**Bill Analysis**

SB 1526 modifies the term “advertisement” as it relates to the Oklahoma Subdivided Land Sales Code to include material published or designed for use in social media or a newspaper, magazine or other periodical, radio, television, telephone solicitations or tape recordings, videotaped displays, signs, billboards, motion pictures, telephone directories other than routine listings, websites, other public media, and any other written or electronic communication distributed or made generally available to customers or the public. The measure accordingly strikes language referring to licenses to use advertisements on subdivided land sales and updates current law to reflect the change.
