**Research Analysis**

The proposed committee substitute for HB1617 creates the Oklahoma Public Finance Protection Act, requiring fiduciaries and designated proxy voting firms of a public pension plan to vote and exercise their duties solely in the pecuniary interest of plan participants and prohibits the consideration of non-pecuniary factors unless they present economic risks or opportunities that qualified investment professionals would treat as material economic considerations under generally accepted investment theories. Non-pecuniary is defined as any action taken or factor considered by a fiduciary with a purpose to further environmental, social or political goals.

If the boards of a pension plan chooses to use proxy services, the selected firm or provider must sign a written commitment to act based only on pecuniary factors.

The measure also establishes reporting requirement for proxy voting, which must be reported and tabulated annually and posted on a public website.

Additionally, the measure empowers the Attorney General to enforce the act and provides civil immunity to all officers, board members and employees of any state pension plan for any act or omission related to the act.
