Bill Analysis

SB 1755 requires the Oklahoma Medical Marijuana Authority to determine if all relevant local licenses and permits have been issued by the municipality prior to issuing an applicant a marijuana business license. Additionally, the Authority must determine if all necessary inspections and reviews have been completed prior to issuing the license. If an applicant has not received the necessary permits, certificates, or licenses from a municipality, or has not completed the necessary inspections or reviews, the Authority may issue a provisional license. Provisional licensees are not entitled to operate a medical marijuana business. Once the Authority determines all licenses and permits have been issued and that the applicant completed all necessary inspections, the Authority shall issue a full license to the provisional licensee.
