Research Analysis

FA1 for HB3330 adds that if the adopted person's citizenship is in question, then the State Department of Health will prepare a certificate of foreign birth.

HB3330 requires the State Department of Health to issue a certificate of foreign birth without language that would place the child's citizenship status in question in situations in which the adopted child's United State citizenship status is not in question. The State Department of Health will promulgate rules and make any internal policy changes which reflect this subsection.
