**Bill Analysis**

SB 1331 provides that any person in possession of a valid handgun license shall be authorized to carry a concealed handgun into or upon any public college, public university, or public technology center school property or building in which the person is authorized to be. A person in possession of a valid handgun license shall not be denied the right to carry a concealed handgun unless evidence is shown that the licensee has previously been involved in a violent incident or an act that showed deliberate or reckless disregard for the health or safety of the faculty, staff, students, or any other person. Listed entities may prohibit a person not in possession of a handgun license from carrying a concealed handgun on campus. Technology centers are exempt from any liability arising from individuals carrying firearms on campus except in cases of gross negligence or willful or wanton misconduct. Private entities may restrict carrying concealed firearms on campus. No public or private college, university, or technology center is responsible for any loss or damage of any firearm or accessories at any time.
