

BILL SUMMARY
2nd Session of the 58th Legislature

Bill No.:	SB 1110
Version:	PCS 1
Request Number:	11318
Author:	Rep. Kerbs
Date:	4/12/2022
Impact:	\$0

Research Analysis

The PCS by Representative Kerbs authorizes the Oklahoma Department of Agriculture, Food, and Forestry to fund universities to study methods of conducting remote inspections of meat and poultry products. If ODAFF determines there is suitable technology, it is to apply for approval with the appropriate federal agency. If approved, ODAFF shall promulgate rules for a university-conducted pilot program for remote inspections and the footage is to be kept confidential by the university and ODAFF. Remote inspections are for intrastate commerce only, unless the federal agency approves it for interstate commerce.

Fiscal Analysis

According to the Oklahoma Department of Agriculture, Food and Forestry, this measure does not create a fiscal impact.

Given the language, "provided that there is available funding" in the proposed committee substitute, does not alter the fiscal impact of the measure, as it does not require funding commitment by the Legislature.
