Research Analysis

The proposed committee substitute for HB1130 allows a sales tax exemption for qualifying broadband equipment to remain operational without the enactment of a incentive award formula required by current law.

Current law requires the exemption to cease for equipment purchases made on or after January 1, 2024 unless the Legislature adopted an incentive award formula recommended by the Rural Broadband Expansion Council by January 1, 2023. The incentive award formula would have been used to allocate \$42 million that was set aside for any sales tax exemption rebate claims.
