11 for care on the day care was provided.

12 B. A health benefit plan must pay a contracted health care  
13 provider at the contracted payment rate for a health care service  
14 provided by the health care provider per a prior authorization,

3 5. The patient was no longer eligible for health care coverage  
4 on the day the care was provided.

5 SECTION 10. NEW LAW A new section of law to be codified  
6 in the Oklahoma Statutes as Section 6570.9 of Title 36, unless there  
7 is created a duplication in numbering, reads as follows:

8 A. If a prior authorization is required for a health care  
9 service, other than for inpatient care, for the treatment of a  
10 chronic condition of an enrollee, then the prior authorization shall  
11 remain valid for at least six (6) months from the date the health  
12 care provider receives the prior authorization approval, unless  
13 clinical criteria changes and notice of the change in clinical  
14 criteria is provided as stipulated in this act.

15 B. If a prior authorization is required for inpatient acute  
16 care for the treatment of a chronic condition of an enrollee, then  
17 the prior authorization shall remain valid for at least fourteen  
18 (14) calendar days from the date the health care provider receives  
19 the prior authorization approval.

20 1. If an enrollee requires inpatient care beyond the length of  
21 stay that was previously approved by the utilization review entity,  
22 then the utilization review entity shall evaluate any prior  
23 authorization requests for the continuation of inpatient care  
24 according to the provisions of this act. A utilization review

1 entity shall not use any stricter criteria to determine medical  
2 necessity and appropriateness of the continuation of inpatient care  
3 as the utilization review entity used to evaluate the initial  
4 request for authorization of inpatient care. A utilization review  
5 entity shall review any relevant and pertinent literature or data  
6 provided by the health care provider to determine the medical  
7 necessity and appropriateness of the requested length of stay and/or  
8 continuation of inpatient care. A prior authorization for the  
9 continuation of inpatient care shall remain valid for a maximum of  
10 fourteen (14) calendar days from the date the health care provider  
11 receives the prior authorization approval.

12 2. If a utilization review entity fails to respond to a health  
13 care provider's timely prior authorization request for the  
14 continuation of inpatient acute care before the termination of the  
15 previously approved length of stay, then the health benefit plan  
16 shall continue to compensate the health care provider at the  
17 contracted rate for inpatient care provided until the utilization  
18 review entity issues its determination on the prior authorization  
19 request.

20 For the purposes of this section, a timely request for  
21 continuation of inpatient care means a request that is submitted at  
22 least seventy-two (72) hours prior to the termination of the  
23 previously approved prior authorization and includes all necessary  
24

1 information for the utilization review entity to make a  
2 determination.

3 3. If a utilization review entity issues an adverse  
4 determination to a health care provider's prior authorization  
5 request for continuation of inpatient acute care and the health care  
6 provider appeals the adverse determination according to the  
7 provisions of this act, then the health benefit plan shall continue  
8 to compensate the health care provider at the contracted rate for  
9 inpatient care provided until the appeal has been finalized.

10 C. This section does not require a health benefit plan to cover  
11 care, treatment, or services for a health condition that the terms  
12 of coverage otherwise completely exclude from the policy's covered  
13 benefits without regard for whether the care, treatment, or services  
14 are medically necessary.

15 SECTION 11. NEW LAW A new section of law to be codified  
16 in the Oklahoma Statutes as Section 6570.10 of Title 36, unless  
17 there is created a duplication in numbering, reads as follows:

19 from the enrollee or from the enrollee's health care provider, a  
20 utilization review entity shall honor a prior authorization granted  
21 to an enrollee from a previous utilization review entity for at  
22 least the initial sixty (60) days of an enrollee's coverage under a  
23 new health plan.

24

1 B. During the time period described in subsection A of this  
2 section, a utilization review entity may perform its own review to  
3 grant a prior authorization or make an adverse determination.

4 C. A utilization review entity shall continue to honor a prior  
5 authorization it has granted to an enrollee when the enrollee  
6 changes products under the same health insurance company for the  
7 initial sixty (60) days of an enrollee's coverage under the new  
8 product unless the service is no longer a covered service under the  
9 new product.

10 SECTION 12. NEW LAW A new section of law to be codified  
11 in the Oklahoma Statutes as Section 6570.11 of Title 36, unless  
12 there is created a duplication in numbering, reads as follows:

13 If any provision of this act or the application thereof to any  
14 person or circumstance is held invalid, such invalidity shall not  
15 affect other provisions or applications of the act which can be  
16 given effect without the invalid provision or application, and to  
17 this end, the provisions of this act are declared to be severable.
