Research Analysis

SB 24 amends the definition of a handgun within the Oklahoma Self-Defense Act to exclude any firearm with an overall length of 26 inches or more. The measure also amends the definition of a shotgun to allow barrels with a length of less than 18 inches provided the overall length of the firearm is 26 inches or more. The definition of sawed-off-shotguns excludes firearms with an overall length of 26 inches or more. Both definitions of a shotgun and sawed-off-shotgun are amended to simplify the use of propellants to only include a combustible propellant charge. The definition of pistols or handguns is also amended to reflect the definition of such firearms found in the Oklahoma Firearms Act of 1971.
