Fiscal Analysis

As written the measure would apply a \$10,000 increase to each step of the current minimum salary schedule and extend the current salary schedule to 35 years from 25 years.

Based upon the most recent certified staff available, this would apply to 51,861. After factoring in the raise, the 10-year extension, and an additional 17.15% for state matches for FICA and TRS, it is estimated that the measure would have an impact of \$629,585,706 for FY24.
