Bill Analysis

The FS for SB 1033 provides for medical marijuana establishments to maintain a building within 1000 feet of a new school building provided the license for such an establishment was granted prior to the establishment of the building. The measurement shall be based on the distance in a straight line from the school door nearest the front door of the retail marijuana establishment to the front door of the retail marijuana establishment. The Medical Marijuana Authority shall not deny any issuance or renewal of licensure, deny any transfer of licensure due to a change in ownership, or revoke any license due to mistake in measurement by the Authority. The FS authorizes municipalities to object to the continued licensure of the grandfathered medical marijuana dispensary when it is operating contrary to the required setback distance from a public or private school. Upon the municipal government providing the required documentation outlined in the measure, the Authority shall not renew or transfer the medical marijuana dispensary license and shall cause the license to be revoked.
