Research Analysis

The proposed committee substitute for HB 3019 allows medical marijuana packaging to be clear in order for consumers to view the product inside the container, so long as the container is child-resistant. The measure also allows dispensaries to put medical marijuana products in an *exit package*, defined in the measure as an opaque bag provided at the point of sale. All medical marijuana packaging must include a warning that says "For use by licensed medical marijuana patients only" and "Keep out of reach of children."
