Fiscal Analysis

HB 3886 requires Service Oklahoma to develop and maintain a database of information on buyers to whom motor vehicle dealers issue a temporary license plate in the purchase of a new or used vehicle. This measure also requires the development of a metal temporary license plate, which Service Oklahoma would charge a dealer a fee to cover the cost to produce the plate. Service Oklahoma estimates the total implementation of this measure to cost Sixty-One Thousand dollars (\$61,000.00) and take approximately five to eight weeks to complete. It is expected that Service Oklahoma would absorb this cost within current budgetary resources.
