A. For all public schools in Oklahoma, school shall actually be in session and classroom instruction offered:

1. For not less than one hundred eighty (180) days; or

2. For not less than one thousand eighty (1,080) hours each school year, if a district board of education adopts a school-hours policy and notifies the State Board of Education prior to October 15 of the applicable school year; or

3. Beginning with the 2021-2022 school year, for not less than one thousand eighty (1,080) hours with a minimum of one hundred sixty-five (165) days of instruction each school year, if a district board of education adopts a school-hours policy and notifies the State Board of Education prior to October 15 of the applicable school year; or

4. Beginning with the 2021-2022 school year, for not less than one thousand eighty (1,080) hours each school year, if a district board of education adopts a school-hours policy, notifies the State Board of Education prior to October 15 of the applicable school year and meets the requirements established by the State Board of Education pursuant to subsection H of this section.

B. A school district may not count more than thirty (30) hours each school year that are used for attendance of professional meetings toward the one hundred eighty (180) days or one thousand eighty (1,080) hours of classroom instruction time required in subsection A of this section.

C. Teachers off contract with an employing district shall not be required by the employing school district to attend professional meetings unless the teacher is paid additional compensation for the additional time. Teachers may be paid additional compensation for attending professional meetings in excess of their contract term. Subject to district board of education policy or collective bargaining agreement, additional paid professional days may be granted for individual teachers to attend or participate in professional meetings, staff development training, or National Board certification portfolio development as provided for in Section 6-204.2 of this title.

D. A school district may authorize parent-teacher conferences to be held during a regular school day. If authorized by the school district, parent-teacher conferences shall be counted as classroom instruction time for no more than six (6) hours per semester, for a total of twelve (12) hours per school year.

E. A school district may maintain school for less than a full school year only when conditions beyond the control of school authorities make the maintenance of the term impossible and the State Board of Education has been apprised and has expressed concurrence in writing.

F. The State Board of Education shall establish criteria for an extended-day schedule for schools subject to paragraph 1 of subsection A of this section. The criteria shall:

1. Prescribe a lengthened school day within limits determined not to be detrimental to quality instruction;

2. Ensure that the schedule is equivalent in annual hours of instruction to the one-hundred-eighty-day school year specified in paragraph 1 of subsection A of this section; and

3. Be consistent with the provisions of this section and Sections 1-111 and 1-112 of this title, but may result in fewer annual days of instruction.

G. Notwithstanding the provisions of subsection F of this section, a school district board of education subject to paragraph 1 of subsection A of this section may adopt and implement an extended-day schedule subject to the following requirements:

1. The annual number of hours of instruction shall equal or exceed one thousand eighty (1,080) hours, which is the equivalent of one hundred eighty (180) days of instruction as specified in subsection A of this section for six (6) hours each day as specified in Section 1-111 of this title;

2. The annual number of days of instruction shall equal or exceed one hundred eighty (180) days as specified in subsection A of this section;

3. The schedule adopted shall be consistent with the provisions of Sections 1-111 and 1-112 of this title, except that for not more than one (1) day per week, a school day shall consist of not less than five (5) hours devoted to academic instruction in a regular classroom setting;

4. The district shall hold a public hearing prior to the adoption of an extended-day schedule authorized pursuant to this subsection; and

5. The district shall document the impact on student achievement as determined by the academic performance data score and any other relevant factors that are a result of implementation of an extended-day schedule authorized pursuant to this subsection and provide an annual report to the State Board of Education of the results. If improvement in student achievement cannot be documented in the report, the district board of education shall revoke authorization as provided by this subsection. If the district does not revoke authorization after student achievement is not documented in the report, the State Board of Education may deny accreditation of any school in violation of this subsection.

H. Beginning with the 2021-2022 school year, a school district board of education may adopt a school-hours policy as provided for by paragraph 4 of subsection A of this section only if it meets or exceeds the minimum guidelines for student performance and school district cost savings established by the State Board of Education.

The State Board of Education shall promulgate rules, subject to approval by the Legislature, establishing the minimum guidelines for student performance and school district cost savings.

I. If subject to paragraph 2 of subsection A of this section, a district board of education or designee may elect to close a school during the school day for inclement weather purposes. In such an event, the number of hours incurred in classroom instruction time prior to school closure shall be counted toward the one thousand eighty (1,080) hours per year requirement.

J. Nothing in this section shall be construed as affecting the right of an employing school district to require teachers as defined in Section 6-101.3 of this title to work in excess of the one thousand eighty (1,080) hours required for student instruction. In addition, nothing in this section shall be construed to affect the Fair Labor Standards Act status of any school district employee.

K. The provisions of this section shall not prohibit the Oklahoma School for the Blind or the Oklahoma School for the Deaf from adopting an alternative school-hours policy if the Oklahoma School for the Blind or the Oklahoma School for the Deaf notifies and receives approval from the State Board of Education prior to October 15 of the applicable school year.

A. School districts shall have the option of establishing and offering an extended school year according to the provisions of this section. The Optional Extended School Year Program provided in paragraph 15 of subsection A of Section 109 of this act means those programs which school districts may provide at the district, site or class level. For the purposes of this program, a school year shall consist of either eleven (11) or twelve (12) months in which school is offered in excess of two hundred (200) days of at least six (6) hours each day. The purpose of the program shall be to improve academic achievement of students participating in the extended

school year. The program shall be funded by means of the pupil category weight to be determined by the State Board of Education based upon an amount of funding specified in the State Board of Education's annual appropriation and the level of participation.

B. The State Board of Education shall establish criteria for participation in the program which shall include:

1. A competitive application process based upon requests for proposals;

2. A plan for determining measurable results in terms of academic achievement, pupil retention and other indicators of educational success, including the remediation needs of the district's students;

3. Diversified participation by school district size and geographic location and by amount of school district budget. At least one school district in each of the following categories shall be included: General Fund of less than One Million Dollars (\$1,000,000.00); General Fund of from One Million Dollars (\$1,000,000.00) to Five Million Dollars (\$5,000,000.00); General Fund of from Five Million Dollars (\$5,000,000.00) to Ten Million Dollars (\$10,000,000.00); and General Fund of Ten Million Dollars (\$10,000,000.00) or more. §70-1-110. Repealed by Laws 2009, c. 103, § 6, emerg. eff. April 24, 2009.

§70-1-111. School day - Six hours - Exceptions.

A. Except as otherwise provided for by law, a school day shall consist of not less than six (6) hours devoted to school activities. A district board of education may elect to extend the length of one (1) or more school days to more than six (6) hours and reduce the number of school days as long as the total amount of classroom instruction time is not less than one thousand eighty (1,080) hours per year as required pursuant to Section 1-109 of this title.

B. A school day for nursery, early childhood education, kindergarten, and alternative education programs shall be as otherwise defined by law or as defined by the State Board of Education. Except as otherwise provided for in this subsection, not more than one (1) school day shall be counted for attendance purposes in any twenty-four-hour period. Two (2) school days, each consisting of not less than six (6) hours, may be counted for attendance purposes in any twenty-four-hour period only if one of the school days is for the purpose of parent-teacher conferences held as provided for in Section 1-109 of this title.

C. Except as provided in subsection D of this section, students absent from school in which they are regularly enrolled may be considered as being in attendance if the reason for such absence is to participate in scheduled school activities under the direction and supervision of a regular member of the faculty or to participate in an online course approved by the district board of education. The State Board of Education shall adopt rules to provide for the implementation of supplemental online courses which shall include, but not be limited to, provisions addressing the following:

1. Criteria for student admissions eligibility;
2. A student admission process administered through the district of residence, which provides the ability for the student to enroll in individual courses;
3. A process by which students are not denied the opportunity to enroll in educationally appropriate courses by school districts. For the purposes of this section, "educationally appropriate" means any instruction that is not substantially a repeat of a course or portion of a course that the student has successfully completed, regardless of the grade of the student, and regardless of whether a course is similar to or identical to the instruction that is currently offered in the school district;
4. Creation of a system which provides ongoing enrollment access for students throughout the school year;
5. A grace period of fifteen (15) calendar days from the first day of an online course for student withdrawal from an online course without academic penalty;
6. Mastery of competencies for course completion rather than Carnegie units;
7. Student participation in extracurricular activities in accordance with school district eligibility rules and policies and any rules and policies of a private organization or association which provides the coordination, supervision, and regulation of the interscholastic activities and contests of schools;
8. Parent authorization for release of state test results to online course providers, on a form developed by the State Department of Education; and
9. A review process to identify and certify online course providers and a uniform payment processing system.

D. Except as provided in paragraph 3 of this subsection, students absent from school in which they are regularly enrolled shall be given an excused absence if the reason for such absence is to participate in scheduled 4-H activities or programs as approved by the county 4-H educator. The number of excused absences allowed pursuant to this subsection shall be subject to the attendance policy of the school district board of education.

1. Upon request from a school principal or attendance officer, a 4-H educator shall provide documentation as proof of student participation in an activity or program sponsored by 4-H.

2. Students shall be given the opportunity to make up any schoolwork missed while they are participating in activities or programs sponsored by 4-H. Students shall not have their class grades adversely affected for lack of attendance or participation due to their participation in activities or programs sponsored by 4-H.

3. A school principal or his or her designee shall not credit a student who participates in an activity or program sponsored by 4-H with an excused absence if the participation occurs during:

- a. the schedule established by the State Board of Education for the administration of statewide student assessments, or
- b. any period of time for which the student has been disciplined, suspended, or expelled, if the terms of punishment would preclude the student from participating in an educational field trip or extracurricular activity.

E. Each district board of education shall adopt policies and procedures that conform to rules for online courses as adopted by the State Board. Such policies shall include criteria for approval of the course, the appropriateness of the course for a particular student, authorization for full-time students to enroll in online courses, and establishing fees or charges. No district shall be liable for payment of any fees or charges for any online course for a student who has not complied with the district's policies and procedures. School districts shall not deny students the opportunity to enroll in educationally appropriate courses and shall provide an admissions process which includes input from the student, the parent or legal guardian of the student, and school faculty.

F. Districts shall require students enrolled in online courses to participate in the Oklahoma School Testing Program Act. Students participating in online courses from a remote site will be responsible for providing their own equipment and Internet access, unless the district chooses to provide the equipment. Credit may not be granted for such courses except upon approval of the State Board of Education and the district board of education.

G. Nothing in this section shall prohibit a student who transfers from the district in which the student resides to another school district pursuant to the Education Open Transfer Act from enrolling in a full-time virtual education program offered by the receiving school district. A student who enrolls pursuant to this subsection shall be subject to the provisions of Section 8-103.2 of this title. The board of education of a school district with a full-time virtual education program shall adopt a policy to

determine the number of transfer students the program has the capacity to accept in each grade level, as provided for in Section 8-101.2 of this title.

H. Districts may provide students with opportunities for blended instruction. "Blended instruction" shall mean a combination of brick-and-mortar learning and virtual learning environments that includes elements of a student's control over place, pace, and path of learning. A student in blended instruction may work on virtual courses at home or at school in a blended flex lab but shall participate in at least one unit or set of competencies as defined by Section 11-103.6 of this title at a physical school building in a traditional classroom setting which is the academic equivalent of one (1) hour per day for each instructional day in the school year as defined by Section 1-109 of this title.

I. The school day for kindergarten may consist of six (6) hours devoted to school activities.

§70-1-112. School taught on Saturday.

School taught on Saturday shall not be counted for attendance purposes in meeting the school year requirements as set forth in Section 1-109 of this title. School taught on Saturday may be substituted for regular school days during which school has been or will be closed upon approval of the State Board of Education. Added by Laws 1971, c. 281, § 1-112, eff. July 2, 1971. Amended by Laws 2009, c. 103, § 3, emerg. eff. April 24, 2009.

§70-1-113. School district residency.

A. When used in this section, the residence of any child for school purposes shall be:

1. The legal residence of the parents, guardian, or person having legal custody.

Each school district board of education shall adopt a policy establishing the requirements for student residency for that district which provides for residence as described in this paragraph. Within the discretion of each school district's board of education, the policy may but is not required to allow for establishment of residency by affidavit when an adult, whether a relative or not, who does not fall within one of the categories listed above, who holds legal residence in the school district, and who has assumed permanent care and custody of the child files an affidavit with the school district attesting that they have assumed custody and the reasons for assuming custody. Any policy allowing the establishment of residency by affidavit shall require the adult who provides the affidavit to affirm in such affidavit that the custody arrangement is permanent and that the adult contributes the major degree of support to the child. If the school district policy allows establishment of residency by affidavit, any person who willfully makes a statement in the affidavit which the person knows to be false shall, upon conviction, be guilty of a misdemeanor punishable by imprisonment in the county jail for not more than one (1) year or a fine of not more than Five Hundred Dollars (\$500.00) or both such fine and imprisonment. Each school district shall include in its policy on residency any documentation necessary for the administration of the policy;

2. The foster family home, as defined in Section 1-1-105 of Title 10A of the Oklahoma Statutes, except a therapeutic foster family home or a specialized foster home where a child is in voluntary placement as defined in subsection D of this section, in which the child has been placed:

- a. by the person or agency having legal custody of the child pursuant to a court order, or
- b. by a state agency having legal custody of the child pursuant to the provisions of Title 10A of the Oklahoma Statutes.

Upon request of the foster parent, the residence of a child in foster care for school purposes may be changed to the school district in which the child resided prior to being placed in foster care or the school district in which the previous foster family home of the child is located;

3. Any orphanage or eleemosynary child care facility having full-time care and custody;

4. Any eleemosynary child care facility in which a child is placed by a parent or guardian for full-time residential care; provided, the provision of this paragraph shall apply only to children who attend a district school by joint agreement of the school district and facility and who are not placed in the facility through a state contract. For purposes of this paragraph, "eleemosynary child care facility" means a facility:

- a. where child care and services are provided, and
- b. which is funded predominantly by benevolent or charitable funds and is exempt from taxation pursuant to the provisions of Section 501(c)(3) of the Internal Revenue Code, 26 U.S.C., Section 501(c)(3);

5. Any state-operated institution in which a child has been placed by a parent or guardian or by a state agency having legal custody of the child pursuant to the provisions of Title 10A or Section 3-101 of Title 43A of the Oklahoma Statutes for care and treatment due to a physical or mental condition of the child;

6. Any facility in which a child has been admitted and is receiving on-site educational services as provided for in Section 3-104.7 of this title;

7. The district in which a child who is entirely self-supporting resides and attends school; or

8. A state-licensed children's emergency resource center or state-operated emergency shelter.

B. No school district shall bear the cost of educating children who are not residents of this state. A school district may furnish educational services pursuant to contract as elsewhere provided by law. A school district may furnish educational services pursuant to a contract to children who do not reside in the United States of America; provided, the children shall not be counted in the average daily membership of the school district.

C. For the purpose of ensuring that a child placed in a therapeutic foster family home, as defined in Section 1-1-105 of Title 10A of the Oklahoma Statutes, receives an appropriate education, no receiving school district shall be required to enroll such a child if the enrollment would cause the proportion of students in therapeutic foster family homes as compared to the average daily membership of the receiving district for the preceding school year to exceed two percent (2%). Children served by Head Start may not be counted for the purpose of this paragraph unless the child is on an individualized education program provided by the school district. Any school district may enroll such students who are outside the student's resident district in therapeutic foster family home placements which exceed this limit if the school determines it possesses the ability to provide such child an appropriate education.

D. When a child does not meet the criteria for residency provided in subsection A of this section and is placed in any of the following entities which is out of the home of the child and not in the school district in which the child legally resides:

1. A residential facility;
2. A treatment program or center, including the facility operated pursuant to Section 485.1 of Title 63 of the Oklahoma Statutes;

3. A therapeutic foster family home as defined in Section 1-1-105 of Title 10A of the Oklahoma Statutes;

4. A specialized foster home, which is a specialized foster home or an agency-contracted home under the supervision of and certified as meeting the standards set by the Department of Human Services and is funded through the Department of Human Services Home and Community-Based Waiver Services Program; or

5. An acute psychiatric care facility, the entity shall, if the child contends he or she resides in a school district other than the district where the entity is located, within eleven (11) days of admittance, notify the school district in which the entity is located of the admittance.

For minors who are persons requiring psychiatric treatment as defined by Title 43A of the Oklahoma Statutes, on-site educational services shall be provided beginning on the eleventh day of admission.

Upon provision of educational services to children pursuant to the provisions of subsection F of this section, the receiving school district shall receive the State Aid as defined in subsection C of Section 18-110 of this title for those students.

Access to the due process procedure guaranteed to children with disabilities shall be available to resolve disagreements about the appropriateness of placements of children with disabilities.

E. The governing body of any state institution for children operated pursuant to the provisions of Title 10A of the Oklahoma Statutes or Section 3-101 of Title 43A of the Oklahoma Statutes and the board of education of the school district in which the institution is located or any other school district in the state willing to provide necessary educational services may enter into a contract whereby the district will maintain a school for the children of the institution, in which event the residence of the children for school purposes will be considered as being in the district maintaining the school; provided, however, that upon release from the school, a child shall be considered as a resident of the originating school district for school purposes. The governing body of the state institutions specified in this subsection shall pay the costs for educating students placed in the state institution less any amount of funds received for the students by the school district contracting with the state institution to provide necessary educational services.

F. 1. The school district in which an entity as described in subsection D of this section exists to serve children in out-of-home placements shall, upon request of the individual or agency operating the entity, provide the educational services to which the children in the entity are entitled subject to the limitations provided in subsection C of this section. No person operating such an entity may contract for the provision of educational services with any

school district other than the school district in which the entity is located unless the school district in which the entity is located agrees in writing to allow another school district to provide the educational services or unless the person operating the entity contracts with another school district for the provision of educational services to be provided through remote Internet-based courses. No person operating such an entity may contract for the provision of educational services with more than one school district.

2. Prior to location in a school district, the individual or agency operating an entity described in subsection D of this section which requires provision of educational services from the school district shall notify the local board of education of its anticipated educational needs. No school district shall be required to provide educational services for students in the entity until at least sixty (60) calendar days have elapsed from the time in which the local board of education was initially notified of the need unless the school district so agrees to provide the educational services sooner. The provisions of this paragraph shall not apply to therapeutic or specialized foster homes.

3. Educational services provided shall meet or exceed state accreditation standards. No school district shall be responsible for any expenses for students in an entity described in subsection D of this section which are not directly related to the provision of educational services. A school district shall not be obligated for expenses of those students in an entity in the current school year for whom educational services are requested after the first nine (9) weeks of the current school year for the district if educational services are requested for twelve or more students than were served in the first nine (9) weeks, unless the school district chooses to provide educational services for the current school year. Contracts and agreements for provision of educational services may allow for the use of public and private sources of support which are available to share the costs of educational services and of therapies, treatments, or support services. Otherwise valid obligations to provide or pay for such services, such as Medicaid, shall remain in effect for children who are eligible for the services from sources other than the school district.

4. Upon the request of any residential facility which has contracted with the Office of Juvenile Affairs to provide either a regimented juvenile training program or a high-impact wilderness camp to a minimum of forty students who have been adjudicated, a school district may contract for the facility to provide the educational services to those students. Under a contract, the facility shall operate in accordance with all applicable laws, including compliance with Section 18-114.14 of this title. The contract shall include the State Aid generated by the students, less

a fee for administrative services which may be retained by the school district, not to exceed ten percent (10%) of the total on an annual basis. The school district shall exercise supervision over the educational program in the facility and bear all responsibility for required educational reporting. The school district shall maintain access to all educational records for students in the facility, and shall provide for the appropriate academic credit and diplomas. The school district shall be indemnified against any actions or penalties on the part of the facility which result in adversity for the school district.

G. Any question as to the place of residence of any child for school purposes shall be decided pursuant to procedures utilized by the State Department of Education.

H. The receiving district shall notify the district of residence immediately upon finding that the student requires special education and related services and the district of residence shall participate in planning the Individualized Education Program (IEP) for the student and in subsequent reviews of the program in accordance with the Individuals with Disabilities Education Act (IDEA).

§70-1-114. Free attendance - Admission to early childhood programs - Enrollment in kindergarten and first grade - Nonresident tuition fee.

A. All children between the ages of five (5) years on or before September 1 and twenty-one (21) years on or before September 1 shall be entitled to attend school free of charge in the district in which they reside.

B. All children who are at least four (4) years of age but not more than five (5) years of age on or before September 1 and who have not attended a public school kindergarten shall be entitled to

attend half-day or full-day early childhood programs at any public school in the state where such programs are offered; provided, no child shall be required to attend any early childhood education program. The following paragraphs shall govern early childhood programs:

1. Children who are at least four (4) years of age but not more than five (5) years of age on or before September 1 shall be entitled to attend either half-day or full-day early childhood programs in their district of residence free of charge as long as the district has the physical facilities and teaching personnel to accommodate the child. For purposes of calculation of State Aid, children in an early childhood education program shall be included in the average daily membership of the district providing the program;

2. A child who has not reached the age of five (5) years on or before September 1 and who resides in a district which does not offer an early childhood program shall be eligible for transfer to a district where an early childhood program is offered if the district that offers the early childhood program has the capacity to accept the child as provided for in the Education Open Transfer Act. A district offering early childhood programs may refuse to accept a nonresident child if the district does not have the capacity to accommodate the child in an early childhood education class, as provided for in the Education Open Transfer Act. If the child requesting the transfer has not reached the age of four (4) years on or before September 1, the district may refuse to accept the nonresident child if the district determines the child is not ready for an early childhood program. Children who are accepted in a program outside their district of residence as provided in this paragraph shall be included in the average daily membership of the district providing the program for State Aid funding subject to the State Aid formula weight limitations set forth in paragraph 1 of this subsection; and

3. The State Board of Education shall promulgate rules that create exemptions relating to the maximum age at which a child may attend half-day or full-day early childhood programs.

C. No child shall be enrolled in kindergarten unless he or she will have reached the age of five (5) years on or before September 1 of the school year. No child shall be enrolled in the first grade unless he or she will have reached the age of six (6) years on or before September 1 of the school year.

D. 1. No nonresident and nontransferred pupil shall be allowed to attend school in any school district unless a tuition fee equal to the per capita cost of education for a similar period in such district during the preceding year has been paid to the receiving district in advance yearly or by semester as determined by the district board of education of the receiving district. If the State

Board of Education discovers that the attendance has been allowed without prior payment of the tuition fee in advance as required, no further payment of any State Aid funds shall be made to the district until the district has shown to the satisfaction of the State Board of Education that all tuition fees have been paid or that the pupil will no longer be allowed to attend school until the required tuition fee has been paid.

2. The provisions of paragraph 1 of this subsection shall not apply to a school district that enrolls nonresident students from a contiguous, out-of-state school district if the district:

- a. does not receive payment of any State Aid funds, and
- b. has a per-pupil expenditure, as defined by Section 1-124 of this title, that is above the state average per-pupil expenditure.

A nonresident student whose resident district, as determined by Section 1-113 of this title, is not within this state shall not be eligible for State Aid. No local funding associated with the nonresident student's out-of-state resident district shall be allocated or transferred to the receiving school district.

E. Any parent, guardian, person, or institution having care and custody of a child who pays ad valorem tax on real property in any other school district other than that in which that person resides may, with the approval of the receiving school district, enroll the child in any school district in which ad valorem tax is paid and receive a credit on the nonresident tuition fee equal to the amount of the ad valorem tax paid for school district purposes in the school district in which the child is enrolled. Provided, the credit shall not exceed the total amount required for the tuition payment.

- a. is likely to result in a decrease in academic achievement in the empowered school, zone, or district, or
- b. is not fiscally feasible.

a. be likely to result in a decrease in academic achievement in the empowered school, zone, or district, or

b. not be fiscally feasible.

In requesting a new waiver or a change to an existing waiver, the school district board of education shall demonstrate the consent of a majority of the teachers and a majority of the administrators employed at each school that is affected by the new or changed waiver.

2. For an empowered school, waiver of one or more of the provisions of the collective bargaining agreement shall be based on obtaining the approval, by means of a secret ballot vote, of at least sixty percent (60%) of the members of the collective bargaining unit who are employed at the empowered school.

3. For an empowered school zone or district, waiver of one or more of the provisions of the collective bargaining agreement shall be based on obtaining, at each school included in the empowered school zone or district, the approval, by means of a secret ballot vote, of at least sixty percent (60%) of the members of the collective bargaining unit who are employed in the zone or district. The school district board of education for the empowered zone or district may choose to revise the plan for creating an empowered zone or district to remove from the zone or district any school in which at least sixty percent (60%) of the members of the collective bargaining unit employed at the school do not vote to waive the identified provisions of the collective bargaining agreement.

4. If a school district board of education, in collaboration with the empowered school, zone, or district, revises the empowerment plan, as provided in Section 9 of this act, and the revisions include changes to the identified provisions of the collective bargaining agreement that need to be waived to implement the innovations that are included in the empowerment plan, the school district board of education shall seek such additional waivers or revision or revocation of the existing waivers of provisions of the collective bargaining agreement as are necessary to implement the revised empowerment plan. Any changes to waivers, or additional waivers, of the identified provisions of the collective bargaining agreement shall be subject to approval in the same manner as provided in paragraphs 2 and 3 of this subsection for the initial approval of waivers of provisions of the collective bargaining agreement.

5. Except as otherwise provided in paragraph 4 of this subsection, waiver of identified provisions of a collective bargaining agreement for an empowered school, zone, or district pursuant to this subsection shall continue as long as the school, zone, or district remains an empowered school, zone, or district. A

waiver approved pursuant to this subsection shall continue to apply to any substantially similar provision that is included in a new or renewed collective bargaining agreement for the schools of the empowered school, zone, or district.

B. A person who is a member of the collective bargaining unit and is employed at an empowered school or zone may request a transfer to another public school in the district. The school district board of education shall make every reasonable effort to accommodate the request of the person.

The school district board of education, in collaboration with the empowered school, zone, or district, may revise the empowerment plan as necessary to improve or continue to improve academic performance at the empowered school, zone, or district. Any revisions to the empowerment plan shall require the consent of a majority of the teachers and a majority of the administrators employed at each affected public school.

B. 1. Following review of an empowered school's performance, if a school district board of education finds that the academic performance of students enrolled in the empowered school is not improving at a sufficient rate, the district school board may revoke the empowered status of the school.

2. Following review of the performance of an empowered school zone or district, if a school district board of education finds that the academic performance of students enrolled in one or more of the public schools included in the empowered school zone or district is not improving at a sufficient rate, the school district board of education may remove the underperforming public school or schools from the empowered school zone or district or may revoke the designation of the empowered school zone or district.

If the State Board does not approve the request, it shall provide to the school district a written explanation of the basis for its decision. The school district may resubmit an amended request at

Prior to the beginning of the third year, the school district may apply for renewal of the approved request and plan. The school district shall be required to submit an annual report and the State Board shall annually assess the academic achievement and fiscal status of the school district.

5. Evidence the program seeking to be replicated has the capacity to do so successfully without diminishing or putting at risk its current operations; and

6. A financial structure that ensures that funds attributable to each charter school within a network and required by law to be utilized by a school remain with and are used to benefit that school.

§70-3-137. Duration of contract - Performance report - Renewal - Termination - School closure.

A. An initial contract between a charter school or virtual charter school and its sponsor approved on or after July 1, 2024, shall be effective for five (5) years from the first day of operation. After completing an initial five-year term, a charter contract may be renewed for up to ten-year terms of duration, although the sponsor may vary the term based on the performance, demonstrated capacities, and particular circumstances of each charter school or virtual charter school. A sponsor may grant renewal with specific conditions for necessary improvements to a charter school or virtual charter school.

B. Prior to the beginning of the final year of the contract term of a charter school or virtual charter school, the sponsor shall issue a performance report and charter renewal application guidance to the charter school and its governing board or the virtual charter school and its governing board. The performance report shall summarize the performance record to date of the charter school or virtual charter school based on the data required by the Oklahoma Charter Schools Act, the annual performance framework evaluation, a review of the contract with an educational management organization if the charter school or virtual charter school contracts with an educational management organization, and the charter contract. The performance review shall take into consideration the percentage of at-risk students enrolled in the charter school or virtual charter school. The performance report shall provide notice of any weaknesses, concerns, violations, or deficiencies perceived by the sponsor concerning the charter school or virtual charter school that may jeopardize its position in seeking renewal if not timely rectified. If there are weaknesses, concerns, violations, or deficiencies the sponsor may require a charter school or virtual charter school to develop a corrective action plan and corresponding timeline to remedy any weaknesses, concerns, violations, or deficiencies. If the sponsor requires a corrective action plan, the charter school or virtual charter school shall have forty-five (45) days to respond to the performance report and submit any corrections or clarifications for the report. If the charter school or virtual charter school does not substantially complete the corrective action plan, the sponsor may choose to

revoke or not renew the charter contract pursuant to the requirements of this section.

C. 1. Prior to the beginning of the final year of a charter contract term, the charter school or virtual charter school may apply for renewal of the contract with the sponsor including the Statewide Charter School Board. The renewal application guidance shall, at a minimum, provide an opportunity for the charter school or virtual charter school to:

- a. present additional evidence, beyond the data contained in the performance report, supporting its case for charter renewal,
- b. describe improvements undertaken or planned for the school, and
- c. detail the plan for the next charter term for the school.

2. The renewal application guidance shall include or refer explicitly to the criteria that will guide the renewal decisions of the sponsor, which shall be based on the performance framework set forth in the charter contract and consistent with the Oklahoma Charter Schools Act.

D. The sponsor may deny the request for renewal if it determines the charter school or virtual charter school has failed to complete the obligations of the contract or comply with the provisions of the Oklahoma Charter Schools Act. A sponsor shall give written notice of its intent to deny the request for renewal at least eight (8) months prior to expiration of the contract. In making charter renewal decisions, a sponsor shall:

1. Ground decisions on evidence of the performance of the charter school or virtual charter school over the term of the charter contract in accordance with the performance framework set forth in the charter contract and shall take into consideration the percentage of at-risk students enrolled in the school;

2. Grant renewal to charter schools or virtual charter schools that have achieved the standards, targets, and performance expectations as stated in the charter contract and are organizationally and fiscally viable and have been faithful to the terms of the contract and applicable law;

3. Ensure that data used in making renewal decisions are available to the school and the public; and

4. Provide a public report summarizing the evidence used as the basis for each decision.

E. If the Statewide Charter School Board denies a request for renewal, the Board may, if requested by the charter school or virtual charter school, proceed to binding arbitration as provided for in subsection G of Section 3-134 of this title.

F. A sponsor may terminate a contract during the term of the contract for failure to meet the requirements for student

performance contained in the contract and performance framework, failure to meet the standards of fiscal management, violations of the law, or other good cause. The sponsor shall give at least ninety (90) days' written notice to the governing board of the charter school or virtual charter school prior to terminating the contract. The governing board may request, in writing, an informal hearing before the sponsor within fourteen (14) days of receiving notice. The sponsor shall conduct an informal hearing before taking action.

G. Beginning July 1, 2024, and subject to the provisions of this section, a charter school sponsor authorized by subsection A of Section 3-132 of this title with a charter contract that includes more than one charter school site may terminate or not renew a charter school contract for a specific charter school site.

H. 1. Beginning in the 2016-2017 school year, the State Board of Education shall identify charter schools and virtual charter schools in the state that are ranked in the bottom five percent (5%) of all public schools as determined pursuant to Section 1210.545 of this title.

2. At the time of its charter renewal, based on an average of the current year and the two (2) prior operating years, a sponsor may close a charter school site or virtual charter school identified as being among the bottom five percent (5%) of public schools in the state. The average of the current year and two (2) prior operating years shall be calculated by using the percentage ranking for each year divided by three, as determined by this subsection.

3. If there is a change to the calculation described in Section 1210.545 of this title that results in a charter school site or virtual charter school that was not ranked in the bottom five percent (5%) being ranked in the bottom five percent (5%), then the sponsor shall use the higher of the two rankings to calculate the ranking of the charter school site or virtual charter school.

4. a. A charter school or virtual charter school that is closed by its sponsor pursuant to this subsection shall not be granted a subsequent charter contract.

5. The requirements of this subsection shall not apply to a charter school or virtual charter school that has been designated by the State Department of Education as implementing an alternative education program.

6. In making a charter school site or virtual charter school closure decision, the sponsor shall consider the following:

a. enrollment of students with special challenges such as drug or alcohol addiction, prior withdrawal from school, prior incarceration, or other special circumstances,

- b. high mobility of the student population resulting from the specific purpose of the charter school or virtual charter school,
- c. annual improvement in the performance of students enrolled in the charter school or virtual charter school compared with the performance of students enrolled in the charter school or virtual charter school in the immediately preceding school year, and
- d. whether a majority of students attending the charter school or virtual charter school under consideration for closure would likely revert to attending public schools with lower academic achievement, as demonstrated pursuant to Section 1210.545 of this title.

7. If at least twenty-five percent (25%) of the charter schools chartered by one sponsor are closed within a five-year period pursuant to this subsection, the authority of the sponsor to sponsor new charter schools may be suspended by the Statewide Charter School Board until the Board approves the sponsor to sponsor new charter schools. A determination made pursuant to this paragraph shall identify the deficiencies that, if corrected, will result in the approval of the sponsor to sponsor new charter schools.

1. If a sponsor terminates a contract or the charter school or virtual charter school is closed, the closure shall be conducted in accordance with the following protocol:

1. Within two (2) calendar weeks of a final closure determination, the sponsor shall meet with the governing board and leadership of the charter school or virtual charter school to establish a transition team composed of school staff, applicant staff, and others designated by the applicant that will attend to the closure including the transfer of students, student records, and school funds;

2. The sponsor and transition team shall communicate regularly and effectively with families of students enrolled in the charter school or virtual charter school, as well as with school staff and other stakeholders, to keep them apprised of key information regarding the closure of the school and their options and risks;

3. The sponsor and transition team shall ensure that current instruction of students enrolled in the charter school or virtual charter school continues per the charter contract for the remainder of the school year;

4. The sponsor and transition team shall ensure that all necessary and prudent notifications are issued to agencies, employees, insurers, contractors, creditors, debtors, and management organizations; and

5. The governing board of the charter school or virtual charter school shall continue to meet as necessary to take actions needed to

wind down school operations, manage school finances, allocate resources, and facilitate all aspects of closure.

J. A sponsor including the Statewide Charter School Board shall develop revocation and nonrenewal processes that are consistent with the Oklahoma Charter Schools Act and that:

1. Provide the charter school or virtual charter school with a timely notification of the prospect of revocation or nonrenewal and of the reasons for possible closure;

2. Allow the charter school or virtual charter school a reasonable amount of time in which to prepare a response;

3. Provide the charter school or virtual charter school with an opportunity to submit documents and give testimony in a public hearing challenging the rationale for closure and in support of the continuation of the school at an orderly proceeding held for that purpose and prior to taking any final nonrenewal or revocation decision related to the school;

4. Allow the charter school or virtual charter school access to representation by counsel to call witnesses on its behalf;

5. Permit the recording of the proceedings; and

6. After a reasonable period for deliberation, require a final determination be made and conveyed in writing to the charter school or virtual charter school.

K. If a sponsor revokes or does not renew a charter contract, the sponsor shall clearly state in a resolution the reasons for the revocation or nonrenewal. If a charter is revoked or nonrenewed, the charter school or virtual charter school shall disclose the revocation or nonrenewal in any subsequent application.

L. If a charter contract is not renewed, the governing board of the charter school may submit an application to a proposed new sponsor as provided for in Section 3-134 of this title.

M. If a charter contract is not renewed or is terminated according to this section, a student who attended the charter school or virtual charter school may enroll in the resident school district of the student or may apply for a transfer in accordance with the Education Open Transfer Act.

§70-3-138. Reprisal against school employee seeking to establish charter school.

A board of education of a school district or an employee of the district who has control over personnel actions shall not take unlawful reprisal action against an employee of the school district for the reason that the employee is directly or indirectly involved

in an application to establish a charter school. As used in this section, "unlawful reprisal" means an action that is taken by a board of education or a school district employee as a direct result of a lawful application to establish a charter school and that is adverse to an employee or an education program. Added by Laws 1999, c. 320, § 13, eff. July 1, 1999.

§70-3-139. Status of teacher returning to public school from charter school.

A. A sponsoring school district shall determine whether a teacher who is employed by or teaching at a charter school or virtual charter school and who was previously employed as a teacher at the sponsoring public school district shall not lose any right of salary status or any other benefit provided by law due to teaching at a charter school or virtual charter school upon returning to the sponsoring public school district to teach.

B. A teacher who is employed by or teaching at a charter school or virtual charter school and who submits an employment application to the school district where the teacher was employed immediately before employment by or at a charter school or virtual charter school shall be given employment preference by the school district if:

1. The teacher submits an employment application to the school district no later than three (3) years after ceasing employment with the school district; and

2. A suitable position is available at the school district. Added by Laws 1999, c. 320, § 14, eff. July 1, 1999. Amended by Laws 2023, c. 323, § 9, eff. July 1, 2024.

§70-3-140. Student eligibility – Districts – Preferences – Transfers – Discrimination.

A. A charter school with a brick-and-mortar school site or sites shall enroll those students whose legal residence is within the boundaries of the school district in which the charter school is located and who submit a timely application, or those students who transfer to the charter school in accordance with the Education Open Transfer Act, unless the number of applications exceeds the capacity of a program, class, grade level, or building. Students who reside in a school district where a charter school is located shall not be required to obtain a transfer in order to attend a charter school in the school district of residence. If capacity is insufficient to enroll all eligible students, the charter school shall select students through a lottery selection process. A charter school shall give enrollment preference to eligible students who reside within the boundaries of the school district in which the charter school is located and who attend a school site that has been identified as in need of improvement by the State Board of Education

pursuant to the Elementary and Secondary Education Act of 1965, as amended or reauthorized. A charter school may limit admission to students within a given age group or grade level. A charter school sponsored by the Statewide Charter School Board when the applicant of the charter school is the Office of Juvenile Affairs shall limit admission to youth that are in the custody or supervision of the Office of Juvenile Affairs.

B. A brick-and-mortar charter school shall admit students who reside in the attendance area of a school or in a school district that is under a court order of desegregation or that is a party to an agreement with the United States Department of Education Office for Civil Rights directed towards mediating alleged or proven racial discrimination unless notice is received from the resident school district that admission of the student would violate the court order or agreement.

C. A brick-and-mortar charter school may designate a specific geographic area within the school district in which the charter school is located as an academic enterprise zone and may limit admissions to students who reside within that area. An academic enterprise zone shall be a geographic area in which sixty percent (60%) or more of the children who reside in the area qualify for the free or reduced school lunch program.

D. Except as provided in subsections B and C of this section, a charter school or virtual charter school shall not limit admission based on ethnicity, national origin, gender, income level, disabling condition, proficiency in the English language, measures of achievement, aptitude, or athletic ability.

E. A sponsor of a charter school shall not restrict the number of students a charter school may enroll, and the Statewide Charter School Board shall not restrict the number of students a virtual charter school or charter school may enroll. The capacity of a charter school or virtual charter school shall be determined quarterly by the governing board of the charter school or virtual charter school pursuant to the provisions of the Education Open Transfer Act.

F. Beginning July 1, 2024, each statewide virtual charter school which has been approved and sponsored by the Statewide Charter School Board or any virtual charter school for which the Board has assumed sponsorship as provided for in Section 1 of this act shall be considered a statewide virtual charter school and the geographic boundaries of each statewide virtual charter school shall be the borders of the state.

H. Beginning July 1, 2024, students enrolled full-time in a statewide virtual charter school sponsored by the Statewide Charter School Board shall not be authorized to participate in any activities administered by the Oklahoma Secondary School Activities Association. However, the students may participate in intramural

activities sponsored by a statewide virtual charter school, an online provider for the charter school, or any other outside organization.

I. 1. Beginning July 1, 2024, a public school student who wishes to enroll in a virtual charter school shall be considered a transfer student from his or her resident school district. A virtual charter school shall pre-enroll any public school student whose parent or legal guardian expresses intent to enroll in the virtual charter school. Upon pre-enrollment, the State Department of Education shall initiate a transfer on a form to be completed by the receiving virtual charter school. Upon approval of the receiving virtual charter school, the student may begin instructional activities. Upon notice that a public school student has transferred to a virtual charter school, the resident school district shall transmit the student's records within three (3) school days.

2. The State Department of Education shall notify the Legislature and Governor if it determines that the information technology infrastructure necessary to process the transfer of students to a virtual charter school is inadequate and additional time is needed for implementation.

3. A public school student may transfer to one statewide virtual charter school at any time during a school year. For purposes of this subsection, "school year" shall mean July 1 through the following June 30. After one statewide virtual charter school transfer during a school year, no public school student shall be permitted to transfer to any other statewide virtual charter school without the concurrence of both the resident school district and the receiving virtual charter school. A student shall have a grace period of fifteen (15) school days from the first day of enrollment in a statewide virtual charter school to withdraw without academic penalty and shall continue to have the option of one virtual charter school transfer without the concurrence of both the resident school district and the receiving virtual charter school during that same school year. A statewide virtual charter school student that has utilized the allowable one transfer pursuant to this subsection shall not be permitted to transfer to another school district or another statewide virtual charter school without first notifying his or her resident district and initiating a new transfer. Upon cancellation of a transfer, the virtual charter school shall transmit the student's records to the student's new school district within three (3) school days. Students enrolled in a statewide virtual charter school shall not be required to submit a virtual charter transfer for consecutive years of enrollment. Any student enrolled in a statewide virtual charter school the year prior to the implementation of this section shall not be required to submit a transfer in order to remain enrolled.

J. 1. Beginning July 1, 2024, a student shall be eligible to enroll in a statewide virtual charter school sponsored by the Statewide Charter School Board pursuant to Section 1 of this act if he or she is a student whose parent or legal guardian is transferred or is pending transfer to a military installation within this state while on active military duty pursuant to an official military order.

2. A statewide virtual charter school shall accept applications by electronic means for enrollment and course registration for students described in paragraph 1 of this subsection.

3. The parent or legal guardian of a student described in paragraph 1 of this subsection shall provide proof of residence in this state within ten (10) days after the published arrival date provided on official documentation. A parent or legal guardian may use the following addresses as proof of residence:

- b. a purchased or leased home or apartment, or
- c. federal government or public-private venture off-base military housing.

4. The provisions of paragraph 3 of subsection I shall apply to students described in paragraph 1 of this subsection.

5. For purposes of this subsection:

- a. "active military duty" means full-time military duty status in the active uniformed service of the United States including members of the National Guard and Military Reserve on active duty orders, and
- b. "military installation" means a base, camp, post, station, yard, center, homeport facility for any ship, or other installation under the jurisdiction of the Department of Defense or the United States Coast Guard.

§70-3-142. Funding - Charter School Closure Reimbursement Revolving Fund.

A. The student membership and attendance of a charter school shall be considered separate from the student membership and attendance of the sponsor for the purpose of calculating enrollment and funding including weighted average daily membership pursuant to Section 18-201.1 of this title and State Aid pursuant to Section 18-200.1 of this title. A charter school shall receive the State Aid allocation, federal funds to which it is eligible and qualifies for, and any other state-appropriated revenue generated by its students for the applicable year. Not more than three percent (3%) of the State Aid allocation may be charged by the sponsor as a fee for administrative services rendered if the sponsor is a school district, a comprehensive or regional institution of higher education, a two-year college, a private institution of higher learning accredited pursuant to Section 4103 of this title, or a federally recognized Indian tribe pursuant to Section 3-132 of this title. The Statewide Charter School Board shall not charge any charter school or virtual charter school a fee for administrative or other services. The State Department of Education shall determine the policy and procedure for making payments to a charter school or virtual charter school. The fee for administrative services as authorized in this subsection shall only be assessed on the State Aid allocation amount and shall not be assessed on any other appropriated amounts. A sponsor of a charter school shall not charge any additional State Aid allocation or charge the charter school any additional fee above the amounts allowed by this subsection unless the additional fees are for additional services rendered. The charter school sponsor shall provide to the State Department of Education financial records documenting any state funds charged by the sponsor for administrative services rendered for the previous year.

B. The fee for administrative services authorized by subsection A of this section shall be used by the sponsor to provide oversight and services to the charter schools it sponsors. The State Department of Education shall develop data codes for the Oklahoma Cost Accounting System which shall be used to comply with the administrative services reporting required by this section. A charter school sponsor shall publish a detailed report on its website and present the report in a public meeting of the charter school governing board and the charter school sponsor governing board. The report shall provide sponsor performance and stewardship including compliance with all applicable laws, regulations, and terms of the charter contract and listing expenses related to

oversight and services provided by the sponsor to the charter schools it sponsors.

C. For the purpose of calculating weighted average daily membership pursuant to Section 18-201.1 of this title and State Aid pursuant to Section 18-200.1 of this title, the weighted average daily membership for the first year of operation of a charter school or full-time statewide virtual charter school shall be determined initially by multiplying the actual enrollment of students as of August 1 by 1.333. The charter school or virtual charter school shall receive revenue equal to that which would be generated by the estimated weighted average daily membership calculated pursuant to this subsection. At midyear, the allocation for the charter school or virtual charter school shall be adjusted using the first quarter weighted average daily membership for the charter school or virtual charter school calculated pursuant to subsection A of this section. For each subsequent school year, weighted average daily membership shall be calculated as provided for in Section 18-201.1 of this title, and State Aid shall be calculated as provided for in Section 18-200.1 of this title.

D. Except as explicitly authorized by state law, a charter school or virtual charter school shall not be eligible to receive state-dedicated, local, or county revenue; provided, a charter school or virtual charter school may be eligible to receive any other aid, grants, or revenues allowed to other schools. A charter school or virtual charter school shall be considered a local education agency for purposes of funding.

E. Any unexpended funds received by a charter school or virtual charter school may be reserved and used for future purposes. The governing board of a charter school or virtual charter school shall not levy taxes or issue bonds. If otherwise allowed by law, the governing board of a charter school or virtual charter school may enter into private contracts for the purposes of borrowing money from lenders. If the governing board of the charter school or virtual charter school borrows money, the charter school or virtual charter school shall be solely responsible for repaying the debt, and the state or the sponsor shall not in any way be responsible or obligated to repay the debt.

F. Any charter school or virtual charter school which chooses to lease property shall be eligible to receive current government lease rates.

G. Except as otherwise provided in this subsection, each charter school shall pay to the Charter School Closure Reimbursement Revolving Fund created in subsection H of this section an amount equal to Five Dollars (\$5.00) per student based on average daily membership, as defined by paragraph 2 of Section 18-107 of this title, during the first nine (9) weeks of the school year. Each charter school shall complete the payment every school year within

thirty (30) days after the first nine (9) weeks of the school year. If the Charter School Closure Reimbursement Revolving Fund has a balance of One Million Dollars (\$1,000,000.00) or more on July 1, no payment shall be required the following school year.

H. There is hereby created in the State Treasury a revolving fund for the Statewide Charter School Board to be designated the "Charter School Closure Reimbursement Revolving Fund". The fund shall be a continuing fund, not subject to fiscal year limitations, and shall consist of all monies received by the Statewide Charter School Board from charter schools as provided in subsection G of this section. All monies accruing to the credit of the fund are hereby appropriated and may be budgeted and expended by the Statewide Charter School Board for the purpose of paying for expenditures incurred due to the closure of a charter school. Expenditures from the fund shall be made upon warrants issued by the State Treasurer against claims filed as prescribed by law with the Director of the Office of Management and Enterprise Services for approval and payment.

B. By July 1, 2020, the governing board of each virtual charter school shall adopt an attendance policy. The policy may allow attendance to be a proportional amount of the required attendance policy provisions based upon the date of enrollment of the student. 1. Attendance rates for students;
2. Dropout rates;
3. Results of the Oklahoma School Testing Program administered pursuant to Section 1210.508 of this title;
4. Advanced Placement participation;
5. Graduation rates for secondary school students;
6. Scores of the American College Test (ACT); and

C. Based on the API, the State Board of Education shall adopt expected annual percentage growth targets for the state level, school districts, and all school sites based on their API baseline score. The minimum percentage growth target shall be five percent (5%) annually. However, the State Board of Education may set differential growth targets based on grade level of instruction.

D. The academic performance of students who are enrolled full-time in an online program that is offered by a school district or charter school that is not the district of residence or is not located in the district of residence of the student shall be reported separately by the school district or charter school and shall not be

The Board shall utilize and report the four-year adjusted cohort graduation rate and the extended-year adjusted cohort graduation rate at the secondary school site, the school district and the state level, and the graduation rates shall be reported in the aggregate as well as disaggregated by subgroups as required in the Elementary and Secondary Education Act of 2001 (ESEA), P.L. No. 107-110, also known as the No Child Left Behind Act of 2001.

B. The Board shall use the four-year adjusted cohort graduation rate for purposes of determining the high school graduation rate indicator for the academic performance data calculation beginning with state and district report cards providing results of assessments administered in the 2011-2012 school year. The Board shall use the four-year adjusted cohort graduation rate for establishing the high school graduation rate for measuring alternate year percentage growth targets as set forth in Section 3-151.2 of this title beginning with the 2012-2013 school year.

C. The four-year adjusted cohort graduation rate shall be defined as the number of students who graduate in four (4) years with a standard high school diploma divided by the number of students who entered high school four (4) years earlier, adjusted for transfers in and out of the school, émigrés and deceased students. Students who graduate in four (4) years shall include students who earn a standard high school diploma at the end of their fourth year, before the end of their fourth year, and during a summer session immediately following their fourth year. To remove a student from a cohort, a school district shall confirm in writing or by electronic means that a student has transferred out of the school site or school district, has emigrated to another country or is deceased. For a student who transfers out of a school site or school district, the written or electronic confirmation shall be official and document that the student has enrolled in another school site or school district or in an educational program that culminates in a high school diploma recognized by a state or private higher educational institution accredited or recognized by the Oklahoma State Regents for Higher Education for purposes of admission to the institution. Students not enrolled in a program

which culminates in the award of a credential recognized by a state or private higher educational institution for purposes of admissions shall not be included in the graduation rate calculation as set forth in this subsection as a student who graduated in four (4) years with a standard high school diploma but shall be included in the number of students who entered high school four (4) years earlier.

D. The extended-year adjusted cohort graduation rate shall be defined as the number of students who graduate in four (4) years or five (5) years with a high school diploma divided by the number of students who form the adjusted cohort for the four-year graduation rate as calculated as provided for in subsection C of this section, provided that the adjustments add to the cohort all students who transfer into the cohort by the end of the year of graduation being considered and subtract students who transfer out, emigrate to another country or are deceased by the end of that year. The extended-year adjusted cohort graduation rate shall be reported separately from the four-year adjusted cohort graduation rate. Added by Laws 2011, c. 245, § 1. Amended by Laws 2013, c. 83, § 5, eff. July 1, 2013; Laws 2014, c. 311, § 2, eff. July 1, 2014.

§70-3-151.2. Graduation rate growth targets - Failing schools.

The minimum percentage growth targets shall be twenty percent (20%) of the difference between the graduation rate of the baseline year and the goal of one hundred percent (100%). The baseline year shall be established in the 2012-2013 school year. In alternating years new growth targets shall be established until all secondary schools and school districts have met the goal of one hundred percent (100%).

B. Public secondary schools and school districts meeting or exceeding expected growth targets at the end of the initial two (2) years or in the alternate years as provided for in subsection A of this section shall be recognized by the state as notable schools and school districts. Recognition may include, but not be limited to, citations of congratulations from the State Superintendent of Public Instruction as the designee of the State Board of Education, the Governor or designee, the Representative and Senator representing the school and or school district, and banners for each school or school district achieving notable status.

C. Public secondary schools and school districts failing to meet the expected growth targets at the end of the initial two (2) years or in the alternate years as provided for in subsection A of this section shall:

1. Submit a high school graduation improvement plan to their district board of education at a regularly scheduled meeting prior to December 31st of the same year; and

2. Contingent upon the availability of funding, participate in technical assistance and training provided by the State Department of Education for the purpose of reducing drop-out rates and improving high school graduation rates. The technical assistance and training shall include identifying and implementing best practices, identifying actions the school district and schools should take to meet target high school graduation goals, and providing ongoing monitoring to assess school district and school progress in implementing recommended actions.

§70-5-102. Independent school districts.

All independent school districts in Oklahoma shall be those which shall have maintained during the previous year a school offering high school subjects fully accredited by the State Board of Education.

A reasonable deviation from any of the requirements enumerated herein shall not operate to prohibit the State Board of Education from designating any district as independent if the other requirements are sufficiently superior to the minimum standards required herein, but standards therefor shall be reduced to writing and a copy thereof sent to all districts maintaining high schools in Oklahoma at least one (1) year prior to the time the requirements become effective. Until the effective date thereof, the requirements hereinabove enumerated shall remain in full force and effect. As a basis for attaining the status of independent school district, high schools shall be inspected by a member of the division of secondary education of the State Board of Education or such other representative as the State Board of Education shall designate, and all of the standards prescribed by the State Board of Education shall be carefully checked in the presence of the district superintendent of schools or board of education of the district. A written report shall be made and mailed to the district superintendent of schools and board of education within thirty (30) days after the time of such inspection. Such report shall indicate if the high school meets the requirements and, if not, a statement shall be made as to what must be done in order to comply therewith.

After any school district has become independent, it shall remain so until removed from independent status by the State Board of Education, which, however, shall not remove any school district from independent status until it is satisfied that the minimum standards for independent school districts are not being maintained. Any order of the State Board of Education removing a school district from independent status shall not become effective until the close of the fiscal year in which such order is made, and any order removing a school district from independent status which has heretofore been made by the State Board of Education, regardless of notice or effective date thereof, is hereby validated. A reasonable variation from year to year in the minimum number of teachers required shall not affect the status of any independent school district.

§70-5-103. Elementary school districts.

Elementary school districts shall offer grades kindergarten through eight and are those which have not met the minimum standards for, and have not been designated as, independent school districts by the State Board of Education. On and after July 1, 1991, every

place in the Oklahoma Statutes which refers to "dependent school district" shall mean "elementary school district".

No later than August 1, 1994, the State Board of Education shall promulgate rules to implement the provisions of this section.

§70-5-104. Designation of district retained on records - When.

Only for the purpose of identifying a district that originally incurred an indebtedness so as to avoid confusion in discharging such indebtedness, the designation of a district when an indebtedness was incurred may be retained in the records of the county assessor, county treasurer, and other public officials charged with the duty of levying and collecting taxes for the payment of obligations of school districts irrespective of whether such indebtedness has been assumed by another school district.

Laws 1971, c. 281, § 5-104, eff. July 2, 1971.

§70-5-105. School district - Body corporate - Powers.

Every school district shall be a body corporate and shall possess the usual powers of a corporation for public purposes by the name and style of "Independent (or Elementary, if it is an elementary school district) School District Number \_\_\_\_\_ (such number as may be designated by the State Board of Education) of \_\_\_\_\_ (the name of the county in which the district is located, or if lying in more than one county the name of the county where supervision is located) County, Oklahoma," and in that name may sue and be sued and be capable of contracting and being contracted with and holding such real and personal estate as it may come into possession of or by will or otherwise and as authorized by law.

B. The board may contract with a superintendent for a term as mutually agreed upon but not to exceed three (3) years beyond the fiscal year in which the contract is approved by the board and accepted by the superintendent. The contract shall include all other terms and conditions as agreed upon in writing by the board and the superintendent.

C. The boards of two or more school districts may contract with one superintendent to serve as superintendent of the school districts as provided in Section 4 of this act.

D. No board of a school district having average daily membership (ADM) of fewer than five hundred (500) pupils shall be prohibited from allowing a superintendent to serve simultaneously as a principal.

The contract may be mutual with all the districts as parties, or the contracts may be separate; provided, that a superintendent, administrator, teacher, or person providing support services may not enter into contracts with more than one school district without the assent and knowledge of all the school districts with which they are contracting. The districts who contract either mutually or separately with a superintendent, administrator, or teacher, or with a person to provide support services may enter into agreements upon such terms and conditions as the parties may agree and may include terms related to the division of payments for items including, but not limited to, payment of benefits or travel for the superintendent, administrator, teacher, or person providing support services. §70-5-107A. Boards of education of school districts - Membership - Election procedure.

The following provisions and the provisions of Section 13A-101 et seq. of Title 26 of the Oklahoma Statutes shall govern the election of members of the board of education for a school district:

A. For purposes of this section, temporary positions added to a board of education pursuant to Section 7-101 or 7-105 of this title and the chair of the board of education elected pursuant to Section 1 of this act shall not be considered in determining the size of the board. The number and term of each board of education shall be as follows:

District	Members	Term (Years)
Elementary	3	3
Independent		
1. Districts having a five-member board	5	5
2. Districts having a seven-member board unless an election is conducted pursuant to subsection C of this section	7	4

B. In all school districts, the members of the board of education shall be elected as follows:

1. a. Between August 1 and December 31 of the year following the submission by the United States Department of Commerce to the President of the United States of the official Federal Decennial Census, the board of education shall reapportion the territory of the school district into board districts. Beginning with the reapportionment following the 1990 Federal Decennial Census, all boundaries of board districts shall follow clearly visible, definable and observable physical boundaries which are based upon criteria established and recognized by the Bureau of the Census of the United States Department of Commerce for purposes of defining census blocks for its decennial census and shall follow, as much as is possible, precinct boundaries. Board districts shall be compact, contiguous and shall be as equal in population as practical with not more than a ten

percent (10%) variance between the most populous and least populous board districts.

- b. School districts having fewer than one thousand eight hundred (1,800) students in average daily membership during the preceding school year may choose not to establish board districts and may nominate and elect all board members at large.
- c. Elementary school districts shall have board members elected at large.
- d. A city located in an independent school district having four or more wards and an outlying area with such outlying area comprising no more than twenty percent (20%) of the population of such independent school district, then such independent school district may adopt such wards and outlying area in lieu of the board districts provided for in subparagraph a of this paragraph, and at least one member of the board of education of such independent school district shall be a member of each ward; and

2. One member of the board of education shall be elected by the electors of the school district to represent each such board district. Provided, however, that in any school district where the electors of each board district, rather than the electors of the entire school district, elect board members to represent that board district, that district shall elect board members in that manner.

If during the term of office to which a person was elected, that member ceases to be a resident of the board district for which the person was elected, the office shall become vacant and such vacancy shall be filled as provided in Section 13A-110 of Title 26 of the Oklahoma Statutes; and

3. In a school district having more than ten thousand (10,000) children in average daily membership, the following provision and the provisions of Section 13A-101 et seq. of Title 26 of the Oklahoma Statutes shall control as to election of the members of the school district's board of education:

- a. There shall be held an election in which the electors of each board district in which a term is expiring or in which a vacancy exists shall select two candidates from among the candidates for board member to represent the board district,
- b. If, in the election, one candidate has a majority of all votes cast, then a run-off election is not required. If no candidate receives a majority of all votes cast, then the two candidates receiving the greatest number of votes shall become the candidates for the board district in the general election, and

- c. At the run-off election, all of the electors of the board district shall select one of the two candidates as the member of the board of education representing the board district.

C. Any seven-member board shall have the option of reducing its board to a five-member board either after approval of a board resolution or a vote of the electors of the school district to take such action pursuant to Section 13A-109 of Title 26 of the Oklahoma Statutes. The election pursuant to a vote of the electors of the school district shall be called upon the submission of a petition requesting the election signed by ten percent (10%) of the school district electors in the school district, the percentage being applied to the highest number of voters voting in a regular school district election in the district in the preceding five (5) years as determined by the secretary of the county election board, who shall certify the adequacy of the number of signatures on the petition. If the question is put before the voters of the district, such election shall be held along with and at the same time and place as the next school election if all requirements of Section 13A-101 et seq. of Title 26 of the Oklahoma Statutes for such election are met.

After such resolution or election, the board shall reapportion the district, determining by resolution or by lot which board member offices shall be abolished at the end of the current board member's term and which shall become one of the offices of the new board.

Election of the resulting board members shall be carried out according to procedures stated in this section and Section 13A-101 et seq. of Title 26 of the Oklahoma Statutes.

School board members currently serving in offices abolished pursuant to this subsection shall continue serving until the end of their current terms as at-large members.

D. Except for the chair of the board of education elected pursuant to Section 1 of this act, offices of members of the board of education shall be designated by consecutive numbers and shall correspond with board districts when applicable.

E. Except for those members elected prior to July 1, 1992, the terms of office of the members of a five-member board of education shall commence on the first regular, special or emergency school board meeting after the date of the annual school election and after the member has been certified as elected:

Office No. 1	1991
Office No. 2	1992
Office No. 3	1993
Office No. 4	1994
Office No. 5	1995

The terms of office of the members of a seven-member board of education shall be staggered, with one member being elected in 1991, two members being elected in 1992, two members being elected in 1993

and two members being elected in 1994 and shall commence on the first regular, special or emergency school board meeting after the date of the annual school election and after the member has been certified as elected; provided, in districts needing to elect two members in 1991 to maintain a full complement of board members, two members shall be elected in 1991, one for a full term and one for a one-year term, as determined by the local board. If a seven-member board is formed upon consolidation pursuant to Section 7-105 of this title, or upon annexation pursuant to Section 7-101 of this title, the formation agreement shall specify initial short terms as necessary to extend until the beginning of the regular terms for seven-member boards established herein.

Upon reduction of a seven-member board pursuant to subsection C of this section, the terms of the five-member board shall be staggered pursuant to this subsection.

One member of a three-member board of education shall be elected each year, and the terms of office shall commence on the first regular, special or emergency school board meeting after the member has been certified as elected.

F. The term of office of each board member elected after July 1, 1992, shall commence on the first regular, special or emergency school board meeting after the date of the annual school election and after the member has been certified as elected. Board members elected prior to July 1, 1992, may remain in office until their successor is elected and seated pursuant to Sections 13A-101 through 13A-111 of Title 26 of the Oklahoma Statutes. The remaining term of any member who completes the term for which the member was elected but not wishing to serve until the successor of the member takes office on the first regular, special or emergency school board meeting after the successor has been certified as elected, shall be filled by appointment by the remaining members of the board of education.

A. The board of education of a district with an average daily membership (ADM) of more than thirty thousand (30,000) students may be expanded to add a member who shall be elected at large for a term

of four (4) years and who shall serve as chair of the board. The chair of the board position may be added upon a majority vote of the district board of education to add the position. If the board opts to add the chair of the board position, the chair of the board shall be elected at the next regular election of board members, held pursuant to Section 13A-103 of Title 26 of the Oklahoma Statutes, following the decision of the board.

B. The chair of the board of education shall possess the same qualifications as required for other board members, shall assume office as provided for other members of the board of education, shall be a full, voting member of the board, and shall count for purposes of a quorum or a majority, or other requirements based on number of members on the board. The chair shall preside at all meetings of the board of education in accordance with rules of parliamentary procedure which have been adopted by a majority vote of the board, provided that, in the absence of rules adopted by the board, the chair shall determine and set forth the rules of parliamentary procedure that shall apply at board meetings; assemble and control the agenda for board meetings, provided that, upon approval of a majority of the members of the board, an item shall be placed on the agenda for the same or a subsequent meeting, in accordance with the Oklahoma Open Meeting Act; appoint all committees whose appointment is not otherwise provided for by law; and shall sign all warrants ordered by the board of education to be drawn upon the treasurer for school money. The chair of the board shall possess all powers otherwise provided by law for a member of a board of education, all powers provided by law for the president of a board of education, and such other lawful powers as may be conferred upon the chair by majority vote of the board. The chair shall receive compensation and benefits as conferred upon other members of the district board of education.

C. For a district in which a chair of the board has been elected, the district board of education, during the meeting at which the chair of the board assumes office, shall elect a vice-chair who shall serve a one-year term and until a successor is elected and qualified. The vice-chair shall perform all duties of the chair of the board in case of the chair's absence or disability. The board shall also elect clerks and deputies as provided in Section 5-119 of this title. The board shall not elect a president or vice president.

D. If a district board of education is expanded to include the chair of the board position, the chair of the board position shall not be abolished except by a majority vote of the voters of the school district voting on such question at a special election called for that purpose. The question may be presented only upon a resolution adopted by three-fourths (3/4) of the board membership or upon petition for an election on the question, that complies with

the requirements for petition and election set forth in Section 7-101 of this title. If the question is approved, the chair of the board position shall be abolished at the end of the term of the chair who holds the office when the election is held or upon the chair's resignation or vacancy of the office following the election on the question.

Upon completion of the instructional requirements, the certificate of completion shall be included in the public records of the school board's minutes. Each school board member, except for an incumbent member, shall be required within fifteen (15) months following or preceding election to complete the workshop established by subsection A of this section or to attend twelve (12) hours of other state workshops, classes or seminars conducted as instruction on the subjects of school finance, legal issues, and the ethics, duties and responsibilities of district board of education members, including at least one (1) hour of instruction in school finance, one (1) hour of instruction in the Oklahoma Open Records Act and the Oklahoma Open Meeting Act and one (1) hour of instruction in ethics.

D. E. All government departments, agencies and institutions of this state are directed to lend assistance as may be required by the State Department of Education for the proper conduct and administration of the workshops as authorized in subsection A of this section. The State Department of Education shall maintain a permanent record of the instructional hours and continuing education hours earned for each district board of education member.

F. The State Department of Education, the Oklahoma Department of Career and Technology Education, and, upon approval of the State Board of Education, any organization or association representing district boards of education in this state are authorized to charge persons pledged to attend a workshop, class or seminar for purposes of meeting the instructional requirements of this section, a registration fee sufficient to defray the estimated costs of presenting the workshop, class or seminar and to collect the fees at the time of registration.

G. Any member of a district board of education or any individual elected, certified as the elected member by the county election board, but not sworn in and seated as a member of a district board of education at the time of a workshop, class or seminar presented by the State Board of Education, the Oklahoma Department of Career and Technology Education, or an organization or association representing district boards of education within the state who attends and successfully completes a workshop, class or seminar as required by subsection A or B of this section shall be reimbursed by the school district in accordance with the travel reimbursement policy of the district.

As determined by the State Board of Education pursuant to Section 5-110.2 of this title, failure by a board member to satisfy the continuing education requirements of this section shall result in the ineligibility of the member to be reappointed to, run for reelection to or to hold that respective board seat on the school district board of education or to run for election to or to hold any other board seat on the board of education for a two-year period.

E. The State Department of Education, the Oklahoma Department of Career and Technology Education, and any organization approved by the State Board of Education, including but not limited to institutions of higher education, may charge persons attending continuing education courses a registration fee sufficient to defray the estimated costs of presenting the course. The State Board of Education shall maintain records of attendance by school board members at continuing education events required pursuant to Sections 5-110 and 5-110.1 of this title. Prior to the final opportunity for each school board member who has not completed the continuing education requirements to complete the same, the Board shall notify the school board member and the school district superintendent by mail before March 1 of each year of any final opportunity to complete these requirements and the consequences of not completing the requirements. Upon determining that a school board member did not complete the continuing education requirements of Sections 5-110 or 5-110.1 within the respective period of time, the Board shall immediately notify by certified mail the school board member and the school district superintendent and inform the member of the violation of the continuing education requirements. The school board member shall have sixty (60) days after the date of receipt of the certified notice to complete the requirements. If the school board member does not complete the requirements by the end of the sixty-day time period, the school district board of education is required to declare the seat of that member vacant.

§70-5-113. Relation by affinity or consanguinity - Prohibition.

A. Except as otherwise provided in this section, no person shall be eligible to be a candidate for or serve on a board of education if the person is currently employed by the school district

governed by that board of education or is related within the second degree by affinity or consanguinity to any other member of the board of education or to any employee of the school district governed by the board of education. The purpose of this section is both to prohibit persons who are related within the second degree by affinity or consanguinity from serving simultaneously on the same board of education of any school district of this state and to prohibit persons who are related within the second degree of consanguinity or affinity to an employee of a school district from serving on the board of education governing the school district while such relative is employed except as otherwise provided in this section.

B. If the relationship is based on affinity, the prohibitions in this section shall not apply to prevent members of boards of education who are serving on September 1, 1995, from serving the term for which they were elected or from serving successive terms for which they may be elected, unless it is the member's spouse who is a member of the board of education or an employee of the school district, then such prohibitions shall apply.

C. The prohibitions set forth in this section shall not apply if:

1. The person related to the board member within the second degree of affinity or consanguinity is employed as a substitute teacher by the school district pursuant to the provisions of Section 6-105 of this title or as a temporary substitute support employee if the school district has an Average Daily Membership (ADM) of less than five thousand (5,000); or

2. The school district has an ADM of less than four hundred (400), the board of education has adopted a policy providing for such candidate eligibility and the board member who is related within the second degree by affinity or consanguinity to any employee of the school district governed by the board of education complies with the provisions of subsection E of Section 5-113.1 of this title.

D. Any member of a board of education who violates the provisions of this section shall be subject to the penalties prescribed by Sections 485 and 486 of Title 21 of the Oklahoma Statutes.

§70-5-113.1. Relation by consanguinity or affinity with school board member prohibited in employment or contracts - Exemptions - Executive sessions of board - Collective bargaining agreements.

A. Except as otherwise provided in this section, no person may be employed or put under contract by a school district if that person is related to a member of the board of education of that school district within the second degree of consanguinity or affinity. A teacher or employee already under contract to or otherwise employed by the school district at the time the relationship is established may continue in said employment. Except as otherwise provided, a board member already serving at the time the relationship is established may serve out the term for which the member was elected but shall not be eligible to be a candidate for or serve successive terms of office for which the member may be elected.

B. The provisions of this section shall not prevent a board member from serving successive terms of office if otherwise eligible under the provision of Section 5-113 of this title. No member of the board of education who has resigned from the board before the term of the person has expired may be reappointed to the board to complete the remainder of the term if a teacher or employee related to the resigned member of the board within the second degree of consanguinity or affinity was put under contract or otherwise employed by the school district after the board member resigned.

C. The provisions of this section shall not prevent a person who is related to a member of the board of education within the second degree of consanguinity or affinity from being employed by the school district as a substitute teacher pursuant to the provisions of Section 6-105 of this title or as a temporary substitute support employee if the school district has an Average Daily Membership (ADM) of less than five thousand (5,000).

D. The provisions of this section shall not prevent a person who is related to a member of the board of education within the second degree of consanguinity or affinity from being employed by the school district if the school district has an Average Daily Membership (ADM) of less than four hundred (400) and the board of education has adopted a policy providing for such employment.

E. Any member of a board of education who is related to a teacher or other employee of the district within the second degree of consanguinity or affinity shall not attend or participate in any regular or executive session of the board held to consider any personnel matter or litigation relating to said teacher or employee. The member may vote on collective bargaining agreements or the renewal of contracts as a group if the vote is necessary to form a quorum of the board of education members. If more than one member of the board of education is related to a teacher or employee, only the minimum number of those members which is necessary to form a quorum shall be allowed to vote. Each board of education so affected shall adopt a written policy establishing procedures on

when such a member may vote on the renewal of contracts or collective bargaining agreements.

F. Any member of a board of education who violates the provisions of this section shall be subject to the penalties prescribed by Sections 485 and 486 of Title 21 of the Oklahoma Statutes.

§70-5-113.2. Board member involved in certain litigation may be denied participation in executive sessions of school board.

Any school board member who, before serving or while serving on the board of education, initiated litigation against the school district, school board of education, or an individual board member of the board of education on which he/she serves, or who is a governing member of a group, organization, or entity that has authorized and initiated litigation against that school district, school board of education, or an individual board member of the board of education on which he/she serves, may be excluded upon a majority vote of the board members from any executive session where the litigation is discussed or from any other form of participation in the board's defense of the litigation, including any vote on issues related to that legal action.

§70-5-114. County treasurer as district treasurer - Local and assistant local treasurer - Estimate of needs - Charge for services.

A. The county treasurer of each county shall be the treasurer of all school districts in the county, except that the board of education of a school district may appoint a local treasurer for the school district and, in its discretion, an assistant local treasurer of the district, each of whom shall serve at the pleasure of the board for such compensation as the board may determine. The assistant local treasurer may perform any of the duties and exercise any of the powers of the local treasurer with the same force and effect as if the same were done or performed by the local treasurer. Before entering upon the discharge of the duties of the assistant treasurer, the assistant treasurer shall give a bond in such amount as the board of education may designate, with good and sufficient sureties to be approved by the board, conditioned for the faithful

performance of his or her duties. A local treasurer or assistant local treasurer need not be a resident of the school district where appointed to serve, although any local treasurer or assistant local treasurer shall be a resident of this state. Nothing herein shall prevent a local treasurer or assistant local treasurer from being appointed for more than one school district.

B. Whenever a county treasurer is designated as the treasurer for a school district, the county treasurer may elect to charge for such services. If charges are assessed, the treasurer shall prepare a special estimate of needs each fiscal year, covering all expenditures of the office on behalf of any school districts for which the county treasurer serves as treasurer. The estimate for treasurer services shall be itemized by personal services and maintenance and operation expenditures and shall be filed with the county excise board. In reviewing and approving this estimate, the county excise board shall authorize and levy amounts for treasurer services which in the judgment of the board will be sufficient to perform the services. The board shall apportion the cost among the school districts for which the treasurer services are to be charged in the ratio which each school district's total appropriations for the preceding year bears to the total appropriations of all such school districts receiving treasurer services for the preceding year. The amounts shall be included in, or added to, the estimates of needs or budget of each such school district. The amount as approved and appropriated by the county excise board shall be paid by the school district, by appropriate warrants, to the county for deposit in the county general fund.

§70-5-115. Local treasurer - Surety bond - Duties - Cash and investment ledgers.

A. Unless the context clearly shows otherwise, the term "treasurer", as used in this section, includes a county treasurer acting as the treasurer of a school district pursuant to the provisions of Section 5-114 of this title. The treasurer so appointed shall execute, before entering upon the duties of the office of the treasurer, a surety bond in an amount which it is estimated by the board of education the treasurer will have on hand at any one time during the current year, and the amount of securities held as investments shall not be considered. The board of education is empowered to require the treasurer to increase or decrease the bond of the treasurer as the amount of funds on hand may require. Provided, the bond of a school district shall not, in

any event, be required to be in an amount greater than that of the county treasurer of the county. The premium on the bond shall be paid by the board of education out of district funds. Provided, however, the treasurer of such district shall require the depository wherein school district funds are deposited to insure or guarantee the deposit by proper securities, which shall be of the same class of securities as are required to insure deposits of county treasurers of the various counties, and the securities shall be pledged, taken and kept in the manner provided by Sections 517.1 through 517.7 of Title 62 of the Oklahoma Statutes.

B. In all districts which are permitted by law to select a local treasurer, the county treasurer shall act as treasurer thereof until such time as a local treasurer shall be appointed and has executed the surety bond required by this section. In no instance in which the county treasurer is the treasurer of any school district shall any additional bond be required, but the official bond of the county treasurer shall stand for any and all funds and securities coming into the hands of the county treasurer.

C. The local treasurer of a district, when required by the board of education, shall prepare and submit in writing a report of the condition of the finances of the district and shall produce at any meeting of the board or to any committee appointed for the purpose of examining the accounts of the treasurer all books and papers pertaining to the office of the treasurer. Upon failure to make reports as provided for herein or as may otherwise be required by law, the board may at any regular or special meeting thereof summarily suspend the treasurer, and while so suspended the treasurer shall perform no act pertaining to the office of the treasurer. Such suspension shall continue until ended by order of the board or by judgment of a court of competent jurisdiction.

D. The local treasurer of a school district shall keep a separate cash ledger for each fund in the custody of the treasurer. The local treasurer shall enter each collection and disbursement in the cash ledger of the applicable fund by recording the date and classification of each transaction and such other information as may be deemed desirable. Additional ledgers shall also be maintained to record the investments made from each fund. Such investment ledgers shall disclose the date, description and principal amount paid for each investment purchased and the date and principal amount received for each investment liquidated.

E. Upon suspension by the board, the treasurer shall immediately turn over to the board of education or to the acting treasurer if one has been appointed by the board, all books and papers and other property pertaining to the office of the treasurer.

F. Except as otherwise provided by law, no treasurer of any district shall pay out school district funds in the care of the treasurer except upon warrants signed by the proper school district

officials authorized by the law to sign such warrants, provided, this restriction shall not apply to sinking funds or to the investment of school district funds. Authorized sinking fund payments and payment for investments or receipt of liquidated investments may be made by check, wire transfer or other instrument or method through the Federal Reserve System.

G. The board of education shall, each month, set aside funds to an operating account and to an investment account. Investments by the treasurer shall be made in accordance with a written policy adopted by the board of education. The written investment policy shall address liquidity, diversification, safety of principal, yield, maturity, quality of the instrument, and capability of investment management. Acting within the investment policy, the treasurer shall place primary emphasis on safety and liquidity in the investment of funds. Taking into account the need to use sound investment judgment, school districts shall, to the extent practicable, use competitive bids when they purchase direct obligations of the United States Government or other obligations of the United States Government, its agencies or instrumentalities. Such system shall be designed to maximize yield within each class of investment instrument, consistent with the safety of the funds invested. The board of education must review the investment performance of the treasurer on a regular basis and no less than each month. The treasurer of every school district shall invest the full amount of the investment account in:

1. Direct obligations of the United States Government to the payment of which the full faith and credit of the Government of the United States is pledged; provided, a treasurer of a school district who has completed the program pursuant to the provisions of subsection H of this section may invest funds in the investment account in other obligations of the United States Government, its agencies or instrumentalities;

2. Obligations to the payment of which the full faith and credit of this state is pledged;

3. Certificates of deposits of banks when such certificates of deposits are secured by acceptable collateral as in the deposit of other public monies;

4. Savings accounts or savings certificates of savings and loan associations to the extent that such accounts or certificates are fully insured by the Federal Savings and Loan Insurance Corporation. Provided, that the income received from the investments may be placed in the general fund of the governmental subdivision to be used for general governmental operations;

5. Repurchase agreements that have underlying collateral consisting of those items specified in paragraphs 1 and 2 of this subsection including obligations of the United States, its agencies and instrumentalities, and where the collateral has been deposited

with a trustee or custodian bank in an irrevocable trust or escrow account established for such purposes;

6. County, municipal or school district direct debt obligations for which an ad valorem tax may be levied or bond and revenue anticipation notes, money judgments against such county, municipality or school district ordered by a court of record or bonds or bond and revenue anticipation notes issued by a public trust for which such county, municipality or school district is a beneficiary thereof. All collateral pledged to secure public funds shall be valued at no more than market value. The income received from an investment may be placed in the general fund of the governmental subdivision to be used for general governmental operations, the sinking fund, the building fund, or the fund from which the investment was made;

7. Money market mutual funds regulated by the Securities and Exchange Commission and which investments consist of obligations of the United States, its agencies and instrumentalities, and investments in those items and those restrictions specified in paragraphs 1 through 6 of this subsection;

8. Warrants, bonds or judgments of the school district;

9. Qualified pooled investment programs, the investments of which consist of those items specified in paragraphs 1 through 8 of this subsection, as well as obligations of the United States agencies and instrumentalities, regardless of the size of the district's budget. To be qualified, a pooled investment program for school funds must be governed through an interlocal cooperative agreement formed pursuant to Section 5-117b of this title, and the program must competitively select its investment advisors and other professionals. Any pooled investment program used must be approved by the board of education; or

10. Investment programs administered by the State Treasurer.

H. The board of education is hereby empowered to require the treasurer to satisfactorily complete an investment education program approved by the State Board of Education and the State Board of Career and Technology Education. Such program shall be designed to allow treasurers to make informed decisions regarding the safety, return, liquidity, costs and benefits of various investment options allowed under this section.

I. The income received on an investment may be placed in the fund from which the investment was made, the general fund, the building fund, or the sinking fund.

Upon the expiration of the term of office, the treasurer shall deliver check or warrant registers to the succeeding treasurer, and each successor in office shall act as though check or warrant entries were registered by the successor, who shall continue registration of all district checks or warrants. If a check or warrant cannot be paid for want of sufficient funds, a district may enter into an agreement not to extend beyond the current fiscal year with the depository bank to honor payment of these checks at an annual rate of interest as negotiated by the district and depository bank, which shall not exceed a rate equal to five percent (5%) above the average United States Treasury Bill rate of the preceding calendar year as determined by the State Treasurer on the first regular business day of each year.

B. Whenever the superintendent or any officer or other employee of any school district is required to furnish a surety bond as a

prerequisite to employment as provided for in this section or any other law, the requirement as to terms, conditions, penalty, amount or quality or type of surety shall be deemed to mean the furnishing of a separate bond or surety contract for each individual officer or employee, or the furnishing of a "blanket bond". For purposes of this section, "blanket bond" means a school district officer and employees blanket position bond which covers all officers and employees up to the penalty of the bond for each officer and employee and the full penalty of the bond is always enforced during its term and no restoration is necessary and there is no additional premium after a loss is paid.

C. All surety bonds as required by this section or other laws shall be furnished by a company duly qualified under the insurance laws of this state and shall be purchased by the school district. Each surety bond shall be payable to the school district and, whenever possible, conditioned on the faithful performance of the duties of the individuals covered during their employment or term of office and that they will properly account for all monies and property received by virtue of their position or employment. Added by Laws 1994, c. 222, § 1, eff. Sept. 1, 1994. Amended by Laws 2009, c. 250, § 2, eff. July 1, 2009.

  - (1) if a board of education receives a bid or offer in a public sale, public bid or private sale for any real or personal property that it desires to accept, then it shall provide notice to the lessee of the property. The notice shall include the identity of the prospective purchaser of the property, the terms and conditions of the proposed sale and the purchase price to be paid by the prospective purchaser, and
  - (2) the lessee shall have thirty (30) days after receipt of the notice to inform the board of education that it elects to purchase the property on the same terms and conditions set forth in the notice, in which event the board of education shall convey the property to the lessee on all the same terms and conditions set forth in the notice; provided, however, that if any portion of the consideration included in the purchase price set forth in the notice is not in cash, then the lessee shall be entitled to pay the fair market value in cash of such noncash consideration;

12. Purchase necessary property, equipment, furniture and supplies necessary to maintain and operate an adequate school system;

13. Incur all expenses, within the limitations provided for by law, necessary to perform all powers granted by the provisions of this section;

14. Contract with and fix the duties and compensation of physicians, dentists, optometrists, nurses, attorneys, superintendents, principals, teachers, bus drivers, janitors and other necessary employees of the district;

15. Establish a written policy for reimbursement of necessary travel expenses of employees and members of the board. The policy may include in-district travel from the site of employment assignment which is necessary in the performance of employment duties. The written policy shall specify procedures, contain documentation requirements, and may include payment of meal expenses during authorized travel on a per diem allowance basis rather than itemized documentation;

16. Pay necessary travel expenses and other related expenses of prospective employees for sponsored visits to the school district pursuant to a written policy specifying procedures containing documentation requirements equal to or greater than the requirements specified by law for state employees in the State Travel Reimbursement Act;

17. Provide for employees' leaves of absence without pay;

18. Exercise sole control over all the schools and property of the district, subject to other provisions of the Oklahoma School Code;

19. Allow district-owned school buses to be used for transportation of students from other districts or educational institutions while within the district on educational tours. This shall not restrict the authority of the board to authorize any other use of such buses which may now be permitted by law or rule of the State Board of Education;

20. Enter into contractual agreements with the board of trustees of a multicounty library system, as defined in Section 4-103 of Title 65 of the Oklahoma Statutes, a city-county library commission, as defined in Section 152 of Title 65 of the Oklahoma Statutes, or a rural single county library system, as defined in Section 1-104 of Title 65 of the Oklahoma Statutes, on such terms as may be mutually agreed, except no district board of education may enter into any agreement under which the library services for the school would be provided at any site other than the school site or which would result in library services that do not meet accreditation standards as required by law or rule;

21. Perform all functions necessary to the administration of a school district in Oklahoma as specified in the Oklahoma School Code, and in addition thereto, those powers necessarily implied but not delegated by law to any other agency or official;

22. Prepare and distribute at the expense of the school district any and all material which has the purpose of informing the public about district activities;

23. Solicit and accept any gift, grant, or donation of money or property for the use of the school district. Any gift, grant, or donation of money may be deposited in the general fund or building fund of the school district; and

24. Pay necessary meal and lodging expenses of school district students and sponsors involved in authorized school-sponsored cocurricular activities. The board of education shall establish a written policy for reimbursement of necessary meal and lodging expenses of school district students and sponsors. The written policy shall specify procedures, contain documentation requirements, and designate the funds from which reimbursement may be made. Reimbursement may be made from the General Fund.

B. The board of education of any school district may rent real and personal property, if such items are necessary for the operation of the school, and pay the rental charges for the usage during any fiscal year, or portion thereof, out of appropriations made and approved for current expense purposes during the fiscal year. Any rental contract extending beyond June 30 of the fiscal year shall be void unless it contains provisions for mutual ratification of renewal pursuant to the conditions provided for in this subsection. It is the intent of this subsection to authorize boards of education to enter into lease contracts but not to incur any obligation against the school district in excess of the income and revenue provided for such purposes for the fiscal year in which the lease contract is operative. Any lease or lease-purchase agreement entered into by any board of education shall state the purchase price of real or personal property so leased. The lease or lease-purchase shall not be extended so as to cause payment of more than the original purchase price of the real or personal property, plus interest not to exceed the legal rate. When the purchase price plus interest has been paid, the property shall belong to the lessee and the lessor shall deliver a deed or bill of sale to the property to the lessee. When any real or personal property has been leased or rented during any fiscal year pursuant to the provisions of any contract which permits continuance of the rental for the remainder of the fiscal year, the renting or leasing of the property shall be continued for the remainder of the fiscal year unless the board of education renting or leasing the same certifies by proper resolution entered in the minutes of the board of education that the continuance of the rental is unnecessary and contrary to the public interest. Any lease-purchase agreement entered into shall include the right of a school district to acquire buildings, equipment or other facilities or discrete components thereof or improve school sites through a lease-purchase agreement. A school district may use

proceeds derived from the sale of bonds as authorized by Section 26 of Article X of the Oklahoma Constitution to make lease-purchase payments, including interest, under a lease-purchase agreement. For purposes of this subsection, the term "acquired" as used in Section 26 of Article X of the Oklahoma Constitution shall mean the possession, control, or power to dispose of personal or real property.

C. The boards of education of two or more school districts may enter into cooperative agreements and maintain joint programs including, but not limited to, courses of instruction for handicapped children, courses of instruction in music and other subjects, practical instruction for trades and vocations, practical instruction in driver training courses, and health programs including visual care by persons legally licensed for such purpose, without favoritism as to either profession. The revenues necessary to operate a joint program approved in cooperative agreements, whether from federal, state or local sources, including the individual contributions of participating school districts, shall be deposited into a fund separate from all other appropriated funds. The beginning fund balance each year, combined with all actual revenues, including collected and estimated revenues, must be appropriated before being expended. Purchase orders shall be issued against available appropriations and, once goods or services have been received, either payable or nonpayable warrants shall be issued in payment of all purchase orders. The fund shall be reported as a separate appropriated fund in all the financial reports of the school district which is chosen by the other school districts to keep the accounting records of the joint program.

D. The boards of education of two or more school districts may enter into a mutual contract or separate contracts with a superintendent, administrator, or teacher or with a person to provide support services, to serve as superintendent, administrator, or teacher, as appropriately qualified, or to provide support services, for each contracting district upon such terms and conditions as the parties may agree. Nothing in this section shall be construed to authorize or require annexation or consolidation of any school districts or the closing of any school site except pursuant to law as set forth in Section 7-101 et seq. of this title.

E. Any school district may operate or maintain a school or schools on any military reservation which is within the boundaries of the school district or which is adjacent to the school district, and provide the instruction in the school or schools to children of personnel on the military reservation and, in doing so, shall conform to all federal laws and requirements.

F. The board of education of each school district shall adopt and maintain on file in the office of the superintendent of schools

appropriate personnel policy and sick leave guide. The guide shall be made available to the public.

G. The board of education of any school district with an average daily membership of thirty thousand (30,000) or more and all or part of which school district is located in a county having more than five hundred thousand (500,000) population according to the latest Federal Decennial Census may contract with a public or private nonsectarian entity for that entity to provide educational and administrative services for the school district. The educational services provided by a contracting entity may include but are not limited to the delivery of instructional service in core and noncore academic subjects to the students enrolled in the school district at one or more school sites or parts of sites within the district pursuant to the terms of an educational services contract. All educational service providers and their employees and representatives and all educational and administrative services provided under an educational services contract shall be exempt from all statutes and rules relating to schools, boards of education and school districts to the same extent that a charter school is exempt under the Oklahoma Charter Schools Act. For all purposes including but not limited to attendance, funding from all sources and accountability, all students who are provided services by a contracting entity pursuant to an educational services contract shall at all times be and remain students of the school district. 1. The transfer of students between the two school districts;
2. The payment and acceptance of transfer fees for students transferred between the two school districts, the amount of which will be agreed upon by the boards of education thereof;

A. Each local board of education shall, after convening an advisory council that includes teachers and parents, and after holding at least one public hearing, adopt a six-year school improvement plan for the district. Each school improvement plan shall include stated goals that clearly delineate educational expectations, and shall be annually monitored and updated as necessary. The alternative education plan for the school district as required in subsection B of Section 1210.566 of this title shall be included in the school improvement plan. The plan shall also include a specific program of improvement through academic skill reinforcement and/or remediation pursuant to the provisions of the Oklahoma School Testing Program Act. §70-5-117.5. Employee health insurance plans.

A. The board of education of each school district in this state shall provide a health insurance plan for the employees of the school district. School districts may obtain health and dental insurance coverage as provided for in the State and Education Employees Group Insurance Act or may obtain other health insurance coverage. Any school district that does not participate in the health and dental insurance plans offered through the State and Education Employees Group Insurance Act shall obtain health insurance coverage for the employees which provides open enrollment, and provide for the continuation of health insurance coverage, including supplemental Medicare insurance coverage, for those district employees who retire from said district after September 30, 1991, with a vested benefit in the Teachers' Retirement System of Oklahoma. A retired person who begins receiving benefits from the Teachers' Retirement System of Oklahoma after September 30, 1991, who retires from a school district that provides other health insurance coverage, and who elects to continue said health insurance coverage shall pay to the school district the premium rate for the health insurance minus an amount equal to the premium rate of the Medicare supplement or the amount determined pursuant to subsection (4) of Section 1316.3 of Title 74 of the Oklahoma Statutes, whichever is less, which shall be paid by the Teachers' Retirement System of Oklahoma to the school district. The school district shall remit to the health insurance coverage provider the total premium due less any uncollected amounts payable from retired school district employees or their qualified survivors.

B. A school district that participates in health insurance coverage other than the health insurance plan offered by the State and Education Employees Group Insurance Act shall not be required to pay any portion of the premiums for the employees or the dependents of the employees of said school district, except as may otherwise be provided by law. Unless a school district negotiates an agreement with its employees regarding health insurance pursuant to Sections 509.1 through 509.9 of this title, and to the extent that the agreement provides for the members of the recognized bargaining unit, a school district that participates in health insurance

coverage other than the health insurance plan offered by the State and Education Employees Group Insurance Act is prohibited from acquiring additional or supplemental health or dental insurance for any board member, school superintendent or any other employee which is not available to all employees of said district, and said school district shall not pay a greater portion of the employee or dependent premium for any health or dental insurance plan or plans provided by said school district on behalf of any board member, school superintendent or employee than that portion paid on behalf of all participating employees of said district.

C. If a school district obtains health insurance coverage from a source other than through the State and Education Employees Group Insurance Act, the employees of the school district who would be eligible to participate in the health and dental plans may require the board of education of the school district to call an election to allow said employees to vote as to whether the school district shall participate in the health and dental insurance plans offered through the State and Education Employees Group Insurance Act. Upon the filing with the board of education of a petition calling for such an election which is signed by no less than thirty percent (30%) of the eligible employees of the school district, the board of education shall call an election for the purpose of determining whether the school district shall participate in the health and dental insurance plans offered through the State and Education Employees Group Insurance Act. The election shall be held within thirty (30) days of the filing of the petition. If a majority of those eligible employees voting at the election vote to participate in the health and dental insurance plans offered through the State and Education Employees Group Insurance Act, the board of education of the school district shall apply for such participation within thirty (30) days of the election.

D. If a school district does not have any health insurance coverage of the type required by this section, that school district shall immediately be enrolled in the health and dental insurance plans offered through the State and Education Employees Group Insurance Act.

E. A carrier providing health insurance coverage for employees of a school district health insurance group which replaces a previous carrier for such school district employees shall provide coverage for each retired employee who is receiving a benefit or terminates employment with a vested benefit from the Teachers' Retirement System of Oklahoma and who is enrolled in the health insurance group by the previous carrier at the time the previous carrier providing health insurance coverage is replaced. Notwithstanding any provision in this section to the contrary, any person who retires pursuant to the provisions of the Teachers' Retirement System of Oklahoma prior to May 1, 1993, or terminates

service with a vested benefit, pursuant to the provisions of the Teachers' Retirement System of Oklahoma prior to May 1, 1993, may continue to participate in the health and dental plans authorized by the provisions of the State and Education Employees Group Insurance Act.

F. In the event a school district ceases to exist, the assets and duties of said school district are transferred to one or more other school districts, said other school district or districts do not agree to employ all of the former employees of the school district that is ceasing to exist, and said former employees who are not being reemployed have rights under federal or state law to continue group insurance coverage, the school district receiving all or a portion of the assets and duties of the annexing school district having the largest general fund revenue for the most recent preceding fiscal year for which data is available shall provide group insurance coverage to said former employees not being retained during the period as required by law.

G. Any member of a district board of education who terminates service on or after July 1, 2002, who has served ten (10) or more years as a district board of education member in this state, and who is participating at the time of termination in a health and/or dental insurance plan offered by the school district, may elect upon termination of such service to continue participation in the health and/or dental insurance plan that the member was participating in at the time of termination. The election provided in this subsection shall be made within thirty (30) days from the date of the school board member's termination of service. The school board member shall pay the full cost of the insurance premium for such after-termination coverage at the rate and pursuant to the terms and conditions of such health and/or dental plan.

Added by Laws 1988, c. 165, § 1, operative July 1, 1988. Amended by Laws 1991, c. 219, § 1, emerg. eff. May 22, 1991; Laws 1993, c. 359, § 1, eff. July 1, 1993; Laws 2001, c. 151, § 1, eff. July 1, 2001.

§70-5-117.6. Regulation of dogs running at large.

The board of education of any school district which has property that lies outside the boundaries of a municipality may regulate or prohibit dogs from running at large on such property or on public property within five hundred (500) feet of such property, and cause the dogs to be impounded and may authorize the humane killing or disposal of such dogs. The board of education may contract for the control of such dogs.

Added by Laws 1996, c. 116, § 1, eff. Nov. 1, 1996.

§70-5-117.7. Casualty and flood insurance recovery fund to purchase high-deductible property insurance policy.

A. Pursuant to the powers and duties granted by paragraph 8 of subsection A of Section 5-117 of Title 70 of the Oklahoma Statutes, the board of education of each school district may establish a casualty and flood insurance recovery fund for the purpose of purchasing a high-deductible property insurance policy.

B. Monies for the casualty and flood insurance recovery fund shall be transferred from the school district general fund, as defined in Section 1-117 of Title 70 of the Oklahoma Statutes. The amount of monies transferred from the general fund shall not exceed the amount of the high-deductible property insurance policy deductible.

Added by Laws 2024, c. 12, § 1, eff. July 1, 2024.

§70-5-117a. Contracts for supplies, equipment or materials - Bidders to provide information as to manufacturer and country of origin of supplies, equipment and materials - Exemptions.

A. Any board of education for a school district may require each bidder for a school district contract for supplies, equipment or materials to provide information as to the manufacturer and country of origin of any supplies, equipment or materials for the school district as specified by labels attached to the supplies, equipment or materials where such identification is required by federal or state law.

B. Any school district contract for the purchase of supplies, equipment or materials may require the contractor to obtain from all of his subcontractors information as to the manufacturer and country or countries of origin of any such supplies, equipment or materials provided to the school district as specified by labels attached to the supplies, equipment or materials where such identification is required by federal or state law.

C. The provisions of this section shall not apply to:

1. Component parts or accessories; or

2. The purchase of supplies, equipment or material by any board of education, if such purchase is made through an open market contract or a statewide contract executed by the Office of Management and Enterprise Services.

Added by Laws 1992, c. 205, § 3, eff. July 1, 1992. Amended by Laws 2012, c. 304, § 597.

§70-5-117b. Interlocal cooperative agreements.

A. The boards of education of any two or more school districts may enter into an interlocal cooperative agreement for the purpose of jointly and comparatively performing any of the services, duties, functions, activities, obligations, or responsibilities which are authorized or required by law to be performed by school districts of this state. Two or more school districts may enter into an interlocal cooperative agreement for the purpose of forming buying

pools and purchasing cooperatives. As used in this section, "interlocal cooperative agreement" means an agreement which is entered into by the boards of education of two or more school districts pursuant to the provisions of this section. This section shall not prohibit school districts from entering into cooperative agreements authorized under Section 5-117 of this title or interfere with existing cooperative agreements between school districts. If the boards of education of any two or more school districts enter into an interlocal cooperative agreement the following conditions may apply:

1. An interlocal cooperative agreement shall establish a board of directors which shall be responsible for administering the joint or cooperative undertaking. The agreement shall specify the organization, terms, and composition of, and manner of appointment to, the board of directors and shall make provision for restructuring or terminating the board upon partial or complete termination of the agreement. The board of directors shall be selected by the board of education of each contracting school district and may include but not be limited to a board member, administrator, or teacher from each contracting school district. Vacancies in the membership of the board of directors shall be filled within thirty (30) days from the date of the vacancy in the manner specified in the agreement. Provided, however, an interlocal cooperative agreement entered into pursuant to this act for the purpose of providing insurance for Oklahoma educational institutions shall maintain at least one of each of the following positions on the board of directors:

3. An interlocal cooperative agreement shall be subject to change or termination by a recommendation of the State Board of Education;

4. The duration of an interlocal cooperative agreement for joint or cooperative action in performing any of the services, duties, functions, activities, obligations, or responsibilities, other than the provision of special education services, which are

No powers, privileges, or authority with respect to the levy and collection of taxes or the application for or receipt of State Aid formula money, or the issuance of bonds shall be created or effectuated for joint exercise pursuant to the provisions of an interlocal cooperative agreement; and

8. Payments from the general fund of each school district which enters into any interlocal cooperative agreement for the purpose of financing the joint or cooperative undertaking provided for by the agreement shall be operating expenses.

Such funds shall be deposited to the credit of the account maintained for the benefit of the particular activity within the school activity fund. Deposits of funds subject to the requirements of this section shall be made by the end of the next business day; however, if the deposit for a day totals less than One Hundred Dollars (\$100.00), a school district may accumulate monies required to be deposited into the fund on a daily basis until the total accumulated balance of deposits equals or exceeds One Hundred Dollars (\$100.00). Receipts for all expenditures of the cash advances shall be kept and turned in to the custodian of the school activity fund following said trip.

The board of education of every school district in this state is hereby authorized to provide educational courses for all persons and said board is authorized to provide necessary buildings, equipment, and other facilities for such persons. Such educational courses may include grades one to twelve, inclusive, for persons between the ages of six (6) and twenty-one (21) years and may also include nursery and kindergarten classes, junior college grades, vocational and technical instruction, adult and part-time classes and other special classes. The curricula and qualifications of teachers shall be determined by the State Board of Education except as otherwise provided herein. §70-5-131.1. Sewage disposal systems.

The board of education of any school district, which by reason of its location is unable to secure service from a municipally owned sewer system, is hereby authorized to design, construct, own and operate a sewage disposal system of such type and size as will be best suited to the needs of the particular school district. The board of education of any such school district is also authorized to accept from the state, federal government, or any agency, department or instrumentality of either, grants for or in aid of the construction and engineering of any such sewage disposal system.  
Laws 1977, 1st Ex.Sess., c. 1, § 25, emerg. eff. June 21, 1977.

§70-5-131.2. Energy conservation contracts.

A. As used in this section, "energy conservation measures" means one or more of the following items:

1. Insulation of the building structure or systems within the building;
2. Storm windows or doors, caulking or weather-stripping, multiglazed windows or doors, heat-absorbing or heat-reflective, glazed, and coated window or door systems, additional glazing, reductions in glass area, or other window and door system modifications that reduce energy consumption;
3. Automatic or computerized energy control systems;
4. Heating, ventilating or air conditioning system modifications or replacements;
5. Replacement or modification of lighting fixtures to increase the energy efficiency of the lighting system, but not for the sole purpose of increasing the overall illumination of a facility, unless an increase in illumination is necessary to conform to the applicable state or local building codes for the lighting system after the proposed modifications are made;

6. Indoor air quality improvements;
7. Energy recovery systems;
8. Energy awareness education programs; and
9. Water-metering devices that increase efficiency or accuracy of water measurement and reduce energy consumption.

B. The board of education of any school district in compliance with the provisions of this section, may enter into an energy conservation contract for the purpose of implementing energy conservation measures designed to reduce the energy consumption of school facilities.

C. 1. The board of education shall require the provider of the energy conservation measures to file with the board of education a performance bond that is in an amount the board finds reasonable and necessary to protect the interests of the board and that covers the value of the guaranteed savings on the contract and is conditioned on the faithful execution of the terms of the contract.

2. If bonding industry limitations prevent execution of a performance bond which covers guaranteed savings for the entire term of the lease-purchase agreement the contract may allow an option for:

- a. a performance bond which covers guaranteed savings for a shorter term. At the completion of the bond term, a new bond may be executed which covers guaranteed savings for an additional period of years. This process may be continued in like manner for the duration of the lease-purchase agreement as specified by subsection D of this section, or
- b. a performance bond which covers guaranteed savings for a shorter term. At the completion of the bond term, if the bond cannot be renewed as provided in subparagraph a of this paragraph and if there has been a guaranteed savings shortfall during the last twelve (12) months, the board of education may assume a continued annual shortfall of the same amount and request repayment from the contractor of the net present value of the shortfall through the end of the lease repayment period. The discount factor to calculate the net present value shall be the annual percentage rate of the lease-purchase agreement.

D. 1. The board of education may enter into an energy conservation contract for a period of more than one (1) year for the implementation of energy conservation measures with a person or business entity if the board of education finds that the amount the school district would spend on the energy conservation measures, excluding any initial partial payment, will not exceed the total savings over the repayment period of the energy conservation contract from the date of installation.

2. The term of the energy conservation contract and the lease-purchase agreement shall include the installation period and the lease repayment period.

3. If the term of an energy conservation contract exceeds one (1) year, the contractual obligation of the school district, excluding any initial partial payment, in any year during the term of the energy conservation contract may not exceed the total savings including, but not limited to, electrical, gas, or other utility cost savings and savings from lowered maintenance, as determined by the board of education. Savings shall be guaranteed by the entity providing the energy conservation measures.

4. Energy conservation contracts shall not permit the carry-forward of savings above the guaranteed amount from one year to a future year shortfall.

5. Maintenance for energy conservation measures may be a part of the energy conservation contract.

6. The board of education shall consider all costs of the energy conservation measures, including costs of design, engineering, installation, maintenance, maintenance tools and equipment, spare parts, repairs, and debt service.

E. In addition to any other provisions, the energy conservation contract shall:

1. Provide that all savings should be tracked and audited by the contractor with an annual report provided to the board of education along with a payment by the provider for reimbursement of savings not realized;

2. Be for a term of years that is not less than the term of years of any associated lease-purchase agreement;

3. Provide that the board of education may terminate the agreement for nonperformance by the contractor;

4. Contain a nonappropriation clause; and

5. Contain a baseline calculation and an energy savings calculation. The calculations shall be performed in accordance with the procedures used by the International Protocol for Measurement and Verification Procedures (IPMVP) or succeeding standard of the United States Department of Energy.

F. 1. An energy conservation contract, with respect to existing buildings or facilities, may be funded through a lease-purchase agreement that meets federal tax requirements for tax-free municipal leasing or long-term financing.

2. The repayment period of the lease-purchase agreement shall not exceed the greater of twenty (20) years or the weighted average equipment life of any equipment to be installed under the energy conservation contract.

3. Lease-purchase agreements for energy conservation measures shall be considered separate from the energy conservation contract and shall contain a nonappropriation clause.

G. 1. Prior to entering into an energy conservation contract, the board of education shall solicit a request for qualification from one or more energy service company providers. Requests for qualification must solicit quotations and must specify the relative importance of guaranteed savings, price, financial performance and stability, quality, technical ability, experience and other evaluation factors.

2. In order to determine the energy savings measures to be considered by proposers, the board of education may hire an independent energy consultant.

3. Fees assessed by the consultant will be paid from proceeds of any financing associated with the energy conservation contract.

H. Proposals shall be opened in a manner that avoids disclosure of the contents to competing offerors and keeps the proposals confidential during negotiations.

I. The board of education and the offeror selected through the request for qualification procedures shall enter into a memorandum of understanding which shall require the provider to perform preliminary analysis regarding the physical features and operating history of the facilities under consideration. There shall be no financial obligation to the school district for this analysis.

J. After completion of the preliminary analysis, the energy service provider shall perform a detailed energy performance audit on the specific buildings or facilities as agreed to by the political subdivision. This audit shall provide a cost basis for operating the existing building or facilities and the detailed information necessary to make a financial decision regarding a long-term performance-based efficiency contract. The cost of this audit may be rolled into the terms of a performance-based efficiency contract. If the school district decides not to enter into a long-term performance-based efficiency contract with the provider, the school district must pay the sum stipulated in the performance audit contract.

K. Trade secrets and proprietary information clearly identified in the proposals shall not be open for public inspection.

§70-5-132. Students of legal age - Completion of twelfth grade - Attendance at adult high school completion program.

A. Any person who is of legal age and a resident of this state, over the age of twenty-one (21) and under the age of twenty-six (26), and who has not completed the twelfth grade in school shall be given the same educational privileges and opportunities provided by law for children over the age of five (5) and under the age of

twenty-one (21), upon submitting to the board of education of the school district in which the person resides evidence satisfactory to that board showing that during the time before he or she was twenty-one (21) years of age he or she was unable to attend school for a definite period or periods of time, by reason whereof it was impossible for him or her to complete the twelfth grade before reaching the age of twenty-one (21). Provided, further, the pupil shall be counted in the average daily attendance of the district where he or she attends school during the period of time provided for in this section for the purpose of calculating State Aid for the district.

B. Any resident of the state who is nineteen (19) years of age or older, who is not enrolled in any high school program, and who has not completed the twelfth grade may attend any adult high school completion program which is established by a school district and approved by the State Board of Career and Technology Education if such attendance has the approval of the district offering the program. Such attendance shall not be counted in the average daily attendance of the district unless the Legislature appropriates monies for adult high school completion programs. Such attendance shall not be counted to meet minimum numbers for accreditation of the school district involved, and such students shall not attend classes which are a part of the normal class structure of the district.

C. A person subject to the provisions of subsection A or B of this section shall not be required to take the student assessments required by Section 1210.508 of this title.

Added by Laws 1971, c. 281, § 5-132, eff. July 2, 1971. Amended by Laws 1988, c. 211, § 1, eff. July 1, 1988; Laws 2014, c. 164, § 2, eff. July 1, 2014; Laws 2024, c. 162, § 1, eff. July 1, 2024.

§70-5-132.1. Certain persons 21 years of age or older may be allowed to complete high school.

A. Any person other than those persons provided for in Section 5-132 of this title, who is twenty-one (21) years of age or older and who has not completed the requirements for a high school diploma or General Education Development (GED) requirements, upon proper application to an independent school district may be given the opportunity to complete the requirements for and receive a regular high school diploma.

B. The school district or technology center school district in which such person resides may give the person the option of attending regular classes if class size restrictions are not violated, or of participating in other programs which may be provided pursuant to provisions of the Oklahoma Statutes or rules promulgated by the State Board of Education or State Board of Career and Technology Education. Provided, however, that the school

district may deny admittance of persons over twenty-one (21) years of age to its classes.

C. The school district or technology center school district may charge such person an amount of tuition not to exceed the average expenditure per pupil of the district for the preceding school year. The tuition may be prorated by the number of contact hours for which the person is enrolled.

D. A person subject to the provisions of subsection A of this section shall not be required to take the student assessments required by Section 1210.508 of this title.

Added by Laws 1983, c. 223, § 1, operative July 1, 1983. Amended by Laws 2001, c. 33, § 75, eff. July 1, 2001; Laws 2024, c. 162, § 2, eff. July 1, 2024.

§70-5-133. Apportionment of taxes each year.

A. There is hereby regularly apportioned to each and every school district of the State of Oklahoma in each taxable year five (5) mills on the dollar out of the fifteen (15) mills on the dollar total taxes for all purposes on an ad valorem basis provided by Section 9 (a), Article X, of the Oklahoma Constitution, as amended on April 5, 1955. Provided, that the regular apportionment hereby made shall not prevent or take away from the county excise board of any county the right to apportion to any school district or class of school districts in such county more than five (5) mills out of the fifteen (15) mills to be apportioned in pursuance of the provisions of said amended Section 9 (a), Article X, of the Oklahoma Constitution among county, city, town and school district.

B. In accordance with the provisions of Section 9 (c), Article X, of the Oklahoma Constitution, as amended on April 5, 1955, an additional tax of not to exceed fifteen (15) mills on the dollar valuation of all taxable property in the district shall be levied upon certification of a need therefor by the board of education.

C. An amount equal to the district's proportionate part of the ninety percent (90%) of the amount obtained by multiplying the total net assessed valuation of the school districts of the county by four (4) mills may be estimated as probable revenue from the four (4) mills county-wide levy made under the provisions of Section 9 (b), Article X, of the Oklahoma Constitution, as amended on April 5, 1955, and the amount so estimated may be used to finance the appropriations of the district.

The provisions of said Section 9 (b) relating to school districts lying in more than one county shall not affect the status of any such school district, and for the purposes of apportionments under said Section 9 (b), any such district shall be deemed a school district of the county of which it is now considered a school district, unless the State Board of Education, upon written petition by the board of education of such district, decrees that such

district shall be deemed a school district of another county in which any of its territory lies, and unless the district court of Oklahoma County in an action filed for such purposes reverses such decree, and revenue from the tax levied under said Section 9 (b) on the assessed valuation of the district in other counties shall, when collected, be transmitted to the county treasurer of that county of which such district is deemed a school district, and be apportioned as provided for the proceeds of such tax on the assessed valuation of such county.

Laws 1971, c. 281, § 5-133, eff. July 2, 1971.

§70-5-134. Estimates - Emergency and building levies - Elections.

A. No later than December 31 of each year the board of education of each school district of the state shall prepare, on a form prescribed by the State Board of Education, a preliminary estimate of the amount or amounts of money and tax rate or rates which it then believes will be required for the district for the ensuing fiscal year; and if such preliminary estimate shows an estimated need for a levy requiring the approval of the school district electors of the district under Section 9 or Section 10 of Article X of the Oklahoma Constitution, as amended on April 5, 1955, such preliminary estimate shall contain a call for an election to be held on the second Tuesday in February, or on such other date as may be provided for the election of the members of the board of education to vote on the question of making such levy or levies. In determining the eligibility of the school district to make an emergency levy under the provisions of subsection (d) of Section 9 of Article X of the Oklahoma Constitution, as amended, the legal current expenses of the district shall be all the expenditures from the general fund of the district during the preceding year, except (1) expenditures for transportation of pupils; (2) capital outlay; (3) debt service; and (4) the amount appropriated from any previous emergency levy; and the Two Hundred Fifty Dollars (\$250.00) per capita cost fixed by said subsection (d) of Section 9 of Article X of the Oklahoma Constitution, for the fiscal year ending June 30, 1956, is hereby increased to One Thousand Dollars (\$1,000.00) for the fiscal year ending June 30, 1963, and said sum of One Thousand Dollars (\$1,000.00) shall thereafter be increased or decreased by the State Board of Education in proportion to the increase or decrease in the per capita income of Oklahoma citizens. Such preliminary estimate shall be published in one issue of a newspaper having general circulation in the district at least ten (10) days before such election. Provided, that the county excise board or the board of education of any school district may call a special election for any date for the purpose of voting upon a levy authorized by Section 9 or 10 of Article X of the Oklahoma Constitution, as amended. Notice of any election called under the

provisions of this section shall be given by publication in one issue of a newspaper having general circulation in the school district at least ten (10) days before such election.

B. The requirements of this section shall not apply to school districts that have adopted a permanent millage pursuant to subsection (d-2) of Section 9 of Article X of the Oklahoma Constitution.

§70-5-134.1. Repealed by Laws 2005, c. 472, § 18, eff. July 1, 2005.

§70-5-135. System of accounting.

A. The board of education of each school district shall use the following system of initiating, recording and paying for all purchases, salaries, wages or contractual obligations due from any of the funds under the control of such board of education. However, a school district board of education may use the procedures outlined in Section 304.1 of Title 62 of the Oklahoma Statutes for the payment of salaries and wages only if the board so votes. The provisions contained herein shall not apply to the sinking fund and school activity fund.

B. The encumbrance clerk and treasurer of the school district shall each enter the authorized amounts in the various appropriation accounts of the funds to which this system is applied. The authorized amounts of appropriations shall be the general fund and building fund appropriations approved by the county excise board and such additional amounts as may be applied in the manner provided by law, the amount received for deposit in a special cash fund where such special cash fund is authorized by law or required by the person or agency providing such funds, or the amount of the net proceeds realized from the sale of bonds of the school district and any other income due such fund.

C. It shall be the duty and responsibility of the board of education of the school district to prescribe and administer adequate business procedures and controls governing the purchase or confirmation of purchase and delivery of goods or services. The procedures shall include delivery of an acceptable invoice by document, facsimile, electronic or other standard form that includes the information required by the district. Such procedures shall include the designation of authorized persons to purchase goods or services for the district and the method of determining the school employee receiving delivery of each purchase.

D. Prior to the issuance of a purchase order, the encumbrance clerk must first determine that the encumbrance will not exceed the balance of the appropriation to be charged. The encumbrance clerk shall charge the appropriate appropriation accounts and credit the affected encumbrances outstanding accounts with the encumbrances. Encumbrances must be submitted to the board of education in the order of their issuance on a monthly basis, subject to a monthly business cycle cut-off date determined by the board of education. Approved encumbrances shall be listed in the minutes by the minute clerk.

E. Before any purchase is completed, a purchase order or encumbrance must be issued. No bill shall be paid unless it is supported by an itemized invoice clearly describing the items purchased, the quantity of each item, its unit price, its total cost and proof of receipt of such goods or services. The bill and/or invoice shall be filed in the encumbrance clerk's official records. If a district has the ability to electronically utilize evaluated receipt settlement (ERS), the district may remit to vendors on that basis if the requirements of this subsection are fulfilled. In the event a district is establishing electronic data interchange, electronic entries will suffice in lieu of paper documents. In order for a district to be authorized to utilize an evaluated receipt settlement system:

1. The ERS must result in payment by the district from vendor receipts that have been matched to the purchase order date;
2. The ERS may only be used when there is an agreement between the district and the vendor for use of an ERS; and
3. The ERS must be included in the district's journal ledger/accounts payable/purchase order software.

F. The encumbrance clerk shall debit the encumbrances outstanding account and credit the accounts payable account for the amount of the approved bill. The board of education shall determine the extent such costs may fluctuate without additional board action. Minor adjustments not requiring additional board approval shall be referenced to the original encumbrance.

G. An approved bill may be paid by issuing a warrant or check against the designated fund only after ascertaining that proper accounting of the purchase has been made and that the files contain the required information to justify the expenditure of public funds, except as otherwise provided in subsection I of this section. The warrants or checks so issued shall be recorded in an orderly numerical system established by the district. The encumbrance clerk shall charge the warrant or checks against the accounts payable account and credit it to the warrants or checks issued account. Provided, if payment is to be made immediately and the board of education deems it advisable, the postings to the accounts payable account may be omitted and the payment of the approved bill may be

credited directly to the warrants or checks issued account. The warrant or check shall show on its face the name of the school district, the date of issue, the payee, the amount, the expenditure classification code, and such other information as may be necessary or desirable. The president and clerk of the board of education shall each sign the warrant or check, or approved facsimile thereby denoting to the public that the warrant or check is for the purpose and within the amount of the appropriation charged.

H. The treasurer shall register the warrant or check in the warrant or check register, charging the appropriation account and crediting the warrants or checks outstanding account of the designated fund. Provided, no warrant or check shall be registered in excess of the appropriation account's balance. All warrants or checks shall be registered in the order of their issuance. Voided warrants or checks shall be registered and filed with the treasurer. The treasurer shall sign each warrant or check through individual signature or approved facsimile showing its registration date and shall state whether it is payable or nonpayable. When a warrant or check is paid, the treasurer shall maintain evidence the warrant or check has been processed and paid. Nothing in this subsection shall prohibit any governing board from using automated recordkeeping procedures, provided the information required in this subsection can be accessed.

I. Any board of education of a school district of this state may make a payment which would otherwise be made by warrant or check, by disbursement through an Automated Clearing House, bank account debit system, wire transfer through the Federal Reserve System, or any other automated payment system operated by a financial institution insured by the Federal Deposit Insurance Corporation. The internal controls over such payment system shall be reviewed and approved by the independent auditor of the district during the annual audit. The provisions of Sections 601 through 606 of Title 62 of the Oklahoma Statutes shall apply to instruments or payment authorized by this subsection.

J. School districts complying with the provisions of this act shall use only those forms and accounting systems approved by the State Board of Education. Such forms and systems shall be considered in substantial compliance with this act if they are sufficient to convey the meaning and sequence of transactions contained herein. Provided, nothing contained herein shall be construed to limit or prevent the use of additional or subsidiary accounts, forms, or files which may be deemed necessary or advisable by the board of education of the district or the State Board of Education.

K. Any school district desiring to utilize the services of a data processing center to furnish any or all of the records herein required may do so if the center and its system complies with this

act and the rules and regulations of the State Board of Education. Such center shall furnish an honesty bond in an amount to be set by the board of education but not less than Ten Thousand Dollars (\$10,000.00).

L. The State Board of Education shall notify the board of education of the school district of the tentative amount the district is to receive from state and federal aid funds or allocations, and the board of education of the school district may include such tentative estimate as an item of probable income in the preparation of the school district's Estimate of Needs and Financial Statement; provided, no such federal aid estimate shall be used in any way to reduce the State Foundation Aid or Incentive Aid for such school district or sustain a protest for the reduction of a tax levy.

§70-5-135.2. Reporting financial transactions - Reduction of State Aid - Statement of actual income and expenditures.

A. For the 1991-92 school year, school districts shall report financial transactions for all funds, except for the school activity fund, using the Oklahoma Cost Accounting System, as adopted by the State Board of Education pursuant to Section 5-135 of this title. Costs shall be reported by curricular subject area where applicable. For the 1992-93 school year and in each subsequent school year, school districts shall report financial transactions for all funds using the Oklahoma Cost Accounting System. Costs shall be reported by curricular subject area where applicable.

B. Beginning July 1, 1991, and in each subsequent school year, the State Department of Education shall reduce the monthly payment of a district's State Aid funds if, at the time of such payment, the district is not operating pursuant to the Oklahoma Cost Accounting System. The amount of the reduction shall be one percent (1%) for the first payment, two percent (2%) for the second payment, three percent (3%) for the third payment, four percent (4%) for the fourth payment, and five percent (5%) for each subsequent payment. The reduction may be waived by the State Board of Education if the district can demonstrate that failure to operate pursuant to such system was due to circumstances beyond the control of the district and that every effort is being made by the district to operate pursuant to such system as quickly as possible.

C. No later than September 1 each year, every district board of education shall prepare a statement of actual income and expenditures of the district for the fiscal year that ended on the preceding June 30. The statement of expenditures shall include functional categories as defined in rules adopted by the State Board of Education to implement the Oklahoma Cost Accounting System pursuant to Section 5-135 of this title.

A. This section shall be known and may be cited as the "School District Transparency Act".

B. The State Department of Education shall make school district and school site expenditure data available on its website. Prior to the beginning of the 2019-2020 school year, if a school district has a website, the district shall provide a link on its home page to the State Department of Education's Oklahoma Cost Accounting System and School District Financial Information website, or the district shall provide the information required by subsection C of this section within one click of the home page of the school district's website.

C. The website shall provide information on school district and school site expenditures of state, federal, and local funds, whether appropriated or nonappropriated, excluding payments of voluntary payroll deductions for employees to receiving parties. The website shall further provide information, including, but not limited to, the following:

1. Identification of the school district;
2. The Oklahoma Cost Accounting System (OCAS) code designation for each expenditure;
3. The name and principal location of the entity or recipient of the funds, excluding release of information relating to an individual's place of residence and release of information

prohibited by subsection D of Section 24A.7 of Title 51 of the Oklahoma Statutes or by federal law relating to privacy rights;

4. The amount of funds expended;

5. The type of transaction;

The total compensation package of the superintendent as defined by the requirements of the OCAS including a listing of the base salary, insurance, retirement and other fringe benefits including exempted nonadministrative services such as teaching in the classroom or serving as a principal, counselor or library media specialist pursuant to subsection E of Section 18-124 of this title.

D. The Department shall make the data available on its website within one hundred twenty (120) days of transmission of the expenditures to the Department by the school district.

E. School districts shall provide information requested by the Department to accomplish the purposes of this section.

F. If a school district maintains a website, the district shall provide the information required in subsection C of this section in the manner prescribed in subsection B of this section on the district website.

G. Nothing in this section shall require the disclosure of information which is required to be kept confidential by state or federal law.

H. The disclosure of information required by this section shall create no liability whatsoever, civil or criminal, to the State of Oklahoma, the State Department of Education, school districts, or any employee thereof for disclosure of required information or for any error or omission in the disclosure.

I. The Department shall undertake activities annually to inform parents, schools and other stakeholders about the availability of school district and school site expenditure data on its website and how to use the website.

§70-5-136.1. Certificates of indebtedness - Curing of delinquencies by withholding of State Aid.

A. With respect to school districts seeking cash-flow management during any fiscal year, any school district may issue and

deliver certificates of indebtedness bearing a stated maturity date for the purpose of participating in a short-term cash management program pursuant to the provisions of Section 177.2 of Title 60 of the Oklahoma Statutes to fund the estimated costs of operations, capital expenditures or other lawful costs of the school district for the current fiscal year. The proceeds of certificates of indebtedness shall be set aside in a separate account and used only for the purpose of meeting expenditures and obligations which would otherwise be lawfully payable from the revenue certified by the County Excise Board. As proceeds from the certificates are used to pay such lawful expenditures and obligations, the financial records of the school district shall reflect the amounts of these obligations paid with such proceeds so that a like amount of revenue collected and available to the school district may be used to repay the certificates of indebtedness, in whole or in part. The State Auditor and Inspector shall adopt uniform accounting procedures for use by the school districts to ensure that the issuance of certificates of indebtedness and the use of the proceeds derived from these certificates will be documented and will not result in a district overspending its authorized budget. All certificates of indebtedness executed pursuant to a cash management program shall be issued, delivered and registered for payment in the specific manner designated by the State Auditor and Inspector; provided, any such certificates of indebtedness shall be made payable on any date within the then current fiscal year and may be purchased for value through the funding of uncollateralized investments or investments authorized pursuant to Section 5-115 of this title made for the benefit of and on behalf of the school district. Short-term cash management programs of any school district may lawfully provide for the investment of note or bond proceeds by the issuer of the obligations with the benefit and use of such proceeds assured to the school district when needed by the school district for that fiscal year and as approved by the Oklahoma Commission on School and County Funds Management. In no case may a school district participate in a short-term cash management program in any given fiscal year beyond that fiscal year. Monies received by a school district pursuant to a short-term cash management program may be used only for those purposes for which other monies of the school district may be lawfully expended.

B. For school districts electing to participate in the payment security procedure set forth in this subsection, which procedure shall serve as additional security for the payment of any bond or note of a participating school district, the State Board of Education shall cure any delinquencies in payment by withholding State Aid due the participating district as determined pursuant to Section 18-200.1 of this title. Whenever the designated paying agent for receipt of payments for the school district does not

receive a payment when due pursuant to the authorizing documents, the paying agent shall be entitled to payment from the withheld State Aid in any amount sufficient to cure the payment deficiency. The paying agent shall notify the State Department of Education and the superintendent of the school district of the delinquent payment by telephone, facsimile, or other similar communication, followed by written verification. Unless the Department determines that payment has been made by the school district and there is no longer a payment deficiency, the Department shall withhold from the next distribution of State Aid for the school district an amount sufficient to cure the deficiency and remit the amount to the paying agent. In the event that the amount of State Aid next due to be distributed to the delinquent school district is not sufficient to cure the delinquency, the Department shall continue to withhold State Aid as due and remit it to the paying agent until the payment deficiency has been cured.

Such deductions shall be on a ten-month basis unless otherwise designated by the employee organization. However, a school employee may request at any time in writing, including by email or fax, for the school district to immediately terminate or initiate payroll deductions to a professional organization. Upon receipt of any written request, the school district shall within five (5) business days or by the next pay period, whichever is

No school district policy or negotiated agreement shall place any other conditions or requirements, including but not limited to personal hand delivery, upon any employee to initiate or terminate any payroll deduction to a professional organization except for a written request as outlined in this section. Any school district policy or provision in a negotiated agreement that places additional conditions or requirements on initiation or termination beyond those outlined in this section shall be null and void. E. By October 1 of each year each district board of education shall prepare a schedule of salaries and fringe benefits paid administrators employed by the district, including a description of the fringe benefits. §70-5-145. Local foundation and public school/business partnerships - Foundation gifts, grants and donations.

A. District school boards of education should be encouraged to explore the potential benefits of local foundations and public school/business partnerships as supplements to basic programs publicly funded.

B. No local foundation, as defined in subsection C of this section, shall make, and no public school, public school personnel, or school district shall accept, any gift, grant or donation of real or personal property from any local foundation unless the local foundation complies with the requirements of this section and with such other requirements for such organization as are required by Title 18 of the Oklahoma Statutes.

1. that solicits money or property in the name of any public school district, public school or public school organization; and

2. which is exempt from federal income taxes or is verifiably and in good faith in the process of obtaining federal tax exemption status pursuant to the provisions of Section 501(c)(3) of the Internal Revenue Code. If the local foundation is in the process of obtaining exemption status in accordance with this paragraph, the local foundation may make gifts, grants or donations pursuant to this section provided it has advised the district board of education of the status of any application for tax exemption and continues to provide the board such information each year thereafter.

G. In order to assure the fairness, objectivity, and integrity of its operations, and that its purposes and policies are consistent with the goals of the State Board of Education, the board of education of the school district may consider the process used in selecting recipients of benefits or merit awards by any local foundation in deciding whether to accept or reject the gift, grant or donation.

H. No employee of the district shall be a voting member of a local foundation board which is established in that school district. Members of the board of education may serve on the board of a local foundation, but shall not constitute a majority of the members of the board of directors of the foundation. No other elected official of state or local government shall be compensated by the local foundation. The total number of ex officio local foundation members shall be less than the number of voting members of the local foundations. Other interfund transfers may be made only as authorized by this act or as provided in the budget as adopted or amended according to this act. No transfer shall be made from the debt service fund to any other fund except as may be permitted by the terms of the bond issue or by law.

C. Provided, funds shall not be transferred between the general fund and building fund of any school district. The State Department of Education shall be notified in writing or electronically of all transfers at the time the transfers are made.

A. Except as provided in subsection E of this section, no person shall be permitted to teach in any school district of the state without a written contract, except as provided herein for substitute teachers and except teachers of classes in adult education. Except as provided in subsection J of this section, the board of education of each school district, wherein school is expected to be conducted for the ensuing year, shall employ and contract in writing with qualified teachers for and in the name of the district. One copy of the contract shall be filed with the clerk of the board of education and one copy shall be retained by the teacher.

B. Except as otherwise provided by subsections J and K of this section and any other law, no board of education shall have authority to enter into any written contract with a teacher who does not hold an Oklahoma criminal history record check as required by Section 6-190 of this title and who does not hold a valid certificate issued or recognized by the State Board of Education authorizing the teacher to teach the grades or subject matter for which the teacher is employed. Any board of education paying or authorizing the payment of the salary of any teacher not holding a certificate, as required herein, shall be adjudged to be guilty of a fraudulent expenditure of public funds and members voting for such payment shall be held jointly responsible for the return of the amount of any public monies thus expended, upon suit brought by the district attorney or by any interested citizen in the district where such funds have been expended.

C. It shall be the duty of the superintendent of schools under whose supervision teachers have been contracted to teach to certify to the treasurer of the contracting district the names of the teachers holding valid certificates and student teachers with whom contracts have been made and the names of substitute teachers employed in accordance with law. The treasurer shall not register any warrant issued in payment of salary to any teacher whose name is not included in such list and shall be liable on the official bond for the treasurer for the amount of any warrant registered in violation of the provisions of this section.

D. Whenever any person shall enter into a contract with any school district in Oklahoma to teach in such school district the contract shall be binding on the teacher and on the board of education until the teacher legally has been discharged from the teaching position or released by the board of education from the contract. Except as provided in Section 5-106A of this title, until such teacher has been thus discharged or released, the teacher shall not have authority to enter into a contract with any other board of education in Oklahoma for the same time covered by the original contract. If upon written complaint by the board of education in a district any teacher is reported to have failed to obey the terms of the contract previously made and to have entered into a contract with another board of education without having been released from the former contract except as provided in Section 5-106A of this title, the teacher, upon being found guilty of such charge at a hearing held before the State Board of Education, shall have such teacher's certificate suspended for the remainder of the term for which the contract was made.

E. A board of education shall have authority to enter into written contracts with teachers for the ensuing fiscal year prior to the beginning of such year. If, prior to the first Monday in June, a board of education has not entered into a written contract with a regularly employed teacher or notified the teacher in writing by registered or certified mail that a recommendation has been made not to reemploy the teacher for the ensuing fiscal year, and if, by fifteen (15) days after the first Monday in June, such teacher has not notified the board of education in writing by registered or certified mail that such teacher does not desire to be reemployed in such school district for the ensuing year, such teacher shall be considered as employed on a continuing contract basis and on the same salary schedule used for other teachers in the school district for the ensuing fiscal year, and such employment and continuing contract shall be binding on the teacher and on the school district.

F. Whenever a school district is engaged in contract negotiations with teachers employed by that school district after the school year has begun and the teachers are employed on a continuing contract basis, the school district shall, beginning at the first of the school year, pay the teachers any state-mandated salary increases and salary schedule increases to which each teacher is otherwise entitled.

G. No school district or any member of the board of education of a district shall be liable for the payment of compensation to a teacher or administrator under the provisions of any contract for the ensuing year, if it becomes necessary to close the school because of insufficient attendance, disorganization, annexation, consolidation, or by dispensing with the school according to law,

provided, such cause is known or action is taken prior to July 1 of such ensuing year.

H. No school district or any member of a board of education shall be liable for the payment of compensation to any teacher or administrator for the unexpired term of any contract if the school building to which the teacher or administrator has been assigned is destroyed by accident, storm, fire, or otherwise and it becomes necessary to close the school because of inability to secure a suitable building or buildings for continuation of school. Teachers and administrators shall be entitled to pay for any time lost when school is closed on account of epidemics or otherwise when an order for such closing has been issued by a health officer authorized by law to issue the order.

I. A teacher may contract with more than one school district for the same school year as provided in Section 5-106A of this title.

J. A board of education shall have authority to enter into written contracts for the ensuing fiscal year prior to the beginning of the year with persons who are not certified to teach by the State Board of Education as long as the person is actively in the process of securing certification. The person shall not be allowed to teach in a classroom until the person has met or completed all of the requirements for certification as provided for in Section 6-190 of this title. If the person has not obtained valid certification by the first day of the ensuing school year, the contract shall be terminated.

K. A board of education of a school district shall have the authority to enter into written contracts for employment for the ensuing fiscal year with persons who are student teachers as defined in Section 1-116 of this title while such persons are still student teachers. A student teacher shall not be allowed to teach in a classroom during the ensuing fiscal year until meeting or completing all of the requirements for certification as provided for in Section 6-190 of this title. If the student teacher has not obtained valid certification by the first day of the ensuing school year, the contract shall be terminated. A board of education of a school district shall have the authority to commit to payment of a stipend or signing bonus to a student teacher as defined in Section 1-116 of this title while that person is still a student teacher, if that person has entered into a written contract for employment for the ensuing fiscal year. A board of education shall make any such student teacher stipend or signing bonus conditional on such person fulfilling the first year of his or her contract for the ensuing fiscal year. Any stipend or signing bonus paid under the terms of this subsection shall not be considered compensation for purposes of teacher retirement or the minimum salary schedule.

L. A teacher whose certificate was suspended by the State Board of Education pursuant to Section 3-104 of this title and Sections 314 and 314.1 of Title 75 of the Oklahoma Statutes shall be placed on suspension pursuant to the provisions of Section 6-101.29 of this title while proceedings for revocation or other action are pending before the State Board of Education. The provisions of this subsection shall not preclude the initiation of due process procedures in accordance with Section 6-101.20 et. seq of this title.

The teacher may provide supplementary information to the State Board of Education.

§70-6-104. Sick leave - Emergency leave - Personal business leave - Medical benefits - Service as juror or witness.

A. 1. The board of education of each school district in the state shall provide for sick leave for all teachers employed in the district and shall pay such teachers the full amount of their contract salaries during any absence from their regular school duties for a period of time and under such conditions as the board may determine, but not less than the minimum benefits hereafter specified. Payment for sick leave shall be made on the basis of the current salary rate then in effect for the teacher receiving the payment. The plan shall provide that a teacher may be absent from

his or her duties due to personal accidental injury, illness or pregnancy, or accidental injury or illness in the immediate family without the loss of salary for not to exceed ten (10) days during each school year, except that said absence without loss of salary for teachers employed on an eleven-month contract shall not exceed eleven (11) days during each school year and for those teachers employed on a twelve-month contract shall not exceed twelve (12) days during each school year, if said contract is for the work period, and not merely for pay purposes. The right to such leave shall vest at the beginning of the school year. Each school district shall provide for all teachers a minimum of three (3) days for personal business leave, upon the request of the teacher. Salary deductions for such leave shall not exceed the salary level for substitute teachers. Provided further, that these terms for personal business leave shall not negate any locally negotiated leave policies which exceed the minimum benefits stated above. Each school district may provide not more than five (5) days each year for emergency leave. Each school district will determine the purposes for which emergency leave can be used. Those days shall not be chargeable to sick leave and will be noncumulative. Unused sick leave shall be cumulative up to a total of sixty (60) days, and cumulative sick leave shall be transferable to another school district or to the Oklahoma School for the Blind or the Oklahoma School for the Deaf where the teacher is employed the next succeeding school year, provided that the number of days transferred shall not exceed the maximum days permitted by the receiving school and that such transferred days shall be used first in case of illness and, provided further, that if the receiving school pays teachers for unused sick leave upon retirement or termination of contract, then said payments shall be for only those days accumulated in the receiving school. The school board of the sending district shall certify the exact number of days eligible for transfer.

2. If a teacher is employed at the Oklahoma School for the Blind or the Oklahoma School for the Deaf after July 1, 2017, any unused sick leave up to a total of sixty (60) days that is accumulated at a school district prior to such date shall be transferable.

B. The plan of each school district for sick leave benefits may include other terms and conditions, but shall not provide less sick leave benefits than those prescribed herein. Hospital and medical proceeds may not be charged against sick leave benefits, but the proceeds received by the teacher from any insurance provided by the district for loss of compensable time may be charged against sick leave benefits. Provided the board of education may provide all or part of hospital and medical benefits, and sickness, accident, health and life insurance or any of the aforesaid for any or all of

its employees. On authorization of the teacher, the district may approve payroll deductions for such teacher's portion of the aforesaid.

C. Each school district shall grant a teacher leave for jury service or as a witness subpoenaed in a criminal, civil or juvenile proceeding and shall pay the teacher during such service the full, current contract salary. Provided that the district may deduct any compensation received for serving as a juror or witness from the teacher's salary during such service.

D. 1. A school district shall also provide for benefits for personnel other than teachers. Benefits for support personnel employees shall include provisions for paid sick leave of at least one (1) day per month of employment not to exceed the number of hours per day for which they are regularly employed cumulative to a total of sixty (60) days and cumulative sick leave shall be transferable to another school district where the person is employed the next succeeding school year; provided, that the number of days transferred shall not exceed the maximum days permitted by the receiving district and that such transferred days shall be used first in case of illness up to a maximum of ten (10) transferred days per school year unless the local board of education authorizes the use of additional transferred days during the school year in an amount set by the board and, provided further, that if the receiving district pays such person for unused sick leave upon retirement or termination of employment, then said payments shall be for only those days accumulated in the receiving district. The school board of the sending district shall certify the exact number of days eligible for transfer. Each school district shall provide for all support employees, a minimum of three (3) days for personal business leave, upon the request of the support employee. Salary deductions for personal business leave shall not exceed an amount necessary to cover the costs of services provided to the district by the support employee and shall not exceed the salary of the support employee. The terms for personal business leave provided by this subsection shall not negate any locally negotiated leave policies which exceed the minimum benefits stated above. Payment for such leave shall be calculated with regard to the definition of "support employee" provided by Section 6-101.40 of this title. Provided that such benefits shall not exceed those authorized for teachers hereunder.

2. Support employees, as defined by Section 6-101.40 of this title, shall be entitled to pay for any time lost when school is closed on account of epidemics or otherwise when an order for such closing has been issued by a health officer authorized by law to issue the order.

A teacher on leave without pay pursuant to this section who pays the actuarial cost, as determined by the Board of Trustees of the Teachers' Retirement System of Oklahoma, shall have the period during which such leave without pay is taken, counted toward retirement service credit as though the teacher had been on leave with pay. The teacher shall notify his or her employer and the System in writing within thirty (30) days from the date he or she returns to service that he or she will pay such actuarial cost. The teacher shall have up to twelve (12) months from the date he or she returns to service to pay such actuarial cost.

1. Actually paid a certified substitute teacher for his or her position if a certified substitute teacher is hired; or

2. Normally paid a certified substitute teacher for his or her position if a certified substitute teacher is not hired.

2. "Household members" means those persons who reside in the same home, who have reciprocal duties to and do provide financial support for one another. E. The board of education of each school district shall determine the amount of donated leave an employee may receive.

F. The board of education shall require the employee to submit, prior to approval or disapproval, a medical certificate from a licensed physician or health care practitioner verifying the severe or extraordinary nature and expected duration of the condition.

G. Donated sick leave is transferable between employees of different school districts in the state with the agreement of both boards of education of each school district.

M. In addition to the sick leave sharing program provided for in this section, the board of education of each school district may establish a sick leave sharing bank for all district employees. A district employee may donate sick leave to a common fund which may be used by any district employee who is eligible to receive shared leave as set forth in subsection A of this section. The terms and conditions for donation and use of sick leave to a leave sharing bank shall be subject to the provisions of this section, unless negotiations, entered into pursuant to Section 509.1 et seq. of this title, between district employees and the school district establish terms and conditions for a sick leave sharing bank in excess of those provided for in this section.

Prior to July 1, 2014, a competency examination shall be adopted by the Oklahoma Commission for Teacher Preparation and beginning July 1, 2014, a competency examination shall be adopted by the Commission for Educational Quality and Accountability for the professional education and various subject areas and grade levels for purposes of ensuring academic achievement and competency of each teacher candidate or teacher in the subject area the person is seeking certification to teach which shall also include certification as an administrator, as prescribed by the State Board of Education.

The Commission, consistent with the purposes of this section, shall promulgate rules and procedures to guarantee the confidentiality of examinations.

B. No teacher candidate shall be eligible for certification until successfully completing the competency examination except those candidates who make application to the State Board and meet the criteria for the alternative placement program pursuant to Section 6-122.3 of this title. Certification shall be limited to areas of approval in which the certified teacher has successfully completed the examination. Subject to the provisions of subsection C of this section, testing for certification for subjects in which a teacher candidate or teacher is seeking a minor teaching assignment or an endorsement to teach shall be limited to the specific subject area test.

A teacher candidate or teacher may take the professional education or subject area portions of the examination subject to any limit imposed by the Commission.

2. Except as otherwise provided for in this paragraph, certification in early childhood, elementary, or special education shall require completion of an appropriate teacher education program approved by the Commission.

Any teacher who is certified to teach elementary education may be certified in early childhood education upon meeting the

requirements provided in law and successful completion of the appropriate subject area portion of the examination. Any teacher who is certified to teach early childhood education may be certified in elementary education upon meeting the requirements provided in law and successful completion of the appropriate subject area portion of the examination. E. If a teacher candidate or teacher is a non-native-English speaker, the Commission shall offer the subject area competency examination in the native language of the teacher candidate or teacher only if the teacher candidate or teacher is employed or has been offered employment by a school district as a teacher in a foreign language immersion program offered by the school district. If a non-native-English speaker who has received certification in a subject area after taking the subject area competency examination in the native language of the speaker seeks to add a certification area in the future and that person is no longer employed as a teacher in a foreign language immersion program, the examination for the additional certification area shall be taken in English. The State Board of Education shall issue a restricted license or certificate to any teacher who has completed a subject area competency examination in the native language of the teacher as provided for in this subsection restricting the teacher to teaching only in a foreign language immersion program.

F. The State Board of Education, in consultation with the Commission for Educational Quality and Accountability, may grant an exception to the requirement to complete a subject area examination for initial certification in a field which does not require an

The advanced degree shall be from an institution accredited by a national or regional accrediting agency which is recognized by the Secretary of the United States Department of Education. The Commission shall provide the Board with the necessary information to determine comparability.

Provided, however, prior to the issuance of an emergency certificate, the district shall document substantial efforts to employ a teacher who holds a provisional or standard certificate. In the event a district is unable to hire an individual meeting this criteria, the district shall document efforts to employ an individual with a provisional or standard certificate in another curricular area with academic preparation in the field of need. Only after these alternatives have been exhausted shall the district be allowed to employ an individual meeting minimum standards as established by the State Board of Education for the issuance of emergency certificates.

2. The State Board of Education may renew the emergency or provisional certificate of an individual who has been employed by a school district board of education for at least two (2) years if the following criteria are met:

3. Individuals employed by a school district under an emergency or provisional certificate shall not be considered career teachers and therefore not entitled to the protections of the Teacher Due Process Act of 1990.

H. The State Board of Education may grant an exception to the requirements for all certification examinations for teacher candidates who are "deaf", which for the purposes of this section

Provided, however, that nothing in this paragraph shall be construed to prohibit the person from retaining his or her own legal counsel, and provided further that the actual or alleged act, error, or omission did not result from the person's intentional, willful, or wanton misconduct.

3. The Commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the Commission for the amount of any settlement or judgment obtained against the person arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that the person had a reasonable basis for believing had occurred within the scope of Commission employment, duties, or responsibilities. Provided, however, that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of the person.

G. 1. The Commission shall exercise its rule-making powers pursuant to the criteria set forth in the Interstate Teacher Mobility Compact. Rules and amendments shall become binding as of the date specified in each rule or amendment.

2. The Commission shall promulgate reasonable rules to achieve the intent and purpose of the Interstate Teacher Mobility Compact. In the event the Commission exercises its rule-making authority in a manner that is beyond the purpose and intent of the Interstate Teacher Mobility Compact or the powers granted thereunder, such action by the Commission shall be invalid and have no force and effect of law in the member states.

3. If a majority of the legislatures of the member states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the Interstate Teacher Mobility Compact within four (4) years of the date of the adoption of the rule, then the rule shall have no further force and effect in any member state.

The provisions of the compact shall have standing as statutory law.

2. Venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any similar matter.

3. All courts and administrative agencies shall take judicial notice of the Interstate Teacher Mobility Compact, the rules of the Commission, and any information provided to a member state pursuant thereto in any judicial or quasi-judicial proceeding in a member state pertaining to the subject matter of the compact or which may affect the powers, responsibilities, or actions of the Commission.

4. The Commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the Interstate Teacher Mobility Compact and shall have standing to intervene in a proceeding for all purposes.

Failure to provide the Commission service of process shall render a judgement or order void as to the Commission, the Interstate Teacher Mobility Compact, or rules of the Commission.

J. 1. If the Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the Interstate Teacher Mobility Compact or Commission rules, the Commission shall:

- a. provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the Commission, and
- b. provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state may be terminated from the Interstate Teacher Mobility Compact upon an affirmative vote of a majority of the commissioners of the member states, and all rights, privileges, and benefits conferred on the state by the compact may be terminated on the effective date of termination. A cure of the default shall not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the Interstate Teacher Mobility Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting state's legislature, the state licensing authority, and each of the member states.

4. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination including all obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the Interstate Teacher Mobility Compact, unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district court where the Commission has its principal offices. The prevailing party shall be awarded all costs of litigation including reasonable attorney fees.

7. Upon request by a member state, the Commission shall attempt to resolve disputes related to the Interstate Teacher Mobility Compact that arise among member states and between member states and non-member states. The Commission shall promulgate a rule providing for both binding and non-binding alternative dispute resolution for disputes as appropriate.

8. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the Interstate Teacher Mobility Compact. By majority vote, the Commission may initiate legal action in the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and the Commission's promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of litigation including reasonable attorney fees. The remedies shall not be exclusive of remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

K. The Interstate Teacher Mobility Compact shall be in effect on the date on which the compact is enacted into law in the tenth member state.

1. On or after the effective date of the compact, the Commission shall convene and review the enactment of the compact by each member state to determine if the statute enacted by each member state is materially different from the model statute.

2. A member state whose enactment is found to be materially different from the model compact statute shall be entitled to the default process set forth in subsection J of this section.

3. Member states enacting the compact subsequent to the effective date shall be subject to the process set forth in paragraph 20 of subsection C of this section to determine if the enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

4. If any member state is later found to be in default or is terminated or withdraws from the compact, the Commission shall remain in existence and the compact shall remain in effect even if the number of member states is fewer than ten (10).

5. Any state that joins the compact after the Commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in the state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the compact becomes law in the state, as the rules and bylaws may be amended as provided for in the Interstate Teacher Mobility Compact.

6. Any member state may withdraw from the Interstate Teacher Mobility Compact by enacting a statute repealing the compact. A member state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute. Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse

action reporting requirements of the compact prior to the effective date of withdrawal.

7. The Interstate Teacher Mobility Compact may be amended by the member states; provided, however, that no amendment to the compact shall become effective and binding upon any member state until it is enacted into law by all member states.

L. The Interstate Teacher Mobility Compact shall be liberally construed to effectuate its purposes. The provisions of the compact shall be severable, and if any phrase, clause, sentence, or provision of the compact is declared to be contrary to the constitution of any member state or a state seeking membership in the compact or of the U.S. Constitution or the applicability thereof to any other government, agency, person, or circumstance is held invalid, the validity of the remainder of the compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected. If the compact is held contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

M. Nothing in this act shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the Interstate Teacher Mobility Compact. Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict. All permissible agreements between the Commission and the member states are binding in accordance with their terms.

2. In pursuance of a resolution adopted by the board of education of the district in which the area affected is situated.

B. An annexation election shall be called by the State Superintendent of Public Instruction without the concurrence of the board of education of the school district which is proposed to be annexed, upon the filing of a petition with the State Superintendent

of Public Instruction for annexation that is signed by a majority of the school district electors in the territory proposed to be annexed, hereinafter referred to as the area affected, said majority being applied to the highest number of voters voting in a regular school district election in the district in the preceding five (5) years as determined by the secretary of the county election board, who shall certify the adequacy of the number of signatures on the petition. The petition shall contain such information as the State Superintendent of Public Instruction may require.

C. Annexation elections held pursuant to this section shall be conducted pursuant to the following procedures:

1. Such election shall be held not less than sixty (60) days nor more than ninety (90) days after the State Superintendent of Public Instruction receives such petition, at some public place in the school district in which the area affected is situated, between the hours of 7 a.m. and 7 p.m., and notice thereof shall be given by the State Superintendent of Public Instruction in the same manner as notice of special elections of the school district electors of school districts is given, provided, that the State Superintendent of Public Instruction shall not be required to call an election for the purpose of annexing a part of a school district more than once during any twelve-month period. Provided, if there is an incorporated city located wholly within the separate noncontiguous affected area, the annexation election being held shall not effect the area within the boundaries of the incorporated area unless a majority of the school district electors within the boundaries of the incorporated area also file a petition

requesting annexation as required in subsection B of this section.

If the area proposed to be annexed constitutes less than two percent (2%) of the total area of the school district in which such area is located, and there are no qualified electors residing in such area, no election shall be held. In such instance the board of education of the school district wherein the area proposed to be annexed is located and the board of education of the school district to which such area is proposed to be annexed shall each adopt a resolution approving such annexation and shall transmit certified copies of both resolutions to the State Superintendent of Public Instruction who shall, within five (5) days after receiving copies of such resolutions, make an order declaring the annexation as approved in the resolutions. Copies of the annexation order shall be transmitted to the State Board of Education, Oklahoma Tax Commission, county clerk, county treasurer, county assessor and to the boards of education of the school districts involved;

Within ten (10) days after the order of the State Superintendent of Public Instruction is issued, twenty-five percent (25%) of the school district electors who were eligible to vote at the annexation election may appeal to the district court of the county in which the territory proposed to be annexed, or the largest part thereof if such territory lies in more than one county, is situated, and thereafter all proceedings shall be stayed until the district court has rendered judgment. The proceedings shall be

given precedence over all other civil matters. In the event the court issues a final order upholding a partial annexation, the effective date of said partial annexation shall be July 1 following the final order. All pending annexation proceedings are hereby exempted from this act. The State Board of Education shall be required to change the boundary lines as described in the declaration after all litigation has expired;

5. Upon the effective date of the annexation of an entire school district to one or more school districts, the board of education of the school district whose territory was annexed shall be declared abolished by the State Superintendent of Public Instruction. B. In case the area affected comprises an entire school district, and is annexed to two or more districts, then the current debts or obligations and property and other assets of the disorganized district shall be divided by agreement between the boards of education of the annexing districts, and the board of education of either of the annexing districts may purchase any such property or assets to effect a just division. If the boards of education are unable to agree, the matter shall be decided by the State Board of Education, and its decision shall be final.

C. In case the area affected is not an entire school district, the district to which the annexation is made shall not acquire any of the property or assets of the district from which the area affected is detached, except that any school building or buildings located in the affected area shall become the property of the district to which the affected area is annexed and all obligations pertaining thereto shall become the responsibility of the annexing district.

D. If any mandatory or voluntary annexation made under the provisions of this article shall occur after the election on school district levies for the ensuing fiscal year and before the tax levies of the ensuing year have been made and certified, the operating and building levies authorized for the annexing district

shall be the levies for all the said district after such annexation. All mandatory or voluntary annexations made and ordered subsequent to the certification of the budgets and levies to the State Auditor and Inspector shall be forthwith effective regardless of any variation in such levies; and the budgetary assets of the annexed district or districts theretofore so certified as unexpended and unencumbered shall be merged by supplementary procedure with the budgetary assets of the annexing district.

§70-7-105. Consolidation - Studies - Petition - Majority vote in entire territory - Plan of action - Conditional consolidation - Election - Initial board for new district - New district legal successor.

A. Two or more school districts may, whether adjacent or not adjacent, be consolidated into a single school district in accordance with standards, rules and procedures to be determined by the State Board of Education. When the consolidation of two or more school districts is proposed, the State Board of Education shall conduct such studies of the populations, wealth, terrain, trade areas and other factors as may be necessary to determine the location of boundaries and the size of a proposed district which will most nearly ensure an efficient and economical administrative unit. The State Board of Education shall furnish the boards of education of the school districts which might be involved information and advice as to where the boundaries and what the size of the proposed new district should be. Nothing herein shall be construed to prevent the inclusion within a school district of territory lying within the boundaries of two or more counties.

B. Ten percent (10%) of the qualified school electors in any district may petition the board of education of such district to request such information, or a board of education of such district may on its own initiative ask for information and advice from the State Board of Education on the educational advantages and disadvantages of proposed consolidation to the children and residents of the area which might be affected. Upon the receipt of

such a petition, the local board of education shall request the services of the State Board of Education and shall notify the boards of education in adjacent school districts that such a request has been made. The State Board of Education may on its own initiative make the study herein authorized of any area of the state and direct the board of education of such school districts as might be involved to set into operation in their districts the procedure for determining what, if any, consolidation should be carried on in the area under study.

C. Any rules or procedures which the State Board of Education may prescribe for consolidation of school districts shall include the opportunity for the qualified school electors in the school districts involved to express their wishes through a majority vote of the school electors in the entire territory involved.

D. Prior to an election for consolidation, the boards of education of the school districts involved may develop a plan which shall set forth the actions to be taken during and after consolidation. The plan of action shall include agreements relating to school site closing, disposition and utilization of property and equipment and such other agreements as may be necessary to facilitate the consolidation of the school districts. The plan of action shall also include provisions related to the technology center school district the newly formed district will be a part of which are consistent with the State Board of Career and Technology Education rules. The plan shall be placed on a separate ballot and voted on by the qualified school electors of each district at the time of the consolidation election. Both the plan and consolidation questions must be approved by a majority vote for the plan to take effect. The plan shall be binding on the board of education of the newly formed district for at least three (3) years; provided, any provisions related to the expenditure of appropriated money shall not be binding beyond the current fiscal year. The newly formed district may alter or disregard the plan only if there is a significant change in circumstances, including a significant drop in revenue to the district or in student enrollment.

E. Two or more school districts may be consolidated into a single school district on a conditional basis. If the voters approve conditional consolidation of the school districts at an election for such purpose in accordance with the procedures set forth in this section, the newly formed school district shall be considered consolidated and shall go through the same procedure and meet the same requirements as any consolidated school district. Under a conditional consolidation plan, any subsequent decision to consolidate the new school district or annex all or part of the new school district, shall first be approved by a majority of the electors, voting at such election, of each of the original school districts. If one or more of the original school districts

disapproves the subsequent consolidation or annexation plan, the plan shall not be approved. If all of the original school districts approve the subsequent consolidation or annexation plan, the plan shall be approved and thereafter, any further consolidation or annexation shall be subject to approval of the electors of all of the school districts as a whole. The original school district shall mean only the districts which independently voted to join the conditionally consolidated district.

F. An election for such purpose shall be held either upon:

1. A petition for consolidation or conditional consolidation, signed by forty percent (40%) of the school district electors of each school district included in the proposed consolidation, or conditional consolidation said percentage being applied to the highest number of voters voting in a regular school election in the district in the preceding five (5) years as determined by the secretary of the county election board, who shall certify the adequacy of the number of signatures on the petition; or

2. The concurrence of the boards of education of the school districts included in the proposed consolidation or conditional consolidation, as shown by a resolution adopted by each board. The election shall be called by the State Board of Education and conducted in accordance with the general election laws of this state. Any vote to consolidate two or more districts, shall require a majority vote of those voting in each school district involved. When such a majority vote is in favor of consolidation or conditional consolidation, the State Board of Education shall declare the participating school districts dissolved and the new school district established, and the newly formed district shall thereupon be governed by the provisions of the Oklahoma School Code.

G. The State Superintendent of Public Instruction or designee shall convene the members of the boards of the districts forming the new district, who shall be given the opportunity of selecting from among themselves the initial board of education for the new district, selecting the number of members and designating the initial terms of service of each as required to conform to law; provided, the members convened shall have the option of forming a seven-member board pursuant to the provisions of Section 5-107A of this title rather than a board of the size otherwise provided by law and shall have the option of temporarily increasing the number of board positions for the new district by two positions per consolidating district for the first two (2) years following consolidation. The temporary positions will be filled by appointment by the board. The temporary board positions shall be abolished two (2) years from the effective date of consolidation. Within ten (10) days following the declaration of establishment of the new district, the State Superintendent or designee shall declare the agreement or shall declare that such agreement has not been

reached, in which case persons serving as members of the board of education of the participating district having the largest number of enumerated children as shown by the last regular enumeration shall serve as members of the board of education of the newly formed district for the terms for which they were elected and until their successors have been duly elected or appointed and have qualified.

H. All liabilities, assets, powers and duties of the participating districts shall become the responsibility of the new school district, which district shall be the legal successor in every respect to the school districts participating in the consolidation or conditional consolidation in accordance with law. No building or appendages thereto of any school district that has been annexed to another school district or districts shall be rented, moved or sold by the board of education of the annexing district or districts without the approval of a majority of the school district electors in the annexed district voting on the proposition, if such building is being used at least once each ninety (90) days for public gatherings. Provided, that the board of education of the annexing district acquiring such building may require persons or groups using such building and appendages to pay the cost of maintenance, including insurance, of such building and appendages.

It shall also be illegal for the board of education to expend the school district's funds for any purpose after the end of the fiscal year in which grades one through eight or one through twelve have been dispensed with except in payment of legal transfer fees, bond and property insurance premiums, utilities, salary of the clerk of the board of education, audit expenses, and the expenses necessary for the preservation and maintenance of school property; provided, that a board or boards of education receiving the annexed district

shall have one (1) year after annexation to sell or convey the title of land and buildings to a nonprofit corporation to be used for community purposes after the same has been approved by a majority of the electors of the annexed district, present and voting, at an election called for such purpose; provided, that when such use ceases, the title to said land and buildings shall be vested in the receiving district or districts which shall be evidenced by resolution of the annexed district.

§70-8-101.2. Transfer of student from residential school district.

A. Except as provided in subsection B of this section, on and after January 1, 2022, the transfer of a student from the district in which the student resides to another school district furnishing instruction in the grade the student is entitled to pursue shall be granted at any time in the year unless the number of transfers exceeds the capacity of a grade level for each school site within a school district. If the capacity of a grade level for each school site within a school district is insufficient to enroll all eligible students, the school district shall select transfer students in the order in which the district received the student transfer applications. The capacity of a school district shall be determined by the school district board of education based on its policy adopted pursuant to subsection B of this section. A student may be granted a one-year transfer and may automatically continue to attend the school each school year to which the student transferred with the approval of the receiving district. At the end of each school year, a school district may deny continued transfer of the student for the reasons outlined in paragraphs 1 and 2 of subsection B of this section. Any brother or sister of a student who transfers may attend the school district to which the student transferred, if the school district policy gives preference to sibling transfers regardless of capacity, and the brother or sister of the transferred student does not meet a basis for denial as outlined in paragraphs 1 and 2 of subsection B of this section. Any child in the custody of the Department of Human Services in foster care who is living in the home of a student who transfers may attend the school district to which the student transferred. Except for a child in the custody of the Department of Human Services in foster care, a transfer student shall not transfer more than two (2) times per school year to one or more school districts in which the student does not reside, provided that the student may always reenroll at any time in his or her school district of residence. At the discretion of the receiving

district, a student who has attended a school district as a resident student for at least three (3) years prior to becoming eligible to apply as a transfer student may be allowed to transfer to the school district regardless of capacity.

If the grade a student is entitled to pursue is not offered in the district where the student resides, the transfer shall be automatically approved.

B. Each school district board of education shall adopt a policy to determine the number of transfer students the school district has the capacity to accept in each grade level for each school site within a school district no later than January 1, 2022. The policy may include:

1. The acts and reasons outlined in Section 24-101.3 of this title as a basis for denial of a transfer; and

2. A history of absences as a basis for denial of a transfer. For the purposes of this section, "history of absences" means ten or more absences in one semester that are not excused for the reasons provided for in subsection B of Section 10-105 of this title or due to illness.

The policy shall be publicly posted on the school district website.

C. By the first day of January, April, July and October, the school district board of education shall establish the number of transfer students the school district has the capacity to accept in each grade level for each school site within a school district.

D. After establishing the number of transfer students the school district has the capacity to accept in each grade level for each school site within a school district, the board of education shall:

1. Publish in a prominent place on the school district website the number of transfer students for each grade level for each school site within a school district which the school district has the capacity to accept; and

2. Report to the State Department of Education the number of transfer students for each grade level for each school site within a school district which the school district has the capacity to accept.

E. If a transfer request is denied by the school district, the parent of the student may appeal the denial within ten (10) days of notification of the denial to the receiving school district board of education. The receiving school district board of education shall consider the appeal at its next regularly scheduled board meeting. If the receiving school district board of education denies the appeal, the parent of the student may appeal the denial within ten (10) days of notification of the appeal denial to the State Board of Education. The parent shall submit to the State Board of Education and the superintendent of the receiving school a notice of appeal on

a form prescribed by the State Board of Education. C. By the first day of January, April, July, and October of each year, the school district board of education shall establish the number of intra-district transfer students the school district has the capacity to accept in each grade level for each school site within the district.

D. After establishing the number of intra-district transfer students the school district has the capacity to accept in each grade level for each school site, the board of education shall:

Such agreement may describe the beneficial relationship between parental interest and pupil achievement and provide an agreement that a child will achieve higher levels of competency if parents will guarantee that their child will attend school, behave satisfactorily while there, and complete homework. As part of the agreement, the school may state its intention to provide free remediation if a child fails to attain the necessary standards of competency.

2. Such agreement may also emphasize the importance of parent-teacher conferences. A. The State Department of Education shall develop and make available to every public elementary school and high school in the

State of Oklahoma, a curriculum that may be taught as a stand-alone unit of instruction, or may be integrated into one or more existing courses of study, studying the events of the civil rights movement from 1954 to 1968, the natural law and natural rights principles that the Rev. Dr. Martin Luther King, Jr., drew from that informed his leadership of the civil rights movement, and the tactics and strategies of nonviolent resistance that he championed in response to the Jim Crow laws of that era. This period in American history is known as the civil rights era because during this period reform-minded Americans organized to press for a rejection of the doctrine of "separate but equal" and to repeal the Jim Crow-era laws in parts of the United States that embodied that doctrine. One of the universal lessons of the civil rights era is that hatred on the basis of immutable characteristics, including not just race or ethnicity, but also characteristics such as nationality, religious belief, disability, or sex, can overtake any nation or society, leading to profound injustice. To reinforce that lesson, such curriculum shall include an additional unit of instruction studying other acts of discriminatory injustice, such as genocide, committed elsewhere around the globe. The study of this material is a reaffirmation of the commitment of the people of this state to reject bigotry, to champion equal protection under the law as a foundational principle of our Republic, and to act in opposition to injustice wherever it may occur.

B. The State Department of Education shall identify resources and provide exemplar units or sample lesson plans designed to help teachers provide instruction on the subject matter outlined in this act.

A. 1. The State Board of Education shall adopt subject matter standards for instruction of students in the public schools of this state that are necessary to ensure there is attainment of desired

levels of competencies in a variety of areas to include language, mathematics, science, social studies, communication, and health and physical education.

2. School districts shall develop and implement curriculum, courses and instruction in order to ensure that students meet the skills and competencies as set forth in this section and in the subject matter standards adopted by the State Board of Education.

3. All students shall gain literacy at the elementary and secondary levels. Students shall develop skills in reading, writing, speaking, computing and critical thinking. For purposes of this section, critical thinking means a manner of analytical thinking which is logical and uses linear factual analysis to reach a conclusion. They shall learn about cultures and environments - their own and those of others with whom they share the earth. All students shall receive the instruction needed to lead healthy and physically active lifestyles. Students, therefore, shall study social studies, literature, languages, the arts, health, mathematics and science. Such curricula shall provide for the teaching of a hands-on career exploration program in cooperation with technology center schools.

4. The subject matter standards shall be designed to teach the competencies for which students shall be tested as provided in Section 1210.508 of this title, and shall be designed to prepare all students for active citizenship, employment and/or successful completion of postsecondary education without the need for remedial coursework at the postsecondary level.

5. The subject matter standards shall be designed with rigor as defined in paragraph 3 of subsection G of this section.

6. The subject matter standards for English Language Arts shall give Classic Literature and nonfiction literature equal consideration to other literature. In addition, emphasis shall be given to the study of complete works of literature.

7. At a minimum, the subject matter standards for mathematics shall require mastery of the standard algorithms in mathematics, which is the most logical, efficient way of solving a problem that consistently works, and for students to attain fluency in Euclidian geometry.

8. The subject matter standards for history, social studies and United States Government shall include study of important historical documents, including the United States Constitution, Declaration of Independence, Emancipation Proclamation, Federalist Papers and other documents with significant history and heritage of the United States, and the content of the United States naturalization test, with an emphasis on the specific content of the test and the ideas and concepts it references. Beginning with the 2022-2023 school year, the United States naturalization test shall be administered in accordance with subsection F of this section.

9. The subject matter standards for United States Government shall include an emphasis on civics, the structure and relationship between the national, state, county and local governments and simulations of the democratic process. For the purposes of this section, "civics" means the study of the rights and duties of Oklahoma and United States citizens and of how those governments work.

10. The subject matter standards for health and physical education shall include but not be limited to the domains of physical, emotional, social and intellectual health. Health literacy shall include the ability to obtain, process and understand basic health information and services needed to make appropriate health decisions. Health shall also include the importance of proper nutrition and exercise, mental health and wellness, substance abuse, coping skills for understanding and managing trauma, establishing and maintaining positive relationships and responsible decision making. Physical literacy shall include the ability to move with competence and confidence in a wide variety of physical activities in multiple environments that benefit the healthy development of the whole person.

§70-13-101. Special education and related services for children with disabilities - Cooperative programs - Funding - Duty to provide special services.

The several school districts of Oklahoma are hereby authorized to provide special education and related services necessary for children with disabilities as hereinafter defined. Two or more school districts may establish cooperative programs of special education for children with disabilities when such arrangement is approved by the State Board of Education. Funds may be expended for school services for an additional period during the summer months for approved programs for qualified children with disabilities, provided their individualized education program (I.E.P.) states the need for extended school year special education and related services. Children with disabilities shall mean children, as defined in the Individuals with Disabilities Education Act (IDEA), P.L. No. 105-17, who are three (3) years of age.

Provided, on and after July 1, 1991, children from age birth through two (2) years (0-36 months) of age who meet the eligibility criteria specified in Section 13-123 of this title, shall be served pursuant to the provisions of the Oklahoma Early Intervention Act. The attendance of said children in special education classes shall be included in the average daily membership computations for State Aid purposes.

The State Board of Education is authorized to modify and redefine by regulation the eligibility definitions whenever such modification is required to receive federal assistance under the Individuals with Disabilities Education Act (IDEA), P.L. No. 105-17. Rules developed pursuant to Section 18-109.5 of this title shall provide for such modification and revised definitions.

It shall be the duty of each school district to provide special education and related services for all children with disabilities as herein defined who reside in that school district in accordance with

the Individuals with Disabilities Education Act (IDEA), P.L. No. 105-17. This duty may be satisfied by:

1. The district directly providing special education for such children;

2. The district joining in a cooperative program with another district or districts to provide special education for such children;

3. The district joining in a written agreement with a private or public institution, licensed residential child care and treatment facility or day treatment facility within such district to provide special education for children who are deaf or hard-of-hearing, children who are blind or partially blind or other eligible children with disabilities; or

4. Transferring eligible children and youth with disabilities to other school districts which accept them and provide special education and related services for such children, with the district in which the child resides paying tuition therefor as hereinafter provided. For those students who transfer pursuant to the provisions of the Education Open Transfer Act, the receiving school district shall assume all responsibility for education and shall count the student for federal and state funding purposes according to the provisions of subsection B of Section 13-103 of this title. §70-13-101.1. Lindsey Nicole Henry Scholarships for Students with Disabilities Program Act.

This act shall be known and may be cited as the "Lindsey Nicole Henry Scholarships for Students with Disabilities Program Act". Added by Laws 2010, c. 381, § 1.

§70-13-101.2. Purpose of Program - Scholarship factors - Eligibility.

A. There is hereby created the Lindsey Nicole Henry Scholarships for Students with Disabilities Program. The Lindsey Nicole Henry Scholarships for Students with Disabilities Program is established to provide a scholarship to a private school of choice for students with disabilities for whom an individualized education program (IEP) in accordance with the Individuals with Disabilities Education Act (IDEA) or an individualized service plan pursuant to Section 1-4-704 of Title 10A of the Oklahoma Statutes has been developed at any time prior to notifying the State Department of

Education of the intent to participate in the Program and the IEP is in effect at the time the request for a scholarship is received by the State Department of Education. Scholarships shall be awarded beginning with the 2010-2011 school year.

B. The parent or legal guardian of a public school student with a disability may exercise their parental option and request to have a Lindsey Nicole Henry Scholarship awarded for the child to enroll in and attend a private school in accordance with this section and the scholarship shall be awarded if:

1. The student has spent the prior school year in attendance at a public school in this state. For purposes of this section, "prior school year in attendance" means that the student was enrolled in and reported by a school district for funding purposes during the preceding school year regardless of whether or not the student had an IEP at the time the student was counted for funding purposes. A student who is a child of a member of the United States Armed Forces who transfers to a school in this state from out of state or from a foreign country pursuant to a permanent change of station orders of the parent shall be exempt from the requirements of this paragraph but shall be required to meet all other eligibility requirements to participate as provided for in this section. A student who has been provided services under an Individual Family Service Plan through the SoonerStart program and during transition was evaluated and determined to be eligible for school district services shall be exempt from the requirements of this paragraph but shall be required to meet all other eligibility requirements to participate as provided for in this section. A student who was in out-of-home placement with the Department of Human Services; who was adopted while in the permanent custody of the Department of Human Services; who is enrolling or is enrolled in a school that exclusively serves students experiencing homelessness; or who was in out-of-home placement with the Office of Juvenile Affairs shall be exempt from the requirements of this paragraph but shall be required to meet all other eligibility requirements to participate as provided for in this section; and

2. The parent or legal guardian has obtained acceptance for admission of the student to a private school that is eligible for the program as provided in subsection H of this section and has notified the State Department of Education of the request for a scholarship. Requests to participate in the program made after December 1 shall be granted, but funding for scholarships requested after December 1 shall not be available until the beginning of the next school year. The request shall be through a communication directly to the Department in a manner that creates a written or electronic record of the request and the date of receipt of the request. The Department shall notify the school district in which the student is enrolled, if applicable, upon receipt of the request.

For purposes of continuity of educational choice, the scholarship shall remain in force until the student enrolls in a public school, graduates from high school, or reaches the age of twenty-two (22), whichever occurs first. At any time, the parent or legal guardian of the student may remove the student from the private school and place the student in another private school that is eligible for the program as provided in subsection H of this section or place the student in a public school.

C. A student shall be eligible for a scholarship if the parent or legal guardian of the student made a request for a scholarship for the 2010-2011 school year and the student transferred to an eligible private school but was subsequently denied a scholarship because the student did not have an IEP in effect on October 1, 2009, but did meet all other eligibility requirements as set forth in the Lindsey Nicole Henry Scholarships for Students with Disabilities Program Act.

D. A student shall not be eligible for a Lindsey Nicole Henry Scholarship if the student is not having regular and direct contact with the private school teachers at the physical location of the private school.

E. School districts shall notify the parent or legal guardian of a public school student with a disability of all options available pursuant to this section and inform the parent or legal guardian of the availability of information about the program from the State Department of Education through the toll-free telephone number or website. The notification shall be provided with or included in the copy of the "Parents Rights in Special Education: Notice of Procedural Safeguards" document given to parents at least annually or as otherwise required by law.

F. 1. Acceptance of a Lindsey Nicole Henry Scholarship shall have the same effect as a parental revocation of consent to service pursuant to 20 U.S.C., Sections 1414(a)(1)(D) and 1414(C) of the IDEA.

2. Upon acceptance of a Lindsey Nicole Henry Scholarship, the parent or legal guardian shall assume full financial responsibility for the education of the student including, but not limited to, transportation to and from the private school.

G. If the parent or legal guardian requests a Lindsey Nicole Henry Scholarship and the student is accepted by the private school pending the availability of a space for the student, the parent or legal guardian of the student shall notify the State Department of Education before entering the private school and before December 1 in order to be eligible for the scholarship during the school year when a space becomes available for the student in the private school. If notification is made after December 1, payment of the scholarship shall not begin until the next school year.

H. 1. To be eligible to participate in the Lindsey Nicole Henry Scholarships for Students with Disabilities Program, a private school shall notify the State Department of Education of its intent to participate. The notice shall specify the grade levels and services that the private school has available for students with disabilities who are participating in the scholarship program. The State Department of Education shall approve a private school as eligible to participate in the scholarship program upon determination that the private school:

- a. meets the accreditation requirements set by the State Board of Education or another accrediting association approved by the State Board of Education. The State Department of Education shall list on its website all accrediting associations approved by the Board,
- b. demonstrates fiscal soundness by having been in operation for one (1) school year or providing the State Department of Education with a statement by a certified public accountant confirming that the private school desiring to participate is insured and the owner or owners have sufficient capital or credit to operate the school for the upcoming year by serving the number of students anticipated with expected revenues from tuition and other sources that may be reasonably expected. In lieu of a statement, a surety bond or letter of credit for the amount equal to the scholarship funds for any quarter may be filed with the Department,
- c. complies with the antidiscrimination provisions of 42 U.S.C., Section 2000d,
- d. meets state and local health and safety laws and codes,
- e. will be academically accountable to the parent or legal guardian for meeting the educational needs of the student,
- f. employs or contracts with teachers who hold baccalaureate or higher degrees, or have at least three (3) years of teaching experience in public or private schools, or have special skills, knowledge, or expertise that qualifies them to provide instruction in subjects taught,
- g. complies with all state laws relating to general regulation of private schools, and
- h. adheres to the tenets of its published disciplinary procedures prior to the expulsion of a scholarship student.

2. Upon approval of a private school, the State Department of Education shall provide on its website all information and material submitted by the private school with its application.

I. 1. Lindsey Nicole Henry Scholarship Program participants shall comply with the following:

- a. the parent or legal guardian shall select the private school from the schools approved for eligibility pursuant to subsection H of this section and apply for the admission of the child,
- b. the parent or legal guardian shall request the scholarship no later than December 1 of the school year during which the scholarship is requested,
- c. any student participating in the scholarship program shall attend throughout the school year, unless excused by the school for illness or other good cause, and shall comply fully with the code of conduct for the school,
- d. the parent or legal guardian shall fully comply with the parental involvement requirements of the private school, unless excused by the school for illness or other good cause, and
- e. upon issuance of a scholarship warrant, the parent or legal guardian to whom the warrant is made shall restrictively endorse the warrant to the private school for deposit into the account of the private school. The parent or legal guardian may not designate any entity or individual associated with the private school as the attorney in fact for the parent or legal guardian to endorse a warrant. A parent or legal guardian who fails to comply with this subparagraph shall forfeit the scholarship.

2. A participant who fails to comply with this subsection forfeits the scholarship.

J. Provisions governing payment of a Lindsey Nicole Henry Scholarship shall be as follows:

1. The State Department of Education shall calculate the total cost of all scholarships for all eligible students in the state. The State Department of Education shall then reserve or retain from the total amount appropriated to the State Board of Education for State Aid purposes and any other revenue available for allocation for State Aid purposes the total cost for all scholarship payments;

2. The maximum scholarship granted for an eligible student with disabilities shall be a calculated amount equivalent to the total State Aid factors for the applicable school year multiplied by the grade and disability weights for which the student is eligible for the applicable school year. The disability weights used in calculating the scholarship amount shall include all disability

weights which correspond to the disabilities included in the multidisciplinary evaluation and eligibility group summary for the student at the time the request for a scholarship is made by the parent or legal guardian. The maximum scholarship amount shall be calculated by the State Board of Education for each year the student is participating in the scholarship program;

3. The amount of the scholarship shall be the amount calculated in paragraph 2 of this subsection or the amount of tuition and fees for the private school, whichever is less, minus up to two and one-half percent (2 1/2%) of the scholarship amount which may be retained by the State Department of Education as a fee for administrative services rendered. If a private school does not charge tuition, the amount of the scholarship shall be the amount calculated in paragraph 2 of this subsection minus up to two and one-half percent (2 1/2%) of the scholarship amount which may be retained by the State Department of Education as a fee for administrative services rendered. The amount of any assessment fee required by the private school and the amount associated with providing services and therapies to address the disabilities of the student may be paid from the total amount of the scholarship. The amount of the scholarship shall be prorated to reflect the number of days remaining in the current school year, if the scholarship request is granted after the beginning of the school year;

4. The State Department of Education shall notify the private school of the amount of the scholarship within ten (10) days after receiving the request for a scholarship, when the total State Aid factors have been determined for the current fiscal year. The initial payment shall be made after the Department verifies admission acceptance and enrollment. Quarterly payments shall be made upon verification of continued enrollment and attendance at the private school. Payment shall be made by the Department with an individual warrant made payable to the parent or legal guardian of the student and mailed by the Department to the private school that the parent or legal guardian chooses. The parent or legal guardian shall restrictively endorse the warrant to the private school for deposit into the account of the private school;

5. The State Department of Education shall not be responsible for any additional costs associated with special education and related services incurred by the private school for the student including the cost of teachers, equipment, material, and special costs associated with the special education class;

6. The State Department of Education shall establish a toll-free telephone number or website that provides parents or legal guardians and private schools with information about the program;

7. The State Department of Education shall require an annual, notarized, sworn compliance statement by participating private schools certifying compliance with state laws and shall retain all

records received from a participating private school. The State Department of Education shall post on its website the annual compliance statement for each participating private school; and

8. The State Department of Education shall cross-check the list of participating scholarship students with the public school enrollments prior to each scholarship payment to avoid duplication.

K. 1. The State Superintendent of Public Instruction shall deny, suspend, or revoke the participation of a private school in the scholarship program if it is determined that the private school has failed to comply with the provisions of this section. However, in instances in which the noncompliance is correctable within a reasonable amount of time and in which the health, safety, or welfare of the students is not threatened, the Superintendent may issue a notice of noncompliance which shall provide the private school with a time frame within which to provide evidence of compliance prior to taking action to suspend or revoke participation in the scholarship program.

2. If the Superintendent intends to deny, suspend, or revoke the participation of a private school in the scholarship program, the Department shall notify the private school of the proposed action in writing by certified mail and regular mail to the private school's address of record with the Department. The Department shall also notify any parents or legal guardians of scholarship students attending the private school. The notification shall include the reasons for the proposed action and notice of the timelines and procedures set forth in this subsection.

3. The private school that is adversely affected by the proposed action shall have fifteen (15) days from receipt of the notice of proposed action to file with the Department a request for an administrative hearing proceeding pursuant to the Administrative Procedures Act.

4. Upon receipt of a request for a hearing, the State Board of Education shall commence a hearing within sixty (60) days after the receipt of the formal written request and enter an order within thirty (30) days after the hearing.

5. The Board may immediately suspend payment of scholarship funds if it is determined that there is probable cause to believe that there is an imminent threat to the health, safety, or welfare of the students or fraudulent activity on the part of the private school.

L. No liability shall arise on the part of the state, the State Board of Education, the State Department of Education, or a school district based on the award or use of any scholarship provided through the Lindsey Nicole Henry Scholarships for Students with Disabilities Program.

M. The inclusion of private schools within options available to public school students in Oklahoma shall not expand the regulatory

authority of the state or any school district to impose any additional regulation of private schools beyond those reasonably necessary to enforce the requirements expressly set forth in this section.

N. If the State Department of Education determines that a school district prior to August 26, 2011, has failed to comply with the provisions of the Lindsey Nicole Henry Scholarships for Students with Disabilities Program Act and has failed to make full or partial scholarship payments for eligible students, the Department shall have authority to reduce the amount of State Aid allocated to the school district or require the school district to make repayment to the Department of State Aid allocations in an amount equal to the amount of scholarship payments the school district failed to make. The Department shall make payment to the parent or legal guardian in the amount the school district failed to make in the manner as provided for in subsection J of this section.

O. The State Department of Education shall annually prepare and post on its website a report of Lindsey Nicole Henry Scholarships for Students with Disabilities Program. The annual report shall include, but not be limited to, the following information:

1. The total number and amount of scholarships awarded and reported for each participating private school;
2. The total number of scholarships denied;
3. The total number and amount of scholarship payments suspended for each participating private school; and
4. Data on participating students, disaggregated by years of participation in the program, grade level, economically disadvantaged status, racial and ethnic groups, and disability category.

The determination whether a child is eligible for special education and related services shall be the responsibility of the multidisciplinary evaluation team of the school district in which such child has legal residence in accordance with the provisions of the Individuals with Disabilities Education Act (IDEA), P.L. No. 101-476 and the rules approved by the State Board of Education. The eligibility of children with disabilities shall be reevaluated at least once every three (3) years or more frequently if conditions warrant or if the parent or teacher of the child requests an evaluation as required under the Individuals with Disabilities Education Act (IDEA), P.L. No. 101-476.

Any child determined to be eligible shall be permitted to receive such special education and related services for a minimum period of twelve (12) years. Added by Laws 1971, c. 281, § 13-102, eff. July 2, 1971. Amended by Laws 1993, c. 116, § 2, eff. July 1, 1993.

§70-13-103. Authorized services and transfers for students with disabilities – Annual report on transfers – Audits.

A. Any school district in the state may provide suitable facilities and employ qualified teachers and therapists for students with disabilities, either in schools, classrooms, or in other places as the board of education of the district may deem advisable. When a school district cannot provide special educational facilities and qualified teachers, a student may be transferred pursuant to the provisions of paragraph 4 of Section 13-101 of this title.

B. If a student with disabilities is transferred to a school district other than the district of residence of the student pursuant to the Education Open Transfer Act the following provisions shall apply:

1. The receiving district shall establish availability of the appropriate program, staff, and services prior to approval of the transfer;

2. Prior to the approval of the transfer of a student on an individualized education program (IEP), a joint IEP conference shall be required between the district of residence and the receiving district; and

3. Upon approval of the transfer, the receiving district shall claim the student in the average daily membership for state and federal funding purposes and shall assume all responsibility for education of the student. For state funding purposes, the State Department of Education shall include the appropriate grade level weight and all category weights to which the student is assigned pursuant to the provisions of Section 18-201.1 of this title when calculating State Aid pursuant to the provisions of Section 18-200.1 of this title, regardless of whether the receiving district provides education to the student using traditional in-class means or via online instruction. When applicable, the receiving district may apply to the Oklahoma Special Education Assistance Fund for assistance in meeting any extraordinary costs incurred.

C. If a request to transfer a student with disabilities to a school district other than the district of residence of the student

pursuant to the Education Open Transfer Act is denied, the following provisions shall apply:

1. The parent or legal guardian of a student with disabilities or an adult student with disabilities who is age eighteen (18) or older but under the age of twenty-two (22) may appeal the denial within ten (10) days of notification of the denial to the receiving school district board of education. The parent or legal guardian of the student with disabilities or the adult student with disabilities shall submit to the State Board of Education and the superintendent of the receiving school district a notice of appeal on a form prescribed by the State Board of Education. The appeal shall be considered by the State Board of Education at its next regularly scheduled meeting, where the parent or legal guardian of the student with disabilities or the adult student with disabilities and a representative from the receiving school district may address the Board. The State Board of Education shall promulgate rules to establish the appeals process authorized by this subsection which shall align with rules promulgated pursuant to Section 8-101.2 of this title.

D. Transfers authorized by this section shall be made under rules adopted by the State Board of Education. When a student with disabilities or pregnant student is unable to attend any school or class in the district of residency, the board of education of the district may provide for home instruction for the student. The State Board of Education is further authorized to cooperate with any school district in the state to make it possible for a student with disabilities to attend the regular school by making special provisions for the transportation of the student, or for special equipment, devices, books, supplies or other facilities, or for special instruction within the regular school building. The provisions for services and transfers as provided for in this section shall be made with consideration of the least restrictive environment and IEP requirements under the Individuals with Disabilities Education Act (IDEA).

E. Beginning with the 2008-2009 school year, a transfer granted for a student with disabilities pursuant to paragraph 4 of Section 13-101 of this title for three (3) consecutive years to the same school district shall automatically be renewed each year. The

The State Board of Career and Technology Education shall promulgate rules prescribing the manner in which the elections required by this subsection are held.

H. Annual estimates of needs of technology center school districts shall be made and approved in the same manner that those of independent school districts are made and approved. Provided, that the State Board of Career and Technology Education shall prescribe a list of appropriation accounts by which the funds of technology center school districts shall be budgeted, accounted for and expended. Any such estimate of needs may include an estimate of federal funds as probable income from sources other than ad valorem tax of the district and other than any excise or other tax assessed by legislative enactment and distributed in lieu of ad valorem taxes. If a technology center school district lies in more than one county, the district's estimate of needs shall be filed with and approved by the county excise board of the county designated by the school district board of education.

employed as a teacher in a skills center within the boundaries of the school district.

M. The board of education of a technology center school district may convey surplus personal property without consideration to:

4. The Oklahoma Department of Career and Technology Education for the support or delivery of department initiatives.

N. The board of education of a technology center school district may, without prior approval of the State Board of Career and Technology Education, approve all plans and specifications for technology center school buildings, additions, and major modifications to school buildings that are designed to provide for the offering of vocational-technical education programs and services when the cost of the building project is to be paid with local levies or state bond monies or both local levies and state bond monies.

§70-14-108.1. Employee health insurance plans.

A. The board of education of each technology center school district in this state shall provide a health insurance plan for the employees of the technology center school district. Technology center school districts may obtain health and dental insurance coverage as provided for in the Oklahoma Employees Insurance and Benefits Act or may obtain other health insurance coverage. Any

technology center district that does not participate in the health and dental insurance plans offered through the Oklahoma Employees Insurance and Benefits Act shall obtain health insurance coverage for the employees which provides open enrollment, and provide for the continuation of health insurance coverage, including supplemental Medicare insurance coverage, for those district employees who retire from said district after September 30, 1991, with a vested benefit in the Teachers' Retirement System of Oklahoma. A retired person who begins receiving benefits from the Teachers' Retirement System of Oklahoma after September 30, 1991, who retires from a technology center school district that provides other health insurance coverage, and who elects to continue said health insurance coverage shall pay to the technology center school district the premium rate for the health insurance minus an amount equal to the premium rate of the Medicare supplement or the amount determined pursuant to subsection (4) of Section 1316.3 of Title 74 of the Oklahoma Statutes, whichever is less, which shall be paid by the Teachers' Retirement System of Oklahoma to the technology center school district. The technology center school district shall remit to the health insurance coverage provider the total premium due less any uncollected amounts payable from retired technology center school district employees or their qualified survivors.

B. A technology center school district that participates in health insurance coverage other than the health insurance plan offered by the Oklahoma Employees Insurance and Benefits Act shall not be required to pay any portion of the premium for the employees or the dependents of the employees of said school district. Unless a school district negotiates an agreement with its employees regarding health insurance pursuant to Sections 509.1 through 509.9 of this title, and to the extent that the agreement provides for the members of the recognized bargaining unit, a technology center school district that participates in health insurance coverage other than the health insurance plan offered by the Oklahoma Employees Insurance and Benefits Act is prohibited from acquiring additional or supplemental health or dental insurance for any board member, superintendent or any other employee which is not available to all employees of said district, and said technology center school district shall not pay a greater portion of the employee or dependent premium for any health or dental insurance plan or plans provided by said technology center school district on behalf of any board member, superintendent or employee than that portion paid on behalf of all participating employees of said district.

C. If a technology center school district obtains health insurance coverage from a source other than through the Oklahoma Employees Insurance and Benefits Act, the employees of the technology center school district who would be eligible to participate in the health and dental plans may require the board of

education of the technology center school district to call an election to allow said employees to vote as to whether the technology center school district shall participate in the health and dental insurance plans offered through the Oklahoma Employees Insurance and Benefits Act. Upon the filing with the board of education of a petition calling for such an election which is signed by no less than thirty percent (30%) of the eligible employees of the technology center school district, the board of education shall call an election for the purpose of determining whether the technology center school district shall participate in the health and dental insurance plans offered through the Oklahoma Employees Insurance and Benefits Act. The election shall be held within thirty (30) days of the filing of the petition. If a majority of those eligible employees voting at the election vote to participate in the health and dental insurance plans offered through the Oklahoma Employees Insurance and Benefits Act, the board of education of the technology center school district shall apply for such participation within thirty (30) days of the election.

D. If a technology center school district does not have any health insurance coverage of the type required by this section, that technology center school district shall immediately be enrolled in the health and dental insurance plans offered through the Oklahoma Employees Insurance and Benefits Act.

E. A carrier providing health insurance coverage for employees of a technology center school district health insurance group which replaces a previous carrier for such technology center school district employees shall provide coverage for each retired employee who is receiving a benefit or terminates employment with a vested benefit from the Teachers' Retirement System of Oklahoma and who is enrolled in the health insurance group by the previous carrier at the time the previous carrier providing health insurance coverage is replaced. Notwithstanding any provision in this section to the contrary, any person who retires pursuant to the provisions of the Teachers' Retirement System of Oklahoma prior to May 1, 1993, or terminates service with a vested benefit, pursuant to the provisions of the Teachers' Retirement System of Oklahoma prior to May 1, 1993, may continue to participate in the health and dental plans authorized by the provisions of the Oklahoma Employees Insurance and Benefits Act.

F. In the event a technology center school district ceases to exist, the assets and duties of said technology center school district are transferred to one or more other technology center school districts, said other technology center school district or districts do not agree to employ all of the former employees of the technology center school district that is ceasing to exist, and said former employees who are not being reemployed have rights under federal or state law to continue group insurance coverage, the

annexing technology center school district having the largest general fund revenue for the most recent preceding fiscal year for which data is available shall provide group insurance coverage to said former employees not being retained during the period as required by law.

The Oklahoma Department of Career and Technology Education shall determine the grade levels that may be offered agricultural education programs. Technology center school districts shall be prohibited from operating agricultural education programs or FFA chapters in any location.

B. Each student enrolled in an agricultural education program shall participate in a supervised agricultural experience project.

C. For each agricultural education program which is funded by the Oklahoma Department of Career and Technology Education, the local school district shall provide transportation services for agricultural-education-program- and FFA-program-related duties and activities.

§70-14-109. Technology center school districts - Special building project account.

A. If required to do so as a prerequisite to the receipt of federal funds for a building project, the board of education of a technology center school district may establish a special account to be used for payment of the cost of the building project. Federal and state funds received for the building project may be deposited in the special account. Monies from the following sources, if available for the payment of the cost of the building project, may also be deposited in the special account: bond issues, levies for a building fund under Section 10 of Article X, Oklahoma Constitution and appropriations for capital outlay in the general fund of the district.

B. The board of education shall estimate the total amount to be deposited in or transferred to the aforesaid building project account, and may issue warrants against the account for the payment of the cost of the building project. The total amount of such warrants shall not exceed the estimate of the board of education of the total amount to be deposited in or transferred to the account.

If there shall be an insufficient amount in the building project account to pay a warrant, the warrant shall bear interest at a rate to be fixed by the board of education, not to exceed six percent (6%) per annum, from the date of issuance until paid.

C. For the purposes of this section, the cost of a building project shall include expenditures for sites, for the construction of buildings, and for equipment, furniture and fixtures.

D. The State Board of Career and Technology Education shall adopt such rules as it deems necessary to make the provisions of this section effective.

Added by Laws 1971, c. 281, § 14-109, eff. July 2, 1971. Amended by Laws 2001, c. 33, § 99, eff. July 1, 2001.

A. If the territory comprising an independent school district has been established by the State Board of Career and Technology Education as a technology center school district, and the boundaries of each are coterminous, the board of education of the technology center school district shall be separate from the board of education of the independent school district and no member of either board shall be eligible to serve on the other.

B. Existing boards of education of technology center school districts which are comprised of members of the board of education of an independent school district with coterminous boundaries shall be dissolved by the State Board of Career and Technology Education, and the offices of the members of such boards shall become vacant on the first Monday in June, 1982. The State Board of Career and Technology Education shall establish election districts for such a technology center school district which shall have boundaries coterminous with the election districts of the independent school district and which shall be numbered identically to the election districts of the independent school district.

This act may be cited as the "Displaced Homemakers Act".

Added by Laws 1978, c. 94, § 1, eff. July 1, 1978.

§70-14-114. Legislative findings, purpose and intent.

The Legislature hereby finds and declares that there is an ever-increasing number of persons in this state who, having fulfilled a role as homemaker, find themselves "displaced" in their middle years through divorce, death of spouse or other loss of family income; as a consequence, displaced homemakers are very often without any source of income; they are ineligible for categorical welfare assistance; they are subject to the highest unemployment rate of any sector of the work force; they face continuing discrimination in employment because they are often older and have no recent paid work experience; they are ineligible for unemployment insurance because they have been engaged in unpaid labor in the home; they are ineligible for social security because they are too young, and for many, they will never qualify for social security because they have been divorced from the family wage earner; they have often lost their rights as beneficiaries under employers' pension and health plans through divorce or death of spouse, despite many years of contribution to the family well-being; and they are most often ineligible for Medicaid and are generally unacceptable to private health insurance plans because of their age.

The Legislature further finds and declares that homemakers are an unrecognized part of the work force who make an invaluable contribution to the welfare of the society as a whole.

It is the intention of the Legislature in enacting this chapter to provide the necessary counseling, training, jobs, services and support programs for displaced homemakers so that they may enjoy the independence and economic security vital to a productive life and to improve the welfare of this ever-growing group of citizens.

The State Department of Education, in coordination with the State Textbook Committee, shall approve an application process to assemble annually one or more review teams comprised of subject matter experts for each subject area under review to assist the Committee in reviewing textbooks and instructional materials. The number of review teams shall be contingent on the number of subject areas under review each year. Members of the review teams shall have specific expertise in the subject areas being reviewed that year. Review teams shall consist of no less than twelve members each, but may be as large as is deemed necessary by the State Textbook Committee and the State Department of Education. Subject to the availability of funds within the State Department of Education, members of the review teams shall receive from the Department necessary traveling expenses while in the performance of duties pursuant to the State Travel Reimbursement Act.

F. The Committee shall select textbooks or series of textbooks for each subject, which, to the greatest extent possible, are aligned with the subject matter standards adopted by the State Board of Education pursuant to Section 11-103.6 of this title. The Committee, in consultation with the State Department of Education, shall adopt a rubric to be used by the review teams as a means of evaluating textbooks submitted for review. The rubric shall contain a three-tiered rating system in which the first tier shall be labeled "Exemplifies Quality", the second tier shall be labeled "Approaching Quality", and the third tier shall be labeled "Not Representing Quality". The rubric shall also include, but not be limited to, criteria for alignment to subject matter standards such that all standards are present and treated with the appropriate depth to support students in learning the skills and information

contained in the subject matter standards, as well as usability for teacher planning, learning, assessment and differentiated instruction. The Committee, in consultation with the review teams, may include additional criteria specific to the subject area being reviewed. The rubric shall require each criterion to be scored individually with justification, and shall provide an overall recommendation for the rating.

G. Review teams shall review all materials in accordance with the rubric adopted in subsection F of this section and shall submit the review and recommended rating to the Committee. The Committee shall consider but not be required to accept the recommended rating of the review teams. The Committee may request that the review teams supply additional information to support their recommendations or the Committee may provide its own justification utilizing the adopted rubric.

H. The Committee, having verified that the review process has been conducted in a scrupulous and fair manner, shall adopt a final rating for each textbook prior to including it on the textbook list required by Section 16-110 of this title. The completed rubric for each evaluated textbook, including the review team's recommendations, shall be made publicly available on the State Textbook Committee website.

I. After a final textbook list is published, the State Textbook Committee may determine that unusual or extraordinary circumstances exist in a particular subject area during the period for which textbooks have been selected for that subject area. Unusual or extraordinary circumstances shall include but not be limited to significant new techniques of teaching in a particular subject area or significant new findings or discoveries in a particular subject area. Upon a determination by three-fourths (3/4) of the members of the State Textbook Committee that unusual or extraordinary circumstances exist in a particular subject area, the Committee may select one or more textbooks in that subject area for the remainder of the adoption period.

J. The State Department of Education shall house the website of the State Textbook Committee on its agency website.

K. Five or more district boards of education may petition the State Board of Education to add a book or series of textbooks to the approved list selected by the State Textbook Committee.

L. The State Board of Education shall promulgate rules to implement the method and time frame for handling the petitions in the most expeditious manner.

§70-16-102.1. Public hearing on proposed textbooks.

The State Textbook Committee shall conduct a public hearing in the first two (2) weeks of October each year for the purpose of gathering public testimony concerning the various textbooks being considered for adoption by the Committee. Any person wishing to be heard at the public hearing shall register with the secretary of the State Textbook Committee at least two (2) weeks prior to the date set for the public hearing. The registration shall be accompanied by a typed summary detailing the nature of the testimony which will be presented at the public hearing. All testimony shall pertain to a specific textbook or textbooks for which the State Textbook Committee has received bids. The time and number of people testifying for any one organization may be limited by the State Textbook Committee. The Committee, in its discretion, may conduct additional public hearings. The date of the public hearing shall be set by the Committee when the advertisement for bids for books is issued.

Added by Laws 1984, c. 241, § 1, eff. Nov. 1, 1984. Amended by Laws 1993, c. 229, § 4, eff. July 1, 1993.

§70-16-103. Advertisement - Sealed bids - Display of textbooks.

The State Textbook Committee shall advertise for books in all basic subjects in such manner and for such time as it may deem best. Each year the Committee shall advertise for sealed bids from publishers of textbooks for furnishing textbooks for the public schools of this state. Each bid shall state specifically and clearly the price at which each book will be furnished FOB the bidder's depository or delivered to any ordering school district in this state, and the price the books may be sold for through local retail book dealers, and shall be accompanied by a sample copy of each book offered in such bid, together with any teacher edition or teacher aids used with such book. A copy of each textbook for which a bid has been accepted by the Committee shall be displayed in at least one library or institution of higher education within each Congressional District in this state. The facility shall have free public access. The textbooks shall be displayed from the time they are accepted by the Committee until their final selection or rejection. A record of all the books delivered direct to any school district shall be immediately furnished by the shipper and the school district to the State Board of Education. Each bid shall be accompanied by a sworn statement specifically:

1. Stating whether the publisher is the owner of any interest or share in any other textbook publishing houses and, if so, giving the names and addresses thereof;

2. Showing whether any member of the Committee is in any manner interested, directly or indirectly, in such person, firm, or corporation submitting such bid; and

3. Showing the name and address of every committee, public official, or individual in this state who has been furnished, within the preceding twelve (12) months, any copy of the textbook or textbooks or any edition thereof included in the bid, together with the numbers and titles thereof furnished to each recipient.

If the fact shall be disclosed that any member of the Committee, State Textbook Director, or any employee of that office is interested in the bidder, it shall work a disqualification of such member, and the member shall not be permitted to serve on the Committee, and the bidder shall be disqualified. If it shall be disclosed that such sworn statement does not accurately and completely give the information required, the State Textbook Committee shall disregard the bid. Oklahoma authors of school textbooks shall be permitted to receive the customary royalty, regardless of employment.

§70-16-104. Delivery of bids - Examination and investigation - Adoption of textbook.

All bids shall be sealed and delivered to the secretary of the State Textbook Committee, to be delivered by the secretary to the Committee for the purpose of considering the bids. The Committee shall meet prior to August 15 of each year at the time and place mentioned in the advertisement required by Section 16-103 of this title, to open and examine the sealed bids received, and make a full and complete investigation of all books and the bids accompanying the same. The books shall be selected after careful consideration of all the books presented, and the books selected for adoption shall be those which the Committee rates as "Exemplifies Quality" or "Approaching Quality" on the rubric pursuant to Section 16-102 of this title. The Committee shall give consideration to any legislative resolution concerning textbook content and the testimony received at public hearings when making the selections. The Committee shall proceed without delay to select, for use of the public schools of this state, textbooks as specified in this article and shall notify publishers to whom contracts are awarded. If the State Textbook Committee determines that significant inaccuracies exist in the contents of a textbook which has been bid or that information contained in the textbook is not current, the Committee

may adopt the book on a provisional basis. Final adoption of the textbook and use of textbook money shall be contingent upon the publisher providing a modified or revised textbook which is acceptable to the State Textbook Committee.

§70-16-106. Publishers' contracts - Prices - Reduction - Term of contract - Braille versions.

A. All contracts with publishers shall be signed by the chairperson and secretary of the State Textbook Committee on behalf of the state. Each contract shall stipulate the price at which each textbook will be sold to the State of Oklahoma, and that all copies supplied to the State of Oklahoma will be equal to or better than the official copy filed with the secretary of the Committee. The State Textbook Committee may approve the substitution of a later edition in lieu of the textbook originally selected. The publisher shall stipulate in the contract that:

1. The price for which the textbook is to be furnished will be the lowest at which the same textbook will be sold or offered for sale for the purpose of securing a state or local selection or adoption elsewhere in the United States during the six (6) months prior to the date of the execution of the contract;

2. It will reduce the contract price of the textbook, if the price of the same textbook is reduced below such contract price elsewhere in the United States, and that it will file with the secretary of the Committee a sworn statement of such reduction made elsewhere;

3. If it prepares any supplementary or abridged or special editions of any of the textbooks, and shall sell such editions elsewhere at a lower price than that stipulated in the contract, it will file copies of any and all such editions, together with the prices thereof, with the secretary of the Committee;

4. It has not entered into any understanding, agreement or combination to control the prices or restrict competition in the sale of textbooks;

5. It will furnish the textbooks to the State of Oklahoma during the term of the contract in such amounts as may be required; and

6. It will furnish for a like period in lieu of the corresponding textbooks under contract any other books listed in any annual statement subsequently filed by it during the term of the contract to any school district at the lowest new prices contained

in such statement, and that it will maintain said prices uniformly through the state.

B. Textbooks selected by the State Textbook Committee may be purchased by school districts at the prices for which contracts have been awarded, pending the effective dates of the contracts.

C. The chairperson and secretary of the State Textbook Committee, on the advice and consent of the attorney for the State Department of Education, may, with the consent of the holders of state textbook contracts, change any contract to conform with the provisions of Section 16-102 of this title.

D. As requested by a school district or the Oklahoma School for the Blind, all publishers who enter into contracts with the State Textbook Committee shall be required to furnish the Committee with electronic files in a file format from which Braille and other accessible versions of the instructional materials can be produced. The file format in which electronic instructional materials files are provided to the Committee shall be in a format prescribed by federal law or regulations promulgated by the United States Department of Education which requires national standards for electronic files to be used for production of accessible instructional materials. In the absence of a federal law or regulation establishing a national standard, a file format standard shall be prescribed by the State Department of Rehabilitation Services.

§70-16-107. Revised editions - Late adoptions.

A. In the event that a publisher whose bid has been accepted shall publish at any time before the expiration of the adoption period a new or revised edition of the adopted textbook, the State Textbook Committee may require such publisher to substitute such new or revised edition for the adopted edition at a price to be mutually agreed upon by the publisher and the State Textbook Committee, but not in excess of the lowest price at which the same textbook will be sold or offered for sale for the purpose of securing a state or local selection or adoption elsewhere in the United States during the twelve (12) months preceding the date of submitting such new or revised edition. A contract shall be made for such new or revised edition as for any other selection. Each bidder shall expressly agree to this provision as a part of the bid and the contract awarded if successful.

B. In the event that a publisher shall publish a textbook for a subject during the period for which adoptions for that subject have

not expired, such publisher may submit a bid for such textbook at the time and in the manner other bids are submitted. The State Textbook Committee may adopt such book for the balance of the adoption period and thereafter local textbook committees may adopt such book.

§70-16-108. Surety bond - Approval of contract - Recoveries.

Prior to acceptance, the contract shall be approved by an attorney for the State Department of Education and shall be in conformity with, and subject to, all of the provisions of this article. The bond shall not be exhausted by a single recovery thereon but may be sued upon until the full amount thereof is recovered; and the Committee may, after twenty (20) days' notice, require a new bond to be given, and in the event the contractor shall fail to furnish such new bond, such contract may at the option of the Committee be forfeited.

§70-16-109. Right to reject bids - Failure to secure textbooks.

The State Textbook Committee shall have and reserve the right to reject any and all bids, if said Committee be of the opinion that any or all bids should, for any reason, be rejected; and in case it fails, from among the proposals submitted, to select sufficient books upon any of the branches of study provided for herein, it may advertise for sealed bids under the same terms as before, and proceed in its investigation in all respects as it did in the first instance.

Laws 1971, c. 281, § 16-109, eff. July 2, 1971.

§70-16-110. List of textbooks.

As soon as any contract is entered into for the furnishing of textbooks for use in the public schools of the state, the secretary of the State Textbook Committee shall send a list of the textbooks selected by the State Textbook Committee to every superintendent of schools in the state, who shall supply it to the local textbook committee. The list shall show the respective prices of such textbooks, the completed rubric, and the rating for each selected textbook as required by Section 16-102 of this title. The State

Department of Education shall annually publish and distribute a list of all textbooks that have been selected.

§70-16-111. Local textbook committee - Examination copies, teacher editions and software copies - Adoptions of textbooks - Textbook orders.

A. Except as otherwise provided for in subsection E of this section, the superintendent of schools of each school district in the state shall appoint a local textbook committee consisting of not fewer than three nor more than nine members. Each committee shall have one lay member, with the remainder of the members being teachers employed in the public schools of the district, a majority of whom shall be classroom teachers. The superintendent of schools or a designee who shall be a principal or a curriculum specialist shall serve as chairperson of the local textbook committee.

B. Upon the written request of any duly appointed local textbook coordinator, the publisher of a textbook selected by the State Textbook Committee shall furnish at least one examination copy of the textbook and the teacher edition of the textbook, if one is published, and a copy of software for purposes of complete demonstration and review, if available, to the school district so that the local textbook committee may examine any or all new adoptions in the subjects taught or to be taught in schools in the district.

C. Except as otherwise provided for in subsection E of this section, on or before a date to be fixed by the State Board of Education, each local textbook committee shall adopt textbooks only from the list of textbooks selected by the State Textbook Committee in a manner as shall be prescribed by the State Board of Education. In order for the local textbook committee to adopt a textbook that was not reviewed by the State Textbook Committee, the local textbook committee shall conduct a review process in a manner prescribed by the State Board of Education. Each local textbook committee shall serve without compensation and shall cease to exist when local adoptions have been completed and shall be replaced by another local textbook committee appointed in the same manner as provided for in this section.

D. Except as otherwise provided for in subsection E of this section, on or before a date to be fixed by the State Board of Education, the superintendent of each school district shall submit to the State Board of Education a textbook plan outlining the estimated number of textbooks needed by the school district and the

total amount of money to be expended by the district for textbooks including the allocated funds and any additional supplemental funds to be expended. The superintendent or textbook coordinator appointed by the superintendent shall place orders from the proper depository or depositories for all of the textbooks needed as outlined in the textbook plan by the district for the ensuing year. The superintendent of a school district or textbook coordinator may order any textbooks placed on the official list of textbooks. If the order exceeds the allocation for each school district as provided in Section 16-114a of this title any additional funds expended shall be reported on the statement of expenditures for the district.

E. 1. If a school district makes the election as provided for in subsection B of Section 16-114a of this title, the district shall not be required to appoint a local textbook committee, adopt textbooks, submit a textbook plan, or expend money on the purchase of textbooks during any fiscal year as provided for in this subsection.

2. The provisions of paragraph 1 of this subsection shall cease to be effective during the fiscal year which begins on the July 1 immediately succeeding the legislative session during which the measure appropriating monies to the State Board of Education for the financial support of public schools is enacted as law and such appropriation amount is at least Fifty Million Dollars (\$50,000,000.00) greater than the amount of money appropriated to the State Board of Education for the financial support of public schools for the fiscal year ending June 30, 2019. Provided, the Fifty Million Dollars (\$50,000,000.00) shall not include any amount of appropriations dedicated for support or certified employee salary increases.

§70-16-111.1. Supplementary textbooks and materials.

The funds allocated for textbooks in Section 16-114a of this title may be used by a school district for supplementary textbooks and other instructional materials other than those selected and placed on the list of textbooks by the State Textbook Committee.

The local textbook committee shall submit a statement to the local board of education justifying any such selections. For purposes of this section, "supplementary textbooks and other instructional materials" shall mean materials pertaining to subjects that are not reviewed by the State Textbook Committee or materials that support instruction in the subject matter standards as adopted by the State Board of Education in Section 11-103.6 of this title that were not reviewed by the State Textbook Committee.

§70-16-113. Costs of textbooks - How paid - Repair service.

A. All monies allocated for the purchase of textbooks shall be sent directly to the school districts. The treasurer of each school district shall enter the allocated textbook amount for deposit in the appropriate account and the reporting of financial transactions involving textbooks shall be made according to the Oklahoma Cost Accounting System, as adopted by the State Board of Education pursuant to Section 5-135 of this title. The price to be paid for instructional materials on the state textbook list shall be no greater than that stipulated in the contract with the publisher. The State Board of Education shall approve purchase order forms to be used by school districts to order books from the depository. All books ordered shall be delivered to the school district.

Depositories are authorized to confer with individual school districts on plans to reduce the number of textbooks returned by school districts to depositories and to confer on restocking fees associated with such returns.

B. The State Board of Education shall provide sufficient office space, equipment, records and supplies necessary for a proper performance of the duties and functions vested in it and the State Textbook Committee, and the State Board of Education shall appoint and fix the compensation and duties of necessary personnel to assist the State Board of Education in performing its said duties and functions.

Upon application from a local school district, the State Board of Education may allocate funds appropriated for the purchase of textbooks to be used for the purchase of special education textbooks or other instructional materials for those students enrolled in special education programs. Approval of funds shall be based on the following formula:

No funds shall be provided for students attending special education classes less than two (2) hours per day. Those attending two (2) hours or more per day but less than four (4) hours shall receive a one-half (1/2) allocation. Those attending special education classes for four (4) or more hours per day shall receive a full allocation.

Added by Laws 1995, c. 305, § 16, eff. July 1, 1995.

§70-16-114a. Textbook allocation and adjustment

A. Based upon legislative appropriations, the State Board of Education shall determine the textbook allocation to be distributed to each school district in the state. Each year the textbook allocation for each school district shall be calculated and distributed in July and adjusted in December. The initial allocation shall be calculated based on the audited end-of-year average daily attendance of the preceding school year multiplied by Fifty-five Dollars (\$55.00). The initial allocation shall be calculated and distributed to each school district in July. The December adjustment shall be calculated by multiplying the audited first nine (9) weeks' average daily attendance for that current school year by Fifty-five Dollars (\$55.00) and subtracting from that amount the amount of the initial allocation. The adjustment shall be calculated in December and distributed to each eligible school district no later than January 15. A school district shall receive an adjustment only if the adjustment figure as calculated in this section is greater than zero. The State Department of Education shall retain from the total amount appropriated for textbooks not less than one percent (1%) of the total amount to be used for the purpose of making the adjustments. If the amount appropriated, including the retained amount, is not sufficient to fully fund the adjusted allocation, each school district eligible for an adjustment shall receive a proportionate reduction in funding. Any unused portion of the value of textbooks allowed to a school district shall

be cumulative and may be carried over by the school district to subsequent fiscal years, in addition to the allocation it is entitled to receive during that fiscal year.

B. A school district seeking flexibility in the use of state-appropriated funding allocated pursuant to this section for textbooks shall be required to demonstrate to the State Board of Education that the textbooks and instructional materials used by the district for the subject areas being considered in the current textbook adoption cycle are current and appropriate for student learning. Subject to the provisions of subsection E of Section 16-111 of this title, a school district that has received textbook funding flexibility approval from the Board may elect to expend any monies allocated pursuant to this section for textbooks, including any monies carried over as authorized pursuant to subsection A of this section, for any purpose related to the support and maintenance of the school district as determined by the board of education of the school district.

C. All textbooks distributed to a school district that have been destroyed by fire or other hazard shall be replaced by the State Board of Education. The total cost of all additional textbooks delivered to school districts to replace those destroyed by fire or other hazard shall not exceed, for the entire state in any fiscal year, the aggregate sum of One Hundred Thousand Dollars (\$100,000.00), which sum shall be reserved for that purpose from any appropriation made to carry out the provision of this section for any fiscal year.

§70-16-115. Contractors - Book depositories - Insufficient stock or supply.

All contractors shall establish and maintain a suitable and convenient depository or depositories in the State of Oklahoma where a stock of their books to supply all immediate demands shall be kept. Said depository or depositories may be operated jointly with other contractors. Each contractor shall maintain at the depository a sufficient supply of textbooks for individuals or boards of education desiring to purchase the same and shall be required to sell such books to any individual or board of education at the same price at which the textbook is sold to the State of Oklahoma plus cost of transportation to the individual or board of education purchasing the textbook. Upon the failure of any contractor to carry a sufficient stock of books at the depository to take care of all immediate demands of the State of Oklahoma and others requesting the same, or to furnish the textbooks as required by the contract,

the State Board of Education shall have power to recover on the bond given by such contractor for the full value of the books not furnished as required by the contract and terminate said contract. §70-17-102. Establishment of system - Powers and privileges - Name.

A retirement system is hereby established and placed under the management of the Board of Trustees for the purpose of providing retirement allowances and other benefits under the provisions of this act for teachers of the State of Oklahoma.

The Board of Trustees shall have the power and privileges of a corporation and shall be known as the "Board of Trustees of the Teachers' Retirement System of Oklahoma", and by such name all of its business shall be transacted, all of its funds invested, and all of its cash and securities and other property held in trust for the purpose for which received.

Laws 1969, c. 157, § 2, operative Aug. 2, 1969; Laws 1971, c. 281, § 24-122, eff. July 2, 1971.

§70-17-102.1. Termination of retirement plan.

(1) In the event a plan of the retirement system is terminated or partially terminated the right of all participants or in the event of partial termination the rights of the affected participants, whether retired or otherwise, shall become fully vested.

(2) In the event of termination of the plan, the Board of Trustees shall distribute the net assets of the fund, allowing a period of not less than six (6) nor more than nine (9) months for dissolution of disability claims, as follows:

- (a) First, accumulated contributions shall be allocated to each respective participant, former participant, retired member, joint annuitant or beneficiary then receiving payments. If these assets are insufficient for this purpose, they shall be allocated to each such person in the proportion which his accumulated contributions bear to the total of all such participants' accumulated contributions. For purposes of this section, contribution means payment into the system by an employer or employee for the benefit of an individual employee.
- (b) The balance of such assets, if any, remaining after making the allocations provided in subparagraph (a) of this section shall be disposed of by allocating to each person then having an interest in the fund the

excess of his retirement income under the plan less the retirement income which is equal to the actuarial equivalent of the amount allocated to him under subparagraph (a) of this section. Such allocation shall be made with the full amount of the remaining assets to be allocated to the persons in each group in the following order of precedence:

- (i) those retired members, joint annuitants or beneficiaries receiving benefits,
- (ii) those members eligible to retire,
- (iii) those members eligible for early retirement,
- (iv) former participants electing to receive a vested benefit, and
- (v) all other members.

In the event the balance of the fund remaining after all allocations have been made with respect to all retirement income in a preceding group is insufficient to allocate the full actuarial equivalent of such retirement income to all persons in the group for which it is then being applied, such balance of the fund shall be allocated to each person in such group in the proportion which the actuarial equivalent of the retirement income allocable to him pursuant to such group bears to the total actuarial equivalent of the retirement income so allocable to all persons in such group.

Provided no discrimination in value results, the Board of Trustees shall distribute the amounts so allocated in one of the following manners as the Board of Trustees in their discretion may determine:

- (i) by continuing payment of benefits as they become due, or
- (ii) by paying, in cash, the amount allocated to any such person.

Added by Laws 1978, c. 238, § 2, eff. July 1, 1978.

§70-17-102.2. Tax qualification as a governmental retirement plan.

The retirement system shall satisfy the applicable qualification requirements for governmental plans as specified in Sections 401 and 414(d) of the Internal Revenue Code of 1954 or 1986, as amended from time to time and as appropriate for a governmental plan (hereinafter referred to as the "Code"). In addition to other Code provisions otherwise noted, and in order to satisfy the applicable requirements under the Code, the retirement system shall be subject to the following provisions, notwithstanding any other provision of the retirement system law:

- (1) The Board of Trustees shall distribute the corpus and income of the retirement system to the members and their beneficiaries in accordance with the retirement system law.

(2) Forfeitures arising from severance of employment, death, or for any other reason may not be applied to increase the benefits any member would otherwise receive under the retirement system law.

(3) All benefits paid from the retirement system shall be distributed in accordance with the requirements of Code Section 401(a)(9) and the regulations thereto. In order to meet these requirements, the retirement system shall be administered in accordance with the following provisions:

(a) The life expectancy of a member or the member's spouse may not be recalculated after the benefits commence.

(b) If a member dies before the distribution of the member's benefits has begun, distributions to beneficiaries must begin no later than December 31 of the calendar year immediately following the calendar year in which the member died.

(c) The amount of benefits payable to a member's beneficiary may not exceed the maximum determined under the incidental death benefit requirement of the Code.

(4) The Board of Trustees or its designee may not:

(a) determine eligibility for benefits,

(b) compute rates of contribution, or

(c) compute benefits of members or beneficiaries,

in a manner that discriminates in favor of members who are considered officers, supervisors, or highly compensated, as prohibited under Code Section 401(a)(4).

(5) Benefits paid from the retirement system shall not exceed the maximum benefits permissible under Code Section 415.

(6) The Board of Trustees may not engage in a transaction prohibited by Code Section 503(b).

(7) To the extent required by Code Section 401(a)(31), the retirement system shall allow members and qualified beneficiaries to elect a direct rollover of eligible distributions to another eligible retirement plan.

Added by Laws 1994, c. 380, § 1, eff. July 1, 1994.

### §70-17-102.3. Tax-Sheltered Annuity Program - Federal tax qualification - Termination.

The Tax-Sheltered Annuity Program provided by Section 17-101 et seq. of this title shall satisfy the applicable qualification requirements for grandfathered governmental tax-sheltered annuity programs as specified in 26 U.S.C. Section 403(b) and the relevant regulatory provisions and guidance related thereto. In order to satisfy these requirements and guidelines, the Teachers' Retirement Tax-Sheltered Annuity Program shall be subject to the following provisions, notwithstanding any other provision of the law governing the Oklahoma Teachers' Retirement System:

(1) The Board of Trustees shall administer and distribute the corpus and income of the Tax-Sheltered Annuity Program to members

and their beneficiaries pursuant to the applicable requirements under 26 U.S.C. Section 403(b), relevant regulatory provisions and guidance under 26 U.S.C. Section 403(b), and in accordance with the law governing the Oklahoma Teachers' Retirement System.

(2) All benefits paid from the retirement system shall be distributed in accordance with the applicable requirements of 26 U.S.C. Sections 403(b)(10) and 401(a)(9) and the regulations thereto.

(3) To the extent required by 26 U.S.C. Sections 403(b)(10) and 401(a)(31), the retirement system shall allow members and qualified beneficiaries to elect a direct rollover of eligible distributions to another eligible retirement plan.

(4) To the extent required under 26 U.S.C. Section 403(b)(11) and the regulations thereto, distributions under the Tax-Sheltered Annuity Program shall only be paid when the member attains the age of fifty-nine and one-half (59 1/2) years, separates from service, dies, becomes disabled, or in the case of hardship.

(5) The Board of Trustees may terminate the Tax-Sheltered Annuity Program administered under 26 U.S.C. Section 403(b). The Board of Trustees shall do so in accordance with the requirements of federal tax law and in a way that is designed to minimize financial harm to the participants in the program. To assist in minimizing any such harm, an employer that sponsors a local tax-sheltered annuity program under 26 U.S.C. Section 403(b) and that has an active or inactive participant with an account balance under the program, shall permit the provider administering the program on the effective date of such termination to be a provider in the local program and to offer the same investment options to program participants that were available under the program. The employer is required to permit the program provider to remain a provider under the local program for a two-year period beginning with the first day of the local program's plan year following the effective date of such termination; provided, that this requirement shall apply with respect to an investment option only so long as the program provider continues to lawfully provide the investment option.

Notwithstanding the foregoing, any program participant may elect to remit contributions to and/or, subject to any contractual restrictions, transfer the balance of the program participant to, any other approved provider under the local program at any time during the two-year period provided herein. An employer that sponsors a local program that includes the program as the only investment option, and that has an active or inactive participant with an account balance under the program, shall permit the program provider to be a provider in that local program subject to the above terms, or the local program of the employer shall terminate at such time that the program is terminated, in which case the employer shall be prohibited from contributing to any 403(b) program on

behalf of any employee for the twelve-month period required under Treasury Regulation Section 1.403(b)-10.

Added by Laws 1994, c. 380, § 2, eff. July 1, 1994. Amended by Laws 2018, c. 248, § 1.

Nothing in this subsection shall be construed to prohibit the employer from making the contribution of the employee to the System on behalf of the employee.

4. Nonclassified optional personnel who opt out of participation in the System shall be ineligible for future participation in the System; provided, however, that if such an employee is hired for a classified position, he or she shall become a member of the System pursuant to subsection A of this section but shall not be eligible for prior service credit for service performed while employed in a nonclassified position during which the employee opted out of participation in the System.

D. The Board of Trustees may, in its discretion, deny the right to become members to any class of members whose compensation is only partly paid by the state, or who is serving on a temporary or other than per annum basis, and it also may, in its discretion, make the individual entrance into the retirement system for members in any such class optional.

E. Should any non-vested member, in any period of six (6) consecutive years after becoming a member, be absent from service more than five (5) years, withdraw his or her contributions, retire or die, he or she shall thereupon cease to be a member. The provisions of this subsection shall not apply to any member of the Teachers' Retirement System of Oklahoma who has been a member of such classes of military services as may be approved by the Board of Trustees, until a period of one and one-half (1 1/2) years from date of termination of such service shall have elapsed.

F. Employees of the Oklahoma State University Cooperative Extension Service who are members of the Oklahoma Public Employees Retirement System shall cease accruing benefits in the Oklahoma Public Employees Retirement System and shall commence accruing benefits under the Teachers' Retirement System of Oklahoma on July 1, 1987.

On January 1, 1988, the Oklahoma Public Employees Retirement System shall transfer to the Teachers' Retirement System of Oklahoma the actual amount contributed to the Oklahoma Public Employees Retirement System by the state and by each employee of the Oklahoma State University Cooperative Extension Service transferring to the Teachers' Retirement System of Oklahoma and the retirement records of those transferring employees. Service accrued by said employee of the Oklahoma State University Cooperative Extension Service under the Oklahoma Public Employees Retirement System shall be treated as credited service under the Teachers' Retirement System of Oklahoma. Members who retire prior to July 1, 1990, shall have their monthly benefit adjusted to include all services accrued under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes. Provided however, that any adjustment of existing retirement benefits caused by reason of inclusion of such service authorized under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes shall not affect any retirement benefit paid prior to July 1, 1990.

Service rendered for a regular school year shall be equivalent to one (1) year of service.

B. If a member who has previously withdrawn service returns to service in Oklahoma and completes one (1) year of membership service credit, the member may reestablish prior service credit by redepositing the amount formerly withdrawn, with the interest at ten percent (10%) per annum. No member shall be permitted to redeposit prior service more than one time.

C. The Board of Trustees may adopt such other rules and regulations to verify, process, and credit the service herein claimed.

§70-17-105. Retirement.

A. 1. Any member who has attained age fifty-five (55) or who has completed thirty (30) years of creditable service, as defined in Section 17-101 of this title, or for any person who initially became a member prior to July 1, 1992, regardless of whether there were breaks in service after July 1, 1992, whose age and number of years of creditable service total eighty (80) may be retired upon proper application for retirement as established by the Teachers' Retirement System of Oklahoma. Such a retirement date will also apply to any person who became a member of the sending system as defined in Section 17-116.2 of this title, prior to July 1, 1992, regardless of whether there were breaks in service after July 1, 1992. Any person who became a member after June 30, 1992, but prior to November 1, 2011, whose age and number of years of creditable service total ninety (90) may be retired upon proper application for retirement as established by the System. Any person who becomes a member on or after November 1, 2011, who attains the age of sixty-five (65) years or who reaches a normal retirement date pursuant to subparagraph d of paragraph 22 of Section 17-101 of this title having attained a minimum age of sixty (60) years may be retired upon proper application for retirement as established by the System. The application shall be filed with the System in a manner required by the Board of Trustees.

2. The employer shall provide the System with the following information for a retiring member, no later than the fifteenth day of the month of retirement: last day physically on the job; last day on payroll; any regular compensation not already reported to the System; and final unused sick leave balance.

3. Failure to submit this information by the deadline, or errors in submitted information that result in a disqualification of retirement eligibility, shall be the responsibility of the employer. In cases where the error results in disqualification of retirement eligibility, it is the employer's responsibility to reemploy the member, or retain the member on the payroll, for the time period required to reach eligibility, not exceeding two (2) months.

B. An individual who becomes a member of the Teachers' Retirement System of Oklahoma after July 1, 1967, through October 31, 2017, shall be employed by the public schools, state colleges, or universities of Oklahoma for a minimum of five (5) years and be a contributing member of the Teachers' Retirement System of Oklahoma for a minimum of five (5) years to qualify for monthly retirement benefits from the Teachers' Retirement System of Oklahoma.

An individual who becomes a member of the Teachers' Retirement System of Oklahoma on or after November 1, 2017, shall be employed by the public schools, state colleges or universities of Oklahoma for a minimum of seven (7) years and be a contributing member of the Teachers' Retirement System of Oklahoma for a minimum of seven (7)

years to qualify for monthly retirement benefits from the Teachers' Retirement System of Oklahoma.

C. Individuals becoming members after July 1, 1967, through October 31, 2017, with five (5) or more years of Oklahoma service and whose accumulated contributions during such period have not been withdrawn shall be given an indefinite extension of membership beginning with the sixth year following the member's last contributing membership.

Individuals becoming members on or after November 1, 2017, with seven (7) or more years of Oklahoma service and whose accumulated contributions during such period have not been withdrawn shall be given an indefinite extension of membership beginning with the eighth year following the member's last contributing membership.

D. Nonclassified optional personnel who have retired or who retire at sixty-two (62) years of age or older or whose retirement is because of disability shall have minimum retirement benefits calculated on an average salary of Five Thousand Three Hundred Fifty Dollars (\$5,350.00) or, if a larger monthly allowance would result, an amount arrived at pursuant to application of the formula prescribed herein.

E. No member shall receive a lesser retirement benefit than the member would have received under the law in effect at the time the member retired. Any individual under the Teachers' Retirement System of Oklahoma, who through error in stating the title of the position which the member held, may, at the discretion of the Board of Trustees, be changed from the nonclassified optional group to the classified group for the purpose of calculating retirement benefits.

F. The value of each year of prior service is the total monthly retirement benefit divided by the number of years of creditable service.

G. Upon application of a member who is actively engaged in teaching in Oklahoma or upon application of the member's employer, any member who has been a contributing member for ten (10) years may be retired by the System subsequent to the execution and filing thereof, on a disability retirement allowance, provided that it is found by the Medical Board after medical examination of such member by a duly qualified physician that such member is mentally or physically incapacitated for further performance of duty, that such incapacity is likely to be permanent, and that such member should be retired. The System shall rely on and give full consideration to the conclusions and recommendations in the certified written report of the Medical Board of the Teachers' Retirement System of Oklahoma regarding the disability application of such member. If the Medical Board does not find that a member applying for disability retirement is mentally or physically incapacitated for performance of duty or otherwise eligible for a disability retirement, the application shall then be considered by the Board of Trustees. If a member is

determined to be eligible for disability benefits pursuant to the Social Security System, then such determination shall entitle the member to the authorized disability retirement benefits provided by law. For members who are not eligible for disability benefits pursuant to the Social Security Administration, the Board of Trustees and the Medical Board shall apply the same standard for which provision is made in the first two sentences of this subsection for determining the eligibility of a person for such disability benefits in making a determination of eligibility for disability benefits as authorized by this subsection.

H. 1. A member who at the time of retirement has been found to be permanently physically or mentally incapacitated to perform the necessary duties to continue in the member's current position shall receive a minimum monthly retirement payment for life or until such time as the member may be found to be recovered to the point where the member may return to teaching. Any member retired before July 1, 1992, shall be eligible to receive the monthly retirement benefit herein provided, but such payment shall not begin until the first payment due to the member after July 1, 1992, and shall not be retroactive. The Board of Trustees is empowered to make such rules and regulations as it considers proper to preserve equity in retirements under this provision, which shall include a provision to protect the rights of the member's spouse.

2. A member who has qualified for retirement benefits under disability retirement shall have the total monthly payment deducted from the member's accumulated contributions plus interest earned and any money remaining in the member's account after the above deductions at the death of the member shall be paid in a lump sum to the beneficiary or to the estate of the member. Provided, if the deceased disabled member had thirty (30) years or more of creditable service and the death occurred after June 30, 1981, and death occurred prior to the disabled member receiving twelve monthly retirement payments, a surviving spouse may elect to receive the retirement benefit to which the deceased member would have been entitled at the time of death under the Option 2 Plan of Retirement provided for in paragraph 2 of subsection K of this section in lieu of the death benefit provided for in this paragraph and in subsection Q of this section.

3. Once each year the System may require any disabled annuitant who has not yet attained the age of sixty (60) years to undergo a medical examination, such examination to be made at the place of residence for the disabled annuitant or other place mutually agreed upon by a physician or physicians designated by the System. Should any disabled annuitant who has not yet attained the age of sixty (60) years refuse to submit to at least one medical examination in any such year by a physician or physicians designated by the System,

the member's benefits may be discontinued until the member submits to such examination.

4. Should the Medical Board report and certify to the Board of Trustees that such disabled annuitant is engaged in or is able to engage in a gainful occupation paying more than the difference between the member's average final compensation and the annual benefit amount, and should the Board of Trustees concur in such report, then the amount of the member's annual benefit shall be reduced to an amount which, added to the member's earnings from a gainful occupation, shall equal the amount of the member's average final compensation. Should the member's earning capacity be later increased, the amount of the member's annual benefit may be further reduced.

5. Should a disabled annuitant be restored to active service, the member's disability retirement benefit shall cease and the member shall again become an active member of the Teachers' Retirement System of Oklahoma and shall make regular contributions as required under this article. The unused portion of the member's accumulated contributions shall be reestablished to the member's credit in the Teachers' Savings Fund. Any such prior service certificates on the basis of which the member's service was computed at the time of the member's retirement shall be restored to full force and effect.

I. Should a member before retirement under Section 17-101 et seq. of this title make application for withdrawal duly filed with the System, not earlier than four (4) months after the date of termination of employment with a participating employer within the System, the contribution standing to the credit of the member's individual account in the Teachers' Savings Fund shall be paid to the member or, in the event of the member's death before retirement, shall be paid to such person or persons as the member shall have designated in a manner required by the Board of Trustees and filed with the System; provided, however, if there is no designated beneficiary surviving upon such death, such contributions shall be paid to the member's administrators, executors, or assigns, together with interest as hereinafter provided. Provided further, if there is no designated beneficiary surviving upon such death, and the contributions standing to the credit of such member do not exceed Two Hundred Dollars (\$200.00), no part of such contributions shall be subject to the payment of any expense of the last illness or funeral of the deceased member or any expense of administration of the estate of such deceased and the System, upon satisfactory proof of the death of such member and of the name or names of the person or persons who would be entitled to receive such contributions under the laws of descent and distribution of the state, may authorize the payment of accumulated contributions to such person or persons. A member terminating membership by withdrawal after June 30, 2003,

shall have the interest computed at a rate of interest determined by the Board of Trustees and paid to the member subject to the following schedule:

1. If termination occurs within sixteen (16) years from the date membership began, fifty percent (50%) of such interest accumulations shall be paid;

2. With at least sixteen (16) but less than twenty-one (21) years of membership, sixty percent (60%) of such interest accumulations shall be paid;

3. With at least twenty-one (21) but less than twenty-six (26) years of membership, seventy-five percent (75%) of such interest accumulations shall be paid; and

4. With at least twenty-six (26) years of membership, ninety percent (90%) of such interest accumulations shall be paid.

In case of death of an active member, the interest shall be calculated and restored to the member's account and paid to the member's beneficiary.

J. 1. In lieu of the Maximum Retirement Allowance payable throughout life for such an amount as determined under this section, the member may select a retirement allowance for a reduced amount payable under any of the options listed in subsection K of this section the present value of which is the actuarial equivalent thereof.

2. The first payment of any benefit selected shall be made on the first day of the month following approval of the retirement by the System. If the named joint annuitant under Option 2 or 3 dies at any time after the member's retirement date, but before the death of the member, the member shall return to the Maximum Plan of Retirement, including any post-retirement benefit increases the member would have received had the member not selected Option 2 or 3 pursuant to paragraph 2 or 3 of subsection K of this section. The retirement allowance shall be determined at the date of death of the joint annuitant. This increase shall become effective the first day of the month following the date of death of the joint annuitant, and shall be payable for the member's remaining lifetime. The member shall notify the Teachers' Retirement System of Oklahoma of the death of the joint annuitant by providing a copy of the joint annuitant's death certificate. In the absence of the death certificate being filed by the member notifying the Teachers' Retirement System of Oklahoma of the death of the joint annuitant within six (6) months of the date of death, nothing in this subsection shall require the Teachers' Retirement System of Oklahoma to pay more than six (6) months of retrospective benefits increase.

K. 1. Option 1. A member takes a slightly reduced retirement allowance for life. If the member dies before receiving in annuity payments the present value of the member's annuity as it was at the time of retirement, the balance shall be paid to the member's

beneficiary by designation filed with the System prior to the member's death.

2. Option 2. A member takes a reduced retirement allowance for life. Upon the death of the member the payments shall continue to the member's joint annuitant for the life of the joint annuitant. The designation of the joint annuitant must be filed with the System at the time of the member's retirement and, except as provided in paragraph 2 of subsection J of this section, cannot be changed after the effective date of the member's retirement.

3. Option 3. A member receives a reduced retirement allowance for life. Upon the death of the member one-half (1/2) of the retirement allowance paid the member shall be continued throughout the life of the member's joint annuitant. A designation of a joint annuitant must be filed with the System at the time of the member's retirement and, except as provided in paragraph 2 of subsection J of this section, cannot be changed after the effective date of the member's retirement.

4. Option 4. Provided, the System may establish other retirement options if certified by the actuary to be of equivalent actuarial value to the member's retirement allowance. Other retirement options shall be presented to the Board of Trustees for approval at its discretion. Such other benefit or benefits shall be paid either to the member or, if applicable, to such joint annuitant as the member shall nominate.

L. Provided, the options listed in paragraphs 2 and 3 of subsection K of this section shall not be available if the member's expected benefit is less than fifty percent (50%) of the lump-sum actuarial equivalent and the joint annuitant is not the spouse of the member.

M. 1. A member who chose the Maximum Plan of Retirement at the time of retirement may make a one-time election to choose either Option 2 or 3 as prescribed in paragraph 2 or 3 of subsection K of this section and name the member's spouse as joint annuitant if the member marries after making the initial election. Such an election shall be made within one (1) year of the date of marriage. The member shall provide proof of a member's good health before the System will permit a change to either Option 2 or 3 as prescribed in paragraphs 2 and 3 of subsection K of this section and the naming of a joint annuitant. A medical examination conducted by a licensed physician is required for purposes of determining good health. Such examination must be approved by the Medical Board. The member shall be required to provide proof of age for the new joint annuitant. The System shall adjust the retirement allowance to the actuarially equivalent amount based on the new joint annuitant's age. The Board of Trustees shall promulgate rules to implement the provisions of this subsection.

2. A member who retires after July 1, 2010, and has selected a retirement allowance for a reduced amount payable under one of the options provided for in subsection K of this section may make a one-time irrevocable election to select a different option within sixty (60) days of the member's retirement date. The beneficiary or joint annuitant designated by the member at the time of retirement shall not be changed if the member makes the election provided for in this paragraph.

3. Any individual who is eligible to be a beneficiary or joint annuitant of a member under subsection J of this section, and who is also a beneficiary of a trust created under the Oklahoma Discretionary and Special Needs Trust Act, Section 175.81 et seq. of Title 60 of the Oklahoma Statutes, or a comparable Trust Act created under the laws of another state, hereinafter collectively referred to as "Trust Acts", may be a beneficiary or joint annuitant under subsection J of this section by having the trustee of the trust established for the benefit of that individual named as the legal beneficiary or joint annuitant under subsection J of this section. The age of that beneficiary shall be used for calculating any benefit payable to the trust under subsection J of this section. The beneficiary of such a trust shall be treated as the beneficiary or joint annuitant under subsection J of this section except that payments of any benefits due under subsection J of this section shall be payable to the lawfully appointed trustee of the trust. The obligation of the System to pay the beneficiary or joint annuitant under subsection J of this section shall be satisfied by payment to the trustee whom the System, in good faith, believes to be the lawfully appointed trustee. Any conflict between the statutes creating and governing the Teachers' Retirement System of Oklahoma in Section 17-101 et seq. of this title and the provisions of any Trust Act referred to above shall be resolved in favor of the statutes governing the System. If an eligible beneficiary or joint annuitant is named at the time of retirement, and becomes a beneficiary of a trust under one of the Trust Acts described herein after that time, the System will acknowledge the trust as the beneficiary upon the submission of adequate documentation of the existence of the trust. All other provisions of subsection J of this section shall apply to these subsequently created trusts.

4. The Board of Trustees of the System may recognize other trusts set up for the benefit of individuals otherwise eligible to be named as a beneficiary or joint annuitant under subsection J of this section by administrative rule if it can be done without undue additional administrative expense of the System.

N. The governing board of any public school, as that term is defined in Section 17-101 of this title, is hereby authorized and empowered to pay additional retirement allowances or compensation to any person who was in the employ of such public school for not less

than seven (7) school years preceding the date of the member's retirement. Payments so made shall be a proper charge against the current appropriation or appropriations of any such public school for salaries for the fiscal year in which such payments are made. Such payments shall be made in regular monthly installments in such amounts as the governing board of any such public school, in its judgment, shall determine to be reasonable and appropriate in view of the length and type of service rendered by any such person to such public school by which such person was employed at the time of retirement. All such additional payments shall be uniform, based upon the length of service and the type of services performed, to persons formerly employed by such public school who have retired or been retired in accordance with the provisions of Section 17-101 et seq. of this title.

The governing board of any such public school may adopt rules and regulations of general application outlining the terms and conditions under which such additional retirement benefits shall be paid, and all decisions of such board shall be final.

O. In addition to the teachers' retirement herein provided, teachers may voluntarily avail themselves of the federal Social Security program upon a district basis.

P. Upon the death of an in-service member, the System shall pay to the designated beneficiary of the member or, if there is no designated beneficiary or if the designated beneficiary predeceases the member, to the estate of the member, the sum of Eighteen Thousand Dollars (\$18,000.00) as a death benefit. Provided, if the deceased member had ten (10) years or more of creditable service, the member's designated beneficiary may elect to receive the retirement benefit to which the deceased member would have been entitled at the time of death under the Option 2 plan of retirement in lieu of the death benefit provided for in this subsection. Provided further, the option provided in this subsection is only available when the member has designated one individual as the designated beneficiary. The beneficiary or beneficiaries of death benefits in the amount not to exceed Eighteen Thousand Dollars (\$18,000.00), but exclusive of any retirement benefit received by an electing beneficiary based upon creditable service performed by the deceased member, which are provided pursuant to this subsection, may elect to disclaim such death benefits in which case such benefits will be transferred to a person licensed as a funeral director or to a lawfully recognized business entity licensed as required by law to provide funeral services for the deceased member. The qualified disclaimer must be in writing and will be an irrevocable and an unqualified refusal to accept all or a portion of the death benefit. It must be received by the transferor no more than nine (9) months after the later of the day the transfer creating the interest in the disclaiming person is made or the day the disclaiming person attains

age twenty-one (21). The interest in the death benefits must pass without direction by the disclaiming person to another person. After paying death benefits to any beneficiary or the member's estate pursuant to this subsection, the System is discharged and released from any and all liability, obligation, and costs. The System is not required to inquire into the truth of any matter specified in this subsection or into the payment of any estate tax liability.

Q. Upon the death of a retired member who has contributed to the System, the retirement system shall pay to the designated beneficiary of the member or, if there is no designated beneficiary or if the designated beneficiary predeceases the member, to the estate of the member, the sum of Five Thousand Dollars (\$5,000.00) as a death benefit. The beneficiary or beneficiaries of benefits provided pursuant to this subsection may elect to disclaim such death benefits in which case such benefits will be transferred to a person licensed as a funeral director or to a lawfully recognized business entity licensed as required by law to provide funeral services for the deceased member. The qualified disclaimer must be in writing and will be an irrevocable and an unqualified refusal to accept all or a portion of the death benefit. It must be received by the transferor no more than nine (9) months after the later of the day the transfer creating the interest in the disclaiming person is made or the day the disclaiming person attains age twenty-one (21). The interest in the death benefits must pass without direction by the disclaiming person to another person. The benefit payable pursuant to this subsection shall be deemed, for purposes of federal income taxation, as life insurance proceeds and not as a death benefit if the Internal Revenue Service approves this provision pursuant to a private letter ruling request which shall be submitted by the Board of Trustees of the System for that purpose. After paying death benefits to any beneficiary or the member's estate pursuant to this subsection, the System is discharged and released from any and all liability, obligation, and costs. The System is not required to inquire into the truth of any matter specified in this subsection or into the payment of any estate tax liability.

R. Upon the death of a member who dies leaving no living beneficiary or having designated the member's estate as beneficiary, or upon the death of any individual who may be entitled to a benefit from the System, the System may pay any applicable death benefit, unpaid contributions, or unpaid benefit which may be subject to probate, in an amount of Twenty-five Thousand Dollars (\$25,000.00) or less, without the intervention of the probate court or probate procedure pursuant to Section 1 et seq. of Title 58 of the Oklahoma Statutes.

1. Before any applicable probate procedure may be waived, the System must be in receipt of the decedent's death certificate and the following documents from those persons claiming to be the legal heirs of the deceased member:

- a. the decedent's valid last will and testament, trust documents or affidavit that a will does not exist,
- b. an affidavit or affidavits of heirship which must state:
  - (1) the names and signatures of all claiming heirs to the decedent's estate including the claiming heirs' names, relationship to the deceased, current addresses, tax ID numbers if known and current telephone numbers,
  - (2) a statement or statements by the claiming heirs that no application or petition for the appointment of a personal representative is pending or has been granted in any jurisdiction,
  - (3) a description of the personal property claimed, (i.e., death benefit or unpaid contributions or both) together with a statement that such personal property is subject to probate,
  - (4) a statement by each individual claiming heir identifying the amount of personal property that the heir is claiming from the System, and that the heir has been notified of, is aware of and consents to the identified claims of all the other claiming heirs of the decedent pending with the System, and
  - (5) a statement by each individual claiming heir affirming that all debts of the decedent, including payment of last sickness, hospital, medical, death, funeral, and burial expenses have been paid or provided for,
- c. a written agreement or agreements signed by all claiming heirs of the decedent which provide that the claiming heirs release, discharge and hold harmless the System from any and all liability, obligations and costs which it may incur as a result of making a payment to any of the decedent's heirs, and
- d. a corroborating affidavit from an individual other than a claiming heir, who was familiar with the affairs of the decedent.

2. The Executive Director of the System shall retain complete discretion in determining which requests for probate waiver may be granted or denied, for any reason. Should the System have any question as to the validity of any document presented by the claiming heirs, or as to any statement or assertion contained

therein, the probate requirement provided for in Section 1 et seq. of Title 58 of the Oklahoma Statutes shall not be waived.

3. After paying any death benefits or unpaid contributions to any claiming heirs as provided pursuant to this subsection, the System is discharged and released from any and all liability, obligation and costs to the same extent as if the System had dealt with a personal representative of the decedent. The System is not required to inquire into the truth of any matter specified in this subsection or into the payment of any estate tax liability.

S. Upon the death of a retired member, the benefit payment for the month in which the retired member died, if not previously paid, shall be made to the joint annuitant if still living, to the beneficiary of the member if the joint annuitant is deceased, or to the member's estate if there is no surviving joint annuitant or beneficiary. Such benefit payment shall be made in an amount equal to a full monthly benefit payment regardless of the day of the month in which the retired member died. Upon the death of a joint annuitant receiving monthly benefit payments as prescribed herein, the benefit payment for the month in which the joint annuitant died, if not previously paid, shall be made to the joint annuitant's estate in an amount equal to the full monthly benefit payment regardless of the day of the month on which the joint annuitant died.

T. The Board of Trustees may adopt such other rules and regulations as are necessary to administer the benefits enumerated herein.

§70-17-105.1. Unpaid accumulated contributions - Payment to beneficiary or estate.

In the event the total retirement payments made to a retired member and the retired member's joint annuitant, if any, are less than the member's accumulated contributions with interest as credited at the time of retirement under Section 17-105 of this title, the difference shall be paid to the member's designated beneficiary, or if no designated beneficiary survives, then to the member's estate. This provision shall apply to retired members dying on or after July 1, 1979. After paying unpaid accumulated contributions to any designated beneficiary or the member's estate pursuant to this section, the Teachers' Retirement System of Oklahoma is discharged and released from any and all liability, obligation, and costs. The System is not required to inquire into the truth of any matter specified in this section or into the payment of any estate tax liability.

Added by Laws 1980, c. 355, § 6, eff. July 1, 1980. Amended by Laws 2024, c. 300, § 5, eff. July 1, 2024.

§70-17-105.2. Partial lump-sum payment and reduced annuity.

A. A member who is eligible to retire with at least thirty (30) years of creditable service may elect to receive a partial lump-sum payment on the date of retirement and a reduced annuity. The partial lump-sum payment shall be an amount equal to the unreduced retirement benefit, which shall be referred to as the "Maximum

Retirement Allowance" for purposes of this section, which would have been paid over a period of twelve (12), twenty-four (24) or thirty-six (36) months, had the lump-sum option not been elected. Once the payout amount is elected, a reduced Maximum Retirement Allowance is then calculated using factors adopted by the Board of Trustees based upon the System's actuarial expected rate of return and the member's age at retirement and the payout option (twelve (12), twenty-four (24), or thirty-six (36) months) elected. This reduced Maximum Retirement Allowance shall also be reduced in accordance with any retirement options the member has elected pursuant to Section 17-105 of Title 70 of the Oklahoma Statutes.

B. The partial lump-sum payment, pursuant to this section, shall be paid in a check separate from the regular monthly retirement benefit. The total amount of the partial lump-sum payment shall be deducted from the member's account balance consisting of the employee contributions plus interest for purposes of determining unused contributions remaining in the account. The member may elect to rollover the taxable portion of the partial lump-sum payment to an eligible retirement plan or individual retirement account (IRA). The nontaxable portion of the partial lump-sum payment can be rolled over to an IRA or another qualified retirement plan as allowed by the Internal Revenue Code and regulations. This partial lump-sum payment shall be subject to federal income tax in accordance with the Internal Revenue Code Section 72 and other such Internal Revenue Code sections and regulations as may be applicable. This partial lump-sum benefit is subject to the same restrictions for assignment and attachment as all other retirement benefits. The appropriate portion of the partial lump-sum distribution will be reported to the Internal Revenue Service (IRS) as taxable income and appropriate tax withholdings will be withheld unless the member elects to make a direct rollover of the taxable portion of the funds. Should the member have after-tax contributions, a portion of such after-tax contributions will be allocated to the partial lump-sum payment and to the remaining annuity on a prorata basis.

C. The partial lump-sum option under this section may be elected only once by a member and may not be elected by a retiree.

D. The board of trustees shall promulgate any rules necessary for the implementation of this section.

Added by Laws 2003, c. 328, § 1, eff. July 1, 2003.

§70-17-106. Board of Trustees and other personnel.

These funds shall be remitted at the same time as the regular contributions of members are remitted to the Teachers' Retirement System of Oklahoma and deposited in the Retirement Benefit Fund.

B. On an annual basis, the Board of Trustees shall set two contribution rates to be paid by contributing employers as provided in subsection A of this section. Both contribution rates shall be determined using cost principles established by federal regulations and shall be consistent with policies, regulations and procedures that apply uniformly to both federally assisted and other activities, and be accorded consistent treatment through application of generally accepted accounting principles. The Board shall approve the contribution rates for each fiscal year ending June 30, no later than April 1 of the previous fiscal year. The first rate shall be applied to service performed during the regular school year of the participating employer. The second rate shall be applied to service performed by members during a summer school program of the participating employer. For the purposes of this subsection, "summer school program" is defined as a program offering academic enrichment for students from prekindergarten through twelfth grade during the summer term after the close of the school year. The method applied to setting the second contribution rate may take into consideration whether, or to what extent, such service is likely to add to members' service credit or final average salary; provided, however, the second rate shall not exceed one-half (1/2) of the first rate established in this subsection. The actuary retained by

the Board may recommend such rates using assumptions that apply to the group of those members whose service is subject to the second contribution rate.

Every member shall be deemed to consent and agree to the deductions made and provided for herein and payment of salary or compensation, less the deduction, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except as to the benefits provided under Section 17-101 et seq. of this title. The employer shall certify to the Board of Trustees on each and every payroll, or in such other manner as the Board may prescribe, the amounts to be deducted, and each of the amounts shall be deducted, and when deducted shall be paid into the Teachers' Savings Fund, and shall be credited to the individual account of the member from whose compensation the deduction was made.

3. Following the termination of membership in the retirement system for any member who has been absent from service for five (5) years in any period of six (6) consecutive years, the Teachers' Savings Fund Account of such member shall be closed and the amount due the member as provided in Section 17-105 of this title shall be paid upon the filing of formal application. At the time such membership is terminated the amount due the member as provided in Section 17-105 of this title shall be transferred to the Suspense Fund.

4. Upon the retirement of a member, the balance of money the member had in the Teachers' Savings Fund shall be transferred to the Retirement Benefit Fund.

In addition, the fund shall consist of monies received from any state dedicated revenue, monies received from state appropriations, monies received from federal matching funds, and the residue of the interest on investments after the requirements of Section 17-107 of this title have been fully met. The Retirement Benefit Fund shall consist of an amount of money necessary for the making of retirement payments to retirees.

- b. From the Retirement Benefit Fund shall be paid all monthly retirement allowances.

6. The Interest Fund is hereby created to facilitate the crediting of interest to the various other funds to which interest is to be credited. All income, interest and dividends derived from the deposits and investments authorized by Section 17-101 et seq. of this title shall be paid into the Interest Fund. On June 30, each year, interest shall be transferred to the other funds as herein provided.

7. The Permanent Retirement Fund shall consist of the accumulated gifts, awards, and bequests made to the retirement system, and transfers from the Suspense Fund, the principal of which is hereby held and dedicated as a perpetual endowment of the retirement system and shall not be diverted or appropriated to any other cause or purpose unless specifically provided for in such gifts, awards or bequests.

8. The Expense Fund shall be the fund from which the expense of administration and maintenance of the retirement system shall be paid. The Board of Trustees shall cause to be prepared and adopt annually an itemized budget showing the amount required to defray the expenses for the ensuing fiscal year.

Transfers to and payments from this fund shall be made as follows: first, from the Interest Fund; second, from any dedicated revenue; and, third, from appropriation by the Legislature.

All monies for the operation of the Teachers' Retirement System of Oklahoma shall be paid from the Expense Fund upon the approval by the Board of Trustees and the checks signed by two people designated to sign such checks by the Board of Trustees of the Teachers' Retirement System of Oklahoma.

- a. Each employer shall cause to be deducted on each and every payroll or claim of a member for each and every payroll claim period subsequent to the date of

establishment of the retirement system the contribution payable by such member as provided in Section 17-101 et seq. of this title. With each and every payroll or claim the employer shall deliver to the treasurer of the employer warrants issued to the employees as shown to be due by the payroll or claim, together with a warrant or warrants in favor of the Teachers' Retirement System of Oklahoma as shown by the payroll or claim.

- b. The treasurer or disbursing officer upon delivery of the warrants and a true copy of the payroll or claims as provided above shall register the warrants as provided for the registration of other school warrants, and shall deliver to the employer warrants issued in favor of the employees, and shall deliver warrants issued in favor of the Teachers' Retirement System of Oklahoma and the copy of the payroll or claims to the school district superintendent as designated by the Board of Trustees. For the purpose of collecting contributions of teachers in the public schools, the superintendent of a school district is hereby designated to receive the Teachers' Retirement warrants from the treasurer or proper disbursing officer of the several school districts for the purpose of transmitting such warrants and payroll or claims to the Executive Director of the Teachers' Retirement System of Oklahoma. Any college or university or other educational institution or agency operated in whole or in part by the state shall have the amount retained or deducted from the funds regularly appropriated by the state for the current maintenance for such educational departments and institutions.
- c. The records of the Board of Trustees shall be open to public inspection and any member of the retirement system shall be furnished with a statement of the amount of the credit to the member's individual account upon written request by such member, provided the Board of Trustees shall not be required to answer more than one such request of a member in any one (1) year.
- e. Failure of any superintendent, officer, or other person to discharge the duties imposed upon him or her by this act shall render him or her or his or her bondsman liable for any loss occasioned thereby to the Teachers' Retirement System of Oklahoma or the employees of the school district, or both.
- f. The employer contribution rate increase that would otherwise be effective, as provided by subparagraphs f, g, h, i, j, k and l of this paragraph, shall not become effective as law unless funding levels to each of the affected participating employers within the System are increased so that the additional employer contribution obligation is funded through an appropriation or transfer of monies instead of requiring the additional employer contribution to be paid for from existing budgetary resources of such participating employers. The participating employers shall use any monies specifically made available for purposes of making employer contributions for such purpose and to the extent of the funds made available for that purpose.

2. a. Beginning January 1, 2007, through December 31, 2007, a participating employer that employs an employee of a comprehensive university or a regional institution offering a four-year degree program as designated or authorized by the Oklahoma State Regents for Higher Education shall make contributions to the System with respect to such employees at the rate of seven and five-hundredths percent (7.05%) of the regular annual compensation of the member not in excess of any applicable maximum compensation level.

The employer contribution rate increase that would otherwise be effective as provided by subparagraphs b, c, d and e of this paragraph shall not become effective as law unless funding levels are increased so that the additional employer contribution obligation is funded through such an appropriation or transfer of monies instead of requiring the additional employer contribution to be paid for from existing budgetary resources of such participating employers. The participating employers shall use any monies specifically made available for purposes of making employer contributions for such purpose and to the extent of the funds made available for that purpose.

3. Any employer contribution paid to the System pursuant to this subsection shall not be considered as salary, fringe benefit, or total compensation due to members for the purpose of meeting any legislative or contractual obligation of the employer.

B. For entities or institutions within The Oklahoma State System of Higher Education, the contributions to the System shall be made on regular annual compensation of a member who is an employee of such entity or institution not to exceed the maximum compensation level in effect for the member as prescribed by law.

C. Employers paying contributions to the System pursuant to subsection A or B of this section shall receive credit for that portion of the gross production tax on natural gas and/or casinghead gas apportioned to the System pursuant to subsection 2 of Section 1004 of Title 68 of the Oklahoma Statutes in meeting the total required employer contribution. On an annual basis, the Board of Trustees of the Teachers' Retirement System of Oklahoma shall estimate the net additional cost required to be paid by the contributing employers in order to meet the total employer

contribution as provided in subsection A or B of this section. The Board of Trustees shall approve the amount of the additional contribution required to be paid by contributing employers as a percentage of total member salaries and fringe benefits for each fiscal year ending June 30, no later than April 1 of the previous fiscal year. In no event shall the additional contribution required to be paid by the contributing employer under this subsection be less than the contribution required under this subsection in the prior year. In the event actual contributions do not equal the required total contribution as provided in subsection A or B of this section, the net difference between the actual contributions and the required total contributions shall be determined and shall be included in the amount of the additional contribution required to be paid by contributing employers for the next fiscal year. All contributing employers shall pay the same percentage of total member salaries and fringe benefits during each fiscal year. The provisions of this subsection shall terminate June 30, 1999.

D. Any school district, state college or university, State Board of Education, State Board of Career and Technology Education, or other state agency may, for and on behalf of any member of the System, pay all or any portion of the contribution required by Section 17-108 of this title. Provided, the contribution so paid by any school district, state college or university, State Board of Education, State Board of Career and Technology Education, or other state agency shall be and remain subject to the withdrawal provisions set forth under the System. Wherever the term "contribution" is used, it shall be deemed to include contributions paid for and on behalf of a member by a school district, state college or university, State Board of Education, State Board of Career and Technology Education, or other state agency.

E. All participating employers shall provide a complete record of the total compensation paid to each employee, including any person who is a retired member of the System, whether or not employer and employee contributions are made with respect to such compensation. The employer shall provide the report required by this subsection on a monthly basis on a form or using such method as the Teachers' Retirement System of Oklahoma may require and shall provide a comprehensive annual report showing the correct compensation, service credit and contributions for the prior fiscal year. Each participating employer shall provide reasonable access to its payroll records, records of contribution payments to the System and all other records relevant to the participation of its employees in the System, to the System, its employees or authorized agents. A participating employer shall cooperate with auditors retained by the System to audit its financial statements or otherwise audit the financial operations of the System.

The amount required to be subtracted from the amount by which the employee's gross salary would otherwise be reduced pursuant to this subsection shall be subject to any applicable federal or state taxes. The employing district shall prepare its payroll records to reflect that the total employee contribution amount, for the salary not in excess of the applicable minimum salary amount, has been paid pursuant to a combination of the deduction from the member's salary and the amount credited to the employee contribution account of the member pursuant to subsection A of this section.

- (2) two percent (2%) of the member's average salary upon which member contributions were made, multiplied by the number of the member's years of credited service authorized and performed after June 30, 1995, or

3. Beginning July 1, 1997, seven percent (7%) of the regular annual compensation of the member not in excess of any applicable maximum compensation level of the member; and

4. All public schools in this state shall treat the employee contributions as being picked up under the provisions of Section 414

(h) (2) of the Internal Revenue Code of 1986 in determining tax treatment.

Subject to Internal Revenue Service approval, paragraph 4 of this subsection shall not apply to a comprehensive university group established on or before July 1, 1998, whose employee contributions were consistently treated as not picked up as of July 1, 1998, and at all times thereafter.

C. 1. Prior to July 1, 1995, an active member of the System may elect to have a maximum compensation level of Forty Thousand Dollars (\$40,000.00). Such an election shall be made in writing and filed with the System. Members whose salaries are in excess of Twenty-five Thousand Dollars (\$25,000.00) on July 20, 1987, shall file the election with the System prior to January 1, 1988. If a member makes such an election, the member shall contribute the following amounts:

- a. beginning July 1, 1992, through June 30, 1993, eleven percent (11%) of the regular annual compensation of such member that is in excess of Twenty-five Thousand Dollars (\$25,000.00) and is not in excess of Forty Thousand Dollars (\$40,000.00),
- b. beginning July 1, 1993, through June 30, 1994, nine percent (9%) of the regular annual compensation of such member that is in excess of Twenty-five Thousand Dollars (\$25,000.00) and is not in excess of Forty Thousand Dollars (\$40,000.00), and
- c. beginning July 1, 1994, through June 30, 1995, eight percent (8%) of the regular annual compensation of such member that is in excess of Twenty-five Thousand Dollars (\$25,000.00) and is not in excess of Forty Thousand Dollars (\$40,000.00). Except as provided in subsection E of this section, any such election shall be irrevocable.

2. After June 30, 1995, in addition to the amount contributed by each member to the retirement system pursuant to subsection B of this section, the total amount contributed by each member to the retirement system shall include, beginning July 1, 1995, through June 30, 1997, seven percent (7%) of the regular annual compensation of each member, who is not employed by an entity or institution within The Oklahoma State System of Higher Education, that is in excess of Twenty-five Thousand Dollars (\$25,000.00) and beginning July 1, 1996, through June 30, 1997, seven percent (7%) of the regular annual compensation of each member who is employed by an entity or institution within The Oklahoma State System of Higher Education in excess of Twenty-five Thousand Dollars (\$25,000.00),

but not in excess of any applicable maximum compensation level of the member.

D. 1. Any member who was a contributing member of the Retirement System between July 1, 1987, and June 30, 1995, who at the time the member was eligible to make an election to increase the maximum compensation level of the member, failed to make an election or chose not to increase the maximum compensation level of the member to Forty Thousand Dollars (\$40,000.00), may elect to make back contributions to the Retirement System. The member shall complete a new election form and file with the Board of Trustees, the form and a payment equaling the difference between the amount contributed at the twenty-five-thousand-dollar level and the appropriate contribution on compensation in excess of Twenty-five Thousand Dollars (\$25,000.00) up to a maximum of Forty Thousand Dollars (\$40,000.00) shall be made prior to the official retirement date of the member. The required payment shall include any contribution required by the employing school district, and shall include interest compounded annually at ten percent (10%) per annum of both employer and employee contributions.

2. Any changes made pursuant to this subsection shall be irrevocable.

E. 1. An individual who withdrew from the Teachers' Retirement System and whose salary was in excess of Seven Thousand Eight Hundred Dollars (\$7,800.00) and had elected to contribute only on Seven Thousand Eight Hundred Dollars (\$7,800.00) before his or her withdrawal shall contribute on the earning ceiling as provided for in this section on his or her reentry into membership in the Teachers' Retirement System.

2. An individual who elected to contribute on a maximum of Seven Thousand Eight Hundred Dollars (\$7,800.00) per annum shall, beginning July 1, 1979, contribute on his or her earning ceiling as provided for in this section.

3. Any member who elected to contribute on Seven Thousand Eight Hundred Dollars (\$7,800.00) prior to January 1, 1978, and whose salary was more than Seven Thousand Eight Hundred Dollars (\$7,800.00) during the school years 1974-75 through 1978-79 may elect to make back contributions to the retirement system by paying the five percent (5%) contributions on the difference between Seven Thousand Eight Hundred Dollars (\$7,800.00) and the actual salary of the member, not to exceed Ten Thousand Dollars (\$10,000.00) for each applicable school year, plus interest compounded annually at ten percent (10%) per annum. Such payment shall be made prior to the official retirement date of the member.

F. Each employer shall cause to be deducted from the salary of each member on each and every payroll of such employer for each and every payroll period, the proper percentage of his or her earnable

compensation as provided for in subsection B or subsection C of this section.

1. Deductions shall begin with the first payroll period of the school year. In determining the amount earnable by a member in a payroll period, the Board of Trustees shall consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and it may omit deductions from compensation for any period less than a full period, and to facilitate the making of deductions, it may modify the deduction required of any member by such an amount as shall not exceed one-tenth of one percent (1/10 of 1%) of the annual compensation upon the basis of which such deduction is to be made. Prior to January 1, 1991, any active contributing member who joined the System subsequent to July 1, 1943, may pay the normal cost, which shall mean the single sum which would have been paid under existing statutes at the time the service was performed, plus interest, for years of teaching service in Oklahoma from the date of establishment of the System in 1943 to date of membership, in a lump sum, or in installments equal to establishing one (1) year of creditable service. Effective January 1, 1991, any active contributing member who joined the System subsequent to July 1, 1943, may pay the amount determined by the Board of Trustees pursuant to Section 17-116.8 of this title for years of teaching service in Oklahoma from the date of establishment of the System in 1943 to date of membership, in a lump sum, or in installments equal to establishing one (1) year of creditable service. For purposes of this option, teaching service in Oklahoma shall include the teaching of vocational agricultural courses within Oklahoma for the federal government. Years for which contributions are paid shall count as membership service under this plan. A member may receive credit for not more than five (5) years of teaching service rendered while in the Peace Corps or in the public schools of a territory of the United States or the public schools, American Military Dependent Schools or state colleges or state universities outside this state by paying his or her contributions, plus interest, and membership fees to the retirement system, subject to the regulations of the Board of Trustees, providing he or she is not receiving and is not eligible to receive retirement credit or benefits from said service in any other public retirement system of this state, or any other state or territory of the United States subject to the following provisions:

- a. the member is required to have two (2) years of employed service teaching earned in Oklahoma for each year of Peace Corps, territorial, out-of-state, noncovered in-state or military membership credit granted.

- b. prior to January 1, 1991, the out-of-state or noncovered in-state payment shall be the normal cost, which means the single sum which would have been paid under existing law at the time the service was performed, plus interest, on the basis of what his or her annual salary would have been in Oklahoma or out of state, whichever is greater, had he or she been employed as a teacher. Effective January 1, 1991, the Peace Corps, territorial, out-of-state or noncovered in-state payment shall be the amount determined by the Board of Trustees pursuant to Section 17-116.8 of this title.

2. In addition to the deductions hereinabove provided for, any member who becomes a member of the Armed Forces of the United States of America during any period of national emergency, including World War II, the Korean conflict, the Vietnam conflict or others as may be determined by the Board of Trustees, or whose entrance into or training for the teaching profession was interrupted by his or her entrance into the Armed Forces, and who was or shall have become a member of the Teachers' Retirement System shall be granted the privilege of making up his or her five percent (5%) contributions as provided for in this section until January 1, 1991, for not to exceed five (5) years of service in the Armed Forces by electing to pay said contributions on the basis of the rate of pay in his or her contract as a teacher at the time his or her service in the Armed Forces commenced or in the case of a teacher who was not teaching prior to entering the Armed Forces, on the basis of the salary of the first year of teaching after being honorably discharged from the Armed Forces. Effective January 1, 1991, the member will receive such service upon payment of the amount determined by the Board of Trustees pursuant to Section 17-116.8 of this title. Such contributions shall be credited in the regular manner, and the period for which said contributions were paid shall be counted as creditable years of service and allocated to the period during which the military service was rendered, except that the period for which contributions were paid must have been continuous and shall be credited in the aggregate, regardless of fiscal year limitations. Notwithstanding any provision herein to the contrary, contributions, benefits and service credit with respect to qualified military service as defined by Section 414(u) of the Internal Revenue Code of 1986 shall be provided in accordance with Section 414(u) of the Internal Revenue Code.

3. Retirement benefits for all service credits purchased pursuant to this subsection shall be determined in accordance with the provisions of paragraph 2 of this subsection.

G. Effective July 1, 2004, the total creditable service of a member who retires or terminates employment and elects a vested

benefit shall include not to exceed one hundred twenty (120) days of unused sick leave accumulated subsequent to August 1, 1959. Twenty (20) days of unused sick leave shall equal one (1) month for purposes of creditable service credit. If the member becomes a member or was eligible to become a member prior to July 1, 1995, the year of credit received in this section shall be treated as service earned prior to July 1, 1995. This subsection shall apply to members retiring or vesting on or after the effective date of this act and shall not be retroactive.

H. Any member who:

1. Shall be absent from the teaching service because of election to the State Legislature or appointment to the executive branch in an education-related capacity shall be allowed thirty (30) days from the date as of which the person is officially elected or appointed to file an election with the Teachers' Retirement System to retain his or her membership in the Teachers' Retirement System upon payment of the contribution required of other members and employers of said members as provided for in this section and his or her service credits shall continue to be accumulated during such absence, provided he or she is not receiving retirement credits or benefits from said service beginning after July 1, 1992, in other public retirement systems; or

2. Became an employee of the Oklahoma Commission for Teacher Preparation on or subsequent to June 1, 2001, but prior to July 1, 2002, who was previously employed by a participating employer within the Teachers' Retirement System of Oklahoma, may elect to cancel any accumulated service credit accrued within the Oklahoma Public Employees Retirement System on or after June 1, 2001, but prior to July 1, 2002, by filing an election with the Oklahoma Public Employees Retirement System for the cancellation of such service credit. The election shall be irrevocable and shall require the Oklahoma Public Employees Retirement System to transfer all accumulated employer and employee contributions made on behalf of or by the person making such election to the Teachers' Retirement System for such period of time. The Teachers' Retirement System shall compute the employee contributions that would have been made to the System by such employee if the contributions had been computed pursuant to this section. In order to receive the full amount of creditable service for the period of time on or after June 1, 2001, but not later than June 30, 2002, the employee shall be required to pay any difference between the transferred employee contributions and the amount computed by the Teachers' Retirement System. The employee may make payment of any required amount in the manner provided by and subject to the requirements of Section 17-116.8 of this title. After payment of all required employee contributions, the Teachers' Retirement System shall credit the period of time represented by the transferred employee contributions

as creditable service within the meaning of Section 17-101 of this title. After the transfer of the employee contributions, the Oklahoma Public Employees Retirement System shall cancel any service credit previously accumulated for the period of time represented by such transferred employee contributions. Any person who makes the election provided for by this paragraph, and who continues employment with the Oklahoma Commission for Teacher Preparation on or after July 1, 2002, shall continue to accrue service credit in the Teachers' Retirement System of Oklahoma. The employer shall make employer contributions according to the requirements of Section 17-108.1 of this title and shall provide for the deduction of employee contributions as required by this section.

I. Any member who shall be absent from the teaching service because of election or appointment as a local, state or national education association officer, prior to January 1, 2011, shall be allowed to retain his or her membership in the Teachers' Retirement System upon payment of the contribution required of other members and employers of said members as provided for in this section and his or her service credits shall continue to be accumulated during such absence. Provided, however, any one such absence shall not exceed twelve (12) continuous years. No member who has less than ten (10) years of contributory service on July 1, 1994, may make this election after June 30, 1994. Members contributing to the System on July 1, 1994, may continue to contribute under this subsection until they have completed eight (8) years allowed by this subsection. The member may file for retirement when otherwise eligible for retirement as provided by Section 17-105 of this title.

J. A member may receive credit for those years of service accumulated by the member while employed by an entity which is a participating employer in the Oklahoma Firefighters Pension and Retirement System, the Oklahoma Police Pension and Retirement System, the Uniform Retirement System for Justices and Judges, the Oklahoma Law Enforcement Retirement System, or the Oklahoma Public Employees Retirement System, if the member is not receiving or eligible to receive retirement credit or benefits from said service in any other public retirement system. A member also may receive credit for those years of service with the Department of Wildlife Conservation or with an employer that is a participating employer within one of the state retirement systems specifically referred to in this section when at the time of such service by the member the employer was not such a participating employer, if the member is not receiving or eligible to receive retirement credit or benefits from said service in any other public retirement system. To receive the service credit provided in this subsection, the member shall pay the amount determined by the Board of Trustees pursuant to Section 17-116.8 of this title. For purposes of this subsection, creditable service transferred from the Oklahoma Public Employees Retirement

System shall include service authorized under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes as amended from time to time. Members who retire prior to July 1, 1993, shall have their monthly benefit adjusted to include all services accrued under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes. Provided however, any adjustment of existing retirement benefits caused by reason of inclusion of such service authorized under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes shall not affect any retirement benefit paid prior to July 1, 1993.

K. 1. An active member of the Teachers' Retirement System of Oklahoma may receive credit for those years of service accumulated by the member while a member of the Oklahoma Public Employees Retirement System if:

- a. the member is an active member of the Teachers' Retirement System of Oklahoma, and
- b. the member provides notice to the Oklahoma Public Employees Retirement System and the Teachers' Retirement System of Oklahoma of the member's election to transfer said service credit. The notice shall include a list of the years to be transferred, and
- c. the member is not receiving or eligible to receive retirement credit or benefits from said service in any other public retirement system, notwithstanding the years of service sought to be transferred under this subsection.

Members electing to take advantage of the transfer authorized by this subsection who are receiving or eligible to receive retirement credit or benefits from said service in any other public retirement system shall have all service credit with the Oklahoma Public Employees Retirement System canceled which is not transferred to the Teachers' Retirement System of Oklahoma or used as a cash offset in such a transfer pursuant to subparagraph d of paragraph 2 of this subsection. Service credit transferred to the Teachers' Retirement System of Oklahoma under this subsection shall also be canceled with the Oklahoma Public Employees Retirement System.

2. For purposes of this subsection, the "sending system" shall mean the Oklahoma Public Employees Retirement System. The "receiving system" shall mean the Teachers' Retirement System of Oklahoma.

- a. Within thirty (30) days notification of an intent to transfer is received by the sending system, the sending system shall, according to its own rules and regulations:
  - (1) for members who have accrued at least eight (8) years of credited service with the sending system, determine the present value of the

member's earned benefits attributable to the years of service sought to be transferred, discounted according to the member's age at the time of transfer and computed as of the earliest age at which the member would be able to retire. Said computation shall assume an unreduced benefit and be computed using interest and mortality assumptions consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation, but shall not make any projections regarding future salary. For employees who have accrued at least eight (8) years of credited service, the sending system shall use the product of this calculation for purposes of determining the transfer fee to be paid by the employee under subparagraph c of this paragraph so long as it is greater than the product of the calculation in division (2) of this subparagraph, and

(2) determine the sum of the employee and employer contributions applicable to the years of service sought to be transferred plus interest consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation. For all nonvested members, and for members who have accrued at least eight (8) years of credited service, if the product of this calculation is greater than the product of the calculation in division (1) of this subparagraph, the sending system shall use the product of this calculation for purposes of determining the amount to be transferred by the sending system under subparagraph c of this paragraph and any transfer fee to be paid by the member under subparagraph d of this paragraph.

b. Within thirty (30) days notification of an intent to transfer is received by the receiving system, the receiving system shall determine, according to the system's own rules and regulations, the present value of the member's incremental projected benefits discounted according to the member's age at the time of the transfer. Incremental projected benefits shall be the difference between the projected benefit said member would receive without transferring the service credit and the projected benefit after transfer of service credit computed as of the earliest age at

which the member would be able to retire. Said computation shall assume an unreduced benefit and be computed using interest, salary projections and mortality assumptions consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation.

- c. The sending system shall, within sixty (60) days from the date notification of an intent to transfer is received by the sending system, transfer to the receiving system the amount determined in subparagraph a of this paragraph. Except if the cost as calculated under subparagraph a of this paragraph is greater than the actuarial value of the incremental benefit in the receiving system, as established in subparagraph b of this paragraph, the sending system shall send the receiving system an amount equal to the actuarial value of the incremental projected benefit in the receiving system.
- d. In order to receive the credit provided for in paragraph 1 of this subsection, if the cost of the actuarial value of the incremental benefit to the receiving system is greater than the cost as calculated under subparagraph a of this paragraph for the same years of service to the sending system as established in subparagraphs a and b of this paragraph, the employee shall elect to:
  - (1) pay any difference to receive full credit for the years sought to be transferred, or
  - (2) receive prorated service credit for only the amount received from the Oklahoma Public Employees Retirement System pursuant to this subsection.

Such an election shall be made in writing, filed with the System prior to receiving the credit provided for in paragraph 1 of this subsection, and shall be irrevocable.

3. Within sixty (60) days of successfully completing all of the requirements for transfer under this subsection, the sending system shall pay the receiving system any amount due under this subsection. Within sixty (60) days of successfully completing all of the requirements for transfer under this subsection, the member shall pay the receiving system any amount due under this subsection. In the event that the member is unable to pay the transfer fee provided for in this subsection by the due date, the Board of Trustees of the receiving system shall permit the member to amortize the transfer fee over a period not to exceed sixty (60) months. Said payments shall be made by payroll deductions unless the Board of Trustees

permits an alternate payment source. The amortization shall include interest in an amount not to exceed the actuarially assumed interest rate adopted by the Board of Trustees for investment earnings each year. Any member who ceases to make payment, terminates, retires or dies before completing the payments provided for in this section shall receive prorated service credit for only those payments made, unless the unpaid balance is paid by said member, his or her estate or successor in interest within six (6) months after said member's death, termination of employment or retirement, provided no retirement benefits shall be payable until the unpaid balance is paid, unless said member or beneficiary affirmatively waives the additional six-month period in which to pay the unpaid balance.

4. Years of service transferred pursuant to this subsection shall be used both in determining the member's retirement benefit and in determining the years of service for retirement and/or vesting purposes. Years of service rendered as a member of the Oklahoma Public Employees Retirement System prior to July 1, 1992, if any, shall be deemed to be years of service rendered as a member of the Teachers' Retirement System of Oklahoma prior to July 1, 1992, and shall qualify such person as a member of the Teachers' Retirement System of Oklahoma before July 1, 1992.

5. Notwithstanding the requirements of subsection (5) of Section 917 of Title 74 of the Oklahoma Statutes, members electing to take advantage of the transfer authorized by this subsection who have withdrawn their contributions from the sending system shall remit to the sending system the amount of the accumulated contributions the member has withdrawn plus simple interest of ten percent (10%) per annum prior to making said election or the election shall be deemed invalid and the transfer shall be canceled. If such an election is deemed invalid and the transfer is canceled, the accumulated contribution remitted to the sending system by the member who originally withdrew their contributions shall be returned to the member. The member's rights and obligations regarding any service credit reestablished in the sending system due to a failure to satisfy the requirements of this subsection shall be determined by the sending system in accordance with Section 901 et seq. of Title 74 of the Oklahoma Statutes.

6. If any member fails for any reason to satisfy the requirements of this subsection, the election to transfer service credit shall be void and of no effect, and any service credited as a result of this transfer shall be canceled. If such service is canceled, the years of canceled service credit which were unsuccessfully transferred to the receiving system from the sending system shall be reestablished in the sending system. The member's rights and obligations regarding any service credit reestablished in the sending system due to a failure to satisfy the requirements of this subsection shall be determined by the sending system in

accordance with Section 901 et seq. of Title 74 of the Oklahoma Statutes.

7. The Board of Trustees shall promulgate such rules as are necessary to implement the provisions of this subsection.

L. Any member whose regular annual compensation was not determined as provided for by law may pay the member contribution required pursuant to subsection B of this section on such amount not included in the member's regular annual compensation and receive credit for such amount in the calculation of the member's benefit. The employees must pay the employer contributions required pursuant to Section 17-108.1 of this title. Interest at the rate of ten percent (10%) per annum shall be charged to both employee and employer contributions. Provided that the employing district may pay all or any portion of the contributions and interest the member is required to pay. Any payment by the employing district for a prior year obligation shall be considered a current obligation of the employer.

M.
