Research Analysis

SB 1768 authorizes the formation of health districts composed of multiple county health departments, in order to share resources to improve public health. The measure authorizes boards of county commissioners to contract with any other board of health or board of county commissioners to provide public health services. Counties are authorized to combine county property tax funds and establish a central operating hub county for the disbursement of funds. Each county's investment will be reserved for the investing county's health initiatives.
