Research Analysis

HB 1445, as introduced, requires school districts that have issued a bond proposal to post certain information on their website 30 days prior to the bond vote. The required information includes:

- Copy of the bond proposal, including each project to be funded;
- A description of each project; and
- The estimated cost for each project.

The school district must keep the information posted to the website for the duration of any approved bond, and must update it when there is a change order or construction modification.
