Research Analysis

FA1 to SB 14 adds a new section 2 to the measure to discontinue the use of the supplemental payroll on the PeopleSoft system by the Central Human Resources Unit of the Department of Corrections. The measure requires that all employees of the Department of Corrections have their paychecks processed and issued through the main payroll system.

Fiscal Analysis

The first floor amendment to the measure adds language that prohibits the Department of Corrections from utilizing the state supplemental payroll system. The measure requires all DOC employees to have their paychecks processed and issued through the state main payroll system.

Upon review and with consultation from the Office of Management and Enterprise Services and DOC, the measure could have a fiscal impact.

By prohibiting the use of the supplemental payroll system, the measure could lead to instances where DOC employees on a monthly payroll are overpaid. This would require DOC to collect the overpayment from employees, incurring potential costs to DOC. The ultimate impact of the measure is unknown.
