Research Analysis

The engrossed version of SB 499 provides that failure to timely submit requested information to the Oklahoma Broadband Office will render an Internet service provider or public entity ineligible to receive assistance from the Office for one year.

Fiscal Analysis

The Oklahoma Broadband Office is currently financed through federal funds from various sources. This measure prohibits entities that do not supply certain information to the office in a timely manner from being able to apply for grants funded by federal funds. As the measure is a prohibition on applying for federal funds, there is no fiscal impact to the state budget from this measure.
