

Bill Summary
2nd Session of the 59th Legislature

| | |
|---------------------|-------------------|
| Bill No.: | SB 1494 |
| Version: | INT |
| Request No.: | 2469 |
| Author: | Sen. Rader |
| Date: | 12/20/2023 |

Bill Analysis

SB 1494 lowers the qualification threshold for the expansion of aircraft maintenance facilities as they relate to the sales tax exemption for the purchase of computers, data processing equipment, related peripherals, and telephone, telegraph, or telecommunications services and equipment from \$5 million to \$2 million as well as the employee requirement from 250 to 125 full-time employees. The measure strikes the requirement for the item to equal or exceed \$2 million to qualify for the exemption.
