

BILL SUMMARY
2nd Session of the 59th Legislature

Bill No.:	HB 3317
Version:	Introduced
Request Number:	9090
Author:	Rep. Bashore
Date:	1/25/2024
Impact:	\$0

Research Analysis

House Bill 3317, as introduced, requires that in cases of investigations or interviews involving elder or vulnerable adult abuse victims, at least one team member must undergo dementia-specific training on Alzheimer's disease and related dementia. The measure stipulates that the training should encompass areas such as communication skills, problem-solving related to challenging behaviors, or an explanation of Alzheimer's disease and other types of dementia.

Prepared By: Matthew Brenchley

Fiscal Analysis

HB 3317 adds a requirement to the multidisciplinary elderly and vulnerable adult abuse team. Specifically, this measure adds that at least one multidisciplinary team member shall complete dementia-specific training on Alzheimer's disease and related dementia.

Upon review, this measure makes no changes to the provision that the authorized creation of multidisciplinary teams only occur subject to the availability of funding. Such changes modify the make-up of such teams, but do not directly effect funding levels for the program. This measure is not anticipated to directly impact the state budget or appropriations.

Prepared By: Zach Lein, House Fiscal Staff

Other Considerations

None.
