15 there is created a duplication in numbering, reads as follows:

16 A. The Legislature finds that artificial intelligence (AI) has
17 the potential to be of much benefit to the citizenry. Potential
18 problems in the application of AI, however, do not stem around the
19 concept of AI but rather the programming of any AI function,
20 otherwise known as the human element.

21 B. The Legislature finds that the fight over the control and
22 use of AI and its direction will affect every aspect of citizen
23 interaction within society. It encapsulates more than just AI. It
24

1 also encapsulates biotechnology and higher forms of AI that drive to
2 the singularity.

3 C. The Legislature finds that, in order to protect the
4 unalienable rights of all citizens, some restrictions must be
5 identified to ensure that their freedoms, privacy, and liberty are
6 fully protected.

7 D. AI and other related biotechnology shall not be used to
8 discriminate based on race, ethnicity, sex, gender, age, political
9 party, party affiliations, or individual interests.

10 E. Government, business, or any agent representing such shall
11 not use AI and biotechnology applications to:

- 12 1. Determine who shall live and who shall die in any life
13 situation;
- 14 2. Determine who shall or shall not receive medical care or the
15 level of such care;
- 16 3. Determine who shall or shall not receive insurance coverage
17 and the amount of such coverage;
- 18 4. Replace a citizen worker unless a citizen worker of equal
19 value is employed elsewhere within the state as an offset. Equal
20 value shall be determined by calculating the worth of an employee's
21 salary, full- or part-time status, and benefits. Any worker
22 replaced by AI shall receive six (6) months' pay and a benefits
23 package;

1 5. Monitor the habits of or determine any decisions in a court
2 of law; and

3 6. Determine outcomes in all forms of gambling within state
4 boundaries.

5 F. Government, business, financial institutions, or any agent
6 representing such shall not use citizen tax dollars, savings, or
7 pension funds to fund any AI or biotechnology application without
8 prior individual written approval or a majority vote of the
9 citizenry.

10 G. Government, business, financial institutions, or any agent
11 representing such shall notify the citizenry in writing within
12 ninety (90) days after the effective date of this act detailing if
13 their tax dollars, savings, or pension funds are currently being
14 used for any aspect of AI research or implementation.

15 SECTION 10. NEW LAW A new section of law to be codified
16 in the Oklahoma Statutes as Section 12007.9 of Title 74, unless
17 there is created a duplication in numbering, reads as follows:

18 Should government, business, financial institutions, or any
19 agent representing such violate any of the provisions of this act,
20 such entity or individual shall be held liable for such violation by
21 a court of competent jurisdiction. Such entity or individual
22 violating the provisions of this act must show immediate just cause
23 for such violation to a court of competent jurisdiction. Such
24 entity or individual violating the provisions of this act shall pay

1 for any legal fees for citizens affected by such violation, even
2 prior to final judgment. Such entity or individual found guilty of
3 violating the provisions of this act shall be responsible for the
4 payment of restitution and any penalties as shall be determined by a
5 court of competent jurisdiction.

6 SECTION 11. It being immediately necessary for the preservation
7 of the public peace, health or safety, an emergency is hereby
8 declared to exist, by reason whereof this act shall take effect and
9 be in full force from and after its passage and approval.
