Fiscal Analysis

SB 567 allows the Department to offer a maximum of \$10,000 for reimbursement of funeral costs for those National Guard, police, state troopers, firefighters and first responders who die while serving on a state-specific and state managed mission. In the past 10 years, there have been 8 deaths by active duty state law enforcement. If all would have qualified, this would lead to a maximum annual impact of \$8,000.
