Research Analysis

The committee substitute for SB11X modifies the Oklahoma Tourism and Recreation Commission by removing its status as an advisory board. The Commission is now the governing authority for the agency and has the ability to appoint the executive director and set their salary. Commission members are allowed to be removed by the Governor with cause.

Fiscal Analysis

This measure transfers appointing power of the Oklahoma Department of Tourism and Recreation Director from the Governor to the Oklahoma Department of Tourism and Recreation Commission (Commission). It also grants additional powers to the Commission. This change will likely create additional meetings of the Commission, which the Department will financially support from their agency funds.
