Fiscal Analysis

The CS on SB 1068 directs all revenue received from the District Attorneys' supervision and 991 fees be deposited into the General Revenue Fund.

The funds are currently kept with the respective district attorneys' offices around the state. In FY-18, the supervision fee brought in \$12 million and the 991 fee brought in \$8 million.

The District Attorneys Council for FY-20 will be appropriated \$20 million in general revenue to make up for this fee revenue loss.
