

BILL SUMMARY
2nd Session of the 57th Legislature

Bill No.:	HB 1546
Version:	Committee Substitute
Request Number:	
Author:	Rep. Martinez
Date:	2/21/2020
Impact:	\$0

Research Analysis

HB 1546 voids any provision in a contract or subcontract related to architectural, licensed engineering, or licensed land surveying services, which requires an entity or its insurer to indemnify another entity against death, bodily injury or property damage out of negligence. This would not affect a contract or agreement if lawful indemnification does not exceed an amount proportionate to the degree for which the indemnitor is legally responsible, nor any obligation under workers' compensation coverage.

Prepared By: Sean Webster

Fiscal Analysis

HB 1546 in its current form is expected to have no direct fiscal impact on the state budget or revenues.

Prepared By: John McPhetridge

Other Considerations

None.
