**Research Analysis**

HJR 1038, as introduced, proposes a constitutional amendment to be referred to the people. The amendment would require any state question submitted to popular vote that requires an increase in expenditures of any branch or department of state government to require approval of 60% of those voting in order to become effective. Proponents of an initiative petition would be required to obtain certification from the State Auditor & Inspector whether the proposal would or would not increase state expenditures.
