Research Analysis

The Floor Substitute to HB 2667 allows two-wheeled motorcycles to lane filter which allows a motorcycle to overtake and pass another vehicle that is stopped in the same lane and direction of travel as the overtaking motorcycle. The operator of the motorcycle may lane filter when on a roadway with lanes that are wide enough to pass safely, is not operated at a speed in excess of ten miles per hour when overtaking or passing the stopped vehicle, and the conditions permit the reasonable and prudent operation of the motorcycle while lane filtering.
