Research Analysis

The Engrossed version of SB 1535 modifies the Low Carbon Energy Initiative Program. The measure adds research and development in the area of nuclear energy to the program's core tasks. The Program's Board membership is also expanded from 11 to 13. One new board member must represent an electric utility regulated by the Corporation Commission and the other must represent the nuclear energy industry.

Fiscal Analysis

This measure makes a few statutory changes to the Low Carbon Energy Initiative. These changes do not create a fiscal impact for the state.
