Research Analysis

The proposed committee substitute for HB 3074 directs the State Board of Education to review the average teacher salary in neighboring states every odd-numbered year. If the average teacher salary in surrounding states is higher than in Oklahoma, the legislature must introduce a bill for a teacher pay increase. The bill will pass committee, proceed directly to the floor in each chamber, and be scheduled for debate within five legislative days. After the debate, a roll call vote is required within three legislative days. If passed, the bill becomes law upon enactment.

Fiscal Analysis

The measure in its current form is not anticipated to result in an immediate, direct negative fiscal impact on the state budget or appropriations. However, future teacher compensation increases would very likely result in a negative fiscal impact.
