Research Analysis

Engrossed SB383 creates a private right of action by a social media website user within Oklahoma if the website deletes or censors a user's political or religious speech or uses an algorithm to suppress political or religious speech. The website would be immune from liability under this measure for deleting or censoring, or using an algorithm to disfavor, speech that calls for immediate acts of violence, is obscene or pornographic, is the result of operational error, is the result of a court order, comes from an inauthentic source or involves false impersonation, entices criminal conduct, involves bullying of minors, or violates copyright or other intellectual property. The website would also not be liable under this measure for a user's censoring of the speech of another user.
