

Bill Summary
2nd Session of the 59th Legislature

Bill No.:	HB 3194
Version:	ENGR
Author:	Sen. Howard
Date:	03/27/2024

Bill Analysis

HB 3194 directs the Oklahoma Water Resources Board to require that all water wells requiring a permit to take and use groundwater from the Oklahoma Water Resources Board be equipped with water well flow meters or an alternative measuring system. The measure provides that a 5-year allocation of the maximum annual yield of the basin or subbasin may be approved for a regular permit beginning January 1, 2025.
