

Bill Summary
1st Session of the 58th Legislature

Bill No.:	SB 351
Version:	INT
Request No.:	1395
Author:	Sen. Hamilton
Date:	01/12/2021

Bill Analysis

SB 351 requires a practitioner to offer to administer a pharmacogenomic test to a patient prior to the prescription of any psychotropic drug. The practitioner is required by the measure to inform the patient that pharmacogenomic tests have not been approved by the Food and Drug Administration. The practitioner must obtain the patient's informed consent prior to ordering a pharmacogenomic test and shall provide an estimate to the patient if the practitioner is aware of the cost.
