Research Analysis

SB 1511 prohibits any medical marijuana commercial grower from being within 1,000 feet of any public or private school, as measure from the nearest property line of the school to the nearest property line of the licensed grow operation. Grow operations are also prohibited from adjoining to or being located at the same physical address of any public or private school. Grow operations that met these requirements at the time of its initial licensure will be permitted to continue operation at its licensed premises. Additionally, if a school is established within 1,000 feet of a grow operation after the operation has been licensed, these requirements will not be a deterrent to renewal of the license or warrant revocation of the license.
