

Bill Summary
1st Session of the 58th Legislature

Bill No.:	SB 696
Version:	INT
Request No.:	592
Author:	Sen. Standridge
Date:	01/22/2021

Bill Analysis

SB 696 authorizes licensed pharmacists to compound 1 or more nonsterile preparations for office use by a licensed practitioner. Such preparations must use nonprescription ingredients for over-the-counter use by customers. The amount that may be kept in stock is capped a 2 weeks' worth of supply. Pharmacists may ship the compound to customers within the state, including marijuana if the manufacture and processing of marijuana is legalized by the federal government.
