**Bill Analysis**

HB 2184 removes language placing the Highway Construction Materials Technician Certification Revolving Fund under the Board of the Department of Transportation and provides that the Fund shall be under the authority of the Department. The measure also modifies the purpose of the Fund by removing language providing that the Fund shall be used for the examination and the execution of the powers and duties of the Board. The Fund shall instead be used for the certification of individuals seeking to become registered as highway construction materials technicians. The measure also repeals the provisions of the Oklahoma Highway Construction Materials Technician Registration Act.
