**Bill Analysis**

SB 1766 lowers the age a person may obtain instruction in a driver education program from 15 to 14 years of age. The measure also authorizes public school districts, technology center districts overseen by the Oklahoma Department of Career Technology Education, institutions of higher education, and commercial driver training schools to serve as written proctors for various licenses. The measure directs Service Oklahoma to publish a schedule for the subsequent calendar year of courses and trainings to become designated examiners, as well as available slots for such courses and trainings. Such courses and trainings shall occur no less than twice per year. The measure also creates a 4-year driver school license and establishes a fee of \$100.00 for such a license.
