**Fiscal Analysis**

SB 536 SB 536 would not directly impact general revenue. All dollars generated from increased maximum penalties would be deposited with the Pipeline Enforcement Fund. Historically the Corporation Commission averaged one incident of a fine being levied per year, but rarely was the maximum fine levied. Based on that information the Pipeline Enforcement Fund could receive on average up to an additional \$100,000 per year, but based on historic precedent likely will not.
