

Bill Summary
1st Session of the 57th Legislature

Bill No.:	SB 156
Version:	INT
Request No.:	1124
Author:	Sen. Simpson
Date:	01/04/2019

Bill Analysis

SB 156 requires the State Commissioner of Health to develop rules related to the establishment of minimum requirements for data collection for responses to time-sensitive medical conditions. Responses to stroke and ST-Elevated Myocardial Infarction (STEMI) incidents shall be subject to review by regional trauma advisory boards.

Additionally, the measure exempts regional trauma advisory boards from the provisions of the Open Meetings Act or discovery by subpoena if the meeting is conducted for the purpose of reviewing patient-specific care.
