Bill Analysis

SB 1372 creates the Equal Protection and Equal Justice for All Oklahomans Act. The measure defines abortion as homicide and removes various exceptions relating to abortion. It provides certain protections if a physician attempts to prevent the death of an unborn person or pregnant woman. The measure also directs the Attorney General to direct state agencies to enforce the state's abortions laws regardless of opinions and judgments of the Supreme Court of the United States and regardless of any federal statute or rule. Additionally, the state's prosecutors shall prosecute any abortion as a homicide. The measure voids all federal statutes, regulations, court rulings, executive orders, and treaties that overrule the measure. Any judge in the state who purports to enjoin, stay, overrule, or void any provision of this measure shall be subject to impeachment.
