<b>Date:</b>	<b>5/12/2022</b>
<b>Impact:</b>	<b>Please see previous summary of this measure</b>

**Research Analysis**

The conference committee substitute for HB 4055 requires public utilities report to the Oklahoma Medical Marijuana Authority (OMMA) the amount of any commodity supplied by the public utility to licensed medical marijuana grow operations. The reports are to be submitted monthly in an electronic format integrated with OMMA's seed-to-sale software. The measure directs OMMA to develop rules and procedures for metering the usage of water and electricity by growers that are not supplied by public utility companies, including the usage of well water and gas-powered generators. Refusal or failure to submit the reports or use of an unpermitted water source by a grower will result in the permanent revocation of the grower license.
