Bill Analysis

The FS for SB 1225 requires providers to obtain parental consent prior to providing any pregnancy-related services to a minor including contraceptives or family planning counseling unless the minor is or has been pregnant or if the minor meets other existing criteria. Family planning counseling that involves discussion of abortion will require parental consent regardless of whether the minor is or has been pregnant, unless the minor meets other existing criteria. The FS also requires parental consent prior to vaccination of a minor. It amends the Parents' Bill of Rights to mirror the changes.
