

BILL SUMMARY
1st Session of the 59th Legislature

Bill No.:	SB773
Version:	Engrossed
Request Number:	
Author:	Rep. Miller
Date:	4/11/2023
Impact:	\$0

Research Analysis

SB 773 establishes that the Oklahoma Advanced Mobility Pilot Program is to focus on developing and improving transportation technologies such as advanced ground transportation, autonomous ground vehicles, advanced air mobility vehicles, and autonomous vertical take-off or landing vehicles. Also, the Program is to seek to enhance the interaction between modes of transportation to ensure Oklahomans are best prepared for the advancement of future technologies. The measure allows for the Department of Transportation to select certain government entities, such as cities, counties and tribal governments, to receive two matching grant awards of up to \$500,000 each to aid in the adoption of advanced mobility technologies. Additionally, the measure creates the Oklahoma Advanced Air Mobility Revolving Fund to be used to invest in advanced air mobility and unmanned aircraft systems and associated infrastructure.

Prepared By: Keana Swadley

Fiscal Analysis

SB 773 redefines the scope of the Oklahoma Advanced Mobility Pilot Program and entrusts the Oklahoma Department of Transportation (ODOT) to identify and select government entities to participate in the program. Per ODOT, this change has no direct fiscal or revenue considerations for the state.

This measure also creates the Oklahoma Advanced Air Mobility Revolving Fund for the purpose of investing in advanced air mobility and unmanned aircraft systems and associated infrastructure, under the direction of the Oklahoma Aeronautics Commission (OAC). As this measure does not directly appropriate any funds into this revolving fund, this section has no direct fiscal or revenue considerations for the state at this time.

Overall, this measure as is creates no direct fiscal or revenue impact to the state.

Prepared By: Jay St Clair, House Fiscal Staff

Other Considerations

None.
