Fiscal Analysis

This measure creates new felony offenses to protect certain municipal agents from various types of assault by imposing mandatory fines and/or imprisonments for those convicted of such offenses. The mandatory fines have the potential to generate between \$2,000-\$5000 per conviction for the Administrative Office of the Courts (AOC). The mandatory imprisonments range from 1 year to 5 years per conviction. However, the frequency of convictions for a new crime is not predictable.

In its current form, HB2966 has the potential to generate new fines and fees for the AOC, and new imprisonments for the DOC at a cost of \$16.60/day per inmate to be absorbed by existing budgetary resources, or both per conviction. This is not anticipated to have a material impact on state budget or appropriations.
