Fiscal Analysis

This measure expands the bases for peace officer discipline and will potentially add additional work to the compliance and legal offices of the Council on Law Enforcement and Education Training (CLEET). This work includes reviewing allegations and conducting investigations as necessary, drafting notices in appropriate cases, conducting administrative hearings, drafting final orders, and defending appeals in cases. All of these actions are currently undertaken by the existing personnel within CLEET but creating additional bases will likely create more cases. Officials with CLEET estimate the impact would be an addition of 10% of time from a field representative/investigator, legal assistant, and attorney. The following analysis was provided by CLEET:

Position	Base salary + benefits	10%
Field Rep/Investigator	\$45,150	\$4515
Legal assistant	\$42,000	\$4200
Attorney	\$77,300	\$7730
TOTAL		\$16,445
