**Research Analysis**

The subcommittee recommendation for HB 3329 requires public and charter schools with 6th through 12th grades to provide free menstrual products in all female, single-use, and standalone handicapped bathrooms as well as a neutral location such as a nurse's office or administrative office. Schools with grades below 6th are required to provide menstrual products solely in a neutral location.

**Fiscal Analysis**

As written, the measure is not anticipated to result in a negative fiscal impact on the state budget or appropriations. However, there may be some additional costs incurred by the independent school districts.
