Research Analysis

HB 2618 requires a public body that collects personally identifiable data to make available on its website what data is being collected, how it is stored, and with whom the public body shares the information.

Fiscal Analysis

HB 2618 in its current form, adds to the list of information agencies are required to publish on their Internet website. For purposes of this impact it is assumed that all agencies periodically perform website maintenance. Adding the information required by HB 2618 to websites during regularly scheduled website maintenance should have no material fiscal impact on state agencies. HB 2618 in its current form has no direct fiscal impact on the state budget or revenues.
