oklahoma. If an eligible employee fails to make an election within the thirty-day period such eligible employee shall participate in the Teachers' Retirement System of Oklahoma. If an eligible employee makes the election to participate in the alternate retirement plan such eligible employee shall not participate in the Teachers' Retirement System of Oklahoma nor make employee contributions to the Teachers' Retirement System of Oklahoma and the participating institution shall not make employer contributions to the Teachers' Retirement System of Oklahoma except as otherwise required by Section 17-201 et seq. of this title. eligible employee participates in the Teachers' Retirement System of Oklahoma.

B. An eligible employee who elects to participate in the alternate retirement plan shall be ineligible for participation in the Teachers' Retirement System of Oklahoma. Ineligibility to participate in the Teachers' Retirement System of Oklahoma shall continue so long as such eligible employee remains employed by a participating institution. If such eligible employee assumes a different position, which is governed by a state retirement system other than the alternate retirement plan authorized in Section 17-201 et seq. of this title, the eligible employee shall be subject to the retirement system rules applicable to that new position. §70-17-207. Initial and additional funding surcharges - Benefits not considered salary, fringe benefits or compensation - Allocation of assets - Calculation of liability.

A. Participating institutions establishing an alternate retirement plan pursuant to this act shall pay an initial funding surcharge, and if applicable an additional funding surcharge to the Teachers' Retirement System of Oklahoma in an amount to amortize the unfunded accrued liability of the members of the participating institutions in the System.

B. The initial funding surcharge is intended to ensure amortization of the unfunded accrued liability of the participating institutions over a period of thirty (30) years or the amortization period of the System. The initial funding surcharge shall equal two and one-half percent (2.5%) of the regular annual compensation of the electing employees and the eligible employees, who are not participating in the System but who would have been mandated to participate in the System under the laws and rules applicable to the System in effect on June 30, 2004. The initial funding surcharge but not the additional funding surcharge, if any, shall remain in effect until the earlier of June 30, 2034, or the June 30th of the year in which the unfunded accrued liability of the participating institutions is reduced to zero.

C. In addition to the initial funding surcharge described above, the participating institutions shall pay to the System an additional funding surcharge, if required, in an amount necessary to provide for amortization of the unfunded accrued liability of the participating institutions over the applicable amortization period of thirty (30) years, or the amortization period of the System, if longer. The additional funding surcharge shall be reviewed and

adjusted in subsequent years based on changes in the assets and liabilities of the membership in the System of the participating institutions. The additional funding surcharge shall be determined by the Board of Trustees of the System and the participating institutions pursuant to the separate agreement of understanding provided in subsection H of this section. Any change in the additional funding surcharge indicated to be necessary by the annual actuarial valuation shall be adopted by the Board of Trustees of the System provided that such change shall become effective on July 1 of the year following such annual valuation and the participating institutions shall be notified by the System no later than January 1 of such year. Provided, the additional funding surcharge determined for any year shall not be greater than an additional funding surcharge determined under the separate agreement of understanding but using the "individual entry age normal cost method" as described in Revenue Procedure 2000-40, Approval 8, to determine the normal cost/normal cost percentage of the participating institutions.

D. Any payments made to the Teachers' Retirement System of Oklahoma pursuant to this section shall not be considered as salary, fringe benefits or compensation due to the eligible employee or electing employee for the purpose of meeting any legislative or contractual obligation of the employer of such person.

E. To determine the amount of assets of the participating institutions at any point in time after June 30, 2003, the participating institutions shall have allocated to such institutions Five Hundred Ninety-two Million Nine Hundred Seventy-four Thousand Two Hundred Sixty-four Dollars (\$592,974,264.00) of the assets of the Teachers' Retirement System of Oklahoma which reflects their portion of assets in the System as of June 30, 2003, plus future employer and employee contributions including service purchases attributable to the participating institutions and its members, nine and forty-one hundredths percent (9.41%) of all federal and state funding received by the System during the applicable year and other assets contributed to the System allocable to the participating institutions subject to the limitations in this subsection, earnings on investments less distributions and expenses allocable to the participating institutions. Provided, the allocation of nine and forty-one hundredths percent (9.41%) of federal and state funding received by the System to the participating institutions shall not exceed the unfunded accrued liability and shall remain in effect until the earlier of June 30, 2034, or when the unfunded accrued liability of the participating institutions is reduced to zero. However, if for any applicable year during the thirty-year amortization period commencing July 1, 2004, there is any unfunded accrued liability allocable to the participating institutions in the System, then the allocable percentage of federal and state funding shall be nine and forty-one hundredths percent (9.41%) but not

exceed the unfunded accrued liability. Provided further, after the expiration of such thirty-year amortization period, the allocation of federal and state funding to the participating institutions for any year shall equal the percentage of all such federal and state funding received by the System determined by dividing the actuarial accrued liability of the participating institutions by the actuarial accrued liability of the System, and such methodology to determine such allocation shall be made for all years thereafter.

F. After June 30, 2004, the liabilities associated with the members of the participating institutions participating in the Teachers' Retirement System of Oklahoma shall be determined on a separate basis, reflecting the level of benefits based on the actuarial methods and assumptions used by the System as applied to the participating institutions under this act.

G. The actuarial methods and assumptions applicable to the participating institutions in determining an allocable share of assets, liabilities and associated costs as provided in this act shall be reviewed at least every five (5) years.

H. The Board of Trustees of the Teachers' Retirement System of Oklahoma and the participating institutions shall enter into a separate agreement of understanding which details the procedures to be applied to implement the required review and subsequent adjustments to the assets, liabilities and the additional funding surcharge attributable to the participating institutions or the actuarial methods or assumptions applied to determine the appropriate share of assets and liabilities applicable to the participating institutions. Except as otherwise provided in this act, the Board of Trustees of the System shall be the final authority to determine all actuarial methods or assumptions to be used by the System and all such actuarial methods or assumptions shall be applied on a sound actuarial basis and on a uniform, fair and consistent basis which methods and assumptions reflect the actual experience of the members of the participating institutions. Added by Laws 2004, c. 385, § 7, eff. July 1, 2004.

§70-17-208. Written acknowledgement that benefits payable under alternate plan not obligation of state or Teachers' Retirement System of Oklahoma - Responsibility for payment of benefits.

All eligible employees participating in the alternate retirement plan shall acknowledge in writing that benefits payable pursuant to such alternate retirement plan are not the obligations of the State of Oklahoma or the Teachers' Retirement System of Oklahoma. The alternate retirement plan shall be solely responsible for payment of retirement, death or other benefits earned under the alternate retirement plan and such benefits shall be paid to the participants or their beneficiaries pursuant to the terms of the alternate retirement plan.

§70-18-101. Declaration of legislative intent, policies and principles.

The Legislature hereby declares that this act is passed for the general improvement of the public schools in the State of Oklahoma; to provide the best possible educational opportunities for every child in Oklahoma; and to have a more beneficial use of public funds expended for education; and this act shall be liberally construed to attain these goals within the purview of the following principles and policies:

1. The education of our children is more than the performance of a duty or act of love. It is these things and also the highest expression of enlightened self-interest by the people of Oklahoma. Education is our finest investment.

2. The system of public schools should be designed to strengthen and encourage local responsibility for control of public education. Local school districts should be so organized, financed and directed that they can provide full educational opportunities for all children. The maximum public autonomy and responsibility for public education should remain with the local school districts and the patrons of such districts.

3. It is the responsibility of the state on behalf of the people of Oklahoma to establish, maintain, and continually improve the public schools of Oklahoma. In furtherance of this responsibility, the people of Oklahoma through the state have the responsibility to support financially the public schools.

4. Effective local control requires that local school districts contribute to the support of school budgets in proportion to their respective abilities.

5. The system of public school support should assure that state and local funds are adequate for the support of a realistic foundation program. It is unrealistic and unfair to the children of the less wealthy districts to provide less state support than is necessary for full educational opportunities.

6. The system of public school support should encourage local school districts to provide and support improved educational programs.

7. The system of public school support should make provisions for the apportionment of state funds to local school districts on a strictly objective basis that can be computed as well by the local districts as by the state.

8. The system of public school support should effect a partnership between the state and each local district, with each participating in accordance with its relative ability. The respective abilities should be combined to provide a financial plan between the state and the local school district that will assure full educational opportunities for every child in Oklahoma.

9. State support should be extended to all local districts regardless of wealth, for this not only develops a sense of broader responsibility, but also creates flexibility taxwise permitting the exercise of local initiative. State support should, to assure equal educational opportunity, provide for as large a measure of equalization as possible among districts. The taxing power of the state should be utilized to raise the level of educational opportunity in the financially weakest districts of the state.

10. The system of public school support should provide for an equitable system of state and local sharing in the foundation program. The degree of local sharing should be based, as nearly as possible, on the true ability of the local district, so that each may contribute uniformly to the foundation program.

§70-18-102. Repealed by Laws 1998, c. 140, § 1, eff. Nov. 1, 1998.

§70-18-103. Appropriations.

There shall be apportioned and disbursed annually by the State Board of Education, from appropriations made by the Legislature for this purpose and from funds derived from other sources provided by

law for this purpose, to the several school districts of the state, such sums of money as each school district may be qualified to receive under the provisions of this article. The methods of apportionment and disbursements contained herein shall remain in force until the same are amended or repealed by the Legislature. The State Board of Education will furnish the Legislature each year the recommended use of any new educational funds, listing priorities and percentage of new funds recommended for each priority item listed. Added by Laws 1971, c. 305, § 3, emerg. eff. June 17, 1971.

§70-18-103.1. Repealed by Laws 2003, c. 415, § 46, eff. July 1, 2003.

§70-18-104. Purpose of funds - Federal funds.

A. The funds apportioned and disbursed to the several school districts of the state shall be for the purpose of aiding each school district receiving the same to finance its school budget for each fiscal year. The State Board of Education shall notify the county clerk, the board of education, superintendent of each school district and the school district treasurer of the tentative amount said district is to receive from the funds apportioned under the provisions of this article and disbursed according to the provisions hereof. After such allocation of State Aid has been made by the State Board of Education and certified to the treasurer of the school district and district superintendent of schools, such aid may be included as probable income by the board of education in its Estimate of Needs and Financial Statement as submitted to the county excise board, and said excise board shall include such amount in the approved appropriations, and in addition thereto any federal aid certified or allocated by the State Board of Education shall be included in the appropriation made by the excise board if requested by the board of education; provided, no such federal aid estimate shall be used in any way to reduce the State Foundation Aid or Incentive Aid for such school district or sustain a protest for the reduction of a tax levy. If such allocation of aid is not included in the board of education's estimate of needs, it shall be added by the county clerk to the items of appropriation designated by the board of education of the school district. Funds received under the provisions of this article shall be deposited in the general fund of such school district. Provided, funds received from the federal government for current expense purposes shall likewise be added to the appropriation of the general fund if so designated by the board of education of such school district. Provided, further, that the board of education of a school district may enter into agreements with federal agencies for educational projects and programs to be maintained in such districts; and federal funds received by the district in pursuance thereof shall, consistent with the agreement

and requirements of the federal agency, be kept, administered and disbursed in such manner as may be prescribed by rules and regulations of the board of education.

B. If the State Board of Education should ascertain that allocation of State Aid to any school district has so changed as to reduce its State Aid, then the State Board of Education shall forthwith notify the district superintendent, the clerk of the board of education, and the treasurer thereof, as to the amount of reduction in the allocation of State Aid. If there has been an overpayment the same shall be returned to the State Treasurer and credited to a refund account which shall be available for further payment of State Aid. Whenever it becomes necessary for a school district to refund any overpayment of monies previously received, the school district shall issue such warrant against a properly approved encumbrance in the manner provided by law. Such claim or encumbrance shall be coded as a refund of prior revenue and paid from the current expense appropriation of the general fund or such other fund or account from which such refund may properly be paid by the school district.

§70-18-105. Director of the Office of Management and Enterprise Services - Copy of apportionments.

The State Board of Education shall furnish the Director of the Office of Management and Enterprise Services with a copy of the apportionments made from the funds appropriated for each fiscal year to each of the several school districts of the state, and warrants shall be drawn by the State Treasurer against appropriations for each fiscal year in accordance with such apportionments only upon the order of the State Board of Education through the Director of the Office of Management and Enterprise Services. The warrants for the payments to the several school districts of any county shall be forwarded by the State Board of Education through the Director of the Office of Management and Enterprise Services directly to the treasurer of each school district.

§70-18-109.1. State Aid Formula - Procedure.

The Legislature hereby declares, for the purpose of financial support to school districts through the State Aid Formula, that greater equalization of State Aid to school districts will be attained by the following procedure:

1. For the 1989-90 school year, the real property portion of the valuations for those school districts in counties having an assessment ratio in excess of twelve percent (12%) shall be computed at a twelve percent (12%) assessment ratio to determine chargeable valuations. Beginning with the 1990-91 school year, the real property portion of the valuations for those school districts in counties having an assessment ratio in excess of eleven percent (11%) shall be computed at an eleven percent (11%) assessment ratio to determine chargeable valuations. Beginning with the 1991-92 school year, the commercial personal and agricultural personal

property portion of the valuations for those school districts in counties having an assessment ratio in excess of eleven percent (11%) shall be computed at an eleven percent (11%) assessment ratio to determine chargeable valuations. The Oklahoma Tax Commission shall supply to the State Department of Education the information necessary to carry out the provisions of this paragraph.

2. The real property portions of the valuations for those school districts in counties having an actual assessment ratio of less than twelve percent (12%) shall be computed at the actual assessment ratio in effect for the county as determined by the Oklahoma Tax Commission in order to determine chargeable valuations for calculating State Aid to such district if such ratio is at least nine percent (9%) and the county is certified by the Oklahoma Tax Commission to have a verifiable revaluation program using property identification cards for the applicable assessment year.

3. The real property portion of the valuations for those school districts in counties which have an actual assessment ratio of less than twelve percent (12%) and which are not certified by the Oklahoma Tax Commission to have a verifiable revaluation program using property identification cards shall be computed at a twelve percent (12%) assessment ratio to determine chargeable valuations. For each school year, the actual assessment ratio shall be the assessment ratio recommended by the Oklahoma Tax Commission and certified by the State Board of Equalization for the applicable assessment year.

4. The Oklahoma Tax Commission shall certify by October 1, for each applicable assessment year, to the State Superintendent of Public Instruction those counties which have revaluation programs using property identification cards. The Oklahoma Tax Commission shall, as soon as practicable, certify to the State Superintendent of Public Instruction and the district attorney for the applicable county the date as of which a county implements a verifiable revaluation program using property identification cards after October 1 of any year.

5. Any county assessor who fails to have an approved revaluation program using property identification cards shall pay a penalty in the amount of One Hundred Dollars (\$100.00) for each calendar day beyond October 1 of any year that the county does not have a verifiable revaluation program using property identification cards. The penalty shall be imposed for each calendar day on and after October 2 of each year until the county implements a verifiable revaluation program using property identification cards; provided, that such penalty shall be collected from any county assessor of a county which did not have a verifiable revaluation program using property identification cards as of October 1, 1985, for each day from and after July 1, 1986, that the applicable county

does not have a verifiable revaluation program using property identification cards.

6. Upon receipt of certification by the Oklahoma Tax Commission of the counties having approved revaluation programs, the State Superintendent of Public Instruction shall cause notice to be mailed by return receipt mail to the county assessor, the district attorney, the county treasurer and the superintendent of each school district of any county not included in the certification.

7. The district attorney, upon receipt of the notice provided for in paragraph 6 of this section, shall immediately institute an action to collect the One Hundred Dollar (\$100.00) penalty for each day that the county does not have a verifiable revaluation program using property identification cards. The district attorney shall be authorized to institute a single action in district court pursuant to which any amount of penalty may be collected for any day the assessor fails to implement the revaluation program using property identification cards. Any amount of such fine collected shall be deposited in a special account within the county general fund. Such amounts shall be apportioned to the school districts of the county on the basis of the preceding year's average daily attendance.

8. The district attorney shall initiate action for removal of the county assessor from office for malfeasance if the county assessor has not instituted a verifiable revaluation program using property identification cards within thirty (30) days after the district attorney receives notice from the State Superintendent of Public Instruction. Initiation of an action for the removal of the county assessor for malfeasance as required by this section is a mandatory duty of the office of the district attorney. If the district attorney fails to initiate an action within forty (40) days after receipt of the notice from the State Superintendent of Public Instruction, and the county assessor has not implemented a verifiable revaluation program using property identification cards, the district attorney shall pay a penalty of One Hundred Dollars (\$100.00) for each day that an action could have been filed for the removal of the county assessor and such action has not been filed or until the county assessor implements the revaluation program using property identification cards. The Attorney General shall initiate an action to collect the penalty from the district attorney pursuant to the authority of Section 18b of Title 74 of the Oklahoma Statutes. All penalties collected pursuant to the provisions of this paragraph shall be deposited in the special account within the county general fund and apportioned to the school districts of the county on the basis of the preceding year's average daily attendance.

9. The notice to the superintendents of the various school districts from the State Superintendent of Public Instruction shall state that the State Aid formula funds computed for such districts

based upon the actual assessment ratio valuations in excess of the amount computed upon twelve percent (12%) assessment ratio valuations shall be withheld from distribution to the school district until the office of the county assessor has complied with the requirement of a verifiable revaluation program using property identification cards.

A. If any district, or a part of a district, becomes a part of another district by consolidation, annexation, or otherwise, the following procedure shall be followed, except as otherwise provided by law, in calculating aid to the new district or districts so formed:

1. If the action occurs after budgets have been approved by the county excise board and the tax levies approved, the State Aid for the current year shall be calculated for each district as it existed

prior to the annexation and prorated to the annexing district or districts on the basis of average daily attendance.

2. If the action occurs prior to approval of the school district budgets by the county excise board, the annexed district shall be merged with the annexing district or districts and State Aid shall be calculated according to the formula provided by this title.

B. Any school district that does not maintain school for a full term pursuant to Section 1-109 of this title shall have its State Aid reduced proportionately unless it has received written approval to maintain school for less than a full term from the State Board of Education. The State Board of Education shall not approve any request to maintain school for less than a full term unless such request meets the requirements of Section 1-109 of this title.

C. 1. If a school district operates a school located in a state institution, as described in subsection E of Section 1-113 of this title, for the pupils of school age residing in such institution, the membership of such children shall be included in the membership of such school district for the purpose of calculating State Aid of the district.

2. If a school district provides education to children in out-of-home placements who are not residents of the school district in which an entity is located pursuant to the provisions of subsections D and F of Section 1-113 of this title, the membership and out-of-home placement pupil weight for such student shall be included in the membership of the district providing the education for the purposes of calculating State Aid.

D. Upon determination by the Finance Division of the State Department of Education that a legal residence for a child placed in an out-of-home placement cannot be identified, the district in which the placement is located shall be the district of residence and the average daily membership of such child shall be credited to such district.

E. If any school district shall fail, neglect or refuse, for any reason whatsoever, to provide special education and related services for a child with disabilities, certified as such by competent authorities and residing in such district, as directed in Section 13-101 of this title, the following is hereby authorized:

1. Such child shall be entitled, upon petition by the child's parent or guardian, without consent or approval of the school district not providing special education and related services, to transfer to any adjacent or nearby school district which will accept the child with disabilities and provide the special education and related services which such child is entitled to receive. Notwithstanding the provisions of the Education Open Transfer Act, a school district in which a child transferring under this section resides shall pay to the district receiving and educating such

child, as tuition, a special education transfer fee as provided in paragraph 2 of this subsection. Provided the average daily membership of such child shall be credited to the resident district of such transferee.

2. The special education transfer fee shall be the per capita cost of the receiving district for current expenditures for the special education and related services of such child with disabilities based upon the cost of teachers, equipment, material, and special costs associated with the special education class.

3. It shall be the duty of the school district from which such child with disabilities transfers to appropriate and pay such special education transfer fee to the district which receives and educates such child. If a school district owing such special education transfer fees shall fail, neglect or refuse for any reason whatsoever to appropriate and pay such special education transfer fees, then the school district entitled to receive such fees shall certify such fact to the Finance Division of the State Department of Education. Upon receipt of such certification, the Finance Division shall deduct the amount of the special education fee from any State Foundation Program or Incentive Aid otherwise due the sending district and transmit such amount to the receiving district.

4. The sending school district shall also be obligated to pay the special education transfer fee, notwithstanding the provisions of the Education Open Transfer Act:

- a. whenever a student who resides in the district is transferred to another school district for purposes other than to acquire special education,
- b. the student is subsequently found to require such special education and related services,
- c. the student is determined to be eligible by the Special Education Division of the State Department of Education, and
- d. the student is placed in an appropriate special education program by the receiving school district.

For purposes of this paragraph, the special education transfer fee shall be as provided by paragraph 2 of this subsection, prorated by the receiving school district according to the number of days the student has been enrolled in the special education program. The receiving district shall notify the sending district immediately upon finding that the student requires special education and related services and the sending district shall participate in planning the student's Individualized Education Program (IEP) and in subsequent reviews of the program in accordance with the Individuals with Disabilities Education Act (IDEA).

§70-18-200.1v1. State Aid formula - 2020-21 and thereafter.

A. Beginning with the 2020-21 school year, and each school year thereafter, each school district shall have its initial allocation of State Aid calculated based on the state dedicated revenues actually collected during the preceding fiscal year, the adjusted assessed valuation of the preceding year and the highest weighted average daily membership for the school district of the two (2) preceding school years. Each school district shall submit the following data based on the first nine (9) weeks, to be used in the calculation of the average daily membership of the school district:

1. Student enrollment by grade level;
2. Pupil category counts; and
3. Transportation supplement data.

On or before December 30, the State Department of Education shall determine each school district's current year allocation pursuant to subsection D of this section. The State Department of Education shall complete an audit, using procedures established by the Department, of the student enrollment by grade level data, pupil category counts and transportation supplement data to be used in the State Aid Formula pursuant to subsection D of this section by December 1 and by January 15 shall notify each school district of the district's final State Aid allocation for the current school year. The January payment of State Aid and each subsequent payment for the remainder of the school year shall be based on the final State Aid allocation as calculated in subsection D of this section. Except for reductions made due to the assessment of penalties by the State Department of Education according to law, the January payment of State Aid and each subsequent payment for the remainder of the school year shall not decrease by an amount more than the amount that the current chargeable revenue increases for that district.

B. The State Department of Education shall retain not less than one and one-half percent (1 1/2%) of the total funds appropriated for financial support of schools, to be used to make midyear adjustments in State Aid and which shall be reflected in the final allocations. If the amount of appropriated funds, including the one and one-half percent (1 1/2%) retained, remaining after January 1 of each year is not sufficient to fully fund the final allocations, the Department shall recalculate each school district's remaining allocation pursuant to subsection D of this section using the reduced amount of appropriated funds.

C. On and after July 1, 1997, the amount of State Aid each district shall receive shall be the sum of the Foundation Aid, the Salary Incentive Aid and the Transportation Supplement, as adjusted pursuant to the provisions of subsection G of this section and Section 18-112.2 of this title; provided, no district having per pupil revenue in excess of three hundred percent (300%) of the average per pupil revenue of all districts shall receive any State Aid or Supplement in State Aid.

The July calculation of per pupil revenue shall be determined by dividing the district's second preceding year's total weighted average daily membership (ADM) into the district's second preceding year's total revenues excluding federal revenue, insurance loss payments, reimbursements, recovery of overpayments and refunds, unused reserves, prior expenditures recovered, prior year surpluses, and less the amount of any transfer fees paid in that year.

The December calculation of per pupil revenue shall be determined by dividing the district's preceding year's total weighted average daily membership (ADM) into the district's preceding year's total revenues excluding federal revenue, insurance loss payments, reimbursements, recovery of overpayments and refunds, unused reserves, prior expenditures recovered, prior year surpluses, and less the amount of any transfer fees paid in that year.

D. For the 1997-98 school year, and each school year thereafter, Foundation Aid, the Transportation Supplement and Salary Incentive Aid shall be calculated as follows:

1. Foundation Aid shall be determined by subtracting the amount of the Foundation Program Income from the cost of the Foundation Program and adding to this difference the Transportation Supplement.

- a. The Foundation Program shall be a district's highest weighted average daily membership based on the first nine (9) weeks of the current school year, the preceding school year or the second preceding school year of a school district, as determined by the provisions of subsection A of Section 18-201.1 of this title and paragraphs 1, 2, 3 and 4 of subsection B of Section 18-201.1 of this title, multiplied by the Base Foundation Support Level.
- b. The Foundation Program Income shall be the sum of the following:

For purposes of this subsection, the "adjusted assessed valuation of the current school year" shall be the adjusted assessed valuation on which tax revenues are collected during the current school year, and

2. The Transportation Supplement shall be equal to the average daily haul times the per capita allowance times the appropriate transportation factor.

- a. The average daily haul shall be the number of children in a district who are legally transported and who live one and one-half (1 1/2) miles or more from school.

c. The formula transportation factor shall be 1.39.

3. Salary Incentive Aid shall be determined as follows:

- a. Multiply the Incentive Aid guarantee by the district's highest weighted average daily membership based on the first nine (9) weeks of the current school year, the preceding school year or the second preceding school year of a school district, as determined by the provisions of subsection A of Section 18-201.1 of this title and paragraphs 1, 2, 3 and 4 of subsection B of Section 18-201.1 of this title.
- b. Divide the district's adjusted assessed valuation of the current school year minus the previous year's protested ad valorem tax revenues held as prescribed in Section 2884 of Title 68 of the Oklahoma Statutes, by one thousand (1,000) and subtract the quotient from the product of subparagraph a of this paragraph. The remainder shall not be less than zero (0).
- c. Multiply the number of mills levied for general fund purposes above the fifteen (15) mills required to support Foundation Aid pursuant to division (1) of subparagraph b of paragraph 1 of this subsection, not including the county four-mill levy, by the remainder of subparagraph b of this paragraph. The product shall be the Salary Incentive Aid of the district.

E. By June 30, 1998, the State Department of Education shall develop and the Department and all school districts shall have implemented a student identification system which is consistent with the provisions of subsections C and D of Section 3111 of Title 74 of the Oklahoma Statutes. The student identification system shall be used specifically for the purpose of reporting enrollment data by school sites and by school districts, the administration of the Oklahoma School Testing Program Act, the collection of appropriate and necessary data pursuant to the Oklahoma Educational Indicators Program, determining student enrollment, establishing a student mobility rate, allocation of the State Aid Formula and midyear adjustments in funding for student growth. This enrollment data shall be submitted to the State Department of Education in accordance with rules promulgated by the State Board of Education. Funding for the development, implementation, personnel training and maintenance of the student identification system shall be set out in

a separate line item in the allocation section of the appropriation bill for the State Board of Education for each year.

F. 1. In the event that ad valorem taxes of a school district are determined to be uncollectible because of bankruptcy, clerical error, or a successful tax protest, and the amount of such taxes deemed uncollectible exceeds Fifty Thousand Dollars (\$50,000.00) or an amount greater than twenty-five percent (25%) of ad valorem taxes per tax year, or the valuation of a district is lowered by order of the State Board of Equalization, the school district's State Aid, for the school year that such ad valorem taxes are calculated in the State Aid Formula, shall be determined by subtracting the net assessed valuation of the property upon which taxes were deemed uncollectible from the assessed valuation of the school district and the state. Upon request of the local board of education, it shall be the duty of the county assessor to certify to the Director of Finance of the State Department of Education the net assessed valuation of the property upon which taxes were determined uncollectible.

2. In the event that the amount of funds a school district receives for reimbursement from the Ad Valorem Reimbursement Fund is less than the amount of funds claimed for reimbursement by the school district due to insufficiency of funds as provided in Section 193 of Title 62 of the Oklahoma Statutes, then the school district's assessed valuation for the school year that such ad valorem reimbursement is calculated in the State Aid Formula shall be adjusted accordingly.

G. 1. Notwithstanding the provisions of Section 18-112.2 of this title, a school district shall have its State Aid reduced by an amount equal to the amount of carryover in the general fund of the district as of June 30 of the preceding fiscal year, that is in excess of the following standards for two (2) consecutive years:

Total Amount of General Fund Collections, Excluding Previous Year Cash Surplus as of June 30	Amount of General Fund Balance Allowable
Less than \$1,000,000	40%
\$1,000,000 - \$2,999,999	35%
\$3,000,000 - \$3,999,999	30%
\$4,000,000 - \$4,999,999	25%
\$5,000,000 - \$5,999,999	20%
\$6,000,000 - \$7,999,999	18%
\$8,000,000 - \$9,999,999	16%
\$10,000,000 or more	14%

2. By February 1 the State Department of Education shall send by certified mail, with return receipt requested, to each School District Superintendent, Auditor and Regional Accreditation Officer a notice of and calculation sheet reflecting the general fund

balance penalty to be assessed against that school district. Calculation of the general fund balance penalty shall not include federal revenue. Within thirty (30) days of receipt of this written notice the school district shall submit to the Department a written reply either accepting or protesting the penalty to be assessed against the district. If protesting, the school district shall submit with its reply the reasons for rejecting the calculations and documentation supporting those reasons. The Department shall review all school district penalty protest documentation and notify each district by March 15 of its finding and the final penalty to be assessed to each district. General fund balance penalties shall be assessed to all school districts by April 1.

3. Any school district which receives proceeds from a tax settlement or a Federal Emergency Management Agency settlement during the last two (2) months of the preceding fiscal year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the tax settlement.

4. Any school district which receives an increase in State Aid because of a change in Foundation and/or Salary Incentive Aid factors during the last two (2) months of the preceding fiscal year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the increase in State Aid.

5. If a school district does not receive Foundation and/or Salary Incentive Aid during the preceding fiscal year, the State Board of Education may waive the penalty assessed in this subsection if the penalty would result in a loss of more than forty percent (40%) of the remaining State Aid to be allocated to the school district between April 1 and the remainder of the school year and if the Board determines the penalty will cause the school district not to meet remaining financial obligations.

6. Any school district which receives gross production revenue apportionment during the 2002-2003 school year or in any subsequent school year that is greater than the gross production revenue apportionment of the preceding school year shall be exempt from the penalty assessed in this subsection, if the penalty would occur solely as a result of the gross production revenue apportionment, as determined by the State Board of Education.

7. Beginning July 1, 2003, school districts that participate in consolidation or annexation pursuant to the provisions of the Oklahoma School Voluntary Consolidation and Annexation Act shall be exempt from the penalty assessed in this subsection for the school year in which the consolidation or annexation occurs and for the next three (3) fiscal years.

8. Any school district which receives proceeds from a sales tax levied by a municipality pursuant to Section 22-159 of Title 11 of

the Oklahoma Statutes or proceeds from a sales tax levied by a county pursuant to Section 1370 of Title 68 of the Oklahoma Statutes during the 2003-2004 school year or the 2004-2005 school year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the sales tax levy.

9. Any school district which has an amount of carryover in the general fund of the district in excess of the limits established in paragraph 1 of this subsection during the fiscal years beginning July 1, 2020, July 1, 2021, July 1, 2022, and July 1, 2023, shall not be assessed a general fund balance penalty as provided for in this subsection.

10. For purposes of calculating the general fund balance penalty, the terms "carryover" and "general fund balance" shall not include federal revenue.

H. In order to provide startup funds for the implementation of early childhood programs, State Aid may be advanced to school districts that initially start early childhood instruction at a school site. School districts that desire such advanced funding shall make application to the State Department of Education no later than September 15 of each year and advanced funding shall be awarded to the approved districts no later than October 30. The advanced funding shall not exceed the per pupil amount of State Aid as calculated in subsection D of this section per anticipated Head Start eligible student. The total amount of advanced funding shall be proportionately reduced from the monthly payments of the district's State Aid payments during the last six (6) months of the same fiscal year.

I. 1. Beginning July 1, 1996, the Oklahoma Tax Commission, notwithstanding any provision of law to the contrary, shall report monthly to the State Department of Education the monthly apportionment of the following information:

monthly to the State Department of Education the ad valorem tax protest amounts for each county.

5. The information reported by the Tax Commission, the State Auditor and Inspector's Office, the county treasurers' offices and the Commissioners of the Land Office, pursuant to this subsection shall be reported by school district on forms developed by the State Department of Education.

§70-18-200.1v2. State Aid formula – 2022-23 and thereafter.

A. Beginning with the 2022-2023 school year, and each school year thereafter, each school district shall have its initial allocation of State Aid calculated based on the state dedicated revenues actually collected during the preceding fiscal year, the adjusted assessed valuation of the preceding year, and the weighted average daily membership for the school district of the preceding school year. Each school district shall submit the following data based on the first nine (9) weeks, to be used in the calculation of the average daily membership of the school district:

1. Student enrollment by grade level;
2. Pupil category counts; and
3. Transportation supplement data.

On or before December 30, the State Department of Education shall determine each school district's current year allocation pursuant to subsection D of this section. The State Department of Education shall complete an audit, using procedures established by the Department, of the student enrollment by grade level data, pupil category counts, and transportation supplement data to be used in the State Aid Formula pursuant to subsection D of this section by December 1 and by January 15 shall notify each school district of

the district's final State Aid allocation for the current school year. The January payment of State Aid and each subsequent payment for the remainder of the school year shall be based on the final State Aid allocation as calculated in subsection D of this section. Except for reductions made due to the assessment of penalties by the State Department of Education according to law, the January payment of State Aid and each subsequent payment for the remainder of the school year shall not decrease by an amount more than the amount that the current chargeable revenue increases for that district.

B. The State Department of Education shall retain not less than one and one-half percent (1 1/2%) of the total funds appropriated for financial support of schools, to be used to make midyear adjustments in State Aid and which shall be reflected in the final allocations. If the amount of appropriated funds, including the one and one-half percent (1 1/2%) retained, remaining after January 1 of each year is not sufficient to fully fund the final allocations, the Department shall recalculate each school district's remaining allocation pursuant to subsection D of this section using the reduced amount of appropriated funds.

C. On and after July 1, 1997, the amount of State Aid each district shall receive shall be the sum of the Foundation Aid, the Salary Incentive Aid, and the Transportation Supplement, as adjusted pursuant to the provisions of subsection G of this section and Section 18-112.2 of this title; provided, no district having per pupil revenue in excess of three hundred percent (300%) of the average per pupil revenue of all districts shall receive any State Aid or Supplement in State Aid.

The July calculation of per pupil revenue shall be determined by dividing the district's second preceding year's total weighted average daily membership (ADM) into the district's preceding year's total revenues excluding federal revenue, insurance loss payments, reimbursements, recovery of overpayments and refunds, unused reserves, prior expenditures recovered, prior year surpluses, and less the amount of any transfer fees paid in that year.

The December calculation of per pupil revenue shall be determined by dividing the district's preceding year's total weighted average daily membership (ADM) into the district's preceding year's total revenues excluding federal revenue, insurance loss payments, reimbursements, recovery of overpayments and refunds, unused reserves, prior expenditures recovered, prior year surpluses, and less the amount of any transfer fees paid in that year.

D. For the 1997-98 school year, and each school year thereafter, Foundation Aid, the Transportation Supplement, and Salary Incentive Aid shall be calculated as follows:

1. Foundation Aid shall be determined by subtracting the amount of the Foundation Program Income from the cost of the Foundation Program and adding to this difference the Transportation Supplement.

- a. The Foundation Program shall be a district's higher weighted average daily membership based on the first nine (9) weeks of the current school year or the preceding school year of a school district, as determined by the provisions of subsection A of Section 18-201.1 of this title and paragraphs 1, 2, 3, and 4 of subsection B of Section 18-201.1 of this title, multiplied by the Base Foundation Support Level. However, for the portion of weighted membership derived from nonresident, transferred pupils enrolled in online courses, the Foundation Program shall be a district's weighted average daily membership of the preceding school year or the first nine (9) weeks of the current school year, whichever is greater, as determined by the provisions of subsection A of Section 18-201.1 of this title and paragraphs 1, 2, 3, and 4 of subsection B of Section 18-201.1 of this title, multiplied by the Base Foundation Support Level.
- b. The Foundation Program Income shall be the sum of the following:
  - (1) The adjusted assessed valuation of the current school year of the school district, minus the previous year protested ad valorem tax revenues held as prescribed in Section 2884 of Title 68 of the Oklahoma Statutes, multiplied by the mills levied pursuant to subsection (c) of Section 9 of Article X of the Oklahoma Constitution, if applicable, as adjusted in subsection (c) of Section 8A of Article X of the Oklahoma Constitution. For purposes of this subsection, the "adjusted assessed valuation of the current school year" shall be the adjusted assessed valuation on which tax revenues are collected during the current school year, and
  - (2) Seventy-five percent (75%) of the amount received by the school district from the proceeds of the county levy during the preceding fiscal year, as levied pursuant to subsection (b) of Section 9 of Article X of the Oklahoma Constitution, and
  - (3) motor vehicle collections, and
  - (4) gross production tax, and
  - (5) state apportionment, and
  - (6) R.E.A. tax.The items listed in divisions (3), (4), (5), and (6) of this subparagraph shall consist of the amounts actually collected from such sources during the

preceding fiscal year calculated on a per capita basis on the unit provided for by law for the distribution of each such revenue.

2. The Transportation Supplement shall be equal to the average daily haul times the per capita allowance times the appropriate transportation factor.

a. The average daily haul shall be the number of children in a district who are legally transported and who live one and one-half (1 1/2) miles or more from school.

b. The per capita allowance shall be determined using the following chart:

The product shall be the Salary Incentive Aid of the district.

E. By June 30, 1998, the State Department of Education shall develop and the Department and all school districts shall have implemented a student identification system which is consistent with the provisions of subsections C and D of Section 3111 of Title 74 of the Oklahoma Statutes. The student identification system shall be used specifically for the purpose of reporting enrollment data by school sites and by school districts, the administration of the Oklahoma School Testing Program Act, the collection of appropriate and necessary data pursuant to the Oklahoma Educational Indicators Program, determining student enrollment, establishing a student mobility rate, allocation of the State Aid Formula, and midyear adjustments in funding for student growth. This enrollment data shall be submitted to the State Department of Education in accordance with rules promulgated by the State Board of Education. Funding for the development, implementation, personnel training, and maintenance of the student identification system shall be set out in a separate line item in the allocation section of the appropriation bill for the State Board of Education for each year.

F. 1. In the event that ad valorem taxes of a school district are determined to be uncollectible because of bankruptcy, clerical error, or a successful tax protest, and the amount of such taxes deemed uncollectible exceeds Fifty Thousand Dollars (\$50,000.00) or an amount greater than twenty-five percent (25%) of ad valorem taxes per tax year, or the valuation of a district is lowered by order of the State Board of Equalization, the school district's State Aid,

for the school year that such ad valorem taxes are calculated in the State Aid Formula, shall be determined by subtracting the net assessed valuation of the property upon which taxes were deemed uncollectible from the assessed valuation of the school district and the state. Upon request of the local board of education, it shall be the duty of the county assessor to certify to the Director of Finance of the State Department of Education the net assessed valuation of the property upon which taxes were determined uncollectible.

2. In the event that the amount of funds a school district receives for reimbursement from the Ad Valorem Reimbursement Fund is less than the amount of funds claimed for reimbursement by the school district due to insufficiency of funds as provided in Section 193 of Title 62 of the Oklahoma Statutes, then the school district's assessed valuation for the school year that such ad valorem reimbursement is calculated in the State Aid Formula shall be adjusted accordingly.

G. 1. Notwithstanding the provisions of Section 18-112.2 of this title, a school district shall have its State Aid reduced by an amount equal to the amount of carryover in the general fund of the district as of June 30 of the preceding fiscal year, that is in excess of the following standards for two (2) consecutive years:

Total Amount of General Fund Collections, Excluding Previous Year Cash Surplus as of June 30	Amount of General Fund Balance Allowable
Less than \$1,000,000	48%
\$1,000,000 - \$2,999,999	42%
\$3,000,000 - \$3,999,999	36%
\$4,000,000 - \$4,999,999	30%
\$5,000,000 - \$5,999,999	24%
\$6,000,000 - \$7,999,999	22%
\$8,000,000 - \$9,999,999	19%
\$10,000,000 or more	17%

2. By February 1 the State Department of Education shall send by certified mail, with return receipt requested, to each school district superintendent, auditor, and regional accreditation officer a notice of and calculation sheet reflecting the general fund balance penalty to be assessed against that school district. Calculation of the general fund balance penalty shall not include federal revenue. Within thirty (30) days of receipt of this written notice the school district shall submit to the Department a written reply either accepting or protesting the penalty to be assessed against the district. If protesting, the school district shall submit with its reply the reasons for rejecting the calculations and documentation supporting those reasons. The Department shall review all school district penalty protest documentation and notify each

district by March 15 of its finding and the final penalty to be assessed to each district. General fund balance penalties shall be assessed to all school districts by April 1.

3. Any school district which receives proceeds from a tax settlement or a Federal Emergency Management Agency settlement during the last two (2) months of the preceding fiscal year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the tax settlement.

4. Any school district which receives an increase in State Aid because of a change in Foundation and/or Salary Incentive Aid factors during the last two (2) months of the preceding fiscal year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the increase in State Aid.

5. If a school district does not receive Foundation and/or Salary Incentive Aid during the preceding fiscal year, the State Board of Education may waive the penalty assessed in this subsection if the penalty would result in a loss of more than forty percent (40%) of the remaining State Aid to be allocated to the school district between April 1 and the remainder of the school year and if the Board determines the penalty will cause the school district not to meet remaining financial obligations.

6. Any school district which receives gross production revenue apportionment during the 2002-2003 school year or in any subsequent school year that is greater than the gross production revenue apportionment of the preceding school year shall be exempt from the penalty assessed in this subsection, if the penalty would occur solely as a result of the gross production revenue apportionment, as determined by the State Board of Education.

7. Beginning July 1, 2003, school districts that participate in consolidation or annexation pursuant to the provisions of the Oklahoma School Consolidation and Annexation Act shall be exempt from the penalty assessed in this subsection for the school year in which the consolidation or annexation occurs and for the next three (3) fiscal years.

8. Any school district which receives proceeds from a sales tax levied by a municipality pursuant to Section 22-159 of Title 11 of the Oklahoma Statutes or proceeds from a sales tax levied by a county pursuant to Section 1370 of Title 68 of the Oklahoma Statutes during the 2003-2004 school year or the 2004-2005 school year shall be exempt from the penalties assessed in this subsection, if the penalty would occur solely as a result of receiving funds from the sales tax levy.

9. Any school district which has an amount of carryover in the general fund of the district in excess of the limits established in paragraph 1 of this subsection during the fiscal years beginning

July 1, 2020, July 1, 2021, July 1, 2022, and July 1, 2023, shall not be assessed a general fund balance penalty as provided for in this subsection.

10. For purposes of calculating the general fund balance penalty, the terms "carryover" and "general fund balance" shall not include federal revenue.

H. In order to provide startup funds for the implementation of early childhood programs, State Aid may be advanced to school districts that initially start early childhood instruction at a school site. School districts that desire such advanced funding shall make application to the State Department of Education no later than September 15 of each year and advanced funding shall be awarded to the approved districts no later than October 30. The advanced funding shall not exceed the per pupil amount of State Aid as calculated in subsection D of this section per anticipated Head Start eligible student. The total amount of advanced funding shall be proportionately reduced from the monthly payments of the district's State Aid payments during the last six (6) months of the same fiscal year.

I. 1. Beginning July 1, 1996, the Oklahoma Tax Commission, notwithstanding any provision of law to the contrary, shall report monthly to the State Department of Education the monthly apportionment of the following information:

- a. the assessed valuation of property,
- b. motor vehicle collections,
- c. R.E.A. tax collected, and
- d. gross productions tax collected.

2. Beginning July 1, 1997, the State Auditor and Inspector's Office, notwithstanding any provision of law to the contrary, shall report monthly to the State Department of Education the monthly apportionment of the proceeds of the county levy.

3. Beginning July 1, 1996, the Commissioners of the Land Office, notwithstanding any provision of law to the contrary, shall report monthly to the State Department of Education the monthly apportionment of state apportionment.

4. Beginning July 1, 1997, the county treasurers' offices, notwithstanding any provision of law to the contrary, shall report monthly to the State Department of Education the ad valorem tax protest amounts for each county.

5. The information reported by the Tax Commission, the State Auditor and Inspector's Office, the county treasurers' offices, and the Commissioners of the Land Office, pursuant to this subsection shall be reported by a school district on forms developed by the State Department of Education.

§70-18-201.1. Weighted membership calculation for Foundation Aid.

A. Beginning with the 2020-21 school year, and each school year thereafter, the weighted membership of a school district for calculation of Foundation Aid purposes pursuant to paragraph 1 of subsection D of Section 18-200.1 of this title shall be the sum of the weighted pupil grade level calculation, the weighted pupil category calculation, the weighted district calculation, and the weighted teacher experience and degree calculation. The weighted membership of a school district for calculation of Salary Incentive Aid purposes pursuant to paragraph 3 of subsection D of Section 18-200.1 of this title shall be the sum of the weighted pupil grade level calculation, the weighted pupil category calculation, the weighted district calculation, and the weighted teacher experience and degree calculation.

B. Beginning with the 2022-2023 school year, the weighted calculations provided for in subsection A of this section shall be based on the higher weighted average daily membership of the first nine (9) weeks of the current school year or the preceding school year of a school district, unless otherwise specified. The higher of the two (2) weighted average daily memberships shall be used consistently in all of the calculations; however, the weighted calculation for a statewide virtual charter school experiencing a significant decline in membership shall be based on the first nine (9) weeks of the current school year for the statewide virtual charter school. For purposes of this subsection, "significant decline in membership" means equal to or greater than a fifteen

percent (15%) decrease in average daily membership from the preceding school year to the average daily membership of the first nine (9) weeks of the current school year. The average daily membership data used for all calculations in paragraphs 1, 2, 3, and 4 of this subsection shall be the same as used in the calculation of the State Aid Formula. The weighted calculations provided for in subsection A of this section shall be determined as follows:

1. The weighted pupil grade level calculation shall be determined by taking the highest average daily membership and assigning weights to the pupils according to grade attended as follows:

	GRADE LEVEL	WEIGHT
a.	Half-day early childhood programs	.7
b.	Full-day early childhood programs	1.3
c.	Half-day kindergarten	1.3
d.	Full-day kindergarten	1.5
e.	First and second grade	1.351
f.	Third grade	1.051
g.	Fourth through sixth grade	1.0
h.	Seventh through twelfth grade	1.2
i.	Out-of-home placement	1.50

Multiply the membership of each subparagraph of this paragraph by the weight assigned to such subparagraph of this paragraph and add the totals together to determine the weighted pupil grade level calculation for a school district. Determination of the pupils eligible for the early childhood program weight shall be pursuant to the provisions of Section 1-114 of this title. The pupils eligible for the out-of-home placement pupil weight shall be students who are not residents of the school district in which they are receiving education pursuant to the provisions of subsection D of Section 1-113 of this title. Such weight may be claimed by the district providing educational services to such student for the days that student is enrolled in that district. If claimed, the out-of-home placement weight shall be in lieu of the pupil grade level and any pupil category weights for that student. Provided, if a student resides in a juvenile detention center that is restricted to less than twelve (12) beds, the out-of-home placement pupil weight for such students shall be calculated as follows: for a center with six (6) beds - 3.0; for a center with eight (8) beds - 2.3; and for a center with ten (10) beds - 1.80.

2. The weighted pupil category calculation shall be determined by assigning a weight to the pupil category as follows:

	CATEGORY	WEIGHT
a.	Visual Impairment	3.8
b.	Specific Learning Disability	.4
c.	Deafness or Hearing Impairment	2.9
d.	Deaf-Blindness	3.8

e.	Intellectual Disability	1.3	
f.	Emotional Disturbance	2.5	
g.	Gifted	.34	
h.	Multiple Disabilities	2.4	
i.	Orthopedic Impairment	1.2	
j.	Speech or Language Impairment	.05	
k.	Bilingual	.25	
l.	Special Education Summer Program	1.2	
m.	Economically Disadvantaged	.3	
n.	Optional Extended School Year Program		As determined by the State Board of Education
o.	Autism	2.4	
p.	Traumatic Brain Injury	2.4	
q.	Other Health Impairment	1.2	

Except as otherwise provided, multiply the number of pupils approved in the school year with the highest average daily membership in each category by the weight assigned to such category and add the totals together to determine the weighted pupil category calculation for a school district. For the 1997-98 school year and subsequent school years, the number to be multiplied by the weight assigned to the gifted category in subparagraph g of this paragraph shall be the lesser of (1) the sum of the number of students who scored in the top three percent (3%) on any national standardized test of intellectual ability plus the number of students identified as gifted pursuant to subparagraphs a through d of paragraph 1 of Section 1210.301 of this title, or (2) the sum of the number of students who scored in the top three percent (3%) on any national standardized test of intellectual ability plus eight percent (8%) of the total average daily membership of the school district for the first nine (9) weeks of the school year.

3. The weighted district calculation shall be determined by determining the calculations for each school district for both the small school district formula and the district sparsity - isolation formula, applying whichever is the greater of the calculations of the two formulas and then applying the restrictions pursuant to subparagraph c of this paragraph.

- a. Small school district formula: 750 minus the average daily membership divided by 750 times .2 times total average daily membership.

The small school district formula calculation shall apply only to school districts whose highest average daily membership is less than 750 pupils. School districts which are consolidated or annexed after July 1, 2003, pursuant to the Oklahoma School Voluntary Consolidation and Annexation Act shall have the weighted district size calculation for

the three (3) school years following the fiscal year in which such consolidation occurred calculated to be the sum of the individual consolidated districts computed as if the consolidation had not taken place. Thereafter, any such district which is consolidated pursuant to the Oklahoma School Voluntary Consolidation and Annexation Act shall not qualify for the weighted district calculation unless the district can satisfy the specifications herein. Subject to the provisions of subparagraph c of this paragraph, the resulting number shall be counted as additional students for the purpose of calculating State Aid.

b. District sparsity - isolation formula:

The district sparsity - isolation formula calculation shall apply only to school districts:

- (1) whose total area in square miles is greater than the average number of square miles for all school districts in this state; and
- (2) whose areal density is less than one-fourth (1/4) of the state average areal density. Areal density shall be determined by dividing the school district's average daily membership by the school district's total area in square miles.

The district sparsity - isolation formula calculation shall be calculated as follows:

The school district student cost factor multiplied by the school district area factor. The resulting product shall be multiplied by the school district's average daily membership. Subject to the provisions of subparagraph c of this paragraph, the resulting number shall be counted as additional students for the purpose of calculating State Aid.

The school district student cost factor shall be calculated as follows:

The school district's average daily membership shall be categorized into the following grade level groups and applied to the appropriate formulas as computed below:

Grade Level Group

Grades K-5

Divide 74 by the sum of the Grade Level ADM plus 23, add .85 to the quotient, then multiply the sum by the Grade Level ADM.

Grades 6-8

Divide 122 by the sum of the Grade Level ADM plus 133, add .85 to the quotient, then multiply the sum by the Grade

Grades 9-12

Level ADM.

Divide 292 by the sum of the Grade Level ADM plus 128, add .78 to the quotient, then multiply the sum by the Grade Level ADM.

The sum of the grade level group's average daily membership shall be divided by the school district's average daily membership. The number one (1.0) shall be subtracted from the resulting quotient.

The school district area cost factor shall be calculated as follows:

Subtract the state average district area from the district area, then divide the remainder by the state average district area;

however, the district area cost factor shall not exceed one (1.0).

The State Board of Education shall define geographical barriers whose location in a school district would inhibit the district from consolidation or annexation. The Board shall make available an application process, review applications, and for districts the Board deems necessary allow additional square miles to be used for the purposes of calculations used for the weighted district sparsity - isolation formula. Provided, that the additional square miles allowed for geographical barriers shall not exceed thirty percent (30%) of the district's actual size.

c. State Aid funds which a district is calculated to receive as a result of the weighted district calculation shall be restricted as follows:

If, after the weighted district calculation is applied, the district's projected per pupil revenue exceeds one hundred fifty percent (150%) of the projected state average per pupil revenue, then the district's State Aid shall be reduced by an amount that will restrict the district's projected per pupil revenue to one hundred fifty percent (150%) of the projected state average per pupil revenue. Provided, in applying the restriction provided in this division, the district's State Aid shall not be reduced by an amount greater than by the amount of State Aid which was generated by the weighted district calculation.

The July calculation of the projected per pupil revenue shall be determined by dividing the district's preceding year's average daily membership (ADM) as weighted by the pupil grade level, the pupil category,

the district and the teacher experience degree index calculations for projected State Aid into the district's projected total revenues including projected funds for the State Aid Formula for the preceding year, net assessed valuation for the preceding calendar year times thirty-nine (39) mills, county revenues excluding the county four-mills revenues for the second preceding year, other state appropriations for the preceding year, and the collections for the preceding year of state apportionment, motor vehicle revenue, gross production tax, and R.E.A. tax.

The December calculation of the projected per pupil revenue shall be determined by dividing the higher of the district's first nine (9) weeks of the current school year or the preceding school year's average daily membership (ADM) as weighted by the pupil grade level, the pupil category, the district and the teacher experience degree index calculations for projected State Aid into the district's projected total revenues including funds for the December calculation of the current year State Aid Formula, net assessed valuation for the current calendar year times thirty-nine (39) mills, county revenues excluding the county four-mills revenue for the preceding year, other state appropriations for the preceding year, and the collections for the preceding year of state apportionment, motor vehicle revenue, gross production tax, and R.E.A. tax.

The district's projected total revenues for each calculation shall exclude the following collections for the second preceding year: federal revenue, insurance loss payments, reimbursements, recovery of overpayments and refunds, unused reserves, prior expenditures recovered, prior year surpluses, and other local miscellaneous revenues.

4. The weighted teacher experience and degree calculation shall be determined in accordance with the teacher experience and degree index. The State Department of Education shall determine an index for each state teacher by using data supplied in the school district's teacher personnel reports of the preceding year and utilizing the index as follows:

EXPERIENCE	TEACHER EXPERIENCE - DEGREE INDEX		
	BACHELOR'S DEGREE	MASTER'S DEGREE	DOCTOR'S DEGREE
0 - 2	.7	.9	1.1
3 - 5	.8	1.0	1.2

6 - 8	.9	1.1	1.3
9 - 11	1.0	1.2	1.4
12 - 15	1.1	1.3	1.5
Over 15	1.2	1.4	1.6

The school district teacher index for each school district shall be determined by subtracting the weighted average state teacher from the weighted average district teacher. Multiply the school district teacher index if greater than zero by .7 and then multiply that product by the sum of the district's weighted pupil grade level calculation provided in paragraph 1 of this subsection and the weighted pupil category calculation provided in subparagraph m of paragraph 2 of this subsection to determine the weighted teacher experience and degree calculation.

§70-18-202.1. Funding of school districts in Superfund sites when children have relocated - Highest weighted average of last 10 years used.

For school districts located within the boundaries of federally designated Superfund sites from which students have been relocated with the assistance of state funds, the weighted calculations provided for in subsection A of Section 18-201.1 of Title 70 of the Oklahoma Statutes shall be based on the highest weighted average daily membership of the first nine (9) weeks of the current school year or any of the proceeding years, up to a maximum of ten (10) years since students within the district first received state assistance to relocate outside the district.

All monies accruing to the credit of said fund are hereby appropriated and may be budgeted and expended beginning with the fiscal year ending June 30, 1993, by the State Board of Education for the purposes of implementing reforms contained in Enrolled House Bill No. 1017 of the First Extraordinary Session of the 42nd Oklahoma Legislature. Expenditures from said fund shall be made upon warrants issued by the State Treasurer against claims filed as prescribed by law with the Director of the Office of Management and Enterprise Services for approval and payment.

Such revenue bonds shall contain on the face thereof a statement to the effect that neither the state nor the Authority shall be obligated to pay the same or the interest thereon except from revenues dedicated by the Legislature, and that neither the faith and credit nor the taxing power of the state or any political subdivision thereof is pledged, or may hereafter be pledged, to the payment of the principal of, or the interest on, such bonds.

§70-23-107. Powers continued.

The Authority is hereby authorized and empowered to acquire by purchase, whenever it shall deem such purchase expedient, any land, property, rights, rights-of-way, franchises, easements, or other interests in lands as it may deem necessary or convenient for the construction, maintenance, and operation of the facilities upon such terms and at such price as may be considered by it to be reasonable and can be agreed upon between the Authority and the owner thereof, and to take title thereto in the name of the Authority.

§70-23-108. The Authority has power to condemn property.

Whenever a reasonable price cannot be agreed upon, or whenever the owner is legally incapacitated, or is absent, unknown, or unable to convey valid title, the Authority is hereby authorized and empowered to acquire by condemnation proceedings in the same manner as land is condemned for railroad purposes any land, property, rights, rights-of-way, franchises, easements, or other property deemed necessary or convenient for the construction or the efficient operation of any facilities, or necessary in the restoration of public or private property damaged or destroyed. No act or obligation of the Authority shall impose any liability upon the state or the Authority except such as may be paid from the funds provided under the authority of the article.

Added by Laws 1971, c. 281, § 23-108, eff. July 2, 1971.

§70-23-109. Authority may issue revenue bonds.

The Authority may provide by resolution, at one time or from time to time, for the issuance of revenue bonds of the Authority for the purpose of paying all or any of the cost of any one or more projects, but each project shall be covered by a separate resolution and separate bond issue or issues. Provided, each such resolution must receive legislative approval prior to actual issuance of said revenue bonds. The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment. The bonds of each issue shall be dated, shall bear interest at a rate not to exceed ten percent (10%), and shall mature in annual installments at such time or times not exceeding the maximum time permitted by the Constitution of the State of Oklahoma, but in any event not more than forty (40) years after their date as may be determined by the Authority. The Authority may cause the bonds or any installment thereof to be made redeemable before maturity, at the option of the Authority, at such price or prices, and under such terms and conditions as may be fixed by the Authority prior to the issuance of the bonds. The Authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the state. The bonds shall be signed by the chairman of the Authority, and the official seal of the Authority shall be affixed thereto and attested by the secretary-treasurer of the Authority, and any coupons attached thereto shall bear the facsimile signature of the chairman of the Authority. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All bonds issued under the provisions of this article shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the state. The bonds may be issued in coupon or in registered form or both, as the Authority may determine, and provisions may be made for the registration of any coupon bonds as to principal and interest. The Authority shall sell such bonds at public sale. Notice of the sale shall be published in a Thursday issue for two (2) successive weeks in a daily newspaper of general circulation in the State of Oklahoma. The date mentioned in the notice for the sale of the bonds shall not be less than ten (10) days after the first publication thereof. All bonds shall be sold to the bidder who will bid therefor par and accrued interest, and who shall stipulate in his bid the lowest rate of interest which such bonds shall bear. It is the intent of this article that the bonds shall be awarded to the bidder bidding rate or rates of

interest which will be the lowest interest cost during the life of the bonds. Any premium bid shall not be considered in figuring such interest cost but shall be considered only in case two or more bidders bid the same interest cost. Upon the acceptance of such bid, the bonds shall be issued in accordance therewith and shall be delivered to the purchaser upon payment of the purchase price. Each bidder shall submit with his bid such sum in cash or its equivalent as may be determined by the Authority, and upon the acceptance of any bid such deposit shall become the property of the Authority and shall be credited on the purchase price of the bonds, upon the understanding that if the purchaser shall fail five (5) days after the tender of bonds to pay the balance of the purchase price, said sale shall be thereby annulled and said deposit shall be in such event retained by the Authority and credited to the account for which such bonds are being issued and shall be used accordingly. All other deposits shall be returned. The Authority shall have the right to reject all bids and readvertise the bonds for sale. The bonds need not be issued and sold in series. In no event shall the bonds be sold at a price so low as to require the payment of interest on the money received therefor at more than ten percent (10%), computed with relation to the absolute maturity of the bonds in accordance with the standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on the redemption of any bonds prior to maturity.

The proceeds of the bonds of each issue shall be used solely for the payment of the cost of the project, for which such bonds shall have been issued, and shall be disbursed in such manner, and under such restrictions, if any, as the Authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds of any issue, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds of any issue shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under provisions of this article without obtaining the

consent of any department, division, commission, board, bureau or agency of the state except legislative approval as required herein, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, or things which are specifically required by this article.

Added by Laws 1971, c. 281, § 23-111, eff. July 2, 1971.

§70-23-112. Trust agreements.

In the discretion of the Authority any bonds issued under the provisions of this article may be secured by a trust agreement by and between the Authority and a corporate trustee which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement may pledge or assign the revenues to be received from the project constructed by the use of the proceeds of the bonds, but shall not convey or mortgage any project or part thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the project in connection with which such bonds shall have been authorized, and the custody, safeguarding and application of all monies, and provisions for the employment of consultants or operation of such project or projects. It shall be lawful for any bank or trust company incorporated under the laws of the state which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may

be required by the Authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds and debentures of corporations. In addition to the foregoing any such trust agreement may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement may be treated as part of the cost of the operation of the project or projects.

Laws 1971, c. 281, § 23-112, eff. July 2, 1971.

§70-23-114. Monies received are trust funds.

All monies received pursuant to the authority of this article, whether as proceeds from the sale of bonds or other revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this article. The resolution authorizing the bonds of any issue or the trust agreement securing such bonds shall provide that any officer to whom, or any bank or trust company to which, such monies shall be paid shall act as trustee of such monies and shall hold and apply the same for the purposes hereof, subject to such regulations as this article and such resolution or trust agreement may provide.

Added by Laws 1971, c. 281, § 23-114, eff. July 2, 1971.

Any holder of bonds issued under the provisions of this article or any of the coupons appertaining thereto, and the trustee under the trust agreement, except to the extent the rights herein given may be restricted by such trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding protect and enforce any and all rights under the laws of the state or granted hereunder or under such trust agreement or the resolution authorizing the issuance of such bonds, and may enforce and compel the performance of all duties required by this article or by such trust agreement or resolution to be performed by the Authority or by any officer thereof including the fixing, charging and collecting of fees.

Added by Laws 1971, c. 281, § 23-115, eff. July 2, 1971.

The exercise of the powers granted by this article will be in all respects for the benefit of the people of the state, to serve their educational and cultural interests and needs, and for the improvement of their health and living conditions. The operation and maintenance of projects by the Authority will constitute the performance of essential governmental functions, and the Authority shall not be required to pay any taxes or assessments upon any project or any property acquired or used by the Authority under the provisions of this article or upon the income therefrom, and the bonds issued under the provisions of this article, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation within the state. Each project when constructed and placed in use shall be maintained and kept in good condition and repair by the Authority. When all bonds issued under the provisions of this article in connection with any project and the interest thereon shall have been paid or a sufficient amount for the payment of all such bonds and the interest thereon to the maturity thereof shall have been set aside in trust for the benefit of the bondholders, such project, if then in good condition and repair to the satisfaction of the State Legislature, shall become part of the State Educational System.

All counties, cities, towns, municipalities and school districts of the state and all state boards, commissions, officials, and other public agencies, notwithstanding any contrary provision of law, are hereby authorized and empowered:

1. To lease, lend, grant or convey to the Authority at its request upon such terms and conditions as the proper authorities of such counties, cities, towns, municipalities, school districts of the state, and all state boards, commissions, officials and other public agencies may deem reasonable and fair and without the necessity for any advertisement, order of court or other action or formality other than the regular and formal action of the authorities concerned, any personal property, real property and

other things of value which may be necessary or convenient to the effectuation of the authorized purposes of the Authority, including real property already devoted to public use; and

2. To lease, rent or contract from the Authority for telecasting purposes, any programs that would be beneficial to their interest and that of the State of Oklahoma.

It shall be the duty of the Court to consider and pass upon the applications and any protests which may be filed thereto as speedily as possible. Notice of the hearing on each application shall be given by notice published in a newspaper of general circulation in the state that on a day named the Authority will ask the Court to hear its application and approve the bonds. expenditures that were not qualified expenses or it finds that the taxpayer has claimed an eligible student who no longer attends a private school or has enrolled in a public school in the state.

3. The Commission shall be authorized to reallocate credits to the next eligible taxpayer in line when a taxpayer, on behalf of an eligible student in the program, chooses not to participate, is no longer eligible to participate, or chooses to forgo participation in the program for any reason.

J. In the event of a failure of revenue pursuant to the Oklahoma State Finance Act, the tax credits otherwise authorized in subsection C of this section shall be reduced proportionately to the reduction in the amount of money appropriated to the State Board of Education for the financial support of public schools for the fiscal year in which the failure of revenue occurs.

K. The Commission shall make available on its website to be updated monthly:

§70-506.1. Enactment of Compact - Text.

The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

COMPACT FOR EDUCATION

ARTICLE I. PURPOSE AND POLICY

A. It is the purpose of this Compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.
2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.
3. Provide a clearinghouse of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready

access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advice in educational opportunities, methods and facilities.

B. It is the policy of this Compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

C. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

#### ARTICLE II. STATE DEFINED

As used in this Compact, "State" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

#### ARTICLE III. THE COMMISSION

A. The Educational Commission of the states, hereinafter called "the Commission", is hereby established. The Commission shall consist of seven (7) members representing each party state. One of such members shall be the Governor; two shall be members of the State Legislature selected by its respective houses and serving in such manner as the Legislature may determine; one shall be the Chancellor of the State Regents for Higher Education; one shall be the State Superintendent of Public Instruction; and two shall be appointed by and serve at the pleasure of the Governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the Commission, six members shall be appointed by and serve at the pleasure of the Governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher

education, the state education system, local education, lay and professional, public, and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party states, there may be not to exceed ten nonvoting Commissioners selected by the steering committee for terms of one year. Such Commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

B. The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the Commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the Executive Director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

C. The Commission shall have a seal.

D. The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice-chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

E. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the Executive Director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for the personnel policies and programs of the Commission.

F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

G. The Commission may accept for any of its purposes and functions under this Compact any and all donations, and grants of

money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

J. The Commission annually shall make to the Governor and Legislature of each party state a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

#### ARTICLE IV. POWERS

In addition to authority conferred on the Commission by other provisions of the compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this Compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this Compact.

#### ARTICLE V. COOPERATION WITH FEDERAL GOVERNMENT

A. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the Commission.

B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the state, and may advise with any such agencies or officers concerning any matter of mutual interest.

#### ARTICLE VI. COMMITTEES

A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a Steering Committee of thirty (30) members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the by-laws of the Commission. One-third of the voting membership of the Steering Committee shall consist of Governors, and the remainder shall consist of other members of the Commission. A federal representative on the Commission may serve with the Steering Committee, but without vote. The voting members of the Steering Committee shall serve for terms of two (2) years, except that members elected to the first Steering Committee of the Commission shall be elected as follows: fifteen for one (1) year and fifteen for two (2) years. The Chairman, Vice Chairman, and Treasurer of the Commission shall be members of the Steering Committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the Steering Committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee: provided that service for a partial term of one (1) year or less shall not be counted toward the two term limitation.

B. The Commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of

the states concerned, be established to consider any matter of special concern to two or more of the party states.

C. The Commission may establish such additional committees as its bylaws may provide.

#### ARTICLE VII. FINANCE

A. The Commission shall advise the Governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

B. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

C. The Commission shall not pledge the credit of any party states. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this Compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

E. The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the Commission.

F. Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

#### ARTICLE VIII. ELIGIBLE PARTIES; ENTRY INTO AND WITHDRAWAL

A. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor", as used in this compact, shall mean the closest equivalent official of such jurisdiction.

B. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his state a party only until December 31, 1967. During any period when a state is participating in this compact through gubernatorial action, the Governor shall appoint those persons who, in addition to himself, shall serve as the members of the Commission from his state, and shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him.

D. Except for a withdrawal effective on December 31, 1967, in accordance with paragraph C of this article, any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing state has given notice in writing of the withdrawal to the Governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

#### ARTICLE IX. CONSTRUCTION AND SEVERABILITY

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the State affected as to all severable matters.

§70-508.1. Enactment of Agreement - Text.

The Interstate Agreement on Qualification of Educational Personnel is hereby enacted into law and entered into with all jurisdiction legally joining therein, in the form substantially as follows:

ARTICLE I. PURPOSE, FINDINGS, AND POLICY

1. The states party to this Agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this Agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

ARTICLE II. DEFINITIONS

As used in this Agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated State official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this Agreement.

3. "Accept", or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating State" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving State" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

#### ARTICLE III. INTERSTATE EDUCATIONAL PERSONNEL CONTRACTS

1. The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this Agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical, to that prevailing in his own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this Agreement shall be for a term longer than five (5) years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating State approval of the program or programs involved can have occurred. No contract made pursuant to this Agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

#### ARTICLE IV. APPROVED AND ACCEPTED PROGRAMS

1. Nothing in this Agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this Agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

#### ARTICLE V. INTERSTATE COOPERATION

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this Agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

#### ARTICLE VI. AGREEMENT EVALUATION

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the Agreement, and to formulate recommendations for changes.

#### ARTICLE VII. OTHER ARRANGEMENTS

Nothing in this Agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

#### ARTICLE VIII. EFFECT AND WITHDRAWAL

1. This Agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any State upon its enactment of this Agreement.

2. Any party state may withdraw from this Agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one (1) year after the Governor of the withdrawing state has given notice in writing of the withdrawal to the Governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

#### ARTICLE IX. CONSTRUCTION AND SEVERABILITY

This Agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Agreement shall be severable and if any phrase, clause, sentence, or provision of this Agreement is declared to be contrary to the Constitution of any state or of the United States, or the application thereof to any Government, agency, person, or circumstance is held invalid, the validity of the remainder of this Agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the Constitution of any state participating therein, the Agreement shall remain in full force and effect as to the state affected as to all severable matters.

Added by Laws 1970, c. 248, § 1, eff. July 1, 1970.

§70-508.2. Designated state official.

The "designated state official" for this State shall be State Superintendent of Public Instruction. The State Superintendent of Public Instruction shall enter into contracts pursuant to Article III of the Agreement only with the approval of the specific text thereof by the State Board of Education.

Laws 1970, c. 248, § 2, eff. July 1, 1970.

§70-508.3. Filing and publishing of contracts.

True copies of all contracts made on behalf of this state pursuant to the Agreement shall be kept on file in the State Department of Education and in the office of the Secretary of State.

The State Department of Education shall publish all such contracts in convenient form.

Laws 1970, c. 248, § 3, eff. July 1, 1970.

§70-508.4. Repealed by Laws 1980, c. 68, § 1, emerg. eff. April 10, 1980.

§70-509.1. Purpose - Jurisdiction.

It is the purpose of this act to strengthen methods of administering employer-employee relations through the establishment of an orderly process of communications between school employees and the school district. The district courts are vested with jurisdiction to prevent and restrain violations of this act and shall have jurisdiction in all other cases arising under this act to grant relief to the employer or recognized employee organization for violations of this act using procedures set forth in Sections 1381 through 1397 of Title 12 of the Oklahoma Statutes.

Amended by Laws 1983, c. 120, § 1, emerg. eff. May 17, 1983.

§70-509.2. Recognition of employee organization - Bargaining unit defined - Petition for election - Conduct of election.

A. The board of education shall recognize an employee organization designated by an election of the employees in an appropriate bargaining unit as the exclusive representative of all the employees in such unit. The members of an employee organization shall be employees as defined in paragraphs 1, 2 and 3 of this subsection and Section 1-116 of this title. The recognition of such employee organization shall be made by the board no later than fourteen (14) days after the election. Any person who desires not to be represented by any organization may so state in writing to his or her board of education. Appropriate bargaining units are defined as follows; however, such definition shall not be construed, of itself, as requiring that bargaining units engage in bargaining or act to disengage from bargaining:

1. Employees who are employed and certified as principals and assistant principals and who have responsibilities for the supervision of classroom teachers shall constitute an appropriate unit;

2. All other employees who are required by the position in which employed to be certified as teachers as that term is defined in Section 1-116 of this title and who do not hold supervisory authority with respect to other teachers in the district shall constitute an appropriate unit; and

3. All employees who are not required by their job description to be a principal, certified teacher, superintendent or other certified or noncertified administrator shall constitute a separate bargaining unit. Provided that, employees with access to

confidential, labor relations information of the school district, or managerial employees whose responsibilities include making employment recommendations to the superintendent and for which their position does not require a certificate, shall be excluded from this or other bargaining units. Also excluded is any employee position agreed to be excluded from the bargaining unit by the employee organization and the school district.

Provided, if employees categorized according to paragraphs 2 and 3 of this subsection were organized for bargaining as a single unit as of April 14, 1986, or are at any time employed in a district having fewer than seventy-five employees in the two categories taken together, the employees may, for such time as a majority of the employees in each category indicate by secret ballot vote they share a single community of interest, constitute a single appropriate unit. Further provided, any final judgment of the Supreme Court denying such community of interest in any school district shall have the effect of rendering inappropriate all units, in whatever school districts they exist, which include employees of both categories.

B. 1. Within seven (7) business days of receiving a sealed packet containing an employee petition filed by or on behalf of thirty-five percent (35%) or more of the employees in a unit, such petition calling for an election to determine which, if any, employee organization represents the employees in a bargaining unit, the board shall arrange for verification that there are a sufficient number of correct names to constitute at least thirty-five percent (35%) of the employees in the unit. Such arrangements shall include the transmitting of the sealed packet and a list of employees eligible to be included in the bargaining unit to the individual designated pursuant to the provisions of paragraph 2 of this subsection.

2. The petition calling for the secret ballot election shall contain only the names of employees of the bargaining unit who have signed and dated the petition. Within thirty (30) days of receipt of the sealed packet by the district court judge in and for the county in which the school district has its main office, the sealed packet shall be opened and the petition shall be verified by an individual designated by the district judge of such court for the county in which the school district has its main office. Upon verification of the number of signatures on the petition, the district court judge shall notify in writing the district board of education and any employee organization that has requested notice of the verification. Under no circumstances shall the individual so designated reveal the names of employees who signed or did not sign the petition. If an employee has signed more than one petition, the name of the employee shall be removed from each petition.

3. The period of time for signing of a recognition petition shall commence upon receipt of written notification by the school

board from an organization indicating that it intends to circulate a petition and shall cease thirty (30) days thereafter. Provided, if an organization recognized as representative of a unit for bargaining is being challenged for discontinuation of representation as provided in paragraph 7 of subsection C of this section or is being challenged by another organization seeking recognition, the period for signing shall commence on the first day of February and end on the last day of that same February.

C. 1. Not less than forty-five (45) days nor more than sixty (60) days after receipt of notification that the petition has been verified as sufficient, a secret ballot election shall be held to determine which, if any, employee organization shall represent the unit. No election shall be held for a unit within which a valid election was held in the preceding two (2) years.

On or after March 2, 1995, the board shall recognize within ten (10) days an organization which has obtained signed authorization from a majority of the employees eligible to be included in the unit but has not been recognized. No election shall be held for such unit within two (2) years of recognition. An appropriate election ballot shall be printed for this election, which contains the names of all employee organizations having presented a petition verified as signed by at least thirty-five percent (35%) of the employees eligible to be in the unit to represent or currently recognized as representing the unit; provided, no such organization shall be shown on the ballot unless the organization pays to the board a filing fee of Two Hundred Fifty Dollars (\$250.00). The ballot shall also provide an option whereby any employee of the unit may indicate a preference that the unit not be represented by any organization. Every organization that receives at least fifteen percent (15%) of the vote in the election shall be reimbursed the Two Hundred Fifty Dollars (\$250.00) by the board. The board shall use any remaining filing fee money to help offset the cost of the validation process of the petition, if any, as well as any election costs incurred.

2. When none of the choices on the ballot receives a majority of the votes, a runoff election shall be conducted on the fourteenth day following the first election between the two choices which received the largest number of votes in the preceding election.

3. The employee organization or organizations and the school board shall, by agreement, determine the method by which each election shall be conducted. All costs incurred in an election shall be shared equally by all parties involved.

If no agreement can be reached by thirty (30) days prior to the election, the board of education shall notify the county election board of the county in which the board is located of such fact, and the following method for conducting the secret ballot election shall be followed and conducted by the county election board:

- a. At the time of such notice, the board of education shall provide to the county election board:
  - (1) a list of all the polling places for the election, such list to include every middle school or junior high school and the central administration office in the district;
  - (2) a list of names of all the persons eligible to vote in the election, such list to be in alphabetical order and duplicated in such number that there shall be one for each polling place, plus an additional five copies;
  - (3) the names of each organization entitled to have its name appear on the ballot; and
  - (4) the date of the election which shall not be a special election date specified by subsection B of Section 3-101 of Title 26 of the Oklahoma Statutes.
- b. Ballots for the election shall be printed by the county election board in the same manner as for other elections conducted by the county election board, insofar as is possible. The names of organizations shall be listed on the ballot in the order in which said names are furnished to the county election board by the board of education. The option specifying that no organization shall represent the employee bargaining unit shall be listed last on the ballot, in such language as may be specified by the board.
- c. The secretary of the county election board shall appoint an inspector, judge and clerk for each polling place. The inspector, judge and clerk shall be selected from among the regular precinct officials in the county.
- d. Polling places shall be open from 7:00 a.m. to 7:00 p.m. on the day of the election. Any eligible person who appears to vote no later than 7:00 p.m. shall be entitled to vote.
- e. Eligible voters may vote after signing their signatures beside their names on the list of names of all the persons eligible to vote in the election. The voter shall place his or her ballot in the ballot box in the presence of the inspector.
- f. Each organization entitled to have its name appear on the ballot shall be permitted to appoint one challenger at each polling place. Each such challenger shall be properly identified as such, and shall be limited to inquiring of a prospective voter, said prospective voter's name, address, job

classification and work site. The challenger may challenge the right of any prospective voter to vote by so informing the judge. Upon being so challenged, the prospective voter may vote if, after being informed by the judge of such a challenge, the voter signs his or her signature beside his or her name on the list of names of all the persons eligible to vote in the election. If same occurs, the judge shall write the words "Challenged by \_\_\_\_\_" beside the voter's signature.

- g. The county election board shall certify in writing the results of the election to the board of education on the day following the election and on the same day shall mail a copy of the certification to all employee organizations that have requested copies of the certification.
- h. Costs of the election shall be paid to the county election board by the board of education. The costs shall include the regular salaries of the inspector, judge, and clerk, in addition to all other necessary and reasonable costs. Such costs shall include compensation for members of the county election board, including the secretary.
- i. Anyone guilty of voting more than one time in the election will be guilty of a misdemeanor and subject to a fine of Two Hundred Dollars (\$200.00) or thirty (30) days in the county jail.

4. No employee shall use regularly scheduled duty time for campaign purposes.

5. A list of the employees eligible to vote in the election including their names, addresses, phone numbers, job classification and work site shall be provided not less than fourteen (14) days before the election to each organization listed on the official ballot.

6. Any board or organization challenging the results of any election held pursuant to the provisions of this section shall post with the district court a bond of One Thousand Dollars (\$1,000.00) which shall be forfeited if the court finds that the challenge is in bad faith.

7. In any February more than two (2) years after recognition of an organization pursuant to the provisions of this section and upon the receipt of a petition calling for discontinuation of representation signed by thirty-five percent (35%) of the employees eligible to be included in the unit, a board shall call an election to determine whether the members of a unit wish to discontinue being represented for bargaining. If a majority of the votes cast are votes to discontinue representation, efforts to gain recognition by

any organization shall be prohibited for a period of two (2) years commencing with the expiration of the contract then in force. The ballots used in such election shall, without reference to any organization by name, offer the single choice of continued representation or discontinuation of representation.

§70-509.2a. Bargaining unit determination of bargaining election dispute - Procedure - Appeal.

A. In the event of a bargaining unit determination or a bargaining election dispute, the following procedure shall apply:

1. In the event of a bargaining election dispute, within seven (7) calendar days of receipt of verification of number of signatures on the petition from the county election board or the receipt of election results from the county election board or other organization agreed upon by the parties to conduct the election, either party shall give notice in writing of a dispute and the facts on which the dispute is based to the other parties involved, and the State Superintendent of Public Instruction requesting appointment of a dispute resolution committee. In the event of a bargaining unit determination dispute either party shall give notice in writing of a dispute and the facts on which the dispute is based to the other parties involved, and the State Superintendent of Public Instruction requesting appointment of a dispute resolution committee. The status quo that existed between the parties prior to the incident giving rise to the dispute shall be maintained through the resolution of the dispute including district court proceedings unless the court orders otherwise upon proper application by a party; any election scheduled pursuant to a disputed petition shall be stayed pending resolution of the dispute including district court proceedings;

2. Within ten (10) days of receipt of notification that a dispute resolution committee is needed, the State Superintendent of Public Instruction shall form a dispute resolution committee consisting of three (3) members selected at random from the list of fact-finders maintained by the State Board of Education pursuant to Section 509.7 of Title 70 of the Oklahoma Statutes. The State Superintendent shall notify the members of the committee of their selection and set a date for the committee's first meeting to be

held no later than seven (7) calendar days following selection of the committee. The committee shall elect a chair at its first meeting;

3. Within five (5) calendar days after the selection of the chair, the representatives of the parties involved in the dispute shall present to the members of the committee written comments on the issues related to the dispute. Each party shall furnish the other parties copies of documents presented to the committee. Within fifteen (15) calendar days of selection of the chair, the chair shall convene the committee for a meeting with the representatives of the parties. Within twenty (20) calendar days of selection of the chair, the committee shall present its findings and recommendations in writing to the board of education and other parties involved in the dispute;

4. If any party decides to reject the committee's recommendations the party must, within seven (7) days after receipt of the committee's written recommendation, request a meeting of the parties involved in the dispute. At the meeting the parties shall exchange written statements expressing their rationale for rejecting any recommendation and shall attempt to clarify differences;

5. At any time following issuance of the dispute resolution committee's findings and recommendations but prior to the initiation of judicial review, the committee shall provide necessary clarification to all parties at the request of any party. The committee shall provide written clarification within ten (10) calendar days of the request;

6. The local board shall file a copy of the written findings and recommendations, including any written clarifications, of the dispute resolution committee with the Office of the State Superintendent of Public Instruction. If the effort to resolve differences is successful, the parties shall forward a copy of their agreement to the State Superintendent of Public Instruction. If the effort to resolve differences is unsuccessful, the local board of education shall notify the State Superintendent of Public Instruction in writing of the parties' inability to agree;

7. Within fifteen (15) calendar days of the date of notification of the parties' inability to agree any party may appeal for judicial review of the committee's findings and recommendations in the district court of the county in which the administrative office of the school district is located. The review shall be conducted by the court without a jury and shall be confined to the written record consisting of the dispute resolution committee's findings and recommendations, written statements furnished to the dispute resolution committee by the parties, and written statements exchanged among the parties as required in this section. In cases of alleged irregularities in procedures required in this section,

the court may take testimony. The court, upon request or upon its own motion, shall hear oral argument and receive written briefs; and

8. The court shall accept the dispute resolution committee's findings and order the parties to comply with the dispute resolution committee's recommendations if the findings and recommendations are found to be valid and the proceedings are found to be free of prejudicial error to any party. Provided the court may enter an order overruling the committee's findings and recommendations, in whole or in part, and order its resolution of the dispute, if the court finds that the committee's findings, inferences, conclusions, or decisions are:

- a. in violation of constitutional provisions,
- b. in excess of the authority of the committee,
- c. made upon unlawful procedure,
- d. affected by other error of law,
- e. clearly erroneous in view of the reliable, material, probative, and competent evidence, including matters properly noticed by the committee, upon examination and consideration of the entire record as submitted but without otherwise substituting its judgment as to the weight of the evidence for that of the committee on question of fact,
- f. arbitrary or capricious, or
- g. lacking findings of fact upon issues essential to the decision.

The court's final order shall be issued no later than sixty (60) days following the date the appeal is filed.

B. An aggrieved party without a motion for a new trial may secure a review of any final judgment of a district court under this section by appeal to the Oklahoma Supreme Court. The appeal shall be taken in the manner and time provided by law for appeal to the Supreme Court from the district court in civil actions.

The local board representatives shall be presently serving on the board or employed by said board and no other person shall represent the board. Provided nothing herein shall prohibit the employment of legal counsel for consultative purposes by local board or organization.

§70-509.6. Meetings with representatives - Good-faith negotiations.

Once an organization has been recognized, the board of education or its duly designated representative must meet with the duly designated representative of the organization and within sixty (60) days shall complete an agreement outlining negotiation procedures. The board of education and the representatives of the organization must negotiate in good faith on wages, hours, fringe benefits and other terms and conditions of employment. One-time incentive pay and one-time retention incentive pay for returning a second year shall not be subject to a negotiated agreement. To negotiate in good faith shall mean both parties must be willing to consider proposals in an effort to find a mutually satisfactory basis for agreement and must be willing to discuss their respective contract proposals. If either party objects to the other's contract proposals, the objecting party must support its objections with rationale. Any allegation by either party that there has been a failure to comply with the provisions of this section shall be resolved through the dispute resolution procedure for resolving a unit determination dispute as set forth in subsection A of Section 509.2 of this title.

§70-509.7. Impasses - Procedure.

A procedure for resolving impasses will be developed by the board of education and the representatives of the organization. Said procedure shall include the actions set forth in this section and may include such other actions as are agreed to by both parties. Unless otherwise provided for by law, "days" means calendar days. Time limits set forth herein may be extended by mutual agreement of the parties.

A. If negotiations are not successfully concluded by the first day of school, impasse shall exist. At any earlier time, either party may declare impasse. Upon reaching of impasse, the items causing the impasse shall be referred to a three-member fact-finding committee. This committee shall consist of:

1. One member who shall be selected by the representatives of the organization within five (5) days after the reaching of impasse;
2. One member who shall be selected by the local board of education within five (5) days after the reaching of impasse; and

3. One member who shall serve as chairperson of the committee and shall be selected as follows:

- a. The State Board of Education shall appoint as fact-finders not less than twenty nor more than thirty persons to be placed on the State Superintendent's list of fact-finders. The appointees must reside in Oklahoma, must be neutral and unbiased and must be knowledgeable in the fields of school operations, school finance, personnel management, dispute resolution and hearing procedures. The appointees shall not currently be elected public officers or employees of a board of education or officers or employees of an organization of education employees. No person who is related within the second degree by consanguinity or affinity to an elected public officer, to an employee of the local board of education that is involved in the impasse, or to an employee of an organization of education employees shall be eligible to serve as a fact-finder.
- b. An appointee shall serve until such appointee resigns or is removed by the State Board of Education from the State Superintendent's list of fact-finders. An appointee must be removed immediately if he or she becomes an elected public officer or employee of a board of education or an officer or employee of an organization of education employees.
- c. Within ten (10) days of being notified that a fact-finder is needed, the State Superintendent of Public Instruction or designee shall provide the names of five potential fact-finders selected at random from the list of appointees who are available to serve as a member and the chairperson of the committee. The parties shall select the fact-finder from the five names within fifteen (15) days after receiving the list of fact-finders.
- d. It shall be the responsibility of the State Board of Education to establish rules, regulations, training, hearing procedures, and payment schedules to implement the provisions of this paragraph.

B. Within five (5) days after the selection of the chairperson, the representatives who have been negotiating for the board and for the organization shall meet to exchange written language on each item at impasse. The exchanged documents shall also be furnished by each party to the chairperson and other members of the committee.

C. The chairperson shall convene the committee for fact finding. This committee shall meet with the representatives of both parties. Within twenty (20) days after the chairperson is selected,

the committee shall present written recommendations to the local board and to the organization.

D. If either party decides it must reject one or more of the committee's recommendations, said party must, within seven (7) days after the committee has presented its recommendations, request a meeting of the representatives who have been negotiating for the board and for the organization. The parties shall meet within seven (7) days of the request, unless both parties deem it unnecessary. At such meeting, the representatives shall exchange written statements expressing each party's rationale for rejecting each recommendation found unacceptable and shall attempt to clarify any remaining differences. The representatives shall then resume good faith effort to resolve the remaining differences; provided, after fourteen (14) days after the exchange of the written statements, either party may discontinue such effort.

E. The local board shall file a copy of the fact-finding report with the office of the State Superintendent of Public Instruction. If the effort to resolve differences is successful, the parties shall draft a written agreement and present the agreement to both parties for ratification, and such agreement shall also be forwarded to the State Superintendent of Public Instruction. If the effort to resolve differences is unsuccessful, the local board of education shall forward to the State Superintendent of Public Instruction in writing its final disposition of the negotiations impasse process within thirty (30) days of the effective date of implementation. Laws 1971, c. 325, § 7; Laws 1986, c. 130, § 4, emerg. eff. April 14, 1986; Laws 1986, c. 293, § 2; Laws 1992, c. 102, § 1, eff. July 1, 1992; Laws 1994, c. 190, § 2, eff. July 1, 1994.

#### §70-509.8. Strikes illegal.

The procedure provided for herein for resolving impasses shall be the exclusive recourse of the organization. It shall be illegal for the organization to strike or threaten to strike as a means of resolving differences with the board of education. Any member of an organization engaging in a strike shall be denied the full amount of his wages during the period of such violation. If the organization or its members engage in a strike, then the organization shall cease to be recognized as representative of the unit and the school district shall be relieved of the duty to negotiate with such organization or its representatives.

Amended by Laws 1986, c. 130, § 5, emerg. eff. April 14, 1986.

#### §70-509.9. Discrimination prohibited - Certain acts prohibited.

No employee shall be discriminated against by the board of education, superintendent or any other administrative officer of a district or by any employee organization, its officers or any member thereof because of his exercise or nonexercise of rights under this

B. Educational program placement - The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in

the sending state or participation/placement in like programs in the sending state. Such programs shall include, but are not limited to:

2. Exit exams - States shall accept:

- a. exit or end-of-course exams required for graduation from the sending state,
- b. national norm-referenced achievement tests, or
- c. alternative testing in lieu of testing requirements for graduation in the receiving state.

In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her Senior year, then the provisions of subsection B of this article shall apply.

B. Transfers during Senior year - Should a military student transferring at the beginning or during his or her Senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsection A of this article and this subsection.

#### ARTICLE VIII. STATE COORDINATION

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education

The United States Department of Defense shall serve as an ex officio, nonvoting member of the executive committee;

6. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests;

7. Public notice shall be given by the Interstate Commission of all meetings, and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or

portion thereof, where it determines by two-thirds (2/3) vote that an open meeting would be likely to:

All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission;

9. The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall, insofar as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules; and

10. The Interstate Commission shall create a process that permits military officials, education officials and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act" of 1981 Act, Uniform Laws Annotated, Vol. 15, p. 1 (2000) as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate

Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the Legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

The provisions of this compact and the rules promulgated hereunder shall have standing as administrative rules.

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact or promulgated rules.

B. Default, technical assistance, suspension and termination.

If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's Legislature, and each of the member states;

5. The state which has been suspended or terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination;

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state; and

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and nonmember states.

2. The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement.

1. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The Interstate Commission may, by majority vote of the members, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

#### ARTICLE XV. MEMBER STATES, EFFECTIVE DATE AND AMENDMENT

Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of nonmember states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

#### ARTICLE XVI. WITHDRAWAL AND DISSOLUTION

A. Withdrawal.

1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided, that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1)

3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extends beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

B. Dissolution of compact.

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XVII. SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable and, if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE XVIII. BINDING EFFECT OF COMPACT AND OTHER LAWS

A. Other laws.

1. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this compact.

2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

B. Binding effect of the compact.

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

2. All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

3. In the event any provision of this compact exceeds the constitutional limits imposed on the Legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

Laws 1947, p. 513, § 1.

§70-821.2. Grant of powers - Public right and public benefit.

Any such independent school district is hereby authorized to acquire or construct within its corporate boundaries, one or more stadia, sport arenas or other recreational facilities or to build additions thereto or additions to existing stadia, sport arenas or other recreational facilities, including land and equipment therefor, and to own, maintain and operate, or to own and (in addition to any and all other uses to which this property may be placed and disposition which can be made of it) lease to, or cause to be maintained and operated by, a financially responsible operating company, corporation, or individual, experienced in similar types of business, or to own and lease to a responsible person, firm or corporation who shall construct, finance and operate one or more stadia, sport arenas or other recreational facilities, and when operated by the independent school district to charge fees, rent and tolls for the use of such facilities. The right of the independent school district to own, maintain, operate and cause to be operated such facilities and to fix and collect fees, rent, tolls and other revenue for the use of such facilities is hereby declared to be a public right and use and such right and facilities to constitute a public benefit.

Laws 1947, p. 513, § 2.

§70-821.3. Revenue bonds - Powers of districts - Provisions - Lien and charge on income - Restrictions on additional bonds - Approval.

(a) To provide for the acquisition or construction of such stadia, sport arenas or other recreational facilities thereto and/or additions to existing stadia, sport arenas or other recreational facilities, including land and equipment therefor, the governing body of any such independent school district is authorized to issue negotiable revenue bonds of the independent school district secured by a pledge of, and payable from, the net revenues of any one or more of such stadia, sport arenas or other recreational facilities, together with all future extensions or additions therefor or replacements thereof. If bonds are issued solely for acquirement or construction of additions to existing stadia, sport arenas or other recreational facilities, then such bonds may be payable from the net revenue of the entire project, including the original existing stadia, sport arenas or other existing recreational facilities, and additions thereto, together with all future extensions and additions thereto or replacements thereof. Within the discretion of the governing body of any such independent school district such bonds may be secured further by a trust indenture on such stadia, sport arenas or other recreational facilities. Whenever such governing body shall execute any character of trust agreement imposing duties on a corporate trustee in reference to the payment of the bonds or enforcement of any rights under the bonds, for convenience such instrument may be and in this act is sometimes referred to as the "Indenture". Any such independent school district is authorized to issue a separate and independent series of revenue bonds to provide for the acquirement or construction of each stadium, sport arena or other recreational facility or additions thereto, or additions to existing stadia, sport arenas or recreational facilities, including land and equipment therefor, or in the discretion of the governing body of the independent school district a single series of bonds may be issued to provide for the acquirement or construction of two or more stadia, sport arenas or other recreational facilities and/or additions referred to, including land and equipment therefor. No election shall be required for the issuance of said bonds.

Negotiable revenue bonds may also be issued by the governing body of any such independent school district for the purpose of refunding bonds issued under this section, which may be secured in the manner herein provided for original bonds. No election shall be had for the issuance of such refunding bonds.

(b). The revenue bonds hereby authorized shall contain substantially the following provisions:

"The holder hereof shall never have the right to demand payment of this obligation out of any funds raised or to be raised by taxation." No such bonds shall ever be a liability or debt of such

independent school district but solely a charge upon the pledged revenues.

(c). The expense of operation and maintenance of any such stadium, sport arena or other recreational facility shall always be a first lien and charge against the income thereof. So long as any of said bonds or any interest thereon remain outstanding, the independent school district shall charge or require the payment of fees, rent, tolls, and other revenue for the use of the facilities of any such stadium, sport arena or other recreational facility which shall be equal and uniform within classes defined by the governing body of such independent school district and which shall be at least sufficient to pay expenses of operation and maintenance and to pay the principal of and interest on the outstanding bonds as such principal matures and as such interest accrues, and to establish and maintain such reserve or reserves, if any, as may be prescribed in the resolution authorizing the bonds or in the Indenture.

(d). So long as any such revenue bonds are outstanding, no additional bonds of equal dignity shall be issued against the pledged revenues or the pledged revenues and properties, except to the extent and in the manner expressly permitted in the resolution which authorized such outstanding revenue bonds, or the Indenture.

(e). Such bonds, and proceedings incident to their issuance shall be submitted to and approved by the Attorney General of Oklahoma, in the manner and with the effect provided in Title 62, Oklahoma Statutes 1951, Sections 11, 13 and 14.  
Laws 1947, p. 514, § 3.

§70-821.4. Fees and charges - Maturity and interest - Redemption - Negotiability - Registration - Proceeds - Recitals - Exemption from taxation - Corporate trustee - Rights of bondholders - Depository.

The provisions set forth in this section shall be applicable to all bonds issued under authority of this act.

(a). It shall be the mandatory duty of the governing body of any independent school district to fix such fees, tolls, rent and other charges for use of the facilities of any such stadium, sport arena or other recreational facility and for additions thereto and for additions to existing stadium, sport arena or other recreational facility, in this act sometimes referred to as the "Project," as will yield revenues fully sufficient to operate and maintain such Project, pay the principal of and interest on the bonds when due, and to establish and maintain such reserve as may be prescribed in the resolution authorizing the bonds or in the Indenture securing them.

(b). The bonds shall mature serially or otherwise at such time or times, and shall bear interest at such rate or rates, as shall be prescribed in the resolution authorizing the bonds or in the

Indenture securing them; provided that the sale of the bonds shall be for cash at not less than par and accrued interest and shall be sold after competitive bidding to produce the maximum sale price at the lowest possible interest rate. The interest cost shall not exceed four percent (4%) per annum, computed on average maturities according to Standard Tables of Bond Values.

(c). The resolution authorizing, or the Indenture securing the bonds, shall prescribe the rights, if any, which the independent school district may have to redeem all or any part of said bonds prior to maturity, and the conditions under which and the prices not in excess of par and accrued interest at which they may be redeemable and the rights of the independent school district to redeem the bonds prior to scheduled maturity dates shall be limited to such provisions.

(d). All bonds issued hereunder shall have and are hereby declared to have all of the qualifications and incidents of negotiable instruments.

(e). The resolution authorizing, or the Indenture accruing any such bonds, may contain provisions that the bonds shall be registerable as to principal or as to both principal and interest.

(f). The proceeds of the bonds shall be used solely to pay the cost of the Project. There may be included in the cost of the Project for which bonds are to be issued reasonable allowance for legal and engineering services, interest during construction and for six (6) months after estimated date of completion of construction. Such proceeds shall be disbursed under such restrictions as may be provided in the bond resolution or Indenture, and there shall be and there is hereby created and granted a lien upon such monies, until so applied, in favor of the holders of the bonds or of any trustee provided for in respect to such bonds. If so provided in such resolution or Indenture in the event that proceeds of the bonds prove insufficient to pay the cost of the project additional bonds may be issued to the amount of the deficit and shall be deemed to be of the same issue and entitled to payment from the same fund without preference or priority of the bonds first issued. Any surplus remaining from bond proceeds after the cost of the project has been paid in full shall be used in retiring bonds.

(g). The resolution authorizing the bonds may provide that such bonds shall contain a recital that they are issued pursuant to this act.

(h). Any bond issued pursuant to the provisions of this act shall be exempt from taxation by the State of Oklahoma or by any county or municipal corporation, or other political subdivision therein.

(i). If so provided in the resolution authorizing the bonds the Indenture may be executed by and between such independent school district and a corporate trustee, which may be any trust company or

bank within or outside of the State of Oklahoma, having powers of a trust company.

(j). Either the resolution providing for the issuance of the bonds or such Indenture may contain such provisions for protecting or enforcing the rights of remedies of the bondholders as may be reasonable or proper and not in violation of law, including covenants setting forth the duties of the independent school district in relationship to the acquisition of properties and the construction, maintenance, operation or repair and insurance of the project and the custody, safeguarding and application of all monies received from the sale of the bonds and from the operation of the Projects.

(k). It shall be lawful for any bank or trust company in this state to act as depository for the proceeds of bonds or revenues derived from the operation of the Project and to furnish such indemnity bonds or to pledge such securities as may be required by the independent school district. Such Indenture or resolution may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual rights of action of the bondholders. In addition such bond resolution or Indenture may contain such other provisions as the governing body of such independent school district may deem reasonable and proper for the security of the bondholders including, but without limitation, covenants prescribing all happenings, or occurrences which constitute events of default and the terms and conditions upon which all or any of the bonds shall become or may be declared to be due before maturity, and as to the rights, liabilities, powers and duties arising from the breach by the independent school district of any of its duties or obligations.

(l). That any holder or holders of bonds issued hereunder, including a trustee or trustees for such holders, shall have the right in addition to all other rights by mandamus or other proceedings in any Court of competent jurisdiction to enforce his or their rights against the independent school district and its employees and against any Board of trustees which may be created to operate the Project, the agents and employees thereof, or any lessee of any such Project, including, but not limited to, the right to require the independent school district and such board to impose and collect sufficient income, tolls, fees, rents, charges and other revenues to carry out the agreements contained in the bond resolution or Indenture and to perform all agreements and covenants therein contained and duties arising therefrom, and in the event of default as defined in the resolution authorizing the bonds or in the Indenture, to apply for and obtain the appointment of a receiver for any properties involved. If such receiver be appointed, he may enter and take possession of the project and until the independent school district may no longer be in default or until relieved by the

Court retain possession of the properties involved, and collect and receive all revenues and tolls arising therefrom in the same manner as the independent school district itself might do and shall dispose of such monies and apply same in accordance with the obligations of the independent school district under the bond or resolution or Indenture and as the court may direct. Nothing in this act shall authorize any bondholder to require the independent school district to use any funds in the payment of the principal of, or interest on, such bonds except out of revenues pledged to their payment.

(m). The resolution authorizing, or the Indenture securing bonds issued under this act may contain provisions to the effect that so long as the revenues of the Project are pledged to the payment of bonds no fee admission or use can be given.

(n). The provisions contained in the resolution authorizing the bonds and in the Indenture and the applicable provisions of this act shall constitute an irrevocable contract between such independent school district and the holders of such bonds.

Laws 1947, p. 515, § 4.

#### §70-821.5. Board of Trustees.

During the time any such Project is encumbered by the pledge of its revenues, the resolution authorizing the bonds or the Indenture may vest its management and control in a Board of Trustees, to be named in such resolution or Indenture, consisting of three members, or maybe a corporation organized for such purpose. The compensation of the members of such board of trustees shall be fixed by such resolution or Indenture, but shall never exceed one percent (1%) of the gross receipts of such Project in any one (1) year. The terms of office of the members of such board of trustees, whether individuals, or the corporation referred to their powers and duties, and manner of exercising same the manner of the selection of their successors, and all matters pertaining to their duties and the organization of such board of trustees shall be specified in such resolution or Indenture. The board may be granted by the resolution or Indenture, and in that event shall have, all or any of the powers and authority, which could be exercised by the governing body of the independent school district, insofar as the management and operation of any such Project is concerned.

Laws 1947, p. 517, § 5.

In the discretion of the governing body of such independent school district (or within the discretion of the board of trustees, if the Project is under control of a board of trustees) and for such period of time as may be determined by such governing body or board of trustees, such Project may be operated by, or leased for operation to, a company, corporation, or individual, provided that the fees, rent and tolls or rates charged for admission or use of the Project shall be sufficient to yield in the aggregate money necessary to pay the reasonable operation and maintenance expenses, the annual consideration of rental, and a reasonable return to the lessee or operator. The charges and tolls or rates to be charged by such lessee or operator shall be under the control of the governing body of the independent school district or such board of trustees as the case may be. It shall be the duty of the Court to give such applications precedence over the other business of the Court and to consider and pass upon the application and any protest which may be filed thereto as speedily as possible. Notice of the hearing on each application shall be given by a notice published in a newspaper of general circulation in the independent school district that on a day named the board will ask the Court to hear its application and approve the bonds. Such notice shall inform all persons interested that they may file protests against the issuance of the bonds and be present at the hearing and contest the legality thereof. Such notice shall be published one time not less than ten (10) days prior to the date named for the hearing and the hearing may be adjourned from time to time in the discretion of the Court. B. No person shall enter into or solicit directly or through an agent a transaction with a student athlete if the person has, or

1. A collegiate athletic association as defined in the Student Athlete Name, Image and Likeness Act;
2. Any other sanctioning body; or
3. The institution of postsecondary education itself as a reasonable self-imposed disciplinary action taken by the institution to mitigate sanctions likely to be imposed by an organization as a result of the transaction or as a violation of the rules of the institution.

D. Any person who violates the provisions of this section shall be guilty of a misdemeanor and, upon conviction, shall be subject to a fine not less than One Thousand Dollars (\$1,000.00) and not more than Five Thousand Dollars (\$5,000.00), or by imprisonment not to exceed one (1) year, or by both such fine and imprisonment.

§70-822.3. Right of action for postsecondary institutions.

A. Each public and private institution of postsecondary education located in this state that participates or engages in

intercollegiate athletics shall have a right of action against any person who engages in any activity concerning student-athletes that results in:

1. The institution being penalized, disqualified, or suspended from participation in intercollegiate athletics by a national association for the promotion and regulation of intercollegiate athletics, by an athletic conference or other sanctioning body, or by reasonable self-imposed disciplinary action taken by the institution to mitigate sanctions likely to be imposed by the organizations as a result of the activity; or

2. The student-athlete permanently or temporarily losing athletic scholarship eligibility, the ability to participate on an intercollegiate athletic team, or the ability to participate in one or more intercollegiate sporting competitions as sanctioned by a national association for the promotion and regulation of intercollegiate athletics, by an athletic conference or other sanctioning body or by the institution itself as a reasonable self-imposed disciplinary action taken by the institution to mitigate sanctions likely to be imposed by the organizations as a result of engaging in the activity or as a violation of the rules of the institution.

B. An institution shall be entitled to recover all damages which are directly related to or which flow from and are reasonably related to the improper activity as described in this section and to any penalties, disqualifications and suspensions. Damages shall include, but are not limited to, loss of scholarships, loss of television revenue, loss of bowl revenue and legal and other fees associated with the investigation of the activity and the representation of the institution before the sanctioning organizations in connection with the investigation and resolution of the activity. If the institution is the prevailing party in its cause of action, it shall be entitled to an award of court costs, costs of litigation and reasonable attorney fees. The institution may request and the court may enter an injunction prohibiting any person found liable from having any further contact with the institution, its student-athletes and student-athletes who have expressed or might express an interest in attending the institution. The institution may also request and the court may enter an injunction prohibiting any person found liable from attending athletic contests, exhibitions, games or other events in which one or more student-athletes are participating.

C. The right of action and remedies under this section are in addition to all other rights of action which may be available to the institution.

§70-1210.229-2. Legislative findings and intent.

The Legislature finds that for the purpose of preventing drug and alcohol abuse among our young people, and for preventing or alleviating problems which lead to and are closely associated with drug and alcohol abuse, it is desirable that all Oklahoma school districts develop and implement a curriculum for drug and alcohol abuse prevention for all grade levels. Such curriculum may include training in life skills, such as problem-solving, responsibility, communication and decision-making skills, which enable young people to successfully resist social and other pressures to engage in activities which are destructive to their health and future. The Legislature encourages all school districts to adopt as a goal for the year 1990 the full implementation of drug and alcohol abuse prevention programs in their schools. In order to expand and enhance the ability of school districts to implement drug and alcohol prevention programs, it is the intent of the Legislature that local school districts participate in the federal Drug-Free Schools and Communities Act of 1986, 20 A.S.C., Section 4601 et seq. and the provisions of Public Law No. 101-647, Drug-Free School Zones.

In order to derive maximum benefit from their drug and alcohol prevention programs, it is further the intent of the Legislature that the school districts coordinate their efforts and activities with the Oklahoma Drug and Alcohol Abuse Policy Board, and with appropriate state and local drug and alcohol abuse, health and law enforcement agencies and programs within the community which provide drug education, prevention, treatment and rehabilitation.

It is further the intent of the Legislature to encourage school districts to establish programs concerning the danger and criminal consequences of the possession and/or use of firearms or other dangerous or deadly weapons in school zones.

b. Science not less than once during each grade span of three through five, six through nine and ten through twelve, and

c. United States History, with an emphasis on civics, not less than once during the grade span of nine through twelve.

2. Beginning with the 2017-2018 school year, the statewide student assessment system may include:

a. assessments in Reading and Writing in certain grades as determined by the Board, and

b. contingent upon the availability of funds, an additional nationally recognized college- and career-readiness assessment or assessments as recommended by the State Department of Education which will be administered to students in high school at no cost to the student.

F. 1. Beginning with students entering the ninth grade in the 2017-2018 school year, each student shall take the assessment or assessments included in the statewide student assessment system adopted by the Board pursuant to subsection A of this section in order to graduate from a public high school with a standard diploma. All students shall take the assessment or assessments prior to graduation, unless otherwise exempt by law.

2. Beginning with students entering the ninth grade in the 2017-2018 school year, each student, in addition to taking the assessment or assessments included in the statewide student assessment system adopted by the Board pursuant to subsection A of this section, shall meet any other high school graduation requirements adopted by the Board pursuant to Section 5 of Enrolled House Bill No. 3218 of the 2nd Session of the 55th Oklahoma

Legislature in order to graduate from a public high school with a standard diploma.

3. For students who start the ninth grade prior to or during the 2016-2017 school year, school districts shall adopt a plan that establishes the assessment or assessments those students are required to take in order to graduate from a public high school with a standard diploma. The plan may also include any or all of the other high school graduation requirements adopted by the Board pursuant to Section 5 of Enrolled House Bill No. 3218 of the 2nd Session of the 55th Oklahoma Legislature that those students will be required to meet in order to graduate from a public high school with a standard diploma.

4. The Board shall promulgate rules to ensure that students who transfer into an Oklahoma school district from out-of-state after the junior year of high school shall not be denied the opportunity to be awarded a standard diploma due to differing testing requirements.

G. In order to provide an indication of the levels of competency attained by the student in a permanent record for potential future employers and institutions of higher education, school districts shall report on the high school transcript of the student the highest-achieved score on the assessment or assessments included in the statewide student assessment system adopted by the Board pursuant to subsection A of this section and any business- and industry-recognized endorsements attained.

H. Students who do not perform at a proficiency level on assessments shall be remediated as established in the assessment requirements adopted by the Board pursuant to Section 5 of Enrolled House Bill No. 3218 of the 2nd Session of the 55th Oklahoma Legislature, subject to the availability of funding.

I. 1. All assessments required by this section shall measure academic competencies in correlation with the subject matter standards adopted by the Board pursuant to Sections 11-103.6 and 11-103.6a of this title and referred to as the Oklahoma Academic Standards. The State Board of Education shall evaluate the subject matter standards to ensure the competencies reflect high standards, are specific, well-defined, measurable, challenging, and will prepare elementary students for next-grade-level course work and secondary students for postsecondary studies at institutions of higher education or technology center schools without the need for remediation. All subject matter standards shall reflect the goals as set forth in Section 11-103.6 of this title and of improving the state average ACT score.

2. The State Department of Education shall annually evaluate the results of the assessments. The State Board of Education shall ensure that preliminary results for all statewide assessments are reported to districts no later than June 20 of each year and are

presented in a manner that yields detailed, diagnostic information for the purpose of guiding instruction and student remediation. As improvements are made to the assessments required by this section, the Board shall seek to increase the depth of knowledge assessed for each subject. The State Board of Education shall seek to ensure that data yielded from the assessments required in this section are utilized at the school district level to inform instruction, professional development, school improvement and remediation for students.

3. The Commission for Educational Quality and Accountability shall determine the cut scores for the performance levels on all statewide assessments. The Commission shall conduct an ongoing review to compare the statewide assessment content and performance descriptors with those of other states. Upon receipt of the review, the Commission may adjust the cut scores as necessary.

4. The State Board of Education, for the purposes of conducting reliability and validity studies, monitoring contractor adherence to professionally accepted testing standards, and providing recommendations for testing program improvement, shall retain the services of an established, independent agency or organization that is nationally recognized for its technical expertise in educational testing but is not engaged in the development of aptitude or achievement tests for elementary or secondary level grades. These national assessment experts shall annually conduct studies of the reliability and validity of the statewide assessments administered pursuant to this section. Validity studies shall include studies of decision validity and concurrent validity.

J. 1. The State Board of Education shall promulgate rules setting the assessment window dates for each statewide assessment so that the assessments are administered according to recommended testing protocols, and so that the assessment results are reported back to school districts in a timely manner. The vendor shall provide a final electronic data file of all school site, school district, and state results to the State Department of Education and the Office of Educational Quality and Accountability prior to August 20 of each year. The Department shall forward the final data files for each school district and each school site in that district to the school district. The Board shall ensure the contract with the vendor includes a provision that the vendor report assessment results directly to the Office of Educational Quality and Accountability at the same time it is reported to the Board.

2. State, district, and site level results of all assessments required in this section shall be disaggregated by gender, race, ethnicity, disability status, migrant status, English proficiency, and status as economically disadvantaged, except that such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically

reliable information or the results would reveal personally identifiable information about an individual student. Each school site shall notify the student's parents of the school's performance levels in the Oklahoma School Testing Program as reported in the Oklahoma Educational Indicators Program at the end of each school year.

K. The State Board of Education shall be responsible for the field-testing and validation of the statewide assessment system required in subsection A of this section.

L. The State Board of Education shall develop, administer, and incorporate as a part of the Oklahoma School Testing Program, other assessment programs or procedures, including appropriate accommodations for the assessment of students with disabilities as required by the Individuals with Disabilities Education Act (IDEA), 20 U.S.C., Section 1400 et seq.

The State Board of Education shall promulgate rules providing for limited exemptions from the mandated tests administered pursuant

to the provisions of the Oklahoma School Testing Program Act for students facing exceptional emergency circumstances which prevent the student from being assessed during the testing window. For purposes of this section, exceptional emergency circumstance shall be defined to include situations involving serious accidents or medical emergency events involving the student, a parent or guardian of the student or a sibling of the student.

C. Nothing in this section shall be construed to prevent a district from implementing the ICAP for students in earlier grades.

D. ICAPs for students with disabilities, as defined in the Individuals with Disabilities Education Act (IDEA), P.L. No. 105-17, shall take into account and work in cooperation with the student's

2. Is free to administer;
3. Requires minimal training and support of district or charter school faculty and staff to administer the test; and

§70-1210.508B. Legislative findings – Purpose.

A. The Legislature finds that it is essential for children in the public schools to read early and well in elementary school. The Legislature further finds that clear and visible goals, assessments to determine the reading level at each elementary school, use of a scientifically based and researched methodology in reading instruction in addition to regular and periodic measurements of elementary school reading improvement, and accountability in each level of the educational system will result in a significant increase in the number of children reading at or above grade level.

B. The purpose of the Strong Readers Act is to ensure that progression from one grade to another is determined, in part, upon proficiency in reading, that school district board of education policies facilitate reading instruction and intervention services to address student reading needs, and that each student and his or her parent or legal guardian be informed of that student’s reading progress.

C. Each public school district in this state shall ensure that all students receive a well-rounded education that is focused on building deep foundations in reading, writing, and mathematics. The State Board of Education shall encourage school districts to integrate the teaching of the other curricular areas in the subject matter standards adopted by the Board with the instruction of reading, writing, and mathematics. All teachers of reading in the public schools in this state in kindergarten through third grade shall incorporate into instruction the five elements of reading instruction which are phonological awareness, decoding, fluency, vocabulary, and comprehension.

D. It is the intent of the Legislature that beginning with the 2025-2026 school year, school districts and charter schools in this state shall be prohibited from using the three-cueing system model of teaching students to read. For the purposes of this section, the "three-cueing system" means any model of teaching students to read based on meaning, structure, syntax, and visual cues, which may also be known as meaning, structure, and visual (MSV), balanced literacy, or whole language.

§70-1210.508C. Reading screenings – Exemptions – Reading programs.

A. To identify students who have a reading deficiency including identifying students with characteristics of dyslexia, each student enrolled in kindergarten and first, second, and third grade in a public school in this state shall be screened at the beginning, middle, and end of each school year for reading skills including, but not limited to, phonological awareness, decoding, fluency, vocabulary, and comprehension. A screening instrument approved by the State Board of Education, in consultation with the Commission for Educational Quality and Accountability and the Secretary of Education, shall be utilized for the purposes of this section. In determining which screening instrument to approve, the State Board of Education, the Commission for Educational Quality and Accountability, and the Secretary of Education shall take into consideration at a minimum the following factors:

1. The time required to conduct the screening instrument with the intention of minimizing the impact on instructional time;

2. The timeliness in reporting screening instrument results to teachers, administrators, and parents and legal guardians of students; and

3. The integration of the screening instrument into reading curriculum.

B. Beginning in the 2025-2026 school year, the State Board of Education shall approve no fewer than three (3) screening instruments for use at the beginning, middle, and end of the school year for monitoring of progress and for measurement of reading skills as required in subsection A of this section. The screening instruments shall meet the following criteria:

1. Assess for phonological awareness, decoding, fluency, vocabulary, and comprehension;

2. Document the validity and reliability of each assessment;

3. Can be used for identifying students who are at risk for reading deficiency and progress monitoring throughout the school year;

4. Can be used to assess students with disabilities and English language learners; and

5. Accompanied by a data management system that provides profiles of students, class, grade level, and school building. The profiles shall identify each student's instructional point of need and reading achievement level. The State Board shall also determine other comparable reading assessments for diagnostic purposes to be used for students at risk of reading failure.

C. 1. Exemptions to the screening requirements of this section may be provided to students who have documented evidence that they meet at least one of the following criteria as related to the provision of classroom instruction:

a. the student participates in the Oklahoma Alternate Assessment Program (OAAP) and is taught using alternate methods,

b. the student's primary expressive or receptive communication is sign language,

c. the student's primary form of written or read text is Braille, or

d. the student's primary expressive or receptive language is not English, the student is identified as an English learner using a state-approved identification assessment, and the student has had less than one (1) school year of instruction in an English-learner program.

2. A public school that grants an exemption pursuant to paragraph 1 of this subsection shall provide ongoing evidence of student progression toward English language acquisition with the same frequency as administration of screening assessments. Evidence may include, but not be limited to, student progression toward OAAP

reading essential elements, proficiency in sign language and reading comprehension, and proficiency in Braille and reading comprehension.

D. 1. Students who are administered a screening instrument pursuant to subsection A of this section and are found not to be meeting grade-level targets shall be provided a program of reading instruction designed to enable students to acquire the appropriate grade-level reading skills. The program of reading instruction shall be based on scientific reading research and align with the subject matter standards adopted by the State Board of Education. A program of reading instruction shall include:

- a. sufficient additional in-school instructional time for the acquisition of phonological awareness, decoding, fluency, vocabulary, and comprehension,
- b. if necessary and if funding is available, tutorial instruction after regular school hours, on Saturdays, and during summer; however, such instruction may not be counted toward the one-hundred-eighty-day or one-thousand-eighty-hour school year required in Section 1-109 of this title,
- c. assessments identified for diagnostic purposes and periodic monitoring to measure the acquisition of reading skills including, but not limited to, phonological awareness, decoding, fluency, vocabulary, and comprehension, as identified in the student's program of reading instruction,
- d. high-quality instructional materials grounded in scientifically based reading research, and
- e. a means of providing every family of a student in prekindergarten, kindergarten, and first, second, and third grade access to free online evidence-based literacy instruction resources to support the student's literacy development at home.

2. A student enrolled in kindergarten or first, second, or third grade who exhibits a deficiency in reading at any time based on the screening instrument administered pursuant to subsection A of this section shall receive an individual reading intervention plan no later than thirty (30) days after the identification of the deficiency in reading. The reading intervention plan shall be provided in addition to core reading instruction that is provided to all students. The reading intervention plan shall:

- a. describe the research-based reading intervention services the student will receive to remedy the deficiency in reading,
- b. provide explicit and systematic instruction in phonological awareness, decoding, fluency, vocabulary, and comprehension, as applicable,

- c. monitor the reading progress of each student's reading skills throughout the school year and adjust instruction according to the student's needs, and
- d. continue until the student is determined to be meeting grade-level targets in reading based on screening instruments administered pursuant to subsection A of this section or assessments identified for diagnostic purposes and periodic monitoring pursuant to subparagraph c of paragraph 1 of this subsection.

3. The reading intervention plan for each student identified with a deficiency in reading shall be developed by a Student Reading Proficiency Team and shall include supplemental instructional services and supports. Each team shall be composed of:

- a. the parent or legal guardian of the student,
- b. the teacher assigned to the student who had responsibility for reading instruction in that academic year,
- c. a teacher who is responsible for reading instruction and is assigned to teach in the next grade level of the student, and
- d. a certified reading specialist, if one is available.

4. A school district shall notify the parent or legal guardian of any student in kindergarten or first, second, or third grade who exhibits a deficiency in reading at any time based on the screening instrument administered pursuant to subsection A of this section. The notification shall occur no later than thirty (30) days after the identification of the deficiency in reading.

E. 1. Every school district shall adopt and implement a district strong readers plan which has had input from school administrators, teachers, and parents and legal guardians and if possible a reading specialist, and which shall be submitted electronically to and approved by the State Board of Education. The plan shall be updated annually. School districts shall not be required to electronically submit the annual updates to the Board if the last plan submitted to the Board was approved and expenditures for the program include only expenses relating to individual and small group tutoring, purchase of and training in the use of screening and assessment measures, summer school programs, and Saturday school programs. If any expenditure for the program is deleted or changed or any other type of expenditure for the program is implemented, the school district shall be required to submit the latest annual update to the Board for approval. The district strong readers plan shall include a plan for each site which includes an analysis of the data provided by the Oklahoma School Testing Program and other reading assessments utilized as required in this section, and which outlines how each school site will comply with the provisions of the Strong Readers Act.

2. The State Board of Education shall adopt rules for the implementation and evaluation of the provisions of the Strong Readers Act. The evaluation shall include, but not be limited to, an analysis of the data required in subsection L of this section.

F. 1. Any first-grade, second-grade, or third-grade student who demonstrates proficiency in reading through a grade-level appropriate screening instrument approved pursuant to subsection B of this section shall not require a program of reading instruction or an individual reading intervention plan. After a student has demonstrated proficiency through a screening instrument, the district shall provide notification to the parent or legal guardian of the student that he or she has satisfied the requirements of the Strong Readers Act. The district shall continue to monitor the student in the next successive grade level to ensure he or she maintains proficiency.

2. Beginning with the 2025-2026 school year, if a third-grade student is identified at any point of the academic year as having a significant reading deficiency, which shall be defined as not meeting grade-level targets on a screening instrument administered pursuant to subsection A of this section, the district shall provide the student with intensive intervention services for the appropriate amount of the instructional day consistent with the individual reading intervention plan developed pursuant to paragraph 2 of subsection D of this section and as determined by the Student Reading Proficiency Team. Intensive intervention services shall continue until the student demonstrates proficiency at his or her grade level based on a screening instrument administered pursuant to subsection A of this section.

G. Each school district shall annually report in an electronic format to the State Department of Education, the Office of Educational Quality and Accountability, and the Secretary of Education the number of students in kindergarten through third grade per grade level who exhibit grade-level reading proficiency, the number of students per grade level who received intensive intervention services pursuant to paragraph 2 of subsection F of this section, the number of students per grade level who attended a summer academy as provided for in Section 1210.508E of this title, the number of students per grade level who exhibited improved reading proficiency after completion of intensive intervention services, and the number of students per grade level who are still in need of intensive intervention services. The State Department of Education shall publicly report the aggregate and district-specific numbers submitted pursuant to this subsection on its website and shall provide electronic copies of the report to the Governor, Secretary of Education, President Pro Tempore of the Senate, Speaker of the House of Representatives, and to the respective chairs of the

committees with responsibility for common education policy in each legislative chamber.

H. The parent of any student who is found to have a reading deficiency and is not meeting grade-level reading targets and has been provided a program of reading instruction as provided for in paragraph 1 of subsection D of this section shall be notified in writing of the following:

1. That the student has been identified as having a substantial deficiency in reading;

2. A description of the current services that are provided to the student pursuant to subsection D of this section;

3. A description of the proposed intensive intervention services and supports that will be provided to the student that are designed to remediate the identified area of reading deficiency as provided for in paragraph 2 of subsection F of this section;

4. That a student who is promoted to the fourth grade shall receive supplemental intensive intervention services;

5. Strategies for parents to use in helping their child succeed in reading proficiency; and

6. The grade-level performance scores of the student.

A. The Commission for Educational Quality and Accountability shall establish an Oklahoma Educational Indicators Program. The purpose of the Program shall be to develop and implement a system of measures whereby the performance of public schools and school districts is assessed and reported without undue reliance upon any single type of indicator, and whereby the public, including students and parents, may be made aware of the proper meaning and use of any tests administered under the Oklahoma School Testing Program Act,

relative accomplishments of the public schools, and of progress being achieved. The Commission shall involve representatives of school teachers and of school administrators in the development of the Program. The Program shall be so designed that use of standardized definitions and measures and opportunities for coordination with national reports, including those of the National Assessment of Educational Progress, are maximized.

B. The Oklahoma Educational Indicators Program shall present information for comparisons of graduation rates, dropout rates, pupil-teacher ratios, student enrollment gain and loss rates, and test results in the contexts of socioeconomic status and the finances of school districts. Information shall be provided individually for all public school sites and school districts in a format that facilitates comparisons. As necessary data become available, comparisons shall also be provided individually for all schools and school districts on a historical basis. Reports of all tests administered pursuant to the Oklahoma School Testing Program Act shall be a part of the Oklahoma Educational Indicators Program and shall be provided for each grade and each test subject or set of competencies. Test results for students enrolled in Internet-based courses, including regularly enrolled and alternative education students, shall be disaggregated and reported. The Commission for Educational Quality and Accountability shall seek to develop and incorporate additional indicators of comparative standing and accomplishment.

C. Additionally, the Commission for Educational Quality and Accountability, with the cooperation of the State Department of Education, the Oklahoma State Regents for Higher Education, and the State Board of Career and Technology Education, shall develop procedures for obtaining and reporting data to the high schools and to the general public regarding the performance of each high school's graduates in Oklahoma's institutions of higher education and in postsecondary vocational-technical education. The Commission for Educational Quality and Accountability shall include such data in the report of the Oklahoma Educational Indicators Program.

D. By February 1 of each year the Commission for Educational Quality and Accountability shall publish:

1. A summary report to the people and Legislature of Oklahoma of the information provided by the Oklahoma Educational Indicators Program; and

2. State, district, and site level reports which shall include the percentage of students who perform at the various levels on the tests required by the Oklahoma State Testing Program.

Immediately following the publication of the reports required in this subsection each year, all data gathered pursuant to the Oklahoma Educational Indicators Program shall be made available for public inspection at the Office of Educational Quality and

Accountability. The confidentiality of individual student records shall be preserved as required by law.

B. The Commission for Educational Quality and Accountability shall have the authority to set cut scores using any method which the State Board of Education was authorized to use in setting cut scores prior to July 1, 2013.

C. The performance levels shall be set by a method that indicates students are ready for the next grade, course, or level of education, as applicable. The Commission for Educational Quality and Accountability shall establish panels to review and revise the performance level descriptors for each subject and grade level. The Commission shall ensure that the assessments developed and administered by the State Board of Education pursuant to the Oklahoma School Testing Program Act in grades three through eight and at the secondary level are vertically aligned by content across grade levels to ensure consistency, continuity, alignment and clarity. The Commission shall adopt performance levels that are labeled and defined as follows:

1. Advanced, which shall indicate that students demonstrate superior performance on challenging subject matter;

2. Proficient, which shall indicate that students demonstrate mastery over challenging grade-level subject matter, can analyze and apply such knowledge to real-world situations, that students are ready for the next grade, course, or level of education and that students are on track to be ready for college or career;

3. Basic, which shall indicate that students demonstrate partial mastery of the essential knowledge and skills that are foundational for proficient work at their grade level or course and that students are not on track to be ready for college or career; and

The State Board of Education shall establish a system of recognition, rewards, interventions and technical assistance, as required by state law and the Elementary and Secondary Education Act of 1965 (ESEA) as reauthorized and amended by P.L. No. 114-95, also known as the Every Student Succeeds Act (ESSA).

A school that is identified as in need of improvement by the State Board of Education pursuant to this section, because of failure to meet either an academic performance target or an attendance or graduation performance target, or both, and is identified as in need of improvement pursuant to the Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized and amended by P.L. No. 114-95, also known as the Every Student Succeeds Act (ESSA), shall utilize the assistance of a school support team or other similar team formed by the State Department of Education to provide support for schools in need of improvement, subject to school support team capacity. The school support team shall review and analyze all facets of operation of the school including the design and operation of the instructional program. The school support team shall assist the school in:

A. Whenever the State Board of Education determines that an elementary school district, as defined in Section 5-103 of Title 70 of the Oklahoma Statutes, has failed to meet financial requirements for school districts or accreditation standards which negatively affects education or could result in the elementary school district not being able to operate for the remainder of the year, the Board may issue an administrative order placing the elementary school district under full state intervention. Prior to an order for full state intervention being issued by the Board, the State Department of Education shall notify the elementary school district that full state intervention is likely. The elementary school district shall have the opportunity to appear before the State Board of Education by filing a request within fifteen (15) days of receipt of the notice. At the meeting, the elementary school district administration, school patrons, and board of education members shall have an opportunity to provide information to the Board. A school district board of education with a school identified as being among the schools in the state that are in need of improvement shall implement a locally developed, evidence-based intervention model for the school site determined by the Board to be low performing

B. 1. Consistent with 20 U.S.C., Section 6301 et seq., for schools that are identified for school improvement by the Board for four (4) consecutive years, the district board of education shall seek support from the State Department of Education. Such support may include academic intervention, professional development, restructuring of the governance arrangement of the school or any other plan that is reasonably calculated to improve student academic achievement in the school. State support plans shall be designed to provide a substantial assurance of enabling the school to appropriately serve all students. Section 6301 et seq., the school continues to be identified by the Board as low performing, the Board may exercise the option of assuming control of the school as provided for in this subsection.

2. If the Board assumes control of a school, the Board shall retain all funds that otherwise would have been allocated to the school district based on the average daily membership of the school which shall be used to operate the school.

C. 1. A district board of education for a district with an average daily membership of more than 30,000 which implements an alternative governance arrangement as provided for in this section may utilize the following procedures, upon approval of the district board and concurrence of the executive committee of the appropriate local bargaining unit:

- a. any teacher not retained at the school site shall be given status as a full-time substitute teacher within the school district for a period of not to exceed two (2) years,
- b. if the teacher is not offered a contract teaching position at a school in the district within the two-year period specified in subparagraph a of this

paragraph, the district board shall be authorized to not reemploy the teacher, and

- c. the district board shall designate trained, certified, instructional staff to provide teacher support, development and evaluation, which may include certified personnel other than administrators.

2. Any actions taken pursuant to this subsection shall not be subject to the Teacher Due Process Act of 1990. The decision by the district board for renewal or nonrenewal shall be final.

3. For purposes of this subsection, a full-time substitute teacher shall perform the duties assigned by the district superintendent and shall continue to receive the same salary, benefits and step increases that the teacher would otherwise be entitled to for the time period the teacher serves as a full-time substitute.

D. 1. Each school district subject to the provisions of subsection B of this section shall submit a plan for compliance with this section to the State Department of Education, in a manner prescribed by the Department.

2. The State Department of Education shall annually submit a report of the district plans received as provided in paragraph 1 of this subsection to the members of the Senate and House Education Committees.

No. 114-95, also known as the Every Student Succeeds Act (ESSA), and any related federal regulations.

B. The annual report as required pursuant to subsection A of this section shall identify school sites as having one of the following grades for each indicator, separately, and by a single overview grade of all indicators, defined according to rules of the State Board of Education:

1. "A" means schools making excellent progress;
2. "B" means schools making above average progress;

3. "C" means schools making satisfactory progress;
4. "D" means schools making less than satisfactory progress;

and

5. "F" means schools failing to make adequate progress.

C. Each school that has students who are tested and included in the school grading system as provided for in this section shall receive a school grade, except as follows:

1. A school shall not receive a school grade if the number of students tested and included in the school grading system is less than the minimum sample size necessary for statistical reliability and prevention of the unlawful release of personally identifiable student data. The State Board of Education is directed to establish the lowest minimum sample size necessary to meet the requirements of this paragraph; and

2. The academic performance of students who are enrolled full-time in an online program that is offered by a school district or charter school that is not the district of residence or is not located in the district of residence of the student shall be reported separately by the school district or charter school and shall not be included when determining the grade of the school site or charter school.

D. The State Board of Education may adopt alternate systems of accountability for statewide virtual charter schools, alternative education programs as defined in Section 1210.568 of this title, and schools serving only grades prekindergarten or kindergarten through two.

E. The grade of a school shall be based on a multimeasures approach to accountability in accordance with the Elementary and Secondary Education Act of 1965 (ESEA) as reauthorized by P.L. No. 114-95, also known as the Every Student Succeeds Act (ESSA) and any federal regulations that include, but are not limited to, the following indicators:

For purposes of this section postsecondary opportunities shall include Advanced Placement, International Baccalaureate, dual and concurrent enrollment, internships, mentorships and apprenticeships, and industry certifications. The Board shall adopt a time line for moving from completion of such opportunities to crediting achievement of such opportunities.

I. The annual report shall identify the performance of each school as having improved, remained the same, or declined. This school improvement rating shall be based on a comparison of the student and school performance data of the current year to the previous year data.

J. The State Department of Education shall annually develop a school site report card to be delivered to parents throughout each school district. The report card shall be in accordance with the requirements of the Elementary and Secondary Education Act of 1965 (ESEA), as reauthorized and amended by P.L. No. 114-95, also known as the Every Student Succeeds Act (ESSA) and includes the grade for the school, information regarding school improvement, an explanation of school performance, and indicators of return on investment. The report card for each school site shall be published annually by the Department on its website, and every school district shall provide the school site report card to the parent or guardian of each student enrolled in the school site. In order to provide information regarding school performance for school report cards issued during the 2016-2017 and 2017-2018 school year, the Department shall include an explanation of the changes to the statewide system of student assessments as required in Section 1210.508 of this title and how the transition in assessments may impact school performance. The Department shall issue school report cards using the 2016-2017 school year assessment data that is available.

- b. physically blocking or using threats of violence to prevent any person from attending, listening to, viewing or otherwise participating in an expressive

activity. Conduct that "materially disrupts" shall not include conduct that is protected under the First Amendment to the United States Constitution or Section 22 of Article 2 of the Oklahoma Constitution. Such protected conduct includes but is not limited to lawful protests in the outdoor areas of campus generally accessible to the members of the public, except during times when those areas have been reserved in advance for other events, or minor, brief or fleeting nonviolent disruptions of events that are isolated and short in duration;

C. 1. The outdoor areas of campuses of public institutions of higher education in this state shall be deemed public forums for the campus community, and public institutions of higher education shall not create "free speech zones" or other designated areas of campus outside of which expressive activities are prohibited. Public institutions of higher education may maintain and enforce reasonable time, place and manner restrictions narrowly tailored in service of a significant institutional interest only when such restrictions employ clear, published, content- and viewpoint-neutral criteria and provide for ample alternative means of expression. Any such restrictions shall allow for members of the campus community to spontaneously and contemporaneously assemble and distribute literature.

2. Nothing in this subsection shall be interpreted as limiting the right of student expression elsewhere on campus.

D. 1. Any person who wishes to engage in noncommercial expressive activity on campus shall be permitted to do so freely, as long as the person's conduct is not unlawful and does not materially and substantially disrupt the functioning of the public institutions of higher education, subject only to the requirements of subsection C of this section.

2. Nothing in this subsection shall prohibit public institutions of higher education from maintaining and enforcing reasonable time, place and manner restrictions that are narrowly tailored to serve a significant institutional interest only when such restrictions employ clear, published, content- and viewpoint-neutral criteria. Any such restrictions shall allow for members of the campus community to spontaneously and contemporaneously assemble, speak and distribute literature.

3. Nothing in this subsection shall be interpreted as preventing public institutions of higher education from prohibiting, limiting or restricting expression that the First Amendment does not protect or prohibiting harassment as defined by this section.

4. Nothing in this section shall enable individuals to engage in conduct that intentionally, materially and substantially disrupts another person's expressive activity if that activity is occurring in a campus space reserved for that activity under the exclusive use or control of a particular group.

E. Public institutions of higher education shall make public in their handbooks, on their websites and through their orientation programs for students the policies, regulations and expectations of students regarding free expression on campus consistent with this section.

F. Public institutions of higher education shall develop materials, programs and procedures to ensure that those persons who have responsibility for discipline or education of students, including but not limited to administrators, campus police officers, residence life officials and professors, understand the policies, regulations and duties of public institutions of higher education regarding free expression on campus consistent with this section.

G. 1. Each public institution of higher education shall publicly post on its website, as well as submit to the Governor, the Legislature, and the Chancellor of The Oklahoma State System of Higher Education annually by December 31, a report that details the course of action implemented to be in compliance with the requirements of this section. A report shall also be given in the instance of any changes or updates to the chosen course of action. The information required in the report shall be:

- a. accessible from the institution's website home page by use of not more than three links,
- b. searchable by key words and phrases, and

- c. accessible to the public without requiring registration or use of a user name, password or another user identification.
- 2. The report shall include:
  - a. a description of any barriers to or incidents of disruption of free expression occurring on campus, including but not limited to attempts to block or prohibit speakers and investigations into students or student organizations for their speech. The description shall include the nature of each barrier or incident, as well as what disciplinary action, if any, was taken against members of the campus community determined to be responsible for those specific barriers or incidents involving students without revealing those students' personally identifiable information, and
  - b. any other information each public institution of higher education deems valuable for the public to evaluate whether free expression rights for all members of the campus community have been equally protected and enforced consistent with this act.

3. If a public institution of higher education is sued for an alleged violation of First Amendment rights, a supplementary report with a copy of the complaint, or any amended complaint, shall be submitted to the Governor and the Legislature within thirty (30) days.

H. Any person or student organization aggrieved by a violation of this section may bring an action against the public institution of higher education and its employees acting in their official capacities responsible for the violation and seek appropriate relief, including but not limited to injunctive relief, monetary damages, reasonable attorneys' fees and court costs. Any person or student organization aggrieved by a violation of this section may assert such violation as a defense or counter claim in any disciplinary action or in any civil or administrative proceedings brought against such student or student organization. Nothing in this subsection shall be interpreted to limit any other remedies available to any person or student organization.

I. A person shall be required to bring suit for violation of this section no later than one year after the day the cause of action occurs. For purposes of calculating the one-year limitation period, each day that the violation persists and each day that a policy in violation of this section remains in effect shall constitute a new day that the cause of action has occurred.

J. If any provision of this section or any application of such provision to any person or circumstance is held to be unconstitutional, the remainder of the section and the application

of the provision to any other person or circumstance shall not be affected.

§70-2127. Southern Regional Education Compact.

The Southern Regional Educational Compact is hereby entered into by this state with all other states legally joining therein in accordance with its terms in the form substantially as follows:

THE REGIONAL COMPACT

(As amended)

WHEREAS, the states who are parties hereto have during the past several years conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several states who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College, which proposal, because of the present financial condition of the institution, has been approved by the said states who are parties hereto; and

WHEREAS, the said states desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities;

NOW, THEREFORE, in consideration of the mutual agreements, covenants and obligations assumed by the respective states who are parties hereto (hereinafter referred to as "states"), the said several states do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting states which, for the purposes of this compact, shall

constitute an area for regional education supported by public funds derived from taxation by the constituent states and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions for the benefit of citizens of the respective states residing within the region so established as may be determined from time to time in accordance with the terms and provisions of this compact.

The states do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "Board"), the members of which Board shall consist of the Governor of each state, ex officio, and three (3) additional citizens of each state to be appointed by the Governor thereof, at least one (1) of whom shall be selected from the field of education. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State, but the members of the Board appointed by the Governor shall hold office for a period of four (4) years except that in the original appointments one (1) Board member so appointed by the Governor shall be designated at the time of his appointment to serve an initial term of two (2) years, one (1) Board member to serve an initial term of three (3) years, and the remaining Board member to serve the full term of four (4) years, but thereafter the successor of each appointed Board member shall serve the full term of four (4) years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this compact to govern its own actions in the performance of the duties delegated to it including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory state, and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the states from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the state, of such character and type and for such educational purposes, professional, technological, scientific,

literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the states and to all properties and facilities used in connection therewith shall be vested in said Board as the agency of and for the use and benefit of the said states and the citizens thereof, and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative acts of the states authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the Board shall have the power to enter into such agreements or arrangements with any of the states and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective states residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said states.

Any two (2) or more states who are parties of this compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such states and to be controlled exclusively by the members of the Board representing such states provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each state agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the states under the terms of this compact, the contribution of each state at all times to be in the proportion that its population bears to the total combined population of the states who are parties hereto as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

This compact shall not take effect or be binding upon any state unless and until it shall be approved by proper legislative action of as many as six (6) or more of the states whose Governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more states shall have given legislative approval to this compact within said eighteen (18)

months' period, it shall be and become binding upon such six (6) or more states sixty (60) days after the date of legislative approval by the sixth state and the Governors of such six (6) or more states shall forthwith name the members of the Board from their states as hereinabove set out, and the Board shall then meet on call of the Governor of any state approving this compact, at which time the Board shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other states whose names are subscribed hereto shall thereafter become parties hereto upon approval of this compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any state whose constitution may require amendment in order to permit legislative approval of the compact, such state or states shall become parties hereto upon approval of this compact by legislative action within seven (7) years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the states and provided further that any state may withdraw from this compact if such withdrawal is approved by its Legislature, such withdrawal to become effective two (2) years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing state from its obligations hereunder accruing up to the effective date of such withdrawal. Any state so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or to any of the funds of the Board held under the terms of this compact.

If any state shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said state as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting state, its members on the Board and its citizens shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one (1) year immediately following the date of such default this compact may be terminated with respect to such defaulting state by an affirmative vote of three-fourths (3/4) of the members of the Board (exclusive of the members representing the state in default), from and after which time such state shall cease to be a party to this compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of this compact, but such termination shall in no manner release such defaulting state from

any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining states thereunder.

§70-2166. Televised instruction system - Cooperative agreements - Revolving fund - Appropriation.

The Oklahoma State Regents for Higher Education may establish and maintain as a part of the state system of higher education a system of televised instruction designed primarily for persons living in industrial communities remote from campuses of colleges and universities and for the interchange of classes and teachers between campuses of the state's public and private colleges and

universities; and may enter into cooperative agreements with federal agencies, state agencies and public and private educational institutions and receive, use and administer grants, contributions and donations of funds and property for such purpose. All such funds shall be deposited in a revolving fund, which is hereby created, to be known as the Oklahoma State Regents for Higher Education Televised Instruction Revolving Fund, which revolving fund shall be nonfiscal and be used and expended by the State Regents for the aforesaid purpose. Up to One Million Dollars (\$1,000,000.00) of the funds received by or credited to the account of the State Regents from investments by the State Treasurer from proceeds of building bonds as provided by Senate Bill No. 349 and Senate Bill No. 350 of the First Session of the Thirty-Second Legislature, or similar funds hereafter provided in legislation vitalizing Section 38, Article X, Oklahoma Constitution, may be used and expended by the State Regents for the purpose of planning and installing the televised instruction system. There is also hereby appropriated to the State Regents from any monies in the General Revenue Fund of the State Treasury, not otherwise appropriated, the sum of Two Hundred Thousand Dollars (\$200,000.00) for the purpose of establishing, maintaining and operating the televised instruction system, the sum so appropriated to be nonfiscal and to be subject to encumbrance at any time within thirty (30) months after the effective date of this act.

Laws 1970, c. 3, § 1, emerg. eff. Feb. 3, 1970.

§70-2167. Legislative intent.

It is the intent of the Legislature that the State Regents continue to study and determine the feasibility of establishing a statewide joint system to make use of the above services in all colleges, municipal or community junior colleges and technology center schools in Oklahoma, or make use of the above services in any one of such colleges upon proper agreement.

Added by Laws 1970, c. 3, § 2, emerg. eff. Feb. 3, 1970. Amended by Laws 2001, c. 33, § 137, eff. July 1, 2001.

§70-2201. Authorization to construct and equip buildings, plants, systems, etc. - Fees and charges.

Any school district which has established junior college educational courses above the twelfth grade which complies with the regulations and standards set up by the State Board of Education and the State Regents for Higher Education, by its Board of Education, acting for and in behalf of such school district, subject to and in accordance with the terms hereof, is hereby authorized from time to time to set aside such portion of its respective campuses or of the campuses under the jurisdiction of said Board, or any other land owned or leased by said Board as may be necessary and suitable for

the construction thereon of dormitories, kitchens, dining halls, auditoriums, student union buildings, field houses, stadiums, public utility plants, and systems for the supplying of water, gas, heat, or power to the junior college or such college or institution, and other self-liquidating projects and other revenue-producing buildings deemed necessary by said Board for the comfort, convenience, and welfare of its students, and suitable for the purposes for which said institutions were established, including additions to existing buildings used for such purposes; to acquire through construction, purchase, condemnation, or any combination thereof, such dormitories, kitchens, dining halls, auditoriums, student union buildings, field houses, stadiums, public utility plants and systems, and other revenue-producing buildings and acquire or construct additions, improvements, and extensions to existing buildings and structures used for such purposes and to equip, furnish, maintain, and operate all such buildings and structures; and to acquire through purchase, condemnation or otherwise, any land, rights-of-way, easements, licenses and permits needed for the present or future use of such buildings, structures, plants, and systems; provided, that such Board of Education shall not construct or acquire, for its respective institution, such utility plants or systems whose capacity is in excess of the present or reasonably contemplated future needs of such institution.

When, in the opinion of the Board of Education of any such institution, any of the buildings, structures, plants, and systems constructed, acquired, improved, extended, added to, furnished, or equipped as above authorized are deemed necessary by the said Board for the comfort, convenience, and welfare of the student body as a whole, or for any specified class or part thereof, the Board of Education shall have authority to charge and collect from all students in attendance at such college, school, or institution, or from any specified class or part thereof for which such facilities are so deemed necessary, fees and charges for the use or availability of such buildings and structures and for the services or commodities to be made available by such plants, systems, or facilities. The proceeds of all such fees and charges shall be considered as revenues within the meaning of Section 3 hereof and the provisions of said section shall be applicable thereto. Where the commodities and services supplied by any such plant and system temporarily shall be found to be in excess of the requirements of the college, school, or institution, the Board of Education may sell the surplus to other public or nonprofit consumers, including incorporated municipalities, and in that connection may enter into such agreements as it may consider advisable. All revenues received from the sale of such surplus shall likewise be considered and treated as other revenues under Section 3 hereof. Such Board of Education may also enter into agreements for the purchase of water,

electricity, gas, heat, or power to be distributed through the medium of any such plant or system, provided only that no agreement entered into under the provisions of this paragraph shall pledge the credit of the State of Oklahoma.

Added by Laws 1961, p. 556, § 1, emerg. eff. June 29, 1961.

§70-2202. Bonds.

For the purpose of paying all or part of the cost of acquisition of any such lands, rights-of-way, easements, licenses, and permits, and the construction, acquisition, equipment, and furnishing of any such building or buildings, or structure or structures, plants, or systems, or of any additions, improvements, or extensions thereto, or any additions to existing buildings, the Board of Education of the institution for which such buildings, structures, plants, or systems (all of which lands, rights-of-way, easements, licenses, and permits, buildings, structures, plants, and systems constructed, acquired, added to, improved or extended hereunder as a single project are hereafter referred to as "the building") are to be constructed, acquired, added to, improved, extended, furnished, or equipped (which Board of Education or each of them is hereinafter referred to as "the Board") is authorized to borrow money on the credit of the income and revenues to be derived from the operation of the building and, in anticipation of the collection of such income and revenues, to issue negotiable bonds in such amount as may in the opinion of the Board be necessary for such purposes, and is authorized to provide for the payment of such bonds and the rights of the holders thereof as hereinafter provided. Such bonds may be issued in one or more series, may bear such date or dates, may mature at such time or times not exceeding forty (40) years from their date, may be in such denomination or denominations, may be in such form, either coupon or registered, may carry such registration and conversion privileges, may be executed in such manner, may be payable in such medium of payment at such place or places, may be subject to such terms of redemption with or without premium, and may bear such rate or rates of interest, not exceeding five percent (5%) per annum, as may be provided by resolution or resolutions to be adopted by the Board. Such bonds may be sold in such manner and at such price or prices, not less than par plus accrued interest to date of delivery, as may be considered by the Board to be advisable, but interest costs to maturity for any bonds issued hereunder shall not exceed five percent (5%) per annum, computed on the basis of average maturities according to standard tables of bond values. Such bonds shall have all of the qualities and incidents of negotiable paper, and shall not be subject to taxation by the State of Oklahoma or by any county, municipality, or political subdivision therein. The Board may in its discretion authorize one issue of bonds hereunder for the construction, acquisition, adding to,

improving, extending, furnishing, or equipping of more than one building, as "building" is above defined, and may make one issue of bonds payable from the combined revenues of all buildings so constructed, acquired, added to, improved, extended, furnished, or equipped, in whole or in part, with the proceeds thereof, and where bonds are so issued the words "the building" as herein used shall be construed to refer to all such buildings.

In the event any issue or series of bonds is issued under authority of this act pursuant to a loan agreement or bond purchase agreement with any agency of the U.S. Government, then and in that event, notwithstanding any other provision of law, the Board may in any resolution authorizing bonds hereunder provide for the initial issuance of one or more bonds (in this section called "bond") aggregating the amount of the entire issue and make such provision for installment payments of the principal amount of any such bond as it may consider desirable and may provide for the making of any such bond, payable to bearer or otherwise, registrable as to principal or as to both principal and interest, and, where interest accruing thereon is not represented by interest coupons, for the endorsing of payments of interest on such bonds. The Board may further make provision in any such resolution for the manner and circumstances in and under which any such bond may in the future, at the request of the holder thereof, be converted into bonds of smaller denominations, which bonds of smaller denominations may in turn be either coupon bonds or bonds registrable as to principal or principal and interest.

In addition to the above authority to borrow money on the credit of the income and revenues to be derived from the operation of said buildings, the board may also so borrow on the income and revenue derived from any existing revenue-producing building or facility, or facilities.

The Board may issue bonds hereunder for the purpose of refunding any obligations of the Board payable from the revenues of any building, as "building" is hereinabove defined, or may authorize and deliver a single issue of bonds hereunder for the purpose in part of refunding obligations of the Board payable from the revenues derived from any building or buildings and in part for making of additions, improvements, and extensions to such building or buildings, or the construction or acquisition of additional buildings, and the furnishing and equipping of such buildings or additions. Where bonds are issued under this paragraph solely for refunding purposes, such bonds may either be sold as above provided or delivered in exchange for the outstanding obligations. If sold, the proceeds may be either applied to the payment of the obligations refunded or deposited in escrow for the retirement thereof. Nothing herein contained shall be construed to authorize the refunding of any outstanding obligations which are not either maturing, callable for

redemption under their terms, or voluntarily surrendered by their holder for cancellation, unless the Board covenants that sufficient funds to pay all remaining interest and principal payments of the outstanding obligations when due will be placed in escrow for such purpose in the State Treasury at the time of delivery of and payment for the new bonds issued hereunder. All bonds issued under this paragraph shall in all respects be authorized, issued, and secured in the manner provided for other bonds issued under this act, and shall have all of the attributes of such bonds. The Board may provide that any such refunding bonds shall have the same priority of lien on the revenues pledged for their payment as was enjoyed by the obligation refunded thereby.

All proceedings heretofore adopted by said Board of Education for the issuance of revenue bonds on a parity as to payment with other existing revenue bonds and/or which provide for the pledging of revenues from the building to be constructed, improved, and furnished from the proceeds of revenue bonds and income and revenue derived from any existing revenue-producing building or facility, or facilities, and the bonds issued pursuant thereto are hereby validated, ratified, and confirmed, and such revenue bonds constitute valid and binding obligations in accordance with the terms of such proceedings, provided, however, that said proceedings were not in contravention of this act.

Added by Laws 1961, p. 557, § 2, emerg. eff. June 29, 1961.

#### §70-2203. Bonds as special obligations - Covenants.

The bonds issued hereunder shall not be an indebtedness of the State of Oklahoma or of the institution for which they are issued or of the Board of Education thereof, but shall be special obligations payable solely from the revenues to be derived from the operation of the building, and the Board is authorized and directed to pledge all or any part of such revenues to the payment of principal of and interest on the bonds. In order to secure the prompt payment of such principal and interest and the proper application of the revenues pledged thereto, the Board is authorized by appropriate provisions in the resolution or resolutions authorizing the bonds:

(a) to covenant as to the use and disposition of the proceeds of the sale of such bonds;

(b) to covenant as to the operation of the building and the collection and disposition of the revenues derived from such operation;

(c) to covenant as to the rights, liabilities, powers, and duties arising from the breach of any covenant or agreement into which it may enter in authorizing and issuing the bonds;

(d) to covenant and agree to carry such insurance on the building and the use and occupancy thereof as may be considered desirable and, in its discretion, to provide that the cost of such

insurance shall be considered a part of the expense of operating the building;

(e) to vest in a trustee or trustees the right to receive all or any part of the income and revenues pledged and assigned to or for the benefit of the holder or holders of bonds issued hereunder and to hold, apply, and dispose of the same, and the right to enforce any covenant made to secure the bonds and to execute and deliver a trust agreement or agreements which may set forth the powers and duties and the remedies available to such trustee or trustees and may limit the liabilities thereof and prescribe the terms and conditions upon which such trustee or trustees or the holder or holders of the bonds in any specified amount or percentage may exercise such rights and enforce any or all such covenants and resort to such remedies as may be appropriate;

(f) to fix rents, charges, and fees to be imposed in connection with and for the use of the building and the facilities supplied thereby, which rents, charges, and fees shall be considered to be income and revenues derived from the operation of the building, and are hereby expressly required to be fully sufficient to assure the prompt payment of principal and interest on the bonds as each becomes due, and to make and enforce such rules and regulations with reference to the use of the building and with reference to requiring any class or classes of students to use the building as it may deem desirable for the welfare of the institution and its students or for the accomplishment of the purposes of this act;

(g) to covenant to maintain a maximum percentage of occupancy of the building;

(h) to covenant against the issuance of any other obligations payable from the revenues to be derived from the building; and

(i) to make covenants other than and in addition to those herein expressly mentioned of such character as may be considered necessary or advisable to effect the purposes of this act.

All such agreements and covenants entered into by the Board shall be binding in all respects upon the Board and its officials, agents, and employees, and upon its successors, and all such agreements and covenants shall be enforceable by appropriate action or suit at law or in equity, which may be brought by any holder or holders of bonds issued hereunder.

Added by Laws 1961, p. 559, § 3, emerg. eff. June 29, 1961.

§70-2204. Agreements or contracts with United States.

The Board may enter into any agreement or contracts with the United States of America or any agency or instrumentality thereof which it may consider advisable or necessary in order to obtain a grant of funds or other aid to be used in connection with the proceeds of the bonds in paying the cost of the construction, furnishing, and equipment of the building.

Added by Laws 1961, p. 560, § 4, emerg. eff. June 29, 1961.

§70-2205. Deposit of proceeds from bond sales.

The proceeds derived from the sale of the bonds herein authorized shall be deposited by the Treasurer of the Board of Education to the credit of the Board and kept in a separate fund and used solely for the purpose for which the bonds are authorized. The Board is authorized to make all contracts and execute all instruments which in its discretion may be deemed necessary or advisable to provide for the construction, furnishing, and equipment of the building, and the Treasurer is hereby directed and authorized to issue warrants against such funds for such amounts as he may from time to time find to be due upon audited itemized estimates and claims which bear the approval of the officials designated by the Board for such purpose.

Added by Laws 1961, p. 560, § 5, emerg. eff. June 29, 1961.

§70-2206. Deposit of income and revenues - Payment of principal and interest.

Except as to revenues paid directly to a trustee under the provisions of subsection (e) of Section 3 hereof, all income and revenues derived from the operation of the building shall be deposited as collected in a fund to be applied solely to the payment of the principal of and interest on the bonds and, to the extent so provided in the resolution authorizing the bonds, to the payment of the cost of maintaining and operating the building and the establishment of reserves for such purpose. As principal and interest become due from time to time the Treasurer shall, not less than fifteen (15) days prior to the payment date, transmit to the paying agent for the bonds money from said fund in an amount sufficient to pay the principal or interest so falling due. Said fund and the money therein is hereby irrevocably pledged to such purposes.

Added by Laws 1961, p. 560, § 6, emerg. eff. June 29, 1961.

§70-2207. Approval of bonds - Incontestability.

All bonds issued hereunder shall have on the backs thereof the certificate required by Section 29 of Article X of the Constitution of Oklahoma. Such bonds shall be submitted to the Attorney General of Oklahoma for his examination and when such bonds have been examined and certified as legal obligations by the Attorney General, in accordance with such requirements as he may make, shall be incontestable in any court in the State of Oklahoma unless suit thereon shall be brought in a court having jurisdiction thereof within thirty (30) days from the date of such approval. Bonds so approved by the Attorney General shall be prima facie valid and binding obligations according to their terms, and the only defense

which may be offered thereto in any suit instituted after such thirty-day period shall have expired shall be forgery, fraud, or violation of the Constitution.

Added by Laws 1961, p. 560, § 7, emerg. eff. June 29, 1961.

§70-2208. Bonds as legal investment.

Any bank, trust, or insurance company organized under the laws of Oklahoma may invest its capital, surplus, and reserves in bonds issued under the provisions of this act. The officers having charge of any sinking fund or any other fund of the state or any department, agency, or institution thereof, including the various funds established by Chapter 27 of Title 70 (House Bill No. 244 of the Session Laws of 1945), or any county, city, town, township, or school district in the state, may invest such funds in bonds issued under the provisions of this act at the reasonable market value thereof. Such bonds are also approved as collateral security for the deposit of any public funds and for the investment of trust funds.

Added by Laws 1961, p. 561, § 8, emerg. eff. June 29, 1961.

§70-2209. Borrowing of money in anticipation of issuance of bonds.

Whenever the Board shall have adopted a resolution authorizing the issuance of any series of bonds hereunder and said bonds have been sold but prior to the time as of which the bonds can be delivered the Board finds it necessary to borrow money for the purpose for which the bonds were authorized, the Board may, by appropriate resolution, authorize the borrowing of money in anticipation of the issuance of the bonds, and the issuance of the note or notes of the Board to evidence such borrowing. The amount so borrowed shall not exceed the principal amount of the bonds and shall not bear interest at a rate exceeding the average interest rate of the bonds. Such note or notes shall be signed in the manner prescribed by the Board and shall be made payable at such time or times as the Board may prescribe not later than one (1) year from their respective dates and may be renewed from time to time by the issuance of new notes hereunder. The proceeds of any loan made under this section shall be devoted exclusively to the purposes for which the bonds shall have been authorized and the note or notes and the interest thereon shall be paid with the proceeds of the bonds simultaneously with the delivery of the bonds. If for any reason the bonds shall not be issued, the holder or holders of the notes shall be entitled to all rights which would have been enjoyed by the holders of the bonds had they been issued, and the notes shall be paid from the revenues provided for the payment of the bonds and shall be entitled to the benefit of all covenants, agreements, the rights appearing in the resolution authorizing the bonds for the benefit of the bonds.

Added by Laws 1961, p. 561, § 9, emerg. eff. June 29, 1961.

§70-2210. Approval of bonds by Supreme Court.

The Board is authorized in its discretion to file an application with the Supreme Court of Oklahoma for the approval of any series of bonds to be issued hereunder, and exclusive original jurisdiction is hereby conferred upon the Supreme Court to hear and determine each such application. It shall be the duty of the Court to give such applications precedence over the other business of the Court and to consider and pass upon the applications and any protests which may be filed thereto as speedily as possible. Notice of the hearing on each application shall be given by a notice published in a newspaper of general circulation in the state that on a day named the Board will ask the court to hear its application and approve the bonds. Such notice shall inform all persons interested that they may file protests against the issuance of the bonds and be present at the hearing and contest the legality thereof. Such notice shall be published one time not less than ten (10) days prior to the date named for the hearing and the hearing may be adjourned from time to time in the discretion of the Court. If the Court shall be satisfied that the bonds have been properly authorized in accordance with this act and that when issued they will constitute valid obligations in accordance with their terms, the Court shall render its written opinion approving the bonds and shall fix the time within which a petition for rehearing may be filed. The decision of the Court shall be a judicial determination of the validity of the bonds, shall be conclusive as to the Board, its officers, and agents, and thereafter the bonds so approved and the revenues pledged to their payment shall be incontestable in any court in the State of Oklahoma.

Added by Laws 1961, p. 561, § 10, emerg. eff. June 29, 1961.

§70-2211. Leases to nonprofit corporations.

In any instance in which the Board shall consider it preferable to acquire the building or additions to existing buildings and equipment therefor in the manner authorized in this section rather than through the issuance of bonds by the Board, it may do so by complying with this section. In each such case the Board is authorized to lease to any nonprofit corporation, organized for the purpose of constructing the building or additions to existing buildings, such portion or portions of the campus of the institution as may be necessary as sites therefor. The lease shall contain such provisions with respect to the type, construction, and operation of any such building or addition as the Board may consider desirable, and the Board may enter into agreements with the nonprofit corporation as to the use which will be made of any such building or addition, the operation, maintenance, and supervision of said

building or addition, the imposition of fees and charges by the Board for the use of the building or addition, and the collection and disposition to be made of the proceeds of such fees and charges. The Board may agree to make such fees and charges adequate to provide a sum sufficient to pay the cost of the maintenance and operation of the building or any addition to existing buildings and the amortization of the cost of the building or any addition to existing buildings and equipment therefor, over a specified period of years, and when such cost shall have been paid and any obligations issued by the nonprofit corporation to finance such cost shall have been fully paid as to principal and interest, the lease shall terminate and title to the building or any addition to existing buildings and equipment shall vest in the Board. The agreements herein authorized to be entered into by the Board may, in the discretion of the Board, include a lease of the buildings from the nonprofit corporation and the payment of rentals therefor. The Board may furnish, without charge, heat, light, water, power, and similar facilities for any building erected under the provisions of this section and all buildings and additions to existing buildings so erected and equipment therefor shall be exempt from taxation. B. Benefits awarded through the scholarship program shall be awarded to all eligible student applicants without any limitation on the number of awards in any year other than the amount of funds available for the scholarship program and the number of eligible student applicants. Subject to the provisions of subsection C of this section, if funds are not sufficient to provide awards for all eligible student applicants, the Oklahoma State Regents for Higher Education shall make awards on the basis of need. Provided, the State Regents may take into consideration other grants and

scholarships received by an eligible student applicant when making awards.

For all academic years, students who have previously received awards under the provisions of the Oklahoma Access and Achievement Act and who have continued at all times to fulfill the requirements for eligibility to receive awards provided pursuant to the scholarship program shall be given an absolute priority for continued financial support by the scholarship program above any students who are applying for an award for the first time.

Objectives should include development of transfer policies and guides, degree sheets, course equivalencies, and common course numbering.

B. It is the intent of the Legislature that institutions of higher education within The Oklahoma State System of Higher Education, private institutions accredited by the Oklahoma State Regents for Higher Education, technology center school districts, schools or training programs licensed, accredited, approved, or regulated by any state agency, and private schools licensed by the Oklahoma Board of Private Vocational Schools be prohibited from placing statements in documents or brochures given to students or advertising in publications that credits earned at the institution, training program, or school are fully accepted at another institution or school without having a written agreement with the other institution or school stating that the credits will be fully accepted.

C. It is the intent of the Legislature that in establishing the minimum required score on an Advanced Placement Examination for granting course credit for a particular lower division course, institutions of higher education within The Oklahoma State System of Higher Education shall not require an Advanced Placement Exam score of more than three, except the requirement of an Advanced Placement Exam score of more than three shall be permitted for granting additional course credit for a lower division course or courses sequenced with the initial lower division course. Credit policy regarding all Advanced Placement Exams shall be posted on campus websites effective for the 2021-22 fall academic term and for each academic term thereafter. The institutions of higher education within The Oklahoma State System of Higher Education shall conduct

Institutions shall post on campus websites their CLEP examination policy effective for the 2023-2024 academic year and for each academic year thereafter.

§70-3209. Endowments, gifts, bequests and indirect cost reimbursements.

A. All endowments, gifts, bequests, and indirect cost reimbursements from sponsored grants and contracts given to, or received by, any constituent institution, and the income therefrom, shall belong to and be used only for and by the recipient institution.

B. The State Regents shall not take into consideration either the principal or income of paid endowments, gifts and bequests, or any indirect cost reimbursements from sponsored grants and contracts in allocating the state-appropriated funds to such constituent institution, but shall allocate the state-appropriated funds to such institution as though such funds did not exist.

Amended by Laws 1987, c. 204, § 67, operative July 1, 1987; Laws 1989, c. 281, § 9, operative July 1, 1989.

§70-3210. Appropriations - Allocations - Allotments - Reports.

(a) All appropriations made by the Legislature for state educational institutions of the State System shall be made to the State Regents in consolidated form, indicating the amount appropriated from the General Revenue Fund and each special fund, without reference to the amount appropriated to any particular institution. On April 1 of each year, or as soon thereafter as possible, but not later than June 15 of each year, the State Regents shall certify to the Director of the Office of Management and Enterprise Services such portions of the consolidated appropriation as they shall have allocated to each institution from the General Revenue Fund and each special fund for the next fiscal year and the amount of the allocation for each institution which is to be reserved for the purpose authorized by subsection B of Section 34.53 of Title 62 of the Oklahoma Statutes. The Director of the Office of Management and Enterprise Services shall allocate the revenue deposited in the State Treasury to the credit of the General Revenue Fund to a cash account for each institution or special appropriation, and to any unallocated portion of such consolidated appropriations, on a percentage basis in the same manner as provided by law for allocations of cash to Legislative appropriations for other departments and institutions.

(b) The State Regents may make additional allocations from the consolidated appropriation to any institution during the year but

they shall not decrease the amount allocated to any institution during the year. Where an additional allocation is made to an institution, the Director of the Office of Management and Enterprise Services shall make such adjustment by decreasing the consolidated appropriation balance and increasing the appropriation of the institution or institutions to which the additional allocation is made. At the same time he shall make an adjustment between the cash accounts by reducing the consolidated cash account and increasing the institution's cash account, giving the institution or institutions credit in cash for that portion of revenue which has already been allocated to that portion of the consolidated appropriation transferred, thereby transferring the percentage of cash which belongs to the additional allocation made from the consolidated appropriation. Thereafter, the Director of the Office of Management and Enterprise Services shall increase the revenue allocations to each of the educational institutions which have received additional allocations so that such allocations shall take into consideration the original allocation plus the additional allocation from the consolidated appropriation. The State Regents may make additional allocations each month of the fiscal year but such allocations for all institutions shall be certified to the Director of the Office of Management and Enterprise Services at the same time and shall not take effect until the first day of the month following the month in which such additional allocations are certified to the Director of the Office of Management and Enterprise Services. The cash allocated to all of the institutions shall never exceed the amount of revenue which would have been allocated to the consolidated appropriation had such consolidated appropriation never been divided. The division of cash among the several institutions shall be considered a division of the revenue which would have been allocated to the consolidated account.

(c) Both the cash allocations and the appropriation allotments shall be considered cumulative in that the balance unexpended or unencumbered at the end of any month of the fiscal year shall add to the amount allocated during the subsequent months so that the fiscal year shall be considered as a unit.

(d) The appropriations allocated by the State Regents to each institution for the year on June 15 shall be set up in the same manner as other departments and institutions for contractual purposes except as otherwise provided in this section.

(e) Financial documents arising from the appropriation allocations to each institution shall be filed with the Director of the Office of Management and Enterprise Services in the same manner and at the same time as is now provided by law.

(f) Nothing contained in this section shall be construed to change existing laws relating to the apportionment of cash to Section 13 or New College Funds for each of the institutions which

under present laws receive monies from such sources. Provided, that nothing herein shall be construed to give the State Regents authority to take money from the revolving fund of one institution and give it to another institution. Revolving funds of all of the constituent institutions shall operate as a continuing appropriation under the law creating each such revolving fund which allocates the revenue collected by each such institution to the revolving fund of that institution. None of such institutions shall incur obligations against such revolving fund in excess of the unencumbered balance of surplus cash on hand. Such revolving funds shall be nonfiscal year appropriations, and shall be disbursed by warrants issued by the State Treasurer.

(g) No expenditure from any of the revolving funds of the various institutions shall be made for any purpose, except that for which said portion of said fund was specifically collected; provided, that when any portion of any of such revolving funds shall not be needed for the purpose for which the same was collected, the State Regents may, upon the request of the Board of Regents of any institution, authorize such Board of Regents to expend such unneeded balance of such revolving fund for any other purpose which, in the opinion of the State Regents, shall be necessary or desirable in the conduct of such institution.

(h) The Director of the Office of Management and Enterprise Services shall make monthly reports to the institutions and agencies comprising the State System indicating, by classification of funds, the amounts allotted by the State Regents, the cumulative expenditures at the end of each month, the unexpended balances, the encumbrances outstanding, and the unencumbered balances at the end of the month.

(i) The State Regents shall direct the disposition of such funds as the Legislature shall appropriate, which funds shall be allocated to the state educational institutions entitled thereto under the provisions of, and in accordance with, the Enabling Act and the Constitution of the State of Oklahoma, for the support of such state educational institutions.

Added by Laws 1965, c. 396, § 210, eff. July 1, 1965. Amended by Laws 1979, c. 47, § 80, emerg. eff. April 9, 1979; Laws 1999, c. 371, § 6, eff. July 1, 1999; Laws 2012, c. 304, § 626.

§70-3211. Revolving Loan Fund of the Oklahoma State Regents for Higher Education.

(a) There is hereby created in the State Treasury a Revolving Loan Fund to be designated "Revolving Loan Fund of the Oklahoma State Regents for Higher Education." Such fund shall be a continuing fund, and the State Regents may allocate on a loan basis any of the monies therein to any of the state educational institutions under their jurisdiction, for projects authorized by

the Board of Regents of the institution and approved by the State Regents.

(b) Monies in such fund shall be disbursed by claims approved by the President of the institution to which the monies were allocated. Any person convicted of a violation of this subsection shall be guilty of a felony punishable by imprisonment in the Department of Corrections for a term of not less than two (2) years nor more than five (5) years, or by a fine not exceeding Two Thousand Dollars (\$2,000.00), or by both such fine and imprisonment. In addition to the above, CLEET may impose an administrative fine.

J. 1. A police or peace officer shall be subject to disciplinary action to include a denial, suspension, revocation or acceptance of voluntary surrender of peace officer certification upon a showing of clear and convincing evidence for the following:

- a. conviction of a felony or a crime of domestic violence,
- b. conviction of a misdemeanor involving moral turpitude; provided, if the conviction is a single isolated incident that occurred more than five (5) years ago and the Council is satisfied that the person has been sufficiently rehabilitated, the Council may, in its discretion, certify such person providing that all other statutory requirements have been met,
- c. a verdict of guilt or entry of a plea of guilty or nolo contendere or an "Alford" plea or any plea other than a not guilty plea for a felony offense, a crime of moral turpitude, or a crime of domestic violence,
- d. falsification or a willful misrepresentation of information in an employment application or application to the Council on Law Enforcement Education and Training, records of evidence, or in testimony under oath,
- e. revocation or voluntary surrender of police or peace officer certification in another state for a violation of any law or rule or in settlement of any disciplinary action in such state,
- f. involuntary commitment of a reserve or peace officer in a mental institution or licensed private mental health facility for any mental illness, condition or disorder that is diagnosed by a licensed physician, psychologist or a licensed mental health professional as a substantial disorder of thought, mood, perception, psychological orientation, or memory that significantly impairs judgment, behavior, capacity to recognize reality, or ability to meet the ordinary demands of life. Provided, the peace officer certification may be reinstated upon the Council

receiving notification of a psychological evaluation conducted by a licensed physician, psychologist or licensed mental health professional which attests and states by affidavit that the officer and the evaluation test data of the officer have been examined and that, in the professional opinion of the physician, psychologist or licensed mental health professional, the officer is psychologically suitable to return to duty as a peace officer. Notwithstanding any other provision of state law pertaining to confidentiality of hospital or other medical records, and as allowable under federal law, CLEET may subpoena or request a court to subpoena records necessary to assure compliance with these provisions. Any confidential information received by CLEET for such purpose shall retain its confidential character while in the possession of CLEET,

- g. abuse of office,
- h. entry of a final order of protection against applicant or officer, or
- i. any violation of the Oklahoma Private Security Licensing Act.

2. Disciplinary proceedings shall be commenced by filing a complaint with the Council on a form approved by the Council. Any employing agency or other person having information may submit such information to the Council for consideration as provided in this subsection.

3. Upon the filing of the complaint, a preliminary investigation shall be conducted to determine whether:

- a. there is reason to believe the person has violated any provision of this subsection or any other provision of law or rule, or
- b. there is reason to believe the person has been convicted of a felony, a crime involving moral turpitude or a domestic violence offense or is currently participating in a deferred sentence for such offenses.

4. When the investigation of a complaint does not find the person has violated any of the provisions of this subsection, or finds that the person is sufficiently rehabilitated as provided in subparagraph b or f of paragraph 1 of this subsection, no disciplinary action shall be required and the person shall remain certified as a police or peace officer. When the investigation of a complaint finds that the person has violated any of the provisions of this subsection, the matter shall be referred for disciplinary proceedings. The disciplinary proceedings shall be in accordance with Articles I and II of the Administrative Procedures Act.

5. The Council shall revoke the certification of any person upon determining that such person has been convicted of a felony or a crime involving moral turpitude or a domestic violence offense or has entered a plea of guilty, or nolo contendere or an "Alford" plea or any plea other than a not guilty plea for a felony offense, a crime of moral turpitude or a crime of domestic violence or is the respondent in a final victim protective order; provided, that if the conviction has been reversed, vacated or otherwise invalidated by an appellate court, such conviction shall not be the basis for revocation of certification; provided further, that any person who has been trained and certified by the Council on Law Enforcement Education and Training and is actively employed as a full-time peace officer as of November 1, 1985, shall not be subject to the provisions of this subsection for convictions occurring prior to November 1, 1985. The sole issue to be determined at the hearing shall be whether the person has been convicted of a felony, a crime involving moral turpitude or a domestic violence offense or is the named respondent/defendant in a final victim protective order.

6. The Council shall revoke the certification of any person upon determining that such person has received a deferred sentence for a felony, a crime involving moral turpitude or a domestic violence offense.

7. The Council may suspend the certification of any person upon a determination that such person has been involuntarily committed to a mental institution or mental health facility for a mental illness, condition or disorder as provided in subparagraph f of paragraph 1 of this subsection.

8. Every law enforcement agency in this state shall, within thirty (30) days of a final order of termination or resignation while under investigation of a CLEET-certified peace officer, report such order or resignation in writing to the Executive Director of the Council. Any report, upon receipt by the Council, shall be considered as personnel records and shall be afforded confidential protection pursuant to Sections 24A.7 and 24A.8 of Title 51 of the Oklahoma Statutes. Any medical or other confidential records obtained by subpoena pursuant to this subsection shall not be made a part of such report. The Executive Director shall ensure that the report is provided to all members of the Council. The Council shall review and make recommendations concerning the report at the first meeting of the Council to occur after all members of the Council have received the report. The Council may, by a majority vote, order the suspension, for a given period of time, or revocation of the CLEET certification of the peace officer in question if there are grounds for such actions pursuant to this section and the peace officer in question has been provided with notice and an opportunity for a hearing pursuant to the Administrative Procedures Act. Suspension or revocation of CLEET certification pursuant to this

paragraph shall be reported to the district attorney for the jurisdiction in which the peace officer was employed, to the liability insurance company of the law enforcement agency that employed the peace officer, the chief elected official of the governing body of the law enforcement agency and the chief law enforcement officer of the law enforcement agency.

9. For all other violations of this subsection, the hearing examiner shall take into consideration the severity of the violation, any mitigating circumstances offered by the person subject to disciplinary action, and any other evidence relevant to the person's character to determine the appropriate disciplinary action.

10. a. A police or peace officer may voluntarily surrender and relinquish the peace officer certification to CLEET. Pursuant to such surrender or relinquishment, the person surrendering the certification shall be prohibited from applying to CLEET for reinstatement within five (5) years of the date of the surrender or relinquishment, unless otherwise provided by law for reinstatement.
- b. No person who has had a police or peace officer certification from another state revoked or voluntarily surrendered and has not been reinstated by that state shall be considered for certification by CLEET.
- c. Any person seeking reinstatement of police or peace officer certification which has been suspended, revoked, or voluntarily surrendered may apply for reinstatement pursuant to promulgated CLEET rules governing reinstatement. Except as provided in this subsection, any person whose certification has been revoked, suspended or voluntarily surrendered for any reason including failure to comply with mandatory education and training requirements, shall pay a reinstatement fee of One Hundred Fifty Dollars (\$150.00) to be deposited to the credit of the Peace Officer Revolving Fund created pursuant to Section 3311.7 of this title.

11. A duty is hereby imposed upon the district attorney who, on behalf of the State of Oklahoma, prosecutes a person holding police or peace officer or reserve peace officer certification for a felony, a crime involving moral turpitude, or a crime of domestic violence in which a plea of guilty, nolo contendere, or an "Alford" plea or any other plea other than a not guilty plea or other finding of guilt is entered by, against or on behalf of a certified police or peace officer to report such plea, agreement, or other finding of

guilt to the Council on Law Enforcement Education and Training within ten (10) days of such plea agreement or the finding of guilt.

12. Any person or agency required or authorized to submit information pursuant to this section to the Council shall be immune from liability arising from the submission of the information as long as the information was submitted in good faith and without malice.

13. Any peace officer employed by a law enforcement agency in this state which has internal discipline policies and procedures on file with CLEET shall be exempt from the disciplinary proceedings and actions provided for in this subsection; provided, however, such exemption shall not apply if the peace officer has been convicted of a felony crime, a crime of moral turpitude, or a crime of domestic violence.

14. All criminal proceedings initiated against a CLEET-certified peace officer or reserve peace officer shall be reported by the officer to CLEET immediately after arrest or discovery of the filing of such criminal proceeding. All CLEET-certified peace officers and reserve peace officers shall be required to report when a victim protective order has been issued against the officer including orders issued on an emergency basis and all final orders of protection. Failure to give notice pursuant to the provisions of this paragraph may be cause to initiate an action against the officer by CLEET.

15. As used in this subsection:

- a. "law enforcement agency" means any department or agency of the state, a county, a municipality, or political subdivision thereof, with the duties to maintain public order, make arrests, and enforce the criminal laws of this state or municipal ordinances, which employs CLEET-certified personnel,
- b. "final order of termination" means a final notice of dismissal from employment provided after all grievance, arbitration, and court actions have been completed, and
- c. "resignation while under investigation" means the resignation from employment of a peace officer who is under investigation for any felony violation of law, a crime of moral turpitude, a crime of domestic violence, or the resignation from employment of a peace officer as part of an arbitration or plea agreement.

No employee of CLEET may be involved in the training or testing of a canine team.

2. The Council shall appoint a Drug Dog Advisory Council to make recommendations concerning minimum standards, educational needs, and other matters imperative to the certification of canines and canine teams trained to detect controlled dangerous substances. The Council shall promulgate rules based upon the recommendations of the Advisory Council. Every canine team in the state trained to detect explosives, explosive materials, explosive devices, and materials which could be used to construct an explosive device shall be certified, by test, in the detection of such explosives and materials and shall be recertified annually so long as the canine is used for such detection purposes. The certification test and annual recertification test provisions of this subsection shall not be applicable to canines that are owned by a law enforcement agency if such canines are certified and annually recertified in the detection of explosives and materials by the United States Department of Defense. No employee of CLEET may be involved in the training or testing of a canine team.

2. M. All tribal police officers of any Indian tribe or nation who have been commissioned by an Oklahoma law enforcement agency pursuant to a cross-deputization agreement with the State of Oklahoma or any political subdivision of the State of Oklahoma pursuant to the provisions of Section 1221 of Title 74 of the Oklahoma Statutes shall be eligible for peace officer certification under the same terms and conditions required of members of the law enforcement agencies of the State of Oklahoma and its political subdivisions. N. If an employing law enforcement agency in this state has paid for CLEET training and the salary of a person while that person is completing in this state a basic police course approved by the Council and if within one (1) year after the date the person is commissioned with the law enforcement agency that person resigns and is hired by another law enforcement agency in this state, the second law enforcement agency or the person receiving the training shall reimburse the original employing law enforcement agency for the cost of CLEET training and salary paid to the person while completing the basic police course by the original employing law enforcement agency. If the person leaves the original employing law enforcement agency later than one (1) year, but less than two (2) years, after the date the person is commissioned with the law enforcement agency, the second law enforcement agency or the person receiving the training shall reimburse the original employing law enforcement agency fifty percent (50%) of the cost of CLEET training and salary

paid to the person while completing the basic police course by the original employing law enforcement agency. CLEET shall not be a party to any court action based on this provision.

If the letter is returned and a notation of the U.S. Postal Service indicates "unclaimed", or "moved", or "refused" or any other nondelivery markings and the records of the Council indicate that no change of address as required by this subsection has been received by the Council, the notice and any subsequent notices or orders shall be deemed by the Court as having been legally served for all purposes.

Q. All CLEET records of bail enforcers may be released only in compliance with this section and the Bail Enforcement and Licensing Act. All records in CLEET possession concerning other persons or entities shall be released only in compliance with this section and the Oklahoma Open Records Act.

Added by Laws 1990, c. 258, § 24, operative July 1, 1990. Amended by Laws 2012, c. 304, § 628.

§70-3311.4. Continuing law enforcement training - Inactive status exemption - Failure to meet training requirements - Suspension of certification.

A. Beginning January 1, 2008, and annually thereafter, every active full-time peace officer, certified by the Council on Law Enforcement Education and Training (CLEET) pursuant to Section 3311 of this title, shall attend and complete a minimum of twenty-five (25) hours of continuing law enforcement training accredited or provided by CLEET which shall include a mandatory two (2) hours on mental health issues. Effective November 1, 2019, CLEET shall establish appropriate training resources which shall include the policies and protocols for responding to sexual assault calls, guidelines for the collection and maintenance of sexual assault kits and continuing education on trauma-informed sexual assault response and intervention, and shall require all CLEET-certified law enforcement officers to complete such training on a regular basis to be determined by CLEET. CLEET shall promulgate rules to enforce the provisions of this section and shall enter into contracts and agreements for the payment of classroom space, training, food, and lodging expenses as may be necessary for law enforcement officers attending such training in accordance with subsection B of Section 3311 of this title. Such training and seminars shall be conducted in all areas of this state at technology center schools, institutions of higher education, or other approved sites.

B. Beginning January 1, 2017, and annually thereafter, every active reserve peace officer, certified by CLEET pursuant to Section 3311 of this title, shall attend and complete a minimum of eight (8)

hours of continuing law enforcement training accredited or provided by CLEET which shall include a mandatory one (1) hour on mental health issues.

C. Every inactive full-time or reserve peace officer, certified by CLEET, shall be exempt from these requirements during the inactive status. Upon reentry to full-time active status, the peace officer shall be required to comply with subsection A of this section. If a full-time certified peace officer has been inactive for five (5) or more years, the officer must complete refresher training as prescribed by CLEET and which shall include a minimum of four (4) hours of mental health education and training, within one (1) year of employment. Upon reentry to active reserve status, the peace officer shall be required to comply with subsection B of this section. If a certified reserve officer has been inactive for five (5) or more years, the certified reserve officer shall complete a legal update as prescribed by CLEET. The Director of CLEET may waive these requirements based on review of all records of employment and training.

D. Every tribal officer who is commissioned by an Oklahoma law enforcement agency pursuant to a cross-deputization agreement with the State of Oklahoma or any political subdivision of the State of Oklahoma pursuant to the provisions of Section 1221 of Title 74 of the Oklahoma Statutes shall comply with the provisions of this section.

E. Any active full-time or reserve certified peace officer, or CLEET-certified cross-deputized tribal officer who fails to meet the annual training requirements specified in this section, shall be subject to having the certification of the peace officer suspended, after the peace officer and the employer have been given written notice of noncompliance and a reasonable time, as defined by the Council, to comply with the provisions of this section. A peace officer shall not be employed in the capacity of a peace officer during any period of suspension. The suspension period shall be for a period of time until the officer files a statement attesting to full compliance with the provisions of this section. Suspension of peace officer certification shall be reported to the district attorney for the jurisdiction in which the officer is employed, the liability insurance company of the law enforcement agency that employed the peace officer, the chief elected official of the governing body of the law enforcement agency and the chief law enforcement officer of the law enforcement agency. Any officer whose certification is suspended pursuant to this section may request a hearing with CLEET. Such hearings shall be governed by the Administrative Procedures Act except that the affected officer has the burden to show CLEET why CLEET should not have the certification of the officer suspended.

F. All certified, active full-time or reserve peace officers employed, commissioned or appointed for a period of ninety (90) days in a calendar year, who become inactive prior to the end of a calendar year, are responsible for meeting mandatory continuing education requirements as set forth in this section upon return to active full-time or reserve peace officer status within sixty (60) days of the date of return to employment, commission or appointment. Failure to complete the mandatory continuing education within sixty (60) days may result in disciplinary action as set forth in CLEET Rules at OAC 390:2. Full-time or reserve certified peace officers who return to active status within the calendar year they become inactive must complete the annual mandatory continuing education requirements outlined in this section within the remaining portion of the calendar year.

G. Peace officers with full-time certification who worked during a calendar year only as a reserve officer are required to complete only the training requirements for reserve certification. Each board shall revise its budget, if necessary, and provide said revisions to the President Pro Tempore of the Senate, the Speaker of the House of Representatives, the Director of the Office of Management and Enterprise Services, and the Legislative Service Bureau not later than January 1 of each year. In cases where a board has

jurisdiction over two or more institutions or budget agencies, it shall, not later than July 1, notify the President of each institution as to the amount of its pro rata share of the board's expense budget that will be assessed against the institution and/or other budget agency during the fiscal year.

(d) Prior to the beginning of the fiscal year, the coordinating board of the Oklahoma State Regents for Higher Education shall prepare a budget setting out in detail its necessary expenses for the entire fiscal year, and, not later than July 1, shall file a copy of its budget with the Director of the Office of Management and Enterprise Services and the Legislative Service Bureau. The State Regents shall allocate the money required to fund its budget prior to making distribution of appropriated monies to the various institutions of The Oklahoma State System of Higher Education.

(e) The Division of Central Accounting and Reporting shall make cash allocations of revenue in accordance with Section 23 of Article X of the Oklahoma Constitution, to each institution and agency, considering the total allocation made by the State Regents from the lump-sum legislative appropriation as the total appropriation for the institution or agency, in lieu of legislative appropriations. All income available to an institution or agency for educational and general purposes, as defined in the uniform budget and accounting classifications recommended by the publications of the National Association of College and University Business Officers, and including income defined by law as revolving fund income, shall operate as a continuing nonfiscal appropriation which may be expended for any educational and general purpose for which appropriated funds may be expended, if allocated and allotted in accordance with the Oklahoma State Finance Act, as provided in this section; provided that no obligation shall be incurred in excess of the unencumbered balance of cash on hand.

(f) At least thirty (30) days prior to the beginning of each fiscal year, each of the constituent institutions and agencies shall file with the State Regents its request for appropriation allotments for each of the purposes for which expenditures are to be made. Such requests shall be in conformity with the uniform budget or accounting classifications recommended by the publications of the National Association of College and University Business Officers. Each request for appropriation allotments shall show the amount required to finance each item of the request for the entire year and for each quarter or each six-month period within the fiscal year, as required by the Director of the Office of Management and Enterprise Services. The State Regents, or their designated official or employee who has been authorized to approve itemized allotment requests, shall consider the allotment requests for the purpose of making a determination that: (1) the current financial requirements of the institution or agency concerned justify the allotment to be

made; (2) the accounting classification is sufficient to reflect the purpose for which expenditures are to be made and that such classification is in accordance with the budget classifications adopted by the Director of the Office of Management and Enterprise Services and the State Regents, which shall conform as nearly as possible to the account classification recommended by the publications of the National Association of College and University Business Officers; and (3) the realization of estimated revenues determined by the Director of the Office of Management and Enterprise Services is sufficient to allow the commitments to be made. In allotting appropriations and other funds, and approving subsequent allotments, which may be required by each institution and agency the State Regents shall follow the same general procedure as other agencies of the state not under the control of the State Regents, except as otherwise provided in this section. All forms and account classifications shall be mutually agreed upon by the Director of the Office of Management and Enterprise Services and the State Regents. The State Regents shall file approved requests of constituent institutions and agencies with the Division of Central Accounting and Reporting. The State Regents and the Director of the Office of Management and Enterprise Services shall approve any request from the administrative head of a constituent institution or agency for amendment of the approved schedule of positions and salaries or transfers between items, so long as the currently approved allotment for such purposes is not exceeded and each such amendment shall be filed with the Director of the Office of Management and Enterprise Services, in such detail as he may require, prior to the date on which the first payroll or other disbursement affected by such amendments is submitted for payment. In the event that the realization of estimated revenues at any time during the fiscal year indicates that the total revenue from that fiscal year to any state fund will be insufficient at the end of the fiscal year to meet the total appropriations from that fund, the Director of the Office of Management and Enterprise Services shall notify the State Regents as to the amount of reduction necessary against the consolidated, or lump-sum appropriation, made to the State Regents.

(g) The State Regents in making itemized allotments during the fiscal year, may reserve an amount sufficient to meet a reasonable failure of revenue until receipt of notice from the Director of the Office of Management and Enterprise Services that the realization of estimated revenues indicates that the total appropriations may be allotted for expenditure. Upon receipt of notice from the Director of the Office of Management and Enterprise Services of a necessary reduction in the consolidated, or lump-sum appropriation, to meet a failure in revenue, the State Regents shall immediately take action to control the approval of subsequent allotment requests sufficient

to make the aggregate reduction in allotments of all constituent institutions under their control equal the amount of reduction ordered against the lump-sum appropriation made by the Legislature. Such reductions against the lump-sum appropriation shall not exceed the percentage reduction ordered against other agencies of the state, in accordance with Section 23 of Article X of the Oklahoma Constitution.

commits to endowment accounts. To be initially eligible for an endowment account within the Trust Fund, an institution shall have on deposit as provided in subsection F of this section an amount equal to at least one-half (1/2) of the requested account.

Provided, the regional and special purpose universities and two-year institutions in The Oklahoma State System of Higher Education shall have priority in qualifying for the endowment accounts of Twenty-five Thousand Dollars (\$25,000.00) for lectureships and positions for artists in residence.

Said period shall not be greater than three (3) years in length; provided, an institution may deposit in an endowment account matching monies in an amount which exceeds the required matching amount.

2. After July 1, 2008, state matching monies must be used to complete the state matching requirements for all endowment accounts in place as of that date, before state matching monies may be used for any accounts created after that date. After completion of such requirements no more than a total of Five Million Dollars (\$5,000,000.00) of state matching monies may be used each year, subject to the following provisions:

- a. not more than a total of Four Million Dollars (\$4,000,000.00) each year may be used for the combined benefit of comprehensive universities within The Oklahoma State System of Higher Education, and

3. All Trust Fund endowment accounts created after July 1, 2008, shall be subject to the following provisions:

- a. Trust Fund endowment accounts with matching monies of Two Hundred Fifty Thousand Dollars (\$250,000.00) or less shall be matched with state matching monies according to a 1:1 ratio, with One Dollar (\$1.00) of state matching monies to be matched with every One Dollar (\$1.00) of matching monies received, and
- b. Trust Fund endowment accounts with matching monies of more than Two Hundred Fifty Thousand Dollars (\$250,000.00) shall be matched with state matching monies according to a 1:4 ratio, with One Dollar (\$1.00) of state matching monies to be matched with every Four Dollars (\$4.00) of matching monies received.

4. Any endowment account for which an institution fails to provide the full required matching amount within the time established shall be available to be awarded to another public institution of higher education. No investment return shall be remitted to any institution from an endowment account before the institution has deposited the total required match for the endowment account as provided in subsection F of this section.

5. Notwithstanding any other provision of this section, no more than a total of Six Hundred Seventy-one Million Two Hundred Thousand Dollars (\$671,200,000.00) of state matching monies shall be utilized for the creation of endowment accounts under the provisions of this section.

E. 1. Monies which an institution provides for matching purposes must originate from monies contributed to the institution after July 1, 1988, from private sources, which monies are specifically designated by the private source to be used for purposes specified in this act, or from private contributions made after July 1, 1988, to a foundation for which the sole beneficiary is that institution, which monies are specifically designated by the private contributor to be used for purposes specified in this act, and may not be drawn from allocations of appropriated funds received from the State Regents, proceeds of fees or charges authorized by law, or from federal grants or reimbursements.

2. The State Regents may accept the transfer of endowed chairs and any associated funds from the MOST Eminent Scholars and Research Equipment Account created pursuant to the provisions of Section 5060.13 of Title 74 of the Oklahoma Statutes for the purpose of the establishment as endowed chairs in the Oklahoma State Regents' Endowment Trust Fund. Such endowed chairs shall be subject to and administered in accordance with the statutes and regulations applicable to the Trust Fund; provided, however, the monies provided by an institution for matching purposes may have originated from private monies contributed to the institution or a foundation before or after July 1, 1988.

F. Any institution which provides matching monies shall deposit the matching monies in one of the following:

1. The Trust Fund;
2. An endowment matching fund of the institution; or
3. A fund of a foundation whose sole beneficiary is that institution.

All investment return on matching monies which are deposited in a fund specified in paragraphs 2 or 3 of this subsection shall be retained in the fund. If such matching monies are not deposited in the Trust Fund, the institution shall submit a report annually to the State Regents in which the investments of the matching funds, earned interest and income, including capital gains and losses, and expenditures including the costs of managing the investments are

detailed. Diminution of the original matching sum may at the discretion of the State Regents constitute a forfeiture of the state-origin monies which the private-origin institutional monies were to match.

G. An institution may recommend to the State Regents that monies benefiting the institution in an endowment account pursuant to the purposes of the Trust Fund be dedicated to an alternative academic discipline or area. If the State Regents approve such action, the investment return from the endowment account may be utilized for such program.

F. The Board may select more than one financial institution and investment for the program if the following conditions exist:

G. A program manager shall:

The rules may, but need not, require one or more of the following:

1. Account owners seeking to make a qualified withdrawal or other withdrawal that is not a nonqualified withdrawal shall provide certifications, copies of bills for qualified higher education expenses or other supporting material;

2. Qualified withdrawals from an account shall be made only by a check payable jointly to the designated beneficiary and a higher education institution; or

3. Withdrawals not meeting certain requirements shall be treated as nonqualified withdrawals by the program manager.

F. An account owner may make the following changes and transfers relating to the account:

1. Change the beneficiary of the account;

2. Transfer funds between accounts; and

3. Transfer funds between an account and an account in a qualified tuition program in another state or make a deposit to a new or existing account or to an account in a qualified tuition program in another state.

The account owner shall be informed that certain tax consequences may apply to these changes.

G. An account owner may make the changes, transfers, and withdrawals described in subsection F of this section to an account that is owned by the account owner. If a change of beneficiary or transfer causes the total account balance for all accounts under the program for the new beneficiary to exceed the maximum account balance limit, the excess amount shall be rejected and returned to the account owner.

H. In the case of any nonqualified withdrawal from an account, an amount of not more than five percent (5%) of the proposed withdrawal may be withheld as a penalty and paid to the Board for use in operating and marketing the program and for state student financial aid.

I. The Board may set the percentage of the penalty prescribed in subsection H of this section or change the basis of this penalty if the Board determines that establishing a penalty or raising an existing penalty is needed to discourage nonqualified withdrawals.

J. If an account owner makes a nonqualified withdrawal and no penalty amount is withheld pursuant to subsection H of this section or the amount withheld was less than the amount required to be withheld under that subsection for nonqualified withdrawals, the account owner shall pay the unpaid portion of the penalty to the Board on or before April 15 of the following tax year.

K. Each account for each designated beneficiary shall be maintained separately from each other account under the program.

L. Separate records and accounting shall be maintained for each account for each designated beneficiary.

M. Except as permitted by Section 529 of the Internal Revenue Code, no contributor to, account owner of, or designated beneficiary of any account may directly or indirectly direct the investment of any contributions to an account or the earnings from the account.

N. If the Board terminates the authority of a financial institution to hold accounts and accounts must be moved from that financial institution to another financial institution, the Board shall select the financial institution and type of investment to which the balance of the account is moved unless the Internal Revenue Service provides guidance stating that allowing the account owner to select among several financial institutions that are then contractors would not cause a plan to cease to be a qualified state tuition plan.

O. Neither an account owner nor a designated beneficiary may use an interest in an account as security for a loan. Any pledge of an interest in an account is of no force and effect.

P. The Board shall adopt guidelines and procedures to prevent contributions on behalf of a designated beneficiary in excess of those necessary to pay the qualified higher education expenses of the designated beneficiaries. The guidelines may address the following:

1. Procedures for aggregating the total balances of multiple accounts in qualified state tuition programs established for a designated beneficiary;

2. The establishment of a maximum total balance that may be held in accounts for a designated beneficiary;

3. Requirements that persons who contribute to an account certify that to the best of their knowledge the balance in all qualified state tuition programs, as defined in Section 529 of the Internal Revenue Code, of which the designated beneficiary is the designated beneficiary does not exceed the lesser of:

- a. a maximum college savings amount established by the Board from time to time, and

- b. the cost in current dollars of qualified higher education expenses that the contributor reasonably anticipates the designated beneficiary will incur;

4. Requirements that any excess balances with respect to a designated beneficiary be promptly withdrawn in a nonqualified withdrawal or transferred to another account of a family member or rolled over to another family member beneficiary in accordance with this section.

Q. The financial institution(s) shall make all reports and informational returns as required by the Internal Revenue Service, the Oklahoma Tax Commission, and other pertinent federal and state laws and regulations.

R. The program manager shall make such reports with respect to contributions, distributions and other matters that the Board may

require pursuant to federal and state law reporting requirements. The statement shall identify the contributions made during a preceding twelve-month period, the total contributions made through the end of the period, the value of the account as of the end of this period, distributions made during this period and any other matters that the Board requires be reported to the account owner.

S. The State of Oklahoma, a local government of this state or organizations described in Section 501(c)(3) of the Internal Revenue Code may open and become the account owner of an account to fund scholarships for persons whose identity will be determined after an account is opened. Accounts established pursuant to this section shall be exempt from the requirement that a beneficiary be designated when an account is opened. Each person who receives an interest in the account established pursuant to this section in the form of a scholarship shall be considered a designated beneficiary for the purposes of this act.

§70-3970.9. Balance to be treated as asset of parent - Exceptions.

A. Any student loan program, student grant program, or other financial assistance program established or administered by this state shall treat the balance in an account of which the student is a designated beneficiary as if it were an asset of the parent of the designated beneficiary and not as a scholarship or grant or as an asset of the student for determining a student's or parent's income, assets or financial need.

B. Subsection A of this section applies to any financial assistance program administered by a state-supported college or university.

C. Subsections A and B of this section shall not apply if any of the following conditions exist:

1. Federal law requires all or a portion of the amount in an account to be considered in a different manner;

2. Federal benefits could be lost if all or a portion of the amount in an account is not considered in a different manner; or

3. A specific grant establishing a financial assistance program requires that all or a portion of the amount in an account be considered as an asset of the student.

Added by Laws 1998, c. 366, § 9, eff. July 1, 1998.

§70-3970.10. Limitations.

A. Nothing in this act shall be construed to:

1. Give a designated beneficiary any rights or legal interest with respect to an account unless the designated beneficiary is the account owner;

2. Guarantee that a designated beneficiary will be admitted to a higher education institution or be allowed to continue enrollment at or graduate from a higher education institution located in this state after admission;

3. Establish state residency for a person merely because the person is a designated beneficiary; or

4. Guarantee that amounts saved pursuant to the program will be sufficient to cover the qualified higher education expenses of a designated beneficiary.

§70-3980.7. Power to borrow money and issue bonds - Bond resolutions - Bonds deemed negotiable instruments.

A. An authorized issuer shall have the power and is hereby authorized to borrow money and to issue bonds in such principal amounts as the authorized issuer determines shall be necessary to provide sufficient funds for:

1. The providing of financing for all or any part of any projects of the Regents as authorized under this act;

2. The payment of principal and interest on bonds of the authorized issuer;

3. The establishment of reserves to secure the bonds; and

4. All other expenditures of the authorized issuer incident to and necessary or convenient to carry out its purposes and powers, including the payment of any credit enhancement fees and costs of issuance incurred in connection with the issuance of bonds. The authorized issuer shall have the power to make expenditures for purposes of insuring and securing holders of bonds as provided in this act.

B. The authorized issuer shall have the power to refund any bonds and any bonds, notes or other obligations heretofore or hereafter issued by any other issuer of bonds in the state if the authorized issuer is authorized hereunder to issue bonds for the purpose the refunded bonds were issued by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and to issue bonds partly to refund bonds then outstanding and partly for any of its corporate purposes. Refunding bonds may be issued in such amount as the authorized issuer may determine, but not exceeding an amount sufficient to refund the principal amount of the bonds or notes to be refunded, together with any unpaid interest accrued and to accrue thereon and any premiums, expenses and commissions incurred in connection with the issuance of such refunding bonds and any reserve established in connection with the issuance of such refunding bonds. The refunding bonds may be sold and the proceeds applied to the purchase, redemption, or payment of the bonds to be refunded or exchanged for the bonds to be refunded, all as determined by the authorized issuer.

C. All bonds of the authorized issuer issued pursuant to this section shall be special and limited obligations of the authorized issuer, secured and payable solely out of the revenues and receipts,

excluding appropriations from tax receipts, derived pursuant to a financing agreement, but in no case shall such obligations be general obligations of the State of Oklahoma.

D. The bonds shall be authorized by resolution or resolutions of the authorized issuer, shall be dated such date or dates, and shall mature at such time or times as such resolution or resolutions may provide. The bonds shall bear interest at such rate or rates or contain terms providing for the means of determining such rate or rates, including variations in such rates, be in such denomination, be in such form, either coupon or registered, or in book-entry form, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place or places, and be subject to such term of redemption, including redemptions prior to maturity, as such resolution or resolutions may provide. The bonds of the authorized issuer may be sold by the authorized issuer at public or private sale, and at the price or prices as the authorized issuer shall determine.

E. Any resolution or resolutions authorizing any bonds or any issue thereof may contain provisions, which shall be a part of the contract or contracts with the owners thereof, as to:

1. Pledging all or any part of the revenues to secure the payment of the bonds or of any issue thereof, subject to such agreements with bondowners as may then exist;

2. Pledging all or any part of the assets of the authorized issuer, including mortgages and obligations securing the same, to secure the payment of the bonds or of any issue of bonds, subject to the agreements with bondowners as may then exist;

3. The use and disposition of the gross income from assets of any type owned by the authorized issuer and payment of principal of assets of any type owned by the authorized issuer;

abrogating the right of bondowners to appoint a trustee under this act or limiting the rights, powers, and duties of the trustee;

9. Defining the acts or omissions to act which shall constitute a default in the obligations and duties of the authorized issuer to the owners of the bonds and providing for the rights and remedies of the owners of the bonds in the event of default, including as a matter of right the appointment of a receiver; but the rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this act; and

10. Any other matters, of like or different character, which in any way affect the security or protection of the owners of the bonds.

F. Any pledge made by the authorized issuer shall be valid and binding from the time when the pledge is made. The revenues, monies, or property so pledged and thereafter received by the authorized issuer shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authorized issuer, irrespective of trust indenture whether the parties have notice thereof. Neither the resolution, trust indenture nor any other instrument by which a pledge is created need be recorded.

G. Bonds of the authorized issuer may be secured by resolution of the authorized issuer or a trust indenture or similar document by and between the authorized issuer and a corporate trustee, which may be any bank having the power of a trust company or any trust company as provided by law. Such resolution, trust indenture or similar document may contain such provisions for protecting and enforcing the rights and remedies of the bondowners as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authorized issuer in relation to the exercise of its corporate powers and the custody, safeguarding and application of all monies. The authorized issuer may provide by the resolution or trust indenture for the payment of the proceeds of the bonds and the revenues to the trustee under the trust indenture or other depository, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine.

H. Whether or not the bonds are of the form and character as to be negotiable instruments under the terms of the Uniform Commercial Code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the Uniform Commercial Code, subject only to the provisions of the bonds relating to registration.

§70-4002. Bonds authorized.

(a) For the purpose of paying all or part of the cost of acquisition of any such lands, rights-of-way, easements, licenses and permits and the construction, acquisition, equipment and furnishing of any such building or buildings or structure or structures, plants or systems, or of any additions, improvements or extensions thereto, or any additions to existing buildings, the Board of Regents of the institution for which such buildings, structures, plants or systems, all of which lands, rights-of-way, easements, licenses and permits, buildings, structures, plants and systems constructed, acquired, added to, improved or extended hereunder as a single project are hereafter referred to as "the building", are to be constructed, acquired, added to, improved, extended, furnished or equipped, which Board of Regents or each of them is hereinafter referred to as "the board", is authorized to borrow money on the credit of the income and revenues to be derived from the operation of the building, together with the income and revenue derived from any existing revenue-producing building or facility or facilities and, in anticipation of the collection of such income and revenues, to issue negotiable bonds in such amount as may in the opinion of the board be necessary for such purposes, and is authorized to provide for the payment of such bonds and the rights of the holders thereof as hereinafter provided. Such bonds may be issued in one or more series, may bear such date or dates,

may mature at such time or times not exceeding forty (40) years from their date, may be in such denomination or denominations, may be in such form, either coupon or registered, may carry such registration and conversion privileges, may be executed in such manner, may be payable in such medium of payment at such place or places, may be subject to such terms of redemption with or without premium, and may bear such rate or rates of interest, not exceeding twelve percent (12%) per annum, as may be provided by resolution or resolutions adopted by the board. Such bonds may be sold in such manner and at such price or prices plus accrued interest to date of delivery, as may be considered by the board to be advisable, but interest cost to maturity for any bonds issued hereunder shall not exceed twelve percent (12%) per annum, computed on the basis of average maturities according to standard tables of bond values. Bonds payable to bearer shall have all the qualities and incidents of negotiable papers.

(b) The board may in any resolution authorizing bonds hereunder provide for the initial issuance of one or more bonds, in this section called "bond", aggregating the amount of the entire issue and make such provision for installment payments of the principal amount of any such bond as it may consider desirable, and may provide for the making of any such bond payable to bearer or otherwise, registrable as to principal or as to both principal and interest, and where interest accruing thereon is not represented by interest coupons, for the endorsing of payments of interest on such bond. The board may further make provision in any such resolution for the manner and circumstances in and under which any such bond may in the future, at the request of the holder thereof, be converted into bonds of smaller denominations, which bonds of smaller denominations may in turn be either coupon bonds or bonds registrable as to principal or principal and interest.

(c) Bonds issued hereunder and interest thereon shall not be subject to taxation by the State of Oklahoma, or by any county, municipality or political subdivision therein. The board may in its discretion authorize one issue of bonds hereunder for constructing, acquiring, adding to, improving, extending, furnishing or equipping of more than one building, as "building" is above defined, and may make said bonds payable from the combined revenues of all buildings so constructed, acquired, added to, improved, extended, furnished or equipped, in whole or in part, with the proceeds thereof, together with revenues from the operation of any existing revenue-producing building or facility. The term "building" as herein used shall be construed to refer to all such "buildings". If more than one series of bonds shall be issued hereunder payable from the revenues of the buildings or facilities, priority of lien thereof on such revenues shall depend on the provisions of the proceedings authorizing the issuance of such bonds, it being within the discretion of the board,

at the time it authorizes the first such series, to provide that subsequent series of bonds payable from such revenues shall not be issued, that subsequent series of bonds shall be subordinate as to lien, or that subsequent series of bonds shall enjoy parity of lien if such conditions and restrictions as may be specified in such proceedings can be met.

(d) The board may issue bonds hereunder for the purpose of refunding any obligations of the board payable from the revenues of any building, as "building" is hereinabove defined, together with revenues derived from any existing revenue-producing building or facility or facilities, or may authorize and deliver a single issue of bonds hereunder for the purpose in part of refunding obligations of the board payable from the revenues derived from any building or buildings and in part for the making of additions, improvements and extensions to such building or buildings, or the construction or acquisition of additional buildings, and the furnishing and equipping of such buildings or additions, together with revenues derived from any existing revenue-producing building or facility or facilities. Where bonds are issued under this paragraph solely for refunding purposes, such bonds may either be sold as above provided or delivered in exchange for the outstanding obligations. If sold, the proceeds may be either applied to the payment of the obligations, refunded or deposited in escrow for the retirement thereof. Nothing herein contained shall be construed to authorize the refunding of any outstanding obligations which are not either maturing, callable for redemption under their terms, or voluntarily surrendered by their holders for cancellation, unless the board covenants that sufficient funds to pay all remaining interest and principal payments of the outstanding bonds when due will be placed in escrow as hereinafter set out for such purpose at the time of delivery of and payment for the new bonds issued hereunder.

In any case where refunding bonds are issued and sold six (6) months or more before the earliest date on which all bonds to be refunded thereby mature or are called for redemption in accordance with their terms, the proceeds of the refunding bonds, other than the amount included therein incidental to the issuance of the bonds, shall be deposited, together with any other funds available and appropriated by the board for the purpose, in escrow with a suitable banking institution having trust powers within the state, whose deposits are insured by the Federal Deposit Insurance Corporation. Such monies shall be invested in securities maturing or callable at the option of the holder on such dates and bearing interest at such rates as shall be required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each obligation refunded to its maturity, or if prepayable, to an earlier designated date on which it may be called for redemption, and to pay the principal amount of each such bond at

maturity, or, if prepayable at its designated earlier redemption date, and to pay any premium required for redemption on such date. Before the refunding bonds are delivered, the board shall by resolution irrevocably appropriate for these purposes the escrow account and all payments of principal and interest on the securities held therein, and shall provide for the call of all bonds directed to be prepaid, in accordance with their terms, on the redemption date or dates designated. Securities purchased from the escrow account shall be limited to direct obligations of the United States or obligations whose principal and interest payments are guaranteed by the United States. Such securities shall be purchased simultaneously with the delivery of the refunding bonds. No refunding bonds shall be issued more than ten (10) years before the last date on which the bonds to be refunded thereby mature or are directed to be prepaid in accordance with their terms. All bonds issued under this paragraph and the preceding paragraph shall in all respects be authorized, issued and secured in the manner provided for other bonds issued under this article, and shall have all of the attributes of such bonds. The board may provide that any such refunding bonds shall have the same priority of lien on the revenues pledged for their payment as was enjoyed by the bonds refunded thereby.

(e) All proceedings heretofore adopted by said Board of Regents for the issuance of revenue bonds on a parity as to payment with other existing revenue bonds or which provide for the pledging of revenues from the building to be constructed, improved and furnished from the proceeds of revenue bonds and income and revenue derived from any existing revenue-producing building or facility, or facilities, and the bonds issued pursuant thereto are hereby validated, ratified and confirmed, and such revenue bonds constitute valid and binding obligations in accordance with the terms of such proceedings.

The provisions of this section shall not apply to revenue bonds issued for the purpose of refundings or defeasance of existing revenue bonds.

No provision of this article shall be construed to authorize the pledging or use of revenue of existing buildings and facilities other than auxiliary enterprises and other self-liquidating buildings and facilities, nor shall any provisions of this article be construed to authorize the pledging or use of any revolving funds. No bonds issued under the authorization of this article shall ever become an obligation or debt of the State of Oklahoma. Laws 1965, c. 396, § 1003.

§70-4004. Bonds payable only from revenue - Resolution authorizing bonds - Agreements and terms.

In order to secure the prompt payment of such principal and interest and the proper application of the revenues pledged thereto, the board is authorized by appropriate provisions in the resolution or resolutions authorizing the bonds:

(6) To fix rents, charges and fees to be imposed in connection with and for the use of the building and the facilities supplied thereby, which rents, charges and fees shall be considered to be income and revenues derived from the operation of the building, and are hereby expressly required to be fully sufficient to assure the prompt payment of principal and interest on the bonds as each becomes due, and to make and enforce such rules and regulations with reference to the use of the building, and with reference to requiring any class or classes of students to use the building as it may deem desirable for the welfare of the institution and its students or for the accomplishment of the purposes of this article;

(7) To covenant to maintain a maximum percentage of occupancy of the building;

(8) To covenant against the issuance of any other obligations payable from the revenues to be derived from the buildings;

as legal obligations by the Attorney General in accordance with such requirements as he or she may make, shall be incontestable in any court in the State of Oklahoma unless suit thereon shall be brought in a court having jurisdiction thereof within thirty (30) days from the date of such approval. Bonds so approved by the Attorney General shall be prima facie valid and binding obligations according to their terms, and the only defense which may be offered thereto in any suit instituted after such thirty-day period shall have expired shall be forgery, fraud or violation of the Constitution. The amount so borrowed shall not exceed the principal amount of the bonds and shall not bear interest at a rate exceeding the average interest rate of the bonds. Such note or notes shall be signed in the manner prescribed by the board and shall be made payable at such time or times as the board may prescribe not later than one (1) year from their respective dates and may be renewed from time to time by the issuance of new notes hereunder. If for any reason

the bonds shall not be issued, the holder or holders of the notes shall be entitled to all rights which would have been enjoyed by the holders of the bonds had they been issued, and the notes shall be paid from the revenues provided for the payment of the bonds and shall be entitled to the benefit of all covenants, agreements and rights appearing in the resolution authorizing the bonds for the benefit of the bonds.

Such notice shall be published one time not less than ten (10) days prior to the date named for the hearing and the hearing may be adjourned from time to time in the discretion of the Court. If the Court shall be satisfied that the bonds have been properly authorized in accordance with the provisions of this article and that when issued they will constitute valid obligations in accordance with their terms, the Court shall render its written opinion approving the bonds and shall fix the time within which a petition for rehearing may be filed. The decision of the Court shall be a judicial determination of the validity of the bonds, shall be conclusive as to the board, its officers and agents, and thereafter the bonds so approved and the revenues pledged to their payment shall be incontestable in any court in the State of Oklahoma.

The lease shall contain such provisions with respect to the type, construction and operation of any such building or addition as the board may consider desirable, and the board may enter into agreements as to the use which will be made of any such building, addition or equipment, the operation, maintenance and supervision thereof, the imposition of fees and charges by the board for the use of the building or addition, and the collection and disposition to be made of the proceeds of such fees and charges. The board may agree to make such fees and charges adequate to provide a sum sufficient to pay the cost of the maintenance and operation thereof and the amortization of the cost of the building or any addition to existing buildings or equipment therefor, over a specified period of years, and when such cost shall have been paid any obligations issued by any entity to finance such cost shall have been fully paid as to principal and interest, the lease shall terminate and title to the building or any addition to existing buildings or equipment shall vest in the board. H. The obligations issued under this section, the transfer thereof and the interest earned on such obligations, including any profit derived from the sale thereof, shall not be subject to taxation of any kind by the State of Oklahoma, or by any county, municipality or political subdivision therein.

I. The Authority may direct the investment of all monies in any funds or accounts created in connection with the offering of the obligations authorized under this section. Expenditures from the fund shall be made upon warrants issued by the State Treasurer against claims filed as prescribed by law with the Director of the Office of Management and Enterprise Services for approval and payment.

§70-4701. Center for Instructional Excellence - Feasibility study.

The Oklahoma State Regents for Higher Education are hereby authorized to study the cost feasibility of developing a "Center for Instructional Excellence". This Center should serve as the primary coordinating agency for the development and dissemination of instructional technology and should proceed immediately to collect from current resources the best available media materials, computer software, and other instructional technology available. This Center should renew public higher education's commitment to its principal mission of instruction by identifying master professors from throughout the system and underwriting, through release time and direct funding, the dissemination of their instructional work.

It is the intent of this legislation that all institutions within The Oklahoma State System of Higher Education shall cooperate in the development of the "Center for Instructional Excellence" by making available faculty and instructional resources. The Center shall then serve as a clearinghouse in disseminating the best of these resources to the remainder of the system. It is the intent of this legislation that the Oklahoma State Regents for Higher Education shall provide direct funding to the Center from both private and public resources to carry out the task of developing or acquiring all aspects of the rapidly changing instructional technology so that these methods may be evaluated and made available to institutions within The State System of Higher Education.

The Center should become the most cost effective method for instructional development by providing coordination for similar existing efforts on individual campuses and eventually bringing these operations under a central mechanism providing for a better economy of scale in making the necessary resources available to all higher education faculty members in order to provide for excellence in instruction at all levels.

The Center is made necessary because the traditional instructional process competes, without sufficient resources or modern technology, with much more powerful informational media and computer software being made available through the private sector in noneducational environments and because students, accustomed to more sophisticated methods of information acquisition, demand and deserve

the most effective instructional process within their educational experiences.

The "Center for Instructional Excellence" should devise, in cooperation with the budget staff of the Oklahoma State Regents for Higher Education, appropriate formats for inquiring of institutions regarding resources devoted to improving the instructional process with a particular emphasis on depicting budgets, not just in programmatic terms, but in terms of the proportion of available resources devoted in each academic program to computer interaction, media, tutelage, team teaching, and other instructional innovations. Added by Laws 1987, c. 227, § 4, operative July 1, 1987.

A fund shall be established at the State Department of Education for the purpose of funding and offering precollegiate courses, to be coordinated with the State Regents for Higher Education, according to priorities established by the State Regents for Higher Education as recommendations or requirements.

A. Recognizing the increasing demand for college and university education, the rapid changes facing our society, and the worldwide competition facing our citizens, the Legislature acknowledges the need to reexamine the state's higher education system to ensure that the system created half a century ago will meet the changing needs. It is the intent of the Legislature that the State Regents for Higher Education fully exercise their constitutional authority to reexamine and more clearly define the roles, goals and missions of like institutions within The Oklahoma State System of Higher Education. It is further the intent of the Legislature that the State Regents examine the current system of governance of Oklahoma institutions of higher education and submit a report and recommendations to the Oklahoma Legislature by January 1, 1993. d. as an alternative to subparagraph c of this paragraph, the Trust shall provide for the qualified beneficiary to attend an institution of higher education which the qualified beneficiary may attend for a fixed number of credit hours, as permitted by the Trust, less than the total number of credit hours required by the institution for the awarding of a bachelor's degree, without further tuition cost to the qualified beneficiary for that fixed number of credit hours, except as provided in Section 6 of this act for a qualified beneficiary who is required to pay nonresident tuition rates.

B. Contracts required to be offered by this section may require that payment or payments from a purchaser, on behalf of a qualified beneficiary who may attend a state institution of higher education in less than four (4) years after the date the contract is entered into by the purchaser, be based upon attendance at a certain institution of higher education or at that institution of higher education with the highest prevailing tuition cost for the number of credit hours covered by the contract.

Added by Laws 1988, c. 261, § 7, emerg. eff. June 29, 1988.

§70-6007. Payments on behalf of beneficiaries - Scholarship refunds.

A. Within thirty (30) days of written notice to the Regents that a qualified beneficiary is enrolled in and attending classes for a given semester, quarter, term, or session, the Regents shall pay to the appropriate institution of higher education the then actual in-state fees on behalf of the qualified beneficiary.

B. If a qualified beneficiary or a nonresident beneficiary receives a scholarship which reduces the cost of tuition at the institution of higher education which such beneficiary attends, then the institution of higher education shall notify the Regents of the

scholarship and its amount. The Regents shall refund the amount of the scholarship to the person designated in the contract as the appropriate person to receive a refund. The Regents shall pay to the institution of higher education the tuition amount less the scholarship amount. The refund amount shall be treated by the recipient of the refund as ordinary income for the year in which it is received.

Added by Laws 1988, c. 261, § 8, emerg. eff. June 29, 1988.

§70-6008. Termination of advance tuition payment contracts - Refunds.

A. An advance tuition payment contract shall authorize a termination of the contract when any one of the following occurs:

1. The qualified beneficiary dies;
2. The qualified beneficiary is not admitted to a state institution of higher education after making proper application;
3. The qualified beneficiary certifies to the Regents, after attaining the age of eighteen (18), that such qualified beneficiary has decided not to attend a state institution of higher education and requests, in writing, that the advance tuition payment contract be terminated; or
4. Other circumstances, determined by the Trust and set forth in the advance tuition payment contract, occur.

B. An advance tuition payment contract shall provide for a refund pursuant to this section to a person to whom the refund is payable under the contract upon termination of the contract. If the qualified beneficiary has a high school diploma or has reached the age of majority, and attends an institution of higher education, the amount of a refund shall be the lesser of the average tuition cost of all state institutions of higher education on the date of termination of the contract, or the face amount of the payment or payments and any accrued investment income attributable to the payment or payments, or the lowest tuition cost of all state institutions of higher education on the date of termination of the contract depending upon the terms of the contract. The amount of a refund shall be reduced by an appropriate percentage if the purchaser entered into an advance tuition payment contract that provided for a fixed number of credit hours less than the total number of credit hours required by a state institution of higher education for the awarding of a bachelor's degree, by the amount transferred to a community or junior college on behalf of a qualified beneficiary when the contract is terminated as provided in Section 6 of this act and by the amount transferred to an institution of higher education on behalf of a qualified beneficiary. Termination of a contract and the right to receive a refund shall not be authorized under the contract if the qualified beneficiary has completed more than one-half (1/2) of the credit

hours required by the institution of higher education for the awarding of a bachelor's degree. However, this provision shall not affect the termination and refund rights of a graduate of a community or junior college. Pursuant to this subsection and except as provided by subsection C of this section, the Trust shall make refund payments in equal installments over four (4) years and not later than August 15 of the year due.

C. An advance tuition payment shall authorize a person, who is entitled under the advance tuition payment contract to terminate the contract, to direct payment of the refund to a community or junior college located in this state. If directed to make payments pursuant to this subsection, the Trust shall transfer to the designated institution an amount equal to the tuition due for the qualified beneficiary, but the Trust shall not transfer a cumulative amount greater than the refund to which the person is entitled. If the refund exceeds the total amount of transfers directed to the designated institution, the excess shall be returned to the person to whom the refund is otherwise payable.

Added by Laws 1988, c. 261, § 9, emerg. eff. June 29, 1989.

evaluated the actual soundness of the Trust and determine the additional assets needed, if any, to defray the obligations of the Trust. If there are not sufficient funds to ensure the actual soundness of the Trust, the Regents shall adjust payments of subsequent purchases to ensure its actuarial soundness. In no case shall there be an appropriation of monies from general revenue to the Regents for purposes of the Oklahoma Tuition Trust Act; however, nothing in this subsection shall prevent state agencies from providing assistance to the Regents. The assets and earnings of the Trust shall be the sole source for payment of the liabilities incurred by the Trust pursuant to the Oklahoma Tuition Trust Act.

D. Unless otherwise provided by resolution of the Regents, assets of the Trust shall be expended in the following order of priority:
