Fiscal Analysis

FY'20 Impact: \$3,911,000.00 Cost to the General Revenue Fund

Full Year Impact: \$3,911,000.00 Cost to the General Revenue Fund

Currently 100% of the Mixed Beverage Gross Receipts Tax goes to the General Revenue Fund. This measure lowers that percentage to 95% with the remaining 5% going to a new fund called the Uncompensated Care Fund which will provide reimbursement for uncompensated care at federally qualified community health centers.
